Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings.			July 1 to Latest Date	
	Week or Month.	Current Year.	Previous Year.	Current Year.	Previous Year.

Net Earnings Monthly to Latest Dates.—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get a return of this character, and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say, about the 20th of the month. *Besides the Companies furnishing monthly returns, we have added this time the roads which make quarterly returns.*

Roads.	Gross Earn'gs Current Year.	Gross Earn'gs Previous Year.	Net Earnings Current Year.	Net Earnings Previous Year.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

d The company now includes earnings of the Denver Enid & Gulf RR. Pecos Valley System and Santa Fe Prescott & Phoenix Ry. in both years For March taxes and rentals amounted to $214,994, against $186,945 in 1906, after deducting which, net for March 1907 was $2,891,571, against $2,339,293 last year. From July 1 1906 to March 31 1907 taxes and rentals were $1,879,073 against $1,801,079 last year.

h For March 1907 additional income was $9,781, against $3,992 in 1906, and from July 1 to March 31 was $45,560 in 1906-7, against $42,492 in 1905-6.

k For March 1907 additional income was $12,145, against $16,772 in 1906, and from July 1 1906 to March 31 1907 was $176,374 in 1907, against $137,863 in 1905-6.

n These figures represent 30 % of gross earnings.

y For March additional income and net profits from coal, &c., were $56,-325 this year, against $98,497 last year: and from July 1 to Mch. 31 were $490,310 this year, against $635,197 last year.

o Including other income, total income (exclusive of results of coal companies) for March is $1,173,032 in 1907, against $1,247,109 in 1906, and for period from July 1 to March 31 is $10,813,673 in 1907, against $10,233,-290 in 1906. Deductions from total income for additions and improvements were $143,825 in March 1907, against $129,762 in 1906, and for July 1 to March 31 were $1,499,729 in 1907, against $1,033,948 last year.

p For March additional income was $614 in 1907, against $2,052 in 1906 and from July 1 1906 to Mch 31 1907 was $25,640, against $17,308 last year.

s Includes $454 other income for April 1907, against $444 in 1906, and from July 1 to April 30, $4,514 in 1907, against $4,704 last year.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below these charges:

a Charges here include road rental (paid by lessee) and other deductions.

b Included in fixed charges are expenditures for renewals, additions and improvements amounting to $152,542 for April, against $89,791 in 1906, and to $1,014,939 from July 1 to April 30 1907, against $1,411,773 last year.

d These figures are after allowing for other income and for discount and exchange. The sum of $10,000 is deducted every month from surplus and placed to the credit of the Renewal Fund.

x After allowing for other income received.

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. *b* Figures are from Feb. 1. *c* These figures are for consolidated company. *d* These are results for main line. *f* Now includes Rapid Ry. Syst., Sandwich Windsor & Amherstburg Ry. and Detroit Monroe & Toledo Short Line Ry. *h* These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept. 5 1906.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of April 26 1907. The next will appear in the issue of June 1 1907.

On a subsequent page will be found the particulars regarding the company's new note issues, and in connection with our tables of gross and net earnings of street railway companies on a subsequent page will be found the report of the New York City Ry. for the quarter and also the nine manths ending March 31.—V. 84, p. 1182, 868.

United States Smelting, Refining & Mining Company.

(Report for Fiscal Year ending Dec. 31 1906.)

President W. G. Sharp, April 24 1907, wrote in substance:

Stock Dividends.—Stock dividends received from the American Exploration Co. have not been included in the profits for the year, but have been applied to reduce the cost per share of your investment in stocks of these companies. These dividends were as follows: 16,016 shares of Real del Monte Mining Co., par value $25 per share; 50,050 shares, par value $5 per share, and $50,050 7% gold bonds of Peruvian Mining, Smelting & Refining Co.

Production 7%.—The tonnage of ore produced from your own mines (Centennial-Eureka, Mammoth and United States Mining) was 361,133 tons, of which the values of the metal contents were in proportion of 55% copper, 6% lead, 18% silver and 21% gold.

Balance Sheet.—The consolidated balance sheet below sets forth the combined assets and liabilities of the company and its subsidiary companies, which are as follows:

(1) The United States Mining Co., which owns either the whole or a majority of the stocks of: United States Smelting Co., Centennial-Eureka Mining Co., Mammoth Copper Mining Co., United States Stores Co., United States Lime Co., United States Metals Refining Co.; also one-half of the stock of the International Metals Selling Co. and a majority of the stock and bonds of the Niagara Mining & Smelting Co.

(2) Your company owns all the preferred stock and a majority of the common stock of the American Exploration Co. and substantial holdings in the Richmond-Eureka Mining Co.

(3) Your company owns (including the stock dividends received from the American Exploration Co. referred to above,) nine-tenths of the stock of the Real del Monte Mining Co., acquired at a total cost of $3,554,382.

(4) Your company purchased during the year 50,000 shares and $50,000 7% gold bonds of the Peruvian Mining, Smelting & Refining Co. for $100,000 cash. It also received a stock dividend of 50,050 shares and $50,050 bonds of this company, on which it has placed no value. The result of these transactions is to record on its books $100,050 7% gold bonds valued at $100,000, and 100,050 shares of stock (or slightly more than 25% of the entire capital stock) on which no value is placed.

There has been paid and charged to capital account for construction and other additions to property in 1906, $1,664,637, classified as follows:

Real estate and refineries at Chrome and Grasselli	$798,193
Smelter buildings and plant at Bingham Junction, Mammoth and Chrome	679,664
Mine equipment and buildings	109,878
Railroad and tramway construction	50,807
Mining properties and claims	26,095

There has been charged off from cost of properties the accumulated surplus of the United States Mining Co. and its subsidiary companies amounting to $1,725,779, less underwriting commission paid in connection with subscriptions to new stock amounting to $696,676, making the net amount charged off from the value of your properties on the books $1,029,103.

The liabilities from one company to another are eliminated from both liabilities and assets. The excess of current quick assets over current liabilities on Dec. 31 1906 was $10,358,242.

Capital Stock.—There has been issued:

	Com. Stock.	*Pref. Stock.*
In exchange for stock of United States Mining Co. and its subsidiary companies	$7,033,450	$20,981,412
Agreement with Boston & Cleveland Co. conveying interests in mines in Nevada and California and executing contract with American Exploration Co. conveying to that company interests in mines in Mexico and Peru	500,000	
Issued (at par—Ed.) for cash	10,003,400	2,503,400
Total	$17,536,850	$23,484,812

The $12,506,800 cash received on stock subscriptions was disposed of as follows

Cash payments for United States Mining Co. stock	$559,312
Investment in stocks of American Exploration Co., Real del Monte Mining Co., Richmond Eureka Mining Co., and Peruvian Mining, Smelting & Refining Co.	4,286,877
Underwriting fees paid	696,676
Development of mine in California	19,033
Loan secured by metal certificates	270,000
Loans to subsidiary companies for working capital	4,686,942
Cash in bank and on hand (including $181,000 received on stock subscriptions since Dec. 31 1906)	2,486,663
Other receipts, less payments, deficit	198,704

The total number of preferred stockholders is 3,532 and of common stockholders 958 at this date.

Bonds.—There are outstanding $500,000 6% debentures of the United States Mining Co., maturing in 1909.

Depreciation Fund.—The sum of $200,000 has been set aside out of the surplus earnings of the United States Metal Refining Co. to provide for depreciation of its property at Chrome, and there have been further charged against the earnings of the combined companies for the year $244,744, to provide for depreciation accrued on buildings, plant and equipment.

General.—During the past year your directors have authorized, in California, an enlargement of the Mammoth smelter; the construction of a converting plant; the acquisition of additional mining claims adjoining the Mammoth mine; the construction of a railroad to connect the mine and the smelter; the lease of the Quartz Hill mines and the construction of a railroad to connect these mines with the Southern Pacific Rlt. They have authorized, in Utah, the acquisition of several mining claims and many additions to the smelter, especially with the hope of avoiding the smoke trouble; they have caused the construction of a lead refinery at Grasselli, near Chicago; have authorized the purchase of additional land adjoining the copper refinery at Chrome, N. J., a 50% enlargement of that plant, and the construction of a complete smelting and converting plant at Chrome.

Your directors voted to exercise the option to purchase an 80% interest in the stock of the Real del Monte Mining Co., which, with its share of the profits of the Exploration Company, gives your company substantially a 90% interest in that property. This plant has begun operations, and should be in full operation in the early fall.

Your company decided not to extend its operations into South America to the extent of becoming responsible for the operations of properties there, but joined to a limited amount in subscribing to the stock of the Peruvian Mining, Smelting & Redning Co., which was formed to acquire the Churrueca mines in Peru. This subscription, together with its share of profits in the Exploration Company, gives your company the ownership of one-fourth of the outstanding stock of the Peruvian Company. This property should also begin operation in the coming fall.

EARNINGS AND OPERATIONS OF ALL COMPANIES FOR YEAR 1906.

P.C.	*Bullion Produced.*		*Average Price.*	*Value.*
45	Copper	33,856,287 lbs.	$0.1947	$6,591,068

Anaconda Copper Mining Company.

(Report for Fiscal Year ending Dec. 31 1906.)

This company, a majority of whose $30,000,000 is owned by the Amalgamated Copper Co., reports as follows through its President, John D. Ryan, under date of Butte, Mont., April 30 1907:

General Results.—All departments were in continuous operation during the year and the showing in profits is very satisfactory.

The company treated at the reduction works an increased amount of ore for other companies, thus reducing the cost of treating its own product.

On account of the higher price for copper received during the year, there has been a greater proportion of lower-grade ores mined, and the reserves of the higher-grade ores have been increased largely. Through the economies introduced and the higher price for copper it was possible to mine at a profit ore 1% lower in copper value than the lowest grade considered profitable during the last few years.

Settlement of Litigation.—The extensive litigation between your company and others operating in the Butte district has been almost entirely settled and the advantages of peace and co operation with other large mining interests will be a great factor in permitting rapid development and lower costs of operation. In the settlement of disputes concerning ownership of ore bodies, your company acquired by purchase the Belmont claim and the lots in the Belmont and Leggat & Foster additions to Butte, which overlie it and are tributary to the Belmont shaft. It is intended to equip this as a large three-compartment shaft and connect it on all important levels with the Anaconda mines, thus providing additional outlet for ore.

Labor Conditions.—Since the close of 1906 contracts have been entered into with labor unions holding in their membership nearly all of the employees in and about our mines and works. These contracts provide for the scale of wages in effect before November 1906, when electrolytic copper sells below 18 cents per pound, and an increase in pay when copper sells above 18 cents per pound. The term of contract is five years from April 1 1907.

Mines.—The development of the mines has been pushed as fast as possible and additional depth has been attained with several of the important shafts. The mines operated were the same as in the previous year, with the addition of the Belmont after July 1. The 2,200 and 2,400 foot levels of the Anaconda, the 2,200 Never Sweat and the 2,000 St. Lawrence, on all of which the main Anaconda vein was cut during 1905, are now opened and ready for stoping. Very little ore has been taken from these levels to date. The width and value of the veins at these depths is very satisfactory.

The mines produced 1,450,601 wet tons of ore during the year.

Reduction Works.—The reduction works treated for all companies 3,006,910 dry tons of ore and other cupreous material; of this, 1,431,828 tons of ore, 18,496 tons of slimes, 3,321 tons of flue dust, 165,516 tons of slag and 654 tons of miscellaneous cleanings from the old works were treated for your company, from which there was produced 91,963,835 pounds of copper, 2,979,908,376 ounces of silver and 15,954,900 ounces of gold. All of this product was in the form of anodes and was shipped to the seaboard for refining.

Additional blast furnace capacity and MacDougal roasting furnaces were added during the year and still further extensions to blast furnace and converter plants are under construction. The electrical equipment at the concentrator has been completed and the power costs at that plant will show a large reduction the coming year. An experimental plant to leach the tailings in the dumps at the old works was in operation during part of the year with gratifying results. With any reasonable price for copper

the yield from working the tailings should be large for many years to come. An increased product of arsenic has been recovered from flue dust and a good price is being received for it on contract for the entire output of the plant.

Subsidiary Departments.—The subsidiary departments made profits of $387,615 for the year.

The coal mines at Belt produced 291,851 tons of coal, of which 152,305 tons were shipped to other departments of the company, 116,470 tons were sold and 23,076 tons were used by the coal department.

The saw-mills at Hamilton cut 39,832,867 feet of lumber and timber, of which 4,545,223 feet went into company use and 35,287,644 feet were sold. On account of the good quality of the lumber produced at Hamilton it is profitable to sell as much of it commercially as possible and purchase timber and lumber for mining uses from outside mills.

The brick department at Anaconda has much improved its product and business, the silica and fire brick finding ready market at all smelting centers in the Intermountain and Pacific Coast territory.

Butte Anaconda & Pacific Ry.—The railway transported during the year 4,615,146 tons of ore and freight and 195,630 passengers; gross earnings were $1,187,837; operating expenses, $755,735; taxes, interest on bonds and rental on leased lines, $89,908; net income, $342,194. A dividend of 6 % on the capital stock was paid, amounting to $60,000, leaving a surplus profit for the year of $282,194.

Four additional locomotives, 100 steel dump ore cars and 75 flat cars have been ordered.

The comparative tables of earnings and balance sheets were given in V. 84, p. 1181.

United States Rubber Co., New York City.

(*Report for Fiscal Year ending Mar.* 31 1907.)

President Samuel P. Colt, under date of Mar. 21 1907, says in substance:

Six-Year Comparison.—Your President has now served the company for the past six years. In 1901 the company was paying no dividends upon any of its stocks; it is now paying full dividends upon its preferred stocks. The net sales for the year ending March 31 1901 were $20,853,634; its net sales for the year ending March 31 1907, exclusive of the Rubber Goods Mfg. Co., were $39,715,731, and with the sales of the latter company of $19,737,121, were $59,452,851. The net profits of the company for the year ending March 31 1902 were $119,496 and for the year ending March 31 1907 were $4,590,383, with but $689,308 of the Rubber Goods Company's profits of $2,004,484 included. The surplus of the company, which was then nominal, is now $6,126,706.

Volume of Business and Profits.—The volume of business and the net profits of the company and its subsidiaries for the late fiscal year are the most satisfactory of any year in our history, and when considered in connection with the operations of the Rubber Goods Mfg. Co., the showing is still further improved.

Rubber Goods Manufacturing Co.—The net profits of the Rubber Goods Mfg. Co. for the year 1905 were $1,358,485, while for the year 1906 the profits were $2,004,484. Of this profit there is but $689,308 included in the report of our Treasurer appended hereto. The volume of business done by the Rubber Goods Co. also increased $2,074,668 over the previous year.

The United States Rubber Co. and the Rubber Goods Mfg. Co. have further united their operations in purchasing, selling and manufacturing, to the great benefit of both companies. The executive offices of both corporations are now located at 42 Broadway, New York City. Practically the whole of the common stock of the Manufacturing Co. has now been exchanged for the second preferred stock of the United States Rubber Co. There is about $3,000,000 of the preferred stock of the Manufacturing Co. still unexchanged, as to which your directors have thought it as well to take no action, at least for the present.

Maintenance, &c.—Our extensive manufacturing plants have been maintained in the best condition, and many improvements made during the year, the cost being charged to operating expenses.

To accommodate our increased business some new construction has been found necessary, and at certain of our factories new buildings are now in course of erection, among which is a large wire-insulating plant at the national factory at Bristol, R. I.

General Rubber Co. and Crude Rubber.—Great advance has been made during the year in the development of our facilities for providing through the General Rubber Co. for very large consumption of crude rubber. In addition to houses previously established, we have added during the year those of Wm. Symington & Co., Limited, at London and Liverpool, through which we have our representatives in the principal crude rubber markets of Europe. Our Para and Manaos houses now draw direct on our London house in payment for certain of our rubber purchases, thus saving bankers' commissions heretofore paid. We also have further developed our facilities whereby we get 'nearer the tree" in procuring a part of our supply of crude rubber. The General Rubber Co. has added a selling department to its facilities during the year.

Relations with Continental Rubber Co.—A suggested consolidation with the Continental Rubber Co. was deemed by your directors to be non-advisable in the present development of the so-called mechanical process of obtaining crude rubber through the grinding up of shrubs producing the gum, which is done extensively by the Continental Rubber Co., but that company and the General Rubber Co. have now agreed upon the terms of an arrangement which insures complete harmony and co-operation hereafter between the United States Rubber Co. and the Continental Rubber Co. and between those connected with both companies.

There have been transactions of the company of importance to stockholders in which your President and some of the directors have participated.

Outlook.—Owing to the generally severe winter just passed, there is every indication of a largely increased business in rubber footwear the coming year. The market is bare of goods, and our unfilled orders are 60.5 % greater than they were at this time last year. In the miscellaneous lines of rubber goods equally favorable conditions exist, and there is every promise that the year to come will be the most prosperous in our history.

CONSOLIDATED INCOME ACCOUNT OF THE UNITED STATES RUBBER CO. AND ITS SUBSIDIARY COMPANIES.

	a1906-07.	a1905-06.	1904-05.

—V. 84, p. 343, 808.

American Pneumatic Service Co., Boston.

(*Report for* 15 *months ending March* 31 1907.)

The report covers at much length the history of the company in connection with the establishment of its pneumatic mail system and further says (compare earnings and balance sheet in V. 84, p. 1181, and statement to New York Stock Exchange in V. 83, p. 34):

Reticence Necessary.—Your directors have not felt free till this time to discuss the affairs of the company, for on account of the uncertain conditions anything said might have been misinterpreted.

Parcel Delivery.—Before we obtained contracts for mail service, we had constructed in Boston a system 10 inches in diameter, extending from the central part of the city to the Back Bay, South End, Roxbury and Dorchester districts of Boston, and were engaged in distributing parcels and packages from stores and for the general public as well. The necessity, however, of holding the parcels sent by tube until the bulkier ones arrived by wagon, so that there might be a simultaneous delivery, made this method of transportation, although lower in cost than any other device, if the tube could be worked to its fullest capacity, unprofitable when working under any other conditions. After little more than a year's use, we were able to lease these lines to the Government, and they have since been employed in carrying mail. The parcel-delivery business is carried on with wagons in the hope of obtaining sufficient business to make it a good investment.

Improvement in Mail Tubes.—In constructing our mail systems in Chicago, Boston and St. Louis, the numberless curves in the streets were at first overcome by "brass bends" or tubes bent to make the required curve. These bends wore out after two or three years and bends of cast-iron were adopted. The result is that the interruptions in mail-tube service, which greatly increased the cost of operation, frequently necessitating the opening of streets and rendering us subject to fine, have become comparatively few, and the efficiency and reputation of the service have been made permanent.

Control of New York City Companies—Exclusive License of Batcheller Patents Outside of Philadelphia, Camden and West Virginia.—The tube systems in New York City, together with the only two charters granted by the Legislature of New York State for this kind of business have been purchased upon terms which we considered very advantageous, see below and V. 82, p. 394)), placing us in possession of the contract and company for mail-tube service in every city in which it was authorized, except Philadelphia, and enabling us to obtain the use of the only patents other than our own of any value in street or mail-tube business. These last were acquired from the Batcheller Pneumatic Tube Co. by way of exclusive license for the whole United States, except Philadelphia and Camden, N. J., where these interests own the mail-tube system, and West Virginia, where the Batcheller Company is organized. (Compare International Pneumatic Tube Co., Philadelphia, in V. 84, p. 1055). Thus we have acquired all the contracts for mail service, except Philadelphia, supported and protected by franchises from the larger cities, viz.: New York, Chicago, Boston and St. Louis. There have also been constructed several smaller systems through the streets for the transmission of Associated Press dispatches, telegrams and the like. All pneumatic tube contracts with the Government are now made for a period of 10 years. (V. 83, p. 1100, 40.)

Boston Contract.—The contract between the Boston company and the United States which expired Oct. 31 1906 was for 6.89 miles, at an annual rental of $16,000 per mile, making a total annual compensation of $110,240.

(*Boston*) *Rentals.*	*Op. Exp.*	*Net.*	(*Boston*) *Rentals.*	*Op. Exp.*	*Net.*
1903---- $54,159	$58,423	def. $4,264	1905---- $110,240	$73,105	$37,135
1904---- 95,046	67,588	27,458	1906---- 110,712	72,801	37,911

The earnings were badly cut into during 1905 and 1906 by the changes made necessary by the location of the subways in Boston, the cost of these changes having been charged against earnings. The new contract for ten years beginning Nov. 1 1906 gives us a compensation of $113,089 per year, without increase in operating expense.

Chicago Contract.—The contract between the Chicago company and the United States, which expires June 30 1907, was for 8.88 miles, at an annual rental of $13,471 per mile, making a total annual compensation of $119,625.

(*Chicago*) *Rentals.*	*Op. Exp.*	*Net.*	(*Chicago*) *Rentals.*	*Op. Exp.*	*Net.*
1904---- $20,733	$15,951	$4,782	1906---- $119,625	$99,130	$20,495
1905---- 116,855	117,753	def. 898			

Much of the time the cost of operation has been unusually heavy on account of two bad river crossings, the necessity of changing brass bends to cast-iron bends, and because of inadequate location of the power plant. All these matters are now to a large extent remedied, and the improvement will be noticed in earnings for 1906. Under the new contract which begins July 1 1907 the compensation for the same amount of service will be $150,960 annually, without increase in operating expenses. The system at present operated is between the General Post Office, the railway depots and the packing district, wherein probably the heaviest volume of mail in this whole country is carried. With the extension to the outlying districts under the new contracts, operating expenses will be much less, thereby increasing the proportion of net earnings. This remark is equally true as to all other large cities.

St. Louis Contract.—The contract between the St. Louis company and the United States, which expires June 30 1907, was for 2.09 miles, at an annual rental of $15,570 per mile, making a total annual compensation of $32,541. This system extends from the General Post Office to the Union Station and has always been operated under normal conditions. It presents, therefore, what can fairly be expected of this service, the results being:

(*St.Louis*) *Rentals.*	*Op. Exp.*	*Net.*	(*St.Louis*) *Rentals.*	*Op. Exp.*	*Net.*
1904---- $14,760	$7,651	$7,109	1906---- $32,541	$19,083	$13,458
1905---- 32,541	17,915	14,626			

Actual Net Earnings of the Postal Tube Systems for the Year 1906.

	Boston.	*Chicago.*	*St. Louis.*	*Total.*
Net earnings	$37,911	$20,494	$13,457	$71,862
Mileage	6.89	8.88	2.09	17.86

Total Income on New Basis.—For the same service in Boston, Chicago and St. Louis, without any increase in operating expense, we receive under the new contracts $34,170 additional per annum, which, added to th present net earnings of $71,862, makes total net earnings under the present new 10-year contracts of systems already operated of $106,035 for 17.86 miles, or $6,049 per mile. The total mileage required in the 10-year contracts is 55.92, upon which at the same rate of net earnings per mile obtained from the districts where operating expense is the largest in the cities named, the total net earnings would amount to $338,260. It is fair to assume that the net earnings will be increased by less expense of operating in outlying districts and by savings already referred to. If to this amount there be added the annual dividends to us from the Lamson Company of $129,976, the total annual earnings when construction is completed should be not less than $468,236.

New York Contract.—The contract between the New York company and the United States expired Oct. 31 1906. It was for 24.653 miles, at an annual rental of $16,799 per mile, making a total annual compensation of $414,145. Of this system there had been constructed only 6.853 miles, and the total compensation received was $115,125 per annum. The company owning the larger part of the system constructed was put in the hands of receivers Sept. 20 1905, and was finally acquired by the American Company through its subsidiary, the New York Pneumatic Service Co. (V. 83, p. 1102), on June 5 1906, now the present contractor for this service with

the United States. This system, extending from the General Post Office to the 42d St. Station, and across the Brooklyn Bridge to the General Post Office in Brooklyn, included a multitude of brass bends. Every brass joint has since been eliminated, and the system has been put in good condition. Under the new contract now in force, 26.89 miles are included at the gross rental of $457,130 per year. The system when completed will extend as far north as 125th St., traversing both the east and west sides of the city. We have constructed the system on the west side as far as 42d St., and are building from 42d St. to 57th St., and from 57th St. to 90th St., and shall complete the system during this year. The expense of operating the system north of 42d St. will of necessity be less than the expense of operating those south of 42d St. The earnings as far as we have been able to obtain information about them have been as follows:

(N. Y.)	Rentals.	Op.Exp.	Net.	(N. Y.)	Rentals.	Op.Exp.	Net
1903	$114,770	$113,148	$1,622	1905	$93,467	$87,791	$5,67[illegible]
1904	115,123	99,257	15,867	1906	93,895	96,275	def.2,38[illegible]

Economies.—To save on the cost of tubes, we established a boring plant at Camden, N. J., and bought our own pipe at the foundry, thus making our own tubes at the minimum of cost. To save freight charges on pipe for Western points, we established another plant at Addyston, Ohio, in the yard of the foundry where we purchased pipe. The only shops we maintain are the small ones in each city for making and repairing carriers.

From this time out it can reasonably be expected that our earnings will show many increases.

Store Service.—The Lamson Consolidated Store Service Co. owns some twenty companies which have been acquired from time to time during the past twenty years, and it has at all times been subject to competition, often sharp and severe.

Because of increased business, the Lamson Company has had to carry a large stock of material, the amount on hand in 1899 being $256,174, and for 1906 $516,078. The requirements for additional machinery and manufacturing facilities and in constructing leased plants has also constantly absorbed the money earned, so that while the Lamson Company has in the past eight years earned and paid dividends of 8%, it has become necessary for the American Company to finance the Lamson Company on account of the growth of its business and the necessity of constructing leased plants.

Construction.—The financial situation of this company regarding its contracts with the local companies for the construction of the systems in Chicago and New York, which comprises all the construction we are called upon to make under our contracts with the Post Office Department, seems to us very satisfactory. The material paid for in New York is not less than $250,000; the amount already expended is $456,000; we have on hand in cash and bonds for sale over $300,000, and we feel we shall have need of no other money for the completion of this contract in New York City. The pipe and specials for Chicago are all paid for, and as the construction of the system already in operation in Chicago, which is larger in mileage than that to be constructed, cost less than $100,000, the work to be done is not of considerable amount; and this, with blowers and motors and some terminals, remains to be provided for.

The financial requirements of the company, therefore, for construction in hand are not serious in amount, nor will they in our judgment increase capitalization.

See financial statement in V. 84, p. 1181, also report of accountant on a subsequent page of this issue, and compare V. 83, p. 34.

General Asphalt Company, Philadelphia.

(Report for Fiscal Year Ending April 30 1907.)

President John M. Mack, under date of May 21 1907, says:

General Results.—The net earnings for the year are $233,573. In addition there is an item of profit amounting to $70,000 which, in the opinion of the directors, should have been included in the earnings of the year and which, if so included, would have made a total net earnings for the year of $303,573. The Audit Company of New York, however, decided that this item should not be included in the earnings of 1906-07, but in those of 1907-08, and the accounts have been made up accordingly.

The shrinkage of earnings in 1905 was explained by the conditions related in the last annual report, and the still greater shrinkage in 1906 is due principally to the same causes, aggravated by general trade conditions, inadequate and unsatisfactory supply of labor, materials at advanced prices, and, as a minor cause, the interference in paving operations in Philadelphia by the then Director of Public Works. The cumulative effect of the conditions described seems to have cleared the atmosphere to no inconsiderable degree, as instanced by the higher bids that have been submitted for street paving in the various cities in the United States this season. That they should continue at or as near the actual cost level as during the preceding two years was not to be expected, and it appears that paving contractors do not intend longer to make suicidal war upon this company. Our paving operations extend to all the large and many of the small cities of the United States, and in recent years the total volume of business has increased enormously.

The company has made progress in the manufacture of roofing felts, ready-made roofings, mastic and other articles of commerce composed wholly or in part of asphalt. The establishment of a plant for this purpose in connection with the principal refinery of the Barber Asphalt Paving Co. at Maurer, N. J., was referred to in our first annual report. The growth in the volume of sales, both foreign and domestic, in this department thus far in 1907 as compared with the same period in each of the two preceding years is phenomenal.

Barber Asphalt Paving Co.—Property account, consisting of asphalt deposits, real estate and plants, as of Jan. 31 1907, is $6,055,672, as compared with $5,758,376 Jan. 31 1906, an increase of $297,296.

On Jan. 31—	1907.	1906.	1905.	1904.
Current liabilities (includ. bills & accts payable)	$1,931,975	$670,860	$546,993	$1,584,225
Collateral loans	1,554,664	1,405,921	1,652,193	2,572,982
Current assets (incl. cash, supplies, tax liens, &c.)	5,379,542	4,878,026	4,827,507	5,912,117

New Trinidad Lake Asphalt Co., Ltd.—This company was engaged during the year in the mining and sale of Trinidad Lake Asphalt, sending its products to the United States, Europe and South America, by far the greater part of which was sold to the Barber Asphalt Paving Co. in the form of crude asphalt.

New York & Bermudez Company.—Our latest advices indicate that for the first time within a twelvemonth there seems to be a disposition on the part of the Court of First Instance to bring the so-called revolutionary suit for damages to argument and decision, possibly by the 23d instant. If this is so, it may be due to possible political changes, or to apprehension that the United States will renew its demands on behalf of the New York & Bermudez Company. What the State Department may further say to the Venezuelan Government is not known to the company, or what action it may take, nor when, but that some progress will be made to rectify this atrocious wrong and at no distant day is a firm anticipation. (Compare last annual report.)

Bonded Debts.—The debentures of the New Trinidad Lake Asphalt Co., Lim., have been reduced from $1,674,220 Jan. 31 1906 to $1,628,630 on Jan. 31 1907, by the sinking fund. The 6% debentures of the Barber Asphalt Paving Co. amount to $882,100. The 6% gold bonds of the New York & Bermudez Co., amounting to $250,000, are owned by the New Trinidad Lake Asphalt Co., Limited.

Reserves.—The reserves for maintenance of pavements under guaranties, depreciation of accounts and securities, and fire insurance of all companies amounted to $3,334,666 on Jan. 31 1907, as compared with $3,746,151 as of Jan. 31 1905 and $4,059,135 as of Jan. 31 1905. The reduction is due chiefly to the adoption by many large municipalities of a shorter term of guaranty and the consequent necessity for smaller reserves.

National Contracting Co.—The report refers to the litigation between the National Contracting Co. and the Hudson River Water Power Co. (See item in "Chronicle," V. 84, p. 870; V. 83, p. 754 and General Asphalt Co., V. 82, p. 1208.)

The suit against the Niagara Falls Power Co. for $397,661, which was temporarily delayed during 1905 by the death of the referee and was resubmitted to a substitute referee during 1906, has been argued and is awaiting decision.

Dividends.—On Sept. 1 1906 the company paid its second preferred dividend of 2%; its third dividend of 1% was paid on March 1 1907.

Crow's Nest Pass Coal Co., Limited, Toronto.

(Report for Fiscal Year ending Dec. 31 1906.)

The 10th annual report, signed by President Geo. A. Cox and General Manager G. G. S. Lindsey, says:

The coal mined this year amounts to 806,901 tons as against 831,249 tons mined in 1905. The production of coke amounted to 213,295 tons as against 257,702 tons in 1905. The difference in production is due to the strike which commenced on the 22d of September and lasted for practically two months. Had the strike not occurred, and the average been maintained, the output would have reached the million-ton mark for the year.

During the year there has been spent on improvements the sum of $137,293 by the Coal Company, $11,880 by the Electric Light & Power Co. and $20,996 by the Morrissey, Fernie & Michael Railway Co., or a total on improvements of $170,169.

The contract existing between the company and its employees expired on April 1 1907.

FISCAL RESULTS.

	1906.	1905.	1904.	1903.

Sears, Roebuck & Co., Chicago, Ill.

(*Official Statement of Nov.* 12 1906.)

The statement made to the New York Stock Exchange upon the listing of the company's shares says in substance:

Organized under the laws of New York State June 16 1906. Capital stock, $40,000,000, of which $10,000,000 is preferred and $30,000,000 common. "The preferred stock shall be entitled to receive, and said corporation shall be obligated to pay out of the net or surplus profits arising from the business, a cumulative dividend at the rate of but not exceeding 7% per annum, the first year beginning July 1 1906, and the same shall be paid or set apart before any dividend shall be paid or set apart on the common stock. Should such net or surplus profits accumulated at any dividend day be insufficient to pay such dividend on all of the then outstanding preferred stock, such dividend shall be payable out of the future net or surplus profits, and no dividend shall at any time be payable on the common stock until dividends at the rate of 7% per annum from July 1 1906 shall have been delcared or set apart on all of the then outstanding preferred stock. Until $1,000,000 shall have been set apart as surplus profits, no dividend shall be declared on the common stock, but thereafter dividends may be declared, but not in excess of 4% in any year until an additional $1,500,000 shall have been set apart as surplus profits, and after the sum of $2,500,000 shall as aforesaid have been set apart as surplus profits, dividends may be declared at such rate as the board of directors may determine; it being the intent hereof that in declaring any dividend on the common stock there shall be no impairment of said surplus profits.

The preferred stock may not be increased without either the consent in writing of the affirmative votes of stockholders owning at least three-fourths of the outstanding preferred stock, and three-fourths of the outstanding common stock. The preferred stock, or any part thereof, and in case less than the whole, then the pro rata proportion of the outstanding preferred stock held by each of the preferred stockholders, may be redeemed at any time out of the net or surplus profits at the pleasure of the board of directors at $125 per share plus all unpaid accrued dividends. Upon dissolution or liquidation the par value of the preferred stock and unpaid accrued dividends shall be paid before any assets shall be applied on the common stock.

At all elections for directors each stockholder shall be entitled to as many votes as shall equal the number of his shares multiplied by the number of directors to be elected. He may cast all of such votes for a single director or may distribute them among the number to be voted for or any two or more of them as he may see fit. The corporation shall not mortgage or create any lien upon any of its property without the written consent or affirmative votes of at least three-fourths of the outstanding preferred stock, but this prohibition shall not prevent the giving of purchase money montgages or liens or any pledging of the stocks or securities of said corporation as collateral securities for the payment of moneys borrowed by said corporation in the regular course of business.

The company, upon incorporation, purchased all the property and goodwill of Sears, Roebuck & Co., a corporation organized under the laws of Illinois in 1895 with a capital of $150,000, all accretions to net assets since that date having been solely from the earnings of its business, which is known as a "general mail order business." The company sells at retail goods of almost every kind, character and description in all parts of the United States, not through salesmen, but by advertising generally, and most largely through the medium of catalogues, its complete general catalogue consisting of 1,440 quarto pages. The customers number upwards of 3,000,000 and the transactions therewith are practically all cash, payment being either in advance or C. O. D. The large quantities of goods handled has made it advisable to purchase stock in various manufacturing corporations. In some cases this has been done to enable the manufacturer to increase his plant in order to meet our requirements, and in some cases such purchases of stock are but temporary investments. The holdings in such other corporations, however, are merely incidental to the purchasing department.

Property Owned, All in Chicago.

(Free and clear, except for mortgages on property when purchased, viz., $81,475 on No. 2 and $325,000 on No. 3.)

1. Homan Ave. Property, approximately 17 acres, bounded by Kedzie Ave., Harvard St., Central Park Ave. and the Chicago Terminal Transfer RR. Co., on which are erected the administration building (fire-proof, 436x144); merchandise building (1,129x310, brick buildings, partly 10 stories and partly 3 stories, with 14-story fire-proof office section); power-house (fire-proof, 245x120); and printing building (253x86, 4-story brick.) Actual cost, $6,243,056.
2. Property contiguous to the foregoing, being ½ mile frontage on Harvard St., between Central Park Ave. and Kedzie Ave., containing approximately 17 acres, now being used as a park and for miscellaneous storage, and intended for future extension of plant and buildings. Actual cost (including encumbrances), $189,521.
3. Block bounded by Fulton, Wayman, Desplaines and Jefferson streets, improved by brick buildings, partly 8 and partly 10 stories high (320x170) occupied as a warehouse and also by tenants. Value (actual cost, including encumbrances), $816,262.
4. Vacant block bounded by Fulton, Union, Desplaines and Wayman streets (320x170). Actual cost, $195,860.
5. Fillmore Street property, 17 lots (425x125), situated on the Chicago Terminal Transfer RR. immediately south of Homan Ave. property, at present vacant, but intended for future extension of plant and buildings. Actual cost, $20,309.

April	5,460,614	5,046,115	414,499
Total, 4 months	$17,435,004	$15,687,090	$1,747,914
Total, 10 months	$44,776,680	$37,084,989	$7,691,691

[The sales of recent months have been added to the Stock Exchange statement in order to bring it up to date.—Ed.]

The fiscal year ends June 30; the annual meeting of stockholders is held in New York on the fourth Monday of September. Columbia Trust Co. of New York is the Transfer Agent, and the Bankers Trust Co. of New York City is the Registrar of stock. New York office, 438 Broadway.

Officers: Richard W. Sears, President; Julius Rosenwald, Vice-President; Albert H. Loeb, Secretary. Directors: A. Barton Hepburn, Henry Goldman, Philip Lehman and Robert P. Sniffen, all of New York City; John Higgins, Walker O. Lewis, Albert H. Loeb, of Chicago, Ill. Compare also V. 83, p. 629; V 84, p. 106, 324.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Atlantic Coast Line RR.—*Offering of New Guaranteed Bonds.*—See Washington & Vandemere RR. below.—V. 84, p. 569, 506.

Barre & Montpelier Traction & Power Co.—*Sold.*—The control of this company, which operates a trolley line 9.187 miles long through Montpelier and Barre, was recently sold to Frank M. Corey, former Mayor of Montpelier and President of the First National Bank; Edward H. Devitt, State Treasurer, and J. M. Frost, electrical engineer, comprising a syndicate.

Boston Suburban Electric Companies.—*To Enlarge Power of Trustees.*—The shareholders will vote May 27 on amending the trust agreement in effect as follows:

(1) To strike out the provision empowering a majority in interest of the shareholders to vote on selling, exchanging or otherwise disposing of property, and to confer upon the trustees, with the consent of not less than ten of their number, (2), the right to purchase or otherwise acquire shares and obligations of other corporations, &c., of the character specified, and (3), with similar consent, to sell, exchange or otherwise dispose of, at public or private sale, any or all of the stocks and obligations of such other concerns, and (4), with the consent of at least two-third of each class of shares, but not otherwise, to mortgage or pledge any property.—V. 83, p. 1410.

Brooklyn Rapid Transit Co.—*Constituent Companies to Make Mortgages Securing Certificates of Indebtedness Issuable to Parent Company for Improvements, &c., and by it to be Pledged from Time to Time as Collateral for the 5% Bonds Dated July 1 1902.*—Notices have been sent to the stockholders of the Brooklyn Union Elevated RR. Co. and of the Nassau Electric RR. Co. of special meetings to be held on June 10 and 11 respectively to authorize a mortgage on behalf of the Brooklyn Union Elevated RR. Co. for $20,000,000 and one on behalf of the Nassau Electric RR. Co. for $5,000,000, to secure certificates of indebtedness heretofore or hereafter issued by those companies to the Brooklyn Rapid Transit Co. for cash advances from that company to enable the railroad companies to make necessary additions, betterments and improvements and equipment.

Secretary and Treasurer Charles D. Meneely in a formal statement issued on May 18, and published in full in the "Brooklyn Eagle" of that date, says in substance:

This is in pursuance of the system of financing adopted some yeagrs ao, which was, in brief, that instead of each separate company of the system attempting to finance its own requirements, the Brooklyn Rapid Transit Co. would raise the necessary funds by the sale of its own bonds, and with the proceeds advance moneys to the constituent companies from time to time and take in exchange the notes or other obligations of the constituent companies for such advances. In pursuance of this plan, the B. R. T. Company issued its mortgage dated July 1 1902 to the Central Trust Co. of New York, as trustee, for $150,000,000, of which about $61,000,000 were reserved to take up at or before maturity the underlying bonds of the Brooklyn Rapid Transit Co. and its constituent companies. The remainder of the bonds were to be issued from time to time to furnish proceeds for improvements, additions, extensions, &c., of the constituent companies, and up to and including Mch. 9 last there had been issued and sold of such bonds $28,107,000, and the proceeds of such sale had mostly been applied to purchasing from the constituent companies their certificates of indebtedness, payable on demand for the actual cost of improvements, additions, extensions, &c.

It was the intention at the time of the execution of this latest Brooklyn Rapid Transit mortgage that the certificates of indebtedness to be purchased from the constituent companies would be secured by the mortgages of the companies issuing the same. This will now be accomplished in the following manner:

The Brooklyn Rapid Transit Co. has entered into agreements with most of its constituent companies to furnish from time to time within the next ten years such moneys as each of these companies shall require for extensions, improvements, additions, &c., up to a maximum amount, and to take in exchange therefor the certificates of indebtedness of such companies, payable on demand, upon condition that not only the certificates of indebtedness thus to be issued and sold to the Brooklyn Rapid Transit Co., but also the certificates heretofore issued shall be secured by the mortgages of the railroad companies issuing such certificates as collateral security thereto.

The Railroad Commission has already authorized such mortgages by the Sea Beach Railway Co., the Canarsie RR. Co. and the South Brooklyn Railway Co. (see Brooklyn Rapid Transit Co. V. 84, p. 1181), and will be asked to consent also to the mortgages to be issued by those last named companies.

The mortgages for which consent is requested to the extent that they secure past expenditures do not add one dollar to outstanding capital charges. To the extent that they secure expenditures hereafter to be made they carefully limit such expenditures to the actual cost of additions, improvements and extensions. The certificates of indebtedness cannot be issued at less than par and must represent such actual cost. Under the terms of the Brooklyn Rapid Transit Company's mortgage, bonds issued under that mortgage must be issued at par for the par of such certificates of indebtedness, and any deficiency arising from the sale of Brooklyn Rapid Transit bonds at less than par must be made up out of the earnings of the company. Not only is the investor in the bonds protected, but there is no opportunity for any fictitious increase of capital charges. It is believed that this system of financing is not only conservative, but that only by such means can the constituent companies be provided with the capital essential for the proper development of railroad facilities. Compare V. 84, p. 1181.

Brooklyn Union Elevated RR.—*Mortgage.*—See Brooklyn Rapid Transit Co. above.—V. 79, p. 268.

Canadian Northern Railway.—*General Manager.*—Third Vice-President D. B. Hanna has been appointed General Manager of the entire system.—V. 84, p. 1181, 505.

Central Crosstown RR., New York.—*Shares Pledged.*—See Interborough-Metropolitan Co. below.—V. 82, p. 986.

Chesapeake & Ohio Ry.—*Merger Approved.*—The stockholders on May 21 approved the consolidation of the Chesapeake & Ohio Railway Co. of Virginia (the parent company) with the Chesapeake & Ohio Railway Co. of Kentucky, and the pledge of the property of the latter under the general mortgage of the Chesapeake & Ohio.—V. 84, p. 1181, 1113.

Chicago Burlington & Quincy RR.—*Called.*—On June 1 there will be payable at par and interest by the trustees, No. 50 State Street, Boston, $11,000 Tarkio Valley RR. and $10,000 Nodaway Valley RR. 1st 7s.—V. 84, p. 219.

Chicago Great Western Ry.—*Listed.*—The New York Stock Exchange has authorized the listing on June 1 of $2,000,000 additional 4% debenture stock, making the total amount listed $28,127,000.

The above $2,000,000 is part of a total of $3,873,000 authorized to be issued, the proceeds of which are to be devoted to the payment of unpaid balance of capital expenditures made in the calendar year 1906, to the payment of the cost of completing 25 miles of second track on the Eastern Division between Galena Junction and Stockton, Ill., and to the payment of the cost of constructing additional second track on the Eastern Division.

Earnings for Nine Months ending March 31.

9 Mos.	Gross.	Net.	1st Charges.	Div. Pref. "A."	Bal., Sur
1906-07	$7,206,875	$1,996,635	$1,596,143 (2½%)	$283,423	$117,069
1905-06	6,718,872	2,002,954	1 540,069 (2½%)	283,423	179,462

—V. 84, p. 1181, 930.

Chicago Rock Island & Pacific Ry.—*Sale of Bonds—Payment of Notes.*—This company, controlled by the Rock Island Co., announced on Thursday the sale of $10,000,000 "first and refunding mortgage" 4% gold bonds, due April 1 1934, to Speyer & Co., of this city, who say:

The proceeds of this sale will be applied by the company to pay $7,500,000 notes maturing on July 1 next, and the balance for betterments and improvements. The bonds are a legal investment for savings banks in New York State, and have been accepted by the Secretary of the Treasury as security for deposit of customs receipts.

This sale, we are informed, makes $66,850,000 of the issue outstanding.—V. 84, p. 748.

Chicago Southern Ry.—*Underwriting Completed.*—It was announced in Chicago on Tuesday that the $2,500,000 of underwriting offered in connection with the plan for completing this road to Chicago (compare V. 84, p. 995, 1051) had all been subscribed, and that the first call, 40%, would be made on the subscribers this week.—V. 84, p. 1051, 995.

Chicago Union Traction Co.—*Deposits.*—The New York Stock Exchange reports that $15,352,500 of the $20,000,000 common stock and $10,580,800 of the $12,000,000 preferred stock have been deposited preparatory to reorganization per ordinance voted by the people of Chicago on April 20 (see abstract of ordinance in V. 84, p. 1123). As regards the underlying companies, the following, which has been published, is thought to be approximately correct:

The deposits of securities were much more than sufficient except in the case of the Chicago West Division, which gave 3,126 shares, or exactly the number necessary, and the North Chicago City, which gave 1,251, or 53 less than necessary. North and West Chicago roads averaged each 12,000 shares more than necessary.—V. 84, p. 1182, 1123.

Cleveland Cincinnati Chicago & St. Louis Ry.—*Notes Offered.*—Moffat & White and J. & W. Seligman & Co., both of New York, are offering by advertisement on another page, at 96½ and interest, yielding 6% interest, the small unsold portion of $5,000,000 4-year 5% gold notes, dated June 1 1907, due June 1 1911; interest payable June 1 and Dec. 1. Coupon notes in $1,000 denomination; registered notes in $5,000 and $10,000 denominations. These notes are a direct obligation of the company, and are followed by $10,000,000 preferred stock paying dividends of 5% yearly, $11,035,500 common stock paying dividends of 1% yearly. The notes are not redeemable before maturity.

The Lake Shore & Michigan Southern Ry. Co. owns a large amount of the stock.

Last October the stockholders of the road increased the common stock from $40,000,000 to $50,000,000, and the $10,000,000 of new stock was offered for subscription at 90. It has not been definitely stated how much of the stock was taken by the stockholders, but it has been understood that only part of the stock was placed.—V. 84, p. 937, 927.

Cleveland Painesville & Eastern (Electric) RR.—*New President.*—E. W. Moore has been elected President to succeed C. W. Wason, who retires on account of poor health.

Negotiations for Sale or Merger.—Cleveland "Finance" of May 18 said:

A committee has been appointed by the Cleveland Painesville & Eastern directors to negotiate with the directors of the Northern Ohio Traction & Light Co. for the absorption of the former company by the latter. While the officials have not given out the details of the merging of the two properties, it is understood that the Painesville will exchange its $2,000,000 of common stock for a like amount of the common stock of the Northern Ohio Traction & Light Co. The Painesville property will be delivered out of debt save its bonded debt of $1,600,000, and will carry with it two thirds of the stock of the Cleveland Painesville & Ashtabula, which it owns.—V. 82, p. 1379.

Delaware & Hudson Co.—*Equipment Bonds Sold and Offered.*—The company has sold to Kuhn, Loeb & Co. and the First National Bank of New York $10,000,000 "equipment first lien 4½% 15-year equipment gold bonds." A circular offering the bonds to the public at 95 and int. says:

Due July 1922; coupons payable Jan. and July. Secured under an agreement covering equipment of the appraised value of $11,030,000. The agreement will provide for an annual sinking fund of $650,000, to be used to purchase either bonds of this issue, additional equipment to come under the lien of the agreement, or securities which are legal investments for insurance companies of New York State. The agreement will further provide for the proper maintenance of the equipment. Temporary certificates of the trustee deliverable early in June.—V. 84, p. 1182, 1113.

Denver Enid & Gulf RR.—*Cancellation of Mortgage.*—The Mississippi Valley Trust Co. of St. Louis, it is stated, has filed notice in Guthrie, Okla., canceling the mortgage of $2,600,000. The company was purchased several months ago by the Atchison Topeka & Santa Fe.—V. 83, p. 562.

Erie RR.—*Notes.*—It appears that J. P. Morgan & Co. in April last, when they purchased the $5,500,000 one-year notes issued to provide for maturing loans (V. 84, p. 803) took an option on an additional $5,000,000 or $5,500,000 o notes, the proceeds of which, if issued, would be used for improvements. The option, which is said to run until June 15, has not yet been exercised.

Sons Succeed Fathers.—James N. Hill and Ogden Mills have been elected to the board to succeed their respective fathers, James J. Hill and D. O. Mills.—V. 84, p. 1113, 931.

Flint River & Gulf Ry.—*Sold.*—See Gulf Line Ry. below.

Galveston-Houston Electric Ry.—*Bond Issue.*—The stockholders, it is stated, on May 14 authorized an issue of $5,000,000 bonds to provide for construction, equipment, &c. See V. 84, p. 1184, 1052.

Gulf Line Ry.—*New Company—Purchase—Lease.*—This company has not yet been chartered, but, pending its formal organization, the parties in interest have purchased the Flint River & Gulf Ry., extending from Ashburn to Bridgboro, Ga., 32 miles, and, having leased the Hawkinsville & Florida Southern, Hawkinsville to Worth, Ga. (about 3 miles from Ashburn), 44 miles, are operating the combined roads, aggregating 76 miles, under the charter and organization of the Flint River & Gulf Ry. Parties in interest write:

We have secured a trackage arrangement with the Georgia Southern & Florida Ry. under which we are operating trains over their line between Worth and Ashburn, a distance of about 3 miles. The lease of the Hawkinsville & Florida Southern extends until April 1 1953, and contains an option of purchase. The trackage agreement extends for the same time, or until we may build our own connection between Worth and Ashburn. We shall not decide until after formal organization just when we will undertake the extension south of Carlisle. It is our purpose to complete the line to Bainbridge, and from there to a Gulf port which has not yet been determined upon.

After organization the Gulf Line Ry. will issue its necessary securities. At this time the Flint River & Gulf has no bonded debt, while the Hawkinsville & Florida Southern is subject to a bonded debt of between $8,000 and $9,000 a mile. The Georgia Southern & Florida will have no ownership of stock in the Gulf Line Railway Co., nor will it be interested in the bond issue. It is, as you probably know, the guarantor of the present outstanding bonds of the Hawkinsville & Florida Southern.

[The line from Hawkinsville to Bainbridge, Ga., via Ashburn, Sylvester, Pelham and Bainbridge, will be 130 miles in length and the extension from the latter point to the Gulf would be about 100 miles. It is the intention eventually, we understand, to acquire and construct a line from Augusta, Ga., to the Gulf of Mexico, with trackage rights into Atlanta, Ga. The headquarters of the company are at Atlanta, Ga.]

Hawkinsville & Florida Southern Ry.—*Lease with Option of Purchase.*—See Gulf Line Ry. above.—V. 78, p. 1781.

Hocking Valley Ry.—*Funding Plan for Kanawha & Michigan RR.*—See V. 84, p. 1183.

Hudson & Manhattan RR.—*Operations to Begin Oct. 1907.*—The company announces that it is expected by Oct. 1 to operate the line from Hoboken to Fourteenth Street and Sixth Avenue, New York. The first of the fire-proof cars has been delivered. The two lower tunnels to extend from the Pennsylvania RR. station in Jersey City to the terminal building at Church and Cortlandt streets, which it is hoped to have ready for occupancy by May 1 1908, are about 75% completed. Compare V. 84, p. 220.—V. 84, p. 1113.

Indianapolis Crawfordsville & Western Traction Co.—*Bonds Offered.*—Charles C. Wedding & Co., Indianapolis, under date of Apr. 18, wrote:

The bonds and stock were originally disposed of in accordance with an underwriting agreement. There has been no sale other than in accordance with the original underwriting agreement. We have a few of these bonds and stock, unsold which we will offer at a very attractive price. We have the exclusive sale of these securities.

Abstract of Original Bond Circular.

Organized in 1905 by a syndicate of Indiana people, under the laws of Indiana, to construct and operate a line from Indianapolis to Danville, Ill. N. B. Reynolds, President, Crawfordsville; Edward Hawkins, Sec., Indianapolis; Oliver P. Ensley, Treas., Indianapolis Union Trust Co., Trustee Indianapolis. The company now has under construction and will have in operation about January 1907 an electric railroad from Indianapolis to Crawfordsville, Ind., 45 miles, passing the Girls' Industrial School, a State institution, and then through the towns of Clermont, Brownsburg, Pittsboro, Rainstown, Lizton, Jamestown, New Ross and Mace, to Crawfordsville. As soon as this section is finished and in operation the Western ex-

tension to Danville, Ill. will be constructed from Crawfordsville via the towns of Wesley, Waynestown, Hillsboro and Veedersburg, and the City of Covington, to a point on the State line a few miles east of Danville, Ill., there connecting with the Illinois Traction Co.

A private right of way from 50 to 100 feet wide has been purchased, and the company has 50-year franchises in all of the cities and towns providing for the carrying of freight, express matter and mails. Cuts and fills will avoid excessive grades. Between Indianapolis and Crawfordsville there will be no grade exceeding 1%. Bridges either concrete or steel; track built with 85 and 70-pound "T" rail. Central power station at Crawfordsville. Road traverses a fine agricultural country. Population, 853 per mile, not including Indianapolis. The company's cars will enter Indianapolis over the West Michigan St. route to Indiana Ave. and then direct to the terminal station of the Indianapolis Traction & Terminal Co.

The capital stock is $3,000,000, common stock (in shares of $100 each), and a bond issue of $3,000,000 5% thirty year gold bonds has been authorized, and the mortgage has been executed to the Marion Trust Co. of Indianapolis, as trustee. By the terms of the mortgage, $1,500,000 of the bonds are being sold for the construction and equipment of that part of the line from Indianapolis to Crawfordsville. Bonds are dated March 1 1906; due July 1 1936. Denominations $1,000 (c*). Interest payable Jan. 1 and July 1 at the Van Norden Trust Co., New York City. Estimated gross earnings, $303,000; estimated net earnings, $146,400; interest on bonds, $75,000; balance surplus, $71 400.

[The underwriting agreement (dated Feb. 21 1906) provides for the sale at 90% of not exceeding $1,500,000 of the bonds with an equal amount of stock as bonus, to provide for the construction and equipment of the line from Indianapolis to Crawfordsville. Subscriptions were not binding until $900,000 of the bonds were subscribed. The bonds subscribed for are not to be sold for less than 95% before July 1 1907, and all the stock is to be held for three years from July 1 1906 by the Marion Trust Co., and during that period no portion is to be sold unless the Trust Company shall have a prior opportunity to purchase it at the same price for the remaining shareholders, or unless three-fourths in interest of the subscribers shall approve the sale. The Trust Company in voting the stock to be directed by A. E. Reynolds and H. A. Mansfield, or by George P. Haywood and Charles C. Wedding, their respective alternates.]—Ed.—V. 82, p. 1438, 1322.

Interborough-Metropolitan Co., New York.—*Report.*—See "Annual Reports" on a preceding page.

One Tube Opened to Long Island City.—The headings of the north tube of the tunnel of the New York & Long Island RR. Co., under 42d St. to Long Island City, met late May 16. It is said that at least two months will elapse before the south bores meet, but the north tube it is thought may have the rails laid by August, though the tunnel will hardly be opened for traffic by that time.

Note Issues.—The company has borrowed about $3,000,000 on 6 months' notes, bearing 6% interest, and has authorized an issue of $15,000,000 3-year 5% collateral trust coupon notes, with which, whenever sold, it is proposed to take up the 6% short notes and any other similar loans that may be made, and to provide for further capital requirements on account of extensions and improvements. The present financing will take care of the electrification of the crosstown lines and leave a remainder for other purposes.

Collat. for 3-year 5% Notes to be Deposited with Mercantile Tr.Co., as trustee.

	Total Issue.	Now Pledged.
Metropol. St. Ry. new 3-year 5% Improvement notes to be issued	$8,000,000	$8,000,000
Third Avenue RR. 6% to 7% guaranteed stock	15,995,800	5,970,000
42d St. & Grand St. Ferry Ry. 18% guar. stock	748,000	43,000
Central Crosstown Ry. 15% guaranteed stock	600,000	502,800
Second Avenue Ry. 9% guaranteed stock	1,862,000	157,000
Electric Storage Battery Co	16,249,425	695,500
Total market value as of May 15 1907		$8,563,360

All or any part of the 3-year notes may be redeemed on any interest day on 30 days' notice at 102 and interest. Denomination $1,000 and $10,000. Interest from July 1 1907, payable semi-annually. The notes can be issued only pro rata as the aforesaid collateral is deposited with the trustee at the rates specified in the deed of trust. The collateral may be withdrawn at rates named in the trust deed upon deposit with the trustee of an equal amount of cash or additional notes of Metropolitan Street Ry. —V. 84, p. 1182, 868.

Lehigh & Lake Erie RR.—*Leased to Lehigh Valley.*—A lease of the road to the Lehigh Valley RR. Co. for a term of 999 years has been filed with the Secretary of State at Albany. A mortgage for $3,000,000 was filed some time ago. See V. 81, p. 211.

Lehigh Valley RR.—*Lease.*—See Lehigh & Lake Erie RR. —V. 84, p. 158, 102.

Lehigh Valley Transit Co., Allentown, Pa.—*President Resigns.*—H. C. Trexler has resigned as President and David Young of Newark has been elected temporary President. —V. 83, p. 1347, 96.

Memphis (Tenn.) Street Ry.—*Bonds Offered.*—Hambleton & Co., Baltimore, are offering at 100 and interest $100,000 consol. 5% mortgage bonds, of which $7,094,000 are now outstanding, $905,000 are reserved to retire the Citizens' Street RR. (divisional) 6% bonds due Jan. 1 1916, and the remainder, $2,000,000, are reserved for future requirements.—V. 84, p. 868.

Metropolitan Street Ry., New York.—*New Improvement Notes to be Pledged.*—See Interborough-Metropolitan Co. above.—V. 84, p. 68, 508.

Missouri Kansas & Texas Ry.—*Claim Against Government on Account of Land Grant.*—A claim was filed on Wednesday against the Government in the Court of Claims to recover $61,000,000, representing the value of alternate sections within 20 miles of the road, granted by the Government to the Indians and claimed by the company to belong to it under its original land grant. See annual report, V. 79, p. 1281; V. 81, p. 668; V. 82, p. 1102; V. 84, p. 508.—V. 84, p. 804.

Nassau Electric RR.—*Mortgage.*—See Brooklyn Rapid Transit Co. above.—V. 82, p. 1323.

New York Central & Hudson River RR.—*Rumors Not Confirmed.*—The report that the company contemplates offering a loan for a considerable amount apparently has no further basis than the possible making of inquiries as to the market for equipment or other bonds or notes of perhaps $20,000,000 or $25,000,000.—V. 84, p. 1052, 931.

New York Tunnel Co.—*Receivership.*—Judge Holt in the United States District Court in this city, on application of three persons holding claims of $2,932, declared the company to be bankrupt and appointed T. Tileston Wells receiver:

The company holds the sub-contract from the Rapid Transit Subway Construction Co. to build the tunnel from the Battery to Brooklyn, now approaching completion, which it is stated will not be delayed by the receivership. The embarrassment is caused by expenditures for what is claimed to be work additional to the contract, payment of which has been thus far withheld. President, David L. Hough.—V. 76, p. 436.

Norfolk & Western Ry.—*Syndicate Call.*—The "Wall Street Summary" of May 21 said:

Brown Bros. & Co., managers of the syndicate which underwrote the $14,457,000 convertible bonds, have issued another call on the syndicate members for 10% of their subscriptions, payable June 3, this installment making the bonds 50% paid. The syndicate expires by limitation July 1, but it is regarded as probable that it will be extended for six months longer. Compare V. 83, p. 1412, 1471.—V. 84, p. 1053, 221.

Northern Ohio Traction & Light Co., Akron, O.—*Possible Purchase.*—See Cleveland Painesville & Eastern (Electric) RR. above.—V. 84, p. 337, 221.

Northwestern Elevated RR., Chicago.—*Extension Opened.* —The Ravenswood extension, 3¼ miles in length, was opened for operation on Saturday last at 12 o'clock noon.— V. 84, p. 801, 571.

Ohio Electric Ry.—*Incorporated—Important Merger Reported Pending.*—This company was incorporated under the laws of Ohio on May 16 with nominal ($100,000) capital stock, the incorporators being all employed in the office of W. Kesley Schoepf, for the purpose, it is rumored, of bringing into one system all the trolley lines in Ohio and Indiana controlled by the Schoepf-McGowan syndicate, in which the United Gas Improvement Co. of Philadelphia is understood to be directly or indirectly interested. It is said the new company will have a capital of between $50,000,000 and $75,000,000 and embrace about 1,200 miles of trolley lines, among them, it is stated, the Lima & Toledo (V. 84, p. 339) including the Northern Ohio lines, the Indiana Columbus & Eastern (V. 83, p. 37), the Central Ohio lines, and the Cincinnati Northern, which runs from Cincinnati north to Dayton (V. 83, p. 36)—V. 83, p. 36; V. 80, p. 472.

Oregon & California RR.—*Called Bonds.*—First mortgage bonds to a total of $490,000 have been drawn for cancellation with proceeds of land sales, and will be paid at par and interest on July 1 1907 at the Union Trust Co. See advertisement in to-day's "Chronicle."—V. 80, p. 2220.

Pacific Electric Ry., Los Angeles.—See San Bernandino Valley Traction Co. below.—V. 80, p. 651.

Passenger Fares.—*Legislation.*—The New York State Senate on May 23, by a vote of 37 to 9, passed the bill, already passed by the Assembly, fixing at 2 cents a mile the rate of passenger fare on all railroads over 150 miles in length in this State. The latest information of the kind from other States is reported as follows (see V. 84, p. 932, 868):

Virginia.—The State Corporation Commission on April 27 issued an order requiring that from July 1 the principal roads of the State limit all passenger fares to 2 cents a mile. Three divisions of the Southern Railway are allowed to charge 2½ cents; the Norfolk & Southern and 10 other roads doing a light business are allowed to charge 3 cents, and 12 other small companies 3½ cents. The United States Circuit Court in Virginia on May 18 issued the restraining order petitioned for by the railroads against the 2-cent-per-mile order. (Compare editorial in V. 84, p. 1026.)

Illinois.—Both houses have passed the bill which provides for a flat 2-cent rate except when fares are paid on trains.

Texas.—Legislature adjourned without action on 2-cent fare bill.

Pennsylvania.—The Pennsylvania RR. has taken steps to test the constitutionality of the 2-cent fare bill, and has filed a bill in equity in the Common Pleas Court against the County of Philadelphia enjoining the defendant from demanding any penalties for violation of the bill, which goes into effect Oct. 1. The Reading announces an increase in commutation rates.

Florida.—The House has passed a bill to make the maximum passenger fare 2½ cents per mile.

Minnesota.—The 2-cent fare law went into effect on May 2. All the lines in the State complied with the law.—V. 84, p. 932, 868.

Philadelphia Co., Pittsburgh.—*Increase in Price of Natural Gas.*—This company announces that on and after June 16 its price for natural gas will be increased from 25 to 30 cents per 1,000 feet, net (27 to 32 gross), because of the greater distance the gas must be transported and the higher cost of labor and material.

This increase has aroused the Mayors of Allegheny and Pittsburgh to the point of threatening proceedings for the forfeiture of the company's charter on the ground of maintaining a monopoly, and on May 21 the City Councils of Pittsburgh approved a resolution authorizing Mayor Guthrie, at his discretion, to request the State authorities to begin the proceedings. See "Pittsburgh Gazette" of May 22.—V. 84, p. 1108, 272.

Philadelphia Rapid Transit Co.—*Negotiations With City.*— See editorial article in our issue of May 11, pages 1084 and 1085.—V. 84, p. 1114, 868.

Philadelphia & Western (Electric) RR.—*Sale.*—At the foreclosure sale in West Chester, Pa., on May 20, this company's property was bid in for $1,000,000 by Frank H. Brewster Jr., representing Mackay & Co., and W. C. Sheldon & Co., the only bidder. Following the sale Joseph S. Clark, general counsel for the company, was quoted as follows:

Mackay & Co. and W. C. Sheldon & Co. will be the new syndicate managers and will reorganize the company as soon as the legal formalities have been completed. This will require about three weeks. The new company will put out about $4,000,000 of bonds and bring the capital stock more on a parity with the bond issue than it is at the present time. George J. Kobuseh of St. Louis, while having disposed of the major portion of his holdings to the syndicate, will still, however, retain a minority interest.

[The road was opened for traffic Wednesday from Philadelphia to Strafford. Compare V. 84, p. 997.]

Public Utilities Legislation.—*Bill Passed in New York.*— See editorial on a preceding page of this issue.

Rapid Transit in New York City.—*New Law as to Issuance of City Bonds.*—See "New York City" in State and City Department, on a subsequent page of this issue.—V. 84, p. 1053, 997.

St. Joseph Railway Light, Heat & Power Co.—*Listed.*— The New York Stock Exchange has listed $58,000 additional 5% first mortgage coupon bonds, due 1937, making the total amount listed to date $4,021,000.

Income Account for the Four Months ending April 30 1907.

Gross earnings	$261,289	All fixed charges	$70,017
Operating expenses	141,479	Dividend on preferred	26,000
Net earnings	$119,810	Surplus	$14,793

—V. 83, p. 752.

St. Louis Southwestern Ry.—*Listed.*—The New York Stock Exchange has listed $1,326,000 additional consolidated mortgage 4% bonds, due 1932, making the total amount listed to date $18,122,000. The additional bonds represent sundry additions and improvements.

Issuance of $18,122,750 Consolidated Mortgage 4s.

General corporate purposes (Art. II., Sec. 2)	$6,000,000	Dallas extension	$120,000
Exch. for 2d M. Incomes	6,065,750	Lufkin extension	520,000
Betterments & improvm'ts	1,326,000	Dallas Terminal Ry. and Union Depot	992,000
Securities of Pine Bluff & Arkansas Ry	480,000	Equipment obligations	2,619,000

Earnings for Eight Months ending Feb. 28.

8 Mos.	Gross.	Net.	Other Inc.	Charges.	Bal., Sur.
1906-07	$7,089,056	$2,354,992	$86,347	$1,211,330	$1,230,009
1905-06	6,010,126	1,621,334	------	--------	--------

"Charges" here include: Accrued interest on 1st M. bonds, $533,333; accrued interest on 1st cons. M. bonds, $495,373; rental of Gray's Point Ter. Ry., $16,667; taxes accrued, $160,733; sundry, $5,224.—V. 84, p. 1183, 1053.

San Bernardino (Cal.) Valley Traction Co.—*Huntington Interests in Control.*—The control has passed to interests represented by H. E. Huntington and the general offices have been moved to the Pacific Electric building in Los Angeles. A double-track line to Riverside to connect with the Pacific Electric Ry. (see "Street Railway Section") is proposed. Note "uncapitalized expenditures" of Southern Pacific Company in V. 84, p. 1115 and compare San Bernardino Interurban Ry in V. 84, p. 1114.

Southern Indiana Ry.—*Underwriting Completed.*—See Chicago Southern Ry. above. Compare V. 84, p. 997, 1053.

Southern Ry.—*Bond Issue for Subsidiary Company.*—See Tennessee & Carolina Southern Ry. below.—V. 84, p. 1183.

Southern Pacific Company.—*Possible Purchase.*—See San Bernardino Valley Traction Co. above.—V. 84, p. 1183.

Springfield Wilmington & Cincinnati Ry.—*Bond Issue.*—This company has made a first mortgage to the Knickerbocker Trust Co. of New York, as trustee, to secure an issue of $4,000,000 5% bonds of $1,000 each, dated Jan. 1 1907 and due Jan. 1 1947; interest payable Jan. 1 and July 1.

Of the issue, $500,000 are available on account of rights of way and the remainder at $30,000 per mile of main track actually constructed. The road is projected to run from Springfield to Cincinnati, 100 miles. President C. T. Clenderim, Secretary Percy F. Morgan. The Eldenbel Construction Co. is said to be interested.

Steubenville & East Liverpool Railway & Light Co.—*Bond Issue.*—A press dispatch announces the filing of a $3,000,000 mortgage in favor of the Commercial Trust Co. of Philadelphia. Compare V. 82, p. 806.

Tennessee & Carolina Southern Ry.—*Bond Issue.*—This company, whose $200,000 capital stock, except directors' shares, is all owned by the Southern Railway Co., has made a bond issue to the Standard Trust Co. of New York, as trustee, to secure an issue of $2,000,000 4% gold bonds dated May 10 1907 and due Jan. 1 1957, without option of earlier redemption; interest payable Jan. 1 and July 1 in New York. Amount outstanding $938,000. The Southern Railway Co. does not guarantee the principal and interest of these bonds. The proposed line is under construction from Marysville, Tenn., to a connection with the Carolina & Tennessee Southern Ry., mentioned last week, p. 1181, on the North Carolina-Tennessee State line, a distance of 39 miles. The two new roads will form a short connection for the Southern Ry. from Knoxville, Tenn., southerly to Atlanta, Ga. President, A. B. Andrews; Secretary, H. W. Miller, both of Raleigh, N. C.; Treasurer, H. C. Ansley, Washington, D. C.—V. 83, p. 1591.

Third Avenue RR., New York.—*Shares Pledged.*—See Interborough-Metropolitan Co. above.—V. 83, p. 97.

Toledo Railways & Light Co.—*Terms of Purchase.*—"Cleveland Finance" says:

The Toledo Gas, Electric & Heating Co. is capitalized at $2,500,000 and has a like amount of bonds outstanding, with practically no floating debt. It is said to be earning in the neighborhood of 4% and its stock has sold as low as 35, although now it is selling in the neighborhood of 18. In exchange for the capital stock of the Toledo Gas, Electric & Heating Co., the Toledo Railways & Light Co. will give three shares of its stock for four of the lighting company's stock, thereby increasing its outstanding capital stock by $1,875,000. As the capital stock will be increased $3,000,000, this will leave $1,125,000 of capital stock in the treasury of the Toledo Railways & Light, which may be used to acquire additional properties if thought best in the future.

[The basis of exchange of stock as above, three shares for four, is officially confirmed. Whether the outstanding stock of the Tol. Gas, El. & Heating Co. is $2,500,000 or $2,200,000 is not definitely stated. Of the bond issue of $2,500,000, which is guaranteed, $448,000 is reserved for underlying liens. See V. 81, p. 786. The deal is an outright purchase of the property.—Ed. of "Chronicle."]—V. 84, p. 1183.

Toledo Railway & Terminal Co.—*Deposits, &c.*—All except $12,000 of the $3,500,000 first mortgage 4½% bonds have been deposited with the Columbia Trust Co. of New York as depositary under the bondholders' protective agreement. The reorganization plan, it is stated, will be ready for publication shortly after the sale, which is expected to take place on May 28.—V. 84, p. 997, 932.

Toronto Railway.—*Favorable Decision.*—The Judicial Committee of the Privy Council in London (the highest Court of the Empire) on April 26 rendered judgment favorable to the company on the appeals from the Supreme Court and Court of Appeals for Ontario in pending litigation.

The decision holds, among other things, that the company need not build lines in the new additions to the city unless it deems them necessary; that it is for the company, not the city authorities, to determine what routes shall be adopted by the company; that under clauses 14 and 17 of the conditions of the agreement with the city (confirmed by Statute 55 Vict., Cap 99) the privilege to grant rights to build to another person or company for failure to establish and lay down new lines and open the same for traffic or to extend the tracks or service upon any street, as provided in the agreement, is the only remedy the city can claim; that the company has the sole right to say where cars shall stop to take on or let off passengers, but shall only stop midway between streets, except where there is more than 600 feet between street intersections. The decision is important in securing the company from being compelled to make unprofitable extensions and further in cutting out practically all waste mileage, thereby increasing the earning power and also reducing the operating cost.—V. 84, p. 446, 392.

Virginian Ry.—*Letter of Credit for $18,000,000.*—A press dispatch from Washington on May 15 said:

In a hearing before the Inter-State Commerce Commission to day, W. N. Page, former President of the Tidewater RR. and now President of the Virginian Ry., into which the Tidewater and the Deepwater roads were merged, testified that the Tidewater had been built without a bond. A letter of credit for $18,000,000, he said, had been given him to construct the road, and he had spent more than $20,000,000 already. He said that he supposed that H. H. Rogers of New York and H. H. Hyams of Boston were backing the project, but there might be somebody else behind it. His letter of credit for $18,000,000, he said, was on the International Trust Co. of Boston, but he could not swear who put up the money. He was only a figurehead as President, he declared.

[The Deepwater Division is about completed from Deepwater to Matoaka, 85 miles, and the Eastern division is ready for operation from Victoria, in Lunenburg County, to Norfolk, a distance of 125 miles. The entire line from Deepwater, W. Va., to Norfolk is expected to be opened, it is said, on or about Jan. 1 1908. Officers of the company are quoted as saying that an extension from a point on the Ohio River to the Great Lakes is projected. See "Manufacturers' Record" of Baltimore for May 16.]

Mortgage.—The company is reported to have filed an application with the City Court Clerk's office in Norfolk for the issuance of $33,500,000 bonds. Compare V. 84, p. 1184 1053.

Washington & Vandemere RR.—*Guaranteed Bonds Offered.*—Hambleton & Co., Baltimore, are offering at 99½ and interest $100,000 first mortgage 4½% gold bonds dated Feb. 1 1907 and due Feb. 1 1947. Interest payable Feb. and Aug. Safe Deposit & Trust Co. of Baltimore, trustee. Guaranteed unconditionally, both as to principal and interest, by the Atlantic Coast Line RR. Co. by endorsement on each bond. Total amount authorized $1,500,000, issuable at $18,000 per mile, including $4,000 for equipment; outstanding $720,000. The road "practically forms an extension of the Wilmington & Weldon RR. of the Atlantic Coast Line System from Washington, N. C., its present terminus, to Vandemere on the Pamlico Sound, a distance of 40 miles".

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Congo Co.—See Inter-Continental Rubber Co.

American Pneumatic Service Co., Boston.—*Report.*—See "Annual Reports" on a preceding page.

Committee's Circular—Report of Accountants.—A Boston committee of shareholders consisting of William H. Ames, Melville L. Cobb, Frederick P. Royce, Gilmer Clapp, Harry S. Mann, John N. Dearborn, Charles D. Brown, F. M. Chandler, Secretary, P. O. box 1191, Boston (a New York committee consists of J. T. Odell, Thomas Nelson Jr., H. G. Parker, Ralph Marsh, Secretary, 489 5th Ave, N.Y. City), recently has issued several circulars concerning the company's affairs. President Dillaway last week put out a special statement in pamphlet form, to which the committee replied on May 20 in a typewritten circular, enclosing:

SUMMARY OF 55-PAGE REPORT BY NILES & NILES, CHARTERED ACCOUNTANTS.

Acting under the instructions of the officers and board of directors of the American Pneumatic Service Co., we made an exhaustive examination of the books and accounts of that company and its subsidiary companies, including the Lamson Consolidated Store Service Co. from the date of the organization of the American Company, July 14 1899, to March 31 1906 inclusive. The examination was made shortly after the election of several directors added to the board, and for the purpose of determining for their benefit the earnings and conditions of all companies as of March 31 1906.

In this report we showed:

Losses and Interest Charges from July 14 1899 to Mch. 31 1906.

Total expenses written off on books of American Pneumatic Service Co. were	$269,168
The income from rentals and sundry earnings was	156,918
Leaving loss on operating as per books	$112,250
During this period the company had charged its assets with expenses and losses, (including parcel delivery losses of $112,522) to a total of	275,963
Interest paid during this period amounted to	62,112
Total losses and interest charges	$450,325

Receipts from Lamson Consolidated Store Service Co.

From July 14 1899 to March 31 the company received:
Income from Lamson Consolidated Store Service Co.—
Dividends, $844,654; licenses, $736,500; interest, $30,559; total, $1,611,713

Interest Charged Against Tube Companies—Profits of Said Companies.

We also find that the company charged its Boston, Chicago and St. Louis pneumatic tube companies with interest, crediting profit and loss as follows:

Interest charged against Boston company, $97,842; Chicago, $84,675; St. Louis, $31,867; total, exclusive of interest charged the contract accounts for interest during the construction of the Chicago and St. Louis plants	$214,384
The net profits of these tube companies applicable to the payment of the above interest to March 31 1906 were as follows: Boston, $14,947; St. Louis, $23,868; Chicago, loss $2,507; net profits	36,308
Leaving interest charged in excess of profits of these companies	$178,076

Earnings of Lamson Company.—President Dillaway has given out the following to show the manner in which under the previous management of the Lamson Consolidated Store Service Co., the operating expenses of that company had been allowed to increase at the expense of earnings:

Year.	Gross.	Expenses.	Net.	Year.	Gross.	Expenses	Net.
1903-4	$984,956	$682,030	$302,925	1905-6	$1,393,425	$1,121,766	$271,659
1904-5	1,098,282	811,345	286,937	1906-7	1,158,175	933,606	224,569

Mr. Dillaway was elected President of the Lamson company last February, and he claims since then to have effected a reduction in expenses, salaries, &c., amounting to $100,000 a year.—V. 84, p. 1181, 1054.

American Silk Co., New York.—*Stock Increase Authorized.*—The shareholders on May 23 authorized the proposed increase of the capital stock from $6,250,000, divided into $2,750,000 preferred stock and $3,500,000 common stock, to

$11,000,000, divided into $5,000,000 preferred stock and $6,000,000 common stock. Compare V. 84, p. 1115, 998.

American (Bell) Telephone & Telegraph Co.—*New Business.*—The instrument output for April 1907 and the four months ending April 30 1907, with the corresponding figures for earlier years, are stated as follows (each telephone being two "instruments," viz., one receiver and one transmitter):

April—	1907.	1906.	1905.	1904.
Gross output	147,066	206,557	174,207	102,907
Net output	(loss) 31,573	141,200	129,226	60,572
Jan. 1 to April 30—				
Gross output	623,908	733,041	608,301	404,475
Net output	249,515	489,022	430,398	253,150
Total outstanding April 30	7,357,451	6,187,280	4,910,962	4,032,667

The net loss in instrument output for the month of April was due to the fact that the company suffered a loss of 87,059 instruments in the San Francisco disaster last spring, returns of which were not received until this year, and could not, therefore, be entered in the books.—V. 84, p. 1054, 998.

Balaklala Copper Co.—*On Unlisted Sheet.*—The New York Stock Exchange has authorized the placing of the outstanding $4,444,770 capital stock, consisting of 444,477 shares of the par value of $10 each, on the unlisted sheet, and the adding thereto from time to time, prior to Nov. 1 1907 of $805,230 additional of said capital stock. The stock will be traded in in dollars per share.—V. 84, p. 627, 510.

(J. G.) Brill Co., Philadelphia.—*Listed in Philadelphia.*—The Philadelphia Stock Exchange has listed $4,580,000 preferred stock and $5,000,000 common stock. See V. 84, p. 1116, 998.

Boomer Coal & Coke Co., Cleveland.—*Equipment Notes Offered.*—Rudolph Kleybolte & Co. are offering at prices to yield the investor 5½% $1,100,000 5% equipment trust notes dated May 1 1907 and maturing annually $110,000 May 1 1908 to May 1 1917, inclusive.

The notes are a first mortgage on new equipment consisting of 1,000 gondola cars, on which the company has paid in cash 18½% of the total cost, and are further secured by a first mortgage on the entire property of the company. Trustee, Cleveland Trust Co. Interest payable May 1 and Nov. 1 at office of Rudolph Kleybolte & Co., New York. Capital stock, $650,000; no bonds. The property consists of 4,000 acres of coal land and three operating mines, with an annual production of over 800,000 tons, at Boomer, Fayette County, W. Va., on the K. & M. RR.

Cambridge (Mass.) Gas Light Co.—*Mortgage.*—This company has filed a mortgage for $400,000 in favor of the New England Mutual Life Insurance Co.—V. 83, p. 689.

Canadian Consolidated Rubber Co., Montreal.—*New President.*—S. H. C. Miner has resigned from the presidency and has been succeeded by D. Lorne McGibbon, who will be managing director as well.—V. 83, p. 1472.

Citizens' Gas Co. of Indianapolis.—*Favorable Decision.*—Judge Carter in the Superior Court at Indianapolis on Jan. 26 overruled the demurrer interposed by the city in the action brought by the company to compel delivery to it under its option of the mains of the Consumers' Gas Trust Co. Compare V. 83 p. 1173; V. 82, p. 1271.

Contract for Purchase of Mains.—The city, having decided to accept the aforesaid decision as final, on Jan 30 turned over to the company its option under the contract of Dec. 1905 with the former city administration. The appraisers appointed in accordance with the ordinance of June 27 1887 have fixed the value of the mains, pipes and appurtenances in the City of Indianapolis at $409,061, and on May 8 the contract for the sale of the same at that price was signed, payment to be made on or before Nov. 1 next. The plans for financing the purchase or the building of a plant to manufacture gas have not been made public. The company will endeavor to obtain further stock subscriptions.

The Eureka Investment Co. has brought an action in the Federal Court to prevent the transfer of the property to the Citizens' Gas Co. A hearing for an injunction has been set before Judge Anderson on June 3.—V. 83, p. 1173.

Citizens' Steamboat Co., Troy, N. Y.—*Deposits of Stock.*—An exchange says that all except 100 shares of the stock have been turned in to N. H. Campbell, Treasurer of the Hudson Navigation Co. See V. 84, p. 999.

Cleveland (O.) Worsted Mills Co.—*New Stock.*—This company has filed a certificate of increase of capital stock from $1,500,000 to $3,000,000. Compare V. 79, p. 2798.

Consolidated Gas Co. of New York.—*Favorable Master's Report.*—Arthur H. Masten, the Special Master appointed by Judge Lacombe to take evidence in the suit brought by the company to have the 80-cent gas law declared unconstitutional as being confiscatory, has made public his report, which, with such changes as may be made after argument, will be presented to the court next week. Substantially all of the contentions of the company are allowed by the master, and if his views are accepted by the court, the law will, no doubt, be declared unconstitutional. The following was given out in this city on Monday:

Attorney-General's Summary of Report.

The property on which the complainant is entitled to a return, as found, amounts to $83,357,000, made up as follows:

Real estate (less deduc's)	$13,461,000	Astoria—i. e., capital invested in product'n of gas secured from oth.co	$12,000,000
Plants	15,500,000		
Mains	12,636,000		
Services	1,994,000		
Meters and miscellan'ous	4,100,000		$63,357,000
Working capital	3,616,000	Franchises and good will	20,000,000
Coal & Coke Company	50,000		
		Total	$83,357,000

The city and State contended that the actual value of the property devoted to public service was approximately $31,000,000, exclusive of franchise values, upon the showing that its cost was not in excess of $31,000,000, and that the company had returned its value at less than that amount, exclusive of franchises, in its reports to the State Board of Tax Commissioners, and that upon the evidence of the appraisers adduced by the State and the city its present value did not greatly exceed that amount. The Master in his calculations treats 6% as a fair rate of return upon the company's investment.

The city and State claim that the cost of gas in burners did not exceed 48.63 cents; the necessary cost as shown by the books of the company was 52.50 cents, and as found by the Master, 65.84 cents. The State and city claimed that all of the company's franchises had expired with the exception of the franchise owned by the Knickerbocker Gas Light Co., to expire in 1913, and that franchise value, being value that emanated from the favor of the State, was not to be deemed property devoted by the company to public service, and that, therefore, the company was not entitled to a return upon it. The Master finds the value of the franchises and good will of the company to be $20,000,000, which he computes as a part of its investment and upon which he allows it a return.

Compare V. 82, p. 1381 (and editorial, p. 1349), 1325, 1159, 1043.

Validity of Franchises Questioned.—Corporation Counsel Ellison issued a statement on Thursday saying that in view of the report above referred to, proceedings would be begun shortly to test in the courts the validity of the company's franchises, most of which, it is claimed by the city authorities, have expired.

Attorney-General Jackson yesterday obtained from the Supreme Court in this City an order to show cause, returnable next week, why he should not be permitted to bring suit for the forfeiture of the charter of the company on the ground of the termination of its franchises, and further as being a combination in restraint of trade in violation of the laws of the State.—V. 84, p. 1055, 573.

Consolidated Gas, Electric Light & Power Co., Baltimore.—*Tax Increased.*—Judge Stockbridge on May 22 ordered an additional assessment of $3,350,286 to be entered against the company for the year 1906. The Appeal Tax Court desired an additional assessment of $6,000,000 to $7,000,000.

The case is known as the "celebrated easement tax controversy." The Court treats the assessment in dispute as covering only the easement value, and not any under assessment in structural value, except to the extent of $111,886, representing 22 miles of new mains laid in 1905. A valuation of $3,238,400 is placed on the easement attaching to the 480 miles of mains, to which is added $111,886 for new mains, making a total increase of $3,350,286 on which the company is chargeable with the full real estate tax.

The easement value is arrived at by taking the average linear foot charge made by the city against the Ches. & Potomac Telephone Co. and the Balt. Refrigerating & Heating Co. for the privilege of laying conduits and pipes respectively, such average annual charge amounting to $145,728 for 480 miles, which the Court considers a "reasonable sum upon a rental basis." This sum is capitalized at 4½%, the average yield from ground rents, city stock, &c.

No taxable value is allowed for the easement rights attaching to the service pipes aggregating about 500 miles in length, which the city claimed should be valued at at least $1 per foot.—V. 84, p. 1055.

Consolidated Lighting Co. of Vermont (Montpelier).—*Lease—Offering of Guaranteed Bonds.*—See Vermont Power & Lighting Co. in V. 84, p. 1186.—V. 84, p. 934.

Consumers' Gas Trust Co. of Indianapolis.—*Contract for Sale of Mains.*—See Citizens' Gas Co. above.—V. 83, p. 1173.

Continental Rubber Co. of America.—*Allied Company—Agreement With United States Rubber Co.*—See Inter-Continental Rubber Co. below.—V. 82, p. 283.

Dominion Textile Co.—*First Dividend on Common Stock.*—The directors have declared an initial dividend of 1¼% on the $5,000,000 common stock, payable July 2.—V. 83, p. 754.

Ducktown Copper, Sulphur & Iron Co.—*Decision.*—See Tennessee Copper Co. below.

Economy Light & Power Co., Joliet, Etc., Ill.—*Status.*—*Bond Offering.*—Redmond & Co. and the Royal Trust Co. are offering at 101 and interest the unsold portion of the present issue of $2,000,000 new first mortgage 5% sinking fund gold bonds of $1,000 each (c*) dated Dec. 1 1905 and due Dec. 1 1956, without option of earlier redemption. Interest payable June and December. Royal Trust Co., trustee. Total issue $3,000,000, of which $1,000,000 are reserved for improvements, additions, etc., at not to exceed 85% of cost.

Abstract of Letter from J. L. Norton, President, Joliet, Ill., Dec. 1 1906.

The company, organized under Illinois laws, with a capital of $3,000,000 issued, has been in successful operation for five years and to Oct. 31 1906 has accumulated a surplus of $329,386, all of which has been expended in improvements and in the retirement of bonds. Joliet is a prosperous manufacturing city of about 50,000 inhabitants, 37 miles from the central part of Chicago, on the Desplaines River. The Economy Company has a perpetual franchise and supplies the city with its entire lighting, selling its surplus power. This power has all been sold, and the demand is so great that it is necessary to install additional units.

For this reason the company har recently acquired two additional powers on the Desplaines River, viz., the Morris Power, 12 miles below Joliet, capable of developing 8,000 electrical horse-power, and the Hickory Creek Power, 1½ miles below Joliet, capable of developing 4,000 electrical horse-power. It is proposed to develop, with the proceeds of this bond issue, the Morris Power of 8,000 horse-power, leaving the 4,000 horse power at Hickory Creek for future development. The Desplaines River is fed by Lake Michigan through the Chicago Drainage & Ship Canal, thereby securing a permanent flow of water, which, under State law, must never be less than 400,000 cubic feet per minute, and this must be increased 20,000 C. F. per minute for every 100,000 increase in the population of Chicago. It is estimated that Joliet now uses 96,000 horse-power, but the company also owns a transmission line from Joliet into Chicago, giving it an unlimited market.

The company's present 4,000 horse-power, including the electric lighting of Joliet, earned over operating expenses for the fiscal year 1905 $119,683, or considerably more than the interest on $2,000,000 5% bonds, and the earnings are steadily increasing. The company has recently received from the Chicago Edison Co. a written proposal (not accepted— ED.) to take the surplus power which is now being developed at a price that will net the company $150,000 per annum. This, added to the net earnings for 1905, would make minimum net earnings of $269,683, or nearly 2 times the interest charge. However, the additional 8,000 horse power will doubtless be taken locally at at least $35 per horse-power. We estimate the earnings, when the Morris plant is developed: Present 4,000 horse-power, including the electric lighting of Joliet, will earn in 1906 $240,000; 8,000 horse-power of the new plant at $35, $280,000; gross earnings 12,000 horse-power, $520,000; net earnings, $405,000; interest charges, $100,000; surplus earnings, $305,000.

Upon the completion of the Morris dam, these first mortgage 5% gold bonds will be an absolute first mortgage upon 12,000 developed horse-power and 4,000 horse-power undeveloped, and upon the entire electric lighting system of the city as well as all other property of the company. The sinking fund of 1% per annum upon the amount of bonds outstanding begins in 1916, and is to be invested in these bonds in the open market at a price not to exceed 110 and interest, or, if this be impossible, the trustee is authorized to invest in securities legal for savings banks in New York. Among the stockholders are John J. Mitchell, Clarence Buckingham, Chicago Edison Co., Charles H. Randle, Frank G. Logan, J. L. Norton and Charles A. Munroe, who, it is said, already have over $1,000,000 of their own money invested in the 4,000 horse-power plant at Joliet, and are prepared to invest

whatever may be necessary (above the amount of the new bond issue) to complete the 8,000 horse power development.

[The bankers state that the position of the bonds would not be affected by the carrying out of the deep water canal project, as at most only a part of the property would be condemned. No action on the canal bill is likely to be taken by the Illinois Legislature before the fall, if then. The capital stock was increased from $850,000 to $3,000,000 Dec. 12 1906. Ed.] V. 84, p. 870.

(The) Garland Corporation, Pittsburgh, Pa.—*Bonds Offered.*—The First National Bank and H. P. Taylor & Co., both of Pittsburgh, are offering at 95 and interest the remaining $500,000 of the outstanding $1,500,000 first collateral trust sinking fund 5% gold bonds for $1,000 each, dated Nov. 1 1906, due Nov. 1 1936, but subject to call in numerical order at 110 and interest after Nov. 1 1911. Coupons payable May 1 and Nov. 1; free of tax. Total authorized issue, $2,500,000, of which $1,000,000 are reserved for betterments, extensions, &c., and cannot be issued until the net profits shall amount to 2½ times the interest charges on the total $2,500,000 bonds. Fidelity Title & Trust Co. of Pittsburgh, trustee. Minimum sinking fund $50,000 annually, beginning Nov. 1 1911.

Abstract of Letter from President John W. Garland April 15 1907.

The Garland Corporation was recently organized under the laws of New Jersey, with an authorized capitalization of $3,000,000 (outstanding $2,438,600; par $100), to combine manufacturing properties at West Pittsburgh, Pa., and has acquired 100% (3,000 shares) of the capital stock of the Garland Nut & Rivet Co., 100% (20,000 shares) of the capital stock of the West Pittsburgh Realty Co.; over 99% (1,420 out of 1,430 shares) of the capital stock of Woodhouse, Bopp & Co. (the few outstanding shares are held by an estate under the will of previous owner); over 80% (4,025 out of 5,000 shares) of the capital stock of the Safety-Armorite Conduit Co., the remainder being held by an estate, but will shortly be acquired under an existing contract. These outstanding shares, when acquired, will be added to those in hands of trustee under deed of trust. The total gross assets of the above companies as of Jan. 1 1907 aggregate $3,258,303; current liabilities, $153,685; net assets, $3,104,618, all free and clear of incumbrances, mortgages, &c.

Description of Constituent Companies.

(1) The West Pittsburgh Realty Co. owns over 500 acres of property ideally situated for manufacturing and home site purposes. The manufacturing property is about one mile long by a depth of from 900 to 2,400 feet; bounded on the west by the Beaver River, and on the east by the various trunk lines of railroad. A central power plant, electrically driven, owned by the corporation, furnishes power, light, heat and water to all of the various manufacturing plants at West Pittsburgh and also supplies light to the town. The corporation owns 60 houses which are rented to the employees of the factories.

(2) The Safety-Armorite Conduit Co., organized in 1897, has a plant covering about three acres; buildings fireproof, steel frame and stone. Principal product, patented iron armored conduits for interior construction ("Loricated" and "Galvanduct" conduits); these have been installed in most of the large buildings in the country and almost exclusively in the battleships and Federal buildings.

(3) Woodhouse, Bopp & Co. are silk manufacturers, occupying a new fireproof building 90 feet wide by 540 feet long, with capacity for over 400 looms; main product dress goods.

(4) The Garland Nut & Rivet Co. manufactures rivets and chain, nuts, bolts and wire. Considerable of the machinery is of their own invention, fully protected by United States patents. The plant at present covers about three acres, and a large addition is now being built in order to take care of the company's steadily growing trade, which has more than trebled within the past two years.

The above mentioned three manufacturing concerns have been in steady and successful operation for many years. The plants are modern in every respect; the machinery is electrically driven from power generated in our central plant, and every method known for the reduction of cost has been placed in service. As the net profits of these combined companies, after making ample provision for depreciation of machinery, &c., for the year 1904 amounted to $148,076; for the year 1905, $185,118; for the year 1906, $259,028, or about three and one-half times the interest on the $1,500,000 bonds now issued, it is fair to assume that any new expenditure on the properties should yield a larger proportionate return.

Any one of the three underlying manufacturing corporations is, or can be readily made, in itself, capable of paying all interest charges on the entire bond issue.

Directors—John W. Garland, President; Henry L. Collins, Vice-Pres.; Robt. Garland, Treas.; F. C. Hodkinson, Sec.; Chas. A. Glaser, Asst. Treas.; Chas. Garland, Asst. Sec; F. H. Skelding, John B. Jackson, Charles A. Glaser, William M. Hall, T. H. Bopp, all of Pittsburgh; Geo. H. B. Martin, Camden, N. J. Office, Bailey-Farrell Building, Pittsburgh, Pa.

General Electric Co.—*Option to Subscribe.*—A circular dated May 22 states that stockholders of record June 20 will be permitted to subscribe by means of the company's warrants (issuable as soon as possible after June 20), at par, on or before July 20, for the issue of $13,000,000 5% 10-year gold debenture bonds, denominations $500 and $1,000, to the minimum extent of one $500 bond for every 25 shares held by them respectively. The circular further says:

These bonds will be dated June 1 1907, will bear interest at the rate of 5% per annum, payable semi annually on June 1 and Dec. 1, and will be convertible after four years from June 1 1907 into stock of the company at par. Accrued interest and dividends will be adjusted at the time of conversion. The bonds may be called by the company after June 1 1911 upon 90 days' notice at 105 and interest, subject, however, to the bondholders' privilege of conversion within the said 90 days. In case the company shall hereafter place any mortgage upon the property now belonging to it, for the purpose of securing an issue or issues of mortgage bonds prior to conversion or retirement hereof described, these bonds shall participate in and be protected by said mortgage.

Payment on subscriptions will be due one half on July 20 1907 and one half on Jan. 20 1908. The subscription price will be paid and interest from June 1 to the date when payment is made. Full payment may be made on July 20 1907, whereupon bonds or negotiable receipts therefor will be issued.—V. 84, p. 1184.

(D.) Goff & Sons (Inc.), Pawtucket, R. I.—*Offering of Preferred Stock.*—Dean & Shibley and Edgar M. Dexter & Co., both of Providence, R. I., and Charles M. Miller, Pawtucket, R. I., are offering, at $110 a share, yielding the investor 5 1/2%, $100,000 7% preferred cumulative stock, with preference also as to assets in case of liquidation. Capitalization: Preferred stock authorized $1,000,000; issued and outstanding $500,000; common stock authorized $1,000,000; outstanding $500,000. A circular says in substance:

Business established more than forty years ago (1864; incorporated 1895) for the manufacture of worsted braid universally known as "Goff's Braid in the trade." In 1901 began the manufacture of worsted and mohair linings ("Goff Linings") for the clothing trade. In addition sells large quantities of worsted and mohair yarn to the manufacturing trade. Plant is situated on east bank of Blackstone River in the town of Pawtucket, R. I., taking its water power approximately 600 H. P. from the river under a 17-foot fall; several hundred additional horse power in the form of electric current is obtained from the Pawtucket Electric Co. on favorable terms. Building covers 2½ acres, all brick, fireproof construction, and is of most substantial construction. There is also in process of erection a modern, saw tooth roof weave shed, with a capacity of 100 looms.

Financial Statement Dec. 31 1906.

Preferred stock	$500,000	Real estate and machinery	$1,156,131
Common stock	600,000	Net quick assets	550,082
Reserve for depreciation	177,284		
Surplus	592,727		

The net surplus and also the net quick assets exceed the entire amount of preferred stock outstanding. The good will and the trade mark "Goff's Braid" are valuable assets, but do not appear in the statement. The property is free from encumbrances and no mortgage can be placed upon it except by consent of a majority of the preferred stock.

Annual Sales.

1902	1903.	1904	1905.	1906.	1907 (4 mos.)
$615,591	$750,336	$881,694	$1,284,596	$1,304,025	Over $600,000

For the past three years the gross sales have averaged $1,150,000, and the net earnings have averaged over seven times the amount required for the preferred dividend. Dividends are paid quarterly at the rate of 6% per annum on Feb. 15, May 15, Aug. 15 and Nov. 15. This stock is regularly listed on the Providence Stock Exchange. Officers: Darius L. Goff, Pres. and Treas; Lyman B. Goff, Vice. Pres.; Herbert M. Adams, Asst. Treas.; Frank J. Powers, Sec.; James A. Perry, Man.; Albert L. Goff, Supt.

Gorham Manufacturing Co.—*To be Controlled by Silversmiths Company.*—See that company below.—V. 81, p. 999.

Havana Dry Dock Co.—*Called Bonds.*—The company has called for redemption at its office, No. 32 Broadway, New York, or its office in Havana, on June 1, $15,000 bonds secured by mortgage of June 1 1901 to N. Gelats & Co., trustees.—V. 82, p. 1159.

Heron Pump & Foundry Co., Chattanooga, Tenn.—*Bond Issue.*—This company has filed a mortgage to the Chattanooga Savings Bank, as trustee, to secure an issue of $100,000 6% bonds to fund floating debt. Bonds dated April 1 1907, due April 1 1912. Denomination $500. Interest payable Oct. 1 and April 1 at office of trustee.

Home Ice & Refrigeration Co., Kansas City, Mo.—*Bonds Offered.*—Strandberg, McGreevy & Co., Kansas City, Mo., recently offered at par and interest $10,000 first gold 6s.

Due April 1 1922, optional after 1910 at 103 and interest. Denomination $100 and $500. "Secured by first mortgage on Kansas City improved real estate and other property costing $93,500"; United States Trust Co. of Kansas City, trustee. Company incorporated in Missouri Oct. 15 1906; actively engaged in ice business. Full-paid capital stock, $50,000. P. A. Simonds is President.

Inter-Continental Rubber Co.—*Agreement With United States Rubber Co.*—The report of the United States Rubber Co., which will be found on a preceding page of this issue, gives various particulars regarding the operating agreement recently entered into with this company. These particulars are supplemented by the following, which was published in the "New York Times" of Monday and is pronounced substantially correct:

The agreement between the United States Rubber Co. and the Inter-Continental Rubber Co., which controls a practical monopoly of the guayule shrub rubber industry and extensive concessions in the Congo Free State, where a similar shrub will be exploited, is more in the nature of a trade agreement than a consolidation of interests, President Samuel P. Colt of the United States Rubber Co. said yesterday. This co operation between the companies, for the present at least, will be confined to the acceptance of the output of the Continental Rubber Company's product obtained from their Mexican guayule monopoly, and if the African venture is a success, of the crude material produced there. Whether the United States Rubber Co. will take the entire output of the African concessions depends upon future developments as provided in the contracts.

Meanwhile the Continental Rubber Co. will remain out of the manufacturing field, which it has not yet invaded, and the United States Rubber Co. will use the product of the Continental Company in the manufacture of the coarser grades of the mechanical rubber products, and will make every effort to develop the refining processes to which the crude guayule product is treated with the idea of bringing it to its fullest perfection. Already the company has a considerable plant devoted to experiments and laboratory work in this line, and the agreement between the two interests has optional clauses which will allow the United States Company to receive permanent benefits provided the experiments prove that the guayule rubber is equal to the claims of its exponents. The same course will be pursued with the product of the rubber industry in Africa.

Col. Colt said yesterday that the United States Rubber Co. did not own a single share of stock in the Inter-Continental Rubber Co. or its two subsidiaries, but he admitted that it was in a position to profit by whatever success attended the operation of the Inter-Continental process.

Further particulars regarding the Intercontinental Company and its allies are published unofficially as follows:

The Continental Rubber Co. was incorporated on Jan. 6 1906 with $30,000,000 authorized capital stock (V. 82, p. 283) to exploit the guayule runner shrub which grows on the waste land of Mexico. Press reports credit it with the purchase for $8,000,000, directly or through the Continental Mexican Rubber Co. (incorporated in N. J. in Oct. 1904 with $100,000 stock, Edward B. Aldrich being a director), of the Cedros ranch in Northern Mexico, which is said to contain 1,755,000 acres.

Last fall, through the medium of Thomas F. Ryan and associates, an American corporation known as the American Congo Co. obtained a concession from King Leopold and the Belgium Parliament to harvest rubber in the Congo Free State over a territory embracing, it is said, 2,170,000 acres, two strips of 1,200 acres each along a navigable river with a 10 year option for the purchase of more than 1,000,000 acres. The new process of extracting rubber now in use by the Continental Rubber Co., it was stated, would be used for two years as an experiment, and wherever the concessionaries use this process they must replant annually fifty feet of vine for every 200 pounds of rubber extracted. The income, &c., concession acquired by Mr. Ryan and his associates, the Lewis Guggenheim and associates, is to be exploited by a company with a capital of 5,000,000 francs, known as the Societe International de Forestiere et Miniere du Congo, in which Belgium capitalists own a half interest and the American the remainder of the stock, purchased, it is said, for $1,500,000.

On Dec. 6 1906 the Intercontinental Rubber Co. was incorporated in New Jersey with $10,000,000 capital stock in shares of $ each, of which $10,000,000 is 7% pref. stock and $50,000,000 common, as the holding company for the American Congo Co. and the Continental Rubber Co., practically the same interests. It is understood Lord Cowdray is in all the companies, namely: Thomas F. Ryan, member of the Guggenheim family; Thomas F. Cole, John D. Rockefeller Jr., Senator N. W. Aldrich, Edward B. Aldrich, B. M. Baruch and William H. Page and others.

International Match Co.—*Bonds at Auction.*—At auction in Philadelphia on May 15 four blocks of this company's bonds aggregating in all $75,000, being "1st mtge. 5% bonds, May and Sept. coupon, May 1906, and all subsequent coupons on," were sold at 5% of their par value.

International Pneumatic Tube Co., Philadelphia.—*Decision Relative to Patents—Licenses.*—See report of American Pneumatic Service Co. on a preceding page.—V. 84, p. 1055.

Kentucky Electric Co., Louisville.—*Favorable Decision.*—See Louisville Lighting Co. below.—V. 83, p. 803.

Keystone Telephone Co. of Philadelphia.—*Earnings.*—Lee, Higginson & Co., New York and Boston, say:

The company reports substantially increased earnings, both for the month and for the ten months' period. In April the gross was $87,409, against $70,861 last year. Operating expenses and taxes were $42,529, or only 48%, against $39,947, or 56%, in 1906. For the ten months the gross earnings of $819,890 is an increase of $144,256 over last season, of which increase nearly $85,000 is carried to net income. During the period a reserve fund for renewals amounting to $83,680, has been set aside, compared with $63,089 in the ten months of 1906.—V. 84, p. 999, 870.

Louisville Lighting Co.—*Decision in Favor of Rival Franchise.*—The Appellate Court at Frankfort on May 15, in the action brought by John Stites as a taxpayer against the Board of Public Works of Louisville, sustained the decision of the Jefferson Circuit Court, Common Pleas, First Division, holding valid the ordinance adopted by the General Council of the city under which a franchise was sold to Lawrence Jones for $100,150 for distribution and sale of electricity in the city. The franchise has been acquired by the Kentucky Electric Co. (V. 83, p. 893), which, it is stated, will shortly begin to lay its wires and construct its power plant on the site recently purchased on the river front between Second Street and Third Avenue.

Under the provisions of the ordinance the board was prohibited from considering any bid made by the Louisville Lighting Co., or any person acting in the interest of that corporation, the ordinance reciting that it was the "object of this franchise to secure the benefit of competition in electricity, inasmuch as the Louisville Lighting Co. already has all the privileges conferred by this ordinance." The ordinance was held not to be in violation of Section 164 of the State Constitution providing that municipalities shall receive bids publicly and award the franchise to the highest and best bidder, but shall have the right to reject any and all bids. The court says "It was the duty of the City Council to take the necessary steps to relieve the people of the city from paying exorbitant prices for electricity for lighting purposes by establishing a competing plant and fixing the maximum price at which it could sell electricity," the Constitution of the State imposing upon legislative bodies the duty to protect the citizens against monopolies, trusts and unlawful combinations.—V. 79, p. 2799.

Midvale Steel Co., Philadelphia.—*Increase of Stock.*—The shareholders will vote July 18 upon increasing the capital stock from $750,000 to $9,750,000. The "Philadelphia Ledger" of May 19 says:

Following the policy of sustaining a reserve observed by the company since its organization in 1881, the corporation now has a surplus of $10,000,000, and this will be issued as stock, instead of being paid out in (cash) dividends, thus providing the capital and giving a financial status that will enable the company to seek contracts from foreign governments.

Balance Sheets (filed in Massachusetts).

Assets—	*Oct. 31 '06.* $	*Jan. 8 '06* $	*Liabilities*—	*Oct. 31 '06.* $	*Jan. 8 '06.* $

Compare V. 81, p. 557; V. 83, p. 1474, 99.

Monongahela Water Co., Pittsburgh.—*Earnings.*—The "Philadelphia News Bureau" of May 11 said:

A reason for the suspension of dividends is found in the earnings for the year ended April 1, which are given at $245,249, or $24,241 less than last year. The most important reduction in water rents, however, did not go into effect until about Jan. 1 1907. The company's franchise gave the city the right to buy the system last fall. In December the city ordered a sharp cut in water rents. The company complied and submitted the matter to the courts, claiming that the rates had been reduced to an extent that allows no profit. The company was greatly handicapped by uncertainty as to the city's intentions, being ready to install a filtration plant and to make other improvements, extensions, &c., but hesitating about doing so until the city signified whether its franchise was to be extended or the system purchased. The stock ($2,600,000) has long been considered an investment issue. It has a par value of $25, and in 1905 sold at $45. It last sold at $25. Compare V. 84, p. 935, 999.

North American Co.—*Notes Offered.*—Redmond & Co. of New York and Lee, Higginson & Co. of Boston, in their circular offering the $5,000,000 5-year 5% collateral trust notes referred to last week (page 1185), give a letter of President Wetmore, saying in part:

The net cash income for the fiscal and calendar year 1907 is estimated at $1,850,000, or $1,600,000 in excess of the total interest charges upon the entire authorized issue of notes. The purpose of the note issue is to provide funds for certain of the companies, in which the North American Co. is largely interested, and for the completion of plans heretofore undertaken. These expenditures will undoubtedly result in largely increased earnings.—V. 84, p. 1185, 341.

North Georgia Electric Co., Atlanta, Ga.—*New President.*—D. W. Stewart of Xenia, Ohio, has been elected President to succeed General A. J. Warner.—V. 83, p. 1595.

Ralston Steel Car Co., Columbus, Ohio.—*Payment of Accumulated Dividends, Etc.*—The "Ohio State Journal" of May 1 said:

To-day the holders of the $200,000 of preferred stock of the Ralston Steel Car Co. will receive their first dividend checks. The initial dividend will be one of 6%, being in payment of the accumulated dividends on the stock. Quarterly, on and after Aug. 1 next, the stockholders will receive 1½% on the stock. The company is showing large earnings and is amply able to take care of the preferred dividends and leave a nice surplus for the common stock.

[The company, it is said, is completing an order for 1,500 underframes for the Pullman Company, and has orders for underframes sufficient to take its output of underframes for the greater part of the year.]—V. 84, p. 935.

Republic Iron & Steel Co.—*Payment of All Arrears on Preferred Shares.*—The directors on Tuesday declared an extra dividend of 2% on the preferred stock, in addition to the regular quarterly dividend of 1¾%, both payable on July 1 to holders of record on June 10, thus extinguishing all the remaining arrears of dividends on the preferred shares. (Rosen, Stillman & Co., 30 Pine St., recently issued a circular regarding the property, offering bonds on a basis to yield the investor about 5½%.)—V. 84, p. 1,000, 342.

Rome (N. Y.) Gas, Electric Light & Power Co.—*Earnings.*—E. H. Gay & Co., who offer a small block of first mortgage 5s due June 1 1931, report:

Year.	*Gross.*	*Oper Exp.*	*Net.*	*Interest.*	*Balance Sur.*
1906	$126,212	73,010	$53,202	$19,119	$34,083
1905	92,862	45,357	47,505	18,142	29,363

Compare V. 83, p. 442; V. 76, p. 386.

Selma (Ala.) Water Co.—*Purchase by City.*—See "Selma" in "State & City" Department.

The Silversmiths Company, New York.—*Certificates of Indebtedness.*—The certificates of indebtedness, $3,000,000, which are now being issued by this company are being placed largely with the banks and trust companies familiar with the enterprise and amongst stockholders of The Silversmiths Company and the Gorham Manufacturing Co.

Davis & Davis, Providence, are offering at par the 3-year 6% certificates of indebtedness, price $1,000 each. An advertisement says:

This company holds all the stock of the W. B. Durgin Co., W. B. Kerr Co. and practically all of the Whiting Mfg. Co., in addition to a very large ownership of the common stock of the Gorham Mfg. Co. and other companies in similar lines of business. Capital stock $8,000,000. The average earnings for the last five years have been equal to the interest on these notes and on Gorham preferred stock and 12% on this stock, which is now paying 6%. Temporary receipts will be issued at once, to be exchanged for regular coupon notes July 1 1907, both to be registered at the Rhode Island Hospital Trust Co. These notes come ahead of the stock.

[The notes, we learn, are to be dated as sold. All due July 1 1910, without option of prior redemption. Present issue, $3,000,000 out of $4,000,000 authorized. These are certificates of indebtedness (no collateral) and are to be issued July 1 1907, with coupons attached.—Ed.]

Control of Gorham Manufacturing Co. Acquired.—The Silversmiths Co. is the outgrowth of a merger of Silverware Stocks Co. and The Silversmiths Co. to take advantage of the liberal provisions of the charter of the latter company. The Silverware Stocks Co. was organized for the purpose of taking over from the Gorham Manufacturing Co. their holdings of the stock of certain silverware manufacturing concerns. The capital of Silverware Stocks Co. is $2,000,000; the authorized capital of the Silversmiths Co. is $12,000,000, or, by the merger, a total authorized issue of $14,000,000. It is intended to issue $8,000,000, including the exchanged $2,000,000, and the balance of $6,000,000 will be used for the purpose of acquiring control of the Gorham Manufacturing Co. (V. 84; p. 999). Although this offer has not yet been made officially, enough Gorham stock to carry a large control has already assented to the plan.

A consolidated balance sheet of the combined companies will show that there are live assets of over $5,000,000 in excess of all liabilities, including the bonds issued. Including property and plant, this excess of assets over liabilities shows a figure slightly over $10,000,000. The office is 386 Fifth Ave., N. Y. City.—V. 84, p. 1185, 1000.

Standard Oil Co.—*Government Report.*—See editorial on preceding pages of this issue.—V. 84, p. 808, 512.

Tennessee Copper Co.—*Decision.*—The United States Supreme Court on May 13, in the suit brought by the State of Georgia, held that the Tennessee Copper Co. and Ducktown Sulphur Copper & Iron Co. can be enjoined from operating their smelting works in such a way as to cause damage to forests and other property in the neighboring State.

Sufficient time, it is understood, will be given both companies to inaugurate new plans. The Tennessee Company has been engaged for some time in the construction of a sulphuric-acid plant which will take care of a large part of the sulphurous gas that has been discharged into the atmosphere. The utilization of gas discharged by pyritic smelting blast furnaces in manufacturing sulphuric acid, which the company hopes to put into successful operation the coming summer as a strictly commercial step, is a new departure in such manufacture.—V. 84, p. 512.

Toledo Gas, Electric & Heating Co.—*Terms of Purchase.*—See Toledo Railways & Light Co. under "Railroads" above.—V. 84, p. 1186.

(A. C.) Tuxbury Lumber Co. of South Carolina.—*Bonds Offered.*—Mason, Lewis & Co., Boston, Chicago and Philadelphia, are offering at 100 and interest $500,000 first mortgage gold 6% sinking fund bonds of $1,000 each (c*). Total authorized issue, $700,000, dated March 1 1907, maturing as follows: $50,000 annually on March 1 from 1910 to 1923, both inclusive, the $200,000 due 1920-23 being reserved for acquisition of other property. After March 1 1910 any or all are subject to call at 105 and int. upon any interest date. Interest March 1 and Sept. 1 at New York Trust Co., N. Y., trustee. A circular says in substance:

Sinking fund $3 for every 1,000 feet of lumber sold, or, if the sales for the six months amount to less than 10,000,000 feet, $4 per $1,000 feet; but not less than $60,000 annually. The property, all situated near Charleston, S. C. (in Berkeley, Dorchester, Colleton, &c., counties, all on or near, it is said, navigable rivers—Ed.), consists of about 70,000 acres of timber land (about 38,000 acres owned, remainder under long lease), upon which there is estimated to be standing over 470,000,000 feet of merchantable timber (mainly, we understand, North Carolina pine—Ed.), with ample logging outfit, two locomotives, 30 cars, steam skidders, &c.; also manufacturing plant on Cooper River (4 miles from centre of Charleston), comprising saw-mills, planing mill, dry kiln shipping shed, wharf, power plant, electric light plant, dwelling houses for employees, &c., and also a launch and a large steel tugboat. The standing timber owned is estimated to be worth about $1,900,000 and the other items above mentioned about $250,000. There are $500,000 bonds now issued and $200,000 reserved under suitable restrictions for the acquisition of other property. The company is owned and managed by men of the highest standing and of lifelong experience in the lumber business. A. C. Tuxbury, President; F. G. Davies, Vice-President; Chas. Hill, Treasurer; J. J. Fleetwood, Secretary. Office, Flatiron Building, New York City. Company organized under laws of South Carolina, with a capital stock of $300,000, fully paid in cash; began business March 1 1906 and has been successful from the start.

A public accountant reports for the first ten months ending Jan. 1 1907: "Lumber manufactured, 13,923,356 feet; outside purchases, 455,355 feet; total, 14,378,711 feet; total sales, 10,991,038 feet; inventory of unsold lumber, 3,387,673 feet.

Income Statement for Ten Months ending Jan. 1 1907.

Gross (Sales).	*Net Income.*	*Other Inc.*	*Stumpage, &c.*	*Interest.*	*Bal., Sur.*
$292,728	$114,828	$5,599	$28,618	$33,010	$58,799

"Some large items were charged to surplus which should have been charged to investment; therefore the actual surplus earned was considerably larger than $58,799. Based upon actual sales for the first three months of the current year, the company should sell at least 20,000,000 feet of lumber in 1907. If sold at the same net profit made last year ($10 44 per 1,000) the net earnings would be about $210,000. The interest charges on $500,000 bonds would be $30,000 and the sinking fund charges would be about $60,000, which would leave a net surplus of about $120,000 applicable to dividends on the stock."

United States Rubber Co.—*Report.*—See "Annual Reports" on a preceding page.

Agreement—Further Facts.—See Inter-Continental Rubber Co. above.—V. 84, p. 808, 343.

United Gas Improvement Co., Philadelphia.—*Application for Charters of Rival Philadelphia Companies Withdrawn.*—The applications recently made for charters for the Pocohontas and Sterling gas companies, which were projected by unknown capitalists to bid for a lease of the Philadelphia Gas Works, in case the lease of the United Gas Improvement Co. should be terminated by the city on Dec. 31 1907, have been withdrawn. See editorial article on pages 1153 and 1154 of our issue for May 18, and compare report &c. in V. 84, p. 1112.

Wagner Electric Manufacturing Co., St. Louis.—*Decision.*—See Westinghouse Electric & Manufacturing Co. below.—V. 84, p. 1001.

Warwick Iron & Steel Co.—*Called Bonds.*—Fifteen bonds called for payment will be redeemed on June 1 at the Real Estate Title Insurance & Trust Co., 523 Chestnut Street, Philadelphia.—V. 84, p. 941.

Westinghouse Electric & Manufacturing Co.—*Favorable Decision.*—The United States Circuit Court of Appeals in this city on May 19 handed down a decision in the suit of the company against the Wagner Electric Manufacturing Co., restraining the latter from using its device, which was held to be an infringement of the Stanley patent on high potential transformers employed in reducing alternating currents. The result, it is thought, will be that the manufacture of these transformers will be limited in future to the Westinghouse and General Electric companies and affiliated interests. —V. 84, p. 1000, 225.

York Haven (Pa.) Water & Power Co.—*Increase in Bonded Debt.*—The stockholders voted on May 3 1907 to increase the bonded debt from $2,500,000 to $4,000,000, the proceeds to be used to increase the capacity of the plant by 10,000 h.p., making the total output 20,000 h.p. The company recently contracted to furnish 1,500 h.p. to the Pennsylvania Steel Co. at Steelton, Pa.—V. 84, p. 808.

—E. H. Rollins & Sons have moved their Chicago offices to a lower floor (the second) of the same building formerly occupied by them. The location is on the corner of Jackson Boulevard and La Salle Street, one of the very best in Chicago—immediately across Jackson St. from the Board of Trade and across La Salle St. from the Illinois Trust Savings Bank. They occupy the entire floor, a suite of about ten rooms, conveniently arranged and handsomely appointed. Since the establishment of the Rollins branch office in Chicago, under the management of Mr. George H. Taylor, not over five or six years ago, the growth of business has been rapid. Besides the old and widely-known parent office of E. H. Rollins & Sons in Boston, and this extensive Chicago branch, the firm has also offices in Denver and San Francisco which do a large business.

—Newburger, Henderson & Loeb, members of the New York and Philadelphia Exchanges, will move their temporary offices in New York to permanent quarters on the ground floor of the American Surety Building, 100 Broadway, Corner of Pine Street. Their new offices are larger, more convenient to the street, and have a private Broadway entrance. In 1899 the firm started business as Newburger Bros. & Henderson in Philadelphia, but with the admission of several new partners in January of this year the name was changed to Newburger, Henderson & Loeb. The Philadelphia offices are on the first floor of 527 Chestnut Street. The concern does a general stock and bond brokerage and investment business.

—An interesting and attractive booklet, "Timber and Timber Bonds," has been received from Mason, Lewis & Co., Chicago. Recently this progressive bond-house has been offering to the investing public several series of 6% bonds secured by mortgages upon heavy bodies of timber in this country and Mexico; and the present pamphlet is evidently intended to be educative as to the intrinsic value of this sort of security. The booklet is illustrated with half-tones of forest and logging scenes, and gives an array of facts and statistics regarding the fortunes made from lumbering in the past, the wastefulness of the system heretofore, and the consequent enhancement in value of the standing timber that remains.

—Samuel Burns Jr., dealer in stocks, bonds and commercial paper, with offices in the New York Life Building, Omaha, Neb., is distributing a handy booklet devoted to those securities which should appeal particularly to the Omaha investor. It gives the capital, date of incorporation, officials, &c., of some forty street railway, electric light, water and local manufacturing companies.

—R. E. Robinson & Co. succeed Dick & Robinson at the same address, 30 Broad St., New York, and Real Estate Trust Building, Philadelphia. The members of the firm are R. E. Robinson and Thos. R. Patton Jr., with Charles Pryer and Fairman R. Dick as special partners.

—By arrangement with the Havana Bond & Trust Co., the banking house of A. B. Leach & Co., 149 Broadway, New York, will collect and remit for all coupons due May 28 1905 on Cuban Internal 5% bonds.

—Day, Adams & Co., members N. Y. Stock Exchange, telephone 4640 Broad, 45 Wall St., N. Y., will furnish upon request a special circular on Great Northern Ry. preferred stock.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, May 24 1907.

Commercial conditions in this country have remained pretty much the same as heretofore, trade in the main being good in spite of unseasonably cool weather. Prices have been very well sustained, manufactured articles have met with a brisk if somewhat diminished sale, and money has been easy. Though stock speculation has received a manifest check, trading in grain and cotton futures has recently expanded.

LARD on the spot has ruled firm in the main with the demand confined largely to jobbers. Shippers have held aloof from the market, owing to inability to secure freight room. City 9⅛c. and Western 9.25@9.35c. Refined lard has been easier, owing to dulness of trade and some increase in the offerings. Refined Continent 9.65c., South American 10.65c. and Brazil in kegs 11.65c. The speculation in lard futures has been active with the tendency of prices upward, owing to the strength and activity of the grain markets and buying by packers and commission houses. Of late, however, there has been heavy realizing under which prices have reacted.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Frl.
May delivery	9.07½	9.12½	9.27½	9.12½	9.05	9.00
July delivery	9.17½	9.22½	9.37½	9.22½	9.15	9.10
September delivery	9.30	9.37½	9.55	9.37½	9.30	9.22½

PORK on the spot has been dull and steady. Exporters have withdrawn from the market, and the buying has been largely of a hand-to-mouth character. Mess $17 75@$18 50; clear $17 25@$18 25 and family $19@$19 50. Tallow has been dull but firm on light offerings. City 6⅜@6½c. Cut meats have been steady with a fair local trade. Pickled shoulders 10c., pickled hams 12@12½c. and pickled bellies, 14@10 lbs., 11@12¼c. Stearines have been quiet and steady; oleo 9½@10c. and lard 10¼@10½c. Butter has been moderately active and firm; creamery extras 24½c. Cheese has been firm with offerings light; State factory, new best, small, 12½@12¾c.; large, 12@12¼c. Eggs have been active and firm; Western firsts 16½c.

OIL.—Cottonseed has been moderately active and firm. Prime summer yellow 57c. and winter 60@61c. Linseed has been firm, despite some falling off in the demand and a decline in the price of seed. City, raw, American seed, 44@45c.; boiled 45@46c.; Calcutta, raw, 70c. Lard has been firm with trade fairly active and offerings moderate. Prime 78@80c. and No. 1 extra 57@58c. Cocoanut has been quiet and steady; Cochin 10¾c. and Ceylon 9¼@9⅜c. Peanut has been quiet and steady; yellow 50@60c. Olive has been dull but firm; yellow 85@90c. Cod has been moderately active and steady; domestic 38@40c. and Newfoundland 40@42c.

COFFEE on the spot has been dull and steady. Rio No. 7, 6½c.; Santos No. 4, 7c. West India growths have been quiet and steady; fair to good Cucuta 8⅛@9¼c. The speculation in future contracts has been dull. Fluctuations in prices have been confined within the narrowest possible limits. At times slight declines have occurred under a dribbling out of long holdings from local interests. Foreign houses have sold here to some extent. The receipts at Rio and Santos have continued on a large scale. Support from prominent local interests has prevented any noteworthy decline in prices. It is still, in the main, a waiting market.

The closing prices were at follows:

May	5.50c.	September	5.25c.	January	5.25c.
June	5.40c.	October	5.25c.	February	5.30c.
July	5.35c.	November	5.25c.	March	5.35c.
August	5.25c.	December	5.25c.	April	5.35c.

SUGAR.—Raw has been firm with trade quiet and offerings small. Centrifugal, 96-degrees test, 3.92c.; muscovado, 89-degrees test, 3.42c., and molasses, 89-degrees test, 3.17c. Refined has been firm. New business has been quiet, but there have been liberal withdrawals on old orders. Granulated 4.90c. Teas have been in light jobbing demand and steady. Spices have been dull and steady. Hops have been dull.

PETROLEUM.—Refined has been in brisk demand and firm; barrels 8.20c., bulk 4.75c., and cases 10.65c. Naphtha has been in good demand and firm; 73@76 degrees 18c. in 100-gallon drums. Gasoline has been active and firm; 86-degrees 21c. in 100-gallon drums. Spirits of turpentine has declined to 63½c., with trade quiet. Rosin has been moderately active and firm; common to good strained $4 90.

TOBACCO.—There has been an absence of noteworthy developments during the week. The demand for domestic cigar leaf has continued light, but with the offerings small prices have ruled firm. Threatened labor troubles at Albany have caused some reduction in the demand from that section. Crop reports from the South and also from Cuba have been more favorable as a rule.

COPPER has been less active and easier; lake 24¾@25c. and electrolytic 23¾@23⅞c. Lead has been quiet and steady at 6c. Spelter has been quiet and easy at 6⅜@6.40c. Tin has been active and firmer; Straits 43⅞c. Iron has been firm with an increased inquiry. No. 1 Northern $21 20@$25 20; No. 2 Southern $21@$25.

COTTON.

Friday Night, May 24 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 51,882 bales, against 55,619 bales last week and 70,776 bales the previous week, making the total receipts since the 1st of September 1906, 9,434,142 bales, against 7,349,210 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,084,932 bales.

Speculation in cotton for future delivery has been active at irregular prices, declining early in the week and then advancing. The net changes in the week are small. Crop conditions seemed early in the week to be better, and besides there was a good deal of liquidation as well as what looked like persistent short selling by prominent interests. In the main, however, it was profit-taking not only for local and Wall Street operators, but also for the West and the South. Later on came renewed buying by bulls who had liquidated, and also by shorts, owing to some renewal of the rains in the Southwest and the Mississippi Valley, and persistently bad crop reports from very many sections of the belt, particularly the Mississippi Valley. This has given rise to apprehensions more pronounced than ever of a bullish Government report on June 4th, some taking the ground that possibly it may give even a lower percentage of condition than in June 1903, which was 74.1, the lowest for June in 36 years. A leading operator here issued a statement late on Thursday putting the condition at 66.3%., but this had little effect, owing to heavy realizing sales and a good deal of selling for short account. Spot interests were at one time buying, but have latterly sold to some extent. The impression, moreover, has latterly gained ground that after the recent very marked advance some reaction was due. Some reports in regard to the condition of the crop have been rather more favorable, and it is not forgotten that even in seasons of very large crops there were times when gloomy reports as to the outlook were numerous. Conservative interests feel that it is too early to dogmatize about the size of the crop. Meantime, however, the speculation is more active than it was recently, the outside public, which has taken hold of wheat, also showing greater interest than for several years past in cotton, though the speculation is nothing like as large as it was in the Sully year. Spot markets continue strong, dry goods reports are in the main favorable, and it is very generally believed that there is a good reason to expect a continuance of the present large consumption for some time to come. Indeed, it is this expectation which gives added point to the recent bad weather and crop reports. To-day prices were irregular, advancing early owing to rains in the Southwest and the lower Mississippi Valley, a continuance of bad crop reports received by many of the commission houses, predictions of showers for the belt generally, with colder temperatures in the Southwest, and buying by the South and West as well as local and Wall Street houses. A reaction followed, leaving prices slightly lower for the day, owing to realizing and bear manipulation. Trading fell off partly, owing to the fact that the Liverpool Exchange was closed to-day, and will be to-morrow for the Whitsuntide holidays. Cotton on the spot, has been officially reported quiet as a rule. Prices have been firmer, however. Middling uplands closed at 12.35c., an advance for the week of 20 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair c.	2.00 on	Strict low mid. c.	0.14 on
Strict mid. fair	1.75 on	Fully low mid.	0.32 off
Middling fair	1.50 on	Low middling	0.50 off

Continental imports past week have been 73,000 bales.

The above figures for 1907 show a decrease over last week of 92,837 bales, a gain of 529,815 bales over 1906, an excess of 412,587 bales over 1905 and a gain of 1,748,052 bales over 1904.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

Towns.	Movement to May 24 1907.				Movement to May 25 1906.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic reports from the South this evening indicate that the weather has been more favorable during the week. Rain has fallen in most districts but the precipitation has been light or moderate as a rule. Most of our reports denote that the crop is now doing better, but it is claimed that warm dry weather is needed in Texas.

Galveston, Texas.—Many unsatisfactory reports regarding stands and replanting are still coming in from various sections of Texas. Warm dry weather is needed. We have had rain on one day during the week, to the extent of ten hundredths of an inch. The thermometer has averaged 77, ranging from 72 to 82.

Abilene, Texas.—It has rained on one day of the week, the rainfall reaching fourteen hundredths of an inch. The thermometer has ranged from 56 to 92, averaging 74.

Brenham, Texas.—We have had rain on two days during the past week, the rainfall being fifteen hundredths of an inch. Average thermometer 73, highest 85 and lowest 60.

Corpus Christi, Texas.—Rain has fallen on one day the past week, to the extent of one hundredth of an inch. The thermometer has averaged 74, the highest being 84 and the lowest 64.

Cuero, Texas.—We have had rain on one day of the past week, the rainfall being thirty hundredths of an inch. The thermometer has averaged 77, ranging from 62 to 92.

Dallas, Texas.—It has rained on one day of the week, to an inappreciable extent. The thermometer has ranged from 59 to 90, averaging 75.

Fort Worth, Texas.—There has been rain on one day during the week, the precipitation reaching thirty-two hundredths of an inch. Average thermometer 75, highest 90, lowest 60.

Henrietta, Texas.—Rain has fallen on one day of the week, to the extent of fifty hundredths of an inch. The thermometer has averaged 76, the highest being 94 and the lowest 58.

Huntsville, Texas.—It has rained on two days during the week, the rainfall being forty-five hundredths of an inch. The thermometer has averaged 75, ranging from 62 to 87.

Kerrville, Texas.—Rain has fallen excessively on three days during the week, the precipitation reaching four inches and forty-four hundredths. The thermometer has ranged from 62 to 86, averaging 74.

Lampasas, Texas.—We have had rain on two days during the past week, the rainfall being thirty-five hundredths of an inch. Average thermometer 73, highest 89, lowest 56.

Longview, Texas.—It has rained on one day of the week, the rainfall being seventeen hundredths of an inch. The thermometer has averaged 73, the highest being 89 and the lowest 57

Luling, Texas.—There has been heavy rain on one day the past week, the rainfall reaching one inch and seventy-nine hundredths. The thermometer has averaged 73, ranging from 57 to 88.

Nacogdoches, Texas.—It has rained on one day of the week, the rainfall reaching twenty hundredths of an inch. The thermometer has ranged from 58 to 84, averaging 71.

Palestine, Texas.—We have had rain on one day during the past week, the rainfall being one hundredth of an inch. Average thermometer 73, highest 84, lowest 62.

Paris, Texas.—Rain has fallen on one day of the week, to the extent of eighty hundredths of an inch. The thermometer has averaged 73, the highest being 88 and the lowest 58.

San Antonio, Texas.—There has been rain on two days the past week, the rainfall reaching thirty-five hundredths of an inch. The thermometer has averaged 75, ranging from 64 to 88.

Weatherford, Texas.—Rain has fallen on one day during the week, the precipitation reaching eight hundredths of an inch. The thermometer has ranged from 64 to 92, averaging 77.

New Orleans, Louisiana.—It has rained on one day of the week, the rainfall being two inches and ten hundredths. The thermometer has averaged 76.

Shreveport, Louisiana.—There has been rain on two days the past week, the rainfall reaching thirty-six hundredths of an inch. The thermometer has averaged 73, ranging from 59 to 86.

Leland, Mississippi.—It has been dry all the week. The thermometer has ranged from 52 to 81, averaging 62.3.

Vicksburg, Mississippi.—We have had rain on two days during the past week, the rainfall being eighteen hundredths of an inch. Average thermometer 73, highest 86 and lowest 63.

Helena, Arkansas.—Some replanting for the third time is now going on and seed is scarce. Rain has fallen on one day of the week. The rainfall reached two hundredths of an inch. Average thermometer 71.8, highest 83 and lowest 56.

Little Rock, Arkansas.—Crop condition is miserable owing to replanting. A third of the acreage is still to be planted. Stands are poor. We have had rain on one day during the week, the precipitation reaching four hundredths of an inch. The thermometer has averaged 72, the highest being 84 and the lowest 59.

Memphis, Tennessee.—The weather has been dry all the week, until to-day. Rain is now falling. Planting and replanting are active; the rain now falling will be beneficial in maturing seed. The thermometer has averaged 71, ranging from 55.8 to 85.2.

Nashville, Tennessee.—Rain has fallen on one day of the week, the precipitation being one hundredth of an inch. The thermometer has ranged from 49 to 88, averaging 68.

Mobile, Alabama.—The weather has been clear and warm in the interior, with showers the latter part of the week. Cotton planting has made fair progress in most sections. The Tombigbee River is still seven feet above flow stage, but falling. Rain has fallen on one day of the week, the rainfall being two hundredths of an inch. Average thermometer 73, highest 86, lowest 54.

Montgomery, Alabama.—The weather for ten days past has been warm and mainly dry. Crops are now progressing nicely but are still backward. The only rain of the week was last night, the rainfall being 70 hundredths of an inch. The thermometer has averaged 72, the highest being 86 and the lowest 52.

Selma, Alabama.—We have had rain on one day during the week, the rainfall being twelve hundredths of an inch. The thermometer has averaged 72, the highest being 81 and the lowest 55.

Madison, Florida.—We have had no rain during the week. The thermometer has averaged 75, ranging from 56 to 90.

Augusta, Georgia.—Conditions are not favorable at present, owing to cool nights and lack of rain. Dry all the week. The thermometer has ranged from 51 to 89, averaging 71.

Savannah, Georgia.—There has been no rain during the week. Average thermometer 72, highest 89, lowest 56.

Charleston, South Carolina.—We have had rain on one day during the week, the rainfall being seventy-five hundredths of an inch. The thermometer has averaged 71, the highest being 81 and the lowest 59.

Greenwood, South Carolina.—We have had no rain during the week. The thermometer has ranged from 56 to 82, averaging 69.

Charlotte, North Carolina.—There has been no rain during the week. Nights have been too cool, but are getting warmer. Thermometer has averaged 69, ranging from 50 to 87.

Ardmore, Indian Territory.—The weather has been favorable the past week and farm work is being rushed. But much replanting is necessary.

The following statement we have also received by telegraph, showing the height of rivers at the points named at 8 a. m. of the dates given:

		May 24 1907. Feet.	May 25 1906. Feet.
New Orleans	Above zero of gauge.	16.1	13.9
Memphis	Above zero of gauge.	30.1	13.0
Nashville	Above zero of gauge.	10.6	8 1
Shreveport	Above zero of gauge.	18.4	18.9
Vicksburg	Above zero of gauge.	40.4	29.5

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Sept. 1, for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amount gone out of sight, for the like period.

Cotton Takings. Week and Season.	1906-07.		1905-06.	
	Week.	*Season.*	*Week.*	*Season.*
Visible supply May 17	4,456,184		3,971,784	
Visible supply Sept 1		1,784,156		2,545,470

a Embraces receipts in Europe from Brazil, Smyrna, West Indies, &c.

NEW YORK COTTON EXCHANGE.—Mr. Charles E. Rushmore, the referee appointed by the Supreme Court to take testimony in the suit instituted by Mr. Theo. H. Price against the New York Cotton Exchange and its Classification Committee, has made a report favoring the dismissal of the suit.

COTTON ACREAGE ESTIMATES.—Under date of May 21 Messrs. Latham, Alexander & Co. issue their annual estimate of cotton acreage. The estimate is based upon 4,582 replies of average date of May 16, and makes the average decrease in acreage 3.52%, the area this year being placed at 27,674,770 acres, against 28,686,000 acres in 1906, a decrease of 1,011,230 acres.

Messrs. A. Norden & Co. recently issued an estimate of acreage in which they made the total area this year 33,088,694 acres, against 31,557,242 acres in 1906, an increase of 1,531,452 acres, or 4.85%.

FALL RIVER MILL DIVIDENDS.—The statement of dividends for the second quarter and half-year will be found on page 1216.

RUSSIAN COTTON CROP.—Consul Samuel Smith, at Moscow, notifies the Department of Commerce and Labor that last year's yield of cotton in Russia was the heaviest on record for that country. He says in part:

The most important cotton zone of Russia lies in the Ferghana district of Central Asia, where the area under seed in 1906 was 64,676 acres against 61,658 in 1905. There were produced last season 211,665 ton (of 2,240 pounds each) of raw cotton, yielding 75,000 tons of clean cotton the latter an increase of 3,335 tons over 1905. In the Syr-Darya district 10,090 acres were under seed, yielding 33,335 tons of raw cotton, or 150,00 tons of cleaned cotton. The 5,779 acres in the Samarkand district, produced 16,667 tons of raw or 5,835 tons of clean cotton. The Trans Caspian district produced 10,000 tons of clean cotton from 9,250 acres. In Bokhara the area was reduced by nearly 1,090 acres, the cotton planting last season covering 4,625 acres, and 33,335 tons of clean cotton was collected in Bokhara. Khiva and the district adjoining Persia. On the Caucasus approximately 8,335 tons of cotton were collected.

The foregoing figures show that the total cotton crop yielded approximately 147,500 tons of clean cotton 590,000 bales of 500 lbs. net average weight; which is by 25% more than in any previous year.

SPINDLES AND LOOMS IN GREAT BRITAIN.—The "Manchester (Eng.) Guardian" in its issue of April 16 says:

In their directory issued yesterday, Messrs. Worrall, of Oldham, give particulars of the number of spindles and looms worked by each firm in the cotton industry. During the past twelve months there has been an increase of 76 firms, representing 4,262,678 spindles and 40,411 looms. Oldham shows the largest increase of spindles, namely 1,361,020. Then comes Manchester with 683,950. The following are the chief cases of increase: Rochdale, 353,568; Farnworth, 336,568; Stockport, 297,224; Bolton, 267,884; Leigh, 242,000; Heywood, 152,200; Ashton under Lyne, 146,884; Hyde, 101,836; Preston 98,849; Middleton, 49,326; Wigan, 48,172; Stalybridge, 40,390; Accrington, 43,748, and Clitheroe, 26,099.

The greatest loom increase is Burnley, namely 9,665. Then comes Bolton with 4,797. The following are other cases of increases: Blackburn, 2,997; Colne, 2,229; Radcliffe, 2,060; Preston, 2,049; Accrington, 2,024; Chorley, 1,661, Rawtenstall, 1,361, and Clitheroe, 1,307.

The spindles that have fallen out of use during the year are Rawtenstall, 19,554; Haslingden, 11,884, and Glossop, 3,480.

The total number of spindles now accounts to 52,585,362. Ten years ago the figures were 42,061,287. Going back to 1882, the figures were 38,410,067.

The total number of looms to-day is put down at 725,221, as compared with 641,547 ten years ago. Going back to 1882, the number of looms then was 485,264.

OUR COTTON ACREAGE REPORT.—Our cotton acreage report will probably be ready about the 4th of June. Parties desiring the circular in quantities, with their business card printed thereon, should send in their orders as soon as possible, to ensure early delivery.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.—Through arrangements made with Messrs. Choremi, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years:

Alexandria, Egypt, May 22	1906-07.	1905-06.	1904-05.
Receipts (cantars *a*)—			
This week	4,500	2,500	38,000
Since Sept. 1	6,846,745	5,860,310	6,111,427

Exports (bales)—	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
To Liverpool	3,000	199,095	300	189,028	4,500	199,524
To Manchester		185,261	3,250	160,798		138,692
To Continent	5,000	313,800	3,000	283,704	4,750	277,177
To America	1,500	105,474	300	67,369	700	65,267
Total exports	9,500	803,630	6,850	711,799	9,950	680,660

a A cantar is 98 lbs.

INDIA COTTON MOVEMENT FROM ALL PORTS.—The receipts of cotton at Bombay and the shipments from all India ports for the week and for the season from Sept. 1 for three years have been as follows:

BREADSTUFFS.

Friday, May 24 1907.

Prices for wheat flour have risen sharply during the week. The principal factors in the rise have been the advance in wheat and the unfavorable tenor of the wheat-crop reports. The effect of the advance in prices has been to intensify the dulness of the market. Buyers have refused to follow the advance. There has been some re-selling by recent buyers at about forty cents under the prices asked by millers. Mills in some cases have refused to consign flour to this market at the ruling quotations. At the principal milling centres of the Northwest trade has been at a standstill so far as new business has been concerned, but liberal withdrawals on old orders have enabled the mills to continue in operation. Rye flour has been dull but stronger. Corn meal has been quiet and steady.

Wheat shows some decline for the week under the weight of realizing as much as anything else, though beneficial rains of late in Kansas, Nebraska, the West and the Northwest generally have also had a very noticeable effect. In the main, however, the crop news has been unfavorable, and one Minneapolis estimate of the winter-wheat crop is only 325,000,000 bushels against a total last year of 492,000,000 bushels. It is understood that Northwestern operators short of the market recently covered and went "long" because of the conviction that the winter-wheat outlook had become really unfavorable. Reports of damage have undoubtedly been exaggerated, especially from Kansas, but some injury appears to have been done by drought, cold weather and insects in that State, and also in Nebraska. Some very favorable reports, however, have been received from parts of Kansas and Nebraska as well as from Indiana, Illinois and Ohio.

Favorable progress has also been made with spring-wheat seeding at the Northwest, where the weather has been milder as well as rainy. Meantime, however, there has been a large speculation, encouraged in no small degree by the strong tone of the European markets. They have felt the effects not only of the American news but also of bad crop reports from the Danubian section and parts of Russia. Buda Pesth in two days advanced equal to 8 cents per bushel, largely, it appears, because of such reports. Some of the reports from Germany have also been unfavorable. On the other hand, from India favorable advices have been received and the weather is good in Argentina for field work. With reasonably good conditions from now on the Northwestern wheat States of this country, it is felt, may yet raise a large crop. At any rate, what with better weather everywhere throughout the West and somewhat more favorable crop reports in some cases, not to speak of heavy liquidation to secure profits both here and at the West, prices have declined somewhat. To-day the tone was somewhat weaker owing to renewed rains at the West and Northwest and further realizing of profits.

Indian corn futures advanced early in the week owing to the rise in wheat and continued unseasonably cold weather at the West. Commission houses have been active buyers at Chicago, the speculation there having broadened out considerably. Leading bulls have given support and shorts have covered freely at times. The smallness of contract stocks at Chicago has discouraged short selling. The receipts have been light. Of late, however, prices have shown a reactionary tendency owing to a setback in wheat and liquidation. Better progress has been made in planting within the last few days and a considerable increase in the receipts is expected shortly. To-day prices were easier on liquidation and better weather and crop reports.

September delivery in elevator	53	53⅜	54⅞	54⅛	52¾	53⅛

Oats for future delivery in the Western market advanced for a time owing to unfavorable weather and crop reports and active buying. The weather has been too cold in some sections and too dry in others. Insects are said to have caused serious injury in important States. Large Chicago interests have supported and bid up the market and there has been considerable buying by commission houses and shorts. The cash market at the West has been firm with a good shippping demand. Receipts have been light. On the rise, however, heavy realizing occurred, and this, with the decline in wheat, caused a reaction. To-day prices were irregular, but in the main the tone was firm on bad crop reports, covering of shorts and bull support.

GOVERNMENT WEEKLY WEATHER REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending May 20, summarizing them as follows:

Although there was a well-marked deficiency in the mean temperature in the central valleys and Southern States during the week ending May 20 1907, as compared with the normal, the conditions were more favorable than in any week since April 1. In New England, the Middle Atlantic States, lower Lake region and on the North Pacific Coast the week averaged warmer than usual and was generally favorable. Light to heavy frosts occurred in the Lake region and central valleys, and light frosts as far south as Arkansas, Tennessee and the interior of the Middle Atlantic States. Minimum temperatures much below freezing occurred throughout the central and northern Rocky Mountain districts, the upper Missouri Valley and over the northern portions of the upper Mississippi Valley and upper Lake regions. Portions of the central and lower Mississippi Valley and East Gulf States have suffered from excessive rain, while droughty

conditions exist in Western Texas and portions of the central Missouri Valley. A light fall of snow occurred in the lower Missouri Valley on the 14th. There was much cloudiness over the northeastern Rocky Mountain slope and in the central Missouri Valley. Throughout the Atlantic Coast and Gulf districts the sunshine was generally above the average.

EXPORTS OF BREADSTUFFS, PROVISIONS, COTTON AND PETROLEUM.—The exports of these articles during the month of April, and the ten months, for the past three years have been as follows:

a Including flour reduced to bushels.

Note.—All the above figures are based on the monthly preliminary returns issued by the Bureau of Statistics, and cover about 97% of the total exports.

The aggregate exports from the United States of wheat and wheat flour, expressed in bushels, for the nine months from July 1 to April 30 inclusive, have been as follows for four years:

WHEAT EXPORTS FROM JULY 1 TO APRIL 30.

	1906-07.	1905-06.	1904-05.	1903-04.
Wheat, bushels	65,828,482	32,032,309	4,258,866	42,650,864
Flour, reduced to bushels	56,411,807	52,863,579	32,775,885	69,296,841
Total bushels	122,240,289	84,895,888	37,034,751	111,947,705

For other tables usually given here, see page 1220.

THE DRY GOODS TRADE.

New York, Friday Night, May 24 1907.

There has been some improvement in the volume of demand coming forward in the wholesale markets this week. Orders have been more numerous and of diversified character, but mainly for limited quantities to meet filling-in requirements. This would indicate that in spite of the unfavorable weather, and the character of the reports coming in from retailers, distribution to consumers is gradually expanding. In the cotton goods division the general tone continues decidedly strong, the extremely well-sold up condition in the goods market being backed up by further appreciation in the price of raw material and the extremely unfavorable reports circulating concerning cotton-crop prospects. Manufacturers are moving very cautiously, and in some directions have turned down orders coming to hand on prevailing price levels for forward delivery. There have been further occasional advances during the week, and others are looked for in the near future. Conditions in the woolen goods division are irregular; some increase in business doing has been reported, but the aggregate trade continues quite moderate. Complaints concerning collections are heard around the market, but do not appear to be any more numerous than they have been for some little time back. An improvement in the weather, increasing retail distribution, is expected to bring about greater celerity and regularity in this connection.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 18 were 1,835 packages, valued at $109,623, their destination being to the points specified in the table below:

	1907		1906	
New York to May 18—	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	4	939	4	533
Other European	47	508	2	616
China	----	8,049	----	50,429
India	25	4,429	----	3,758
Arabia	805	18,753	----	13,827
Africa	50	3,577	80	3,651
West Indies	237	9,479	313	8,873
Mexico	45	954	43	869
Central America	273	6,295	471	6,366
South America	303	18,847	518	22,100
Other countries	46	13,671	575	6,470
Total	1,835	86,401	2,156	117,492

The value of these New York exports since Jan. 1 has been $5,192,032 in 1907, against $6,668,257 in 1906.

Heavy brown sheetings and drills have been firm in price, although there is still a marked absence of demand for export. Stocks are not showing any increase, many mills having diverted their machinery from the heavy fabrics to lighter weights, for which there is a greater outlet. Manufacturers of some of these lighter-weight sheetings are declining to accept orders at present prices. Further advances are noted this week in bleached cottons, including both grey-bleached and narrow widths as well as higher-priced lines. Advances are also recorded of about 5% in several kinds of lower-priced staple prints, and a further rise on standard grades is generally expected within the next few weeks. Ginghams of all descriptions are very firmly held in face of a steady demand. Plain and fancy white goods are, with few exceptions, heavily under contract, with an upward tendency in price. Denims and tickings move out in considerable quantities on previous orders, but the current demand is moderate only. Other coarse colored cottons are quiet but firm. Cotton flannels, domets and other napped fabrics are without material change. Regular print cloths are without business; nominally 9-16 cts. to 15/8 cts. Narrow odds are against buyers, and in these and plain wide goods for converting purposes, orders have been placed for delivery well into 1908.

WOOLEN GOODS.—In men's wear woolens and worsteds, the demand coming forward this week showed some improvement, but it has been quite unevenly distributed and hardly of benefit to the general situation, lines already well sold up drawing the bulk of the orders. No declines have been openly quoted, but there are sellers with whom business can be done at a recession from recent quotations. Warmer weather, it is believed, would be followed by a material expansion in buying in the primary market and cause much greater interest than has hitherto been shown in the new lines opening up for spring. The price situation so far as the latter are concerned is still quite indefinite, and agents under prevailing conditions show no disposition to throw any tangible light upon it. Meanwhile the spring business is quite backward, but the majority of sellers now have their samples in such shape that they could at once take advantage of any change in the disposition of buyers. It is expected that woolen mixtures and unfinished worsteds will prove popular when the spring business really develops. Business in woolen and worsted dress goods is irregular, broadcloths are selling fairly well, as are panamas, while fancy woolens are attracting a fair share of orders. On the whole, however, the week's business has not been of a satisfactory character in volume, nor have prices in all lines been uniformly maintained. Carpets are selling well at fully opening prices.

FOREIGN DRY GOODS.—The demand for imported woolen and worsted dress goods has been of moderate extent and without feature of prominence. New lines for next season are being added to, and under better weather conditions a broadening of demand is expected. Silks and ribbons are generally firm with fully an average business passing. There has been no augmentation of stocks of linens, and business continues restricted by absence of ready supplies; the tone is strong throughout. Full prices are realized on burlaps, with the demand still keeping supply short.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending May 18 1907 and since Jan. 1 1907, and for the corresponding periods of last year, are as follows:

State and City Department.

News Items.

Illinois.—*Temporary Adjournment of Legislature.*— On May 15 the Legislature of this State took a recess until Oct. 8, when action will be taken on any bills which may be vetoed by the Governor.

New York City.—*Greater New York Charter Amended Regarding Interest Rate on Future Bond Issues.*—The Legislature has passed an amendment to the city charter removing the 4% limit on the interest payable on New York City bonds, and conferring on the Sinking Fund Commissioners the power to fix the rate of interest payable upon all corporate stock and bonds issued hereafter by the city.

By Section 1 of this amendment, Section forty-five of the Greater New York charter, as amended by Chapter six hundred and twenty-nine of the Laws of nineteen hundred and five, is changed so as to provide that hereafter the rate of interest on all bonds issued for the construction and equipment of the Rapid Transit railway authorized pursuant to Chapter 4 of the Laws of eighteen hundred and ninety-one, as amended, shall be prescribed by the Board of Sinking Fund Commissioners.

By Section 2, Section forty-seven of the charter, as amended by Chapter six hundred and twenty-nine, is altered in like manner. This Section deals with loans that may be created and bonds authorized for the construction of markets, parks, parkways, playgrounds, boulevards and driveways; for the building of bridges, tunnels or waterways; also for the repaving of streets, repairing boats and a variety of other things. Interest rate on bonds issued for these purposes is to be fixed by the Board of Sinking Fund Commissioners. Under the old law bonds were issued at the rate prescribed in the ordinance authorizing such issues. The present amendment further provides that in case any bonds or corporate stock shall have been heretofore issued under authority of this Section, and to which the Board of Aldermen did not prescribe any rate of interest by ordinance, the rate that may have been otherwise fixed shall be the legal and valid rate.

By Section 3, Section one hundred and sixty-nine of the charter, as amended by Chapter two hundred and nine of the Laws of nineteen hundred and six, is made to read that the interest rate on all bonds issued by the city known as corporate stock and all other bonds of the corporation, except revenue bonds, shall be fixed by the Board of Sinking Fund Commissioners. Under the old law these bonds and stock were issued at a rate not to exceed 4% interest, payable annually.

By Section 4, Section one hundred and seventy-four of the charter, as amended by Chapter seventy of the Laws of nineteen hundred and five, is altered to read that the rate of interest on all bonds issued for the purpose of meeting any damages awarded any person or persons for the opening of streets, parks, &c., or to acquire title to land for bridges and tunnels shall be fixed by the Board of Sinking Fund Commissioners. Under the old law all bonds issued in accordance with this Act were put out at not exceeding 4% interest, payable annually.

By Section 5, Section one hundred and eighty-one of the charter, as re-enacted and amended by Chapter four hundred and sixty-six of the Laws of nineteen hundred and one, is amended so that the rate of interest on all assessment bonds issued on account of regulating and paving streets, and authorized by the Board of Estimate and Apportionment, shall be prescribed by the Board of Sinking Fund Commissioners. Under the old law these bonds were issued at a rate not to exceed 4% interest, payable annually.

By Section 6, a comprehensive addition is made to Section two hundred and five of the charter, as amended by Chapter six hundred and fifty-nine. This addition provides that "the rate of interest on all corporate stock, bonds or other obligations for the payment of money of whatsoever kind or description issued by the City of New York, except revenue bonds, shall be prescribed by the Commissioners of the Sinking Fund."

It would thus seem that the 4% limit as to the rate of interest for New York City bonds has been completely eradicated.

Chapter Four of Rapid Transit Railway's Law Amended.—The Legislature has also passed an amendment to Chapter 4 of the Laws of 1891, in relation to the powers of the Board of Commissioners of the Sinking Fund to prescribe the rate of interest on bonds issued for the construction of rapid transit railways, subways, tunnels, &c. By Section 1 of this amendment, Section thirty-seven of Chapter four of the Laws of eighteen hundred and ninety-one now confers upon the Board of Sinking Fund Commissioners, or if there be no such Board, any local authority directed to issue bonds, discretion to fix the interest rate on future bonds put out for the purpose of construction, at public expense, of any railways, tunnels, subways, &c. Under the old law the Board of Estimate and Apportionment had authority to issue such bonds, and at a rate not to exceed 4% annually.

Both the above bills are before the Mayor.

New York State.—*Tax Law Relative to Investments in State Bonds by Savings Banks, Trust Companies and Insurance Companies Amended.*—The Senate has passed an amendment to the Tax Law relative to investments in State bonds by savings banks, trust companies and insurance companies. This bill adds a new Section (Section 187-c) to the general laws, and provides that every corporation, company or association required by Section 187, 187-a or 187-b of Chapter nine hundred and eight to pay to the State an annual tax equal to a percentage of its gross premiums, capital stock, surplus, undivided profits or undivided earnings for the privilege of exercising its corporate franchise, or carrying on its business in such corporate or organized capacity, which shall own any State bonds, shall have credited to it annually an amount equal to 1% of the par value of such bonds bearing interest at a rate not exceeding 3% annually, and owned and held in the name of such corporation, company or association.

The text of this bill will be found elsewhere among the "Items about Banks, Bankers, and Trust Companies" on a preceding page. In effect this measure would raise the rate of interest, as far as concerns the institutions to which it relates, one per cent and its object is to find a market for the 3% canal bonds of the State.

Bond Calls and Redemptions.

Bolivar School District, Polk County, Mo.—*Bond Call.*—This district will redeem June 1 $2,000 5% bonds numbered 7 to 10 inclusive. Denomination $500. Date May 16 1898 Payment will be made at the National Bank of Commerce in St. Louis or the Polk County Bank in Bolivar.

Secur. S. B. & Tr. Co., Cin	20,164 06	New First Nat. Bk., Colum	19,979 06
Otis & Hough, Cleveland	20,150 06	W. J. Hayes & Sons, Clev.	19,729 00
MacDonald, McCoy & Co., Ch	20,147 06		

Berlin, Ont.—*Bond Sale.*—This town, according to local papers, has awarded an issue of $83,200 4½% street-railway-purchase bonds to Aemilius Jarvis & Co. of Toronto.

Binghamton, Broome County, N. Y.—*Bond Offering.*—Proposals will be received until 8 p. m. June 3 by D. C. Herrick, City Clerk, for $55,000 4% registered Robinson Street school-house bonds. Authority Section 23, Title XI of the City Charter (Chapter 214, Laws 1888) as amended by Chapter 673, Laws 1901, Title 14 of the City Charter and Chapter 594, Laws 1906. Denomination $5,000. Date July 1 1907. Interest Feb. 1 and Aug. 1 at the City Treasurer's office. Maturity $10,000 yearly on Aug. 1 from 1912 to 1916 inclusive and $5,000 on Aug. 1 1917. Certified check, cash or New York draft for $2,750, payable to the City Clerk, is required. Official circular states there is no litigation pending or threatened affecting this issue and that there has never been any default in the payment of principal or interest. Accrued interest, if any, to be paid by purchaser.

Bonesteel, Gregory County, So. Dak.—*Bond Offering.*—Proposals will be received until 7 p. m. June 3 by M. P. Dowling, Town Clerk, for $13,000 5% coupon water-works bonds. Authority Sections 2732, 2733 and 2734, Political Code. Denomination $1,000. Interest payable at place designated by purchaser. Maturity 20 years, subject to call after 10 years. Certified check for 2% of bonds bid for, payable to the City Treasurer, is required. Bonds are exempt from taxation. Bonded debt at present, $5,000. Assessed valuation $375,000.

Brady Township (P. O. West Unity), Williams County, Ohio.—*Bond Sale.*—On May 4 the $30,000 4½% coupon road-improvement bonds described in V. 84, p. 951, were awarded to the New First National Bank of Columbus at 103.27. Bonds are dated March 1 1907.

Brenham, Washington County, Texas.—*Bonds Voted and Sold.*—The election held May 14 resulted in favor of the proposition to issue the school-building bonds mentioned in V. 84, p. 1011. These securities, we are informed, have been sold to the State.

Bronxville, Westchester County, N. Y.—*Bond Offering.*—Proposals were asked for until 8 p. m. yesterday (May 24) for $2,030 registered sewer-extension bonds at not exceeding 5% interest. Authority, Chapter 414 of the Laws of 1897. Denomination $500, except one bond for $530. Date July 1 1907. Interest at the Farmers' Loan & Trust Co. in New York city. Maturity $530 on Aug. 1 1907 and 500 yearly on July 1 from 1912 to 1914 inclusive. Purchaser to pay accrued interest. The result of this sale was not known to us at the hour of going to press.

Brownsville, Haywood County, Tenn.—*Bonds Voted.*—This city on May 17 voted in favor of a proposition to issue $30,000 street-improvement bonds.

Browerville, Todd County, Minn.—*Bond Sale.*—On May 18 the $8,000 6% 10-year registered water-work bonds described in V. 84, p. 1195, were awarded to the First National Bank of Browerville, for $8,455, the price thus being 105.687—a basis of about 5.262%.

Cadiz, Ohio.—*Bonds Valid.*—*Bond Sale.*—The proceedings in the suit brought to enjoin the issuance of the $10,000 4½% coupon street-improvement bonds offered last August (V. 83, p. 645) were dismissed by the Circuit Court on May 8. The bonds were awarded on May 13 to Hayden, Miller & Co. of Cleveland for their original bid of $10,288.

Cairo, Alexander County, Ill.—*Bond Sale.*—This city has delivered $7,200 5% paving assessment bonds to contractors in payment for work done. Denominations $100 and $1,000 Date April 1907. Interest annually on July 1.

Canora School District No. 1152, Sask.—*Debenture Offering.*—Proposals will be received at any time for $1,500 school debentures. J. D. Robertson is Secretary and Treasurer of the School Board.

Canton, Madison County, Miss.—*Bond Offering.*—Proposals will be received by E. B. Harrell, City Clerk, for the $50,000 5% coupon sewer bonds mentioned in V. 84, p. 951. Authority, Sections 3415, 3416 and 3419, Chapter 99, Code of 1906. Denomination $500. Date Sept. 1 1907. Interest semi-annually at the City Treasurers' office. Maturity Sept. 1 1927, the first five bonds being subject to call after Sept. 1 1912. Certified check for $2,000, payable to the Mayor and Board of Aldermen, is required. Bonds are tax exempt.

Canton, Stark County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. June 17 by Armstrong Ashbrook, City Auditor, for the following bonds:

$8,100 5% Park Avenue improvement bonds. Denominations $1,000, 1,100 and $2,000. Date June 1 1907. Maturity yearly on June 1 as follows: $1,100 in 1908, $1,000 in 1909, $2,000 in 1910, $2,000 in 1911 and $2,000 in 1912.
3,000 4½% West South Street sanitary-sewer-construction bonds. Denomination $600. Date June 1 1907. Maturity $600 yearly on June 1 from 1908 to 1912 inclusive.
1,800 4½% North Cleveland Avenue improvement bonds. Denomination $360. Date July 1 1907. Maturity $360 yearly on July 1 from 1908 to 1912 inclusive.
2,200 4% Maple Avenue storm-water-sewer-construction bonds. Authority Section 2835 of the Revised Statutes of Ohio. Denominations $1,000 and $1,200. Date June 1 1907. Maturity June 1 1917.
1,200 4½% West South Street improvement bonds. Denomination $240. Date June 1 1907. Maturity $240 yearly on June 1 from 1908 to 1912 inclusive.

Certified check on a bank in Canton for 5% of bonds bid for, payable to the City Treasurer, is required. Bids to be made on blank forms furnished by the City Auditor. Purchaser will be required to furnish blank bonds at his own expense.

Carson Independent School District (P. O. Carson), Pottawattamie County, Iowa.—*Bond Sale.*—On May 15 the $9,000 5% 5-10-year (optional) school-building bonds described in V. 84, p. 1066, were awarded to O'Connor & Kahler of Chicago at 101.188—a basis of about 4.73% to the optional date and about 4.849% to full maturity. Following are the bids.

O'Connor & Kahler, Chic.	$9,107 00	Coffin & Crawford, Chic.	$9,008 67

a Less $180 discount.

Bonds are dated June 1 1907. Interest semi-annual.

Carrollton, Carroll County, Ohio.—*Bonds Voted.*—This city on May 15 authorized the issuance of $10,000 paving bonds by a vote of 278 to 74.

Chanute School District (P. O. Chanute), Neosho County, Kan.—*Bond Election.*—Local papers state that an election will be held in this district to vote on a proposition to issue $25,000 high-school-building, $3,000 high-school-site and $16,000 school-improvement bonds.

Charleston, Charleston County, So. Car.—*Award Postponed.*—No award was made on May 15 of the $1,000,000 4% coupon refunding bonds described in V. 84, p. 706. Local papers state that the constitutionality of the Act of the Legislature exempting the bonds from all taxation is being tested and that the case is now before the Supreme Court. The bids will not be opened until a decision is reached.

Chatfield Township (P. O. Chatfield), Crawford County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. June 11 by J. H. Brown, Township Clerk, for $10,000 5% coupon pike-road-improvement bonds. Denomination $500. Date June 1 1907. Interest March 1 and Sept. 1. Certified check (or cash) for $100, payable to Township Treasurer, is required. Bonded debt, not including this issue, $19,000. Assessed valuation, $980,000.

Chicago, Ill.—Lincoln Park District—*Description of Bonds.*—We are advised that the $500,000 4% small-park bonds voted on April 2 are coupon in form and dated May 1 1907. Denomination $1,000. Interest semi-annual. Maturity May 1 1927.

Cincinnati, Ohio.—*Bond Offering.*—Proposals will be received until 12 m., June 17, by W. C. Culkins, City Auditor, for the $17,000 3.65% coupon market-house-repair bonds mentioned in V. 84, p. 1011. Authority, Section 2835, Revised Statutes. Denomination $500. Date April 30 1907. Interest semi-annually at the American Exchange National Bank, New York City. Maturity April 30 1927. Bonds are exempt from taxation. Bids must be made on printed forms furnished by the City Auditor and accompanied by a certified check for 5% of bonds bid for, payable to W. C. Culkins, City Aduitor. Purchaser to pay accrued interest.

Closter School District (P. O. Closter), Bergen County, N. J.—*Bids Rejected.*—The bids received on May 20 for the $7,000 coupon school-building-addition bonds described in V. 84, p. 1195, were rejected.

Cochran, Pulaski County, Ga.—*Bond Offering.*—Proposals will be received until 10 a. m. June 11 by T. D. Walker, Chairman Board of Commissioners, for the $15,000 6% gold coupon water-works-extension bonds mentioned in V. 84, p. 951. Denomination $1,000. Date July 1 1907. Interest semi-annually at the Cochran Banking Co. of Cochran, and the Chase National Bank in New York City. Maturity July 1 1937, subject to call after July 1 1912. Certified check for 10% of bonds bid for, payable to T. D. Walker, is required. Bonds are exempt from city taxes. Bonded debt, not including this issue, $17,000. Assessed valuation for 1906, $659,857.

Columbus, Franklin County, Ohio.—*Bids Rejected.*—All bids received on May 20 for the $262,000 4% coupon sewage-disposal-works bonds described in V. 84, p. 1135, were rejected.

Conway School District (P. O. Conway), Beaver County, Pa.—*Bond Offering.*—Further details are at hand relative to the offering on May 27 of the $15,000 5% coupon school-building bonds mentioned in V. 84, p. 1196. Proposals will be received until 7.30 p. m. on that day. Denomination $500. Date June 1 1907. Maturity $500 yearly. Bonds are exempt from taxation. Certified check, or cash, for $150 is required. J. Rankin Martin of Beaver Falls is attorney for the School Board.

Cortland, Cortland County, N. Y.—*Bond Sale.*—On April 17 an issue of $8,368 29 4% judgment funding bonds was awarded to the Cortland Savings Bank of Cortland at par. Date April 17 1907. Interest Jan. 1 and July 1.

Cotton Plant School District (P. O. Cotton Plant), Woodruff County, Ark.—*Bond Sale.*—This district recently disposed of an issue of $10,000 6% school-building bonds at par. Denomination $1,000. Date Sept. 1 1906. Interest semi-annual. Maturity Sept. 1 1921, subject to call after Sept. 1 1911.

Cuyahoga County (P. O. Cleveland) Ohio.—*Note Sale.*—On May 15 the $2,774 5% Brecksville Road District No. 2 improvement notes, bids for which were rejected on May 8 (V. 84, p. 1135), were awarded to the Cleveland Trust Co. of Cleveland for $2,804 (101.081) and accrued interest.

Bids.—The following bids were received on May 15 for the $22,500 4% coupon Parma and Brooklyn Plank Road bonds described in V. 84, p. 1012:

Seasongood & Mayer, Cin	$22,619 25
Otis & Hough, Cleveland	22,551 00
Cleveland Tr. Co., Cleve	$22,535 00

Dayton, Ohio.—*Bond Sales.*—On April 1 $5,000 levee and embankment-repair bonds were awarded to the Sinking Fund at par. Denomination $1,000. Date April 1 1907. Interest semi-annual. Maturity $1,000 in each of the years 1909, 1911, 1913, 1915 and 1917.

The following bonds were purchased by the SinkingFund on May 2:

$1,400	5%	Tecumseh Street paving assessment bonds. Date June 1 1907. Maturity June 1 1908.
1,400	5%	Cedar Avenue paving assessment bonds. Date June 1 1907. Maturity June 1 1908.

Bond Offering.—Proposals will be received until 12 m. June 17 by Edward Phillips, City Auditor, for the following bonds:

$55,000	4%	storm-water-sewer bonds. Denomination $1,000. Maturity $25,000 on June 1 1921 and $30,000 on June 1 1922.
25,000	4%	street-improvement and repair bonds. Denomination $1,000. Date June 1 1907. Maturity June 1 1913.
22,700	5%	Broadway Street paving assessment bonds. Denomination $1,000, except one bond for $700. Maturity $1,700 on June 1 1908, $2,000 yearly on June 1 from 1909 to 1914 inclusive, and $3,000 yearly from 1915 to 1917 inclusive.
15,300	5%	North Broadway paving assessment bonds. Denominations $1,000, except one bond for $1,300. Maturity $1,300 on June 1 1908, $1,000 yearly on June 1 from 1909 to 1912 inclusive and $2,000 yearly on June 1 from 1913 to 1917 inclusive.
14,000	5%	water-works bonds. Denomination $1,000. Maturity $1,000 yearly on June 1 from 1908 to 1913 inclusive and $2,000 yearly on June 1 from 1914 to 1917 inclusive.
13,500	5%	Germantown Street paving assessment bonds. Denomination $1,000, except one bond for $1,500. Maturity $1,500 on June 1 1908, $1,000 yearly on June 1 from 1909 to 1914 inclusive and $2,000 yearly on June 1 from 1915 to 1917 inclusive.
8,000	4%	additional water-course bonds. Denomination $1,000. Date June 1 1907. Maturity June 1 1910.
7,200	5%	Park Street paving assessment bonds. Denomination $1,000, except one bond for $1,200. Maturity $1,200 on June 1 1909, $1,000 on June 1 1910, $1,000 yearly on June 1 from 1912 to 1914 inclusive and $1,000 on June 1 in each of the year 1916 and 1917.
6,900	5%	East Third Street paving assessment bonds. Denomination $1,000 except one bond for $900. Maturity $900 on June 1 1909, $1,000 on June 1 1910, $1,000 yearly on June 1 from 1912 to 1914 inclusive and $1,000 on June 1 in each of the years 1916 and 1917.
6,600	5%	Taylor Street paving assessment bonds. Denomination $1,000 except one bond for $600. Maturity $600 on June 1 1909, $1,000 on June 1 1910, $1,000 yearly on June 1 from 1912 to 1914 inclusive and 1,000 on June 1 in each of the years 1916 and 1917.
3,700	5%	Emmett Street paving assessment bonds. Denomination $1,000, except one bond for $700. Maturity $700 on June 1 1910 and $1,000 on June 1 in each of the years 1912, 1915 and 1917.

The above bonds are dated June 1 1907. Interest semi-annually in New York City. Certified check for 5% of the bonds bid for, drawn on a national bank and made payable to the City Auditor, is required.

Decatur, Macon County, Ill.—*Maturity of Bonds.*—We are advised that the $125,000 4% (not 5% as at first reported) coupon water-works-improvement bonds awarded to the Milliken National Bank of Decatur at par and accrued interest (V. 84, p. 1196) mature $63,000 on Oct. 1 1916, $6,000 yearly on Oct. 1 from 1917 to 1925 inclusive and $8,000 on Oct. 1 1926.

Delta County (P. O. Escanaba), Mich.—*Bond Offering.*—Proposals will be received until 2 p. m. June 15, by Alfred P. Smith, County Clerk, for $8,000 5% poor-house bonds. Authority, Sections 2484 and 2493, Compiled Laws 1897 and a vote of 1069 to 742 at election held April 1 1907. Denomination $1,000. Date June 1 1907. Interest annually at the Escanaba National Bank. Maturity $1,000 yearly on June 1 from 1908 to 1915 inclusive. Certified check for $250, payable to the County Treasurer, is required. Official circular states that there is no controversy or litigation pending or threatened affecting the corporate existence of the boundaries of said county, or the titles of its present officials to their respective offices, or the validity of these bonds, and that the principal and interest on all its securities previously issued have been promptly paid at maturity. Bonded debt, this issue. Assessed valuation for 1906, as equalized, $9,364,519.

Des Moines, Polk County, Iowa.—*Bonds Valid.*—Judge Brennan of the District Court has handed down a decision in favor of the city in the suit brought by Fred. Beaner to enjoin the issuance of the $78,000 city-hall-site bonds awarded on April 29 (V. 84, p. 1067 to MacDonald, McCoy & Co. of Chicago. According to the "Des Moines Register" the Court held that the statute providing for the bond issue was constitutional, the contention that the title of the bill is at fault being without foundation.

Dundee, Monroe County, Mich.—*Bond Election.*—The Village Council has decided to hold an election June 10 to submit to a vote of the people a proposition to issue $25,000 paving bonds.

Elberton, Elbert County, Ga.—*Bond Offering.*—Further details are at hand relative to the offering on May 30 of the $20,000 4½% coupon street-improvement bonds mentioned in V. 84, p. 1196. Proposals will be received until 6 p. m. on that day by W. F. Jones, City Clerk and Treasurer. Authority, an election held April 22 1907. Denomination $1,000. Date, day of sale. Interest Jan. 1 and July 1 at Elberton or New York. Maturity $4,000 yearly on Jan. 1 from 1934 to 1936 inclusive and $8,000 on Jan. 1 1937.

Elmwood, Pierce County, Wis.—*Bonds Not Sold—Bond Election.*—No sale was made on May 10 of the $6,000 water-works bonds described in V. 84, p. 1012. We are informed

that the first election was not legal and that the proposition will again be submitted to a vote on June 3.

Enosburg Falls Graded School District (P. O. Enosburg Falls), Franklin County, Vt.—*Bond Sale.*—This district on April 30 awarded an issue of $20,000 3% school-building bonds to Olin Merrill of Enosburg Falls at par. Denomination $500. Date Oct. 1 1907. Interest semi-annual.

Erie County (P. O. Buffalo), N. Y.—*Bond Sale.*—On May 22 the $210,000 4% 13-27-year (serial) registered good-road bonds described in V. 84, p. 1135, were awarded to the Buffalo-German Insurance Co. and the Western Savings Bank, both of Buffalo, at their joint bid of 100.26—a basis of about 3.982%. A bid of par was also received from the Erie County Savings Bank of Buffalo.

Eufaula, Ind. Ter.—*Bonds Voted.*—An election held May 15 resulted in favor of the proposition to issue the water-works-system and school-building bonds mentioned in V. 84, p. 952.

Eustis School District (P. O. Eustis), Frontier County, Neb.—*Bonds Voted.*—This district on March 18 authorized the issuance of $10,000 5% school-building bonds. Denomination $500. These bonds, we are informed, will be offered about June 1.

Fall River, Bristol County, Mass.—*Bond Sale.*—This city on May 23 awarded an issue of $15,000 4% 30-year registered sewer bonds to the New Bedford Five Cents Savings Bank of New Bedford at 101.31—a basis of about 3.826%. Denomination $1,000. Date June 1 1907. Interest semi-annually by the City Treasurer. Following are the bids:

New Bed. 5 Cts. Sav. Bk., N. B	101.31
Merrill, Oldham & Co., Bost.	101.279
Blodget, Merritt & Co., Bos.	101.078
R. L. Day & Co., Boston	100.839
Blake Bros. & Co., Boston	100.29
Adams & Co., Boston	100.15

Florence School District (P. O. Florence), Florence County, So. Car.—*Bond Sale.*—On May 6 the $35,000 5% 20-year school-house bonds offered on April 26 (V. 84, p. 952) were awarded to Emery, Anderson & Co. of Cleveland for $35,701, the price this being 102.002—a basis of about 4.843%. Denomination $1,000.

Fonda Independent School District (P. O. Fonda), Pocahontas County, Iowa—*Bond Offering.*—Further details are at hand relative to the offering on May 27 of the $19,000 4½% school-building bonds mentioned in V. 84, p. 1196. Proposals will be received until 2 p. m. on that day by E. O. Donnell, Secretary of Board of Education. Denomination $1,000. Date July 1 1907. Interest semi-annually in New York or Chicago, at option of purchaser. Maturity July 1 1917, subject to call after July 1 1912. Certified check for 2%, payable to the Secretary of the Board of Education, is required. This district has no debt at present.

Gallatin County (P. O. Bozeman), Mont.—*Bond Offering.*—Proposals will be received until 10 a. m. June 17 by W. E. Brandenburg, County Clerk, for $35,000 4% coupon refunding bonds. Denomination $1,000. Date July 1 1907. Interest semi-annually at the County Treasurer's office or in New York City. Maturity July 1 1927, subject to call after July 1 1917. An unconditional certified check for $1,000, payable to Gallatin County, is required. Purchaser to furnish blank bonds at his own expense.

Galveston County (P. O. Galveston), Texas.—*Bonds Voted.*—An election held May 7 resulted in favor of a proposition to issue $500,000 4% causeway and bridge bonds. The vote was 1,473 "for" to 76 "against."

Gas School District (P. O. Gas), Allen County, Kan.—*Bond Sale.*—This district recently awarded $4,800 5% funding bonds to the State of Kansas at par. Denomination $1,000, except one bond for $800. Date Jan. 1 1907. Interest semi-annual. Maturity July 1 1927. These securities take the place of the $5,000 bonds awarded on Dec. 1 to the First National Bank of Barnesville (V. 83, p. 1427), the first issue having been declared illegal.

Gatesville School District (P. O. Gatesville), Coryell County, Texas.—*Bonds Voted.*—On May 7 this district authorized the issuance of $10,000 4½% school-building bonds by a vote of 86 to 7. Securities are dated June 1 1907. Interest semi-annual. Maturity June 1 1947, subject to call $5,000 after June 1 1917 and $5,000 after June 1 1922.

Geneseo, Livingston County, N. Y.—*Bonds Not Sold.*—No award was made on May 20 of the $20,000 fire-department bonds described in V. 84, p. 1136. The following bids were received:

O'Connor & Kahler, N. Y. (4.40s)	$20,000 00	W. J. Hayes & Sons, Bos. (4½s)	$20,028 00
N. W. Harris & Co., N. Y. (4.45s)	20,037 20	R. Kleybolte & Co., N. Y. (4.65s)	20,240 00
Emery, Anderson & Co., Cle (4½s)	20,413 00	S. A. Kean, Chicago (5s)	20,810 00
W. N. Coler & Co., N. Y (4½s)	20,237 80	George M. Hahn, New York (5s)	20,258 00
Denison & Farnsworth, Bos (4½s)	20,062 25		

Glencoe School District No. 35 (P. O. Glencoe), Ill.—*Bond Election Postponed.*—The election which was to be held May 18 to vote on the question of issuing the $20,000 central-school-addition bonds mentioned in V. 84, p. 1196, will be held to-day (May 25).

Gloucester, Essex County, Mass.—*Temporary Loan.*—This city recently negotiated a loan of $50,000 with the City National Bank of Gloucester at 4.49% discount. Loan matures April 1 1908.

Grand Rapids, Kent County, Mich.—*Bonds Proposed.*—The Common Council is considering the advisability of issuing street-improvement and sewer bonds.

Greece Union Free School District (P. O. Charlotte), Monroe County, N. Y.—*Bond Sale.*—On May 21 the $26,000 4½% registered high-school-building bonds described in V. 84, p. 1197, were awarded to the Security Trust Co. of Rochester.

Greenburgh Union Free School District No. 10 (P. O. Greenburgh), Westchester County, N. Y.—*Bond Sale.*—On May 21 the $15,000 5% school-building-addition bonds described in V. 84, p. 1068, were awarded to O'Connor & Kahler of New York City at 105.666 and accrued interest. Following are the bids:

O'Connor & Kahler, N. Y.	$15,850 00	Geo. M. Hahn, N. Y. City.	$15,450 00
W. N. Coler & Co., N. Y.	15,570 75	Home Sav. Bk., White Pl.	15,349 50
Adams & Co., Boston	15,571 50	W. J. Hayes & Sons, Bos.	15,232 50

Gridley Union School District, Butte County, Cal.—*Bonds Withdrawn From Market.*—We are informed that an issue of $12,000 5% building bonds which was to have been offered for sale May 8, has been withdrawn from the market.

Gulfport, Harrison County, Miss.—*Bonds Authorized.*—On May 7 the City Council, according to local reports, authorized the issuance of $30,000 water-works-system-completion and $125,000 paving bonds.

Hallettsville School District (P. O. Hallettsville), Lavaca County, Texas.—*Bonds Voted.*—On May 7 this district authorized the issuance of $18,000 4% 5-35-year (optional) public-school-building bonds by a vote of 191 to 20.

Hamburg School District (P. O. Hamburg), Erie County, N. Y.—*Bonds Defeated.*—The election held May 3 resulted in the defeat of the proposition to issue the $50,000 30-year school-building bonds mentioned in V. 84, p. 953. The vote was 34 "for" to 195 "against."

Hamilton, Butler County, Ohio.—*Bonds Authorized.*—On May 7 the City Council passed an ordinance providing for the issuance of $6,000 4% 15-year coupon South D Street paving bonds. Denomination $500. Date May 1 1907. Interest semi-annually at the City Treasurer's office.

Hancock County (P. O. Carthage), Ill.—*Bond Offering.*—Proposals will be received until 10 a. m. June 7 by J. W. Westfall, County Clerk, for $125,000 5% court-house bonds. Denomination $1,000, except one bond for $500. Interest annual. Maturity $12,500 yearly from 1908 to 1917 inclusive, unpaid bonds being subject to call after five years. Certified check for 2% of bid, payable to Hancock County, is required. The county has no debt at present.

Henderson, Sibley County, Minn.—*Bond Sale.*—This city on May 13 awarded an issue of $10,000 5% water-works bonds to the Wells & Dickey Co. of Minneapolis at 103.10—a basis of about 4.61%. Denomination $500. Date June 1 1907. Interest annual. Maturity June 1 1917.

		Joliet Nat. Bk., Joliet	51,057 00
		W. J. Hayes & Sons, Cle.	51,017 00

Jordan School District (P. O. Sandy), Salt Lake County, Utah.—*Bond Sale.*—On May 1 $30,000 4½% 5-20-year (optional) school-building bonds were awarded to E. H. Rollins & Sons of Boston, at par. These bonds are part of an issue of $60,000, $30,000 of which were sold at par on July 1 1906. Denomination $1,000. Date May 1 1907. Interest semi-annual.

Kalamazoo, Kalamazoo County, Mich.—*Bond Offering.*—Proposals will be received until 5 p. m. May 27 by Howard H. Buckhout, City Clerk, for $70,000 street-improvement and $85,000 city-improvement 4% 5½-year (average) coupon bonds dated July 1 1907.

Kansas City School District (P. O. Kansas City), Jackson County, Mo.—*Bond Offering.*—Further details are at hand relative to the offering on June 15 of the $600,000 4% gold coupon school-building bonds mentioned in V. 84, p. 1197. Proposals will be received until 12 m. on that day by the Board of Education. Authority, election held May 4 1907. Denomination $1,000. Date July 1 1907. Interest semi-annually in New York City. Maturity July 1 1927. Certified check, or cash, for 2% of bonds bid for is required. Official circular states there has never been any default in the payment of principal or interest. Accrued interest, if any, to be paid by purchaser.

Kirkwood (P. O. Independent Station, St. Louis), Mo.—*Bonds Defeated.*—The election held May 4 resulted in defeat of the proposition to issue the $16,000 city-hall bonds mentioned in V. 84, p. 1069.

Klamath County School District No. 1, Oregon.—*Bond Offering.*—Proposals will be received until 2 p. m. May 29 by L. Alva Lewis, County Treasurer (P. O. Klamath Falls), for $7,250 6% coupon new-school-house-building bonds. Authority Sub-Division 31 of Section 3389 of Bellinger & Cotton's Annotated Code and Statutes of Oregon. Denomination $1,000 except one bond for $1,250. Date June 15 1907. Interest semi-annually at the County Treasurer's office. Maturity June 15 1927, being subject to call after June 15 1917. Certified check, or cash, for 2% of bid is required. Total debt including this issue, $25,000. Estimated value $1,500,000. Official circular states that the legality of this issue has never been questioned and the principal and interest on all previous issues have always been paid promptly.

La Grande, Union County, Ore.—*Bond Sale.*—On May 10 the $160,000 5% 10-20-year (optional) gold coupon water-system-extension bonds described in V. 84, p. 1013, were awarded to the Eastern Oregon Trust & Savings Bank of La Grande at par and accrued interest. A bid at par was also received from Ladd & Bush.

Latah School District No. 60 (P. O. Latah), Spokane County, Wash.—*Bond Sale.*—Local papers state that an issue of $13,000 school-building-addition bonds has been awarded to the Washington Trust Co. of Spokane at 101.25 for 5½s.

Lathrop School District (P. O. Lathrop), Clinton County, Mo.—*Bond Sale.*—On May 20 the $12,500 5% school-building bonds described in V. 84, p. 1137, were awarded to the Little & Hays Investment Co. of St. Louis at 102.82. Following are the bids:

Little & Hays Inv. Co., St. L.	$12,852 50	S. A. Kean, Chicago	$12,675 00
Wm. R. Compton Bond & Mortgage Co., Macon	12,801 00	John Nuveen & Co., Chicago	12,642 50
Emery, Anderson & Co., Cle.	12,781 25	Trowbridge & Niver Co., Chic.	12,577 00
		W. J. Hayes & Sons, Cleve.	12,250 00

Lawrence, Essex County, Mass.—*Bond Offering.*—Proposals will be received until 12 m., May 27, by Barry T. O'Connell, City Treasurer, for $75,000 4% coupon Osgood Street sewer bonds. Authority, Chapter 378, Acts of Legislature 1905. Denomination 60 bonds of $1,000 each and 30 bonds of $500 each. Date June 1 1907. Interest semi-annually at the Eliot National Bank of Boston. Maturity $2,500 yearly on June 1 from 1908 to 1937 inclusive. These securities have been certified as to their genuineness by the City Trust Company of Boston and their legality approved by Messrs. Storey, Thorndike, Palmer & Thayer of Boston. Official circular states that the city's bonds have never been contested and that the interest on its debt has always been paid promptly.

Lawrence County (P. O. Deadwood), S. D.—*Bond Offering.*—Proposals will be received until 10 a. m. Sept. 17 for the $235,500 5% coupon refunding bonds mentioned in V. 84, p. 708. Denomination $1,000. Date Nov. 1 1907. Interest semi-annually at the County Treasurers' office or at the Fourth National Bank of New York City. Maturity Nov. 1 1927, subject to call after Nov. 1 1917. Official circular states that there is no controversy or litigation pending or threatened affecting the corporate existence or the title of the present officials to their respective offices, or the validity of these bonds, and that there has never been any default on the part of the county in the payment of any of its obligations. Wm. McLaughlin is County Auditor.

Lestershire, Broome County, N. Y.—*Bond Offering.*—Proposals will be received until 8 p. m. May 27 by Herman D. Walters, Village Clerk, for $8,500 5% registered or coupon water-works-extension bonds. Denomination $500. Date May 1 1907. Interest semi-annually at the First National Bank of Lestershire. Maturity $500 yearly on May 1 from 1911 to 1927 inclusive. Bonds are exempt from taxation. Bonded debt, this issue. Assessed valuation 1906, $1,385,270.

Liberty, Amite County, Miss.—*Bonds Not Sold.*—No sale has yet been made of $10,000 6% bonds offered by this town on May 7.

O'Connor & Kahler, Chic.	*b*14,233 80	John Nuveen & Co., Chic	*b*14,084 00

a Interest in Shenandoah. *b* Interest in Chicago.

South Orange Township (P. O. Maplewood), N. J.—*Bonds Not Sold.*—No bids were received on May 21 for the $35,000 4% coupon sewer bonds described in V. 84, p. 1200.

Spokane County (Wash.) School District No. 60.—*Bids.*—The following bids were received on May 11 for the $13,000 20-year school bonds awarded, as stated in last week's issue, to the Washington Trust Co. of Spokane at 101.25 for 5½s.:

Wash. Tr. Co., Spok. (5½s)	$13,162 50	E. H. Rollins & Sons, Boston (5½s)	$13,000 00
Morris Bros., Portland (5½)	13,067 50		
Spokane & Eastern Trust Co., Spokane (5½s)	13,050 00	T. J. Bolger Co., Chic. (5½s)	13,000 00
		W. D. Perkins & Co., Seat (6s)	13,000 00

Spring Lake (P. O. Spring Lake Beach), Monmouth County, N. J.—*Bonds Not Yet Sold.*—We are advised under date of May 15 that no sale has yet been made of the $60,000 4½% 30-year coupon beach-improvement bonds offered without success on May 8. See V. 84, p. 887.

Steelton, Ont.—*Debentures Not Yet Sold.*—No sale has yet been made of the $87,000 water-works and the $10,000 municipal-building debentures offered without success on Feb. 2. See V. 84, p. 528.

Sumter School District (P. O. Sumter), Sumter County, So. Car.—*Bond Offering.*—Proposals will be received until 12 m. July 1 by C. M. Hurst, Secretary and Treasurer of the Board of Education, for the $30,000 4½% coupon school-building bonds voted on April 30. Denomination $1,000. Date July 1 1907. Interest semi-annually in New York. Maturity July 1 1927. Certified check for $1,000, payable to the Secretary and Treasurer of the Board of Education, is required. Bonded debt at present $25,000. Assessed valuation for 1906, $2,500,000.

Sweetwater, Monroe County, Tenn.—*Bonds Not Yet Sold.*—We are advised that no sale has yet been made of the $30,000 water and the $10,000 street 5% 30-year gold coupon bonds offered without success on April 1. See V. 84, p. 829.

Syracuse, Onondaga County, N. Y.—*Bond Offering.*—Proposals will be received until 1 p. m. June 4 by R. J. Shanahan, City Comptroller, for the following bonds:

$225,000 4½ % registered high-school bonds. Authority, Chapter 659, Laws of 1905, as amended by Chapter 258, Laws of 1906, and Chapter 58, Laws of 1907; also an ordinance of the Common Council adopted May 20 1907. Denominations $5,000, $2,500 and $1,250. Date May 15 1906. Interest semi-annually at the United States Mortgage & Trust Co. in New York City. Maturity $11,250 yearly on May 15 from 1907 to 1926 inclusive. Bonds will be certified to as to their genuineness by the United States Mortgage & Trust Co. of New York City.

65,000 4½ % registered Salina school bonds. Authority, Chapter 685, Laws of 1892, and amendments thereto; also an ordinance of the Common Council adopted May 20 1907. Denominations $1,000 and $1,250. Date May 15 1907. Interest semi-annually at the Columbia Trust Co. in New York City. Maturity $3,250 yearly on May 15 from 1908 to 1927 inclusive. Bonds will be certified to as to their genuineness by the Columbia Trust Co. of New York City.

Separate bids must be made for each issue. These bonds take the place of those awarded on May 13 to Kountze Bros. of New York City. The first sale was never consummated, as Delafield & Longfellow of New York City were not satisfied as to the regularity of the proceedings, because the ordinances providing for the issuance of the bonds were not enacted by a two-thirds vote of the Common Council. New ordinances were passed on May 20.

Talladega County (P. O. Talladega), Ala.—*Bonds Proposed.*—The County Commissioners are considering the advisability of issuing public-road-improvement bonds.

Tarboro, Edgecombe County, No. Car.—*Bonds Defeated.*—An election held May 6 resulted in the defeat of propositions to issue $30,000 water, light and sewer and $25,000 street bonds.

Tomahawk, Lincoln County, Wis.—*Bond Sale.*—On May 7 the $40,000 5% coupon 8⅝-year (average) school-building bonds described in V. 84, p. 1140, were awarded to John Nuveen & Co. of Chicago at 103.125—a basis of about 4.558%. Bonds are dated March 1 1907.

Topeka, Shawnee County, Kans.—*Bond Election Proposed.*—The City Council is considering the advisability of calling an election to vote on a proposition to issue $65,000 electric-light-plant-repair bonds.

Troy, Miami County, Ohio.—*Bonds Authorized.*—The City Council on April 26 passed an ordinance providing for the issuance of $25,000 4% coupon refunding bonds. Denomination $500. Date May 1 1907. Interest semi-annually at the City Treasurer's office. Maturity yearly on May 1 as follows: $3,000 in each of the years 1917, 1918 and 1919 and $4,000 in each of the years 1920, 1921, 1922 and 1923.

Union City, Erie County, Pa.—*Bond Election.*—A proposition to issue fire-protection bonds will be submitted to a vote on June 18.

Uvalde County (Texas) Common School District No. 6.—*Bonds Registered.*—An issue of $2,000 5% school-house bonds of this district was registered by the State Comptroller on May 17. Maturity April 10 1927, subject to call after April 10 1922.

Van Buren School District (P. O. Van Buren), Crawford County, Ark.—*Bond Sale.*—On May 20 the $20,000 6%

5-20-year (optional) coupon school-building bonds described in V. 84, p. 1140, were awarded to the First National Bank of Barnesville, Ohio, at 102. Following are the bids:

First National Bank, Barnesville....102 | S. A. Kean, Chicago.....100
W. J. Hayes & Sons, Cleveland.....100 | J. M. Holmes, Chicago..... 95

Vicksburg, Warren County, Miss.—*Bonds Voted.*—The election held May 7 resulted in a vote of 876 "for" to 50 "against" on the proposition to issue the $250,000 sewerage-system bonds mentioned in V. 84, p. 1073.

Vincennes School City, Knox County, Ind.—*Bonds Proposed.*—The Board of School Trustees proposes to issue $35,000 school-site and building bonds.

Virginia Beach, Princess Anne County, Va.—*Bond Offering.*—Further details are at hand relative to the offering of the $20,000 6% coupon sewerage and water-improvement bonds mentioned in V. 84, p. 1201. Proposals will be received until 12 m. to-day (May 25) by B. P. Holland, Mayor. These securities are part of an issue of $54,000. Authority, Chapter 148, Laws of 1906. Denomination $1,000. Date Feb. 1 1907. Interest semi-annually at the Town Treasurer's office. Maturity Feb. 1 1937. Certified check for 3% of bonds bid for payable to B. P. Holland, Mayor, is required. Assessed valuation "about $400,000."

Waco, McLennan County, Tex.—*Bond Sale.*—This city on May 16 awarded an issue of $60,000 5% 30-year sewer bonds to the Harris Trust & Savings Bank of Chicago for $64,955 (108.258) and accrued interest—a basis of about 4.497%. Following are the bids:

Harris Tr. & Sav. Bk., Chic. $64,955 00 | E. H. Rollins & Sons, Chi. $62,430 00
MacDon'd, McCoy & Co., Chi 64,587 00 | Well, Roth & Co., Cincin. 62,400 00
Emery, Anderson & Co., Cle. 63,633 33 | Thos. J. Bolger & Co., Chi. 62,400 00
Trust Co. of Dallas, Dallas 63,130 00 | Union Savings Bank & Trust Co., Cincinnati 61,975 00
Seasongood & Mayer, Cin. 62,812 80 | W. J. Hayes & Sons, Clev. 60,342 00
Spitzer & Co., Toledo..... 62,753 00

Denomination $1,000. Date January 1 1907. Interest semi-annual.

Waltham, Middlesex County, Mass.—*Bids Rejected.*—All bids received on May 23 for the $40,000 4% coupon water-loan bonds offered on that day were rejected. This issue is authorized by Chapter 180, Acts of 1904. Denomination $1,000. Date Oct. 1 1906. Interest semi-annually at the Boston Safe Deposit and Trust Co. of Boston. Maturity $2,000 yearly on Oct. 1 from 1907 to 1926 inclusive.

Warren County (P. O. McMinnville), Tenn.—*Bonds Voted.*—This county, according to local reports, recently authorized the issuance of $150,000 pike-road bonds.

Washington County (P. O. Marietta), Ohio.—*Bond Offering.*—Proposals will be received until 12 m. June 1, by J. M. Williams, County Auditor, for $29,000 4% coupon bridge bonds. Authority, Section 2824 Revised Statutes. Denomination $500. Date June 1 1907. Interest semi-annually at the County Treasurer's office. Maturity $6,000 yearly on June 1 from 1908 to 1911 inclusive and $5,000 on June 1 1912. Bonds are exempt from taxation.

Washington C. H., Fayette County, Ohio.—*Bond Sale.*—On May 20 the $6,000 sewer, drain and ditch and the $9,000 street and highway-improvement 4% 1-30-year (serial) coupon bonds described in V. 84, p. 1016, were awarded to the Western-German Bank of Cincinnati for $15,226, the price thus being 101.505—a basis of about 3.879%.

Waterville, Oneida County, N. Y.—*Bond Sale.*—This village on May 22 awarded an issue of $30,000 registered reservoir bonds to Rudolph Kleybolte & Co., New York City, at 100.116 and accrued interest for 4.35s. Following are the bids:

R. Kleybolte & Co., N.Y. (4.35s) 100.116 | A.B. Leach & Co., N.Y. (4½s) 101.279
O'Connor & Kahler, N. Y. (4.40s) 100.05 | Ellery, Colby & Co. (4½s)..... 100.
N.W. Harris & Co., N.Y. (4.45s)... 100.133 |

Denomination $500. Date May 22 1907. Interest Jan. and July at the Importers' and Traders' National Bank in New York City. Maturity $1,500 yearly on Jan. 1 from 1912 to 1931 inclusive.

Weehawken Township, Hudson County, N. J.—*Bond Sale.*—On May 20 the $32,000 10-year and $43,000 30-year 4½% coupon funding bonds described in V. 84, p. 1141, were awarded to Kountze Bros. of New York City at 100.072 and 102.07 respectively. Following are the bids:

	$32,000 Bonds.	$43,000 Bonds.

W. E. Jackson & Co	-----	101.52
R. M. Grant, New York	-----	100.56
Hudson Trust Co. (for both issues)	$75,000	

NEW LOANS.

$22,000

City of Hoboken, N. J.,

JUDGMENT BONDS

Public notice is hereby given, in accordance with the following resolution of the Council, passed on the eighth day of May, 1907, and duly approved on the tenth day of May, 1907:

"Resolved that the City Clerk be and he is hereby directed to advertise, according to law, for proposals for the purchase of Twenty-two thousand dollars judgment bonds, the proceeds thereof to be used for the payment of such judgments now standing against the City of Hoboken; said bonds to bear interest at the rate of four per cent per annum, to be registered or coupon bonds, and to run twenty years from the date of issue, and that the said sale be advertised by the City Clerk, according to law."

That sealed proposals for the purchase of bonds of the City of Hoboken, to be known as "Judgment Bonds," in the amount of twenty-two thousand dollars ($22,000), to run for a period of twenty (20) years from date of issue, registered or coupon, at the option of the bidder, will be received at the meeting of the Council to be held on

WEDNESDAY EVENING, JUNE 12, 1907, at 8 o'clock.

Bidders state prices on bonds bearing interest at the rate of four per cent per annum, payable semi-annually.

All proposals must be directed to the Mayor and Council of the City of Hoboken, N. J., and shall be accompanied by a certified check for one thousand dollars ($1,000).

The Mayor and Council of the City of Hoboken reserves the right to reject any or all bids if deemed in the interest of the City so to do.

By order of the Council.

JAMES H. LONDRIGAN,
City Clerk.

$20,000

CITY OF IONIA, MICH.

CITY HALL BONDS.

Pursuant to a resolution of the Common Council adopted May 14 1907. Notice is hereby given that the Common Council of the City of Ionia will receive sealed bids until Tuesday the 4TH DAY OF JUNE, A. D. 1907, at 8 o'clock, P. m., for the purchase of a bond issue by the city of Ionia for building a City Hall for said City of Ionia, said bond issue to consist of ten bonds of $2,000 00 each, or in the aggregate of $20,000 00, said bonds to bear five (5) per cent annual interest, payable annually, and same to mature as follows: One $2,000 00 bond August 1st, A. D. 1912 and one $2,000 00 bond each year thereafter until the said $20,000 00 is paid.

The said Common Council reserves the right to reject any and all bids.

FRED. M. COOK,
City Clerk.

Dated at the City Clerk's Office, Ionia, Michigan, May 16th, A. D. 1907.

NEW LOANS.

$70,000

Borough of Sewickley, Pa.,

$30,000 TOWN HALL BONDS
$40,000 REFUNDING BONDS

Sealed proposals will be received by the Finance Committee of the Town Council of the Borough of Sewickley, Pa., until 8 p. m., TUESDAY, JUNE 4TH, 1907, for the purchase of the whole or any part of $30,000 Town Hall Coupon Bonds of the Borough of Sewickley, Pennsylvania. Said bonds will be dated May 1st, 1907, and will mature as follows:

$1,000 October 1st, 1908, and $1,000 October 1st of each year thereafter until October 1st, 1936, when $2,000 will mature.

Sealed proposals will also be received for all or any part of $40,000 Refunding Coupon Bonds of the Borough, said bonds being dated October 1st, 1905, and maturing as follows: $500 October 1st, 1906; $500 October 1st, 1907; $1,000 each October 1st, 1908 and 1909; $500 October 1st, 1910; $1,000 each October 1st, 1911-1918, both inclusive; $1,500 October 1st, 1919; $1,000 October 1st, 1920; $1,500 October 1st, 1921; $1,000 October 1st, 1922; $1,500 each October 1st, 1923-1927, both inclusive; $2,000 October 1st, 1928; $1,500 October 1st, 1929; $2,000 each October 1st, 1930-1934, both inclusive; and $2,500 September 30th, 1935. The $500 bond maturing October 1st, 1906, will be purchased for the Sinking Fund, and the buyer must bid accordingly.

Said bonds will be issued in denominations of $100, or multiples thereof, to suit purchasers.

The above bonds will bear interest at the rate of Four Per Centum per annum. Interest payable semi-annually on the first days of April and October in each year, at the office of the Treasurer of the Borough of Sewickley, in the Borough of Sewickley, Pennsylvania.

A certified check on a National Bank, payable to the order of the Treasurer of the Borough of Sewickley, Pennsylvania, for Two Per Cent of the amount of the bonds bid for, must accompany each proposal. In case of award, said deposit will, at the time of delivery of the bonds, be credited on payment of bonds purchased. Check will be returned to unsuccessful bidders.

The above bonds will be awarded to the bidder whose proposal will be most favorable to the Borough. The right is reserved to reject any and all bids not deemed for the interest of the Borough.

Bids will be opened by the Finance Committee in the office of the Town Council, in the Borough of Sewickley, Pa., on the 4TH DAY OF JUNE, 1907, at 8 o'clock p. m.

All proposals must be indorsed "Proposals for Borough of Sewickley Bonds," and be addressed to

EDGAR A. DAY,
Secretary of Council, Sewickley, Pa.

WATER BONDS

Office of the Comptroller,
City of Allegheny,
May 20th, 1907.

Sealed proposals will be received at this office until 3 P. M., MAY 30TH, 1907, for the purchase of one million dollars "water bonds" of the city of Allegheny, Pa., for the purpose of purchasing ground for and the erection and construction of a new water reservoir and the necessary crib and connections therefor, and the construction and laying of water pipes and water mains throughout said city, and for the purchase of machinery and appliances for the "water works." Said bonds will bear date of May 1st, 1907, and shall be registered in the office of the Comptroller of the city of Allegheny, and will be issued in denominations of $100 00 each or multiples thereof to suit purchasers. Said bonds will mature as follows:

$33,000 00 payable May 1st, 1908.

$33,000 00 payable each year for a period of 19 years thereafter.

$34,000 00 payable May 1st, 1928.

$34,000 00 payable on the first day of May each year for a period of nine years thereafter.

The above bonds will bear interest at the rate of four per cent per annum, interest payable semi-annually on the first days of November and May in each year at the office of the Comptroller in the city of Allegheny, Pa., or mailed by check to the registered holder thereof wherever purchasers may select.

These bonds are issued free of all taxation in the State of Pennsylvania.

A certified check on a national bank payable to the order of the City Treasurer of the city of Allegheny, Pa., for five per cent of the amount of bonds bid for must accompany each proposal. In case of award said deposit will at the time of delivery of bonds be credited on payment of bonds purchased. Checks will be returned to unsuccessful bidders. Purchasers must pay to the city accrued interest on bonds to date of depositing money.

The above bonds will be awarded to the bidder whose proposal will be most favorable to the city. The right is reserved to reject any and all bids not deemed for the interest of the city.

Bids will be opened by the Mayor and Comptroller in the office of the Comptroller in the city of Allegheny, Pa., on the 30th day of May, 1907, at 3:15 o'clock p. m.

All proposals must be indorsed "Proposals for city of Allegheny bonds," and addressed to

Street Improvement Funding Bonds

Office of the Comptroller,
City of Allegheny,
May 20th, 1907.

Sealed proposals will be received at this office until 3 P. M., MAY 30TH, 1907, for the purchase of two hundred and fifty thousand dollars "street improvement funding bonds." Said bonds shall be coupon bonds issued in denominations of $100 and $1,000 each for the purpose of paying contractors' claims, judgments and assessments against the city for damages and expenses in the improvement of streets and construction of sewers. Said bonds are part of an issue of four hundred thousand dollars bonds to be issued by the city of Allegheny, Pa., one hundred and fifty thousand dollars of which will be taken by the Sinking Fund Commission of the city. Said bonds will bear date of May 1st, 1907, and mature May 1st, 1937.

The above bonds will bear interest at the rate of four per cent per annum, payable semi-annually on the first days of November and May in each year at the office of the Comptroller in the city of Allegheny, Pa. These bonds are issued free from all taxation in the State of Pennsylvania.

A certified check on a national bank, payable to the order of the City Treasurer of the city of Allegheny, Pa., for five per cent of the amount of the bonds bid for must accompany each proposal. In case of award said deposit will be at the time of delivery of bonds credited on payment of bonds purchased. Checks will be returned to unsuccessful bidders. Purchasers must pay to the city accrued interest on bonds to date of depositing money.

The above bonds will be awarded to the bidder whose proposal will be most favorable to the city. The right is reserved to reject any and all bids not deemed for the interest of the city. Bids will be opened by the Mayor and Comptroller in the office of the Comptroller in the city of Allegheny, Pa., on the 30th day of May, 1907, at 3:15 o'clock p. m.

All proposals must be indorsed "Proposals for city of Allegheny bonds," and addressed to

JAMES BROWN,
Comptroller.

Seven cities, 5 days	$1,488,043,819	$1,590,283,490	—6.4
Other cities, 5 days	343,268,491	299,748,693	+14.5
Total all cities, 5 days	$1,831,312,310	$1,890,032,183	—3.1
All cities, 1 day	510,241,279	604,146,511	—15.5
Total all cities for week	$2,341,553,589	$2,494,178,694	—6.1

a Partly estimated.

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, May 25, and the results for the corresponding week in 1906, 1905 and 1904 are also given. Contrasted with the week of 1906 the total for the whole country shows a gain of 4.2%. Outside of New York the increase over 1906 is 12.3%.

Clearings at—	*Week ending May 25.*

THE FINANCIAL SITUATION.

The stock market has been extremely variable, prices declining materially Monday and Tuesday. On Wednesday a check in the decline and a partial recovery in values was a feature, which after the holiday, Thursday, seemed to be continued. The situation the first two days indicated an approach to general railroad insolvency and an absolute loss of credit in everything dealt in at the Exchange. Investors who had freely put their money in the securities of our railroads and leading industrials, and given it and them to the public for their advantage and benefit, found themselves and their properties jumped upon by the leading politicians in every State in the Union and they themselves deprived of ownership, the passenger and freight rates being arbitrarily fixed by law below a figure sufficient to yield revenue enough to cover expenditures and waste and proper remuneration for the capital invested. The State officials, joining in these harsh and confiscatory measures, took their cue from the leader of the Republican Party, who has pursued the policy indicated all through his administration, seeking to secure the favor of the discontented and socialistic classes, until he has made his party, though holding the position of conservatives during past years, at the present time out-bidders for the votes of the Bryanites and radicals.

The foregoing conclusions are fortified and confirmed by Mr. Roosevelt's Memorial Day speech at Indianapolis on Thursday. We credit the President with good intentions. The speech is a well-meant effort to allay the feeling of uneasiness with reference to his policy towards the railroads, which has been steadily growing in recent months. But whether it will have the effect intended is open to question. As is nearly always true of Mr. Roosevelt's extended utterances, there are many excellent passages in his speech—passages worthy to adorn a book on ethics—but, completing the analogy with the past, these are overbalanced by other statements and remarks which tend to increase alarm rather than quiet it. These passages, taken apart from their context and quoted separately and printed in conspicuous type, as has been done in some of the daily papers, look very encouraging and create a good impression; the feeling of satisfaction in great measure disappears when they are read in connection with the rest of the sentence or paragraph, and it is seen that the favorable meaning which they seemed to have must be very greatly qualified.

What, for instance, could be more assuring than this: "One great problem that we have before us is to preserve the rights of property." Seeing that quotation by itself, one is led almost involuntarily to say that it is the whole case, and the President after all understands the situation perfectly. But when we search for the quotation in the speech, we find that it is simply the opening clause of a sentence containing a second clause, and that the latter is much the more important, the first serving simply as a basis for the second, so that the completed sentence reads as follows: "One great problem that we have before us is to preserve the rights of property, and these can only be preserved if we remember that they are in less jeopardy from the Socialist and the Anarchist than from the predatory man of wealth." By the way, "predatory" is the word so freely used by Mr. Hearst in his newspapers and on the stump during the late gubernatorial campaign. The sentence quoted from the President's speech is followed by the remark: "There can be no halt in the course we have deliberately elected to pursue, the policy of asserting the right of the nation, so far as it has the power, to supervise and control the business use of wealth, especially in its corporate form." With this before us, one is reluctantly forced to the conclusion that there is to be no change of policy after all.

Indeed, great pains are taken to announce that the President's views and determination remain unaltered, and that the object of the speech is simply to indicate that this policy is not to have the serious consequences feared. "Every Federal law," we are told, "dealing with corporations or with railroads that has been put upon the statute books during the last six years (the period of Mr. Roosevelt's incumbency of office, though he does not say so) has been a step in advance in the right direction." "There must be vested in the Federal Government a full power of supervision and control over the railways doing inter-State business; a power in many respects analogous to and as complete as that the Government exercises over the national banks." "The movement to regulate railways by law has come to stay. The people of this country have made up their minds—and wisely made up their minds—to exercise a closer control over all kinds of public service corporations, including railways." "We ask the consent of no man in carrying out this policy, but we gladly welcome the aid of every man in perfecting the law in its details and in securing its enactment and the faithful observance of its wise provisions."

There are many very assuring statements in the speech, such as the remark "We would be the first to protest against any form of confiscation of property," and "We wish to make it to the interest of the investor to put his money into the honest development of the railroads." But all these are subject to the qualifications already mentioned. What is the President's attitude on the all-important subject of a valuation of the roads? Until that question is settled no security-holder in any given property can know where he stands; and so long as there is uncertainty as to the valuation the Government is to put on a road, any return of confidence is clearly beyond the realm of probability. As on all other points, Mr. Roosevelt begins in a very convincing fashion, saying: "There has been much wild talk as to the extent of the over-capitalization of our railroads." He also takes occasion to state that "the Census reports on the commercial value of the railroads of the country, together with the reports made to the Inter-State Commerce Commission by the railroads on their cost of construction, tend to show that, as a whole, the railroad property of the country is worth as much as the securities representing it"—which is reassuring as far as it goes. There is added the further statement that "when the statistics of the weaker roads, the over-capitalized roads, are combined with those of the stronger roads, and considered in the aggregate, in my judgment they will not be found to impair the wholesome financial standing and position of the railroads as a whole." This is also very good as far as it goes. But who is to know whether he holds a stock or bond in a weak and over-capitalized road or in one of the other kind? Heretofore market values have determined that fact,

but now Government dictum is to settle the matter and in the meantime every one will be at sea.

Mr. Roosevelt declares emphatically for Government valuation. He says: "Ample provision should be made by Congress to enable the Inter-State Commerce Commission, by the employment of a sufficient force of experts, to undertake the physical valuation of each and any road in the country, whenever and so soon as in the opinion of the Commission such a valuation of any road would be of value to the Commission in its work." He admits that "physical valuation is no panacea," and that "the physical valuation can never be more than one of many elements to be considered: but it is one element, and at times may be a very important element." The effect of such valuation and supervision of securities is not to be retroactive, but "the public interest requires guaranty against improper multiplication of securities in the future." Over-capitalization, we are told, "always conceals the true relation of the profit earned to the capital invested, creating a burden of interest payments which may redound to the loss alike of the wage-earner and the general public, *which is concerned in the rates paid by shippers.*" The words which we have here put in italics explain why a contemplated valuation is proving so disturbing. It is felt that the purpose is not merely to show whether or not there is more or less water in the capitalization in any given case, but that figures of valuation are desired as a plea or a justification for cutting down rates.

The President well says: "It is all-essential that they (the people) should not lose their heads and get drawn into an indiscriminate raid upon all corporations, all people of wealth, whether they do well or ill." Furthermore, that "if the demand for more taxes, for higher wages, for shorter hours for employees and for lower rates become so excessive as to prevent ample and speedy transportation and to eat up the legitimate profits; if popular and legislative movements take a shape so ill-directed as not only to threaten honest investments and honest enterprises, but also to prevent any effort for the betterment of transportation facilities, it then becomes out of the question to secure the necessary investment of capital in order to bring about an improved service." This is gospel truth, and we are glad that the President has seen fit to make public declaration of the fact. But on further examination it appears that this is simply part of a plea for more power, and to disarm criticism in that regard. For the paragraph quoted is immediately succeeded by the following statement: "Rates should not be unduly high; there should be a thorough safeguarding against accidents; there should be no improper shirking of taxes; the shippers of the country must be supplied generously with cars and all other equipments necessary to properly care for our commerce, *and all this means that the National Government must be given full and effective power of supervision and control.*" .

Thus we are brought right back to where we started, and see that though the words are softer and smoother, the purpose remains the same. This much, however, we think we are justified in saying: the elaborate attempt made by Mr. Roosevelt to dispel fears is an indication that he is slowly awakening to the dangers of the situation, and may sooner or later become impressed with the fact that persistence in the present course portends disaster. In that circumstance there is greater promise of a possible modification of the harmful policy pursued than in the many palpably assuring statements and remarks scattered throughout the address.

Rumors have from time to time been current that Secretary Cortelyou would, shortly after the first of June, withdraw the 30 million dollars placed in depositary banks by ex-Secretary Shaw on the occasion of the monetary stringency last September. The idea has been suggested that this fund would be transferred to the Sub-Treasury early in June preparatory to its use in redeeming the 4s of 1907 due July 1. This proposal has seemed to indicate a very unnecessary interference with the smooth running of our money market at the most critical period of the year. It would include the withdrawal of 30 millions of dollars (or a considerable part thereof) out of the depositary banks into Treasury vaults, to be locked up there and kept out of the money market until after the opening of the new fiscal year. This course, it has been stated, was required, the claim being that no statute exists authorizing the withdrawal of the 30-million-dollar deposit from depositaries directly to each bondholder in payment of his bond. That, we understand, is the ruling of Secretary Cortelyou, who is, very properly, not inclined to overstep his authority in the construction of his powers. All the statutes we can find directing the withdrawal of Government funds in depositary banks are the following:

Section 3593. All public moneys paid into any depositary shall be subject to the draft of the Treasurer of the United States, drawn agreeably to appropriations made by law.

Section 3640. The Secretary of the Treasury may, except as provided in the next section, transfer the moneys in the hands of any depositary of public moneys to the Treasury of the United States to the credit of the Treasurer; and he may transfer moneys in the hands of one depositary to any other depositary, as the safety of the public moneys and the convenience of the public service shall seem to him to require.

Section 3644. All moneys paid into the Treasury of the United States shall be subject to the draft of the Treasurer. And for the purpose of payments on the public account the Treasurer is authorized to draw upon any of the depositaries as he may think most conducive to the public interest and to the convenience of the public creditors. Each depositary so drawn upon shall make returns to the Treasury and Post-Office departments of all moneys received and paid by him, at such times and in such forms as shall be directed by the Secretary of the Treasury or the Postmaster-General.

Of the foregoing, Section 3644 (the second sentence in it) seems to be the only provision which would come near fitting the needs of this occasion. It reads, as will be seen, "and for the purpose of payments on the public account the Treasurer is authorized to draw upon any of the depositaries as he may think most conducive to the public interest and to the convenience of the public creditors."

United States Treasurer Treat, in his excellent address before the convention of the Missouri State bankers, held in Kansas City the latter part of May, stated that it has not been the practice of the Government to draw drafts or warrants on depositaries located in Sub-Treasury cities. They have been allowed to retain Government deposits under guaranty of bonds for safe-keeping. The Aldrich bill makes no change in this practice.

At the beginning of this week New York was the scene of disturbance greater than that which marked the acute crisis in March. Abroad the unsettling situation was also a present fact; the latter was the result of the discount of American obligations and consequent credit expansion and tension, which contributed to such a strain on banking resources as to compel liquidation and efforts by bankers to resort to more conservative methods. At home, as hereinabove stated, confidence in security values had been well-nigh destroyed through aggressive Federal and State legislation and by the inquisitory policies of the various departments of the Government. There seemed to be no prospect of an abatement of efforts on the part of the administrators of the newly enacted laws to attack constructive enterprises wherever they could be brought within the control of the Government's prosecuting agencies.

With confidence thus unsettled and the period of restoration uncertain, it needed but a comparatively slight impulse to precipitate an acute situation. In the previous week selling of securities by Paris in London and by British and French bankers in New York—such operations by the former being for the purpose of reinforcing, with the proceeds of these sales, the gold reserves of the Bank of France, and by the latter with the view of attracting the metal from this centre with the object of augmenting the Bank of England stocks of gold—had indicated the existence of much stress abroad. The prospect of a serious shortage in our wheat crop and possibly of almost irreparable injury thereto, together with the depression in our securities as the result of discouraging and apparently irremediable impairment of revenues of industrial enterprises, made our market peculiarly sensitive to adverse influences.

The most potent of these influences was the disquieting decline in the London market on Monday, the direct cause for which seemed to be the insistent demand by French bankers for the South African gold which was offered in the London bullion market on that day, and also the later withdrawals from the Bank of England of an amount of the metal nearly equal to that which had been bought after successful competitive bidding against the Bank. The fall in British consols to almost unprecedentedly low figures was an event which could scarcely fail to have a greatly disquieting effect, and it is not surprising that Lord Rothschild had his confidence in the future of the situation rudely shaken. The successful competition of French bankers with the Bank of England which prevented that institution from obtaining any of the Cape gold, was, though, much more disturbing, because it seemed to indicate either a well-concealed purpose of France to dominate the financial markets of Europe, perhaps to the injury of Great Britain, or possibly of a knowledge of conditions in Russia which, if they should become acute, would make necessary the adoption of most effective precautionary measures.

Strikes seem just now on the wane. A prominent instance is the longshoremen's strike, probably as ill-advised a move as labor ever inaugurated. In any strike, no matter how just the cause, cohesion is essential to success, and its absence has been a conspicuous defect in this case. A feature of labor troubles along shore has invariably been that the striker on the North River has been a strike-breaker on the East Side, and vice versa. And that is not a strange or unusual situation when it is remembered or understood that New York longshoremen probably constitute the highest paid class of unskilled workmen in the country. With a wage scale of 30 cents per hour for day work and 45 cents for nights, holidays and overtime, the sober and industrious man can and does make a good income.

The present strike began in a small way on Friday, May 3, and quickly spread until most of the steamship lines were involved. The first men went out without filing any general bill of complaint or making any specific demands, but subsequently an increase in wages of one-third (to 40 and 60 cents respectively) was named as the basis upon which the men would return to work. This the various companies maintained it was impossible to accede to, and they also claimed that the state of the freight market made it impossible to even consider any compromise. That the movement of ocean-bound freight has been seriously hampered has been apparent, but gradually the situation has improved until now many of the companies assert they have a normal force at work. Fortunately there has been little resort to violence, but the precautions taken by the management of the various lines probably explains this. The leaders of this strike practically confessed impending defeat last week, when they appealed to the Commissioner of Immigration in the matter of crews of vessels unloading and stowing cargo. But even here they received small comfort, the decision of the Commissioner being to the effect that each ship was within its rights in using its own crew to do the work. With the failure of this move to force such a construction of the Federal law as would assist in hampering the companies, the strike has practically come to an end.

Aside from the longshoremen's strike, there are not now, nor have there been recently, any labor troubles of importance. In accordance with an agreement entered into between the Consolidated Steamship Lines (comprising the Ward, Mallory, Clyde, Metropolitan and New York & Porto Rico lines) and the American Association of Masters, Mates and Pilots, the officers of the various vessels of the lines have been accorded the increase in wages for which they carried on a two-days' strike. Danger of a tie-up of the Washington & Potomac Steamboat Company's vessels was averted on Tuesday by acceding to the request of the engineers for more pay. The advances in wages granted to operatives in cotton mills at Fall River and elsewhere in New England have virtually removed all cause for discontent in that important industry, although the situation is a little strained at Lowell. It is reported from Chicago that before the end of the summer more than 200,000 unorganized laborers and clerks on Western railroads will have been granted voluntary increases in wages averaging 10%, and that some of the roads have already completed their new schedules.

A fair illustration of the drift of State legislation is Governor Hughes's Utilities bill which was sent back disapproved by the Mayor on Tuesday; present indications are clear that the Mayor's action will have no effect in checking re-passage, and that it will be rushed

through the Legislature early next week. It has not been called for, except by Governor Hughes, who seems to desire it for the sake of the great power it bestows on himself and because it is an advanced step in line with the current movement upon associated capital.

It is hard to characterize in a few words a bill which proposes to take from many thousands of private owners the substantial control of their own property and commit it to the unguaranteed wisdom and uncovenanted mercies of a Commission created by the usual political methods. This prospect is enough of itself to startle the public into serious thinking. It certainly would give the public a start of breathless surprise had not the effect been discounted by a gradual and prolonged course of aggressive legislation, proceeding step by step like a rising tide; nay, such a measure, almost beyond precedent in the sweep and the lack of responsibility in the powers it proposes, and creating a political machine the like of which has not yet been known, would never have been brought up had not the way been prepared for it.

However, waiving this for the present, the bill challenges attention because of the absolutely unlimited expenditure which it authorizes. The salaries of the Commission members are fixed, but all else is left as wide open as language could make it. The Commissions may hire any number of assistants they please, in any capacity, and pay them any compensation; neither details nor total is limited. The State disburser is required to pay the bills in one of the districts created, and the city disburser is required to do the same in the other district, and not merely that, but to issue and sell revenue bonds for providing the money. Revenue bonds are themselves a bad piece of financing, for which the best available excuse is that, having gotten into this particular spendthrift habit, it is difficult to get out of it; but, aside from that, here is a measure which openly commits the State, as a whole, and the city as the chief part of it, and also on its own part, to obligations without limit or foresight.

Consider what this involves, and the condition of things in which such an indefinite undertaking is permitted. The State Constitution forbids creating any permanent "debt" without submission to the popular vote. Is this unlimited indebtedness such a "debt," or can we plunge into an unknown sea of expenditure under a political Commission merely because the obligation is not to be cast in the form of a time bond? Whether the Legislature can delegate power to bind taxpayers in such a loose manner, not to mention such power over private property as seems to be equivalent to taking it without compensation, is a question for the courts.

Yet, it is quite time we took note of the fact that it is unsafe to rely implicitly upon the courts to save us from the consequences of our own remissness or folly. It is not within the province of courts to overthrow statutes merely because they are foolish or even because they involve injustice. The people are sovereign and must be deemed bound by the acts of their chosen agents within the delegated authority. If the tendency to overstrain the organic law written in constitutions is very marked on the one hand, we must not expect that the courts, on the other hand, will overstrain that organic law in order to head off violations of the spirit of it and the clear dictate of reasonable living. Judges are but human, and they may weary of having too much protective work thrown upon them.

There was no change in official rates of discount by any of the European banks this week; compared with last week, unofficial, or open market, rates were, at the close, ⅛ of 1% lower at London and at Paris, and steady at Berlin and Frankfort. One feature of the foreign situation was a somewhat disturbing fall in securities at London on Monday, when British consols sold at 84¼, said to be the lowest, for the second time this year, since 1848, when they were 80. The immediate cause for the decline in British funds appeared to be the procurement by French bankers of $750,000 out of the $5,000,000 South African gold that was offered on Monday, through outbidding of the Bank for the metal, and the subsequent withdrawal, by these bankers, of $655,000 from the Bank; nearly all of the remainder of the Cape gold was secured by the India Council, which had it set apart in the Bank. The London securities market was at the time quite sensitive to unfavorable influences, because of rumors of impending failures at the settlement, and when it was seen that the demands of French bankers for gold had become even more urgent than before, general liquidation was precipitated, which was accelerated later by the suspension of a stock-jobbing house and by expectations of further failures. The Paris market grew heavy as the result of the derangement in London, and Berlin was also affected thereby. Lord Rothschild, when interviewed, expressed the opinion that the chief influences contributing to the generally depressed situation in Europe were President Roosevelt's attacks on the railroads in America, the income tax problem in France and the Socialist movement in England. He said that he could see no present prospect of improvement. There was a recovery on the London market on the following day, due to the absence of disturbing influences, and also to the fact that the French demand for gold had apparently been diverted from London to New York. Discounts were, however, held firm, and, probably as an additional measure of protection against withdrawals of gold from London the price of the metal, which had been advanced on the previous day to 77 shillings 10⅜ pence per ounce, as the result of competitive bidding, was maintained until Friday when there was a recession of ⅛ of a penny. After Tuesday, the situation in the European markets gradually grew more normal.

The feature of the statement of the New York Associated Banks last week was an unexpected large increase in surplus reserve by $4,216,200, to $15,688,875. This was almost wholly due to a gain of $5,851,100 in cash, the reserve requirements, caused by an increase of $6,539,600 in deposits, being but $1,634,900; loans were augmented $1,580,800. The bank statement of this week should reflect, among other items, the withdrawal of $3,310,434 gold for export to Paris and of $500,000 for shipment to Canada.

It may be noted that refunding operations, which began April 2, have thus far resulted in the exchange of $49,958,100 4s of 1907 for 2% consols. Redemptions of the 4% bonds and purchases thereof, under the circulars of Dec. 10, Feb. 11 and March 14, have been $25,159,600. There remain only $41,900 of the 4s to be refunded, out of the $50,000,000 set apart for

that purpose, while the redemptions of the $25,000,000 4s called for surrender appear to be completed. It is noteworthy that expectations of derangement to the money market as the result of exports of gold to Europe were not realized. The withdrawal of $3,310,434 of the metal this week for shipment to Paris did not have even a sentimental effect upon the market for money, day-to-day loans being no higher than 2½%, with a minimum of 1¼% and an average of 1¾%. Loans for short fixed periods were not in request, and though those for longer maturities were fairly firm, there appeared to be only a light demand therefor. The offerings of call money were abundant, largely because of liquidations of speculative accounts, which were quite general on Monday, when there was a sharp and highly unsettling decline in security values. One factor contributing to low rates was the accumulation in the banks of funds of trust companies, these institutions being unable to obtain, through loans, as good rates as those paid by the banks on their balances; consequently such balances, together with those of the banks, were pressed upon the market for employment, generally at minimum rates. With an unsettled tone for securities outside trading was not encouraged; hence commission houses had no use for their balances and they were in active competition as lenders with the banks, thus augmenting the supply. In view of the fact that by July 1 the Treasury will begin to disburse about 42 millions for the 4s of 1907, those who had use for money preferred to procure it on call rather than for short fixed periods; traders who desired to make provision for longer maturities were unwilling to pay the rates for loans on collateral, and lenders were indisposed to make concessions because they could secure as satisfactory, if not better, rates on corporation notes.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 2½% and at 1¼%, averaging 1¾%; banks quoted 1½% as the minimum, but trust companies were not in the market. On Monday and on Wednesday loans were at 2% and at 1½% with the bulk of the business at 1¾%; on Tuesday transactions were at 2% and at 1¼% with the majority at 1¾%. On Friday loans were at 2½% and at 1¾% with the bulk of the business at 1¾%. Time loans on good mixed Stock Exchange collateral were 2½@3% for thirty, 3½% for sixty and 3¾@4% for ninety days, 4% for four, 4½% for five and 4¾% for six months and 5¼@5½% for over-the-year. Commercial paper was quiet at 5@5½% for sixty to ninety day endorsed bills receivable, 5@5½% for prime and 5½% for good four to six months' single names.

The Bank of England rate of discount remains unchanged at 4%. The cable reports discounts of sixty to ninety day bank bills in London 3⅜%. The open market rate at Paris is 3¼% and at Berlin and Frankfort it is 4⅝%. According to our special cable from London, the Bank of England gained £95,383 bullion during the week and held £35,237,110 at the close of the week. Our correspondent further advises us that the loss was due to large receipts from the interior of Great Britain. The details of the movement into and out of the Bank were as follows: Imports, £216,000 (of which £13,000 from Australia and £203,000 bought in the open market); exports, £733,000 (of which £377,000 to Paris, £200,000 to Singapore, £100,000 to South Africa and £56,000 to Java), and receipts of £612,000 *net* from the interior of Great Britain.

The foreign exchange market was generally strong this week, influenced by a good demand to remit for stocks sold for European account and also by a moderate supply of bankers' and commodity bills. Speculators took advantage early in the week of the pendency of gold exports, as indicated by the decline in Paris checks on London, and also by reports of negotiations for the shipment of the metal in considerable amounts to Paris as an arbitration operation. Speculative manipulation contributed to the maintenance of firm rates for short and cables on Saturday of last week, and likewise on Monday, until it was seen that the engagements of gold for Tuesday's steamer was small, and therefore that the immediate demands for export had been satisfied. Then speculators sold somewhat confidently, induced, apparently, by the expectation that no more gold would be shipped this week and that it was probable that Secretary Cortelyou would intervene, through calls for public deposits, to obstruct further exports. One feature, however, was the quite firm tone for francs at the gold-export point, indicating direct shipments hence to Paris. In view of the possibility of such movement speculative operations were more cautiously conducted, and, owing to an increased demand for remittance to pay for stocks sold abroad, sterling rates recovered and the market was strong thereafter, though long bills were exceptionally low because of dearer London discounts. The statement that Monday's engagement of gold for shipment to Paris was facilitated by the allowance of interest on the consignment while it was in transit indicated some urgency for gold in the French capital and it seemed to concentrate attention upon cable drafts, both sterling and francs, and also upon the fluctuations in checks at Paris on London. Inasmuch as the latter rose on Tuesday, it was regarded as probable that gold shipments had been arrested. On Wednesday, however, though exchange at Paris on the British capital was unchanged, the engagement of $2,000,000 more gold was announced for shipment on Thursday, and it was then stated that arrangements for such export had been effected early in the week. The market was quite firm on Wednesday, closing at the highest for long and for cables. It may be noted that, owing to the absence of Secretary Cortelyou at Canton, Ohio, no action, if any was contemplated, was taken in the matter of recalls of public deposits from the banks, with the object of influencing exchange through dearer money. The fact that the gold exports did not have any effect upon the money market will, it is thought probable, induce the Secretary to refrain from intervention through withdrawals of Government deposits.

The gold which has been shipped to Paris this week is the first considerable amount that has been sent abroad since June 2 1905. Exporters this week were Goldman, Sachs & Co., who forwarded $787,354 on Tuesday; Lazard Freres, who sent about $1,000,000; Heidelbach, Ickelheimer & Co., $500,000, and the Russo-Chinese Bank, $500,000; an engagement by the first-named shipper on Friday of $500,000 for export to-day (Saturday) makes a total for the week of $3,-

310,434. It is stated that the exports were effected at a very small profit, but the employment of cables for the prompt procurement of reimbursement insured the shippers against the possibility of loss on the transaction, while the co-operation of the consignee in Paris of the gold with the exporters resulted in a saving to the latter of commissions and of other incidental items, as well as of interest on the consignments while they were in transit. Further exports will depend upon the factors of checks at Paris on London, the rate for exchange at New York on the British capital, the urgency of the French demand for the gold and the willingness of exporters to participate in the movement.

Nominal quotations for sterling exchange are 4 84½ for sixty day and 4 87½ for sight. On Saturday of last week the market was strong at an advance, compared with the previous day, of 10 points for long to 4 8365@4 8375, of 5 points for short to 4 8680@4 8685 and of 10 points for cables to 4 8725@4 8730. On Monday long fell 25 points to 4 8345@4 8350, short 10 points to 4 8670@4 8675 and cables 5 points to 4 8720@4 8725. On Tuesday long declined 5 points to 4 8340@4 8345, short advanced 5 points to 4 8675@4 8680 and cables 5 points to 4 8725@4 8730. On Wednesday long rose 30 points to 4 8365@4 8375, short 5 points to 4 8675@4 8685 and cables 10 points to 4 8730@4 8740. Thursday was a holiday, and on Friday the market was firm for long at an advance of 5 points, while cables fell 5 points and short was unchanged.

The following shows daily posted rates for sterling exchange by some of the leading drawers:

		Fri., May 24	Mon., May 27	Tues., May 28	Wed., May 29	Thurs., May 30	Fri., June 1
Brown Bros. & Co.	60 days	4 84½	84½	84½	84½		84½
	Sight	4 87½	87½	87½	87½		87½
Baring & Co.	60 days	4 84½	84½	84½	84½		84½
	Sight	4 87½	87½	87½	87½		87½
Bank British North America	60 days	4 84½	84½	84½	84½	HOLIDAY	84½
	Sight	4 87½	87½	87½	87½		87½
Bank of Montreal	60 days	4 84½	84½	84½	84½		84½
	Sight	4 87½	87½	87½	87½		87½
Canadian Bank of Commerce	60 days	4 84½	84½	84½	84½		84½
	Sight	4 87½	87½	87½	87½		87½
Heidelbach, Ickelheimer & Co.	60 days	4 84½	84½	84½	84½		84½
	Sight	4 87½	87½	87½	87½		87½
Lazard Freres	60 days	4 84½	84½	84½	84½		84½
	Sight	4 87½	87½	87½	87½		87½
Merchants' Bank of Canada	60 days	4 84½	84½	84½	84½		84½
	Sight	4 87½	87½	87½	87½		87½

The market closed on Friday at 4 8370@4 8380 for long, 4 8675@4 8685 for short and 4 8725@4 8735 for cables. Commercial on banks 4 8335@4 8345 and documents for payment 4 82⅝@4 83¾. Cotton for payment 4 82⅝@4 82¾, cotton for acceptance 4 8335@4 8345 and grain for payment 4 83⅝@4 83¾.

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending May 31 1907.	Received by N. Y. Banks	Shipped by N. Y. Banks	Net Interior Movement.	
Currency	$8,262,000	$4,701,000	Gain	$3,561,000
Gold	678,000	1,134,000	Loss	456,000
Total gold and legal tenders	$8,940,000	$5,835,000	Gain	$3,105,000

With Sub-Treasury operations and gold exports the result is as follows:

Week ending May 31 1907.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.	
Banks' interior movement, as above	$8,940,000	$5,835,000	Gain	$3,105,000
Sub-Treas. operations & gold exports	21,600,000	22,600,000	Loss	1,000,000
Total gold and legal tenders	$30,540,000	$28,435,000	Gain	$2,105,000

The following table indicates the amount of bullion in the principal European banks.

Bank of	May 30 1907. Gold.	Silver.	Total.	May 31 1906. Gold.	Silver.	Total.
	£	£	£	£	£	£
England	35,237,110		35,237,110	33,672,322		33,672,322
France	105,964,857	39,553,199	145,518,056	117,647,079	42,531,350	160,178,429
Germany a	36,030,000	12,310,000	49,240,000	37,934,000	12,645,000	50,579,000
Russia d	116,071,000	6,295,000	122,366,000	94,741,000	5,572,000	100,313,000

Sweden	4,145,000	.....	4,145,000	3,881,000	.....	3,881,000
Tot. week	400,393,767	108,591,799	508,985,566	386,991,468	109,425,883	496,417,351
Tot. prev.	397,540,800	107,353,727	504,894,527	382,253,589	109,802,126	492,055,715

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian Bank Statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 80 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held and consequently duplicated in the above statement is about one-quarter of the total.

OUR TRADE CONTROVERSY WITH GERMANY.

By reason of certain very recent events the question of our trade relations with Germany is coming into position of considerable interest. During a more or less prolonged period negotiations of one sort and another have been going on between our own and the German state departments, looking toward more liberal regulation of the customs tariff on our mutual trade. The matter was considered in the last session of Congress, and was brought before the President for such executive action as might be possible without overwhelming legislation. The result was very slight. Nothing deserving the name of reciprocity was effected, by legislative vote or administrative order. A few of the more vexatious arrangements at our port were modified, or else reasonable possibility of their modification was offered; on one kind of German wine the barrier was substantially let down. Otherwise it could not be said that any response had been made to the efforts of Germany to come to a more beneficial understanding.

The matter calls for discussion now because the reception of the meagre concessions by the German Legislature plainly mark dissatisfaction and discontent. Both in the German newspapers and on the floor of the Reichstag it has been intimated this past week or two, while the provisional tariff agreement with the United States was being accepted, that Germany was not satisfied, and that the United States might find reason to regret the absence of more liberal action. To this intimation, however, certain German statesmen have made answer that even if Germany has made no progress in reciprocity with the United States it must in its own interest be very slow to consider retaliation. These speeches took into plain account the fact that even under our stringent tariff we were one of the German manufacturers' best customers, and that the exporters from Germany would be more seriously hurt by a possible trade war than the importers and consumers of the United States.

That this was a correct view of the situation, even without regard to the ethics of trade discrimination, there can be no question. Our imports from Germany are principally manufactured goods, which at a pinch we could probably obtain from other countries without great inconvenience. On the other hand, Germany's imports from us consist to a very great extent of foodstuffs, which are imported simply because the German Empire does not raise enough of the articles in question to feed its people. In 1906 we sent to Germany

$5,271,000 worth of wheat, $2,392,000 worth of flour, $9,758,000 worth of corn and upwards of $20,000,000 in such commodities as lard and similar products; and to this may pertinently be added the $98,000,000 worth of cotton which, by our Government's figures, we sent to Germany during the cotton year ending with last August.

It will be seen at a glance that these are articles with which Germany could not dispense except at a heavy and possibly disastrous sacrifice to itself. A trade war, therefore, in the old-fashioned sense, between Germany and the United States is improbable for the best of reasons. Precisely the same fatal objection to it exists as existed to the whimsical advice of the Austrian Prime Minister in 1897 that, in view of the "American invasion," it was time for the European nations to "stand shoulder to shoulder" in resisting the inroads of the intruder. Count Goluchowski never troubled himself to explain who was to do this "standing shoulder to shoulder." We imagine that pleasant duty could have been imposed on no one but the people of Europe who, if they had heeded the advice from Vienna, would have supposably have gone without their daily bread in the European famine period in order to teach a lesson to America.

But while all this is true, and while even Germans admit that the advantage of any controversy which arises must lie with the United States, there are, in our judgment, certain broader considerations which ought not to be overlooked. One of them, we hardly need say, lies in our wish to develop a foreign trade for our own articles of manufacture. It has never been doubted that expansion of such trade follows along the lines of mutual international concession. Our people learned four or five years ago that an enormous export trade which may be facilitated without such relations during a period of foreign trade boom and abnormal consumption will have to depend on something else when financial reaction strikes the foreign consumer. We learned this by the fall in our export trade during Europe's trade reaction of 1900 and 1901. We should have a much more serious lesson to learn if, at some future time, our exporters were confronted with a genuine paralyzing trade collapse in the European world.

There is a further consideration which the makers of tariff schedules have no right to ignore; it is the maintenance of good relations politically with other States. The past decade has created several curious situations between ourselves and Germany, which, while they at no time actually threatened impairment of good feeling, nevertheless gave some idea of what might, under conceivable circumstances, be brought about. The point of this lies in the fact that in the present era of the world's progress the legitimate interests of trade have more influence to-day than perhaps any other in creating or destroying good relations between governments. No doubt, as some of our legislators assert, we have in a tariff which may at the will of Congress be relaxed a strong inducement to offer any foreign nation in return for concessions of its own to us. But it must be noticed that this very assertion recognizes the fact that to cultivate such relations on such lines we must be willing to break, to some extent, our tariff wall. Moreover, it follows necessarily that the converse is true, and that arrogant persistence in a tariff which a great foreign State regards as unfair and unreasonable is the surest road to the fomenting of unpleasant intrenational relations.

It would be venturesome to predict any action along these lines by our Congress in the immediate future; there have, in fact, been indications, during the period of business activity, that sentiment in American trade circles and in American legislative circles was hostile to any change. It is nevertheless quite possible that this subject may before long be brought suddenly and vividly before our people. Two or three years ago there seemed to be reason for still larger inferences regarding the future of international trade relations and for predicting a general reversion to extreme ideas on the subject prevalent a century ago. Mr. Chamberlain's campaign for protective duties in England marked the climax of this movement of reaction. As every one knows, his undertaking fell. Nothing could be more sure proof that the underlying sentiment of the people has not radically changed on questions of this sort than the results of the recent conference of the Colonial Premiers at London. More than one of the delegates came with propositions of provincial duties, through which, it was argued, England should encourage the loyalty of its colonies. They accomplished absolutely nothing; yet they parted with very manifest good feeling. The London "Economist" sums up thus concisely the resultant situation from England's point of view:

"It is as much our interest to get foreign goods into our markets as it is the interest of the colonies to see our markets left dependent on what they can supply. When two interests clash, each party necessarily prefers its own. The last election showed that the greater part of the English people are convinced that their commercial prosperity depends on the maintenance of free trade. The colonies think us mistaken, and, thinking this, they have a right to try and convince us that we are so. But the creation of that conviction is a condition precedent of any change in our fiscal policy, and until it is created it is best that this fact should be brought home as dearly as possible to the colonial representatives."

WHAT IS AILING THE RAILROADS AND THE STOCK MARKET?

Now that the President has taken occasion to define his views concerning his policy towards the railroads, it becomes important to examine somewhat closely into the reasons for the unsettled condition of the security market. With each succeeding week a lower depth is reached in the downward movement, and many persons—including some who keep reasonably well informed as to current events and happenings—cannot understand why this should be so. Why do not investors, capitalists and moneyed classes generally take advantage of the present state of affairs and acquire stocks at what appear very much like bargain-counter prices?

The underlying cause is the same as it was at the time of the collapse in March, the same, indeed, as it has been for about a year and a half, during all of which period a shrinkage in values has been in progress. Owing to the assaults of those high in authority and adverse legislation both by Congress and the State legislatures, confidence is almost completely gone. No one is willing to buy at what appear like ridiculously low prices because no one can tell what the future may bring forth. Though the railroads and public service corporations generally have already

suffered much, they are still under fire, new attacks upon them being made from day to day, and the question which every investor, every moneyed man, puts to himself is, Where is this thing to end? The future, as far as these corporations are concerned, is clouded with great doubt. No matter what present earnings and present dividends may be, the part of the problem which no one feels able to solve is what earnings and dividends are going to be when all the adverse factors which are piling up against the carriers have had a chance to work out their full effect.

Unfortunately, too, each week sees new happenings and developments which accentuate the feeling of doubt that so widely prevails. Take for illustration simply some of the incidents of the last ten days. The newspapers have kept informing us that the President has by no means abandoned his idea of having some kind of a valuation of railroad properties. He is still cogitating and pondering deeply over the subject, we are told. It should be observed, too, that in his Memorial Day speech on Thursday Mr. Roosevelt distinctly reiterates his belief in the advisability of having a valuation made. Of course, valuation of the roads can subtract nothing from their tonnage or their revenues, and the President takes pains to say that valuation is only "one of many elements to be considered." But the valuation is wanted for a purpose. What is that purpose? We must certainly absolve the authorities from any desire to prove that present rates and present profits are not adequate. There remains therefore, only the other alternative, namely that it might be possible to get a valuation so low as apparently to warrant the assertion that even if legislative action and the orders of railroad commissions, State and national, shall serve to make serious inroads upon profits, as they are now doing, there will still be enough profit left to admit of some "fair" return on the assumed valuation thus arrived at.

The feeling of apprehension is being increased by the fact that action is being taken in other directions which fits in perfectly with the idea of limiting the returns of the railroads if the step should be thought advisable. The Statistician to the Inter-State Commerce Commission has just issued a circular advising the railroads as to the form and classification of revenue and expense accounts they will be expected to follow with the beginning of the new fiscal year on July 1 1907. In the instructions with reference to the treatment of the expense accounts, there occurs the following admonitory remark: "It should be understood that these operating expenses must not be burdened with expenditures for additions, such as new and additional equipment, tracks, buildings, ballast and other additions to the property, the purposes of which are to improve the property operated." Our readers are aware that the railroads have been doing the very thing they are no longer to be allowed to do, that is, they have not distinguished sharply between mere renewals and improvements and additions. Some of them, indeed, instead of increasing the rate of return to the shareholders, have been making quite extensive improvements and charging the cost to expenses, the design being to fortify the properties against adverse happenings and promote economy in operations. This policy, too, has been in the public interest, for it utilized profits in doing work which must otherwise have been paid for through additions to capital account. Some of the Inter-State Commerce Commissioners have in the past frankly declared against allowing the roads to charge rates that would leave anything for improvements, and the Statistician has always urged that the line between operating expenses per se and improvement outlays should be sharply drawn. Now the authority given by the Hepburn Law is to be availed of to enforce this distinction and attain that end.

Again we ask, what is the purpose? There is, of course, no objection to showing just what is being put into the properties from year to year out of earnings. Indeed, it would be in the highest degree desirable to have this information, for it would impart to the investor just the knowledge he wants, apprising him that even if he is getting no dividends, at least the property in which he holds an equity is being put in better shape from year to year. But there is no warrant for thinking that the modification of the accounts has been made with any such intention. That being the case, is it strange that the conclusion should be drawn that this information, like the proposed valuation of railroad property, is wanted so as to afford a pretext for still further diminishing the already dwindling profits of the roads. And can investors and security holders be blamed for thinking that hereafter the roads are to be held down to a meagre return on the bare value of the property and that even improvement outlays are not to be allowed above such a return, even though such outlays are clearly in the public interest. Then, also, there is this week's decision of the United States Supreme Court upholding the Commission in refusing its sanction to an advance in lumber rates on some of the Southern roads. Is this calculated to allay fears in that regard?

But the Federal power is not alone in acts of repression. The States, taking their cue from the National Government, have been indulging in very extensive repressive legislation of their own. We referred last week to the Public Service Commission's Bill in this State—a remarkable and extraordinary piece of legislation, which gives the Government bodies created by it a degree of authority over all public service concerns which would be absolutely incredible if the provisions and features were not unequivocally and specifically set out in the Act. In an article to-day we also refer to what the neighboring State, Pennsylvania, has done in the same direction. And so we might take up one State after another. We have space, however, to advert to only one other State, namely Michigan. There opposition to railroads is particularly rife, though it would be hard to point to another State where the railroads have fared so badly in the matter of earning a return on the money invested as in this very State of Michigan. Perhaps some one will extract hope and encouragement from the fact that the Lower House of the Michigan Legislature last week killed a bill which would have limited the passenger rates on electric suburban roads to 1½ cents per mile. But that very action serves to reveal the spirit in which legislation is carried on. That the reader may understand the reasons for the defeat of the bill, we re-print the following dispatch from the "Grand Rapids Herald" of May 22d—a paper which has been one of the staunchest advocates of legislation adverse to the railroads:

"Lansing, Mich., May 22.—The House handed Representative Norton of St. Johns a sour lemon today when it refused to take a crack at the railroad committee at his request.

"Norton had a bill providing that interurbans could not charge more than a cent and a half per mile. Most of them charge that or less now, and the bill being aimed principally at the road from St. Johns to Lansing, which gets 50 cents for a 20-mile trip. The committee killed the bill, holding it was not time to begin hampering electric roads, their development not yet having reached the stage the State wants."

It should be noted that the bill was killed because in the estimation of the Railroad Committee the time had not yet arrived "to begin hampering electric roads, their development not yet having reached the stage the State wants." In the case of the steam roads, however, no such hesitancy apparently exists. These evidently have "reached the stage the State wants," and hence it is not proposed to miss an opportunity to hamper them. The Railroad Commission Bill now before the Legislature of Michigan would practically give the Commission charge of the operation of steam roads in that State. It would give it the power to prescribe the character and number of locomotives and cars that shall be provided, to examine into the freight and passenger train schedules and decide as to the number of trains the railroads shall run. Furthermore, Section 54 of this bill reads as follows: "The Commission may make all needful rules and regulations concerning the *number* and efficiency of employees upon railroads and may prescribe tests to establish the competency of such employees." It should be observed that this provision relates to the number of the employees as well as their efficiency, and that it applies to all employees of railroads.

Another bill introduced in the Michigan Legislature provides that every railroad in the State shall have a policeman for each five miles of track, these policemen to be appointed by the Governor and paid for by the railroads. It has been estimated that this would give the Governor of the State the appointment of 2,000 policemen at the cost to the railroads of say $2,000,000 per annum. Incidentally, it would scatter a couple of thousand political workers over the State.

We have no idea that any such absurd proposition as this will find its way to the statute books, and yet in these days the unexpected is all the time happening, and these proposals in Michigan are a sample of what is going on in nearly every State in the Union. Of course all this will re-act in the end on the States themselves. Michigan, as is known, is ambitious for a large system of interurban roads such as cover Ohio and Indiana, but obviously its course with reference to the steam roads will not be of great assistance to the promoters of the electric roads when they come to New York or Boston for the money with which to carry through such enterprises.

All this comes at a time when the railroads are making very unsatisfactory showings of net earnings. There is one exception to the rule, namely the Southwest, where, because of the phenomenal crops raised last year, roads like the Atchison, the Rock Island, &c., are giving a very good account of themselves. But the situation that confronts the roads in other parts of the country is evident from the statement of net earnings published by us last week for the three months ending March 31. This showed a loss in net for every one of the groups except the Southwestern; leaving this group out, the results for the remaining groups is a gain of $16,766,424 in gross attended by an augmentation of $26,963,781 in expenses, thus producing a loss of $10,197,357 in the net. This increase in expenses followed in very large part from the advances in wages which the roads have been obliged to make, and which hence will remain a continuing feature in subsequent months. At just this stage the possibility of a crop failure, always an important matter, looms up in a rather disquieting way. A crop shortage alone, unattended by the other circumstances enumerated, would possess little potentiality for serious injury, but the two combined furnish occasion for anxiety, if not alarm.

What, then, is the remedy? Some suggest that to escape harm at the hands of the States we must seek refuge in the arms of the Central Government. That suggestion cannot for a moment be entertained. That would increase the danger, not lessen it. What is wanted is for the national authorities to call a halt in their course. If they take off their hands the States will do likewise. It is not out of point to note that the Michigan State Senate, which is so busy considering projects antagonistic to the railroads, on Monday night passed a resolution asking President Roosevelt to stand for re-election. It is the policy pursued at Washington that is responsible for what is going on in the States. When the one ceases the other will cease. The sensitive state of the public mind was well illustrated on Wednesday when a rumor that Mr. Roosevelt's Decoration Day speech would be conservative produced an immediate improvement in values. Of course the old argument is still employed that business remains prosperous. But is it not idle to count on its further continuance and further expansion in face of what is happening? Our mills and factories are being kept busy on past orders, but new orders to anywhere near the same amount in the future are out of the question. It is no longer possible for the carriers to borrow money except at almost prohibitory rates, while we are getting pretty plain hints from Washington that they are not to be allowed to continue making improvements out of earnings. Then where is the money to come from? If our legislators and politicians are not blind to their own interests, they will abandon their present policy before it is too late, and thus avert a serious calamity. In this sense Mr. Roosevelt's Indianapolis speech may serve a good purpose, for there is in it a distinct recognition that the policy of repression may be carried too far.

THE PROPOSED LIFE INSURANCE BY SAVINGS BANKS.

A bill to permit savings banks to undertake Industrial Life insurance has been favorably considered by the insurance committee of the Massachusetts Legislature and will very probably go through. There are objections to it, but before stating those it may be of service to many readers to explain distinctly the character of the form of life insurance which bears the title of "Industrial."

The old form, now known in insurance parlance as "ordinary" for the sake of distinguishing it, is familiar. It is rarely written for less than $1,000, and the premiums are payable annually, semi-annually, or quarterly, the annual being always urged and always preferable, because the more frequent payments come

a little higher and obviously involve greater likelihood of wastage by lapse. This leaves out the great mass of wage-earners who can neither take large amounts nor keep their small savings until the needed premium is made up; for them, therefore, the usual form of life insurance does not exist. The industrial form adapts itself to them by using a house-to-house weekly collection, the unit of premium being the weekly nickel or a few multiples thereof, the amount of insurance being expressed as what can be purchased by the nickel or its multiples at the several ages. This amount is not large, and another feature of the plan is that it reaches almost from the cradle to advanced ages and takes in entire families. There is an intermediate, with monthly collections and writing for somewhat larger amounts, the design being to carry the insured along from childhood to the larger policies under ordinary which adults may be able to assume, thus training them into the habit of insurance. The industrial plan adapts life insurance to the circumstances and conditions of a large class.

This business has developed to an almost incredible extent, one company which also writes largely in ordinary having now outstanding 8½ millions of policies, averaging only $149 each. It has not been hinted that these companies are not strong, active, successful, and able to handle all the business of this kind which is likely to arise. Unthinking sentimentalists have, however, again and again raised the cry, in Great Britain as well as here, that insurance of young children is child-murder, and attempts have been made to have it prohibited by law. Such charges are preposterous on their face and not a single case of murder for the sake of insurance has been made out; on the contrary, every inquiry on the subject has produced proofs that insurance tends directly to conserve young children.

The present charge, which has been reiterated during the troubles of the past 18 months, is summed up in what the Springfield "Republican" calls "the scandalous wastes and exactions of present methods." If present methods contain needless and preventible wastes and exactions, they ought to be deemed "scandalous" and ought to be prevented. The sole plea which is or can be put forward for the attempt to graft industrial life insurance upon the savings banks is that such wastes and exactions exist, and that the bank method can avoid them; if either of these propositions is not correct, the bank scheme has clearly nothing but imagination to rest upon.

The industrial plan is costly—we mean relatively costly in that it furnishes less insurance per dollar paid than the ordinary form does. Entering a five-cent premium costs as much as one for $5,000; it costs more, for the small sum involves more clerical labor than the large one does, and it must be repeated 52 times in the year. To this must be added the cost of the weekly call, and the calls must often be more than one in case of a single payment, in order to save the policy from lapse. The increased cost for this reason is obvious enough to anybody who stops to think, but there is another reason which is liable to be overlooked: the mortality rate is higher under industrial. Ages which are not the best, insurance-wise, are covered, and the medical sifting is much less strict than under the ordinary form, the risks on one life being smaller and the entire aim different; the actual mortality bears a much higher ratio to the "expected" or tabular than under the ordinary plan. The fact of relatively higher cost is therefore unalterable as well as undesirable.

To decry and denounce the plan because of this higher cost is useless and not helpful to those whom a misplaced philanthropy seeks to serve. They must pay a higher price for insurance as they do for their coal, or go without; this is under the same law which applies to all purchases, and though we may deplore it, no statute can change it. So much for the alleged "exactions;" as for the "wastes," the lapse rate is admittedly large. Remember that the question of continuing, involving an actual self-denial for the sake of a good that may seem doubtful, may come up every week, although many pay for several weeks in advance; that the class of persons is one somewhat uncertain of employment, migratory in habits, and naturally ready to catch up doubts and weary of self-denial—remember this, and a large lapse rate ceases to be surprising.

If there were any real foundation for the "Republican's" charge of "the grinding of the faces of the poor that now goes on through industrial insurance," and especially if the persistent notion that companies derive profits from lapse were sound, we should find lapsing promoted. On the contrary, not only is lapsing a direct personal loss to the agents, but the companies make constant and earnest effort to prevent it; there is nothing to which their labors go so strenuously. Moreover, if the poor do have their faces ground they do not know it, notwithstanding the teaching of the newspapers which they mostly read that accumulated wealth is the enemy of the poor. Inasmuch as the whole country seems to be affected by an unreasoning hostility to wealth in whatever form it appears, we should surely expect the wage-earning class to feel jealousy of corporations which dwell in palaces; yet the striking fact is that industrial insurance persists much better than ordinary does, even now while life insurance generally, for perfectly plain reasons, is not making progress. Take New Jersey and Connecticut as the test. The two New Jersey Industrials wrote, in New Jersey, 172,687 policies for $22,649,080 in 1906, against 179,514 for $22,790,505 in 1905; the business also held well, these companies gaining nearly 8½ millions on business in force at home. In Connecticut all companies wrote, in ordinary, in 1906, 92.88% of the number of policies and 93.83% of the total amount written in 1905; in industrial, they wrote 93.97% in number and 97.44% in amount of what they did in 1905. So much for the evidence that the class who buy industrial have not discovered what oppressions they are under. It should further be said that very large concessions, never stipulated for, have been voluntarily made by companies in recent years, and that a large proportion of policies lapsed are afterwards renewed.

We have gone over the above at some length, although very cursorily, because the wrongs committed by industrial companies are the entire case of the advocates of the bank proposition. The cost of life insurance is chiefly the mortality cost, that is, the cost of insuring, and is not within the power of any scheme or organization to lessen; the clerical part of the expense in industrial also cannot be lessened, but the great reliance of the bank plan is that the people will insure voluntarily and the agent can be omitted. The

best reason for thinking this cannot be done is the fact that it has not been done. Life insurance has been built up by agents. Any policyholder can put the test question to himself whether he would now be one had not an agent sought him and moved him. In Great Britain, life insurance in such popular sense as we have it does not exist. For example, the "Old Equitable," with all the advantage of very heavy "bonuses" to the few members (who are attracted to it by the great returns it makes on their money) is 143 years old and last year wrote 262 policies. Like other British companies with hardly any exception unless among those of recent founding, this one has never used agents, at least openly and avowedly. There is another illustration nearer at hand. In 1893 the Dominion Parliament established a special life insurance scheme for employees of the civil service, in lieu of a superannuation system which had not worked satisfactorily. The policies were for $1,000 and $2,000 only, and did not include endowment; on the other hand, much liberty was granted in the forms of premium payment, the interest assumed in making the rates was the high one of 6%, and operating expenses were to be borne by the Government, so that the rates of premium were unusually low. The conditions were thus especially favorable, and insurance could not conceivably be made more attractive. The civil service list now includes about 6,000 names, and when allowance is made for changes since 1893 it may be assumed that at least 10,000 persons have been eligible for this kindly-meant provision, persons of at least fair intelligence and having inducements to thrift. But no provision was made for agents and there have been none. The result is that after just 14 years of this scheme its best business year was 1906, when 57 policies were written; barely 205 policies in all have been written, and at the end of last June there were in force 166 policies on 159 lives.

Still, there is a notion, especially active of expression in Boston, that agents are unnecessary, and Judge Lowell has published an essay in the "Atlantic" in which he declares that to do away with them is the one great step in reform. The bill now in the Legislature forbids employing solicitors or house-to-house collectors, and the theory is that wage-earners will do the entire work themselves, except that depositories for receiving applications and premiums are to be permitted. Here we may remember that savings banks themselves have to be placed within fairly convenient access of depositors, and the banking superintendent of this State recently said to the Savings Bank Association that if our bank system has a weak spot it is "in its partial failure on the ground of accessibility;" he, therefore, seemed inclined to think this difficulty a strong argument for postal savings banks.

The proposition is to graft a separate department on the banks. Such separation would be necessary, since the regular clerical force would have neither time nor ability for the new work. Indeed, one of the serious errors of the proponents of it—an error shared by nearly all the persons who have rushed into print as critics and instructors on the subject since the agitation about it began—is that life insurance is a sort of simple business which can be done offhand by anybody without special gifts and training. If this attempt is made, that will be found otherwise.

Practical difficulties in the details we need not stop to consider; suffice it that the effect of an insurance attempt upon the banks themselves could hardly be wholesome. Bank officers realize this and do not think it desirable to undertake a specialty for which they are not equipped, and a majority of them in Massachusetts have already expressed disapproval. Since it is permissive and not mandatory, no considerable action will probably be taken under the bill; therefore it can do no particular harm if it goes through. The amiable theorists who do not realize that what they need is a statute to change human nature have already obtained a charter in Massachusetts for a Mutual Direct or over-the-counter company, so that the question whether life insurance will go of itself is in a way to be tested. Certainly nothing short of a trial will satisfy the clamor, and the chartering of this company will meet the excuse that the savings-bank scheme might have succeeded but for the unprogressiveness of bank trustees who feared the trial.

This benevolent sentimentalism does not know its way and is likely to harm rather than help those on whose behalf it is troubling itself; yet the only course to be taken with it is to allow it to proceed. "Very likely (says the 'Republican') the simpler and better method would be to put the State directly into the business under the direction of the existing Insurance Department, and those who favor State insurance will be doubtful and critical of the plan reported." Certainly we do not favor insurance of any kind by the State, yet we feel bound to say that the only logical and natural outcome of the present regulative policy is insuring directly by the State. If this policy cannot not be changed, and if the people, as represented by legislatures which they at least make no attempt to hold back, are not willing to put confidence in any small number of themselves and choose to go on restricting private trustees into mere automatons, then a complete reliance upon the State is the consistent course. Confidence must be placed somewhere. If the people are really ready to imagine that human nature in State officers selected in the usual political method will be superwise and superhonest, then the State ought to be set to undertake the trusteeship to which plain men are no longer equal.

PENNSYLVANIA'S NEW RAILROAD LAWS.

The hostility to railroad interests in Pennsylvania which has found expression the present year in a number of legislative Acts is by many thought to have had its origin a few years ago. Until the day when President Cassatt of the Pennsylvania Railroad issued the decree that no more passes should be issued by the great system of transportation of which he was the head, the State of Pennsylvania remained largely under the domination of the railroads. So long had men in public life enjoyed the privileges of free transportation for themselves and the members of their families that the sudden cutting off of these favors, it is claimed, awakened a spirit of resentment. Soon after the event referred to planks were inserted in the platforms of political parties declaring in favor of all kinds of legislation antagonistic to the railroads. Politicians of different faiths vied with each other in a struggle to frame anti-railroad planks of the most drastic kind, and in the subsequent contest at the polls the Republicans won.

The Governor and members of the Legislature,

having been elected upon an anti-railroad platform, found abundant reasons for proceeding to enact legislation which was directly opposed by the railroad corporations. One of the first laws so enacted is the two-cents-per-mile-passenger-fare-bill Act, which was approved by the Governor on April 5 and becomes effective on Oct. 1. It is a sweeping statute, affecting all companies operating railroads within the State. A penalty of $1,000 is prescribed for charging more than two cents per mile for passenger service, but the minimum charge need not be less than five cents, and permission is extended to the carrier to collect an excess fare of ten cents when a passenger pays a fare upon the train, but the excess fare must be refunded.

As this was one of the bills which was early passed by the recent Legislature, so it is the first one to meet with open opposition by the railroads, the Pennsylvania Railroad having begun an action to enjoin the County of Philadelphia from demanding any penalties for violation of the Act. The bill in equity alleges that a maximum fare of two cents per mile would render passenger business non-compensatory on some of the lines of the complainant; that about 54% of the complainant's passenger business within the State is conducted at rates exceeding two cents per mile, and that an enforcement of the new law would curtail the company's revenue to the extent of one million dollars per annum. Before the legislative committee Vice-President Thayer stated that the loss in revenue would amount to $2,000,000 yearly.

It is understood that the legal department of the Philadelphia & Reading Railway Company is preparing to commence a similar action. The Reading's first step, however, has been to raise suburban passenger fares from 10 to 35%. Commutation fares upon the Reading have been exceedingly low in the zone tributary to Philadelphia. This action will bring the Reading fares about on a par with those already charged by the Pennsylvania system at competing points.

Another new anti-railroad law of much importance is the Dunsmore Act, providing for the creation of a Railroad Commission. The measure stipulates that three competent persons shall be appointed by the Governor, subject to confirmation by the Senate, and that at least one of the three shall be learned in the law. Compensation is fixed at $8,000 per annum. The Commission may appoint an accountant, who shall be thoroughly skilled in railroad accounting; an inspector, who shall be a civil engineer skilled in railroad affairs, and also an inspector who shall be an expert in electrical affairs. The jurisdiction of the Commission extends to railroads, canals, electric railways, underground, elevated or subway passenger companies, bridges and ferries when used in connection with the transportation of freight or passengers upon any such railroad or railway, pipe-line companies engaged in the transportation of oil, sleeping and drawing room car companies, express companies, telegraph and telephone companies, all of which are referred to as "common carriers." The Commission is given full power to inquire into the management of the business of all common carriers, including freight and passenger rates and tariffs, and the equitable distribution of cars, the granting of sidings and regulation of crossings, the location of freight and passenger stations, the adequacy of facilities for the carriage of freight and passengers, the use and compensation for cars owned or controlled by persons other than the carrier, and generally all matters incident to the performance of their public duties and their compliance with the provisions of their charters and the laws of the land.

Authority is given to investigate complaints, and the Commission may institute any inquiry of its own motion. After a full hearing, if the Commission finds that there has been a violation of the law, it shall be its duty "to decide and recommend what will be the just and reasonable rate or rates, charge or charges, to be thereafter observed in such case as the maximum to be charged, and what regulation or practice in respect to transportation is just, fair and reasonable to be thereafter followed."

This is regarded as the "lame" part of the bill. The recommendations will be made to the Secretary of Internal Affairs and the Attorney-General, and if they see fit to enforce the recommendations of the Commission, the legal machinery of the Commonwealth will be brought into play. It was upon the advice of Attorney-General Todd that the power of the Commission was thus limited to a recommendation, for the reason that the State Constitution vests the real power of railroad regulation in the Secretary of Internal Affairs. Statutes have never been enacted to provide for this officer carrying out the powers with which he was invested, and thus far his sole province has been to collect statistics and make recommendations.

Section 9 of the Act is more specific. It provides that if a shipper renders any service or furnishes any instrumentality to the carrier the Commission may determine what is a reasonable charge as the maximum to be paid by the carrier or carriers to the shipper. The purpose of this is clearly to keep a check upon rebates and the use of private cars.

The Commission may make recommendations as to crossings; as to the form and filing of tariffs; it may investigate the causes of accidents, require the filing in its office of copies of annual reports, recommend changes in rates and fares and investigate proposals to increase capital stock or funded debts. The Act will not take effect until the first Monday in January 1908.

Among the bills of minor importance affecting railroads which were passed is one providing that it shall be unlawful to collect a car-service charge exceeding one dollar per day of 24 hours; another making it an offense, punishable by fine and imprisonment, for any officer, employee or agent of any railroad company who has charge of the distribution of cars to have any interest in any operated coal property or in the stock of any mining or manufacturing company along the line of such road. This is the direct result of the revelations made during the investigation conducted by the Inter-State Commerce Commission.

An Act providing for equal service and equal rates without any discrimination was passed. Special permission to sell commutation tickets and excursion tickets is given. Both the corporation and the officers participating in the violation may be fined $1,000. This is one of several bills designed to enforce the requirements of the Constitution which have long been allowed to slumber unheeded. Another measure of this kind is one prohibiting a common carrier from engaging in the business of mining or manufacturing, the penalty being a fine for the corporation and its

officers. A third Act of this kind prohibits the consolidation of parallel and competing lines, with a similar penalty. Under a penalty of $5,000, corporations owning, leasing or operating steam or electric railways must report to the Secretary of Internal Affairs the number of statute miles so operated, naming the termini. The evident purpose of this is to see that passengers obtain the full benefit of the two-cent-per-mile law. Still another bill prohibits a steam railroad from buying or leasing a street passenger railway which may be either parallel or competing to the would-be purchaser. In addition, there is the Employers' Liability bill, which there is some doubt about the Governor signing. Street railway companies are given the right to carry express and light freight, and they are given the right of eminent domain.

Thus in one session of the Pennsylvania Legislature more anti-railroad laws were enacted than were created during a long period of years.

ENGLISH RAILWAY TROUBLES.

Possibly the administrative officials of our railroads will derive some comfort from the fact that the managers of English railroads are also just now obliged to contend with unreasoning and vexatious exactions and demands. The latest numbers of the English railway papers which have come to hand bring this feature prominently to view, and throw an interesting light on the way burdens are piling up on the railways of the United Kingdom and what strenuous efforts are being made to ward off some of the blows which are being unremittingly rained down upon them. In that country, too, the security markets are experiencing serious depression from that cause. We would commend that circumstance to the consideration of those who, seeing that weakness in share properties is not confined to the New York Stock Exchange, discourse learnedly of a world-wide demand upon capital, and would have us believe that the secret of the depression is to be found in that influence. It would be more accurate to say that there is a world-wide loss of confidence, which has in large measure been brought about by local manifestations adverse to railroads and other large undertakings and utter indifference as to whether their welfare is endangered or not.

There is one point of close analogy between the movement in Great Britain and here. Those conducting the agitation delight in showing their contempt for the consequences. If the profits of the road should become so seriously impaired as to involve a reduction in dividends, or if trade depression should ensue, these, we are given to understand, are trifling matters alongside the great advantages to be gained in other ways. The movement simply *must* be carried out, no matter what happens. The railroads are told that this determination is deep-rooted and unalterable, and the managers will only be making matters worse if they oppose it.

In Great Britain just now the thing which is provoking most uneasiness is the demands of certain classes of employees for increased wages. What is known as the Amalgamated Society of Railway Servants held meetings at Hyde Park and at 150 to 200 other centres of Great Britain on May 12 in support of the demands for increased wages and a recognition of the union. According to the newspapers, 20,000 people attended the Hyde Park demonstration and vociferously applauded the speakers and all reference to the demands of the men. It is estimated that if the demands were granted, they would involve a total cost of £7,500,000 ($37,500,000) a year. The "Railway News" of London points out that the whole loss would fall upon the so-called "ordinary" shares of the British railways. These shares in 1906 received only £15,800,000 altogether in dividends, the average rate of the dividends having been 3.27%. A loss of £7,500,000 would mean cutting these dividends in two. Mr. Richard Bell, Member of Parliament and General Secretary of the Amalgamated Society of Railway Servants, who was the principal speaker at the Hyde Park meeting, thought the estimate of £7,500,000 was excessive. He was confident that the cost would not come within £2,000,000 of that figure. If it could be shown that it did, he was prepared to modify the demands to that extent. But it will be observed that even a loss of £5,500,000 would mean cutting down the dividends on the ordinary shares fully one-third.

What merits chief notice is the uncompromising and unconcealed stand taken by Mr. Bell in favor of carrying out the policy entered upon, no matter what happens or who gets hurt. In this regard he spoke with a degree of frankness and an absence of restraint that was positively startling. Probably the following Tuesday morning, he said, his readers would find that railway stock was reported as extremely weak, having gone down owing to the speech made by him. It would not be his fault if it had gone down twenty points. The responsibility rested absolutely with the management of the railway companies, and if, as a result of the present movement, any injury resulted to the trade and commerce of the country and to the shareholders and the public generally, the responsibility would not rest with the Amalgamated Society of Railway Servants. The railway companies might take it from him that recognition of the union officials must be granted, and the quicker the point was conceded the better it would be for the companies, the railway men, the commerce and the trade of the country.

The "Railway Times" of London takes a rather gloomy view of the outlook for British railways. In a leading article entitled "The Discouragement of Railway Enterprise," in its issue of May 18 it points out that the depression in "Home Rails" still overshadows all other developments in the market. Notwithstanding increases in receipts, prices, it says, have sagged below the anticipations of the most confirmed pessimist, and there is as yet little sign of substantial recovery. For months the impression has prevailed that the railway companies were to be compelled to grant all kinds of concessions not only to employees, *but to the public*, and certain proceedings in Parliament, it urges, have lent color to such anticipations. This, added to the increasing price of coal and the growth in working expenses which has been characteristic of recent accounts, has left the railway market, we are told, in a condition of such supersensitiveness that the slightest occasion for alarm receives exaggerated importance.

The writer in the "Railway Times" argues that the situation would not be without its compensation if it might be hoped that it would convey a sound economic

lesson, which appears at the present juncture to be so much needed. The impression prevails among the less intelligent part of the community that whatever exactions are made upon railway companies are so much clear gain to the working classes and the public generally. Agitators seek constantly to instill this erroneous view into the minds of their followers, and with only too great success. But these latter must be deluded indeed if they do not learn from recent events that capitalists of all degrees are not likely to invest their money in undertakings which are subject to the attacks of agitators who are not able to estimate with any approach to accuracy the effect of their own demands. The result is that requirements for improvements in British railways go unsatisfied year after year. Our contemporary declares that there is not a railway board in the United Kingdom in which the injunction to avoid capital expenditure is not reported almost ad nauseam. Continuing, it says: "Many officers who with existing facilities are hard-pressed to cope with traffic requirements could tell British workmen of important undertakings that are greatly needed but the carrying out of which is prevented by the disinclination of capitalists to invest their money in enterprises in which the conditions are likely to undergo arbitrary changes at the instance of political agitators." How like the situation in the United States all this is.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—Three lots of stock of the National Bank of Commerce, amounting to 23 shares, weres old at the Stock Exchange this week at 167 to 170. These were the only public transactions in bank stocks, no sales having been made at auction. The auction sales of trust company stocks aggregate 74 shares.

x Sold at the Stock Exchange.

—By a vote of 92 to 11 the New York State Assembly on Tuesday passed the Hill bill, under which savings banks, trust companies and insurance companies holding any bonds of the state bearing interest at not over 3% are to receive a credit of 1% per annum on the par value of their holdings of such bonds, this credit to apply upon or in lieu of certain of their taxes. As noted last week, this bill has been framed for the purpose of inducing these institutions to invest in the 3% Canal bonds of the State. It was passed by the Senate on May 15 and was published in full in this department last Saturday.

—On June 8 a law providing for the creation and maintenance of a reserve fund by trust companies and other State banking institutions in Pennsylvania will go into effect. The bill was passed at the recent session of the Legislature and was approved by the Governor on May 8. It is one of the proposed banking measures indorsed last December by the officers and Council of Administration of the Pennsylvania Bankers' Association. It is in many respects similar to the law governing the reserves of trust companies in New York State, which provides for the maintenance of a reserve fund equal to 15% of deposits by trust companies in cities with a population of over 800,000 and 10% elsewhere. Under the Pennsylvania law it is required that "all banks, banking companies, savings banks, savings institutions and companies authorized to execute trusts of any description and to receive deposits" shall be required to keep a reserve of 15% against deposits subject to check or payable on demand and a reserve of 7½% against time deposits. One-third of the 15% reserve, it is stipulated, must consist of cash; one-third may consist of bonds of either the United States, the Commonwealth of Pennsylvania or any city, county or borough of that State, and bonds which now are or hereafter may be authorized by law as legal investments for savings banks or savings institutions in Pennsylvania, computed at their par value; and one-third may consist of money on deposit in any bank or trust company in Pennsylvania, or in any bank or trust company in any other State located in any city designated as a reserve city which shall have been approved by the Commissioner of Banking. The Philadelphia Clearing House, it may be recalled, decided several months ago to accord Clearing House privileges to trust companies maintaining a reserve of 15%, of which 5% must be in cash and 10% in the shape of balances in national banks. Only one institution, it is understood, has availed of the privileges under the above provisions. We give herewith in full the text of the bill passed by the Pennsylvania Legislature.

AN ACT to provide for the creation and maintenance of a reserve fund in all banks, banking companies, savings banks, savings institutions, companies authorized to execute trusts of any description, and to receive deposits of money, which are now or which may hereafter be incorporated under the laws of this Commonwealth, and in all trust companies or other companies receiving deposits of money which may have been heretofore or which may hereafter be incorporated under Section 29 of the Act approved April 29 1874, entitled "An Act for the creation and regulation of corporations," and the supplements thereto.

Section 1. Be it enacted, &c., that all banks, banking companies, savings banks, savings institutions, companies authorized to execute trusts of any description and to receive deposits of money, which are now or which may hereafter be incorporated under the laws of this Commonwealth, and all trust companies or other companies receiving deposits of money which may have been heretofore or which may hereafter be incorporated under Section 29 of the Act approved April 29 1874, entitled, "An Act for the creation and regulation of corporations," and the supplements thereto, are hereby required to create and maintain a reserve fund, which reserve fund in amount and manner shall be as follows:

Section 2. Every such corporation receiving deposits of money subject to check or payable on demand shall at all times have on hand a reserve fund of at least 15% of the aggregate of all its immediate demand liabilities. The whole of such reserve fund may, and at least one-third thereof must, consist of either lawful money of the United States, gold certificates, silver certificates, notes or bills issued by any lawfully organized National Banking Association, or clearing-house certificates representing specie or lawful money specially deposited for the purpose of any clearing-house association, held and owned by any such corporation as a member of a clearing-house association. One-third, or any part thereof, may consist of bonds of the United States, bonds of the Commonwealth of Pennsylvania and bonds issued in compliance with law by any city, county or borough of the Commonwealth of Pennsylvania, and bonds which now are or hereafter may be authorized by law as legal investments for savings banks or savings institutions in Pennsylvania, computed at their par value, and which bonds are the absolute property of such corporation. The balance of said reserve fund, over and above the part consisting of lawful money of the United States, gold certificates, silver certificates, notes and bills issued by any lawfully organized National Banking Association or clearing-house certificates representing specie or lawful money specially deposited for the purpose of any clearing-house association, held and owned by any such corporation as a member of a clearing-house association, and the part thereof consisting of bonds, not exceeding the limit above provided, may consist of moneys on deposit, subject to call, in any bank or trust company in the State of Pennsylvania which shall have been approved by the Commissioner of Banking, or in any bank or trust company in any other State located in any city designated as a reserve city by or by virtue of the authority of the Revised Statutes of the United States and the amendments thereto, which shall have been approved by the Commissioner of Banking.

Section 3. Every such corporation receiving deposits of money payable at some future time shall at all times have on hand a reserve fund equal to at least 7½% of all its time deposits. Such reserve fund may consist in part of lawful money of the United States, gold certificates, silver certificates, notes or bills issued by any lawfully organized National Banking Association, or of clearing-house certificates representing specie or lawful money specially deposited for the purpose of any clearing-house association held and owned by any such corporation as a member of a clearing-house association, and in part of bonds of the United States, bonds of the Commonwealth of Pennsylvania, bonds issued in compliance with law by any city, county or borough of the Commonwealth of Pennsylvania, or of bonds which are now or hereafter may be authorized by law as legal investments for savings banks or savings institutions of Pennsylvania, computed at their par value, and which bonds are the absolute property of such corporation; or it may consist of moneys on deposit, subject to call in any bank or trust company in the State of Pennsylvania which shall have been approved by the Commissioner of Banking, or in any bank or trust company in any other State located in any city designated as a reserve city by or by virtue of the authority of the Revised Statutes of the United States and the amendments thereto, which shall have been approved by the Commissioner of Banking; provided, however, that not more than one-third of said reserve fund shall consist of bonds as aforesaid.

Section 4. "Immediate demand liabilities" shall include all deposits payable on demand, and all items in the nature of claims payable on demand; and "time deposits" shall include all other deposits not payable by the contract of deposit on demand.

Section 5. If the reserve fund of any such corporation shall be less than the amount required by this Act, such corporation shall not increase its liability or make purchases of any character otherwise than by dealing in bills of exchange, payable at sight; nor shall it make any dividend of profits until the full amount of the reserve fund required herein has been restored. The Commissioner of Banking shall notify any such corporation whose reserve fund shall be below the amount herein required to make good such reserve fund, and if such corporation shall fail, for thirty days after the receipt of such notification, to make good such reserve fund, such corporation may be proceeded against by the said Commissioner of Banking for this cause in the same manner as is provided in Section 9 of the Act of 11th February 1895, entitled "An Act creating a banking department, &c."

Section 6. This Act shall take effect immediately, except that such reserve fund above required shall be created as follows: Three fifths thereof within thirty days after this Act shall have become a law, an additional fifth thereof on the first day of September 1907, and the final fifth thereof on the first day of January 1908; and thereafter the entire amount of such reserve fund must be, at all times, maintained and kept on hand as hereinbefore required.

Approved the 8th day of May, A. D. 1907.

—The negotiable-instruments law in force in so many other States has been enacted by the Illinois Legislature and will go into operation on July 1.

—This year's annual convention of the New York State Bankers' Association at the Hotel Frontenac, Thousand Islands, should be a very successful and entertaining meeting, judged by the efforts now being made by the Committee of Arrangements, of which Charles Elliot Warren is Chairman. The speakers invited to address this gathering are: Governor Hughes of New York, Secretary of the Treasury Cortelyou, ex-Senator Spooner of Wisconsin, Secretary of State Elihu Root, William D. Murphy of New York, Colonel John R. Van Wormer of New York, Dr. Alderman, President of the University of Virginia, President Finley of the Southern Railroad Co, and Congressman Fowler of New Jersey. After the morning session, Thursday, June

27th, a trip will be made by the assembled bankers on a specially chartered steamer through the most beautiful parts of the Thousand Islands, to be followed in the evening by the annual banquet. Friday, June 29 there will be a number of side trips to the natural attractions of this region, and in the evening illuminations, pyrotechnics, and dancing at the hotel. On Saturday evening the delegates will enjoy a searchlight excursion through the Islands. Reduced hotel rates and railroad fare will be extended to all visiting delegates and their families.

—On Monday of this week Frank Tilford was unanimously elected President of the Lincoln Trust Company of this city, succeeding Henry R. Wilson, who retires for a well-earned rest, as well as for the purpose of devoting closer attention to his personal affairs. Mr. Tilford, who has hitherto been Vice-President and Chairman of the Executive Committee of the Lincoln Trust, was the organizer of the company. The new head of the institution was but twenty-two years of age when he became a director in the old Sixth National Bank, being then the youngest bank director in the city; he was also a member of the board of the North River Savings Bank. In 1889 Mr. Tilford, with George G. Haven, organized the present New Amsterdam National Bank whose presidency he resigned in 1896, parting with his interests later and organizing the Fifth Avenue Trust Company. In 1902, recognizing the demand for new banking facilities in the rapidly developing section between 23d and 34th streets, he organized the Lincoln Trust Company, disassociating himself from all other banking interests.

During the past few years Mr. Tilford has been gradually severing his connection as director in various large corporations in order to devote more attention to his two prior interests, the Lincoln Trust Company and the grocery house of Park & Tilford, of which he is also President. The progressive policy of the management of the trust company is shown in the growth of the institution, whose deposits are now in excess of $24,000,000. Besides a capital of $1,000,000, the company has an ample surplus. The officers, in addition to President Tilford are: Owen Ward, Second Vice-President; William Darrow Jr., Third Vice-President; Irving Gaylord, Fourth Vice-President, Robert C. Lewis, Treasurer; Frederick Phillips, Secretary; Charles B. Collins, Cashier; Edward C. Wilson, Assistant Treasurer; Joseph Z. Bray, Assistant Secretary and George J. Bayles, Trust Officer.

—The excellent address on "The Evolution of the Clearing House," delivered on April 11 by Edwin S. Schenck, President of the Citizens' Central National Bank of this city, before the New York Chapter of the American Institute of Bank Clerks, has been printed in pamphlet form for distribution.

—As announced in these columns April 13, the Farmers' Loan & Trust Company of this city recently entered the foreign exchange field, organizing a special department to issue *its own* travelers' letters of credit, foreign checks and bills of exchange, cable transfers, and make collections in all countries. The Fifth Avenue branch of the company, located at 475 Fifth Avenue, near 41st Street, has now completed permanent arrangements to supply travelers and its patrons with the letters of credit of *other bankers*, if preferred to those of its own issue. As a further convenience, the company will supply express checks and foreign money of all denominations for travelers' use at either the uptown branch or the downtown banking offices at 16-22 William Street.

—The United States Mortgage & Trust Company of this city, main office 55 Cedar Street, announces that its 125th Street branch, at 8th Avenue, will open to-day, June 1, for the transaction of a general banking and trust business. H. L. Servoss is Manager of the branch and Merle Bell is Assistant Manager. The institution, which has a capital and surplus of $6,000,000 and total assets of $48,000,000, has another branch at 73rd Street and Broadway.

—The Carnegie Trust Company, of this city, which decided several months ago to increase its capital from $1,000,000 to $1,500,000, will have $400,000 of its new capital paid in to-day.

—The Washington Trust Company of this city, David M. Morrison, President, announces its removal to new banking offices in the Postal Telegraph Building, Broadway, corner Murray Street. This well-known trust company commenced business in 1889 and has been located during the eighteen years of its existence in the old Stewart Building, 280 Broadway. The institution has been fortunate in having an official staff and directing board of trustees in whose personnel there has been very little change. Throughout its entire history the only changes in the board were occasioned by nine deaths, while David M. Morrison, the President, has has had Francis H. Page, Second Vice-President, and M. S. Lott, Secretary, as associates since the company was organized. Mr. Page was formerly connected with the United States Trust Company and was elected to his present office after first serving as Secretary of the Washington Trust. H. F. Price was appointed Assistant Secretary when Mr. Lott succeeded Mr. Page as Secretary.

The new banking offices on the first floor of the Postal Telegraph Building are finished in bronze and Italian marble; the decorations are exceptional for their simple beauty and taste. The main room is easily accessible by a large staircase from the street entrance and elevators. On the Broadway side there is a directors' meeting room and a customers' room with special accommodations. In selecting a new home the trustees considered the Postal Telegraph Building a central location down-town convenient to the City Hall Subway Station, Brooklyn Bridge, all the city's elevated systems and the ferries connecting the railroads.

—The directors of the Commercial Trust Company of this city have added to their board H. M. Swetland, and Otis H. Cutler, President of the American Brake Shoe & Foundry Co.

—The Ironbound Trust Company of Newark, N. J., heretofore referred to, is to begin business on Monday next, the 3d inst., at 11 Ferry Street. The company starts with a capital of $100,000, surplus of $50,000, and the following officers: George Forman, President; Charles O. Lyon and J. H. Bacheller, Vice-Presidents, and Rufus Keisler Jr., Secretary and Treasurer.

—The stockholders of the National Exchange Bank of Providence, R. I., at the special meeting on May 20, approved the proposition to change the par value of the stock from $50 to $100 per share. The matter of increasing the capital, which amounts to $500,000, did not come up.

—Grier Hersh has tendered his resignation as President of the Maryland Trust Company of Baltimore. Action in the matter is expected to be taken by the directors at a meeting next month. Mr. Hersh was chosen President at the time of the reorganization of the company in December 1905.

—Thomas H. Fitchett has been elected Assistant Secretary of the Mercantile Trust & Deposit Company of Baltimore, Md., to succeed Charles E. McLane, who resigned on account of ill health. H. F. Stevenson has been chosen to fill the newly created post of Assistant to the President.

—A meeting of the stockholders of the Commercial & Farmers' National Bank of Baltimore will be held on June 27 to vote on a proposition to increase the capital from $500,000 to $700,000. The new stock is to be offered to present shareholders at $120 per share of $100. In commenting on the new capital to be issued, the Baltimore "Sun" states that the institution is a debtor of upward of $600,000, said to be largely the result of re-discounted notes for which former officers of the bank assumed an obligation. It is to reduce that indebtedness that the additional capital is suggested. Through the enlarged capital the bank will also be able to extend its loan limit.

—The new building erected by the Colonial Trust Company of Baltimore, on Saratoga Street, was opened to the public on the 20th ult. The structure is a low one, designed solely for the company's own use. Its exterior is of white Dorset Vermont marble, which extends along the entire height of the building, above the granite base of two feet. A feature of the new building is the vault, the doors of which weigh seventeen tons.

—According to last week's published statements in response to the calls of the United States Comptroller of the Currency and the Illinois State Auditor, the Chicago banks and trust companies showed the largest deposits in their history, viz., an aggregate of over $707,000,000. The State banks show an even greater gain in deposits between the two statements of March 22 and May 20 than the national banks as given last week, the increase of the State institutions for the two months being $23,000,000. Fifteen of these banks can boast of high records on May 20, as shown in the following table:

Chicago Banks—	Deposit gain 2 mos.	High Record, May 20.
Illinois Trust & Savings Bank	$5,150,000	$96,392,622
First Trust & Savings Bank	4,000,000	37,849,480
American Trust & Savings Bank	3,500,000	----------
State Bank of Chicago	2,700,000	18,011,124
Merchants' Loan & Trust Co	2,450,000	----------
Central Trust Co. of Illinois	2,220,000	12,776,706
Western Trust & Savings Bank	2,100,000	----------
Colonial Trust & Savings Bank	660,000	2,888,070
Hibernian Banking Association	500,000	21,071,713
Union Trust Company	400,000	----------
Prairie State Bank	200,000	6,437,524
Pullman Trust & Savings Bank	--------	3,458,353
Chicago Savings Bank & Trust Co	--------	2,707,776
Kaspar State Bank	--------	2,404,632
Drovers' Trust & Savings Bank	--------	2,111,780
Mutual Bank	--------	1,970,493
Stock Yards Savings Bank	--------	1,967,583
Drexel State Bank	--------	1,444,534
South Chicago Savings Bank	--------	1,419,144

—The enlarged capital of the Merchants' & Manufacturers' Bank of Milwaukee, amounting to $250,000, became operative on May 15. The additional stock, $150,000, was authorized by the shareholders last December. It was offered to the stockholders and outside interests at $115 per share (par $100) and the premium on the same, together with the premium paid in at the time of organization, has been placed to surplus account, making that fund $25,000. The bank began business on July 23 1906. L. M. Alexander is President and M. A. Graettinger Cashier.

—The new Metropolitan State Bank of Minneapolis, organized within the past few months, commenced business on the 20th inst. The bank has a capital of $100,000 and surplus of $10,000. The officers are George C. Merrill, President; M. R. Waters, Vice-President; V. H. Van Slyke, Cashier, and Charles F. Wyant, Assistant Cashier.

—On May 11 the directors of the City Savings Bank of Omaha, Neb., authorized an issue of $500,000 stock, of which $100,000 was to be issued at once. The bank had a paid-in capital of $100,000. Part of the $100,000 increase represents the declaration of a 40% stock dividend, the surplus and profits being used for this purpose. The balance of the issue, $60,000, has been placed upon the market at par. At present the institution is not forming a surplus fund, but expects to do so in the near future.

—The annual convention of the Oklahoma Indian Territory Bankers' Association was held at Chickasha, I. T., on the 24th inst., at which a resolution was adopted approving the constitution proposed for the new State of Oklahoma, to be formed through the union of Indian and Oklahoma territories.

—The Kansas Bankers' Association, which met in annual session at Topeka on May 20, 21 and 22, has adopted a resolution favoring Federal and State supervision of corporation stock issues, as follows:

Resolved, that we favor legislation, both Federal and State, as will provide strict supervision of the issue of stocks and securities of public service corporations, similar to that relating to banks, to the end that investors therein may have protection from excessive issues and unjust manipulation thereof and the public from the imposition of unjust burdens; and we further favor such legislation as will require all corporations engaged in inter-State business to secure a charter from the Federal Government to the end that proper regulation and control may be exercised by Federal authority over them in the interest of the public welfare.

Among the topics discussed at the meeting were: "Glimpses of the United States Treasury," by U. S. Treasurer Charles H. Treat; "A Model Bank from the Viewpoint of the Commissioner," by State Bank Commissioner John Q. Royce; "Acts of the Legislature of 1907 of Interest to Banks," by J. C. Nicholson of Newton; "Plutocratic Kansas," by State Governor E. W. Hoch; "Kansas—Her Constitution and Her Laws," by Justice Silas Porter of the State Supreme Court, &c. J. W. Berryman, President of the Stock Growers' National Bank of Ashland, is the newly-elected President of the association.

—Under the title of "Banking in North Carolina, Past and Present," an address was delivered by H. C. Brown, Chief Clerk of the North Carolina Corporation Commission, before the annual convention of the North Carolina Bankers' Association, held at Durham on May 22, 23 and 24. In the course of his remarks on the history and development of State banking, Mr. Brown referred to the credit bank notes as provided for in the currency reform plan recommended by the Currency Commission of the American Bankers' Association and the New York Chamber of Commerce Currency Committee. He criticized this plan, saying that it "rejects entirely the many suggestions in the past for a currency plan contemplating the issue of notes based upon bank assets other than those of Government bonds. There is," he added, "a moderate element only of elasticity in the plan. Banks having large amounts invested in Government bonds, and the Government, too, by reason of the low rate of interest it has to pay, are adverse to any system other than that based on United States bonds. However, you will find plenty of good conservative men in North Carolina who will say that a bank currency against general assets and under proper State regulation is sound in theory and successful in practice." He then urged the repeal of the tax of 10% on the circulating notes of State banks.

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending May 25. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks 00s omitted.	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Reserve
	$	$	$	$	$	$	%

a Including for Boston and Philadelphia the item "due to other banks" and also Government deposits. For Boston these Government deposits amounted on May 25 to $4,568,000; on May 18 to $4,577,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending May 25, also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For week.	1907.	1906.	1905.	1904.
Dry Goods.....	$2,709,525	$2,576,706	$2,414,288	$1,806,823
General Merchandise.....	10,054,654	11,457,166	10,631,092	8,100,613
Total	$12,764,179	$14,033,872	$13,045,380	$9,907,436
Since January 1.				
Dry Goods.....	$80,266,207	$68,990,665	$59,432,990	$50,652,280
General Merchandise.....	289,647,174	243,884,703	242,758,978	202,144,142
Total 21 weeks.....	$369,913,381	$312,875,368	$302,191,968	$252,796,422

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending May 25 and from Jan. 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1907.	1906.	1905.	1904.
For the week.....	$9,758,632	$12,187,243	$11,693,500	$6,856,111
Previously reported.....	249,318,942	249,124,221	212,159,782	194,759,611
Total 21 weeks.....	$259,077,574	$261,311,464	$223,853,282	$201,615,722

The following table shows the exports and imports of specie at the port of New York for the week ending May 25 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold,	Exports.		Imports.	
	Week.	Since Jan. 1	Week.	Since Jan. 1
Great Britain	------	$3,600	------	$2,540,353
France	------	--------	------	331,087
Germany	------	--------	------	1,155,297
West Indies.....	$4,000	396,385	$6,703	127,097
Mexico	------	7,000	2,902	60,288
South America.....	250	1,460,711	9,913	1,093,127
All other countries.....	------	--------	------	162,571
Total 1907.....	$4,250	$1,867,696	$19,518	$5,469,820
Total 1906.....	352,600	5,293,122	2,318,570	43,818,778
Total 1905.....	76,000	32,761,546	93,220	5,215,850
Silver.				
Great Britain	$737,308	$15,404,158	------	$2,259
France	------	701,000	------	--------
Germany	------	6,555	------	158
West Indies.....	17,828	85,256	30	46,037
Mexico	------	------	6,622	303,656
South America.....	------	600	68	361,483
All other countries.....	------	4,786	------	6,962
Total 1907.....	$755,136	$16,202,355	$6,720	$720,555
Total 1906.....	1,154,436	23,003,820	50,141	986,323
Total 1905.....	776,099	12,938,888	55,351	1,392,006

Of the above imports for the week in 1907, $5,316 were American gold coin and $30 American silver coin. Of the exports during the same time $4,250 were American gold coin and $16,000 were American silver coin.

Wall Street, Friday Night, May 31 1907.

The Money Market and Financial Situation.—The liquidating movement in securities noted last week continued practically without interruption, and regardless of prices, until Wednesday. Following this, the market has presented a holiday appearance. On Wednesday traders on the short side, foreseeing the possibilities of four days during more than half of which the Stock Exchange would be closed, were active in covering their contracts, and purchases of this character, in addition to other buying, were sufficient to cause a substantial recovery from the previous low prices. Similar conditions have prevailed to-day, and perhaps there is a little more hopeful feeling. However that may be, the volume of business is relatively small and it is quite possible that the recovery noted is a perfectly natural reaction from the low level to which prices had fallen. Moreover, there is abundant evidence that the market continues to be, as for some time past, largely a "traders' market."

Crop news has ceased, for the moment at least, to have an unfavorable influence, and the engagement of $3,310,000 gold for export, the first shipment made since the final payment on account of the Panama Canal purchase, just two years ago, has attracted much less attention than such a movement sometimes does.

There is no noteworthy change in money market conditions. The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1¼ to 2½%. To-day's rates on call were 1¾@2½%. Prime commercial paper quoted at 5@5½% for endorsements and 5@5½% for best single names.

The Bank of England weekly statement on Thursday showed an increase in bullion of £95,383, and the percentage of reserve to liabilities was 46.82, against 46.83 last week.

The discount rate remains at 4% as fixed April 25. The Bank of France shows an increase of 16,125,000 francs in gold and 3,675,000 francs in silver.

NEW YORK CITY CLEARING-HOUSE BANKS.

	1907. May 25.	Differences from previous week.		1906. May 26.	1905. May 27.
	$		$	$	$
Capital	129,100,000		----------	117,472,700	115,972,700
Surplus	160,414,500		----------	149,236,400	137,656,500
Loans and discounts	1,126,389,500	Inc.	1,580,800	1,049,390 800	1,111,003,400
Circulation	50,659,600	Inc.	219,200	49,834,900	45,835,700
Net deposits	a1,112,640,500	Inc.	6,539,600	1,032,731,800	1,155,120,200
Specie	221,189,600	Inc.	6,129,400	180,981,000	214,622,800
Legal tenders	72,659,400	Dec.	278,300	83,896,100	85,625,300
Reserve held	293,849,000	Inc.	5,851,100	264,877,100	300,248,100
25% of deposits	278,160,125	Inc.	1,634,900	258,182,950	288,782,300
Surplus reserve	15,688,875	Inc.	4,216,200	6,694,150	11,465,800

a $31,668,900 United States deposits included, against $31,657,000 last week and $18,418,200 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be $23,606,100 on May 25 and $19,386,925 on May 18.

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The market was generally strong this week, influenced by a demand for remittance, by only a moderate supply of bankers' bills and by some speculative manipulation. Gold exports to Paris, $3,310,434.

To-day's (Friday's) nominal rates for sterling exchange were 4 84½ for sixty day and 4 87½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8370@4 8380 for long, 4 8675@4 8685 for short and 4 8725@4 8735 for cables. Commercial on banks 4 8335@4 8345 and documents for payment 4 82⅝@4 83¾. Cotton for payment 4 82⅝@4 82¾, cotton for acceptance 4 8335@4 8345 and grain for payment 4 83⅝@4 83¾.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 19¾@5 18¾*a* for long and 5 16¼*d*@5 16¼ for short. Germany bankers' marks were 94 9-16@94⅝ for long and 95 3-16*d*@95 3-16 for short.

Paris exchange on London to-day 25f. 13½c.; week's range, 25f. 13½c. high and 25f. 12½c. low.

The week's range for exchange rates follows:

	Long			Short			Cables		
Sterling, Actual—

Plus: *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the undermentioned cities to-day: Savannah buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston selling, $1 per $1000 premium. New Orleans bank, 10c. per $1,000 premium; commercial, 20c. per $1,000 discount. Chicago, 25c. per $1,000 premium. St. Louis, 55c. per $1,000 premium. San Francisco, 10c. per $1,000 premium.

State and Railroad Bonds.—Sales of State bonds at the Board include $25,000 Tennessee settlement 3s at 95½ to 95⅝ and $234,000 Virginia 6s deferred trust receipts at 20 to 27½.

The market for railway and industrial bonds has been somewhat more active, although the aggregate transactions is still much below the average. Prices have generally been steady, the sharp declines so frequent of late not appearing in the active list.

Consolidated Gas convertible 6s covered a range of 9 points, closing with a net loss of only 1. Where other net declines have been recorded, they are only fractional, and are about offset by advances in other issues.

United States Bonds.—Sales of Government bonds at the Board are limited to $21,000 2s, coup. 1930, at 104¾ to 105, and $5,500 3s, coup., 1908-18, at 102 to 102⅛. The following are the daily closing quotations; *for yearly range see third page following.*

Railroad and Miscellaneous Stocks.—Stock market values continued to decline until near the close on Monday, at which time the low level of the week was, in most cases, reached. And while this level was generally from 2 to 5 points lower than at the close last week, it was, with few exceptions, well above the low record of March. The exceptions in this particular were New York Central, Delaware & Hudson, Erie and Great Northern, which established a new low record for the year.

Reading has been the active feature, about 265,000 shares having been traded in on Monday, and after selling down over 7 points has recovered about one-half the loss. Among other railway stocks that have been active and covered a wide range are Union Pacific, Canadian Pacific and Delaware & Hudson; the latter declined over 10 points and was then lower than at any time since 1904. It closes 2¼ points above the lowest.

Consolidated Gas and the copper stocks have been notably weak. The former declined about 11 points on the bringing of an action to have its charter declared void, a large part of which it has recovered. When at the lowest, Amalgamated Copper had lost nearly 6 points, Smelting & Refining over 6 and Anaconda Mining nearly 5. Steel common sold at the lowest figure of the year but has partially recovered.

For daily volume of business see page 1298.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

STOCKS. Week ending May 31.	Sales for Week.	Range for week. Lowest.		Range for week. Highest.		Range since Jan. 1. Lowest.		Range since Jan. 1. Highest.

Outside Market.—The course of business in unlisted securities has been influenced by the movements on the Stock Exchange, the depression and decline in prices in the early part of the week being followed by an improved tone, values generally recovering their previous losses. The copper shares were prominent. Boston Consolidated Copper dropped from 26½ to 25¼, moved up again to 26½ and receded finally to 25¾. British Columbia Copper declined from 8⅜ to 7¾ but recovered the loss, selling to-day at 8⅜. Butte Coalition sank from 25¼ to 23¾, then advanced again, and to-day reached 25½. Greene Consolidated Copper sold down a point to 21, advancing finally to 21¼. Nevada Consolidated Copper from 14 declined to 13, subsequently advancing to 13⅝. United Copper common went down 2 points to 56¾ but recovered all the loss, the final transaction to-day being at 58¾. Giroux receded from 9½ to 8¾. Nipissing was a leading feature by reason of its activity and strength, the stock moving up from 11⅛ to 13½, the close to-day being at 12¾. Montgomery Shoshone rose from 7½ to 8¾. An active market for Chicago Subway and a material advance in the price was the centre of attraction among the specialties. It moved up over 5 points—from 15⅛ to 20¼—but ran down to-day to 18½. Standard Oil from 523 dropped to 514, advanced to 519 and ends the week at 518. Central Foundry preferred sold up from 12¾ to 14. Manhattan Transit sank from 6⅜ to 5⅝, recovered to 6¼ and closed to-day at 5⅞. New York & Cuba Mail Steamship declined from 26½ to 25 but sold up again to 26. Waterbury Company common gained a point to 40½, fell back to 39¼, then sold up to 40⅛. Western Ice showed an appreciation of 4¼ points to 34¼.

Outside quotations will be found on page 1298.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings.			July 1 to Latest Date	
	Week or Month.	Current Year.	Previous Year.	Current Year.	Previous Year.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of May 25 1907. The next will appear in the issue of June 22.

a Net earnings here given are after deducting taxes.

b Net earnings here given are before deducting taxes.

d The company now includes earnings of the Denver Enid & Gulf RR., Pecos Valley system and Santa Fe Prescott & Phoenix Ry. in both years. For April taxes and rentals amounted to $237,126, against $195,903 in 1906 after deducting which, net for Apr. 1907 was $2,967,349 against $2,264,902 last year. From July 1 to Mch 31 1907 taxes and rentals were $2,116,199, against $1,996,982 last year

h For Apr. 1907 additional income was $3,017, against $7,316 in 1906, and from July 1 to Apr. 30 was $48,577 in 1907, against $49,808 in 1906.

k For Apr. 1907 additional income was $17,644, against $17,486 in 1906, and from July 1 to Apr. 30 was $194,018 in 1907, against $155,349 in 1906.

o Including other income, total income (exclusive of results of coal companies) for April is $1,274,762 in 1907, against $337,274 in 1906, and for period from July 1 to Apr. 30 is $12,088,435 in 1907, against $10,570,564 in 1906. Deductions from total income for additions and improvements were $167,205 in April 1907, against $65,726 in 1906, and from July 1 to Apr. 30 were $1,666,934 in 1907, against $1,099,674 last year.

p For Apr. 1907 additional income was $1,221, against $518; and from July 1 to Apr. 30 was $26,861 in 1907, against $17,826 last year.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below those charges:

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. b Figures are from Feb. 1. c These figures are for consolidated company. d These are results for main line. f Now includes Rapid Ry. Syst., Sandwich Windsor & Amherstburg Ry. and Detroit Monroe & Toledo Short Line Ry. h These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept. 5 1906.

Street Railway Net Earnings.—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month we bring together all the roads reporting as is done to-day. *Besides the companies furnishing monthly returns, we have added this time the roads which make quarterly returns.*

Roads.	Gross Earn'gs Current Year.	Gross Earn'gs Previous Year.	Net Earnings Current Year.	Net Earnings Previous Year.

Baltimore Chesapeake & Atlantic Railway.

(Report for Fiscal Year ending Dec. 31 1906.)

President Charles E. Pugh says:

The operations for the year show a satisfactory increase in gross earnings, $43,148; but that in freight earnings was not in proportion to the passenger earnings, due mainly to the unfavorable season for fruit and small vegetables. The decrease in operating expenses was caused by a saving in maintenance of way and structures and maintenance of equipment expenses, amounting to $37,729 70. It must be borne in mind, however, that the increase in wages and prices of material must add substantially to your expenses during the coming year.

The general income account shows the net income transferred to the credit of "profit and loss," after the payment of interest on funded debt and taxes, and appropriating $40,000 as required under the terms of the Supplemental Mortgage of Oct. 25 1894, for betterments and improvements, to have been $41,436. In addition to the above charges, a dividend of 5 % on the preferred stock, amounting to $75,000, was paid out of the surplus.

OPERATIONS AND FISCAL RESULTS.

Earnings—	1906.	1905.	1904.
Freight	$504,488	$498,738	$468,452
Passenger	300,943	269,644	251,968
Express, mails, &c	104,582	98,483	91,119

—V. 82, p. 926.

American Light & Traction Co., New York.

(Report for Fiscal Year ending Dec. 31 1906.)

For record purposes, we print the following report which was ready early in the year. Prest. Emerson McMillin says:

General Results.—The increase in net earnings for the twelve months over the corresponding period last year was $879,568, or 65.83%. While this increase is largely due to the acquisition of new properties which have been purchased since the last annual report, the increase in earnings of the companies owned one year ago is considerable, notwithstanding the fact that prices at which gas is sold by several of our companies have been materially reduced.

Dividends.—The amount of dividends paid has increased $423,567, or 56.44%. Dividends on common stock for the first six months were at the rate of 4% per annum; for the last six months these divedends have been at the rate of 5% per annum. The earnings of the company for the year, over and above the sums required for the payment of preferred dividends, exceed 20% on the outstanding common stock.

Reconstruction Reserve Account.—The decrease in net surplus of 38.33% is due to having carried $680,500 from the surplus earnings into this reserve account. The total of the reserve and net surplus for the twelve months amounts to $1,041,766, an increase over last year's surplus earnings of $456,001, or 77.85%.

Surplus.—The "total surplus" at close of fiscal year, including reconstruction reserve, is $3,170,644, an increase of 48.94% for the 12 months. The total net surplus, after deducting the reserve, is $2,490,144, an increase of 16.97% for the same period.

Properties Owned or Controlled by American Light & Traction Co.

Milwaukee Gas Light Co. (Western Gas Co.), Milwaukee, Wis.
Detroit City Gas Co., Detroit, Mich.
St. Paul Gas Light Co., St. Paul, Minn

Pacific Mail Steamship Company.

(Preliminary Report for Fiscal Year Ending Apr. 30 1907.)

President E. H. Harriman under date of May 29 1907 says:

Compared with the preceding year, the receipts from the operation of steamers decreased $853,871 and from all other sources $32,221, a total decrease of $885,092. A part of the decrease in operations of steamers resulted from the fact that the trans-Pacific line made four less trips this year than last, but by far the greater part was the result of the diversion of traffic to other channels during the re-establishment in San Francisco of stores, warehouses, hotel accommodations and other accessories which are required in carrying on an extensive commerce and which were entirely destroyed or scattered by the fire of April 1906; also, from the lower rates on ocean tonnage which prevailed during the entire year and from the unsettled civil condition in the Central American Republics, which reduced very materially our traffic in these States.

Expenses for the operation of steamers, including charter paid for steamers, decreased $606,081; general expenses, $27,438; insurance, $20,151, and interest on loans, &c., $7,696, a total decrease of $661,366. There was an increase in agency expenses of $60,558, partly the result of an advance in wages, but principally from a payment of $49,054 for lighterage charges at Panama in February, March and April 1906, which were chargeable to the expenses of the preceding year but of which the records were destroyed in the San Francisco fire. This leaves a net decrease in expenses of $600,807.

After deducting $16,412, expenses incurred in caring for the passengers, baggage, &c., of the Manchuria and of the Mongolia, and the usual charge for depreciation, and general and extraordinary repairs of steamers there remained a surplus of $130,404, against $282,884 for the preceding year, a decrease of $152,481.

In addition to the interruption of the regular service of the steamers by strikes and the expenses incident thereto, the cost of operating steamers was materially increased by an advance in wages ranging from 15% to 33% in all departments of the ships and by the greater cost of all materials and supplies, particularly of coal. The sum of $397,880 was credited to the fund for depreciation and general and extraordinary repairs of steamers and charged to the year's expenses. After charging this fund with the payments made for its account, $1,725,934 remained to its credit at the close of the year. The insurance on steamers was renewed and $125,867, the premium chargeable to the year's operation, was charged to the year's expenses.

During the summer of 1906 the two chartered ships, Manchuria and Mongolia, met with serious disaster, the former on Oahu Island and the latter on Midway Islands. Both vessels and cargoes were saved but the Manchuria was damaged so that she was unable to resume service and was put in dry dock for repairs last November. She was to go into service June 1, but is still held in dry dock by the present strike in San Francisco. The Mongolia was temporarily repaired and resumed service after a slight delay, but permanent repairs will be made to her when the Manchuria goes into service. The cost of these repairs are borne by the owner of the ships.

The indebtedness to the Southern Pacific Company, incurred partly in paying for the steamships Korea and Siberia, costing $3,974,764, was discharged during the year, and the company has no other debts than those for current expenses, which amount to $269,566. Against this indebtedness the company has on hand April 30 1907 cash $343,328 and other current cash assets $319,510.

—V. 83, p. 1096.

International Nickel Co., New York.

(Report for Fiscal Year ending March 31 1907.)

The report, under date of May 28, says:

Bonded Debt.—Total amount of bonds originally issued, $10,390,836; bonds bought, canceled and held by the sinking fund trustees, $584,000; held in the treasury for future sinking fund requirements, $455,000; remainder in hands of the public, $9,351,836.

Condition of Plants and Reserve Accounts.—During the past year $1,390,071 was expended for new construction, equipment and replacements. During the same period there has been provided out of earnings $409,780 for the following funds: Regular allowance for depreciation of plants, $159,055; exhaustion of minerals, $89,484; and bond sinking fund, $161,250. There has been appropriated from the surplus for further depreciation of properties, $600,000. As our sales are either for cash or are guaranteed by selling agents, we have not provided any contingent or reserve fund for the collection of outstanding accounts. As yet we have had no losses.

Insurance.—As the construction of all the buildings erected during the past fiscal year with the exception of rock houses has been of steel and concrete, we have been able to largely reduce the cost of insurance.

Profits of Foreign Companies.—The transactions of the Nickel Corporation, Limited, and Societe Miniere Caledonienne for the current year are not included in this report, but from the latest accounts received the results will not be materially affected. To have incorporated the meagre operations of these companies would have delayed our report materially.

Remarks of Treasurer James L. Ashley.

The profits are computed on the sales actually made to customers, and all inventories are taken at cost. Finished material and material in process include no inter-company profits. The company has no floating debt other than the current bills for labor and supplies in the process of auditing. All purchases of material, supplies, &c., are paid for in cash. Every possible advantage is taken of discounts for such settlements. The major part of the cash on hand is in the trust companies, drawing full rate of interest.

Remarks of President A. Monell.

During the past fiscal year the new power plant in course of erection at the falls of the Spanish River, Ontario, Canada, has been in successful operation. The saving in costs—due to the use of this power— has justified the installation of a third unit and electrically equipping the mine hoists and compressors. The policy of replacing all wooden buildings by modern steel and concrete construction has eliminated the risk of any serious sCut down due to fires. The board of directors has deemed it advisable to appropriate from the surplus the further sum of $600,000 to write down the cost of properties. This appropriation is set forth in special entry upon the balance sheet. Our efforts during the past year to introduce nickel into new commercial arts have met with continued success. Our export trade has shown a commendable increase over the records of our last fiscal year, although competition abroad is active and is always to be expected. The business of the company for the past year has been very good, and there is still every promise of increased business for the coming year.

—V. 82, p. 1210.

Chicago Edison Company.

(*Report for Fiscal Year ending March* 31 1907.)

President Insull says:

The growth of the company's business during the year has called for an increase of its capital stock from $12,011,203 75 to $13,614,115 (V. 82, p. 511). In addition your directors have caused to be issued $5,000,000 of 5% 3-year gold debentures, all of which have now been sold, and of which $1,016,000 had been delivered to the purchasers at the close of the company's books on March 31 (see V. 84, p. 695, 1054). The accounts and bills payable, which at the close of the fiscal year amounted to $1,090,538, have since been reduced to less than $100,000.

United Gas Improvement Co., Philadelphia.

(*Report of May 23 1907 on Philadelphia Gas Situation.*)

Vice-President Randal Morgan, under date of May 23 1907, has furnished the City Council of Philadelphia with a long statement to show the inadvisability of the city's exercising its option to terminate on Dec. 31 1907 the lease of the municipal gas plant to the United Gas Improvement Co., which operates the property under the title of the Equitable Illuminating Gas Light Co. This statement was published in full in the "Philadelphia Financial Bulletin" of May 25. Some of the leading statistics are shown below, Mr. Morgan saying in substance:

Cash payments for each 1,000 cubic feet of gas sold must be made to the city, under the terms of the lease as follows:

Cash Payments to City (per 1,000 Cubic Feet) Under Terms of Lease.

For 10 yrs. ending Dec. 31 1907, 10c. | For 5 yrs. ending Dec. 31 1917, 20c.
For 5 yrs. ending Dec. 31 1912, 15c. | For 10 yrs. ending Dec. 31 1927, 25c.

During the first nine years of the lease the total cash payment thus made to the city on account of rental was $4,653,151. As additional rental, there is also paid to the city all gas required for gas street lamps, and the lighting, cleaning and extinguishing the same, and all gas used for illuminating purposes in public buildings, all without charge.

The amount of gas sold to consumers and furnished free to the city for public street lighting and for illuminating public buildings during the nine years ending Dec. 31 1906 has been 52,758,903,048 cubic feet.

The cash receipts were	$46,531,508
The uncollected bills on Dec. 31 1906 were	597,952
Making a total of	$47,129,460
Deducting the 10% paid the city as above ($4,653,151) and the city's 10% ($59,795) of bills uncollected Dec. 31 1906	4,712,946
Total amount retained by the gas company	$42,416,514

Dividing this sum by 52,758,903,048 cubic feet shows the actual amount per 1,000 cubic feet retained by the company, after payment of all rentals, excepting the expenditures for betterment and improvement of the plant, and excepting the cost of lighting, cleaning and extinguishing the public lamps, to have been, for the nine years ending Dec. 31 1906, 80.40 cents.

Applying this method of calculation through the full thirty-year term, estimating the sales on a basis of growth of 3% per annum, the company will receive, per 1,000 cubic feet of gas, for the 10 years ending Dec. 31 1907, 80.66 cents; for the 5 years ending Dec. 31 1912, 78.12 cents; for the 5 years ending Dec. 31 1917, 74.52 cents; for the 10 years ending Dec. 31 1927, 70.04 cents; and for entire 20 years beginning Jan. 1 1908 and ending Dec. 31 1927, an average of 72.68 cents.

Out of the amounts which the company will retain, it must discharge the cost of lighting, cleaning and extinguisding the public street lamps, the cost of producing and distributing the gas and of maintaining the plant, and must also reimburse itself the amount which it has heretofore expended in extension, improvement of the city's property to Dec. 31 1906, with an estimate added of $1,000,000 per annum for 1907 and for each year thereafter, amounting in all to $34,325,492.

In the figures given above no consideration has been taken of this actual cash expenditure made and to be made upon the city's property, because if the lease be terminated, then the principal with interest will be paid to the company, amounting to $19,473,189; but if the lease shall not be terminated and shall continue till the end of the period of 30 years, then the amount that has been expended and will be so expended hereafter, must be deducted from the company's receipts, which will reduce the average amount retained by the company during the 20 years beginning Jan. 1 1908 and ending Dec. 31 1927 from the figures stated above of 72.68 cents per 1,000 cubic feet of gas to 61.52 cents. The lease provides for a 22-candle-power gas, and annual messages of the Mayor in each year show the average candle-power to have ranged, for the eight years ending Dec. 31 1906, from 22.50 c. p. as a minimum to 23.84 as a maximum.

The gas works have to-day 1,300 miles of mains; 269,718 meters set; the workable capacity of the plant in 24 hours is 41,000,000 cubic feet; the maximum consumption of any day in 1906 was 39,057,000. Our estimated, cash requirements, if the lease shall not be terminated, for expenditure upon plant in 1907 and for contracts for construction to be undertaken in 1907 and completed in 1908, based upon the continuation of growth of the city, the new buildings built in 1906 having been 10,551, is $1,740,761. Since 1896 we have connected 20,000 gas ranges.

Results to the City for the 10 Years ending Dec. 31 1907 (1907 Estimated).

Calendar Year.	*Cash Received.*	*Street Lamps 90-ct. Gas.*	*Pub. Bldgs 90-ct. Gas.*	*Betterments Expenditures.*	*Betterments Interest.*
1897-1898x	$268,459	$439,647	$101,776	$3,144,162	$1,699,728

Total	$5,393,643	$4,457,816	$854,378	$13,265,492	$4,511,697
Appraised value Phila. Gas Improvement Co. plant, 1907 (estimated)				1,060,000	636,000
Tot. repayable to co. if lease is ended Dec. 31 '07				$14,325,492	$5,147,697

x For 13 months, Dec. 1897 and year 1898.

y Expenditures in betterment of the city's plant made by the tenant according to vouchers filed with the City Controller and verified by him. Such betterments if the lease shall not be terminated at the end of the first ten years become the city's property without reimbursement to the company, but if the tenancy shall be terminated on Dec.31 1907 the lease requires the city to pay to the company the actual amount thereof with interest.

The total aggregate sum of the foregoing results to the city for the ten years 1898 to 1907, exclusive of "Interest," is therefore $25,031,329.

Price of Gas, etc., if Lease Is Permitted to Run the Remaining 20 Years.

The lease provides that the price of gas shall be $1 per 1,000 cubic feet, unless otherwise provided by Councils, who have absolute authority to reduce the price to the following figures, viz.: From the date of the lease to Dec. 31 1907, 90 cents per 1,000 cu. ft.; from Jan. 1 1908 to Dec. 31 1912, 85 cents; from Jan. 1 1913 to Dec. 31 1917, 80 cents; from Jan. 1 1918 to Dec. 31 1927, 75 cents. The city to receive all sums collected from sales of gas in excess of the above schedule, viz.: From Dec. 1 1897 to Dec. 31 1907, all sums in excess of 90 cents per 1,000 cu. ft.; from Jan. 1 1908 to Dec. 31 1912, all sums in excess of 85 cents; from Jan. 1 1913 to Dec. 31 1917, all sums in excess of 80 cents; from Jan. 1 1918 to Dec. 31 1927, all sums in excess of 75 cents per 1,000 cu. ft.

Estimated Results to City 1908 to 1927.

Cash receipts to city based on the present price of gas under the foregoing provision, and an annual increase in sales of 3%, affording the city at the 15 cent excess rate $1,144,060 in 1908 and increasing gradually until in 1913 at the 20-cent rate, the sum reaches $1,768,373, and in 1918 and 1927, at the 25-cent excess rate, $2,562,536 and $3,343,528 respectively. Total for the 20 years	$44 839,063
Free street lamps and free gas to public buildings based on 85-cent gas from 1908 to 1912, 80 cent gas 1913 to 1917 and 75-cent 1918 to 1927, and an estimated consumption of 637,647,300 in 1908, gradually rising to 774,447,300 in 1927.	11,088,745
Total cash receipts and free service, 20 years	$55 927,808

To this must be added expenditures upon the plant in extension, betterment and improvement of certainly not less than an average of $1,000,000 a year; or for 20 years a total of $20,000,000, making in all for the 20 years $75,927,808; or, adding the similar items for the 10 years ending Dec. 31 1907, a grand total to the city for the entire 30 years of $100,959,137.—V. 84, p. 1253, 1112.

Pittsburgh Plate Glass Co.

(Report for Fiscal Year ending Dec. 31 1906.)

President John Pitcairn, under date of Feb. 12 1907, says:

General Results.—The results for the year were, on the whole, satisfactory, although unbusinesslike methods on the part of certain competitors prevented the realization of the factory profits on plate glass that were warranted by the prevailing prosperous business conditions.

Our total sales for the year 1906 amounted to $19,232,694. The company had the benefit of only part of the increased capital, and for a portion of the year only.

Depreciation—Fires, &c.—In September our Cleveland warehouse was destroyed by fire, involving a net loss to our company of $102,690. Earlier in the year the St. Louis plaster plant was burned, causing a loss of $35,523. These losses were due to the impossibility of securing adequate insurance, and are included in the amount charged for depreciation. The sum of $708,222 has been charged for depreciation, and about $165,000 for extraordinary repairs and betterments was charged to expense account.

New Stock.—At our last annual meeting (Feb 13 1906) the stockholders authorized the increase of our capital stock to $17,500,000. All of the increase was subscribed by the stockholders, excepting 323 shares, which have been used for the employees' profit-sharing plan. The balance on stock subscriptions remaining unpaid on Dec. 31 1906 amounted to about $600,000, which should be fully paid by April 1 1907.

New Works.—Our Ford City works have been practically completed, extensive improvements have been made to our Kokomo (Ind.) plant, and satisfactory progress has been made in the erection of our new Crystal City factory. These operations substantially account for the increase in investment account; and the increase in that account, the large reduction in bills payable account and the increase in working capital that was made necessary by the continued expansion of our business substantially account for the application of the amount paid in on the new issue of capital stock.

The improvements for which the proceeds of the new stock were principally used were not in full operation until nearly the close of the year, and the capital going into the new Crystal City works has been unproductive and will continue to be so until those works are completed and in operation. To complete those works and to carry out plans actually in hand for the improvement of other plants and the extension of our business, it is estimated that from $1,250,000 to $1,500,000 will be required during the present year.

Dividend Increase.—In view of our current earnings and favorable prospects, your board considers that an increase in the dividend rate to 7% will be warranted, commencing April 1 next (as declared, see V. 84, p. 697—Ed.), but deems it unwise to make any larger increase.

Note.—Dividend No. 1, being the accumulation of dividends on preferred stock from date of its issue to July 1 1905 at rate of 7% per annum, was paid Jan. 10 1907. It amounted to $43,685 43. Dividend No. 2, the additional accumulation of dividends on preferred stock to Jan. 1 1907 at rate of 7% per annum amounts to $47,522 38. Dividend of this amount declared March 19 1907, payable April 1 1907.
—V. 83, p. 1595.

Consolidation Coal Company (of Maryland).

(Report for Fiscal Year ending Dec. 31 1906.)

President C. W. Watson, March 20 1907, writes in part:

Tonnage.—The total output for the year of coal mined by the company was 2,128,879 tons, an increase of 32,666 tons over that of the preceding year, and the largest in the history of the company. The output (in tons) of the leading mines was as follows:

Mine—	1906.	1905.	*Mine—*	1906.	1905.
Ocean No. 1	494,577	527,084	Ocean No. 7	1,084,156	1,036,663
Ocean No. 3	273,619	360,175	Ocean No. 8	115,662	126,664
Ocean No. 3½	109,867	------			

The coal mined by lessees of the company on royalty amounted to 368,292 tons, as compared with 337,843 tons for the year 1905, an increase of 30,449 tons.

Railroad Department.—The coal tonnage handled by the C. & P. RR. during the year amounted to 3,766,148 tons (an increase of 238,097 tons over 1905), distributed as follows: To Baltimore & Ohio RR., 3,022,297 tons; Pennsylvania RR., 430,329 tons; Chesapeake & Ohio Canal, 199,505 tons; local, 114,017 tons.

Tables show the coal production of Consolidation Coal Co. and its subsidiaries as follows, in tons (see V. 78, p. 1272):

Year—	*Consol. Coal.*	*Fairmont.*	*Clarksburg.*	*Somerset.*	*Pitts. & Fair.*
1906	2,128,879	4,257,999	669,534	1,535,714	404,009
1905	2,096,213	3,748,230	564,918	1,352,539	371,064
1904	1,833,371	3,750,176	489,790	883,493	352,522

Coke produced in 1906: Fairmont, 145,828 tons, against 106,085 in 1905 and 68,473 in 1904; Somerset, 25,868 tons, against 50,183 in 1905 and 271 in 1904.

INCOME ACCOUNT FOR THREE CALENDAR YEARS.

Somerset Coal Company.

(Report for Fiscal Year ending Dec. 31 1906.)

This subsidiary of the Consolidation Coal Co. of Maryland reports as below:

The stockholders on Nov. 28 1906 authorized the issue of $916,000 serial car trust bonds under an agreement of lease and conditional sale, dated Dec. 1 1906, with the Fidelity Trust Co., trustee, whereby this company is to acquire 1,000 modern steel under-frame coal cars of 100,000 lbs. capacity, 372 of which had been delivered Dec. 31 1906; since that date, the remainder have been delivered and are now all in service. (V. 83, p. 1040).

Fairmont Coal Company.

(*Report for Fiscal Year ending Dec.* 31 1906.)

This subsidiary of the Consolidation Coal Co. of Maryland (see above) reports as follows:

The stockholders on Sept. 5 1906 authorized the issue of $1,044,000 serial car trust bonds under an agreement of lease and conditional sale dated Sept. 1 1906, with the Maryland Trust Co., trustee, whereby this company is to acquire 2,000 modern steel underframe coal cars, of 100,000 lbs. capacity. 1,200 of these cars have so far been delivered and put in service. (Compare V. 84, p. 628.)

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Boston Suburban Electric Companies.—*Amendments Approved—Proposed Merger and Bond Issue.*—The amendments to the declaration of trust which were referred to last week were duly approved at the meeting on May 27.

The "Boston Transcript" of May 27 said:

President A. D. Claflin states that the object immediately in view is the consolidation of three street railway companies west of Newton. In absorbing these roads the Boston Suburban acquired about $100,000 bonds and in effecting the reorganization (merger) it wishes to dispose of these securities, and possibly some real estate. The companies to be consolidated are the Westboro & Hopkinton, the South Middlesex and the Natick & Cochituate, which, taken together, give a through line from the end of the Worcester Consolidated Street Railway Company's tracks in Westboro to Newton, whence the Boston Suburban Companies' cars may be run directly into the Park Street station of the subway by the Boston Elevated.—V. 84, p. 1246.

Buffalo Batavia & Rochester Electric Railway.—*Right Withdrawn.*—The New York State Railroad Commission on May 22 annulled its consent to the issue by this company of a first mortgage for $3,500,000, on the ground that the mortgage of the allied Buffalo & Williamsville Elec. Ry. Co. for a like amount (but only $117,500 outstanding) has not been canceled as stipulated.—V. 81, p. 154.

Buffalo Rochester & Pittsburgh Ry.—*New Bond Issue—Further Facts.*—The new consolidated mortgage securing $35,000,000 bonds dated May 1 1907 and due May 1 1957 has been made to the Central Trust Co. of New York, as trustee. The bonds are to bear such rate of interest, not exceeding 4½% per annum, as shall be fixed for successive issues by the board of directors, and are issuable as follows:

Issuable whenever desirable, bearing 4½ % interest	$3,000,000
Reserved to retire a like amount of underlying bonds (including $350,000 Lincoln & Charlotte RR. 5s)	10,350,000
Reserved to pay certain real estate mortgages	295,000
Reserved to retire $2,500,000 equipment bonds, series A, B and C	2,500,000
Reserved to retire $1,500,000 construction and equipment 3-year 4½ % notes dated Aug. 1 1906 (V. 83, p. 1522)	1,500,000
Reserved to retire equipment bonds, series D, E and F (D dated 1902, authorized $2,000,000, amount outstanding reduced to date to about $1,648,000; E dated 1904, authorized $2,000,000 amount out reduced to about $1,216,000; F dated April 1 1907, authorized, $3,000,000; issued, not known.—Ed.)	3,500,000
Reserved for extensions, additions, new equipment, &c., but none to be authenticated or delivered prior to July 1 1908, nor to any greater extent than $1,500,000 in the year 1908, or in any one calendar year thereafter unless the issue of such larger amount shall first be authorized by a majority in interest of the stockholders at a meeting duly called	13,855,000

The reservation of bonds for the retirmeent of car trusts discloses the existence of a new issue of car trusts dated April 1 1907, of which apparently about $700,000 is outstanding.—V. 83, p. 1113, 995.

Buffalo & Susquehanna Ry.—*New President.*—Vice-President Charles W. Goodyear has been elected President to fill the vacancy caused by the death of his brother, Frank H. Goodyear. Assistant General Superintendent Anson C. Goodyear has been made 1st Vice-President.—V. 84, p. 270.

Buffalo & WilliamsvilleElectric Ry.—See Buffalo Batavia & Rochester Electric Railway above.—V. 81, p. 154.

Canada Coal & Ry.—*Sold.*—See Maritime Coal, Railway & Power Co. below.—V. 80, p. 1110.

Chicago Consolidated Traction Co. — *Decision* — The United States Supreme Court on May 27 denied the petition of the North and West Chicago Street railroads to review the judgment of the United States Circuit Court of Appeals for the Seventh Circuit, which dismissed their suits to recover from the estate of the late Charles T. Yerkes about $12,000,000 alleged to have been illegally obtained in connection with the amalgamation of those roads with the Consolidated Traction Co. In the suits it was also sought to have the amalgamation declared illegal and the various agreements made in connection therewith set aside. See also V. 79, p. 2642.—V. 84, p. 1181.

Chicago Milwaukee & St. Paul Ry.—*Old Mortgage Satisfied.*—The $4,000,000 mortgage dated March 4 1872 and due on Jan. 1 1902 was satisfied of record on May 25.

The executive offices were recently moved from No. 30 Broad Street to No. 42 Broadway.—V. 84, p. 569, 507.

Chicago Rock Island & Pacific Ry.—*Bonds Offered.*—Speyer & Co., 24-26 Pine St., New York, are offering by advertisement on another page, at 87% and interest, at which the yield is 4⅞%, $10,000,000 "first and refunding mortgage" 4% gold bonds, dated April 1 1904 and due April 1 1934, but redeemable at option of company at 105 and interest on or prior to April 1 1911 on sixty days' previous notice. The proceeds of the sale of the above $10,000,000 bonds will be applied by the company to pay $7,500,000 notes maturing July 1 next and the balance for betterments and improvements. Subscriptions will also be received in Boston by Messrs. N. W. Harris & Co., in Chicago by the Harris Trust & Savings Bank, in Philadelphia by Messrs. Henry & West. Bonds of this issue are already listed on the Stock Exchanges of New York, London, Amsterdam, Frankfort and Berlin, and application will be made to list the above bonds on the same exchanges. These bonds are a legal investment for trustees and savings banks in New York State and are accepted by the Secretary of the Treasury at Washington as security against deposits of customs receipts in national banks.

Abstract of Letter from President B. L. Winchell, dated Chicago, May 25 1907.

These bonds are part of an issue limited to $163,000,000, of which there have been issued (including the above $10,000,000 bonds) $66,851,000, viz: Refunding purposes $21,451,000 | Acq. of prop. or secur. $20,400,000 | Reimburse treasury 15,000,000 | Improvements 10,000,000

Of the remaining $96,149,000 bonds authorized under the mortgage, $60,574,000 can only be issued against underlying bonds, $13,500,000 to pay for 75% of the purchase price of bonds of other companies, and the balance for improvements and acquisitions of other properties or securities as prescribed in the mortgage.

The bonds are a direct obligation of The Chicago Rock Island & Pacific Railway Co. which was formed in the year 1880, from which time it has uninterruptedly paid dividends, and since 1899 at not less than 5% per annum.

The "first and refunding mortgage" 4% gold bonds are secured by a first lien (either directly or through pledge of the entire issue of first mortgage bonds) on terminal properties in St. Paul, Minneapolis and St. Louis; new equipment and shops at Moline, Ill.; and on railway lines aggregating 1,148 miles, including the line from St. Louis to Kansas City; and are also secured by a lien (subject to existing mortgages) on all the lines of the railway company aggregating (exclusive of leased lines and trackage) 5,659 miles.

Earnings.—For the fiscal year ended June 30 1906 and also the 10 months ending April 30 1907 and 1906.

	—10 mos. ended Apr. 30— 1906-07.	1905-06.	Increase.	Year 1905 06.
Average miles operated	7,717.22	7,205.34	511.88	7,218
Gross earnings	$49,759,444	$43,135,739	$6,623,705	$51,237,858
Operating exp. & taxes	33,245,313	29,268,687	3,976,626	35,067,059
Net	$16,514,131	$13,867,052	$2,647,079	$16,170,799
Other income				1,015,837
Total income				$17,186,636
Taxes, interest, rentals and improvements on leased lines				10,400,805
Surplus available for dividends				$6,785,831

Notes in Exchange.—Speyer & Co. are prepared to accept on June 3 the 3-year 4½% gold notes, due July 1 1907, at the price of par and accrued interest, in payment for the first and refunding mortgage 4% gold bonds at the price of 87 and interest, as stated in above notice.—V. 84, p. 1247, 748.

Chicago Terminal Transfer Co.—*New Directors.*—At the annual meeting on May 29 five new directors were elected, the board now including:

Representing J. P. Morgan & Co.: Jesse B. Barton, Fred G. Relghley, Ralph M. Shaw, W. V. S. Thorne, Silas Strawn, John N. Faithorn, A. H. Gillard, A. C. Emery, E. N. Layfield, W. B. Barr, T. M. Butters and F. B. Huntington, the last three being new.

Representing the minority shareholders, three new directors: Maclay Hoyne and Clarence A. Knight, of Chicago, and W. W. Miller, who is a member of the New York law firm of Hornblower, Miller & Potter, which is acting for the protective committee representing the minority shareholders. (Compare V. 84, p. 930).

The suit to set aside the sale of the Terminal Co. first mortgage bonds to the Baltimore & Ohio RR. Co., it is stated, will be started in the United States Court in a few days.—V. 84, p. 1182, 930.

Delaware & Hudson Co.—*Equipment Bonds Offered.*—Kuhn, Loeb & Co. and the First National Bank, both of New York, are offering by advertisement on another page at 95%, at which the yield to the investor is about 5%, the unsold portion of the issue of $10,000,000 "first lien equipment 4½% 15-year gold bonds," dated July 1 1907. Due July 1 1922. Interest payable Jan. 1 and July 1. Coupon bonds in denomination of $1,000 each, with privilege of registration of principal. Principal and interest payable in gold, without deduction for any taxes which the company may be required to pay thereon or retain therefrom under any present or future law. The advertisement says:

To be secured by a first lien upon equipment, certified to cost in excess of $11,000,000. The indenture will contain provisions for the proper maintenance of the equipment and for the payment to the trustee of an annual sinking fund of $650,000 in cash for the purchase and cancellation of bonds of this issue or the purchase of additional equipment to become subject to the indenture as additional security for the bonds, or for the purchase of bonds legal for investment by insurance companies in the State of New York, which bonds are to be held as further security under the trust indenture. Such bonds so accumulated may be subsequently sold and the proceeds applied to the purchase and cancellation of bonds of this issue, or to the purchase of new equipment to become subject to the lien of the bonds. We are advised by counsel that these bonds, when issued, will be a legal investment for insurance companies in the State of New York. Payment for bonds purchased is to be made on July 1 1907 against delivery of interim certificates of the trustee.—V. 84, p. 1247, 1182.

Detroit United Ry.—*Reported Purchase.*—See Jackson Ann Arbor & Detroit Ry. below.—V. 84, p. 1052, 450.

Easton & South Bethlehem Transit Co.—*Guaranteed Bonds Offered.*—Edward B. Smith & Co., Philadelphia and New York, and Bioren & Co., Philadelphia, are offering at par and interest the first mortgage 5% bonds, guaranteed principal and interest by endorsement on each by the Easton Consolidated Electric Co. Principal due July 1 1936, but subject to call after July 1 1911 at company's option at 105 and int. The mortgage is limited to $500,000; present issue $400,000. (Compare V. 83, p. 323.) A circular says:

These bonds are secured by an absolute first mortgage on 12¾ miles of road extending from Easton to South Bethlehem; also by a perpetual trackage contract with the Easton Transit Co., giving the right in perpetuity to run cars over the Transit Company's tracks into Centre Square, Easton. In South Bethlehem the terminus of the line is directly opposite the Union Station. The entire capital stock of the Easton & South Bethlehem Transit Co. is owned by the Easton Consolidated Co., which guarantees the principal and interest of these bonds.—V. 83, p. 323.

Havana Central RR.—*Notice to Holders of Stock and Bonds.*—Referring to the advertisement dated April 30 1907, holders of bonds and shares of the Havana Central Railway Co. are reminded that the offer on behalf of the United Railways of the Havana & Regla Warehouses, Ltd., to receive such bonds and shares for exchange, expires at 4 p. m. May 31. The advertisement (see another page) says: "Large amounts have already been deposited in London, New York, Montreal and Havana whereby the success of the plan is assured." Compare V. 84, p. 1052.

Hoboken Manufacturers' RR.—*Mortgage.*—This company recently made a mortgage for $400,000 due in 20 years to the Hoboken Land & Improvement Co., covering, it is said, besides the proposed road and other property, about 500 city lots along the western line of Hoboken.

The company will build a line of railroad through the manufacturing district of Hoboken, N. J., from 14th St., skirting the base of the hill, through the westerly portion of Hoboken to the Erie RR. main line in Jersey City. A lease was taken June 19 1906 of the steam and electric line of the Hoboken Railroad Warehouse & Steamship Connecting Co., which extends from 5th St., Hoboken, to Weehawken, 2.06 miles, connecting the piers of the steamship lines and warehouses in Hoboken and Weehawken. This last-named company has outstanding $300,000 stock (on which a dividend of 1½% was paid in 1906) and $196,000 bonds.

The new company is controlled by or in the same interest as the Hoboken Land & Improvement Co. and its authorized capitalization consists of $400,000 stock and $400,000 mortgage bonds. The officers are R. M. Dickinson, Pres.; Charles F. McGuire, 911 Castle Point Terrace, Hoboken; Vice-Pres.: H. E. S. Wilson, 60 8th St., Hoboken, Sec., and Palmer Campbell, Treas. and Gen. Mgr. An officer of the new company is reported to have stated that the road will be in operation next fall. It will connect with the Pennsylvania, New York Central, Reading, Baltimore & Ohio, Erie, Lackawanna, Jersey Central, Lehigh Valley and West Shore roads.

Illinois Iowa & Minnesota Ry.—*Postponed.*—The annual meeting at which the merger plan will be considered has been postponed until June 20. See V. 84, p. 996, 508.

Interborough Rapid Transit Co.—*Decision.*—Justice Fitzgerald in the Supreme Court in this city on May 25 granted the application of the Board of Rapid Transit Commissioners for an injunction restraining the company from delivering electric current to the New York City Interborough Ry.

The Court holds the plaintiff is entitled to an accounting for the reasonable value of the current heretofore so furnished; saying that more ducts than are at present necessary were constructed to anticipate the probable extension of the subway system because of the difficulty, if not impossibility, of adding to them after the subway wall was constructed. The Court further states: "The use of these ducts for the sale and transmission of electric current for motor power to other parties, whether owners and operators of connecting or interseeting railroads or not, is a use of public property contrary to the plain purpose of the Rapid Transit Act and not reasonably contemplated by the parties to the instrument of contract and lease executed thereunder. In no sense a railway use within the rules above stated, and so far as the company seeks to charge the cost of the generation and transmission of such electric current against the sum upon which its indebtedness to the municipality shall be computed, manifestly unjust to the city."—V. 84, p. 1182, 1052.

Ithaca Street Ry.—*Change in Control.*—A. H. Flint & Co. of New York have arranged to purchase control for a sum said to be $200,000.—V. 72, p. 988.

Jackson Ann Arbor & Detroit (Electric) Ry.—*Merger.*—This company, organized some time ago under the steam railway laws of Michigan, with capital stock of $1,900,000, of which $400,000 is 6% cumulative (par $100), has arranged to establish a trolley line extending from Jackson, Mich., to Detroit, and from Wayne to Northville, a total distance of 90 miles, and for that purpose has acquired the Detroit Plymouth & Northville Ry. (V. 76, p. 971), now in operation from Wayne to Plymouth, and Northville, 15 miles, and also the Jackson & Ann Arbor Railway (V. 81, p. 1044), already built from Grass Lake, Mich., to Dexter, Mich., 20 miles. The line to Detroit is under construction. The new company has authorized an issue of $1,500,000 bonds, $1,000,000 of which will be used to complete the line into Detroit and for other purposes, and $500,000 will remain in the treasury. The $150,000 first 6s of the D. P. & N., it is said, will later on be retired. Officers. Chas. W. Osborne, President; W. A. Boland, 31 Nassau St., New York,

Reported Sale.—It is reported that the Detroit United has purchased the "Boland line" between Jackson and Detroit. Mr. Boland, being absent from his office, 31 Nassau St., no definite information could be obtained.—V. 77, p. 36.

Low Fare Ry., Cleveland.—*Unfavorable Decision.*—Judge Phillips in the Common Pleas Court on May 22 held that the ordinance of April 27 last granting the company a franchise over the Central and Quincy avenues, S. E. route, recently abandoned by the Cleveland Electric Ry., is invalid, because of failure to procure the consent of a majority of foot frontage before the franchise was granted by the City Council. An appeal has been taken to the Circuit Court.

The company sought to avail itself of consents given to the Forest City Ry., under which the City Council gave the latter a franchise over the same route in Sept. 1906, but the court held that every franchise requires separate consents. The Cleveland Electric Ry., it is stated, holds between 80 and 90% of the consents in the avenues named applying for a six years' period. Interests friendly to that company express serious doubt whether any other company can obtain valid consents until the expiration of that time. Street car service has not yet been restored.

The "Cleveland Leader" of May 11 contained as advertisements the franchise ordinances. "Cleveland Finance" of May 11 said:

On Monday night of this week the City Council, acting under orders of Mayor Johnson, passed ordinances alleging to grant the Low Fare Co. franchises for certain streets now occupied by the Cleveland Electric Railway. These comprise Woodland Av. and Kinsman Road routes, Detroit Av., Lorain Av., Bridge Av., West 65th St., Clark Av., West 73d St., Madison Av., West 98th St., Woodbine Av. and John Av.

The object was not to grant any right to the Low Fare Company, for the Council has not that right under a decision of the United States Supreme Court. These ordinances were passed simply to create the impression in the minds of the people that the Low Fare Company had secured some valuable franchises and thereby assist in selling three-cent stock to the ignorant, unthinking poor people of Cleveland. In the Central Av. case in the United States Court (V. 84, p. 101), wherein the ordinance granted to the Forest City RR. was attacked, Judge Tayler held that a City Council could grant to an existing company a renewal of its franchise, but where a company was operating under a franchise the City Council could not grant to another company a franchise covering the same streets until the original franchise had expired.—V. 84, p. 1114, 102.

Louisville (Ky.) Railway Co.—*Note Issue.*—The company announces an issue of $500,000 6% notes (secured by bonds) redeemable at any time from 1908 to 1910. The proceeds will be used in purchasing new rolling stock and extending the suburban line to Bardstown. It is said that $300,000 of the notes have been placed and that the remainder will not be sold until the money is needed.—V. 84, p. 567, 450.

Manhattan Ry., New York.—*Decision in Tax Case Affirmed.*—The Appellate Division of the Supreme Court in this City on May 24 handed down a decision unanimously affirming the report of Hamilton Odell as referee in the suit brought by the city to collect taxes due on the Ninth Avenue line under the law requiring the company to pay a percentage of the net income. There was no dispute as to the validity of the law, but merely as to the items to be deducted from the gross earnings in arriving at the net earnings. The referee found that for the years 1880 to 1902 the city was entitled to $176,810, and for 1903, 1904 and half of 1905, $94,294, bringing the judgment now affirmed, including interest and costs, up to $275,538. Compare V. 77, p. 2159.—V. 84, p. 271.

Maritime Coal, Railway & Power Co.—*Purchase.*—The "Monetary Times" of Toronto on May 25 said:

Montrealers are interested in the deal by which the Maritime Coal Railway & Power Co., Limited, comes into possession of the entire property of the Canada Coal & Railway Co. The property includes 17 square miles of coal-bearing land and 12 miles of railway, fully equipped with rolling stock,

William Hanson signed on behalf of the vendors and Hon. Senator Mitchell for the purchasers. (The purchaser, formerly known as the Maritime Coal & Ry. Co., operates for freight only 3 miles of railroad extending from Chignecto, N. S., on the Intercolonial Ry., to Maccan Junction on the line of the Canada Coal & Railway Co. (Compare V. 81, p. 1178; V. 82, p. 928.)

New Orleans Railway & Light Co.—*Reduction in Net Price of Gas to* $1 15.—The following notice was given May 21:

The New Orleans Gas Light Co. announces a reduction in the net price of gas of five cents per 1,000 cubic feet on all gas consumed after the June reading. For payment at the office on or before the 10th of the succeeding month the discount will be 25c. instead of 20c. per 1,000 cubic feet, as heretofore, making the net price of gas in New Orleans $1 15 per 1,000.—V. 84, p. 996, 868.

New York Auburn & Lansing Electric RR.—*Bonus with Bonds.*—Andrew L. Bush, Springfield, Mass., recently offered $50,000 of the first mortgage 5% gold bonds of this partly built third-rail electric road at par and interest with a bonus of 25% of stock.

The company has a steam railroad franchise, but will operate with the third-rail electric system. Of the 35 miles of main line between Ithaca and Auburn, 26 miles, we are informed, will be in operation by steam power within a week and the remainder is expected to be completed by Sept. 1, along with 5 miles of sidings. Capital stock will be $1,000,000. Authorized bond issue, $1,000,000, of which $600,000 is outstanding and the remainder issuable at $25,000 per mile. A. H. Flint, 15 Broad Street, is President. Compare V. 83, p. 156.

New York Central & Hudson River RR.—*Company's First Electric Car Between Utica and Syracuse.*—A trial trip over the third-rail electric line of the West Shore RR. and allied trolleys between Utica and Syracuse was made on May 23 and regular electric service is about to begin.

Terminal Contract Canceled.—The contract with the O'Rourke Engineering & Construction Co. for the excavation and construction of the Grand Central Terminal has been canceled, because, as stated, the railroad company found it impossible to allow the work to proceed as fast as was desired by the Construction Company, which was losing money because its men were not fully employed. A director of the O'Rourke company is quoted as follows:

We have entered into an amicable arrangement by which we withdraw from the work and the New York Central undertakes to complete it. We have sold our plant to the New York Central, and payment for it and for the work already done, under a compromise, has already been made. Our total contract calls for an expenditure by the Central of something between $7,000,000 and $8,000,000, and about $3,000,000 of this work has been done. Our plant with which this work was being carried on represented an investment of about $400,000.—V. 84, p. 1248, 1052.

New York City Ry.—*Favorable Transfer Decision.*—The Appellate Division of the Supreme Court, First Department, on May 24, by a divided vote in the case of one Kelly, reversing the lower court, upheld the right of the company to refuse to give transfers except when presented for a continuous trip in the same general direction in which the passenger started. Compare V. 84, p. 391.

The plaintiff took a south-bound car on Third Avenue, transferred to Chambers Street and desired to board a northbound car on Greenwich Street but was refused a transfer. The court says: "Under the scheme of transfers provided, a person desiring to make a continuous trip is provided an entirely practical and efficient means of reaching any part of the city for a single fare."—V. 84, p. 694, 391.

New York New Haven & Hartford RR.—*New Stock Merger.*—Notice has been given to the New York Stock Exchange of the increase in the authorized capital stock from $100,000,000 to $130,000,000 preparatory to the merging in the parent company of the Consolidated Railway Co. and the New England Navigation Co. as authorized by the shareholders of the first named company at their meeting yesterday. The Consolidated Railway Co. recently purchased the property of the Navigation Company. (Compare V. 84, p. 1052, 1114, 1242.) The entire share capital of the Consolidated Railway Co. is owned by the N. Y. N. H. & H RR. and the merger, therefore, does not involve any immediate issue of the aforesaid new stock. The steamship department will be operated under title of New England Steamship Co., incorporated in Connecticut on May 27 with $250,000 capital stock and E. C. Vanderbilt as President.

A press report from New Haven says:

The Consolidated Railway Co. recently took over the New England Navigation Co. at a valuation of $20,000,000, or exactly the price which C. W. Morse some time ago offered for the property. Against this, $20,000,000 of Consolidated Railway Co. stock was created, which added to the previous outstanding $10,000,000, makes $30,000,000 of stock, which in the merger now is represented by the $30,000,000 of stock, share for share, of the steam corporation. This $30,000,000 of stock, while legally outstanding, is held in the New York, New Haven & Hartford R.R. treasury for any legal use whatever. Compare V. 84, p. 1242, 1114.

Pacific Railway & Navigation Co.—*New Enterprise—Purchase.*—This company, mentioned below under heading of United Railways of Portland, Ore., was incorporated in Oregon in Oct. 1905 with $2,000,000 authorized stock, to build about 200 miles of road, including a line from Hillsboro, Ore., on the Southern Pacific to the Pacific Coast, and branch lines to Astoria, Nehalem and Scappoose The company, it is reported, made in Feb. last a mortgage to the Union Trust Co. of San Francisco as trustee to secure $4,000,000 bonds.

The franchises and old grade of the Portland Nehalem & Tillamook have been acquired. The grade was reported as completed some time since from Hillsboro to Banks, 7 miles, with grading in progress from Banks to Buxton, 13 miles. Surveys, it is stated, were completed to Summit, 27 miles from Hillsboro, and the line was under survey from Banks to Tillamook and Veronia, 80 miles. President, E. E. Lytle, formerly President of the Columbia Southern Ry.; C. E. Lytle, General Manager; May Enright, Secretary; and C. W. Wanzer, C.E., all of Portland, Ore.

Passenger Fares.—*Illinois Two-Cent-Fare Bill Signed.*—Gov. Dineen of Illinois on May 27 signed the two-cent passenger fare bill. See V. 84, p. 1248, 932.

Pittsfield (Mass.) Electric Street Ry.—*New Bonds* —The company has filed a mortgage to the Berkshire Loan & Trust Co. of Pittsfield, Mass., as trustee, to secure the issue of $100,000 bonds (said to be 4 per cents due July 1 1923), the issuance of which for additions and payment of floating debt was recently approved by the Massachusetts Railroad Commission. At or about the same time the Pittsfield Electric Co. (V. 77, p. 454, 1297) made a mortgage for $150,000 to the same trustee.—V. 84, p. 868.

Pueblo Tramway, Light & Power Co., Mexico.—*Sold.*—See Mexican Light & Power Co. under "Industrials" below. —V. 83, p. 626.

Reading Company.—*New Equipment Trust.*—The company has filed at Philadelphia "Car Equipment Lease, Series E" to E. T. Stotesbury of the firm of Drexel & Co., as trustee, covering new equipment in order to secure $5,000,000 4½% car equipment certificates. The Philadelphia "Ledger" understands that the issue has been underwritten by Drexel & Co., but on the other hand it is stated that none of the issue will be put out at present.—V. 84, p. 932, 571.

San Pedro Los Angeles & Salt Lake RR.—*Agreement Canceled.*—R. S. Lovett, General Counsel of the Southern Pacific Co., has informed the Inter-State Commerce Commission that a traffic agreement between his company and the San Pedro road, which was made public by the Inter-State Commerce Commission hearings at Los Angeles some months ago, was canceled on April 15 1907 because of the enactment by the California Legislature of a law to prohibit contracts in restraint of competition.

This traffic agreement, which was to run for 99 years, was put in force, June 18 1903. Its two most important provisions were: (1) A covenant of the San Pedro company to put in force the tariffs of the Southern Pacific; and (2) that no change shall be made in rates by either company without the consent of the other party.

Another contract which was to have run for 99 years and which is reported also to have been canceled on April 15 was between the Oregon Short Line (Union Pacific) and the San Pedro company, and contains the following provision: Said San Pedro company hereby covenants that it will not hereafter during the term of its agreement extend its main line of railroad or any of its branch lines nor construct or build any lines of railroad, nor assist or advise in the building or construction of any other railroad northward from Salt Lake City, nor which may run into the territory northward of the parallel of Salt Lake City, Utah.—V. 84, p. 694.

Springfield Wilmington & Cincinnati (Electric) Railway.—*Successor Company.*—This company, which recently filed a mortgage to the Knickerbocker Trust Co. of New York as trustee, to secure an issue of $4,000,000 5% bonds (V. 84, p. 1249), we are informed, has taken over the old Springfield & Xenia Ry. recently sold at receiver's sale (V. 83, p. 214) and proposes to extend the line now running from Springfield to Xenia, 20 miles, to Wilmington and Cincinnati, giving it a total length of 160 miles. While no reorganization plan has been issued, the old company's security holders, it is stated, will receive in exchange for their holdings about an equal amount of the securities of the new corporation.

Stock.—The company in February last filed a certificate of increase of capital stock from $3,000,000 to $4,000,000.—V. 84, p. 1249.

Springfield & Xenia (Electric) Ry.—*Successor Company.*—See Springfield Wilmington & Cincinnati Ry. above.—V. 83, p. 214.

Tampa & Jacksonville Ry.—*New Bond Issue—Further Facts.*—The new first consolidated mortgage is made to the Standard Trust Co. of New York, as trustee, and secures $5,000,000 5% gold bonds of $1,000 each, dated April 1 1907 and due in 30 years, but subject to prior redemption at 105. Interest payable Oct. 1 and April 1 at office of trustee. Sinking fund 2% after 10 years. Of the authorized issue, $150,000 is reserved to retire at or before maturity a like amount of 6% bonds of the former Gainesville & Gulf Ry., due in 1929. Interests allied with the Southern Railway Co. own control. President, S. F. Parrott, Macon, Ga.; Secretary, F. M. Simonton, Tampa, Fla.; Treasurer, H. E. Taylor, Gainesville, Fla.—V. 84, p. 1053, 804.

Toledo (O.) Railway & Terminal.—*Sold.*—At the foreclosure sale on May 28 the property was bid in by Andrew J. Sullivan, Chairman of the bondholders' committee, the only bidder, at the upset price of $2,000,000.—V. 84, p. 1249, 997.

United Railways, Portland, Ore.—*Change in Control.*—A majority of the capital stock of this projected enterprise, it is announced, has been acquired by E. E. Lytle, President of the Pacific Railway & Navigation Co., which see above. The "Portland Oregonian" says:

(Issues of May 19 and 21 1907).—The chief object in acquiring the property seems to be to afford an entrance into the city from Hillsboro for the Pacific Railway & Navigation Co., which is now building a line into Tillamook County from Hillsboro. The last-named plans are to complete the road from Hillsboro to Tillamook by Oct. 1908, and Mr. Lytle expects to have the United Railways line to Hillsboro (a distance of about 26 miles) completed and in full operation by the time the Pacific Railway & Navigation Co. delivers freight in Hillsboro. The freight will be carried by way of the Pettygrove & 12th Street line and down Irving Street to Front and the terminal yards.

(Dec. 6 1906).—The United company has only about 2½ miles of track, which is practically its sole asset, a debt of $450,000 bonds and some $120,000 other claims, and a stock issue of $3,000,000, for which little or nothing was paid in. The promoters invested $100,000 in the Chamber of Commerce Building and $15,000 in a piece of water-front land, ostensibly making these properties assets of the company, while in fact they were kept in separate ownerships.—V. 83, p. 891, 563.

Virginian Railway Co.—*Mortgage.*—The company has filed its $35,000,000 mortgage to the Central Trust Co. of New York, as trustee.—V. 84, p. 1249, 1184.

Wabash RR.—*Favorable Decision.*—The United States Supreme Court on May 27 dismissed the application of James Pollitz for a mandamus to compel Judge Lacombe of the United States Circuit Court in this city to remand to the State courts the suit brought to restrain the company from issuing bonds under its new first refunding and extensions mortgage. Compare V. 83, p. 1525, 1349; V. 84, p. 1115, 1053.

Washington Railway & Power Co. of Vancouver, Wash.—*New Stock.*—The company on May 21 filed at Olympia, Wash., a certificate of increase of capital stock from $150,000 to $500,000.

INDUSTRIAL, GAS AND MISCELLANEOUS.

American Bakery Co., St. Louis, Mo.—*Consolidation.*—*Bond Issue.*—This Missouri corporation on March 1 took over the property and business of seven of the leading bread-baking establishments of St. Louis. The officers are: Adolph Boettler, President; John B. Heydt, First Vice-President; John Hoerr, Second Vice-President; John Bohenkamp, Secretary; Fred S. Freund, Treasurer.

The "St. Louis Globe-Democrat" of Jan. 23 said:

The bakeries going in and which have signed the agreement are: Welle-Boettler Bakery Co., Freund Bros.' Bread Co., Hauck & Hoerr Bakery Co., Home Bakery Co., St. Louis Bakery Co., Heydt Bakery Co. and A. A. Condon Bread Co.

The total capitalization of the American Bakery Co., to which the seven concerns sell outright, will be $4,000,000, divided as follows: $1,000,000 6% gold bonds, of which $775,000 will be issued and sold or given in payment for the plants; $1,000,000 in 7% preferred stock, of which $755,000 will be issued immediately, the balance to remain in the treasury; $2,000,000 common stock, a controlling interest in which remains with the bakers, and the balance to be given as a bonus with the bonds.

Of the bonds, $425,000 have been underwritten at 95 by the Missouri-Lincoln Trust Co., which takes $225,000, and John E. Beggs, a distiller of Terre Haute, Ind., and associates, who take $200,000. The cash received from these bonds goes to the owners of the seven concerns, who also receive the balance of the bonds issued in payment for their stock. The bondholders get $500 common stock with each $1,000 bond. The preferred stock goes to the bakery owners.

The company expects to pay 6% on the common stock from the start. This is based on estimates of the earnings of the several concerns for several years past. The sales last year of all of them are placed at $1,746,000. In view of a statement that one of the concerns alone made $276,000 (net) profits in the last three years, the estimated profits with existing competitive methods eliminated does not seem exaggerated. As security for the bonds, the promoters estimate the fixed and quick assets of the company in the way of real estate and buildings at $1,125,000.

]The bonds, of which $775,000 are outstanding, are dated Mar. 1 1907 and are due Mar. 1 1927, without option of earlier redemption; interest rate 6% per annum, payable Mar. 1 and Sept. 1 at office of trustee, Missouri-Lincoln Trust Co., St. Louis; denominations $100, $500 and $1,000; annual sinking fund 3% of face of all bonds outstanding after 1910; no prior liens remain outstanding. The remaining $225,000 first mortgage bonds may be issued for extensions if deemed necessary by nine of the eleven directors. Of the $2,000,000 common stock $1,875,000 is outstanding. The preferred stock ($1,000,000 authorized) is 7% cumulative; amount outstanding $755,000; par of all shares $100. The company was incorporated in Missouri on Feb. 14 1907. The bakeries purchased are correctly named in the foregoing quotation.—Ed. "Chronicle."]

Black Diamond Anthracite Coal Co.—*Colliery Sold.*—This company, after spending a considerable sum in the development of its property, has sold its colliery in Branch Township Pennsylvania to Cornelius E. Parker, of Boston, for a sum stated as $34,500. T. V. Powderly is President.—V. 81, p. 213; V. 75, p. 137.

Cabin Creek Consolidated Coal Co.—*Merger.*—This company, organized under the laws of Ohio in February last with $1,500,000 capital stock, by Cincinnati men, has, it is stated, taken over the various coal properties located on Cabin Creek, Kanawha County, W. Va., which were recently reported as purchased for about $3,000,000. Bond issue, if any, not made public. The "Engineering and Mining Journal" of April 13 said:

The companies merged in the new company are the Cabin Creek, Raccoon Fork, United Colliery, Shamrock, Thistle Coal, M. T. Davis Coal, Holley Coal, Quarrier Coal, Belleclare Coal, Red Warrior, Cherokee Coal, Caledonia Coal & Coke, Stevens Coal, and a new lease from the Shonk-Garrison Coal Co. of 3,700 acres, as well as the river tipple of the Stevens Coal Co. at the mouth of Cabin Creek. The deal embraces about 20,000 acres on Cabin Creek.

Officers: President, M. T. Davis; Vice-President, James Kay; Treasurer, W. M. Packett; Secretary, S. P. Richmond; Directors, M. T. Davis, James Kay, W. A. Ohley, Azel Ford, W. M. Puckett, E. W. Knight and Malcolm Jackson.

Canadian Improvement Co.—*Renewal of Notes.*—The 6% notes of this company, aggregating about $2,700,000 in amount, and held by various banks in Philadelphia, New York and Canada, have been renewed for one year without commission. The notes are secured by Lake Superior Co. first mortgage and collateral 5% bonds.

The Canadian Improvement Co. provided the balance of the cash requirements of the reorganization plan of the Consolidated Lake Superior Co. (now the Lake Superior Corporation) above the amount received from all other sources. It secured from the Province of Ontario, Canada, a guaranty of its $2,000,000 of 2-year 5% notes, of which $1,000,000 was paid off May 1 1906 and the remainder extended to Oct. 1 1907. These notes (V. 82, p. 1044; V. 83, p. 1101; V. 84, p. 870) are known as the "Government loan" and are entirely distinct from the notes just renewed. As to Canadian Improvement Co., see also items under caption of Consolidated Lake Superior Co., V. 78, p. 1784, 1551; V. 77, p. 771.

Central Oil Co., Boston.—*Option to Subscribe to Preferred Stock.*—The holders of $1,501,250 (common) stock were offered the right to subscribe at par ($25 per share) less a commission of 5%, until and including May 20, for $250,000 7% cumulative preferred stock to the extent of one share for every six shares of their respective holdings as shown on the company's books. Treasurer James Milne, Devonshire Building, Boston, under date of May 3, says in substance:

At the stockholders' meeting held April 22 1907 it was voted that the $498,500 of unissued capital stock, consisting of 19,950 shares of $25 each, be made a 7% cumulative preferred stock. The common stock consists of the $1,501,250 stock heretofore issued. The directors accordingly offer $250,000 of said pref. stock to the stockholders proportionately at par. The privilege of subscribing will expire May 20 1907. Subscriptions will be payable 50% June 1 1907 and 50% Aug. 1 1907, at the State Street Trust Co., Boston. A commission of 5% on the subscription price will be paid to each subscriber concurrently with his payment of the second installment of 50%. Payments may be anticipated, if desired, with the allowance of a discount of 6% per annum.

The proceeds will be used for working capital and to retire the bonds already sold. A new product of the refining plant is meeting with great favor as a substitute for turpentine and the rapidly increasing demand therefor (turpentine becoming more expensive) makes it desirable to push sales and provide for liberal stores of crude material. The additions to the refinery will be completed in the next sixty days, thereby doubling the capacity of the plant and providing for an output of 1,000 barrels of finished products per day.

Rights of Preferred Shares (from the Form of Stock Certificate).

The preferred stock is entitled out of net profits, in preference to any dividends on the common stock, to dividends at the rate of 7% per annum, payable semi annually. To such extent as the dividends may not be earned and paid in any given year they will accumulate and become payable out of the earliest net profits thereafter available for dividends. In liquidation the preferred stock will have a prior claim to payment, but all capital and assets distributable in excess of the par value thereof and any dividends accrued and remaining unpaid will belong wholly to the common stock. All rights from time to time arising to subscribe for capital stock or securities are to be accorded to the common stock alone. The holders of the common and preferred stock have like voting power, i.e., one vote for each share held, of whichever class. Any of the preferred stock may, at the holder's option be converted into an equal amount of common stock. The right is reserved to redeem the preferred stock, in whole or in part, by paying par and 10% premium, together with any accrued and unpaid dividends.—V. 83, p. 1413.

Consolidated Gas Co. of New York.—*Suits by City.*—Corporation Counsel Ellison has begun actions in the New York Supreme Court to test the validity of the franchises of the company and its various controlled properties. The hearing on the application of Attorney-General Jackson for leave to bring suit to annul the company's charter has been adjourned to Monday next. Arthur H. Masten, special master in the suit pending in the United States Circuit Court, has granted the attorneys time until Monday next to suggest changes and file exceptions to his report. Compare V. 84, p. 1250, 1055.

Decatur (Ala.) Land Co.—*Tenders Asked for Sale of Preferred Shares.*—In accordance with the provisions of the charter, the board of directors has determined to devote such sum as may be available for the purpose to the purchase of the preferred stock at the lowest price offered; such stock to be retired and canceled. Holders are requested to submit tenders to President Harry L. Falk, 56 Beaver St., New York City. Forms will be furnished on application to the Secretary, L. P. Troup, New Decatur, Ala. Tenders will all be opened at 3 p. m., July 5 1907.—V. 77, p. 402.

Dilworth Coal Co., Pittsburgh.—*New Trustee.*—The Guarantee Title & Trust Co. of Pittsburgh was recently appointed to succeed the Equitable Trust Co. of Pittsburgh as trustee, under the first mortgage dated Jan. 1 1902, securing an issue of 5% gold bonds amounting to $300,000. A second mortgage has been filed securing an issue of $300,000 6% gold bonds dated April 1 1907, "needed for extensions and purchase of property," but none of this issue has been sold.

The company, which mines and ships coal, was incorporated in 1901 with $400,000 capital stock ($385,550 now outstanding—par $50) and acquired some 780 acres of coal lands near Rice's Landing, on the Monongahela River in the Fifth pool. The first mortgage bonds are due in 1922, but are subject to call at 110, interest payable July 1 and Jan. 1 at office of trustee; denomination $1,000. President, H. P. Dilworth; Treas., R. M. Mackenzie, Pittsburgh.

Esmond Mills, Enfield, R. I.—*Bonds Offered.*—Hunt, Mann & Saltonstall, 60 State St., Boston, are offering at par and interest the outstanding $250,000 1st mortgage 6% sinking fund gold bonds due March 1 1927, but subject to call for the sinking fund on any interest date at 105 and interest.

Authorized issue $500,000, of which $250,000 reserved for additions and improvements. Interest payable March 1 and Sept. 1 at the Rhode Island Hospital Trust Co., Providence, R. I., trustee. A New Jersey corporation with $500,000 outstanding capital stock, engaged in the manufacture of highest-grade cotton fabrics, principally blankets. "The bonded debt is now 55.55% of the cost of tangible property and can never exceed 61.11%, exclusive of the value of patents." Clarence Whitman is President.

Federal Mining & Smelting Co., New York.—*Earnings.*—An official statement of earnings for the quarter ended May 31, partly estimated, shows net profits of $729,000, of which $510,000 was used for dividends, leaving $219,000 to be added to surplus account.—V. 83, p. 1349.

Great Eastern Telephone Co., New York City.—*Decision.*—The Court of Appeals on May 28 handed down a decision, affirming those of the lower courts, denying the application of the New York Electric Lines Co. a mandamus compelling the Commissioner of Water, Gas & Electricity to issue a permit to it to build subways or conduits under certain streets of the city. Judge Chase wrote the prevailing opinion.

Alton B. Parker, counsel for the New York Electric lines, is quoted as saying that the decision sustains the lower court in holding that the charter of the New York Electric Lines Co. has not lapsed and that while the right to build conduits is decided to have been lost, that to string wires remains. The decision, it is claimed, is based largely on the ground that the Court holds that accommodation can be furnished by the Empire City Subway. Compare V. 83, p. 1173, 496.

International Match Co.—*Further Facts.*—This company, mentioned last week, it appears was one of those fathered by the late Frank K. Hipple of Philadelphia, who, it is said, pledged 40,000 shares of the stock to secure an alleged loan of $65,000. (Compare Pennsylvania Sugar Refining Co. V. 83, p. 497.)

International Mercantile Marine Co.—*Statement to New York Stock Exchange—Voting Trust—Rights of Stock—Securities Pledged.*—The New York Stock Exchange April 24 listed this company's stock and bonds, the latter bearing 4½% (not 4% interest).—Compare V. 84, p. 999. The statement to the Exchange affords the following:

Voting Trust.—All the authorized capital stock, consisting of $60,000,000 each of common and preferred, was issued, and the certificates, with the exception of 110 shares of common (directors' shares), were deposited with the voting trustees under the Voting Trust Agreement of Oct. 28 1902, to be held until Oct. 1 1907 unless a majority of the voting trustees, in their discretion, make an earlier delivery upon not less than sixty days' notice. The company has acquired and there is now in its treasury preferred stock trust certificates of $8,269,029 par value and common stock trust certificates aggregating $10,067,265 par value. The voting trustees are entitled to vote all the shares of stock for every purpose, and to consent to any corporate act, but shall not vote said stock to authorize any additional mortgage or other lien, or to authorize any increase in the amount of the authorized capital stock without, in each instance, the consent of the registered holders of stock trust certificates calling for two-thirds in amount of the pref. stock outstanding. The voting trustees are J. Pierpont Morgan, Charles Steele, J. Bruce Ismay, Peter A. B. Widener and W. J. Pirrie.

The preferred stock is entitled to receive, when and as declared, from the surplus or net profits of the company, yearly dividends at the rate of 6% per annum, and no more. The dividends on the preferred stock are

cumulative. Dividends on the common stock may only be declared and paid after all accrued dividends on the preferred stock have been paid, and shall never in any one year exceed 10% so long as there shall remain outstanding any of the 4½% "mortgage and collateral trust gold bonds." In the event of liquidation, the holders of preferred stock are entitled to be paid in full both the par amount of their shares and the unpaid dividends accrued. After such payments, the remaining assets and funds shall be divided and paid to the holders of the common stock.

Bonds—Securities Pledged.—The 4½% "mortgage and collateral trust" gold bonds are dated Oct. 1 1902. The authorized issue is limited to $75,000,000, of which $52,744,000 have been issued. The remaining $22,256,000, or any part thereof, can be issued only as set forth in Art. 1, Sec. 3, of the deed of trust.

Securities Pledged as Part Security for Mortgage and Col. Tr. 4½s of 1902.

100 shares of £10 each of International Navigation Co., Lim	£1,000
20 shares of Francs 5,000 per share of Societe Anonyme de Navigation Belge-Americaine	Francs 100,000
29,993 shares of $100 each of Atlantic Transport Co. of West Virginia (out of a total authorized issue of 30,000 shares)	$2,999,300
25 Share Lien Certificates of International Navigation Co., Limited, for £1,000,000 each, aggregating £25,000,000, being the total issue thereof	£25,000,000

Under these £25,000,000 share lien certificates, the International Mercantile Marine Co. is entitled to the benefit of the provisions of a trust indenture dated Sept. 29 1902, made between the International Navigation Co. Limited, of the one part, and the New York Security & Trust Co. (now The New York Trust Co.), of the other part, whereby the following shares and properties, also deposited with the trustee as security for the bonds, are charged with the payment of the total amount represented by the certificates, viz.:

Securities, etc., Pledged Under £25,000,000 Share Lien Certificates as Further Security for said 4½% Bonds of 1902.

	Total Pledged	*Total Issued*
750 shares of £1,000 each, being the total capital stock of the Oceanic Steam Navigation Co., Lim	£750,000	£750,000
45,432 shares of £10 each of the capital stock of the British & North Atlantic Steam Navigation Co., Lim	454,320	456,920
21,437 shares of £15 each of the capital stock of the Mississippi & Dominion Steamship Co., Lim.	321,555	323,070

118,463 ordinary shares of £10 each of the capital stock of Frederick Leyland & Co. (1900), Lim	1,184,630	1,200,000
58,703 preference shares of £10 each of Frederick Leyland & Co. (1900), Lim	587,030	1,415,000

The business, goodwill, assets and property of the partnership firm of Ismay, Imbrie & Co., excluding therefrom certain properties and rights.

The business, assets and goodwill of the partnership firm of Richards, Mills & Co., excluding therefrom certain properties and rights.

The "share lien certificates" mature Oct. 1 1922, and in the meantime the registered holders thereof are entitled, *pro rata*, to receive all dividends declared and paid upon the shares and all net surplus profits of the business of the firms mentioned above. International Navigation Co., Lim., has the right at its option any time before Oct. 1 1922, to retire the certificates by payment to the New York Trust Co, for account of International Mercantile Marine Company, of the consideration received for the certificates, whereupon the certificates shall be surrendered to International Navigation Co., Lim., to be canceled, and the shares and properties charged as security for the same shall be transferred to International Navigation Company, Lim., or as it shall direct. International Mercantile Marine Co. has the option at any time before Oct. 1 1922 to purchase the said shares and properties charged as aforesaid by surrendering to International Navigation Co., Lim., to be canceled, all of the said certificates. International Mercantile Marine Co. also has the right to re-hypothecate the shares charged as aforesaid under its mortgage and deed of trust of Oct. 1 1902 to New York Security & Trust Co.

Stocks and Properties upon which $19,618,000 Int. Nav. Co. 5% Bonds of 1899 are a First Lien.

69,900 shares of the nominal value of £10 per share of International Navigation Co., Limited, out of a total authorized issue of 70,000 shares.

2,719 shares of the nominal value of francs 5,000 per share of Societe Anonyme de Navigation Belge-Americaine out of a total authorized issue of 2,769 shares.

Receipts for payment of $145,530 on account of a certain stamship known as "No. 393," now under construction by Messrs. Harland & Wolff, Limited, of Belfast.

The steamships "New York," "Philadelphia" (formerly called the "Paris") "St. Louis," "St. Paul," "Kroonland" and "Finland"; also $86,381 cash.

The Stock Exchange has corrected a slight error which appeared in the application for listing. The $19,618,000. International Navigation Co.'s first mortgage sinking fund 5% gold coupon bonds, due Feb. 1 1929, are redeemable Feb.1 1909, the latter clause being left out in the original application. The $22,256,000 4½% bonds due Oct. 1 1922 are not redeemable after Feb. 1 1909, as was originally stated in the application.—V. 84, p. 999.

Jenifer Coal & Iron Co.—See Jenifer Furnace Co. below.

Jenifer (Ala.) Furnace Co.—*Settlement with Creditors.*—A press dispatch from Anniston, Ala., on May 11 said:

The creditors are jubilant over the outcome of suits instituted in the United States Court some time ago for the recovery of various individual claims amounting in the aggregate to about $200,000. Prior to the announcement of the suits the company had offered settlements on a basis of from 10 to 20 cents on the dollar. According to the settlement just reached, they pay 100 cents on the dollar, together with attorneys' fees and accrued costs. See V. 79, p. 155.

The Jenifer Coal & Iron Co. was incorporated in Alabama on May 23 with $150,000 capital stock, the directors being J. M. Thomas, President; Geo. Schumacher, of Anniston, Ala., and Aubrey Thomas of Niles, Ohio, for the purpose, it is understood, of taking over the property.—V. 79, p. 155.

Journeay & Burnham Co., Brooklyn, N. Y.—*Sale of Merchandise.*—Supreme Court Justice Kelly, in Brooklyn, on May 29, authorized Receiver Wm. E. Phillips to accept the bid of $185,000 made by E. E. Edwards & Sons, of Syracuse, for the merchandise of the company and to dispose of the delivery system, if possible, for not less than $9,000. Mr. Phillips is quoted as saying that the creditors will be paid dollar for dollar, but how much will remain for the stockholders is not yet known.—V. 84, p. 1117, 573.

Lake Superior Corporation.—See Canadian Improvement Co. above.—V. 84, p. 870, 697.

Louisville (Ky.) Lighting Co.—*New President.*—F. M. Sackett, who was recently elected President of the Louisville Gas Co., has been elected President to succeed Adolphe Snead, who resigned to move to New York. Mr. Snead will remain a director.—V. 84, p. 1252.

Lykens Valley Coal Co., Philadelphia.—*Sale.*—Under an order of the Court of Common Pleas, in the suit of Samuel Rea, trustee under $1,500,000 mortgage of 1875, the company's property will be sold at auction at the Bourse, Philadelphia, on June 25.—V. 64, p. 330.

Midland (Ontario) Navigation Co.—*Bonds Offered.*—The Detroit Trust Co., Detroit, Mich., is offering at par its 5% interim receipts, to be exchanged for $100,000 first mortgage 5% gold bonds secured by a first mortgage to Mr. Alexander McPherson, President Detroit Trust Co., on the new steel freighter "Midland Prince."

Builders: Collingwood Shipbuilding Co., Ltd., Collingwood, Ont. Approximate dimensions: 485 feet over all, 55 feet beam, 31 feet depth, 9,000 tons capacity. Cost of vessel, $325,000. Coupon bonds to be dated July 1 1907; issue, $130,000. Denomination $1,000. Payable in ten annual installments. Interest payable Jan. 1 and July 1 at the Detroit Trust Co.

A company known as the Midland Navigation Co., Limited, was incorporated in Ontario in 1901 with $200,000 capital stock, the incorporators including Arthur Hill, J. S. Playfair, James Playfair, W. J. Morrice and D. L. White.

Mexican Light & Power Co.—*Purchase.*—This company has completed its purchase of the Puebla Tramways, Light & Power Co., which last year acquired the City and Industrial railways and the Electric Lighting Co. of Puebla, also the Tuxpango waterfalls on the Rio Blanco near Orizaba, where it is proposed to develop 30,000 h. p. for transmission to Puebla. The work contemplated in electrifying the tramways, reconstruction of the plants and the development of the water-power will, it is estimated, cost $6,000,000 gold; but no facts regarding the financing of the purchase and subsequent work are as yet available. Compare Puebla Tramways, Light & Power Co. in V. 83, p. 272, 493, 626.—V. 84, p. 999, 691.

Mississippi Glass Co., St. Louis.—*Purchase.*—This company has purchased the Sergeant Glass Company's plant at Kane, Pa., and will operate it in manufacturing rolled, figured, polished plate and "wire glass."

The purchase covers the factory, sand quarries, water rights, workmen's dwellings and about 500 acres of land. The company states that with this new plant and its facilities added to its Latrobe, Port Allegany, Morgantown and St. Louis factories, the Mississippi Company becomes the world's largest producer of flat glass—rolled, figured, corrugated, prism and "wire glass"—having a capacity of 30,000,000 sq. ft. per annum.

The company is not prepared to say how the purchase has been or will be financed, nor to confirm the printed statement that its own capitalization consists of $3,000,000 outstanding stock and $750,000 1st mortgage 6% bonds. New York office, 115 Broadway.—V. 78, p. 1552.

Montana Coal & Coke Co., Boston.—*Bond Issue.*—This company has filed a mortgage (International Trust Co., Boston, trustee) to secure an issue of $1,000,000 6% 20-year bonds dated Jan. 1 1907, subject to call on any interest day at 105; interest payable July 1 and Jan. 1. Compare V. 84, p. 629, 511, 394.

Nashua Manufacturing Co.—*Dividend Omitted.*—The directors at their meeting on May 28 omitted the declaration of the regular semi-annual dividend of 5%, the reason being, it is understood, the breaking of the dam and the building of a new mill. Compare V. 83, p. 1350.

New Jersey Terminal Dock & Improvement Co.—*Foreclosure Suit.*—The Standard Trust Co., New York, as trustee under this company's $3,000,000 mortgage of 1905, under which there are about $2,386,000 bonds outstanding, has brought foreclosure proceedings against the company as previously against the Hackensack Meadows Co., under the Ferrier mortgage, preparatory to a merger of the concerns. Compare V. 84, p. 935, 871, 511.

Niagara Falls Power Co.—*Report.*—For fiscal year ending Dec. 31 1906:

Gross Earns.	*Net Earns.*	*Other Inc.*	*Bond Int.*	*Taxes, &c.*	*Bal., sur.*
$1,370,308	$1,044,184	$79,400	$680,120	$106,777	$336,687

Interest on the $4,980,000 6% debentures (Canadian collateral series A and B) was included in the cost of construction of the Canadian plant up to Jan. 1 1907, from which date the plant has been in commercial operation. Including the Canadian property, the Niagara Falls Power Co. has available plants with an aggregate capacity for an output of about 117,000 horse power, of which about 95,000 is yielding revenue. See V. 84, p. 807, 224.

North American Company.—*Notes Offered.*—Redmond & Co., New York, and Lee, Higginson & Co., Boston, are offering by advertisement on another page, at 93⅝ and interest, at which price the investor receives 6½% interest, $2,500,000 of the authorized issue of $5,000,000 5-year 5% collateral trust gold notes dated May 1 1907 and due May 1 1912, but subject to call at company's option after two years from date, on 30 days' notice, at 101 and interest. These notes are secured by the deposit of $5,000,000 of the common capital stock of the Laclede Gas Light Co. of St. Louis, and by $1,500,000 of the capital stock of the Union Electric Light & Power Co. of St. Louis, and they are further protected by the provision that the company shall deposit additional collateral, if necessary, "so that the appraised value of the pledged securities shall always be at least 30% in excess of the par value of the notes outstanding." The North American Co. has no other outstanding indebtedness and it is paying dividends at the rate of 5% per annum on its $29,792,300 capital stock. See advertisement also additional particulars in V. 84, p. 1252, 1185.

Ohio & Indiana Consolidated Natural Gas & Illuminating Co.—*Receiver.*—Judge R. W. Anderson of the United States Court on May 25 appointed Samuel T. Murdock of Lafayette, Ind., receiver of the property of the Ohio & Indiana Gas Co., Indiana Natural & Illuminating Gas Co., Logansport & Wabash Gas Co. and Lafayette Gas Co., in the pending foreclosure suits of the Central Trust Co., New York.—V. 84, p. 1056, 871.

Owens Bottle Machine Co., Toledo, O.—*Payment of Accumulated Dividends.*—See foot-notes to balance sheet under "Annual Reports" on a preceding page.—V. 83, p. 1595.

Pacific Lighting Corporation, San Francisco, Cal.—*Reincorporation—Stock Increase.*—This company filed articles of incorporation under California laws on May 20 with $20,000,000 authorized capital stock, in shares of $100 each, of which one-half is preferred, to enlarge the scope of the Pacific Lighting Co., a holding company, with headquarters at San Francisco, its paid-in capital stock and surplus having recently been $2,722,702 (the authorized stock being 40,000 shares of $10 each; outstanding, 37,000 shares, on which in 1903 $47 per share was officially reported to have been paid in. V. 76, p. 923). Among the companies controlled are the Los Angeles Gas & Electric Co. (a consolidation in 1904 with $4,000,000 stock and $3,035,000 bonds—see V. 78, p. 1965; V. 79, p. 107, 630; V. 83, p. 1527—of the Los Angeles Lighting Co. and Los Angeles Electric Co., two companies whose entire share capital was owned by the Pacific Lighting Co.; also the Eureka (Cal.) Light Co. (stock $250,000, of which 67% owned) and Pasadena Consol. Gas Co. (V. 83, p. 441). The incorporators of the new company are:

Alfred Sutro, C. O. G. Miller, George F. Voltman, Charles Holbrook and G. H. Collins.—V. 83, p. 497.

Philadelphia Company for Guaranteeing Mortgages.—*New Enterprise—Charter Granted.*—This company was incorporated on May 22 1907 under the laws of Pennsylvania, "being the first corporation organized in the State purely for the purpose of buying, selling, collecting and guaranteeing payment of ground rents, mortgages and other real estate securities." The company has a temporary office in the Land Title Building (Room 833), Philadelphia. Directors and officers:

Directors: Abraham M. Beitler, Edward H. Bonsall, Ellwood Bonsall, Henry P. Brown, Harry G. Clay, Henry R. Gummey, Richard M. Hartley, Louis B. Henry, George W. Kendrick Jr., John C. Lowry, William R. Nicholson, C. Stuart Patterson, Frank P. Prichard, Walter George Smith, Henry W. Watson. Officers: President, William R. Nicholson, President The Land Title & Trust Co. of Philadelphia; Vice-President, Louis B. Henry; Secretary and Treasurer, Samuel C. Edmonds, for the past nine years the efficient and trusted head of the State and City Department and State and City Section of the "Commercial and Financial Chronicle," a position he relinquished to take up his new duties.

An authoritative statement follows:

Capital, $1,000,000; surplus, $250,000. The stock is divided into 10,000 shares of the par value of $100 each, which were offered for subscription at $125 per share, and were quickly subscribed, chiefly by men identified with the Land Title & Trust Co. of Philadelphia and their friends. The sole business of the corporation will be the purchase and sale of first mortgages on improved real estate in the city of Philadelphia and vicinity; the guaranty of the payment of the principal and interest of such mortgages, and the issuing of mortgage certificates. The experience of similar companies in other cities, notably New York and Brooklyn, has proven this business to be safe and profitable, and the securities guaranteed by them are much sought after by institutions and individuals as safe investments.

Pocahontas Consolidated Collieries Co.—*Merger Company Incorporated.*—This company was granted a charter on May 24 by the Virginia Corporation Commission, with $7,800,000 authorized capital stock (of which $2,800,000 is preferred) to merge the Pocahontas Collieries Co. and the Pocahontas Consolidated Co., per plan in V. 84, p. 1000.

Pittsfield (Mass.) Electric Co.—*New Bond Issue.*—See Pittsfield Electric Street Ry. under "Railroads" above. —V. 77, p. 1297, 454.

St. Clair County (Ill.) Gas & Electric Co.—*Consolidation.*—This is the correct name of the company recently formed with $3,500,000 capital stock by consolidation of East St. Louis Gas Light Co. and the Belleville Gas & Electric Co. See V. 84, p. 511.

Bond Issue.—A mortgage has been filed to the Girard Trust Co. of Philadelphia, as trustee, to secure an issue of $3,500,000 5% gold bonds

Shawinigan Water & Power Co.—*Debenture Stock.*—The "Monetary Times" of Toronto on May 25 said:

At a meeting of the company held on Tuesday, it was decided to issue perpetual 4½% debenture stock to the value of $1,250,000 par. A further issue will not be made until the earnings amount to twice the interest on the present issue. The English market will take the issue, none being offered on this market. The object of the stock is partly to pay for acquiring the North Shore Power Co., at Three Rivers, and the Continental Light, Heat & Power Co., at Thedford Mines. The debenture stock will be a first charge on the securities being acquired, and will rank next to the first mortgage bonds on the rest of the property.

The earnings in February 1906 were $27,078, those in February 1907 being $42,571 and those last month being $44,150, so that the progress of the company is very satisfactory. Since April the company is said to have secured a contract with the Northern Aluminum Co. by which its annual revenue will be increased to about $629,800. Compare V. 84, p. 697.

South Baltimore Steel Car & Foundry Co.—*New Stock.*—Stockholders of record May 30, have the right to subscribe pro rata at par till June 15 for $250,000 preferred stock, with a bonus of 50% ($125,000) in common stock, making the total authorized share capital ($1,000,000 common and $500,000 6% preferred) outstanding. A dividend of 3% has been declared on the common shares, payable June 28 to holders of record April 30. Dividends on the preferred stock are payable in February and August.

A special train on May 22 carried the stockholders to Curtis Bay to inspect the plant, which, it is stated, gives constant employment to 3,300 men and turns out 50 "completed model metal cars a day." The total surplus is said to be over $300,000. Officers: President, Howard Carlton; Chairman of the Board, Charles T. Crane; Vice-President, J. Edward Harvey; General Manager, John H. Farlow; Treasurer, Carter G. Osborn; Secretary, H. Milton Luzius. See article in "Baltimore Sun" of May 23.—V. 81, p. 1562.

South Shore Gas & Electric Co., Hammond, Ind.—*Bonds Offered.*—H. T. Holtz & Co., 620 New York Life Building, Chicago, are offering at 95 and interest, making them yield over 5¼% annually on the money invested, $200,000 30-year general mortgage 5% gold bonds dated Dec. 1 1903 and due Dec. 1 1933, but redeemable on and after Dec. 1 1908 at 105 and interest. A circular says:

Authorized bond issue, $2,000,000; reserved to take up outstanding bonds of Hammond Illuminating Co., $290,000; outstanding, $512,000; bonds reserved for new construction (can be issued only for 90% of the cash cost of construction), $1,198,000. There are also outstanding $30,000 bonds of Whiting Electric Co.

	——Gas Department——			—Electrical Department—

Total	$71,423	$63,824	$46,304	$26,578

Estimated result for calendar year 1907, gas department sales, 122,000,000 cu. ft.; electric department sales, $86,000; total net earnings, $85,000; bond interest, $41,600; balance, surplus, $43,400. See further particulars in V. 82, p. 937.

Standard Oil Co.—*Decision in Missouri Suit.*—Judge Robert A. Anthony, the commissioner appointed in the suit brought by Attorney-General Hadley of Missouri against the Standard Oil Co. of Indiana, the Waters-Pierce Oil Co. and the Republic Oil Co. to annul the charter of the Waters-Pierce Co. and oust the Standard and Republic companies as foreign corporations, filed his report on May 21 sustaining the contentions of the State.

The defendants were charged with forming a conspiracy to control the sale of oil in Missouri. It is held that while no formal agreement was produced proving a division of territory between the Waters-Pierce and Standard Oil companies, the evidence shows that an understanding for such a division was had as far back as 1876 and faithfully kept.

Chicago Rebate Verdict.—A jury in the Federal Court at Chicago, Judge Landis presiding, on April 13 brought in a verdict finding the company guilty of accepting rebates in violation of the Elkins law under an indictment containing 1,463 separate counts. The minimum fine for each offense is $1,000, the maximum $20,000. Oil, it was charged, was shipped to St. Louis from Whiting, Ind., over the Chicago & Alton at 6 cents a hundred pounds, the regular published rate being 18 cents.—V. 84, p. 1252, 808.

United Fruit Co., Boston.—*Nipe Bay Purchase Approved.*—At the special meeting of the stockholders, held in Jersey City May 29 the proposition to take over the entire common stock of the Nipe Bay Co. was unanimously ratified per plan in V. 84, p. 1057, 755.

United Gas Improvement Co., Philadelphia.—*Philadelphia Gas Lease and Operations.*—See "Annual Reports" on a preceding page.

Kansas City Gas Co. Leases, &c.—See that company above.—V. 84, p. 1253, 1112.

United States Express Co.—*Rates Reduced.*—The Inter-State Commerce Commission on May 5 made its first ruling in regard to express rates, reducing the rates from New Jersey and Pennsylvania points to New York City on cut flowers and on empty flower boxes from New York to the same points.—V. 84, p. 1125, 1057.

United States Starch & Glucose Co. of Philadelphia.—*New Stock.*—This company, incorporated in Pennsylvania March 20 1906, has filed a certificate of increase of capital stock from $150,000 to $4,000,000.

Utica (N. Y.) Gas & Electric Co.—*Bonds—Proposed Acquisitions.*—Application has been made to the New York State Gas Commission for authority (1) to issue $2,000,000 5% 50-year bonds under the $5,000,000 mortgage; (2) to acquire the Herkimer County Light & Power Co., the Glens Falls Gas & Electric Co., the Consolidated Light & Power Co. of Whitehall and 51% of the capital stock of the United Gas, Electric Light & Fuel Co. The commission will give a hearing on the application June 13. Compare V. 84, p. 107.

—Ulman, Morse & Co., 30 New Street and 66 Exchange Place, of this city, to-day opened their branch office at 224 Bellevue Avenue, Newport, R. I., for the summer season. On June 15 their summer branch at Casino Hotel, Narragansett Pier, R. I., will be opened. The firm is composed of Joseph S. Ulman, E. Rollins Morse and N. Rosseter Betts, who are members of the New York and Boston Stock Exchanges, New York Coffee Exchange and Chicago Board of Trade. The concern maintains other offices at 25 West 33d Street (Astor Court) and 718 Fifth Avenue, New York.

—President Charles A. Lockwood of the Jamaica Water Supply Co. announces on another page that the first mortgage 6% bonds which mature June 1 1907 will be paid, principal and interest, on presentation at the office of the People's Trust Co., 181-183 Montague St., Borough of Brooklyn. Holders of these bonds are given the privilege of exchanging their present holdings for Jamaica Water Supply Co. unified first mortgage 5% gold bonds due July 1 1954 at 98 and accrued interest.

—Messrs. E. H. Rollins & Sons, Boston, Chicago, Denver and San Francisco, are offering a selected list of Municipal, Railway and Public Service Corporation Bonds at prices which yield a very good return on the investment. For detailed list see advertisement on another page.

—F. J. Lisman & Co. are offering 2,000 shares Connecticut Railway & Lighting Co. 4% guaranteed common stock to yield 5¼%. See advertisement on another page for full particulars.

—Adams & Co. announce the removal of their Boston office on June 3 from 7 Congress Street to 13 Congress Street.

The Commercial Times.

COMMERCIAL EPITOME.

New York, Friday Night, May 31 1907.

With warmer weather general trade, already large, has increased somewhat and prices have been very generally steady. An excellent trade in manufactures is still a feature. Money rates have been easy and the feeling throughout the country is, for the most part, confident. Speculation in grain and cotton has been sufficiently large to attract attention.

LARD on the spot has been dull and steady. Export trade has continued lifeless. Small jobbing sales have been made of late at 9@9⅛c. for City and 9¼c. for Western. Refined lard has declined owing to the dulness of trade and increased offerings. Refined Continent 9.55c., South America 10.50c. and Brazil in kegs 11.50c. Speculation in lard futures at the West has been active with prices irregular. In the main, however, the tone has been firm, despite considerable realizing at times and the dulness of the spot trade. Packers have given support and commission houses have bought on recessions. Some falling off in the movement of live hogs has also contributed to strengthen the tone.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Frt.
May delivery	8.95	9.00	9.00	9.12½		9.22½
July delivery	9.02½	9.07½	9.07½	9.20	Holl-	9.27½
September delivery	9.15	9.22½	9.22½	9.32½	day.	9.45

COFFEE on the spot has been dull and easy. Rio No. 7, 6⅜c. and Santos No. 4, 6¾c. West India growths have been quiet and steady; fair to good Cucuta 8⅛@9¼c. Speculation in future contracts has been dull and, in the main, devoid of features worthy of note. Fluctuations in prices have been unimportant. At times the tendency of prices has been downward, owing to liberal receipts at Rio and Santos, liquidation and selling against firm offers from Brazil; but local interests have given support in order to prevent any marked depression.

The closing prices were as follows:

June	5.40c.	October	5.25c.	February	5.30c.	
July	5.30c.	November	5.25c.	March	5.35c.	
August	5.25c.	December	5.25c.	April	5.35c.	
September	5.25c.	January	5.25c.			

PORK on the spot has been rather more active with prices steady. A small export business has been reported of late owing to an improvement in the strike situation on the docks. Mess $17 50@$18 50, clear $17 25@$18 25 and family $19@$19 50. Tallow has been steady with trade dull and offerings small; City 6⅜@6½c. Stearines have been quiet and steady; oleo 9½@10c. and lard 10¼@10½c. Cut meats have been quiet and steady; pickled shoulders 10c., pickled hams 12@12½c. and pickled bellies, 14@10 lbs., 11½@12¼c. Butter has been active and firm; creamery extras 24½@25c. Cheese has been moderately active and firm; State, new, small, colored, best, 12½c.; white 12¼c. Eggs have been in fair demand and steady; Western firsts 16¼@16¾c.

OIL.—Cottonseed has been quiet but stronger, owing to an advance in seed and light offerings. Prime summer yellow 60@61c.; winter 65c. Linseed has been moderately active and steady; City, raw, American seed, 44@45c.; boiled 45@46c.; Calcutta, raw, 70c. Lard has been quiet and steady; prime 78@82c.; No. 1 extra 51@52c. Cocoanut has been quiet and steady; Cochin 10¾c.; Ceylon 9¼@9⅜c. Peanut has been dull and steady; yellow 50@60c. Olive has been quiet and firm; yellow 85@90c. Cod has been in moderate demand and steady; domestic 38@40c.; Newfoundland 40@42c.

SUGAR.—Raw has been steady with the sales limited to small lots. Centrifugal, 96 degrees test, 3.90c.; muscovado, 89-degrees test, 3.40c., and molasses, 89-degrees test, 3.15c. Refined has been quiet and steady. Granulated 4.90c. Teas have been in moderate demand and firm. Spices have been steady with a good jobbing demand. Hops have been quiet and steady.

PETROLEUM.—Refined has been firm with a good demand for export and domestic account. Refined, barrels, 8.20c.; bulk 4.75c. and cases 10.65c. Naphtha has been active and firm; 73@76 degrees 18c. in 100-gallon drums. Gasoline has been in brisk demand and firm; 86 degrees 21c. in 100-gallon drums. Spirits of turpentine has been moderately active and firm at 64c. Rosin has been in fair demand and steady; common to good strained $4 90@$4 95.

TOBACCO.—The market for domestic leaf has ruled quiet and firm. Offerings have continued light, holders remaining firm, owing partly to unfavorable crop reports. The continued unseasonably cold weather, according to many reports, is unfavorably affecting the outlook for the crop. Manufacturers, however, generally report few orders. There has been a good trade in Sumatra leaf at firm quotations.

COPPER has been less active and easier; lake 24½@24¾c.; electrolytic 23½@23⅝c. Lead has been dull and steady at 6c. Spelter has been firm at 6⅜@6.45c. Tin has been fairly active and easier; Straits 42½c. Iron has been firm and more active; No. 1 Northern $24 20@25 20; No. 2 Southern $24@25.

COTTON.

Friday Night, May 31 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 47,513 bales, against 51,882 bales last week and 56,619 bales the previous week, making the total receipts since the 1st of September 1906, 9,490,514 bales, against 7,426,996 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,063,518 bales.

Speculation in cotton for future delivery has latterly been active and excited at decidedly higher prices. This was due solely to cool, rainy weather and bad crop reports. There is a growing fear that the Government report, which is to be issued on Tuesday next, will be of a decidedly bullish character. More than that, it is feared that unless the weather conditions in June show a very marked improvement, reaching, in fact, something like the ideal, there may be so marked a falling off in the yield as to seriously disturb the equilibrium between supply and demand. With a big consumption and a deficient supply there would, it is held, be nothing for it but still higher prices. The worst conditions are supposed to exist in the northerly half of the belt, and the best, on the whole, in the extreme southerly portion. Yet it is a fact that a good many unfavorable reports come from all parts of the belt, speaking more particularly of poor stands, weak plants, rotting seed, the necessity of replanting, which has been done in some cases several times, all of which is set down to the baneful effects of prolonged cold and rainy weather. Of late the bull speculation has become rampant, prices in a single day rising 45 to 50 points, and in two days making an advance of fully $4 a bale, amid excitement not equaled since some of the wild days of 1903. Some reports have been issued, too, to the effect that there may be some actual decrease in the acreage. One by a Southern newspaper put it at .6 of 1% less than last year, while another report makes it greater. It is not very generally thought, however, that there will be any decrease in the planted area, though it is believed that very possibly the contemplated increase may be less than was at one time expected, owing to cold weather and heavy rains, grassy fields and the dearness of seed. In the main, it is a question of how productive a very large acreage planted is likely to be. That the acreage will be large under the stimulus of present high prices is accepted by most people as a foregone conclusion. They also contend, as already intimated, however, that weather conditions must greatly improve if we are not to have a repetition of the experience of more than one season in the past, when by reason of bad weather a large acreage has produced really less than a smaller one. During the week Wall Street and the West have been good buyers and the same may be said of the South, of Liverpool and the Continent. In fact, buying has been very general. Some new operators in the Board room have come more plainly to the front on the bull side and the outside public has shown an even greater interest in the speculation. To-day there was another excited and rising market, owing to the continuance of conditions outlined above. Aggravated by cloudbursts in Texas, copious rains in Louisiana, and with low temperature in many sections, and a report by a private statistician putting the condition on May 25 at only 63.4%, against Government figures given out early in June last year of 84.6%, while two years ago they were 77.2%. A rise of 50 to 52 American points in Liverpool and a big speculation among both American and European operators capped the climax. A local house states the condition at 70.2%. Spot has been dull, but strong. Middling closed at 12.90c., an advance for the week of 55 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract, are as follows:

Fair	c. 2.00 on	Strict low mid	c. 0.14 off	Middling tinged	c. 0.12 off
Strict mid. fair	1.75 on	Fully low mid	0.32 off	Strict low mid. ting	0.46 off
Middling fair	1.50 on	Low middling	0.50 off	Low mid. tinged	0.90 off

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph, is as follows. Foreign stocks, as well as the afloat, are this week's returns and consequently all foreign figures are brought down to Thursday evening. But to make the total the complete figures for to-night (Friday), we add the item of exports from the United States, including in it the exports of Friday only.

May 31—	1907.	1906.	1905.	1904.
Stock at Liverpool bales	1,222,000	901,000	828,000	580,000
Stock at London	10,000	14,000	12,000	10,000
Stock at Manchester	94,000	67,000	55,000	51,000
Total Great Britain stock	1,326,000	982,000	895,000	641,000
Stock at Hamburg	9,000	13,000	11,000	22,000
Stock at Bremen	375,000	235,000	345,000	233,000
Stock at Antwerp	-------	-------	1,000	4,000

Continental imports past week have been 143,000 bales.

The above figures for 1907 show a decrease from last week of 188,509 bales, a gain of 439,976 bales over 1906, an excess of 298,921 bales over 1905 and a gain of 1,688,497 bales over 1904.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

Towns.	Movement to May 31 1907.				Movement to June 1 1906.

The above totals show that the interior stocks have *decreased* during the week 24,243 bales, and are to-night 2,249 bales less than at the same time last year. The receipts at all the towns have been 1,063 bales less than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since Sept. 1, as made up from telegraphic reports Friday night. The esults for the week and since Sept. 1 in the last two years are as follows:

	1906-07		1905-06	
May 31—		*Since*		*Since*
hipped—	*Week.*	*Sept. 1.*	*Week.*	*Sept. 1.*
Via St. Louis	10,021	759,301	7,232	492,685
Via Cairo	1,558	210,271	1,217	197,134
Via Rock Island	924	80,312	495	43,219
ia Louisville	1,238	81,413	1,784	96,255
Via Cincinnati	163	51,212	837	54,769
Via other routes, &c	2,156	423,418	1,879	243,726
Total gross overland	16,060	1,605,927	13,444	1,127,988
Deduct shipments—				
Overland to N. Y., Boston, &c	1,707	159,535	741	138,476
Between interior towns	598	93,124	173	19,431
Inland, &c., from South	3,185	58,719	3,046	48,381
Total to be deducted	5,490	311,378	3,960	206,288
Leaving total net overland *a*	10,570	1,294,549	9,484	921,700

a Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 10,570 bales, against 9,484 bales for the week last year, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 372,849 bales.

	1906-07		1905-06

WEATHER REPORTS BY TELEGRAPH.—Advices to us by telegraph from the South this evening indicate that rain has fallen in most sections during the week and that in districts the precipitation has been rather heavy. There are complaints from some localities that the wet weather has interfered with work and is affecting the crop adversely.

Galveston, Texas.—Excessive rains in Texas have damaged the cotton crop still further and delayed cultivation and replanting. It is reported that river bottoms are being overflowed. Start is unusually late and the outlook discouraging. We have had heavy rain on four days during the week, the precipitation reaching three inches and ten hundredths. The thermometer has averaged 75, ranging from 66 to 83.

Abilene, Texas.—There has been rain during the week to the extent of two inches and twenty hundredths, on four days. The thermometer has ranged from 48 to 94, averaging 71.

Brenham, Texas.—There has been excessive rain on four days during the week, the precipitation reaching eight inches and two hundredths. Average thermometer 76, highest 90 and lowest 58.

Corpus Christi, Texas.—We have had showers on three days of the week, the rainfall being fifty-six hundredths of an inch. The thermometer has averaged 73, the highest being 82 and the lowest 64.

Cuero, Texas.—There has been excessive rain on five days of the past week, the rainfall reaching four inches and sixty-three hundredths. The thermometer has averaged 77, ranging from 60 to 93.

Dallas, Texas.—We have had excessive rain on four days of the week, the rainfall reaching four inches and seventy-eight hundredths. The thermometer has ranged from 51 to 85, averaging 68.

Fort Worth, Texas.—The week's rainfall has been three inches and fifty-one hundredths, on four days. Average thermometer 69, highest 86 and lowest 52.

Henrietta, Texas.—We have had rain on four days of the week, the rainfall being one inch and seventy-three hundredths. The thermometer has averaged 70, the highest being 89 and the lowest 50.

Huntsville, Texas.—There has been rain on four days the past week, to the extent of four inches and fifty hundredths. The thermometer has averaged 70, ranging from 60 to 79.

Kerrville, Texas.—We have had rain on four days of the week, the rainfall reaching two inches. The thermometer has ranged from 55 to 85, averaging 70.

Lampasas, Texas.—There has been rain on three days of the week, the precipitation reaching two inches and seventy hundredths. Average thermometer 71, highest 88 and lowest 53.

Longview, Texas.—There has been heavy rain on four days of the week, the precipitation reaching three inches and ninety-five hundredths. The thermometer has averaged 72, the highest being 90 and the lowest 53.

Luling, Texas.—We have had excessive rain on three days of the week, the precipitation being six inches and sixty-three hundredths. The thermometer has averaged 74, ranging from 58 to 90.

Nacogdoches, Texas.—We have had heavy rain on four days during the week, the rainfall reaching two inches and seventy-seven hundredths. The thermometer has ranged from 55 to 88, averaging 72.

Palestine, Texas.—Rain has fallen during the week to the extent of three inches and fifty-eight hundredths, on four days.

Paris, Texas.—There has been rain on five days during the week, to the extent of three inches and thirty hundredths. The thermometer has averaged 68, the highest being 85 and the lowest 50.

San Antonio, Texas.—There has been heavy rain on four days of the past week, the rainfall reaching twofinches. The thermometer has averaged 73, ranging from 58 to 88.

Weatherford, Texas.—There has been rain on six days during the week, to the extent of three inches and two hundredths. The thermometer has ranged from 51 to 90, averaging 71.

Ardmore, Indian Territory.—Heavy rains on Tuesday and Wednesday. Cotton prospects much worse. Weather too cold. Replanting made necessary.

New Orleans, Louisiana.—There has been rain on four days during the past week, the precipitation reaching four inches and forty-six hundredths. The thermometer has averaged 76.

Leland, Mississippi.—We have had rain on six days during the week, the rainfall reaching one inch and eighty-seven hundredths. The thermometer has ranged from 47 to 82, averaging 63.7.

Vicksburg, Mississippi.—There has been beneficial rain on five days during the week, the precipitation reaching two inches and ten hundredths. Average thermometer 68, highest 86 and lowest 51.

Little Rock, Arkansas.—Crop conditions have not improved. There has been low temperature the past week and excessive rain, which has retarded growing crops. It is raining now. There has been rain during the week to the extent of four inches, on five days. The thermometer has ranged from 52 to 83, averaging 68.

Helena, Arkansas.—Farmers are discouraged at the unfavorable conditions. We have had showers on five days during the week, the precipitation reaching three inches and fifty-eight hundredths. The thermometer has averaged 66, ranging from 52 to 84.

Memphis, Tennessee.—The weather has generally been unfavorable—too wet and cold nights. The crop is very backward and needs warm dry weather. Rain has fallen on five days during the week to the extent of one inch and ten hundredths, and it is raining now. Average thermometer 65.1, highest 79.2, lowest 48.3.

Nashville, Tennessee.—We have had rain during the week, the rainfall reaching ninety-three hundredths of an inch. The thermometer has averaged 64, the highest being 84 and the lowest 44.

Mobile, Alabama.—Crop reports are gloomy. Heavy rains in the interior have prevented farm work making much progress. The cotton crop is in a critical condition. We have had rain on four days during the week, the precipitation reaching one inch and fifty hundredths. The thermometer has averaged 75, ranging from 59 to 83.

Montgomery, Alabama.—There is a very slight improvement in the outlook. Frequent rains are damaging. Crop very backward. We have had rain on four days of the week, the rainfall reaching one inch and sixteen hundredths. The thermometer has ranged from 50 to 86, averaging 66.

Selma, Alabama.—Sunshine is badly needed. It has been cloudy all the week with rain on three days, the precipitation reaching one inch and thirty-eight hundredths. Average thermometer 68.5, highest 81 and lowest 50.5.

Madison, Florida.—We have had showers on one day during the week. The thermometer has averaged 77, the highest being 93 and the lowest 61.

Augusta, Georgia.—We are having too much rain. Crops are small and very late. There has been rain on five days of the past week, the rainfall reaching two inches and thirty-one hundredths. The thermometer has averaged 71, ranging from 53 to 86.

Savannah, Georgia.—We have had rain on three days of the week, the rainfall reaching sixty-six hundredths of an inch. The thermometer has ranged from 64 to 87, averaging 73.

Charleston, South Carolina.—There has been rain on three days of the week, the precipitation reaching thirty-two hundredths of an inch. Average thermometer 73, highest 86 and lowest 59.

Greenwood, South Carolina.—We have had rain on three days of the week, the rainfall being thirty-seven hundredths of an inch. The thermometer has averaged 59, the highest being 69 and the lowest 49.

Charlotte, North Carolina.—Rain has fallen during the week to the extent of one inch and fifty-one hundredths. The thermometer has averaged 68, the highest being 87 and the lowest 51.

The following statement we have also received by telegraph, showing the height of rivers at the ports named at 8 a. m. of the dates given:

BREADSTUFFS.

Friday, May 31 1907.

Prices for wheat flour have moved within a narrower range, but the changes have been to a large extent of a merely nominal character, the trading having continued on an extremely narrow scale. Buyers have refused to follow the recent advance in prices. In some cases holders have sold their supplies at prices lower than those ruling in the market. But as a rule the transactions have been confined to small lots. At the large milling centres further advances in prices have been reported, but new orders have been small. Some of the mills have refused to consign flour to the local market at prevailing prices. Corn meal and rye flour have been quiet and steady.

Wheat, although active, excited and rising at times has felt the effects of better weather and realizing. Prices have on the whole declined. Rains and warmer weather in the West, Southwest and Northwest have not been without their effects, though the precipitation in Kansas has not been so great as could be desired. There has been at times a pretty good export demand, and this would have been larger but for the fact that prices here have been getting out of line with those of Europe. Prices are now some 16 to 19 cents higher on futures than they were a year ago. Liverpool prices are nearly 10 cents higher than a year ago, Berlin 16 cents, Paris 12 and Buda Pesth nearly 30 cents. Some are therefore beginning to ask whether bad crop conditions are not for the present at least pretty well discounted, especially as the weather has improved not only in this country but also in South Russia and Roumania, where beneficial rains have fallen. Of late foreign houses have been selling futures here quite freely, and there has also been considerable liquidation on the part of American operators both here and all over the West. The world's shipments, too, continue on a very large scale, and the flour trade at the Northwest is dull. Some reports from Nebraska are that there will be at least 75% of an average crop. Other reports from various parts of the belt are that the damage has been more or less exaggerated. Seeding has been completed at the Northwest, and, as already intimated, the weather conditions there are more favorable, while it appears from some reports that the acreage in that section has not been reduced as much as was recently expected at a time when weather conditions were especially forbidding. As the case now stands, the outlook for the crop is better. How much damage has actually been done by winter killing and other adverse conditions the future must determine. That the damage to the winter wheat crop, however, has been exaggerated is probably true, and there is also a chance that the spring-wheat yield may in a measure make up for the deficiency of that in winter-wheat. To-day prices again advanced in spite of better weather in this country, crop reports from the Balkan Peninsula being in the main unfavorable and further speculative buying setting in. Besides, there was some export demand.

Sept. delivery in elevator	101⅞	102⅜	99⅜	99⅞	day.	100⅝

Indian corn futures have advanced on unfavorable weather and crop reports from many sections. Commission houses have bought freely at times, owing to the belief that corn has not had its full share of the advance. Pit traders have given support and shorts have covered. At times setbacks have occurred on realizing, but there has been an absence of selling pressure for the decline, owing to the continued smallness of contract stocks and the fear of bull manipulation. Within a day or two planting has made better headway as a result of more favorable weather, but there still remains much planting to be done and the crop in most sections is getting a late start. To-day prices advanced on the rise in wheat, a firm cash market, reports of an increased export inquiry, commission house buying and covering.

September delivery in elevator	53⅝	53¾	53	53½	day.	53⅞

Oats for future delivery in the Western market have shown more or less irregularity, but in the main the tone has been strong, owing to unfavorable weather and crop reports. Many reports of damage to the crop by dry weather and insects have been in circulation. Commission houses have been good buyers and shorts have covered. Bull manipulation of July has been a feature. The selling has been confined mainly to profit-taking. The cash market has been firm with a good shipping demand at the West. To-day prices advanced, owing to the strength of other cereals, covering of shorts, bull manipulation and buying by commission houses on unfavorable crop reports.

GOVERNMENT WEEKLY WEATHER REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending May 27, summarizing them as follows:

In the northern districts eastward of the Rocky Mountains, and especially in the Lake region, upper Ohio Valley, northern part of the Middle Atlantic States and New England, the weather during the week ending May 27 was unseasonably cold and unfavorable. Freezing temperatures occurred in the middle and northern Rocky Mountain regions, and from the upper Missouri Valley eastward to northern New England, and in the higher portions of the Middle Atlantic States, and injurious frosts in the central valleys and as far south as western North Carolina. In the Southern States generally favorable temperatures prevailed, but the Central Gulf districts suffered from excessive rains. Unusually heavy rains also occurred in the upper Missouri Valley and northern Rocky Mountain region. There was a heavy fall of snow in Wyoming and northern Utah on the 24th. In the lower Missouri, central Mississippi and lower Ohio valleys and in the South Atlantic and East Gulf States, there was abundant sunshine; but generally cloudy weather prevailed in the lower Lake region and in the upper Missouri Valley. Generally favorable weather conditions prevailed on the Pacific Coast, with somewhat less than the average sunshine in Oregon and California.

For other tables usually given here, see page 1286.

THE DRY GOODS TRADE.

New York, Friday Night, May 31 1907.

The month of May has disclosed irregular conditions in the dry goods market. At first hands there has been uniform strength with the exception of temporary weakness in yarns and heavy brown cottons, more than recovered as the month advanced. The demand has varied somewhat, but appears to have been at all times in excess of supplies available for quick distribution and frequently fuller than manufacturers were willing to accommodate for forward delivery. In all divisions of the primary cotton goods market the average of prices is higher than it was a month ago. The results with jobbers for the month have hardly come up to expectations and have been markedly disappointing with retailers. Distribution by the latter has been seriously affected by the abnormally late season in all descriptions of merchandise for spring and summer trading. The weather has shown some improvement during the current week, but there has been an interruption, owing to the holiday, and, taken throughout, only moderate results can be reported. Owing to the strength of the cotton market, the week closes with considerable indisposition on the part of manufacturers to commit themselves to any extent to forward engagements, while to-day it is stated that offers of contracts well into next year for brown and gray goods have been put forward more liberally than on preceding days of the week. Important openings of men's wear woolens and worsteds for next spring this week show that the average of prices on all but the finest grade goods will rule lower than a year ago.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 25 were 2,448 packages, valued at $155,690, their destination being to the points specified in the table below:

	1907		1906	
New York to May 25—	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	18	957	1	534
Other European	44	552	53	669
China	1,094	10,043	6,902	57,331
India	110	4,539	----	3,758
Arabia	----	18,753	3,685	17,512
Africa	----	3,597	676	4,327
West Indies	288	9,767	515	9,388
Mexico	51	1,005	9	878
Central America	187	6,482	304	6,670
South America	381	19,228	976	23,076
Other countries	275	13,946	288	6,758
Total	2,448	88,849	13,409	130,901

The value of these New York exports sice Jan. 1 has been $5,647,722 in 1907, against $7,371,160 in 1906.

The tendency of prices in this division is steadily against buyers, as even where open advances are not quoted sellers are growing more exacting in their demands. Heavy brown sheetings and drills are ⅛ to ¼ up from some prices accepted early in the month, in spite of the fact that the market still lacks the support of export buying of any account, and cotton yarns, which also displayed considerable weakness at the opening of the month, show at the close quite an upward tendency. The change has been due in some part to the extent of buying, but more directly to the strong advance in the market for raw material. In all grades of bleached cottons scarcity of ready supplies continues the feature, and further advances are announced this week in some of the more prominent lines. Coarse, colored cottons are strong, with advances of ¼c. per yard in prominent makes of denims, tickings, cottonades, &c., and the market has an upward tendency for various descriptions of napped cotton fabrics. Printed calicoes are in steady request and very firm, but business in higher grade printed fabrics has been moderate only. The new demand coming forward for ginghams and other woven pattern cotton dress goods is quiet, but current production is almost entirely taken care of by the orders in hands of manufacturers. Kid-finished cambrics, silesias and other converted linings are well sold, and, with the upward tendency in gray goods, are moving against buyers. Regular print cloths have been advanced to a nominal quotation of 4 13-16c. without business being done. The advance, however, is justified by the fact that 28-inch 64x60s have been sold at 4 11-16c. Wide goods continue strong on the basis of 7c. for 38½-inch 64 squares.

WOOLEN GOODS.—Interest in men's wear woolens and worsteds for the new spring season has been stimulated this week by the opening up of a number of important staple lines, chief of which were the American Woolen Company's clay worsteds and serges. The prices named on these are, as a rule, lower than those quoted a year ago for medium and lower grades, the average of the whole showing a slight decline. These new prices indicate that some of the advantages gained since the spring opening of a year ago have not been retained in spite of the fact that raw material and other items of cost in manufacture are higher now than then. The openings of the lines referred to have been followed by an increase in business for next spring season, but at the same time orders have not come forward with sufficient freedom to show that buyers are yet sure of the situation, and it would appear as though manufacturers must make up their minds to face a demand longer drawn out than usual. Re-orders for fall lines in men's wear fabrics have been of restricted extent. There is no improvement in the overcoatings division, business continuing generally unsatisfactory. Woolen and worsted dress goods have disclosed no new feature of moment since last report, business proving generally quiet in both staple and fancy lines.

FOREIGN DRY GOODS.—This division has been quiet throughout during the past week. Woolen and worsted dress goods have been ordered in moderate quantities without noticeable change in prices, and business in piece silks and ribbons has disclosed no new features. Orders for quick deliveries of linens have been more for the completion of old contracts than in shape of new business, but the market still rules strong. Burlaps are in indifferent supply with a steady demand at firm prices.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending April 6 1907 and since Jan. 1 1907, and for the corresponding periods of last year, are as follows:

State and City Department.

News Items.

New York State.—*Tax Law Relative to Investments in State Bonds by Savings Banks, Trust Companies and Insurance Companies Amended.*—The Assembly on May 28 passed the amendment to the tax law relative to investments in State bonds by savings banks, trust companies and insurance companies. By this amendment these institutions get a credit of 1% per annum on holdings of State bonds bearing 3% interest. The bill is now before the Governor.

The text of this bill will be found in last week's issue of the "Chronicle," on page 1216, among the "Items about Banks, Bankers and Trust Companies."

Portchester, N. Y.—*Law Regarding Interest Rate on Future Street Bonds Amended.*—The Governor on May 23 signed the amendment to Section 5 of Chapter 517 of the Laws of 1899. The amendment constitutes Chapter 361 of the Laws of 1907, and empowers the Board of Trustees of the village of Portchester, in issuing bonds in the future for the paving or macadamizing of streets, &c., to fix the rate of interest at not exceeding 5%. Under the old law bonds issued for these purposes could be put out at not exceeding 4% interest per annum.

Bonds Legalized.—Chapters 144 and 159 of the Laws of 1907 legalize the Acts and Proceedings of the Board of Village Trustees with reference to the issue of bonds for the drainage of certain streets and avenues and for the improvement of Traverse Avenue.

South Carolina.—*Interest on Stolen Bonds Stopped.*—The State Treasurer, acting upon the advice of the Attorney-General, gives the following notice regarding the payment of interest on bonds stolen from the State Treasury:

STATE OF SOUTH CAROLINA, EXECUTIVE DEPARTMENT,
OFFICE OF STATE TREASURER

Columbia, May 16 1907.

NOTICE.

To Whom it May Concern:

Notice is hereby given that interest will not be paid on July 1 next on bonds below described, which were stolen from the State Treasury, to wit:

Redemption Brown consol 4½% bondf of the denomination of $500, Nos. 153, 231, 371, 783, 959 and 1,477.

Redemption Brown consol 4½% bonds of the denomination of $1,000—567, 1,178, 1,899, 2,525 and 3,778.

Persons who purchase said bonds or the coupons thereof will do so at their own risk

(Signed) R. H. JENNINGS, State Treasurer. J.H.

According to the Charleston "News and Courier," the total amount of bonds stolen was $12,500, consisting of thirteen bonds of $500 each and six bonds of $1,000 each. Seven of the $500 bonds, however, and one of $1,000, were exchanged for certificates of stock before the theft was discovered. We are informed by the State Treasurer that the bonds referred to were stolen during the period from 1896 to 1901, and that not more than $2,000 was taken at any one time.

Bond Calls and Redemptions.

Animus County (Colo.) School District No. 1.—*Bond Call.*—Call was made for payment May 25 of bonds Nos. 7 and 8 dated July 1 1892. Denomination $1,000.

Pittsburgh, Pa.—Luckey Sub-School District.—*Bond Call.*—Payment will be made July 1 at the West End Savings Bank & Trust Co. in Pittsburgh of bonds numbered 1, 2 and 3 and dated July 1 1891. Denomination $500.

Bond Proposals and Negotiations this week have been as follows:

Adairville, Logan County, Ky.—*Bond Election Postponed.*—We are informed that the election which was to have been held April 30 to vote on the question of issuing the $6,000 6% electric-light bonds mentioned in V. 84, p. 1010, has been postponed indefinitely.

Adams County (P. O. Decatur), Ind.—*Bond Sale.*—On May 21 an issue of $4,280 4½% Root Township macadam-road bonds was awarded, it is stated, to J. F. Wild & Co. of Indianapolis for $4,288—the price thus being 100.186. Denomination $214. Date May 15 1907. Interest semi-annual.

Addyston, Hamilton County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. June 18 by W. T. Coleman, Village Clerk, for $3,000 5% highway-improvement bonds. Authority, Section 2835 of the Revised Statutes of Ohio. Denomination $500. Date May 1 1907. Interest semi-annually at the Hamilton County Nat. Bank of Cleves. Maturity May 1 1917. Certified check for 1% bonds bid for, payable to the Village Treasurer, is required. Accrued interest to be paid by purchaser.

Allegheny, Allegheny County, Pa.—*Bond Sale.*—Reports state that on May 30 the $250,000 4% 30-year coupon street-improvement funding bonds described in V. 84, p. 1261, were awarded to Lawrence Barnum & Co. of Pittsburgh at 100.007.

Bonds Not Sold.—No sale was made of the $1,000,000 4% registered reservoir and water-main bonds offered on the same day. See V. 84, p. 1261.

Alliance School District (P. O. Alliance), Boxbutte County, Neb.—*Bond Sale.*—This district has awarded the $20,000 5% 20-year high-school-building bonds mentioned in V. 84, p. 950, to John Nuveen & Co. of Chicago.

Alpine School District (P. O. Alpine), Brewster County, Texas.—*Bond Election.*—An election will be held in this district to vote on the question of issuing $20,000 5% 40-year school-house bonds.

Ames Township, Athens County, Ohio.—*Bond Offering.*—Proposal will be received until 1 p. m. to-day (June 1) by S. R. McCune, Township Clerk (P. O. Amesville), for $1,000 4% bonds. Authority, Section 2835 of the Revised Statutes of Ohio. Denomination $500. Date June 1 1907. Interest semi-annual. Maturity $500 on June 1 in each of the years 1908 and 1909.

Antigo, Langlade County, Wis.—*Bond Offering.*—Proposals will be received until 2:30 p. m., Aug. 1, by G. O. Palmiter, City Clerk, for $10,000 4½% refunding bonds. Maturity $2,000 yearly on July 1 from 1922 to 1926 inclusive. Certified check for 5% is required.

Attica School District No. 61 (P. O. Attica), Harper County, Kan.—*Bond Sale.*—We are advised that the $6,500 4½% coupon school-building bonds described in V. 84, p. 950, have been purchased by the State School Fund Commission at par.

Aurora School District (P. O. Aurora), Hamilton County, Neb.—*Bond Offering.*—Proposals will be received until 7:30 p. m. June 14 by Frank A. Burt, Secretary of the Board of Education, for the $43,000 4% coupon school-building bonds mentioned in V. 84, p. 950. Date July 1 1907. Interest annual. Maturity July 1 1927, subject to call after July 1 1917. Certified check for $500 is required.

Bay City, Bay County, Mich.—*Bonds Not Sold.*—No award was made on May 27 of the $200,000 4% 30-year public-park bonds described in V. 84, p. 1194.

Bemidji Independent School District (P. O. Bemidji) Beltrami County, Minn.—*Bond Sale.*—On May 27 the $35,000 5% 15-year coupon high-school-building bonds described in V. 84, p. 1195, were awarded to the Wells & Dickey Co. of Minneapolis for $36,300 (103.714), accrued interest and blank bonds.

Berlin, Ont.—*Bond Sale.*—On May 16 this town awarded $83,000 (not $83,200 as reported in last week's issue) 4½% street-railway-purchase bonds to Aemilius Jarvis & Co. of Toronto at 96.50. Denomination $1,000. Date April 15 1907. Interest annually on April 1. Maturity part yearly for thirty years.

Binscarth School District No. 506, Man.—*Debenture Offering.*—Proposals will be received until June 8 for $2,600 6% school debentures. Denomination $130. Date June 15 1907. Interest annually Jan. 1 at the Northern Bank of Binscarth. R. B. Johnston is Secretary and Treasurer.

Bloomville School District (P. O. Bloomville), Seneca County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. June 7 by C. O. Snyder, Clerk Board of Education, for $10,500 4½% coupon schoolhouse-improvement bonds. Authority Section 3991, Revised Statutes. Denomination $500. Date June 14 1907. Interest March 1 and Sept. 1 at the office of the Treasurer of School Funds. Maturity $500 yearly on Sept. 1 from 1908 to 1928 inclusive. Bonds are tax-exempt. Assessed valuation $240,000.

Bogota (P. O. Hackensack), Bergen County, N. J.—*Bonds Voted.*—This borough on May 24 authorized the issuance of $20,000 street-improvement bonds by a vote of 27 to 14. Details of bonds and date of sale not yet determined.

Boise City, Ada County, Idaho.—*Bond Offering.*—Proposals will be received until 12 m. June 11 by John M. Haines, Mayor, at the City Clerk's office, for $50,096 6% gold coupon lateral sewer-improvement assessment bonds. Authority an Act of the State Legislature, 1905. Denominations ten bonds for $509 60 each and ninety bonds for $500 each. Date July 1 1907. Interest semi-annually at the City Treasurer's office or at the Chase National Bank of New York City. Maturity $5,009 60 yearly on July 1 from 1908 to 1917 inclusive. An unconditional certified check for 5% of bonds bid for, payable to the city of Boise, is required. Official circular states that there is no litigation pending or threatened affecting the validity of these bonds and that the city has never defaulted in the payment of any of its obligations.

Boston, Thomas County, Ga.—*Bonds Not Yet Sold.*—This village is still in the market with the $10,500 electric-light and $12,000 water-works 5% registered bonds mention of which was made in V. 84, p. 950.

Brewster, Putnam County, N. Y.—*Bond Offering.*—Proposals will be received until 11 a. m. June 5 by Richard Michell, Village Clerk, for $50,000 registered water-works bonds at not exceeding 5% interest. Denomination $1,000. Date July 1 1907. Interest annually at the First National Bank of Brewster or New York City. Maturity $2,000 yearly on July 1 from 1912 to 1936 inclusive. Certified check for 2% of bonds bid for, payable to the Village Treasurer is required. The village has no debt at present.

Bronxville, Westchester County, N. Y.—*Bond Sale.*—On May 24 the $2,030 registered sewer-extension bonds described in V. 84, p. 1261, were awarded to the Gramatan National Bank of Bronxville at par for 4½s. Bids for 4¾% bonds were also received from the Eastchester Savings Bank and W. V. Lawrence.

Bucyrus School District (P. O. Bucyrus), Crawford County, Ohio.—*Bonds Voted.*—At the election May 15 the propo-

sition to issue the $17,500 school-building bonds, mentioned in V. 84, p. 1134, was carried by a large majority.

Buffalo, Erie County, N. Y.—*Bond Sale.*—On May 25 the $500,000 4% 50-year registered water-works bonds described in V. 84, p. 1195, were awarded to N. W. Harris & Co. of New York City at 100.275 and accrued interest—a basis of about 3.988%. This was the only bid received.

Bond Issue.—The issuance of $52,500 4% 1-5-year (serial) tax loan fund bonds has been authorized. Securities are dated July 1 1907. Under the ordinance providing for these bonds they are to be taken at par by the Park Bond Redemption Sinking Fund.

Bullitt County (P. O. Shepherdsville), Ky.—*Bond Offering.*—Proposals will be received until 12 m. June 25 for $25,000 4½% road bonds. Denominations: twenty bonds of $100 each, twenty bonds of $500 each and thirteen bonds of $1,000 each. Date June 1 1907. Interest semi-annually at the Fidelity Trust Co. of Louisville. Maturity $5,000 in five years, $3,000 in seven years, $5,000 in ten years, $6,000 in fifteen years and $6,000 in twenty years, the last lot being subject to call after fifteen years. J. F. Combs is Commissioner.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Caldwell, Noble County, Ohio.—*Bond Sale.*—On May 25 the $11,000 5% 5¾-year (average) coupon street-paving bonds described in V. 84, p. 1134, were awarded to the Security Savings Bank & Trust Co. of Toledo at 103.52 and accrued interest—a basis of about 4.303%. Following are the bids:

Sec.Sav.Bk.&Tr.Co., Tol.—*a*$11,387 50	Hoehler&Cummings, Tol*a*$11,367 50
Otis & Hough, Cleveland *a*11,375 00	W. J. Hayes & Sons, Cle. *a*11,061 00

a And interest.

Jefferson City, Cole County, Mo.—*Bids Rejected—Bond Offering.*—All bids received on May 22 for $44,000 4% coupon renewal bonds offered on that day were rejected. Proposals are again asked for these bonds and will be received this time until 6 p. m. June 3. Denomination $500. Date July 1 1907. Interest semi-annually at the City Treasurer's office. Maturity ten years. Certified check for $250 is required. George N. Winston is City Clerk.

Joplin School District, Jasper County, Mo.—*Bond Sale.*—This district recently awarded the $50,000 4% 10-20-year (optional) school-building bonds offered without success on April 25 (V. 84, p. 1068) to the First National Bank of Joplin at par and accrued interest. Bonds are dated May 1 1907.

Kanawha, Hancock County, Iowa.—*Bond Sale.*—We are advised that the $5,000 water-works bonds voted on April 25 (V. 84, p. 1197) have been disposed of.

Kelliher, Beltrami County, Minn.—*Bond Sale.*—On May 20 an issue of $5,000 6% bonds was awarded to W. H. Roberts of Bemidji at par. Following are the bids:

W. H. Roberts, Bemidji	par	Commercial Investment Co., Duluth	*b*par
S. A. Kean, Chicago	*a*par		

a Less $200. *b* Less cost of printing and legal fees.

Lawrence, Essex County, Mass.—*Bids Rejected.*—All bids received on May 27 for the $75,000 4% 1-30-year (serial) coupon Osgood Street sewer bonds described in V. 84, p. 1264, were rejected.

Lee's Summit School District, Jackson County, Mo.—*Bond Sale.*—On May 10 the $20,000 4% 5-20-year (optional) school-building bonds described in V. 84, p. 954, were disposed of at 102.255—a basis of about 3.506% to the optional date and about 3.838% to full maturity.

Lestershire, Broome County, N. Y.—*Bond Sale.*—On May 27 the $8,500 5% 4-20-year (serial) registered or coupon water-works extension bonds described in V. 84, p. 1264, were disposed of for $8,524.60 (100.289) and accrued interest—a basis of about 4.968%.

Lima, Livingston County, N. Y.—*Bond Sale.*—On May 23 this town awarded an issue of $15,000 registered town-house building bonds to the Rochester Savings Bank of Rochester for $15,010 (100.066) for 4½s. This issue is authorized by Chapter 259, Laws of 1907. Denomination $1,000. Date May 1907. Interest Feb. 1 and Aug. 1 at the Bank of Lima in New York exchange. Maturity $1,000 yearly on Feb. 1 from 1908 to 1922 inclusive. Total debt, this issue. Assessed valuation $1,723,850.

Lincoln County (Wash.) School District No. 18.—*Bond Sale.*—The County Treasurer on April 20 awarded $2,500 3-5-year (optional) refunding bonds of this district to Coffman, Dobson & Co. of Chehalis at 100.64 for 5½s. Denomination $1,000. Date May 1 1907. Interest annual.

Little Falls School District (P. O. Little Falls), Morrison County, Minn.—*Bond Sale.*—This district recently awarded an issue of $20,000 refunding bonds to the State of Minnesota at par and accrued interest for 4s. Securities are dated July 1 1907. Interest annual. Maturity $10,000 in 1917 and $10,000 in 1922.

Lockport, Niagara County, N. Y.—*Bond Offering.*—Proposals will be received until 12 m. June 10, by B. M. Hutcheson, City Treasurer, for $60,000 4% water-supply bonds. Authority, Chapter 99, Laws of 1907. Denomination $1,000. Date June 10 1907. Interest June 1 and Dec. 1 at the City Treasurer's office. Maturity $2,000 yearly on Dec. 1 from 1907 to 1936 inclusive. Certified check for 2% of bonds bid for payable to the city is required. Bonds will be delivered at the City Treasurer's office on June 20.

Lorain, Lorain County, Ohio.—*Bonds Authorized.*—The City Council on May 20 passed an ordinance providing for the issuance of $20,000 4½% coupon Everett Street improvement assessment bonds. Authority Sections 2705, 2706 and 2707, Revised Statutes, and Sections 53, 95 and 97, Municipal Code. Denomination $1,000. Date June 1 1907. Interest March 15 and Sept. 15 at the Chase National Bank in New York City. Maturity $1,000 each six months from March 15 1908 to Sept. 15 1917 inclusive.

Lorain School District (P. O. Lorain), Lorain County, Ohio.—*Bond Sale.*—This district recently awarded an issue of $17,500 4% 18-year coupon school-improvement bonds to the Sinking Fund Commission of the City of Lorain. Denomination $500. Date May 21 1907. Interest February and August at the Chase National Bank of New York City. Bonds mature in 1925 and are tax exempt.

Madison County (P. O. Jackson), Tenn.—*Bonds Voted.*—An election held May 25 resulted in favor of a proposition to issue $200,000 good-road bonds.

Madisonville School District (P. O. Madisonville), Hamilton County, Ohio.—*Bonds Defeated.*—The election held May 11 resulted in the defeat of the proposition to issue the $100,000 school-building bonds mentioned in V. 84, p. 1069.

Manor, Westmoreland County, Pa.—*Bond Offering.*—Proposals will be received until 7 p. m. June 3 by P. M. Cline, Secretary of the Borough Council, for the $26,000 5% coupon paving and curbing bonds mentioned in V. 84, p. 1069. Authority, an Act of the General Assembly, approved April 20 1874. Denomination $1,000. Date June 3 1907. Interest June 1 and Dec. 1 at the Manor National Bank of Manor. Maturity $1,000 yearly on June 3 from 1913 to 1927 inclusive, the remaining $11,000 bonds being redeemable at the option of the borough between the years 1928 and 1932. Certified check for $500, payable to the Borough Treasurer, is required. Bonds are free from State tax.

Mansfield, Richland County, Ohio.—*Bond Sale.*—On May 25 the twenty issues of 4% and 5% bonds, aggregating $59,550, described in V. 84, p. 1069, were awarded to the Richland Savings Bank Co. of Mansfield for $59,696 30 (100.245) and accrued interest. A bid of $59,682 15 was also received from the Citizens' National Bank of Mansfield. Bonds are dated June 1 1907.

Marengo County (P. O. Demopolis), Ala.—*Bond Election.*—Local papers state that an election will be held Aug. 10 to vote on the question of issuing $100,000 50-year bridge and road-improvement bonds at not exceeding 5% interest.

Marshall, Lyon County, Minn.—*Bond Election.*—Local papers state that an election will be held June 11 to vote on a proposition to issue $30,000 funding and electric-light-plant-improvement bonds.

Martinsburg, Berkeley County, W. Va.—*Bonds Voted.*—An election held May 27 resulted by a large majority in favor of a proposition to issue $50,000 school-building and improvement bonds.

Medford, Middlesex County, Mass.—*Temporary Loan.*—This city recently negotiated a loan of $25,000 with Blake Bros. & Co. of Boston at 1.57% discount. Loan matures in nine months

Memphis, Shelby County, Tenn.—*Bond Sale.*—On May 29 the $551,000 4½% 30-year coupon Flippen compromise refunding bonds described in V. 84, p. 1198, were awarded, it is stated, to the Manhattan Savings Bank & Trust Co. of Memphis and MacDonald, McCoy & Co. of Chicago at 102.28

Miamisburg, Montgomery County, Ohio.—*Bond Sale.*—On May 24 the $13,000 4% 1-13-year (serial) coupon Linden Avenue sewer-construction bonds described in V. 84, p. 1198, were awarded to N. J. Catrow of Miamisburg for $13,010 (100.076) and accrued interest. This was the only offer received.

Milwaukee, Milwaukee County, Wis.—*Bond Sale.— Postponed.*—We are informed that the sale of the three issues of coupon bonds aggregating $450,000 which was to have taken place on May 28 has been postponed until to-day (June 1). For description of these securities see V. 84, p. 1264.

Morgan County (P. O. Jacksonville), Ill.—*Bond Offering.*—Proposals will be received until 2 p. m. June 8 by James S. Merrill, County Clerk, for $100,000 4% registered court-house refunding bonds. Authority, an Act of the General Assembly approved Feb. 13 1865 and Acts amendatory thereto approved April 27 1877 and June 4 1879, and an election held April 30 1907. Denomination $1,000. Date June 15 1907. Interest annually at the State Treasurer's office in Springfield. Maturity $5,000 yearly on June 15 from 1908 to 1927 inclusive. Certified check for 5% of bid, payable to the County Treasurer, is required. The official circular states that there is no litigation or controversy pending or threatened concerning the validity of these bonds.

Mount Vernon, Knox County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m., June 24, by Stephen J. Dorgan, City Auditor, for the following bonds:

$3,000 5% coupon Madison Street sewer bonds mentioned in V. 84, p. 955. Authority Section 100, Municipal Code. Denomination $300. Maturity $300 yearly on May 1 from 1908 to 1917 inclusive.

17,000 5% East High Street (city's portion) paving bonds. Authority Section 100, Municipal Code. Denominations: twenty bonds of $500 each and numbered 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, 35, 37 and 39, and twenty bonds of $350 each numbered 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38 and 40. Maturity bonds numbered 1 and 2 aggregating $850 on May 1 1908 and $850 each six months from November 1 1908 to May 1 1917 inclusive. The city, however, reserves the right not to issue bonds numbered 1, 5, 9, 13, 17, 21, 25, 29, 33 and 37 if such issue shall become unnecessary.

The above bonds are dated May 1907. Interest semi-annual. Certified check for 2% of bonds bid for, payable to Stephen J. Dorgan, City Auditor, is required. Accrued interest to be paid by purchaser.

Nacogdoches, Nacogdoches County, Tex.—*Bond Sale.*—The State School Fund recently purchased, at 103.10 and accrued interest, the $50,000 5% 5-40-year (optional) water-works bonds registered on April 15 (V. 84, p. 1070).

Naco School District (P. O. Naco), Cochise County, Ariz.—*Bonds Voted.*—An election held May 18 resulted in a vote of 28 to 0 in favor of issuing $5,000 6% 10-year school-building and site-purchase bonds.

Nampa Independent School District No. 37, Canyon County, Idaho.—*Bond Sale.*—On May 18 the $15,000 5% 10-20-year (optional) gold coupon school-building bonds described in V. 84, p. 1014, were awarded to Chas. H. Coffin & Co. of Chicago at 101.173 and accrued interest—a basis of about 4.851% to the optional date and about 4.908% to full maturity. Following are the bids:

C. H. Coffin & Co., Chic.	$15,176 00	S. A. Kean, Chicago	$15,015 00
R. Kleybolte & Co., Chic.	15,165 00	E. H. Rollins & Sons, Den	15,005 00
Title Guar. & Tr. Co., Port.	15,037 50	State of Idaho	15,000 00

Napoleon, Henry County, Ohio.—*Bonds Authorized.*—The Village Council on May 20 passed an ordinance providing for the issuance of $1,200 5% coupon Welsted Street sewer-construction assessment bonds. Denomination $240. Date March 1 1907. Interest semi-annually at the village treasury. Maturity $240 yearly on March 1 from 1908 to 1912 inclusive.

New Castle, Lawrence County, Pa.—*Bonds Not Sold.*—No bids were received on May 13 for the $35,000 3½% 10-20-year (optional) coupon sewer bonds described in V. 84, p. 955. These bonds, we are informed, will be re-offered as 4s.

Newport, Newport County, R. I.—*Temporary Loan.*—This city on May 29 negotiated a loan of $90,000 with Blake Bros. & Co. of Boston at 4.61% discount. Loan matures Sept. 1 1907.

Norman, Cleveland County, Okla.—*Bonds Voted.*—Reports state that this city recently authorized the issuance of $27,000 water-works-extension bonds by a large majority.

Norwood (P. O. Ind. Sta. H, Cincinnati), Ohio.—*Bond Election.*—Reports state that a proposition to issue $34,000 bonds will be submitted to a vote on June 4.

Oak Harbor, Ottawa County, Ohio.—*Bond Sale.*—This village on May 27 awarded an issue of $3,500 5% bonds to the First National Bank and the Oak Harbor State Bank, both of Oak Harbor, at par, accrued interest and blank bonds. Denomination $500. Date May 1 1907. Interest semi-annually in March and September.

Oakland, Alameda County, Cal.—*Bond Offering.*—Proposals will be received until 8 p. m. June 17 (postponed from May 20), by Frank R. Thompson, City Clerk, for the $992,000 4½% gold coupon public-park bonds voted on Jan. 14. Authority, Act of Legislature of Feb. 25 1901 and a vote of 2,724 to 541 at the election held Jan. 14. Denominations: 960 bonds of $1,000 each and 40 bonds of $800 each. Date January 15 1907. Interest semi-annually at the City Treasurer's office. Maturity $24,800 yearly on Jan. 15 from 1908 to 1947 inclusive. Certified check (or cash) for 2% of the amount bid, payable to the City Council, is required. Official circular states that there is no controversy or litigation threatened or pending affecting the validity of these bonds and that the city has never defaulted on any of its bonds or interest. Delivery July 15. Purchaser to pay accrued interest.

Orting, Pierce County, Wash.—*Bond Sale.*—An issue of $4,000 1-4-year (serial) funding bonds offered by this town on May 20 was awarded as follows:

$1,000 bonds to Lillian Taylor of Orting, at par for 5½s.
2,000 bonds to Fred. Meuhler of Orting, at par for 5s.
1,000 bonds to Fr. Rudwick of Orting, at par for 4½s.

Denomination $500. Date June 1 1907. Interest semi-annual.

Ossining, Westchester County, N. Y.—*Bonds Authorized.*—The Governor on May 21 signed an amendment to Chapter 345 of the Laws of 1892 whereby the village is authorized to issue $150,000 10-30-year water bonds. Interest at not exceeding 5%, payable semi-annually.

Oxford, Butler County, Ohio.—*Bonds Defeated.*—At the election held May 16 the proposition to issue the $50,000 sewerage bonds mentioned in V. 84, p. 1071, was defeated. The vote was 257 "for" to 138 "against"—two-thirds being necessary to authorize

Oyster Bay (P. O. Glen Cove), Nassau County, N. Y.—*Bond Sale.*—On May 27 the $15,000 5% 1-15-year (serial) gold coupon town-hall bonds described in V. 84, p. 1198, were awarded to O'Conner & Kahler of New York City at 102.015—a basis of about 4.695%.

Palestine, Darke County, Ohio.—*No Bonds Voted.*—We are advised that this village on April 2 voted to issue water-extension bonds (V. 84, p. 955) is erroneous.

Pataskala School District (P. O. Pataskala), Licking County, Ohio.—*Bond Offering.*—Proposals will be received up to June 8 for $30,000 4% coupon school-building bonds. Denomination $1,000. Date June 8 1907. Interest payable at the District Treasurer's office. Maturity $1,000 yearly on May 1 from 1908 to 1937 inclusive. Bonds are exempt from taxation. Seymour Smith is Clerk of the Board of Education.

Paulsboro, Gloucester County, N. J.—*Bond Election Postponed.*—The election which was to be held May 18 to vote on the question of issuing the $78,000 water-and-light-plant bonds mentioned in V. 84, p. 1138, has been postponed to June 11.

Plymouth Township (P. O. Plymouth), Richland County, Ohio.—*Bids.*—The following bids were received on May 21 for the $15,000 5% coupon road-improvement bonds awarded, as stated in last week's issue, to the Mansfield Savings Bank of Mansfield at 105.41 and accrued interest:

Mansfield Sav. Bk., Mansf.	$15,811 50	Denison & Farnsworth, Cle.	$15,686 00

Citizens' Nat. Bk., Wooster	15,777 77	Emery, Anderson & Co., Cleveland	15,600 00
MacDon'd, McCoy & Co., Cin	15,761 50	S. A. Kean, Chicago	15,600 00
Seasongood & Mayer, Cinc.	15,749 50	Richland Savings Bank Co., Mansfield	15,575 65
Hayden, Miller & Co., Clev.	15,703 50	W. J. Hayes & Sons, Clev.	15,353 00
Security Savings Bank & Trust Co., Toledo	15,687 50		

Portage La Prairie, Man.—*Debenture Sale.*—This city recently awarded an issue of $83,000 local improvement debentures to Wood, Gundy & Co. of Toronto at par and accrued interest from May 15.

Portland, Ore.—*Bond Election.*—On June 3 the electors of this city will vote on amendments to the city charter providing for the issuance of the following bonds:

$3,000,000 4% 25-year bonds "for the construction of an additional pipe line or conduit from the head works on the Bull Run River to the city of Portland and for the purchase of land for the construction of reservoirs and for the purchase of water meters and for the installation of a meter system in the supply of water."

1,000,000 4% 25-year bonds for the "purchase of parks and small parcels of ground for neighborhood parks and for the improvement thereof; also for the laying out, establishing and improving of a system of boulevards and parkways with bridges over gulches."

500,000 4% 30-year bonds "for the purchase of lands and docks . . . and secondly in the construction and improvement of docks by the Executive Board."

450,000 4% 30-year bonds "for construction of a new bridge across the Willamette River at Madison Street."

275,000 4% 25-year bonds "to purchase, construct and equip an additional fire-boat and to lay water mains for protection against fire."

Portsmouth, Scioto County, Ohio.—*Bonds Authorized.*—On May 1 the City Council passed an ordinance providing for the issuance of $10,000 4% coupon Gay street sanitary-sewer-extension bonds. Denomination $500. Date Sept. 1 1907. Interest semi-annual. Maturity $2,500 yearly on Sept. 1 from 1911 to 1914 inclusive.

Prairie School District, Fresno County, Cal.—*Bond Election.*—An election will be held June 8 to vote on the question of issuing $4,500 6% gold school-building bonds. Denomination $900. Interest annual. Maturity one bond yearly.

Prentiss, Jefferson Davis County, Miss.—*Bonds Authorized.*—The Board of Mayor and Alderman on May 9 passed an ordinance providing for the issuance of $15,000 water-works-system bonds.

Randolph, Norfolk County, Mass.—*Note Sale.*—This town on May 18 awarded an issue of $35,000 4½% refunding notes to Jose, Parker & Co. of Boston for $35,352 50—the price

thus being 101.007. Denominations: 10 bonds of $1,500 each and 20 bonds $1,000 each. Date May 18 1907. Interest semi-annual. Maturity $1,500 yearly on May 18 from 1908 to 1917 inclusive and $1,000 yearly on May 18 from 1918 to 1937 inclusive.

Rathdrum Independent School District No. 2 (P. O. Rathdrum), Idaho.—*Bond Offering.*—Proposals will be received until 6 p. m. to-day (June 1) by Frank Wenz, Clerk of the Board of Education, for $14,000 5% gold coupon school-building bonds. Denomination $1,000. Date July 11 1907. Interest semi-annually at the Rathdrum State Bank of Rathdrum. Maturity $1,000 yearly on July 1 from 1913 to 1926 inclusive. Bonds are exempt from taxation. Bonded debt, including this issue, $17,000. Floating debt, none. Assessed valuation 1906, $250,000.

Red Cloud School District (P. O. Red Cloud), Webster County, Neb.—*Bond Offering.*—Proposals will be received until 12 m., June 20, by L. H. Fort, Secretary of the Board of Education, for the $25,000 4½% school-building and heating-plant bonds mentioned in V. 84, p. 1071. Authority, Section 11259 Cobby's Annotated Statutes of 1903. Denomination $500. Date June 1 1907. Interest annually at the County Treasurer's office. Maturity June 1 1927, subject to call after June 1 1912. Total debt, including this issue, $30,000. Assessed valuation 1906, $329,786. Real value (estimated), $1,648,930. Certified check for $500, payable to the City Treasurer, is required. Official circular states that there is no litigation or controversy pending or threatened concerning the validity of these bonds, the boundaries of the municipality or the titles of the officials to their respective offices, and that the principal and interest on all previous issues have always been paid promptly.

Reeves County (P. O. Pecos), Tex.—*Bonds Registered.*—An issue of $15,000 5% 5-20-year (optional) bridge bonds dated March 1 1907, was registered on May 22 by the State Comptroller.

Regina School District No. 4 (P. O. Regina), Sask.—*Debenture Sale.*—On May 17 the two issues of 4½% debentures aggregating $90,000 described in V. 84, p. 1138, were awarded to Wood, Gundy & Co. of Toronto.

Richmond, Va.—*Bond Offering.*—Proposals will be received until 12 m. June 10 by E. J. Warren, City Auditor, for $186,600 4% registered or coupon convertible refunding bonds dated July 1 1907. Denomination $1,000 if bonds are coupon. Maturity July 1 1911. Certified check for 2% on bids for $100,000 or less and 1½% on bids for more than $100,000, payable to the City Auditor, is required.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

Rochelle School District (P. O. Rochelle), Ogle County, Ill.—*Bond Sale.*—We have just been advised that this district on April 21 awarded an issue of $25,000 4½% school bonds to the Trowbridge & Niver Co of Chicago at par, accrued interest and blank bonds. Securities are dated May 1 1907. Maturity part yearly on May 1 from 1917 to 1926 inclusive. Denomination $1,000. Interest annual.

Rockwall County (P. O. Rockwell), Tex.—*Bond Registered.*—The State Comptroller registered $1,999 4% jail repair bonds on May 23.

a And furnish blank bonds.

Roff, Ind. Ter.—*Bond Offering.*—Proposals will be received at any time by the City Council and L. R. Boyd, Mayor, for the $10,000 5% coupon electric-light bonds voted

NEW LOANS.

$22,000

City of Hoboken, N. J.,

JUDGMENT BONDS

Public notice is hereby given, in accordance with the following resolution of the Council, passed on the eighth day of May, 1907, and duly approved on the tenth day of May, 1907:

"Resolved that the City Clerk be and he is hereby directed to advertise, according to law, for proposals for the purchase of Twenty-two thousand dollars judgment bonds, the proceeds thereof to be used for the payment of such judgments now standing against the City of Hoboken; said bonds to bear interest at the rate of four per cent per annum, to be registered or coupon bonds, and to run twenty years from the date of issue, and that the said sale be advertised by the City Clerk, according to law."

That sealed proposals for the purchase of bonds of the City of Hoboken, to be known as "Judgment Bonds," in the amount of twenty-two thousand dollars ($22,000), to run for a period of twenty (20) years from date of issue, registered or coupon, at the option of the bidder, will be received at the meeting of the Council to be held on

WEDNESDAY EVENING, JUNE 12, 1907, at 8 o'clock.

Bidders state prices on bonds bearing interest at the rate of four per cent per annum, payable semi-annually.

All proposals must be directed to the Mayor and Council of the City of Hoboken, N. J., and shall be accompanied by a certified check for one thousand dollars ($1,000).

The Mayor and Council of the City of Hoboken reserves the right to reject any or all bids if deemed in the interest of the City so to do.

By order of the Council.

JAMES H. LONDRIGAN,
City Clerk.

$186,600

City of Richmond, Va,

FOUR PER CENT REFUNDING BONDS.

To provide for the redemption of $186,600 of bonds maturing July 1, 1907.

The Committee on Finance of the City of Richmond, by virtue of an ordinance of the City Council, approved April 29, 1907, is instructed to advertise and receive bids for the purchase of all or any portion of Registered or Coupon Convertible Four Per Cent Bonds, having thirty-four years to run, dated July 1, 1907, and bearing interest from that date, required to meet the above at maturity.

The Coupon Convertible Bonds will be issued in multiples of $1,000. Bids for the above will be received at the office of the City Auditor till NOON OF JUNE 10, 1907. A certified check for an amount equal to 2 per cent on bids of $100,000 or less, or 1½ per cent on all bids in excess of that amount, payable to order of the Auditor of the City of Richmond, must accompany each bid.

The right to reject any and all bids is expressly reserved. For further information apply to Edward J. Warren, Auditor.

J. B. WOOD,
Chairman Committee on Finance.

on April 9. Authority, an Act of Congress approved July 1 1902. Denomination $500. Date, day of sale. Interest annually in Roff. Maturity 30 years, subject to call after 10 years. Certified check (or cash) for $500, payable to John G. Jones, City Treasurer, is required.

Rosthern, Sask.—*Debenture Offering.*—Proposals will be received up to July 1 by Geo. Braden, Secretary-Treasurer, for two issues of 5% debentures aggregating $18,000. Maturity part yearly for 20 years.

Rowland, Robeson County, N. C.—*Bond Offering.*—Proposals will be received until 12 m., June 15, by O. P. Chitty, Town Treasurer, for $12,500 coupon school-building bonds not exceeding 6% interest. Denomination $1,000. Interest January and July at the Bank of Rowland. Maturity thirty years. Certified check for 10% of bonds bid for, payable to O. P. Chitty, Town Treasurer, is required. Bonds are exempt from town taxes. Assessed valuation 1906, $330,000.

Rutherford, Gibson County, Tenn.—*Bond Offering.*—G. M. Savage, Mayor, is offering at private sale the $15,000 5% coupon high-school-building bonds voted on April 17. Denomination $500. Date July 1 1907. Interest semi-annually at the Town Treasurer's office. Maturity July 1 1947, subject to call after July 1 1912. *Bonds are exempt from city taxes.* This town has no debt at present. Assessed valuation 1906, $200,000. Certified check for $500, payable to the Mayor, is required.

Saginaw, Mich.—*Bond Offering.*—Proposals were asked for up to 2 p. m. yesterday (May 31) by Wm. Seyffardt, City Comptroller, for $24,000 4% sidewalk bonds. Denominations: twenty bonds of $1,000 each and ten bonds of $400 each. Date June 1 1907. Interest semi-annually at the office of the City Treasurer or at the current official bank in New York City. Maturity $2,400 yearly on June 1 from 1908 to 1917 inclusive. Bonds are exempt from all taxation. The result of this offering was not known to us at the hour of going to press.

St. Augustine, St. John County, Fla.—*Bonds Defeated.*—An election held May 21 resulted in the defeat of a proposition to issue $75,000 sewer bonds. The vote was 67 "for" to 153 "against."

St. Francis Levee District, Arkansas.—*Bond Offering.*—Proposals will be received until 12 m. June 15 by H. D. Tomlinson, Secretary, 162 Randolph Building, Memphis, Tenn., for $500,000 bonds. Certified check for 2½% of amount bid is required.

St. James, Watonwan County, Minn.—*Bond Sale.*—On May 22 the $6,500 5% 4¾-year (average) city-hall bonds described in V. 84, p. 1071, were awarded to the Union Investment Co. of Minneapolis for $6,525 (100.384) and accrued interest—a basis of about 4.905%. Bids were also received from U. M. Stoddard & Co. of Minneapolis and O'Connor & Kahler of Chicago.

St. Louis, Mo.—*Bond Offering.*—Attention is called to the official advertisement elsewhere in this Department of the offering on June 11 of the $2,000,000 3.65% gold coupon renewal bonds. For details of these bonds and terms of offering see V. 84, p. 1266.

Santa Barbara School District (P. O. Santa Barbara), Santa Barbara County, Cal.—*Bonds Voted.*—On May 18 this district authorized the issuance of the $20,000 5% 1-20-year (serial) gold school-building bonds mentioned in V. 84, p. 1139, by a vote of 207 to 5. Denomination $1,000. Interest annual. Bonds will be offered about June 15.

Santa Clara, Santa Clara County, Cal.—*Bond Sale.*—On May 23 the three issues of 4½% 1-40-year (serial) gold coupon bonds, aggregating $60,000, described in V. 84, p. 1139, were awarded to E. H. Rollins & Sons of San Francisco, at 104.028 and accrued interest—a basis of about 4.206%. The following bids were received:

E. H. Rollins, San Fran.	$62,416 89	Los Angeles Tr. Co., Los A	$61,200 00
Otis & Hough, Cleveland	62,175 00	First Nat. Bk., Oakland	60,910 50
N. W. Harris & Co., Los A	61,535 00	Merchants' Tr. Co., Los A	60,735 00

$37,000 sewer bonds. Denomination $1,000.
12,000 schoolhouse bonds. Denomination $500.
6,000 water-works-extension bonds. Denomination $500.

Interest (rate not exceeding 5%) semi-annual. Maturity twenty years. Certified check for 10% of bonds bid for is required.

NEW LOANS.

CITY OF ST. LOUIS

ISSUE OF

3.65 Per Cent 20-Year Gold Renewal Bonds

MAYORS' OFFICE

Saint Louis, June 1st, 1907.

By virtue of Ordinance No. 22,865, authorizing the issue, sale and delivery of renewal bonds of the City of St. Louis, sealed proposals for the purchase of two million dollars ($2,000,000) in said bonds, hereinafter described, or any portion thereof, will be received at the Mayor's office, in the City of St. Louis, until 12:00 o'clock noon, of the 11TH DAY OF JUNE, 1907, and publicly opened by the undersigned at said place and hour.

Said bonds will be dated June 25th, 1907, and will each be of the denomination of $1,000 United States Gold Coin, payable twenty (20) years after their date, and will bear interest from their date at the rate of three 65-100 (3.65) per cent per annum. Semi-annual interest coupons, payable on the 25th day of June and December, respectively, will be attached to each bond, and both bonds and coupons will be payable to bearer, as he may elect, either at the National Bank of Commerce in New York, in United States Gold Coin, or at the National Bank of Scotland, Limited, 37 Nicholas Lane, London, England, in pounds sterling, at the rate of four dollars, eighty-six cents, six and one-half mills ($4 8665) per pound Sterling. The bonds will contain the condition that in payments of principal and interest the United States Gold Dollar and the Pound Sterling will be calculated at the present standard weight and fineness. The bonds may be exchanged for registered bonds at any time.

Bidders are requested to state in their proposals the price offered per bond, the par and premium to be stated as one amount.

Proposals must be accompanied by a deposit of cash or certified check, payable to the order of the Comptroller (and subject to his approval), equal to five (5) per cent of the nominal amount of the bonds bid for; said deposit to be returned if the proposal is not accepted, otherwise to be held subject to forfeiture to the City in event of failure on the part of the bidder to comply with his proposal, or in case of compliance, to be retained as part of the purchase money. A deposit in the required amount to the credit of the City of St. Louis, in the National Bank of Commerce, in New York, or in the National Bank of Scotland, Limited, London, will be accepted as full compliance with the requirements relating to deposits. No interest will be allowed on earnest money deposited by the successful bidder.

Proposals will be subject to all the conditions and reservations of this advertisement, and must refer to same as a portion of the agreement on the part of the bidder.

Proposals should be enclosed and addressed to the undersigned and endorsed "Proposal for Purchase of St. Louis City Bonds."

The undersigned reserve the right to reject any or all bids.

The Bonds will be delivered against payment therefor in current funds, at the office of the Comptroller in the City of St. Louis, on the 25th day of June, 1907, or, if the bidder so elects in his proposal, at the National Bank of Commerce, in New York, on the 25th day of June, 1907.

The opinion of Messrs. Dillon & Hubbard, Attorneys and Counselors at Law, New York City, as to the validity of the bonds, will be furnished the successful bidders by the City.

A sample bond can be seen and further information obtained at the office of the Comptroller.

ROLLA WELLS, Mayor.
JAMES Y. PLAYER, Comptroller.

THE FINANCIAL SITUATION.

Gold exports from New York have been a new influence working against the Wall Street market. These shipments began May 28, or two weeks ago, and have now reached a total of $10,400,000, of which $7,100,000 have been engaged the current week. The forces ending in this gold outflow from the United States may be said to have been accumulating ever since last fall and even before then. Last summer (1906) it appeared that the London market had gotten into a necessitous state. The beginnings of that situation might even be traced back into the early half of 1906, being connected with the earlier stages of the agitation against capital which took on an increased intensity with the discussions in Congress over the Hepburn rate law, and also on the occasion of Mr. Roosevelt's address April 14 on the "Man with the Muck Rake," into which he incorporated an argument in favor of placing a limit on large fortunes—sentiments which, considering their source, could not fail to impair the standing and credit of American securities wherever dealt in.

A further transaction affecting European and American monetary affairs, and having an influence upon the present outflow of gold, was the action of Secretary Shaw in again intervening to assist in the importation of gold. At the close of business Sept. 5 Mr. Shaw announced that he would repeat his operation of the previous spring and deposit moneys with the institutions engaging gold for import, thus making the imports immediately available and saving loss of interest. Under this order the drain of gold to the United States reached large amounts and deranged all the European money markets. As a result, on the 10th of October the Bank of Germany raised its rate from 5 to 6%, and on the 11th the Bank of England moved up from 4 to 5%; and again, on Friday October 19 the Bank of England surprised the financial world by further advancing its rate to 6%. On October 23 Mr. Shaw announced that further advances of Government funds to facilitate gold imports would be discontinued. Altogether, however, from the beginning of the movement, $44,606,000 advances for gold imports were made at New York and $2,000,000 at Boston, besides imports of $7,457,844 which were said to have come in unaided.

———

Prior to these assisted gold imports and the consequent disturbed state of monetary affairs in Europe, money had for many months been ruling very high in the United States and comparatively low in Europe. This state of these markets for loans—existing at a moment when our wonderful term of progress had passed its acme, and had lost in good part its legitimate character and become largely speculative—stimulated extensive borrowings in London on short-time notes by railroads and by other large financial corporations and syndicates, all of which, yielding better interest, found a ready market in London. Later, however, when it became evident that if no check were put to the negotiations of American bills and loans by the London joint-stock banks, an extremely tense situation would develop, those banks began materially to contract the volume of loans largely through discrimination against American securities. At the same time British bankers were remitting to Brazil on account of the coffee-valorization scheme; Egypt also was drawing gold from London and France because of a speculation there in cotton; and Argentina needed and called for gold in payment for her shipments of grain to Europe.

With these demands confronting Europe's gold reserves and threatening a further advance in the Bank of England rate to 7%, the Bank of France, in order to prevent such a movement, which would be prejudicial to French interests, relieved the London market through advances on acceptances for a fixed period of Bank of England bills. Subsequently more conservative policies being pursued by London bankers, in the matter of extension of credits, and by the Bank of England through the absorption of bullion offered on the market from South Africa, &c., a gradual improvement in its reserve enabled the Bank to reduce its official rate to 4% early in the current year. As this action indicated a more normal condition of the Bank of England, the Bank of France proceeded to withdraw its advances to the British Bank, and it is understood now that such advances have been nearly settled. Nevertheless, it would appear that the Bank of England's condition is by no means secure, for it is seeking to resist encroachments upon its reserve which, if not effective, would endanger the maintenance of the 4% discount rate.

———

The session of the International Cotton Congress held at Vienna last week was not without considerable interest to the cotton world. A large part of the time of the Congress was taken up with a discussion of the methods of handling the staple and there was unaminity of opinion as to how it should be ginned, baled and compressed so as to reach consumers in the best possible condition. There has been so much complaint in recent years of the poor condition in which American cotton bales arrive at destination that the statement made by delegates from this country that they intend to adopt every possible measure to improve existing methods of handling called forth resolutions of satisfaction. Not the least important action taken at the Congress was the fixing of 22 pounds as the maximum tare on a bale of cotton. This in itself is a decided move in the right direction as the previous arbitrary tare of 6% of the gross weight of the bale was much too high, but was rigidly enforced abroad and worked to the disadvantage of the American shipper.

Community of interest found strong recognition in the Congress in the expressed desire of spinners for more direct relations with growers, and the American growers, on their part, strove in every way to dispel the idea that they had any intention of organizing for the purpose of unduly advancing the price of cotton. This statement may seem to have been antagonized by the activities of organizations in the South whose efforts are apparently directed toward regulating the price of the commodity and the extent of planting. But such a conclusion is far from correct. Whatever spirit of antagonism has been evidenced at the South has been against the cotton exchanges of the country, under the mistaken idea that such exchanges were chiefly interested in forcing down prices. Nothing, however, could be further from the truth. The price of cotton, as of all other commodities, is controlled by the law of supply and demand, and any false value, either ex-

cessive or deficient, arising through speculation can be but temporary and therefore harmless to legitimate interests. Without the cotton exchanges our large crops could not be so readily marketed. An appeal to the delegates was made by American representatives present to indirectly participate in raising of cotton in America, by inducing the European surplus of able agriculturalists to come to the Southern States and thus help to extend the cultivated area of the country and assure a sufficiency of supplies in the future. Altogether, in the feeling of good fellowship displayed and the work accomplished, the Congress was a notable gathering.

With less activity at the Stock Exchange and consequently with the volume of transactions appreciably below the total recorded in May last year, and with probably less activity in many commercial lines as a result of the backward season, &c., bank clearings at New York show a decrease for the month. Outside of this city, however, the aggregate exhibits a very satisfactory percentage of increase, with a number of cities recording conspicuous gains. This would seem to indicate that the general trade of the country is in excellent condition, especially as the gains are not confined to any particular section. With New York excluded the Middle section shows an excess over May of 1906 of 2%, and a similar gain is exhibited in New England. In the Middle West the increase is 18%; the Northwest records an excess of 25.1%, the South is 10.3% ahead of last year, and figures for the Pacific section (not including San Francisco) show an addition this year of 20%. The aggregate for all cities outside of New York exhibits a gain of 13.6% for the month of May, and an increase of 9.9% for the five months since January 1. But owing to the losses at New York the result for the whole country for the month is a decline of 6.5% and for the five months a decrease of 2.2%.

Commercial failures in May, on the other hand, make a very favorable comparison with the month a year ago, both as regards number and liabilities. As compiled by Messrs. R. G. Dun & Co., the liabilities of failed firms in the United States in May this year were only $9,965,410, against $12,992,809 in 1906. Manufacturing bankruptcies, as in April, give a larger total of liabilities this year than last, but the difference in May is less conspicuous—the total being less than three-quarters of a million greater than in 1906. And that amount just about measures the decrease from May of last year in the liabilities of general traders. But among those classed by Messrs. Dun & Co. as "Brokers and Transporters" liabilities reached this year in May only $1,171,440, against $4,141,694 a year ago. For the five months of 1907 the aggregate liabilities of failed firms reached $53,123,097, which compares with $54,813,565 in 1906.

Investigations antecedent to, and connected with, the issuing of our June report on cotton acreage and condition have brought out forcefully the lateness of vegetation throughout the United States the current spring. These results, however, are so fully set forth on subsequent pages in our annual cotton acreage report that only brief reference to the subject is necessary here. The important features the answers to the inquiries we have sent out make clear are, first, that the area has been further increased to the extent of nearly 5% (4.82% according to our own compilation), despite the adverse weather conditions that have prevailed. With the world in need of increasing supplies of cotton (which just now the United States alone can be expected to furnish), extension of area here has grown to be almost imperative, and with the incentive of comparatively high prices we are not permitted to doubt the addition would have been appreciably greater under more favorable conditions of weather.

But while the seeded area this spring is greater than ever before, the outlook for the crop is at this date as uncertain as our investigations have ever disclosed. In fact, never before have we met with greater difficulty in reaching conclusions than in the present year; indeed, not even in seasons of extensive floods have we encountered such serious obstacles in determining the area under cultivation and the percentage of condition. The early or preparatory season was especially favorable, temperature during March having been above normal and the situation as regards rainfall quite satisfactory. But from the first of April down to the close of May, with the exception of a break of about ten days just after the middle of May, unfavorable conditions predominated—temperature below normal most of the time and excess of moisture was the complaint over much of the belt. Consequently the plant was on the first of June below the average in size and condition and therefore peculiarly susceptible to further adverse conditions. But fortunately the weather the current week has as a rule been more satisfactory and has in a measure dispelled gloomy forebodings as regards the outlook. Still, continued favorable weather is needed to bring the plant up to a satisfactory condition and afford assurance of a fair yield. If we could assume good weather, however, through the summer, and a late frost, there would be no reason to fear a dearth of cotton. The fact that the crop is backward now and therefore promises to be late in maturing is important only when considered in connection with future weather and time of frost.

There was a discussion this week at the Economic Club of New York on the subject "Is the Over-Capitalization of Railroads an Evil?", at which some interesting statements and facts were brought out. Mr. Stuyvesant Fish was one of those present but felt that he could not speak on the subject, since he held the opinion that the railroads in this country are not over-capitalized. He ventured some brief remarks, however, in which he distinctly denied that there was over-capitalization, and contended that actually there was under-capitalization. We are inclined to think that Mr. Fish is entirely right. Instances of stock-watering have for a decade or more been exceedingly rare. The Chicago & Alton case belongs almost in a class by itself. In recent years (we mean until the last twelve or fifteen months) railroads have enjoyed great prosperity and their securities have commanded high prices. There has, therefore, been little occasion for selling stock at a discount or giving it as a bonus. Moreover, most of the new issues put out during this period have been made by companies of great strength and high credit and their stock issues in not a few cases have been sold at a premium, so that the nominal or par value as shown by the books of the companies in all

such instances manifestly represent *less* than the actual amounts of cash invested in the properties. We do not know whether Mr. Fish or Mr. Newcomb (whose paper Mr. Fish read) referred to this fact, their remarks having been only imperfectly reported in the daily papers, but it is a feature which should not be overlooked in any consideration of the relation of railroad capitalization to the actual values of the properties.

But, after all, is not the subject largely an academic one, and what practical use is there in agitating the matter? It is conceded by every well-informed person that there is no connection whatever between capitalization and rates. As we have many times pointed out in these columns, it is competition, not capitalization, that determines rates—competition reinforced by the action of the State and National authorities in steadily forcing freight charges down to a lower basis. Francis Lynde Stetson, who was one of the speakers before the Economic Club, made a good point when he said that a railroad cannot afford to raise the price of its commodity, transportation, because it is in debt. It cannot increase its transportation charge because it is in debt any more than one department store, which is in debt, can charge more for its commodity than another which is not in debt. He expressed the view that if there be over-capitalization the evil is to the railroad and not to the community.

President E. P. Ripley of the Atchison Topeka & Santa Fe Ry. in a quoted interview gave utterance to some pertinent observations on this same matter which deserve wide circulation. Mr. Ripley contends that valuation of the railroads is just as feasible as to appraise the value of any other property, but why, he asks, should it be done, and what is to be done with it? Who will put his money in a business where the profits are limited without any guaranty? The lack of any guaranty in his estimation is the essential injustice of the whole proposition. There is no risk assumed by the public, which presumably would derive some benefit, real or potential. If times are bad or crops fail, the railroads are expected to reduce their rates no matter what else is going up, and if times are good it is expected that the rates should go down to prevent too large returns on railroad investment. In this statement Mr. Ripley certainly sums up the situation in a very apt and effective way. Mr. Ripley is also correct in his further statement that whatever the shortcomings of the railroads, the history of the last ten years is one long story of injustice to railroad corporations.

———

At last there appears to be a likelihood that West Virginia will be compelled to make provision for its portion of the debt of the old State of Virginia. When West Virginia was carved out of the original State and erected into a separate sovereignty, she was made responsible for a certain portion of the debt, the precise extent of her liability to be subsequently determined. But over forty years have elapsed since then and nothing has been done on her part to meet her share of the debt. No effective way, either, seemed open to force her to do her duty in the matter until the Virginia Legislature authorized the bringing of a suit in the name of Virginia in the United States Supreme Court against the State of West Virginia. A bill in equity was filed in the Supreme Court early in 1906 and last week the Court over-ruled the demurrer to this bill which had been interposed on behalf of West Virginia. The State is given until the first Monday in October to file its answer to the bill. The opinion, which was by Chief Justice Fuller, first deals with the objection made by West Virginia that the Court has no jurisdiction in the case because the matters set forth in the bill do not constitute such a controversy between States, within the meaning of the Constitution, as could be heard and determined by the Court, and because the Court has no power to enforce against West Virginia, and therefore no power to render any final judgment or decree. It states that the Court is satisfied it has both jurisdiction in the case and the power to render a decree. It is not to be presumed, the Court says, that West Virginia will refuse to carry out the decree. If such repudiation should be absolutely asserted, it will be considered by what means the decree can be enforced; but it must be assumed that the Legislature of West Virginia will, in the natural course, make provision for the satisfaction of any decree that might be rendered.

The Court also denied the validity of the argument advanced by counsel for West Virginia to the effect that under the statutes of Virginia and West Virginia creating the State of West Virginia a compact was made between the two States, with the consent of Congress, by which the question of the liability of West Virginia to Virginia was submitted to arbitrament and award of the Legislature of West Virginia as the sole tribunal which could pass upon it. The Court construes these statutes as meaning that the Legislature of West Virginia should ascertain, in the manner laid down in the Virginia Ordinance of August 20 1861, the amount of West Virginia's liability, and should provide for the liquidation of the amount so ascertained, and not as meaning that the West Virginia Legislature is the sole body which can pass upon the question, to the exclusion of the Court. On this point the Court also refers to the fact that nothing has been done by West Virginia looking to the settlement of the question in forty-three years. The scope of the decision is considered very satisfactory in disposing of all objections to the jurisdiction of the Court, and to its power to render a final decree against West Virginia.

———

As was expected, the Utilities bill has been rushed again through the Legislature and has been promptly signed, so that it is now a law to be got on with as may be possible. There is pending in the Wisconsin Legislature a bill of similar title and purpose, and on Wednesday Mr. Allen R. Foote, of Ohio, President of the National Tax Association, addressed the Legislature concerning it. He pronounced it the best, and the New York bill the worst, of the kind within his knowledge. The latter, he said—with a correctness which must be plain to any fair man who examines it—fails to apply the principle of reciprocal justice; but he declared that this principle is applied honestly and intelligently in the Wisconsin measure. The fundamental plan of a proper Utilities law, he said, must be that there "shall be no rebates, discriminations or preferences of any kind between users taking service under similar conditions at the same time; that all costs of ownership and operation shall be honestly stated, and that the margin allowed for the profit of operation shall be reasonable."

Further, he said, "an intelligent analysis of past and existing conditions will show that the people have suffered as much, if not more, from the burdens of uneconomic conditions, self-imposed, by demanding short-term and competitive franchises than from any other single cause." The Wisconsin measure, he thinks, satisfies requirements by providing an indeterminate franchise, namely, "an exclusive and perpetual franchise, to be enjoyed during good behaviour only" . . . "So long (he adds) as a utility operated under it gives the people an efficient service at reasonable prices there will be no reason for taking the business out of the hands of the corporation operating it; when that condition ceases, the people will have the means and the power to at once take possession of the utility and operate it for their own account." Unregulated public ownership and operation under monoply conditions he considers a demonstrated failure, but private ownership and operation under monopoly conditions and an effective system of State regulation he declares to be the correct method of securing adequate service at reasonable rates.

The worst feature in the New York law he considers to be the grant of arbitrary powers and the abandonment of the fundamental triumph of modern civilization—adjudication of differences by review and decision in courts. This abandonment is so remarkable that a perusal of the New York law as it stands is almost enough to take one's breath away with astonishment. As we remarked last week, the way has been so prepared by successive pieces of aggressive legislation that what nobody would have dared to propose five years ago is now rushed through to enactment without causing any real public attention.

On Wednesday, representatives of several railroads urged Governor Hughes to withhold approval from the 2-cent bill, arguing that the Commission under the Utilities law "could make the thorough investigation of the subject which they said should precede a fixing of rates." But representatives of the Commercial Travelers' State Association and the New York State Grange objected particularly to this, saying "*that a 2-cent rate prevails in other States and it would take the Commission several years to investigate the subject.*" Meanwhile, we are left to assume, the "people" would be denied the immediate relief desired. This mode of arguing, which furnishes its own comment, is in line with the trend of legislation during the past probably unprecedented legislative season. All over the country measures hostile to corporations have been rushed through, to be considered afterward. It may be that the courts will proceed, at leisure, to undo considerable of what has been done in such thoughtlessness and haste.

The recount bill is likewise of the same objectionable character. Of course nobody questions that the honest determination of elections is fundamental and that no candidate can be so bad but that keeping him out by juggling with the ballots lawfully cast would be ultimately worse than any mischiefs he could do. Yet the recount bill now pending is not objectionable merely because, as we have already pointed out, the ballots have been so handled since the election day in 1905 that any conclusive determination now is impossible; the bill itself is vicious and dishonest. As the "New York Times" of yesterday says, it does not pretend to make a full recount, but authorizes Mr. Hearst to pick out such districts as he chooses. Naturally, he will select those where he supposes the largest number of ordinary errors against himself might have occurred; those would, obviously, be the heaviest McClellan districts. Thus the defeated candidate is allowed to review such portions of the election as are most likely to be for his advantage, and leave unremoved whatever doubt exists in all the others. On the other hand, if the Mayor wants any districts recounted which Mr. Hearst does not select, he must give a bond for all costs as a guaranty that the result will not be changed—that is, if a recount does not change the result, the Mayor must bear the costs of the process. This is plainly one-sided and unfair. Moreover, as to the future, we should remember that if a defeated candidate who is wealthy enough and unscrupulous enough can disturb an election eighteen months past, there will be set up a precedent which is big with confusion and mischief.

A satisfactory feature just now is the fact that in numerous instances railroad earnings are showing very exceptional amounts of gain, both in gross and net, as compared with the corresponding dates last year. Perhaps overmuch should not be made of these gains, inasmuch as they follow from the fact that comparison is with the period of the troubles at the coal mines in 1906. Nevertheless, a change from the unfavorable returns of the months preceding is decidedly welcome. During April of last year, mining in the anthracite regions was completely suspended and the idleness was continued through the early part of May. The anthracite roads, therefore, at that time sustained very serious losses from that cause, and naturally the gains this year for these roads are proportioned to the previous loss. In addition there was partial or complete suspension of mining in the bituminous fields in many different States throughout the country. This year there has been no interruption to mining and as a consequence the coal traffic has been of normal proportions, resulting in large gains in traffic and revenues.

The feature of the returns that will have to be watched closely is the expense accounts. Owing to the increases in wages and reductions in hours of labor and the higher cost of materials and supplies, and of everything entering into the operating accounts of the railroads, expenses are bound to rise whether traffic increases or not. If the gains in earnings are of very large dimensions, they will, of course, be sufficient to overcome the augmentation in the expenses. If, on the other hand, they are of only moderate proportions, there is reason to fear that losses in net earnings may again be the outcome after we have passed the period during which comparison will be with the term of the labor troubles at the mines last year, which in certain cases extended way into July.

The Pennsylvania Railroad return for the month of April, issued the present week, furnishes a striking illustration of the part played by augmented expenses in offsetting gains in gross earnings. The Pennsylvania is the largest coal-carrying system in the United States and following its loss in coal traffic last year there is a gain this year in its gross earnings for the month of April on the lines directly operated East of Pittsburgh and Erie in the large sum of $3,121,200, but this was attended by an increase in expenses of $2,710,900, leaving the improvement in the net only

$410,300. On the lines West of Pittsburgh and Erie, with an increase of gross for the month of $1,297,400, there has been an addition to expenses of $1,127,300, leaving only $170,100 gain in net. For the combined lines, therefore, the result is that with $4,418,600 improvement in the gross, the addition to the net has been no more than $580,400. In the same month last year there was a slight decrease in gross with an increase of $321,500 in the net. For the four months ending with April 30 the result is yet more striking. For this period net earnings the present year for the combined lines actually show a falling off of $262,900, though during the same four months gross earnings made a gain in the large sum of $7,599,000. In the following we show the gross and net earnings for the last six years for the lines East of Pittsburgh and Erie, being the only portion of the system for which we have the data for such a comparison.

Lines East of Pittsburgh.	1907.	1906.	1905.	1904.	1903.	1902.
April	$	$	$	$	$	$
Gross earnings	13,370,388	10,249,188	10,789,288	10,368,277	10,767,577	9,099,677
Oper. expenses	9,986,232	7,275,332	7,719,232	7,054,098	7,042,298	6,072,998
Net earnings	3,384,156	2,973,856	3,070,056	3,314,179	3,725,279	3,026,679
Jan. 1 to April 30—						
Gross earnings	50,573,929	45,607,029	39,144,629	36,811,979	38,702,879	33,921,879
Oper. expenses	39,104,556	33,580,956	30,688,057	29,012,285	28,592,085	23,458,885
Net earnings	11,469,373	12,026,073	8,456,572	7,799,694	10,110,794	10,462,994

There was no change in official rates of discount by any of the European banks this week; compared with last week, unofficial, or open market, rates were ⅜ of 1% higher at London, ⅛ of 1% at Paris and ⅛ of 1% at Berlin and Frankfort. The London securities market, at the close of the week, was unfavorably influenced by liquidations on Continental account; the Berlin Bourse was affected by rumors of a probable increase in the German Bank rate and the tone in Paris was heavy.

The striking feature of last week's statement of the New York Associated Banks was an unexpected increase of $13,541,600 in loans, which contributed to a gain of $15,554,100 in deposits, and, consequently, to an augmentation of $3,888,525 in reserve requirements. The cash gain was $982,100, but the surplus reserve was reduced by $2,906,425, to $12,782,450. The bank statement of this week should reflect, among other items, the withdrawal of $7,100,000 gold for shipment to Paris and the transfer of $500,000 to San Francisco, and other movements.

The cash reserves are at the maximum of the year; balances of trust companies, which these institutions cannot employ to advantage because of the low rates for money, are left by the companies in the banks and pressed for use by the latter. The inactive speculation and discouraging prospect for improvement tend to limit outside trading to such an extent as to compel commission houses who have accumulated time loans in the expectation of thus providing for the needs of their clients to compete with the banks in the call-loan branch of the market. Day-to-day money was almost unlendable this week, and there was no inquiry for short-term contracts because of the pendency of the distribution of the proceeds of the redeemable 4% bonds of 1907, payment for which will begin on July 1. It seemed likely that the supplies of funds resulting from such payments would be ample for all requirements, at least until the beginning of the crop-moving season, and therefore there was little disposition to borrow for any period less than four months. Lenders of money for longer maturities were unwilling to make concessions in rates, and consequently little business was reported.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 2½% and at 1¼%, averaging about 2%; banks quoted 1½% as the minimum and trust companies were not lenders. On Monday loans were at 2½% and at 2¼% with the bulk of the business at 2¼%. On Tuesday transactions were at 2% and at 1¼% with the majority at 2%. On Wednesday loans were at 2% and at 1½% with the bulk of the business at 2%. On Thursday transactions were at 2% and at 1¾% with the majority at 2%. On Friday loans were at 2½% and at 1¾% with the bulk of the business at 2%. Time loans on good mixed Stock Exchange collateral were quoted at 3@3½% for thirty to sixty days, 4½% for ninety days, 4½@5% for four to six months and 5½% for over-the-year. Commercial paper is 5% for sixty to ninety day endorsed bills receivable, 5% for four and 5½% for six months choice single names and 6% for good paper for this period of maturity.

The Bank of England rate of discount remains unchanged at 4%. The cable reports discounts of sixty to ninety day bank bills in London 3⅝@3¾%. The open market rate at Paris is 3⅜% and at Berlin and Frankfort it is 4¾%. According to our special cable from London, the Bank of England lost £462,743 bullion during the week and held £34,774,367 at the close of the week. Our correspondent further advises us that the loss was due to heavy exports to Paris. The details of the movement into and out of the Bank were as follows: Imports, £19,000 (wholly bought in the open market); exports, £496,000 (of which £481,000 to Paris, £10,000 to South Africa and £5,000 to South America), and receipts of £14,000 *net* from the interior of Great Britain.

The foreign exchange market was strong this week and the highest rates for the year were recorded for sight sterling and cables on Friday. Considering the fact that usually, when gold exports to Paris as an arbitration operation are in progress—involving the drawing of cables against credits established in London, and the sale of such drafts for the reimbursement of shippers of the metal—rates for sight and for cables decline in response to offerings of the latter; therefore, the rise in such bills this week, when exports of $7,100,000 gold have been made to Paris, through arbitration operations, is remarkable. One reason which is suggested for this extraordinary circumstance is that some bankers who have been participating in the gold-export movement have probably employed the credits that have been established, as the result of such movement, for the settlement of their obligations, while others may have loaned these credits on the London market, thus taking advantage of the relatively higher rates for discounts at the British capital than for money in New York. This may possibly account for the absence of offerings of cables against credits. It may be that the urgent demand for remittance and the very meagre supply of bankers' bills have caused cables, which were drawn in connection with gold exports, to be promptly absorbed in the market; the coincident demand for sight sterling for

remittance would naturally be reflected in the market for cables, thus contributing to an advance in such drafts. The underlying cause for the strength in exchange is the limited offerings of bills. Usually at this period of the year bankers draw long sterling in expectation of obtaining cover therefor from the proceeds of exportable commodities; the crop outlook is now so uncertain as to make such operations somewhat hazardous. Comparatively tense discounts abroad and low money rates here induce bankers to refrain from drawing upon their balances; therefore, the prevailing high exchange does not attract offerings, but, on the contrary, rather encourages remittance. The demand for bills is this season quite urgent because of the extraordinary inquiry incident to tourists' requirements for letters of credit and also on account of expenditures by Americans temporarily residing abroad. It is suggested, too, that, owing to the greatly increased imports and the falling off in exports, especially of commodities, the international trade balance is less favorable; indeed, taking into account the so-called "invisible" adverse balance, which must have been greatly increased in this fiscal year, it is claimed that an indebtedness would be shown in our international trade, which is probably now being liquidated. Another factor contributing to the strength of the market this week was selling by London bankers of American securities, partly because of the development of discount tension and also by reason of the discouraging railroad situation. In addition to the demand for remittance to pay for these securities, there was an inquiry by our merchants for exchange for the settlement of commercial indebtedness, advantage being taken of the extremely low rates for money to effect such adjustments.

The engagements of gold for shipment to Paris this week amounted to $7,100,000, making a total of $10,400,000 since the movement began on May 28.

Nominal quotations for sterling exchange are 4 84½ for sixty day and 4 87½@4 88 for sight. The market was quiet on Saturday of last week, and, compared wth the previous day, long was 20 points lower at 4 8350@4 8355, short 5 points at 4 8675@4 8680, and cables 5 points at 4 8725@4 8730. On Monday the tone was steady, and while long was 20 points higher at 4 8370@4 8375, short and cables were unchanged. On Tuesday long fell 10 points to 4 8360@4 8365, short rose 5 points to 4 8680@4 8685 and cables were unchanged. On Wednesday short advanced 5 points to 4 8685@4 8690 and cables 5 points to 4 8735@4 8740, while long was unchanged. On Thursday long rose 10 points to 4 8365@4 8375, short 10 points to 4 8695@4 87 and cables 5 points to 4 8740@4 8745. The tone was strong on Friday at an advance of 10 points all around.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

		Frt., May 31.	Mon., June 3.	Tues., June 4.	Wed., June 5.	Thurs., June 6.	Frt., June 7.
Brown Bros. & Co.	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 87½	87½	87½	87¾	87½	88
Baring, Magoun & Co.	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 87½	87½	87½	87½	87½	87½

	Sight	4 87½	87½	87½	87½	87½	87½

The market closed on Friday at 4 8375@4 8385 for long, 4 87@4 8710 for short and 4 8750@4 8755 for cables. Commercial on banks 4 8345@4 8355 and documents for payment 4 82¾@4 84. Cotton for payment 4 82¾@4 82⅞, cotton for acceptance 4 8345@4 8355, and grain for payment 4 83¾@4 84.

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending June 7 1907.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	$8,804,000	$7,456,000	Gain $1,348,000
Gold	815,000	647,000	Gain 168,000
Total gold and legal tenders	$9,619,000	$8,103,000	Gain $1,516,000

With Sub-Treasury operations and gold exports the result is as follows:

Week ending June 7 1907.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement as above	$9,619,000	$8,103,000	Gain $1,516,000
Sub-Treas. operations & gold exports	21,900,000	28,300,000	Loss 6,400,000
Total gold and legal tenders	$31,519,000	$36,403,000	Less $4,884,000

The following table indicates the amount of bullion in the principal European banks.

Bank of	June 6 1907.			June 7 1906.		
	Gold.	Silver.	Total.	Gold.	Silver.	Total.
	£	£	£	£	£	£
England	34,774,367	----------	34,774,367	33,565,371	----------	33,565,371

THE STRIKE IN THE TRANSVAAL.

An episode of much potential importance has been in progress for some weeks, on the other side of the world; without attracting from financial markets the attention which it has deserved. Even in England, where the Stock Exchange watches the Transvaal gold-mining securities with an interest which does not exist here, the news of a strike at the South African mines has apparently been received with a mixture of perplexity and apathy. This, we presume, results in a measure from the caution with which the Government and the mining companies have given out the facts. It has, indeed, been difficult until very recently to discover exactly what those facts were. The mail at hand this week throws some light on the subject, and opens to the financial view an exceedingly interesting incident.

The white miners employed on something like 43 of the Johannesburg mines lately came into collision with the managers on a question of regulations for the work. It does not appear that the question of wages pure and simple cut any figure in the dispute. Under the system of mining pursued in the Transvaal, work on the mines is distributed to white contractors, each of whom has been accustomed to operate two of the drills used to strike into the deep-level rock. For operation of these drills a certain allowance was made to the contractors, not altogether dependent upon the amount of ore turned out by them. From this allowance, it appears, the contractors were accustomed to pay the wages of the native workers and the imported Chinese coolies, through whom the rough work of the mines was conducted.

So far as can be gathered from the somewhat meagre details, the managers have been confronted with a

problem not unlike that which confronts to-day a good part of the labor-employing community in this country. Wages, so far as concerned the white laborers, were at a high level; efficiency of work and value of results did not appear to have increased in due proportion. To what extent this may have resulted from an unfortunate system of payment, it is impossible at this distance to say. The problem was attacked by the managers, however, through announcing to the white contractors that hereafter, instead of operating two drills, they should operate three for the same allowance of pay. The white miners retorted that this was equivalent to a substantial reduction in their wages, and, supported by a strong and aggressive union organization, many of them struck work. A campaign to break up mining throughout the properties where such demands were made began, and has been pursued with an obstinacy sufficiently familiar in our experience with labor. Dispatches from the Transvaal have contained such details as the forcible driving away of new mechanics brought into the larger mines to replace the strikers; the sending of 500 cavalry and 200 infantry from the Pretoria garrison to the Rand; the erecting of barricades for the new workers, and the tearing down of these barricades by the strikers; and, in at least one case, the ordering of the cavalry to charge on a particularly menacing group of strikers at Johannesburg.

Thus far the incident conforms so closely to what has happened in laboring circles elsewhere in the world that it would of itself attract no special notice, especially when it occurs in a young community of more or less lawless instincts. The particular interest of the affair to the world at large lies in the unquestionably great stake which markets have in maintenance of the Transvaal gold production. That this production reached last December its high-water mark—the output then standing $3,000,000 above the best monthly production prior to the Boer War—most people are aware. Since December, for various reasons apparently not connected with the labor troubles, production has slightly fallen off; but it was left for the preliminary returns of last month's production, lately received by cable, to show how far the strike was holding back the normal output of the mines. A decrease of something like $800,000 from the previous month was estimated for May.

This is a sufficiently large decrease to draw attention to the possibilities of such a situation, if the strike were to grow genuinely serious. At the moment, dispatches from London and from the Transvaal appear to indicate that the acute phases of the trouble is over, and that even the white laborers are resuming work on the terms of the companies. It is probable, therefore, that the episode will end with no great disturbance of the general situation, and this result is certainly to be hoped for. That an outright embargo on the South African mine output, even for a limited period, would seriously embarrass the financial markets will readily be understood by people who recall the incidents of the Transvaal War. From a production of £16,700,000 gold during 1898, and a promise of a still larger output for the whole of 1899, the Rand output, checked by the outbreak of war in October of the last-named year, fell to £1,014,000 in 1901. During 1906 it had risen to £25,000,000. While this output was suspended in 1901 and 1902, it will be remembered, the gold market of the world and the bank reserves of the great European institutions were disturbed and unsettled in a most unusual degree. With the strain which has lately been in evidence, both on capital and on the bank reserves of the European and American institutions, repetition of such an incident would hardly be welcomed. We presume that the stake of the mine-owners themselves in the markets is sufficient to make sure that under any conditions they would prevent a general suspension of this sort. As matters stand, the probability is that production will soon go on at the old rate, if not at a rate still larger.

The incident, looked upon in a broader way, draws attention rather strikingly to the part which cost of labor is playing in the entire industrial situation at the present time. To what extent this factor is a determining influence in the abnormal rise of prices of commodities—which have now, according to most estimates, risen to an average level not attained since 1877—it would, perhaps, be difficult to say; but that the part contributed not only by higher wages, but by the decreased efficiency of labor which, unfortunately, has accompanied it, is of material consequence, nobody can doubt. In our judgment, this phase of the industrial problem is in many respects the most serious with which the markets and the business community are forced to deal. There is an irony of fortune in the fact that this same influence of increased cost of production should now have displayed itself in the very article to whose depreciation in value the rise in commodity prices has been very commonly ascribed.

We do not propose to enter upon discussion of so intricate a problem as the effect which increased cost of gold production, from the mine-owner's standpoint, might be supposed to have on the level of commodity prices. The stand which the Transvaal miners have taken shows, however, that the problem of labor cost is limited by no commodity and by no locality. Of one fact we suspect this situation in the Rand gives some guaranty for the future. It can hardly be supposed that, after having been thus confronted with so serious a possibility of trouble through lack of white laborers in the Transvaal, the British Government will pursue a drastic policy regarding repatriation of the Chinese coolies. What concessions in that direction have been irrevocably promised by the British Government to the Boers, and how far, if at all, the Boers are bent on seeing the concessions carried out, we do not profess to know. But the prosperity of the greater number, which in this case means the maintenance of the world's industrial prosperity, is bound in the long run to settle such questions.

THE AMALGAMATED COPPER COMPANY'S ANNUAL STATEMENT.

The annual statement of the Amalgamated Copper Company comes at a time when more than the ordinary interest is taken in anything relating to copper affairs, by reason of the uncertainty which seems to exist concerning the immediate future of the copper trade and the slight shading in the price of copper which has recently occurred. A study of the figures in this case leads to the conclusion that the outlook for the various copper companies must, on the whole, be regarded as assuring, even though some quite extensive

reaction should occur after the extremely favorable conditions that have ruled so long in the trade. The showing of profits, of course, is large, just as had been counted upon, but the fact of most importance, at least as disclosed in the case of the Amalgamated Company, is that the dividend distribution has been well within the line of profits, leaving a considerable margin to encroach upon, in case of trade depression, before dividends become endangered. Other attendant circumstances, particularly in the way of economy in operations and the arrangement for averting labor troubles, are also encouraging, as we shall see as we proceed.

The paucity of the information furnished by the Amalgamated Company is in sharp contrast with the wealth of its mines. The present annual "statement" is in the same meagre and unsatisfactory form as the two preceding "statements" of the same kind. Indeed, so far as printed matter is concerned, the statement is briefer than the preceding two. Owing to the shortening of the text, only two sides of a four-page circular are covered this time, whereas last year there was printed matter on three of the four pages. Of course some information is better than no information, and after the complete absence of any figures at all for so many years the appearance in 1905 of the first of these annual "statements" marked an important step in advance. But the hope at that time raised that this was to be only a beginning, to be succeeded by fuller and more comprehensive returns—in truth, by an annual report in the complete sense of the word—has been distinctly disappointed. The managers of this large industrial enterprise, occupying such a dominant position in the trade, have not seen fit to emulate the example of the United States Steel Corporation. The result is that all the facts and figures furnished with reference to this company, with its outstanding capital of $153,887,900, is embodied in the present brief circular, which is merely an apology for an annual report, containing as it does less than fifty lines of text and a dozen-line balance sheet.

All that we get regarding the profits of the company is in the one-line item in the balance sheet stating that the net income for the year ending April 30 1907 was $14,154,400. Another one-line item tells us that the dividend payments were $11,926,312. Still, these figures are pregnant with meaning. They show in the first place that profits or income exceeded by $2,228,088 the call for the 7¾% dividends paid out of the earnings of the twelve months. The $14,154,400 net income for the year, moreover, when contrasted with the $9,161,537 net income of the preceding fiscal year, affords evidence of the advantage which the company has derived from the higher price of copper. The $2,228,088 surplus for the twelve months remaining above the dividend distribution is equal to about 1½% on the amount of Amalgamated stock outstanding, and consequently, according to these figures, the Amalgamated Company earned about 9¼% on its stock.

With copper at 25 cents a pound, such a rate of income does not look very big, and if the profits were limited to those shown in the present statement there would manifestly be nothing to boast about. As a matter of fact, the figures given are a very imperfect indication of what the earnings have actually been. The Amalgamated Company is simply a holding concern, and it gets only so much of the profits of the constituent companies as are distributed in the shape of dividends by these companies. If, therefore, the subsidiary companies do not pay out the whole of their profits, only the portion actually distributed enters into the return of the Amalgamated Company. The undistributed portion of the profits does not appear, but exists all the same. It follows that a full measure of the profits can only be obtained by considering the income and operations of these subsidiary properties. Unfortunately, these companies, except in the case of the Anaconda Copper Mining Company, furnish no annual statements whatever. It is thus out of the question to make up a statement indicating what the real extent of the profits has been. From the report of the Anaconda property, however, it is plain that the undistributed earnings must have been large.

Even for the Anaconda Company the figures are not for a period corresponding with that of the Amalgamated Company, the fiscal year of the latter, as already stated, ending with April, while that of the Anaconda corresponds with the calendar year and ends with December. For the calendar year 1906 the Anaconda Company shows net income of $8,842,669, whereas the 23% dividends paid took only $6,900,000, leaving, therefore, an undistributed surplus for the twelve months of $1,942,669. The Amalgamated Company is understood to own only a little more than a majority interest in the Anaconda Company, and yet, even on that basis, its share in these undistributed earnings would be a full million dollars. In the case of most of the other constituent companies, the Amalgamated would be entitled to nearly the whole of any undistributed surplus. For, as is known, it owns the entire stock of the Washoe Copper Company, the Colorado Smelting (now the Trenton Mining & Development) Company, and the Big Blackfoot Milling Company, and all but a few shares of the Boston & Montana and the Butte & Boston companies. In the Parrot Company, as in the Anaconda, it owns only a majority interest. The importance of all this lies in the fact that it shows that in the Amalgamated Company's figures the extent of the profits are only in part disclosed, making it evident, therefore, that besides the margin of income above the dividend payments disclosed in its circular, there also remains the margin of the subsidiary companies above *their* dividend payments to encroach upon.

It is hardly needful to say that the price of copper has for some time been ruling at extremely high figures. In the circular before us it is stated that the metal rose from 18½ cents per pound in December 1906 to 25¼ cents in March 1907. In the circular for the previous year it was stated that the price had risen from 15⅜ cents in April 1905 to 18½ cents in December 1905. Nothing is said as to what the average price realized during either period of twelve months was. A decline of one cent per pound in the price of the metal would mean a loss of about 2¼ million dollars in the profits of the Amalgamated Company and its constituent concerns. This follows from the statement in the circular that the companies owned wholly or in part by the Amalgamated produced in the calendar year 1906 from their own and custom ores about 275,000,000 pounds of refined copper, of which the Amalgamated Company "received the benefit" from

about 224,000,000 pounds. A one-cent decrease on this latter figure would be $2,240,000. The weakening in the price of copper has not as yet reached any very great proportions, though the quotation is now somewhat below 25 cents. Whether there is to be any serious decline is purely a matter of conjecture and dependent not alone upon prospective trade conditions in the United States, but also in the rest of the world.

The mistake must not be made, however, of supposing that the *average* price for the late fiscal year was anywhere near 25 cents. The present circular tells us that on April 30 1907 all the refined copper that can be produced up to the coming first of July by the various companies controlled by the Amalgamated had been sold in advance. No information is vouchsafed as to the price, but this evidently must have been somewhere near the figures lately prevailing. On the other hand, in last year's circular, after noting the advance to 18½ cents made at that time, the remark was added that at this figure all the copper "since produced" had been sold. As the price was still quoted at 18½ cents in December 1906, it is obvious that for a good part of the year this was the price obtained, and not 25 cents a pound.

There are two other encouraging features as far as the future is concerned, namely the economies of operation made possible as the result of the extensive improvement work undertaken in recent years and the satisfactory agreement made with the miners with reference to wages. Nor should reference be omitted to the saving in expenses which has followed from the settlement effected a year ago of the extensive litigation in which the various properties had been involved so long. Indeed, a good part of the remarks in both last year's circular and this year's was devoted to setting out the benefits flowing from this latter feature. As regards the improvements made, we have on several occasions alluded to the extensive concentrating and smelting works constructed at Anaconda by the Washoe Copper Company at an original cost of over $9,000,000. At these works are treated the ores of the Anaconda, the Washoe, the Parrot, the Colorado and the Butte & Boston mining companies. The result of this outlay has been a great reduction in the cost of treating crude ore. During the past year, the blast furnace as well as the reverberatory and calcining furnaces in the smelting works at Anaconda were further enlarged. Some idea of the capacity of these works will appear when we say that upwards of 10,000 tons of ore are now treated there daily. The ores of the Boston & Montana Company are treated at the latter company's own smelting plant at Great Falls, and as these reduction works have been taxed to their utmost in handling the output from its mines, arrangements have been concluded whereby the tonnage of ore which can be treated daily by these works will be increased by 1,000 tons. This step, we are told, will require the building of an entire new section in the concentrating department, a general increase of facilities in all of the other departments and the erection of a smokestack 500 feet in height and having a diameter of 50 feet.

Satisfactory labor arrangements are, of course, of the utmost importance, for trouble at the mines means both a stoppage of work and an addition to the expense accounts. Contracts were recently entered into by the various mining companies with the different labor unions covering a period of five years. From the report of the Anaconda Company we learn the terms of these contracts. They provide, it appears, for the scale of wages in effect before November 1906 when electrolytic copper sells below 18 cents per pound and an increase in pay when copper sells above 18 cents. This arrangement would appear to be fair to both sides, and as the contract is for five years, the only possibility of trouble is in the labor unions breaking the contracts —which we should judge was hardly likely.

From the Amalgamated Company's balance sheet for April 30, it is seen that the company's accumulated or undistributed surplus now amounts to $11,483,782. This, of course, is entirely independent of the accumulated surpluses of the constituent companies. The greater part of the Amalgamated's surplus is represented by the loan of $7,350,000 made to the Washoe Company for the construction of the smelter plant at Anaconda, already referred to. The aggregate of cash and cash assets is also steadily rising, this for April 30 1907 being $4,640,797, against $4,080,449 in 1906 and $2,756,759 in 1905. On the other hand, it is to be noted that the May dividend, to be deducted from these cash assets, is now larger than in the earlier years, the call on that account for May 1907 being $3,077,758, against $2,693,038 in 1906 and only $1,538,879 in 1905.

ENLIGHTENING THE PUBLIC MIND.

In the present distressing state of affairs, when politicians, newspapers, the National and the State legislatures and Government officials appear to be vying with one another to see which can devise schemes most inimical to corporate interests and to capital and accumulated wealth, it is pleasing to note some incidents of the other kind. It is pleasing to observe that there are not wanting men who have the courage to stand up and seek to stem the tide, and who are conscientiously engaged in attempts to enlighten the public mind and to warn it of the consequences that must inevitably follow from a continuance of the present course. It is particularly gratifying to find at the various State Banking Conventions which are so frequent at this season of the year strong expressions of disapproval of the movement and of its folly. Banking institutions in the remoter part of the country have on occasions been accused of sharing in the feeling of enmity against so-called Wall Street domination. Hence it is a development of some importance that there should be growing evidence of a sentiment adverse, not to property rights, but to anything that savors like hostility to the same.

We have been particularly impressed by the remarks made by President C. A. Beasley in his annual address last week before the Texas Bankers' Association in convention assembled at Corpus Christi. Mr. Beasley is President of the American Bank & Trust Co. of Houston, Texas. After pointing with pride to the wonderful progress which Texas has made and expressing the opinion that that State is becoming to the Southwest what New York is to the Northeast, he cautioned against doing anything that would tend to prevent continued growth in the future. To his mind the greatest danger that confronts Texas and its future is ill-advised legislation. He did not speak for bankers alone when he made the assertion; on the contrary, he thought he voiced the sentiment of honest, conservative men of every class—the farmer, the

merchant, the mechanic, the laborer, and the toiling millions who must be idle when capital is driven into vaults and depositaries and remains unemployed. He well said that the spirit of Socialism that manifests itself in some sections of the Union is alarming to thoughtful men. He did not mean to defend illegitimate schemes and ventures, by which some men have accumulated millions, but he did condemn any proposition that puts a limit upon the right of every man to utilize his talents and labor in the accumulation of wealth, so long as he exercises that right honestly and legitimately. Were it otherwise, there would be no incentive to industry, either mentally or physically. We would become a sleeping nation. He argued earnestly in favor of greater care in the selection of representatives for the Legislature.

A few weeks before, a very sensible address on the same subject was delivered before the annual convention of the Mississippi Bankers' Association at Gulfport, Miss. This was by Captain J. T. Jones, of the Gulf & Ship Island Railroad. He advised the assembled bankers that now was the time for them to use the very best and most conservative judgment of which they were capable, for here, in the greatest prosperity, we find ourselves in the midst of a semi panic. What could Providence do for this country more than she has done? She has given us the greatest crops of cotton, corn and wheat, and the greatest output of minerals and ores, that we have ever had. Never was a country so blest on earth as this one. The crops were so abundant that with all the facilities of those awful wicked railroads, we could not begin to carry them. This year was the first he ever heard of furnishing something out of nothing—or that the way to build up a railroad and thereby improve the condition of the country was to blackmail the railroads out of existence; to cut away from them their reputation and character, and still expect them to carry on the business of the country.

He pointed to the dangers threatening from the attitude of labor. He said the other day a party of railroad employees waited on the management of his road and demanded a 10% increase in wages, threatening to strike in case the demands were refused. Conditions were explained to them and they were told that railroad troubles had just commenced, and no one could tell where they would end, but the men persisted in their demands and the railroad, appreciating what delay in deliveries would mean to the sawmill and other business interests served by the road, yielded. As a result of reductions in hours and advances in wages, this little road finds that whereas last year its pay-roll was $62,000 a month, now it is $95,000 with only a few more men on the rolls. In view of these facts, Captain Jones is moved to ask how a railroad or business interest can stand such a state of affairs.

He estimated that the recent stock market crash involved a loss of over a billion and a half. Some one had to stand this loss and yet we hear the argument "We do this to protect the innocent stockholders." Captain Jones said he had never yet found a politician who could show him a letter from any man who held a share of stock. For himself he did not like these meddlers—if he wanted to have his stocks or bonds protected he would write some one in position to help and urge him to protect him. He answered the question "Where are these stocks?" They are held by the men who built the railroads and the people who own the bonds, because the interest on the bonds must be paid, and they are safe—the stockholders are dependent upon the earnings of the road to pay dividends, and to this end must build up the business of the railroad.

He reminded the bankers before him that it is not possible to go forward in the great advance of business unless you can distribute your manufactured goods and bring to you the raw material. Continuing he said:

Take the Southern Railway, one of the greatest builders and developers of your country, making land worth $50 an acre which formerly was not worth $2.00—giving employment to thousands of men along its lines, and in fact, taking the spindles from the northern extremity of the Eastern States (where they never did belong) and bringing them to the Southern States, where grows the raw material and where properly the cotton mill should be located. To me it seems a marvelous thing that the very people whom this railroad put on their feet in prosperity should now stand by and cheer whenever the Legislature goes to work and changes its own contarct and then, almost without consulting the men interested, say "You do not own this railroad. The public owns it."

The men who conceived and built the road and paid for it do not even own it—the public owns it! A greater fallacy never existed. It may catch votes the first time, but will it catch votes when the railroads are shut down and mouths go hungry! Will it catch votes when the men are out of work, the children go half naked and half starved? I have seen this state of affairs several times in my life and I tell you it is a sad sight and not soon to be forgotten.

These are the things that alarm us—to see the people all over the State turning against the very greatest benefactors that the State has ever known. And yet the power of man and the wickedness of man has brought this state of affairs upon us.

This is good, sound, sensible advice and it cannot be too strongly impressed upon the minds of those who do not recognize or appreciate that in seeking to undermine those whose wealth and capital is invested in railroads and in the other industrial agencies of the day, they are paving the way for their own destruction. When capital is withdrawn from enterprise, when the investor refuses any longer to put his money in stocks and bonds, the day is near when industrial paralysis will extend over the whole length and breadth of the land, involving all in ruin—whether farmer, or planter, or wage-earner.

COTTON ACREAGE AND CONDITION JUNE 1 1907.

It hardly needs to be stated that in making this spring our annual investigations into the condition of the cotton crop, we are confronted by a situation quite in contrast with that of a year ago. Last season, as our readers will probably remember, we were able to draw more definite conclusions as to the outlook than is usually the case; for, while there was not entire freedom from adverse conditions, the favorable weather of late May had put the cotton plant into such shape by the 1st of June that a fairly normal summer and fall seemed to assure a good yield.

This year cotton acreage and condition data procured the latter part of May and first week of June are subject to the possibility of material correction later in the season. The early spring was quite generally more propitious than in many recent seasons, and work was begun promptly and for a time carried on

expeditiously. But abnormally low temperature in April and early May over pretty much the whole South put a check on farm operations and development of plant from which there has been only partial recovery under recent slightly better conditions. The crop, therefore, is no doubt a backward one—in fact, averaging for the whole area probably among the latest in germinating we have ever had to record, and extensive replanting has been necessary. From this it does not of course follow that the season's yield will not be a good one, but it leaves the crop much more susceptible than usual to any unsatisfactory conditions of weather that may develop during the summer. Under the circumstances, therefore, it seems right that we should add that no effort has been spared to get at the facts as to development so as to present in this report the status of the crop as nearly as possible as it stands to-day.

Before proceeding to a consideration of this year's planting, however, it may be well to refer briefly to some of the salient features connected with the last crop. In the first place, the wisdom of the Southern planters in freely increasing acreage last spring, and thus bringing the area up to approximately what it was two seasons previously, has been fully vindicated by the course of events. Every pound of the cotton raised has found a ready purchaser at highly remunerative prices to the producer, and, while all of it has not been needed to supply consumptive requirements, the portion not actually used has been a welcome addition to the world's previous surplus. For, with consumption steadily increasing and the United States the main contributor of the raw material, a few hundred thousand bales added to the reserve supply now and then is no menace. Speaking of consumption, the increasing use of cotton is one of the current gratifying events; for, although the present drift is for goods of finer texture and lighter weight, and therefore requiring less cotton to the yard, more raw material is used yearly; clearly proving that new uses for America's great product are constantly being found.

Events have also proven the falsity of the contention that important additions to cotton area at the South could not be made and the crop receive proper attention, owing to scarcity of labor. Doubt on that point is expressed again this year as it was last year and had been previously, and with just about the same modicum of fact for a basis. There is undoubted need for an influx of labor at the South, and every legitimate means has been and is being used to induce it with a fair measure of success. But we have written so much on this point heretofore that it is referred to in passing merely because it is one of the incidents inseparable from any investigation of spring planting at the South. We believe, however, that notwithstanding all the reports of an apparent shortage of labor, the crop now developing will receive all needed attention during the growing season, and it will not be on account of lack of hands to pick it that the cotton will not all be gathered.

There is just one other point with regard to the crop of 1906-07 to which, in justice to ourselves and to our readers, brief reference should be made, and that is the area planted as we reported it. It is no doubt well known that the investigations we make are entirely under our own auspices, being independent in every respect of the compilations of any and all other authorities. We have never been dogmatic enough to assert that the results are absolutely correct, but we have claimed, and do now maintain, that they indicate the tendency as closely as it can be arrived at short of an actual census. We should therefore be permitted to entertain and express a feeling of satisfaction at the confirmation our acreage and condition results for last spring have received. The investigations we then made seemed to warrant us in restoring the area to the total planted in the big crop year (1904-05), every antecedent fact appearing to justify that course. But when we learned that the Department of Agriculture had placed the area at 28,686,000 acres against its total of 31,730,371 acres two years previously, we decided to look into the matter further to learn whether any error might have crept into our compilation. As a result of that further investigation, and as announced in our annual crop report last September, we found no warrant for revising the figures; on the contrary, we were confirmed in the belief that the percentage of increase reached by us—9.54%—was as true an indication of the tendency last spring as could be arrived at.

The acreage this season we are not permitted to doubt has been further increased. In view of the conditions at the time of planting and replanting, no other result could have been looked for. This is so notwithstanding that, in consequence of adverse weather, the measure of the addition is probably not as great as originally intended. The full and increasing consumption of cotton, and therefore the demand for increasing supplies from this country, coupled with the very satisfactory prices for it, furnished the needed incentive. Efforts to curtail or hold down the area would under such circumstances be vain. Every cotton-growing State reports a heavier planting than a year ago, the increase running into high percentages in the newer territory. From this enhanced area it is of course impossible to even surmise what will be the product. As already pointed out, this spring has been less favorable in most of its aspects as regards cotton than many that have preceded it; but whether the unfavorable features will be largely or wholly nullified by future satisfactory conditions is merely an idle speculation.

The fact standing out prominently is that a pretty full crop seems to be needed. The cotton goods trade is, speaking generally, in excellent shape now, with mills in many quarters engaged well into the future. Large additions to spindles have recently been made and are now in progress of being made, and further additions are in contemplation. The Southern planter should therefore feel quite sure that his product, whatever it may turn out to be, will be wanted, and at prices eminently satisfactory to him. For this result, moreover, he will have his own foresight and the demand for goods to thank, and not the professional agitators who pose as his advisers; who, in advising him to decrease area in the face of increasing requirements, would almost seem to have axes of their own to grind.

Conclusions.

From the details by States given on subsequent pages, we sum up our conclusions briefly as follows:

FIRST, *Acreage.*—As we have intimated above, the inclination at the South this year has been quite

generally in the direction of extending cotton area, but the tendency has been modified somewhat by the adverse weather conditions under which planting was largely carried on. For that reason, notwithstanding the incentives to a full planting everywhere—high prices and unprecedented demand—it is only in newer territory that we find any really important additions. Oklahoma, which showed an increase of 18% last year, adds 20% this season, and in the Indian Territory the addition of 20% in 1906 is supplemented by an augmentation of 11% this year. The bringing of virgin soil under cotton in sections of Western Texas has served, moreover, to give that State a good percentage of gain. As we make it, the net increase for the whole country is 4.82%, against 9.54% last year. The changes, as we have made them for each State, are shown in detail in the following:

States.	Acreage, 1906.	Estimated for 1907. Increase.	Decrease.	Acres, 1907.
Virginia	35,359	----------	--------	35,359
North Carolina	1,133,447	2 per cent	--------	1,156,116
South Carolina	2,479,849	3 per cent	--------	2,554,244
Georgia	4,377,345	2 per cent	--------	4,464,892
Florida	316,613	2 per cent	--------	322,945
Alabama	4,543,120	4 per cent	--------	4,724,845
Mississippi	3,556,645	4 per cent	--------	3,698,911
Louisiana	1,664,683	3 per cent	--------	1,714,623
Texas	8,873,203	7 per cent	--------	9,494,327
Arkansas	1,915,404	3 per cent	--------	1,972,866
Tennessee	784,868	1 per cent	--------	792,717
Indian Territory	1,032,756	11 per cent	--------	1,146,359
Oklahoma	779,954	20 per cent	--------	935,945
Missouri	63,996	2 per cent	--------	65,276
Total	31,557,242	4.82 per cent	--------4	33,079,425

This compilation shows that there is a net increase compared with 1906 of 4.82%, the total acreage reaching 33,079,425 acres in 1907, against 31,557,242 acres in 1906. We add the acreage for previous years for comparison, giving at the foot of the table not only the acreage but the total crop for each year, with the percentage of increase or decrease in area or production compared with the previous year and the product per acre.

COTTON ACREAGE FOR THE YEARS NAMED—(000s omitted.)

	1906-07	1905-06	1904-05	1903-04	1902-03

a Decrease.

SECOND.—With regard to maturity, cultivation and condition, the conclusions we reach are as follows:

(1) In *maturity* this crop is beyond doubt a late one—much later than the one that preceded it, and probably as late as any since we began these investigations. Some of our correspondents go back as far as 1855 to find a spring with which to compare the current one. The facts about this year as they appear to us are that the early season was on the whole more favorable than usual, March temperature being much above the normal, and this expedited the preparation of the soil. But almost with the opening of April conditions became adverse and so continued throughout that month and until near the middle of May. Temperature quite unseasonably low, with damaging frosts, as well as too much moisture, was a general complaint. Seed already planted was to a considerable extent killed or damaged, and where planting was carried on during the cold period germination was seriously arrested. The result of it all has been that a large amount of replanting has been necessitated, and in many cases seed had to be put in a third time before a stand could be secured. Some of the latest plantings are not yet up. Latterly, or, to be more exact, since the middle of May, the weather has been a little more favorable to development, but heavy rains occurred the last week of the month in many localities.

(2) *Cultivation* is now fairly satisfactory where the plant is far enough along to be chopped out, but excessive precipitation the last week of May left fields in many sections quite grassy. Further efforts to enrich the soil and thus add to its productiveness is to be found in an increasing use of fertilizers this season. The increased use is noticed mainly in sections east of the Mississippi River, and particularly along the Atlantic seaboard; but in other districts there has also been a tendency the last few years toward fertilization.

(3) Condition of the plant is at this date rather below the average, although in some sections under the more favorable weather recently prevailing an improvement is noticeable. Without question a succession of favoring weeks is needed to bring the plant up to a good condition. Lateness in itself is not a serious drawback except in the case of early frost. In fact, it is a matter of history that good crops have often been made off of late ones. Still that does not prove anything.

Our summaries by States are as follows:

VIRGINIA.—The start of planting in Virginia this year was later than in an average year, little or nothing being done until near the close of April. Work, however, was completed about May 25th, or at practically the same time as a year ago. Germination was interfered with until after the middle of May by cold weather, so that the crop had a late start, but on the whole seed, where up, has started fairly well. An unimportant amount of replanting has been done. The weather the last half of May was, as a rule more satisfactory, the conditions recently having in the main favored the development of the plant. *Stands*, where secured, although more backward than the average, are, as a rule, fairly good, and a continuation of present weather should insure a good stand from the seed now coming up. Cultivation would seem to have been properly attended to. *Acreage.*—The area under cotton in Virginia is decidedly limited and the year's planting seems to have been confined to an acreage identical with that of 1906. That is, no apparent change has been made. *Fertilizers* have been used to about the same extent as a year ago.

NORTH CAROLINA.—Preparation of land for crops was carried on under quite satisfactory conditions this spring, the unusual high temperature for the time of year which prevailed in March greatly favoring out-door work. But in the succeeding month—April—temperature was much below the normal, with frosts at dates later than the average. This militated greatly against the getting in of seed promptly and this adverse situation was aggravated by too much rain. As a result, planting not only started later than usual, but was not finished until the close of May, against about the 15th of that month in 1906. Early-planted seed came up poorly, as a rule, and much was killed by frosts. Later sowings and replantings, those of late April and May, however, while germinating slowly, started off fairly well, but there is still some seed to come up. Replanting rather more than usual is ascribed to frost, rotting, &c. Weather conditions the first half of May were much as they were in April, retarding growth, but since then more propitious conditions have fostered favorable development and a consequent improvement in the outlook. Subject to qualifications stated above, *stands* are now fairly good, ranging from poor to very good and the cleaning of the fields has been well looked after. *Acreage.*—Original intentions as regards area evidently

suffered modification owing to the lateness of the planting season. At the same time, however, after carefully analyzing the returns, we seem justified in applying to North Carolina as a whole an increase of 2%. A freer use of *fertilizers* is indicated in our reports—the use of both commercial and home-made varieties has seemingly increased to a moderate extent.

SOUTH CAROLINA.—The weather conditions that prevailed this spring served to retard planting operations in South Carolina. For although the first putting in of seed was in advance of 1906 by about ten days, the drop in temperature in April and excess of moisture during the same month caused thereafter material delays. Consequently planting did not finish until fully two weeks later than a year ago, or about May 31st. Germination varied greatly, according to locality and time of planting. Some seed came up very well, others fairly well, but the majority of our correspondents report that the start was poor. As to replanting, there is also considerable divergence in opinion. According to some it was limited in extent or less than usual. But elsewhere frost late in April killed or injured much seed, entailing more than an ordinary amount of re-seeding. There is quite general agreement that April weather was against satisfactory development of the plant, and that a continuation of similar conditions—low temperature and more moisture than desirable—were adverse features of early May. The unsatisfactory features have, however, recently been succeeded by more favorable weather, and the plant, although backward, is now making fair growth. *Stands* in the fields where the plants are up are reported poor to good, probably at this date averaging fair, and show that they have received proper attention. *Acreage* has been added to, but evidently not to such an extent as it would have been with a more satisfactory planting season. Our returns seem to warrant adding not more than 3% to the previous year's area. *Fertilizers*.—The use of both commercial and home-made manures has increased.

GEORGIA.—Planting began about the middle of March in some districts of Georgia, but was not actively pushed until the first week of April; while it was finished in a few localities shortly after the first of May, it was not finally completed until the close of the month. As in the States already reviewed, the weather during most of April was decidedly too cold for cotton and also, at times, too wet; furthermore, these adverse conditions continued well into May. All of which accounts for the unfavorable nature of our reports on germination. Early-planted seed came up poorly but that put in the ground late in April and in May, although germinating slowly, escaped the frosty weather and in the main started off fairly well. The conditions which operated adversely on germination were responsible for considerable replanting. A change in the weather is to be noted since the middle of May; higher temperature having prevailed; still there has been some complaint of excess of rain. But in the main the plant has taken on better growth. The crop is backward, however, and needs good future weather for saisfactory results. *Stands* secured vary in different sections of the State, reports being best from red lands, the stands on which are reported fair to good. On the other hand, gray and sandy districts make rather poor returns. For the entire State the stand would appear at this date to be below the average, but improving. Cultivation has been thorough where the weather has favored the work of clearing out foreign vegetation. *Acreage*.—Our returns indicate that in some districts area has been increased, in others it has been left as it was last year, and some planters have decreased the amount of land devoted to cotton. In going over the returns we find warrant to make a very moderate addition—say 2%. *Fertilizers* of both commercial and home-made sorts have been used more freely than last year.

FLORIDA.—In some districts of Florida planting began very early, but generally operations were not well under way until the middle of March and were not completed before the 15th of May, or about the same date as last year. Most of our correspondents say that seed came up poorly on account of cold weather, and that a very considerable amount of replanting was entailed. In fact, conditions during April were exceptionally unfavorable, the temperature ranging very low, with severe frost in localities on the 3d and 14th killing and injuring a great deal of cotton. Unseasonable weather continued up to about the middle of May, but latterly there has been a marked improvement, much to the benefit of the plant. *Stands* now are reported poor to medium, being best in Sea Island districts, and fields at present are in fairly good shape. *Acreage* has undergone some change this season, our replies seeming to warrant a very moderate addition to the previous area—say 2%. *Fertilizers* are used to only a limited extent in Florida, and this year the takings of commercial sorts have apparently been less than a year ago.

ALABAMA.—It is quite evident from our reports that the planting season in Alabama this year has been an unusual one. Early February was wet, with some overflowing of land along the Tombigbee and tributary rivers, but towards the middle of the month work of preparing land was actively in progress, and, with favoring weather, putting in of seed was begun in some districts the first of March. During April, however, unsatisfactory conditions again prevailed, cold and wet weather interfering materially with out-door operations, so that planting was not fully completed until towards the close of May. As regards germination, except of latest-planted seed, there is very little disagreement in our returns. In a few sections seed is said to have come up fairly well, but almost all the replies state poorly or very poorly, and some the worst in years. Down to near the middle of May complaints of low temperature, with frost at times, and excess of moisture, were quite general, requiring an unusual amount of replanting, which was carried on with difficulty, owing to scarcity of good seed. In some instances 75% of the crop had to be replanted, and in a few cases a third planting had to be made. Since the middle of May more favorable conditions have prevailed as a rule, but at the close too much moisture was complained of. The plant is backward and will doubtless need a succession of good growing conditions to bring it up to the average. Stands are reported rather poor on the whole, although a few say fairly good. *Acreage*.—To the previous year's area a moderate addition has been made, averaging for the State about 4%. *Fertilizers*.—Our replies indicate that there has been some expansion in the use of both commercial and home-made manures.

MISSISSIPPI.—The planting season in Mississippi this year compares unfavorably with last year, when work was hindered by wet weather. The current season has been conspicuously adverse in this respect, it having been impossible to do out-door work for days in some sections, owing to continuous heavy rains. Moreover, all through April and extending pretty well into May temperature was unseasonably low, with killing frost reported in localities as late as April 20th. Consequently the time of planting has been unduly prolonged, for while some seed was put in about the middle of March, work was not active until April 1, and is but just now finishing. Naturally, therefore, as regards germination, our replies are less conclusive than is usually the case. Where seed is up the plant starts off rather poorly and an unusual amount of replanting has been required. In instances as much as 50% to 75% has had to be replanted, and in some cases seed has been put in three times. As a result a scarcity of good seed has been complained of: *Stands*, where secured, average poor and some cotton is not up yet, but weather conditions since about the middle of May have been more favorable and the plant is improving. Although rains the last week of May interfered with cultivation. the outlook for the crop is not at the moment favoring to a full yield; but with conditions from now on satisfactory, a good outcome is possible. In this connection a valued correspondent remarks: "The largest crops we have made were planted between May 10th and June 1st, but in those seasons we had late falls. Our crop will necessarily be late, and its size depends upon a late fall, barring, of course, any adverse conditions which may arise during the summer, of which the one just now most feared is too much rain." *Acreage* shows reduction in some districts, but these are more than counterbalanced by gains elsewhere, leaving the net result for the State an increase of approximately 4%, or rather less than anticipated. *Fertilizers* are used only in limited quantities, but the taking of both commercial sorts and home-made manures have probably been slightly greater this year than last.

LOUISIANA.—Unusual conditions prevailed during the time of preparing land and planting seed this spring. The latter part of February and all through March the temperature was abnormally high for the time of year, and work of preparation of soil having progressed rapidly, seeding was under way in many localities by March 1. In fact, most of the initial planting was done in March and an especially early crop was anticipated. But in strong contrast to March, April was a particularly cold month (the coldest in the record of the Shreveport weather bureau) and an excess of rain was quite generally complained of. Under the circumstances, the time of seeding was much prolonged and planting in latest districts is but now completed. Our replies on germination are somewhat conflicting, for while some correspondents maintain that seed came up well, the majority of them report a poor start. There is, however, quite general agreement that there has been necessity for a very large replanting for which frost, wet weather and, to some extent, defective seed were responsible. As elsewhere, at the South recent conditions of weather, both as regards temperature and rainfall, have been more favorable to the plant, which is taking on a better appearance generally. *Stands* range from poor to good, but on the whole are below the average of recent years, and fields are rather grassy as a result of the late rains. *Acreage.*—A number of causes are said to have served to check the tendency to quite materially add to area. Adverse weather, the turning of local labor to saw-mills, and the fear of boll-weevils are among those mentioned. Collectively they have operated to hold down the season's increase to about 3%. *Fertilization*, although not largely practiced in Louisiana, has been availed of this year to a greater extent than heretofore.

TEXAS.—In practically no State is there to be recorded such contrasting situations as in Texas. What promised to be one of the earliest crops on record now bids fair to be one of the latest. With very moderate rains and high temperature for the season, farmers were able to make excellent progress in preparing land for crops in January and February and planting was active in early districts about the opening of March. But first droughty conditions and then cold and wet weather interfered with work so seriously that at the close of May final planting had hardly been done. Earliest-planted seed came up well, but much of it died out and the start from later plantings was rather poor. Temperature ruled appreciably above the normal in March, and this naturally favored cotton; but April was a cold month—colder than March or an average April. This circumstance and excess of moisture killed or injured materially cotton that was up and neccessitated extensive replanting, which is just now finishing. Wet weather was still a cause for complaint in the early days of May and temperature also continued quite low, but from the 10th down to near the close a prevalence of better conditions was noted. The last few days, however, rain was quite general over the State and in sections excessive. With the somewhat indifferent start of the plant in Texas, a succession of satisfactory months is a prime requisite. *Stands* are variously reported upon; a few good, some fair, but most rather poor. *Acreage.*—In new sections of Western Texas some important additions to cotton area have been made this year, but in the older districts moderation has been the rule. Fear of the boll-weevil has been mentioned as an influence apt to operate as a check to increasing cotton area, but we find no direct evidence of it in our returns. We estimate the gain for the State as a whole at 7%. Fertilizers are but little used.

ARKANSAS.—In common with other sections of the South, Arkansas has experienced very unusual weather conditions this spring. March was warm and favorable for farm work and planters were in excellent shape by the end of that month. But with the opening of April there was a change to cold and wet weather, which continued throughout the month, and all the advancement contributed by the favorable conditions in March was lost. Furthermore, the situation was rendered even more unsatisfactory by general and continuous rains over much of the State during the early portion of May. The planting season, therefore, was unduly prolonged and work was not finished until about the first of June. Early planted came up well, but was almost wholly killed by frost, and later plantings germinated slowly and poorly. Presumably never before in this State has so much re-planting been required. In some cases almost whole crops had to be re-planted, and in many instances seed had to be put in a third time before germination took place. Conditions since the middle of May have been better than those experienced earlier, but still not of a nature to foster a material improvement in the plant. Stands, therefore, are still irregular and much cotton is not yet up. There are some complaints now as to the state of cultivation. *Acreage.*—To the previous year's area a moderate addition seems to have been made, averaging for the State, we should say, about 3%. *Fertilizers.*—Of both commercial and home-made fertilizers there has been a slightly greater use this year than last. Their use, however, in Arkansas is limited.

TENNESSEE.—Low temperature and excess of moisture served to delay the commencement of planting to an unusual extent. In fact, while March temperature was above the normal, April was the coldest on record, frosts occurring late in the month. Work was begun at a few points around the first of April and at some others about the fifteenth, but it was near the close of the month before it became general, and was not finished until June 1st. Seed germinated poorly as a rule, as a result of the adverse conditions, and some is not yet up. One correspondent well describes the situation this year by stating that while there have been no floods, water stood in the fields more or less from the time ground was broken until about the middle of May. With such a condition, work would naturally be greatly hindered. Re-planting has been general and extensive, in some cases comprising whole crops. Recent weather has been more satisfactory, but a continuance of good seasons is needed if a good crop is to be made. *Stands.*—At this date it is difficult to approximate a correct statement of the situation. Late planting came up fairly well, but generally the start has been irregular with stands poor. Fields are in fair shape, but the plant is much behind the average in development. *Acreage.*—Changes up and down in area so nearly balance that we do not feel warranted in adding more than 1% to last season's acreage. *Fertilizers* have been used to about the normal extent. They are not extensively availed of in Tennessee.

INDIAN TERRITORY.—During the early season, and extending well through March, quite favorable conditions prevailed and farming operations made good progress. In consequence, planting operations were under way in some sections before the first of April. Subsequent to that date, however, low temperatures and too much rain materially retarded work. Thus, it is that planting, which started early, did not finish until the close of May generally, and there is even now a little to be done. Seed is stated to have germinated poorly, as a rule, and of course there is much not yet up. As a result of cold weather, with frost, and too much moisture, re-planting has been extensively carried on, amounting in some cases to the larger part of the crop, and in instances a third planting has been required. While the more favorable weather which set in about the middle of May is expected to be of much benefit to the plant, late rains have complicated the situation, and therefore sufficient time has not yet elapsed to allow of any definite report on that point. *Stands* are reported poor at this date, and cultivation has latterly been hindered. *Acreage.*—In all sections of the Territory the disposition seems to have been to increase the amount of land under cotton, largely in many instances, so that on the whole we estimate the gain to have been about 11%. *Fertilizers.*—The natural richness of the soil practically renders fertilization unnecessary.

OKLAHOMA.—Although planting began in some districts of Oklahoma a little earlier than last year, it did not become active until well on in April, and was not completed until the close of May. Farm work was favored by weather conditions in the early spring, but cold and wet weather in April and first part of May were unfavorable. Seed came up poorly and cotton that suffered from frost in April entailed an unusual amount of re-planting. Latterly, the crop has done better under the influence of the more satisfactory weather experienced since the middle of May, but *stands*, where secured, are irregular, and much cotton has yet to come up. Reports as to the condition of the fields are that they were quite clear of weeds and grass up to the coming

of recent rains. *Acreage* has been largely increased. This is natural in a compartively new centre of production and with high prices acting as a stimulus. Furthermore, "green bugs" having destroyed much wheat and oats, the territory thus denuded has in great measure been put in cotton. All our correspondents report gains in area, some running as high as 100%; making allowance for unintentional exaggeration, we do not seem warranted in averaging the increase at less than 20%. No *fertilizers* are required.

MISSOURI.—Cold weather also interfered with planting operations in Missouri. They were begun on prairie lands about May 1, and in the hills two weeks later, being completed generally by the close of the month. Seed from early plantings did not come up freely, germination having been checked by the cool and wet weather of the first half of May. Late plantings are in part above ground and part are not, but with present weather conditions continued, germination should be fairly favorable. *Acreage* has been increased about 2%. *Fertilizers* of the home-made varieties have received some attention this season.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO'S.

—No sales of bank stocks were made at the Stock Exchange this week, and only 4 shares were sold at auction. The auction sales also include 32 shares of trust company stock. The table below, given in our usual form, shows the actual sales of New York City bank stocks made during the week at auction and at the Stock Exchange. Extensive tables showing the bid and asked quotations, deposits, surplus, &c., of banks and trust companies in all important cities of the United States are published monthly in the "Bank and Quotation" section, the June issue of which accompanies to-day's "Chronicle." Bid and asked quotations for all New York City bank and trust company stocks are also published weekly in another department of the paper, and will be found to-day on pages 1351 and 1352.

Shares.	BANK—*New York.*	Low.	High.	Close.	Last previous sale.
4	Bank of New York, N.B.A.	296	296	296	April 1907— 300½
	TRUST COMPANY—*New York.*				
32	Title Guar. & Trust Co.	475	475	475	April 1907— 545½

—The following bill (House No. 477), reducing the necessary capital of Massachusetts trust companies from $500,000 to $200,000 in cities with a population of over 100,000, and from $200,000 to $100,000 in municipalities whose population is not more than 100,000, has passed to be engrossed in both branches of the Massachusetts Legislature, and will, it is expected be enacted and sent to the Governor within a week's time:

AN ACT RELATIVE TO THE CAPITALIZATION OF TRUST COMPANIES.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

Section 1. Section 5 of Chapter 116 of the Revised Laws is hereby amended by striking out the words "five hundred thousand" in the second line thereof and substituting the words *two hundred thousand*; and by striking out the words "two hundred thousand" in the fourth and fifth lines of said section and substituting therefor the words *one hundred thousand*—so that the said section shall read:

Section 5. The capital stock of such corporations shall be not less than *two hundred thousand* nor more than one million dollars, except that in a city or town whose population is not more than one hundred thousand the capital stock may be not less than *one hundred thousand* dollars divided into shares of the par value of one hundred dollars each; and no business shall be transacted by the corporation until the whole amount of its capital stock is subscribed for and actually paid in, and no shares shall be issued until the par value of such shares shall have actually been paid in cash.

Section 2. All Acts and parts of Acts inconsistent herewith are hereby repealed.

—One of the bills signed this week by Governor Hughes of New York State provides that reports of savings banks and safe deposit companies to the State Superintendent of Banks shall be made before the first day of February and August each year, instead of before Jan. 20 and July 20.

—The Maine Legislature is one of the States which has this year enacted laws affecting financial institutions. The measure passed in this State provides for the organization of trust companies under general law instead of by special charter. It is additional to and amendatory of Chapter 48 of the Revised Statutes of the State. Under its provisions trust companies, in addition to receiving deposits, borrowing and loaning money, owning and maintaining safe-deposit vaults, etc., may execute trusts of every description, act as assignee, receiver and executor, and "do in general all the business that may lawfully be done by trust and banking companies. The law as it previously stood expressly prohibited trust companies to "act or do business as administrator or guardian—anything in their charter to the contrary notwithstanding." There is no reference to this in the new statute. The new law also regulates the capital of these institutions, making the minimum amount of paid-in capital on which a company may begin business $25,000 for a town or city of not more than 5,000 inhabitants; $50,000 for from 5,000 to 10,000 inhabitants; $75,000 for from 10,000 to 20,000 inhabitants; $100,000 for from 20,000 to 30,000 inhabitants, and $150,000 for a town or city of more than 30,000 inhabitants. The par value of the shares is fixed at $100 each, and no company shall issue any shares until the par value has been actually paid in in cash. All the corporate powers of the company are to be exercised by a board of not less than five directors, two-thirds of whom must be residents of Maine, and the board of directors or executive board is to constitute the board of investment of the company. It is stipulated that "no trust company shall loan to any person, firm, business syndicate or corporation an amount or amounts at any time outstanding in excess of 10% of its total capital, unimpaired surplus and net undivided profits, except on approval of a majority of its entire investment board, unless secured by collateral, nor in excess of 25% thereof, except on such approval and secured by collateral which, in the judgment of said majority of said investment board, shall be of a value equal to the excess of the loan above the 25%."

It is further provided that "no trust company shall make any loan to its directors, officers, agents or other persons in its employ, or on which any such director, officer, agent or employee is an endorser, guarantor or surety, or to any firm or business syndicate of which such director, officer, agent or employee is a member, or to any person, or on the endorsement or guaranty of any person, who is a partner of, or a member of a business syndicate with such director, officer, agent or employee, or to any corporation of which any such director, officer, agent or employee is a director, officer, superintendent or manager," until the proposition shall have been submitted to the board of directors or the executive committee and accepted and approved by a majority of the entire membership of such board or committee, provided that no director "interested in said loan in any of the above capacities or who is connected or associated with the borrower in any of the above ways shall be regarded as voting in the affirmative on such loan." Any director, officer, etc., who authorizes or assists in procuring a loan, or any director who votes on a loan in violation of either of the above provisions is to be held personally responsible for the payment thereof and to be deemed guilty of a misdemeanor.

The law makes no change with reference to the reserve requirements of trust companies, which are provided for in Section 80 of Chapter 48 of the Revised Statutes, as amended by Chapter 15 of the Laws of 1905. This section provides for a cash reserve of 15% of the demand deposits, two-thirds of which may consist of balances payable on demand, due from any national bank or trust company created under the laws of Maine, or from any trust company located in any of the other New England States or New York and approved by the Bank Examiner in writing; and one-third may consist of bonds of the United States, the District of Columbia, and any of the New England States and the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas and Nebraska, the absolute property of such corporation.

—A New York Stock Exchange membership was reported transferred this week for $75,000. The last previous sale was at $79,000.

—We are informed that there is no basis for the rumor which has been in circulation this week regarding a proposed consolidation of the Lincoln Trust Company and Bowling Green Trust Company of this city.

—At the annual meeting of the Carnegie Trust Company of this city on the 1st inst., the following new members were elected to the board, namely A. K. Hiscock, L. L. Lewis, George C. Smith and Paul Marburg, of Kuhn, Loeb & Co. The election of officers on Wednesday resulted in the re-election of the following: Leslie M. Shaw, President; Charles C. Dickinson, Honorary Vice-President; Frank L. Grant, Vice-President; J. Ross Curran, Vice-President and Treasurer; Fred. H. Parker, Secretary; S. C. Dickinson, Assistant Treasurer; Robert B. Moorhead, Assistant Secretary; Lawrence A. Ramage, Trust Officer and Levester G. Ball, Auditor. The following are members of the Executive Committee: A. B. Chandler, Charles C. Dickinson, Frederick H.

Eaton, Frederick Lewisohn, James D. Layng and Paul Marburg.

—The initial statement of the newly organized Beaver National Bank at Beaver and Pearl streets, this city, was made to the Comptroller of the Currency May 20, after the institution had only been six weeks in existence. Its deposits on that date were $274,564, surplus and undivided profits $61,406 and total resources $484,490. There was some delay in completing the organization of the bank until George M. Coffin, formerly Vice-President of the Phenix National Bank was elected President and assumed direction of its affairs. S. H. Vandergrift and T. P. Welsh are Vice-Presidents and J. V. Loughlin, Cashier.

—The Northern Bank of New York (Broadway and Fourth Street), of which Henry Dimse is President, reports a handsome growth in its business for the past year. The deposits June 4 show a total of $2,222,129, as against $1,677,000 on June 4 1906 and of only $1,119,000 on March 20 1905.

—G. Bruce Webster, the New York agent of the Chartered Bank of India, Australia and China (head office London), is in receipt of the company's final accounting for the year ending Dec. 31 1906, which statement discloses a net profit of $1,321,288, including $430,558 brought forward from the previous year. Among the liabilities the chief items are: Call and time deposits, $66,022,973; bills and loans payable, $16,164,544; acceptances account customers', $5,820,734. The capital is $4,000,000, surplus and undivided profits, $6,276,847, and circulation, $2,768,012. Its total resources are $104,931,085. The corporation was established by royal charter in 1853 with a capital of $3,220,000, which in 1864 was raised to $4,000,000. The reserve stands to-day at $5,375,000, which contrasts with $525,000 in 1864, when the bank's liabilities were only $25,000,000, increasing in 1884 to $45,000,000; in 1894 to $55,000,000; in 1904 to $85,000,000 and in 1906 to $104,931,085. The shareholders voted last month to increase the capital to $6,000,000.

—The new statement of the Night and Day Bank, located at Fifth Avenue and Forty-fourth Street, for June 4 1907 shows deposits of $2,467,559 and aggregate resources of $3,067,528. This institution has a capital of $200,000 and surplus and undivided profits of $259,757.

—Fenwick B. Small, a son-in-law of President John G. Jenkins of the First National Bank of Brooklyn Borough, has become a director of that institution. It will be recalled that three of Mr. Jenkins's sons were also recently elected to the directorate to fill vacancies.

—It is stated that the name of the new bank which is to be established in the East New York section of Brooklyn Borough has been changed from the Liberty Bank to the Homestead Bank, so that it might not be confused with the Liberty National of Manhattan Borough. The bank is to locate at Liberty and Pennsylvania avenues. Its officers will be William F. Wyckoff, President; Solomon Rubin and Rudolph Reimer Jr., Vice-Presidents, and Harry Johnson, Cashier.

—The National Shawmut Bank of Boston, Mass., is now located in its new quarters in its recently completed building on Devonshire, Water and Congress streets. The new building was opened for public inspection a week ago, the bank beginning business therein on Monday. The institution occupies the first three floors on the Water Street side of the structure. The main banking room is finished in white marble with bronze grill work; the furniture is of metal, painted to represent mahogany. Ample accommodation has been made for the bank's patrons, as well as for its working force, three large rooms, equipped with writing materials and other conveniences, being set apart for the customers' use.

—Samuel B. Hopkins, President of the Peoples' National Bank of Roxbury (Boston), Mass., died on the 1st inst., at the age of 84 years.

—D. Gregg McKee, heretofore Assistant Treasurer of the Pittsburgh Trust Company of Pittsburgh, Pa., has been elected Treasurer of the company, succeeding Charles H. Hays, resigned. The latter continues as Vice-President of the institution. W. D. Jones has been elected Assistant Treasurer. Mr. Hays and Olaf Ussing, who retires as Manager of the bond department of the trust company, have resigned to become members of the firm of J. I. Buchanan & Co., dealers in investment securities, the other member being James I. Buchanan, President of the Pittsburgh Trust Company.

—A verdict of guilty has been returned by a jury against several employees of the failed Enterprise National Bank of Allegheny, Pa., on charges of misapplication of the bank's funds, and in one instance on the charge of making false entries.

—In a verdict returned by a jury on the 17th ult., Corwin D. Bachtel, ex-Cashier of the defunct Canton State Bank of Canton, Ohio, was acquitted of charges of alleged embezzlement and misappropriation of the bank's securities.

—The stockholders of the National Bank of Toledo and the National Bank of Commerce of Toledo, at a meeting on the 3d inst., approved the proposition to consolidate, to which we referred April 27. The directors of the enlarged institution, which is to operate under the name of the National Bank of Commerce, will be chosen on the 10th inst.

—On Saturday last, June 1, the National Bank of Commerce of Detroit, the newly organized bank of which Richard P. Joy, formerly City Comptroller, is President, opened for business in the Union Trust Building. The instituiton has a capital of $750,000, instead of $500,000, as at first planned, and a surplus of $150,000. President Joy's assistants in the management of the bank are William P. Hamilton, Vice-President; Henry H. Sanger, Cashier; and Charles R. Talbot, Assistant Cashier.

—The People's State Bank of Detroit, formed through the union of the People's Savings Bank and the State Savings Bank, has since May 31 been conducting the entire business of the two banks in its own building, corner Fort and Shelby streets. After the consolidation in January, the enlarged institution continued to maintain the former main quarters of both banks, but now has discontinued the offices at Fort and Griswold streets. The bank has a capital and surplus of $1,500,000 each and deposits of $29,000,000.

—The State Bank of Evanston, Ill., lately moved into its new building, constructed both for its own and the State Safety Deposit Company's use. The new banking house, according to the reports in the local papers, is equipped in a superior manner, the main banking room making an attractive appearance with its mahogany furniture and green marble trimmings. The bank last November increased its capital from $100,000 to $150,000. Henry J. Wallingford is President.

—The Auditor of Public Accounts at Springfield, Ill., has issued a permit for the organization of the Citizens' Commercial Bank of Chicago, capital $200,000.

—John H. Dwight, Vice-President of the State Bank of Chicago since its incorporation in 1891, died at his summer home in Pasadena, Cal., on the 5th inst., at the age of 72. He was born at Jackson, Mich., and began his business career in Chicago in 1858 as bookkeeper in the banking house of J. H. Burch. He became a member of the Board of Trade firm of Dow, Quirk & Co., and was successively director, Vice-President and President of the Board. For many years he was a director in the Corn Exchange National Bank of Chicago. His health had not permitted him to engage in active business for some time past.

—Monday next, the 10th inst., will be the 50th anniversary of the organization of the Merchants' Loan & Trust Company of Chicago, a bank whose name has always been the synonym for strength, conservatism and progress. Its founders and first trustees were among the leading merchants and most enterprising citizens of Chicago's early days—such men as Wm. B. Ogden, one of the organizers of the Galena & Chicago Union Railroad Co., and afterwards President of the Chicago & Northwestern; Henry Farnum, one of the builders, and later President, of the Chicago & Rock Island; Isaac N. Arnold, a leading Illinois statesman; Cyrus H. McCormick, George M. Pullman, George Armour, Marshall Field, &c., &c. During the Great Chicago fire most of the books and records of the bank, as well as the pass-books and check-books of its depositors, were destroyed. The only solution of the problem was to arrive at a basis of mutual agreement, the officers of the bank relying largely upon the sense of honor among the depositors. In this way more than 1,000 accounts were adjusted and reopened amicably and satisfactorily to both parties.

During fifty years the Merchants' Loan & Trust Company has withstood every calamity known to the banking history of the United States—the panic of 1857, the Civil War, 1861-1865, the panic of 1873 and the panic of 1893, periods of disaster which wrecked many banks and severely tested the strength of those having large capital and resources. The institution has never consolidated with nor absorbed the business of any bank. Its growth is shown by decades as follows:

Year.	Capital.	Surplus.	Deposits.
1857	$500,000	------	------
1867	1,000,000	------	$1,723,000
1877	1,500,000	$100,000	2,321,000
1887	2,000,000	1,000,000	8,069,000
1897	2,000,000	1,554,077	18,445,000
1907	3,000,000	4,273,851	49,857,016

During the last decade it has widened the scope of its business, having added bond, trust, savings and farm-loan departments. Through its foreign exchange department, the bank has maintained long-established connections with leading European and foreign banks. Its present directors are: Cyrus H. McCormick, Lambert Tree, Moses J. Wentworth, Thies J. Lefens, E. H. Gary, John S. Runnells, Erskine M. Phelps, Enos M. Barton, Chauncey Keep, Clarence A. Burley, E. D. Hulbert, Orson Smith.

—W. J. Harahan, Vice-President of the Illinois Central RR., has been elected a director of the Western Trust & Savings Bank of Chicago.

—The change in the name of the Security Bank of Minnesota at Minneapolis to the Security National Bank of Minneapolis, approved last month by the stockholders and the Comptroller of the Currency, went into effect on June 1.

—During the past two years noteworthy expansion has occurred in the business of the American National Bank of Nashville, Tenn. Its May 20 statement shows deposits of $4,847,233; this amount contrasts with $3,810,956 on Jan. 29 1906 and $2,600,380 on Jan. 11 1905. In the same period surplus and profits have risen from $179,312 to $468,719, while aggregate resources have grown from $4,179,692 to $7,415,950. The bank's officers are W. W. Berry, President; A. H. Robinson, Vice-President, and N. P. Le Sueur, Cashier.

—At the regular monthly meeting of the directors of the City National Bank of Knoxville on the 29th ult., the resignation of Albert B. Mahan as Vice-President was tendered and accepted. His successor has not yet been appointed. William T. Marfield has also resigned as Cashier and has been succeeded by Richard E. Mooney, for twelve years teller and Assistant Cashier. Mr. Marfield, who contemplates retiring from the banking business, has been temporarily appointed Assistant Cashier.

—Judge Daniel Grinnan in the Chancery Court of Richmond on the 23d ult. denied an application made by certain of the stockholders of the Southern Interstate Bank of Richmond for the appointment of a receiver of the institution and an injunction restraining the transfer of its assets to the Bank of Commerce & Trusts of that city. The disposal of the assets of the bank to the Bank of Commerce & Trusts had recently been arranged by the directors. The Southern Interstate Bank has a capital of $90,000 and deposits of about $130,000; it began operations early last year, succeeding to the business of the Provident Savings Bank of Richmond. It is understood that the Bank of Commerce & Trusts, in taking over its assets, simply agreed to protect the depositors but not the stockholders. On the 1st inst., subsequent to the decision of Judge Grinnan, an amicable settlement was arrived at in the United States Circuit Court between the contending parties. The former stockholders of the Provident Savings Bank, who exchanged their stock for stock of the Southern Interstate Bank, have agreed, it is stated, that the stockholders of the latter bank who purchased stock after its organization, should be preferred in the distribution of the assets. Under this agreement, the Richmond "Dispatch" says, it is believed that the stockholders in the Southern Interstate Bank who did not hold stock in the Provident Savings Bank will be paid out in full.

—At a meeting May 14 of the stockholders of the Mississippi Bank & Trust Company of Jackson, Miss., the proposition to increase the capital from $100,000 to $200,000, recommended by the directors on April 24, was approved. The new stock is to be sold at $120 per share—the book value of the existing stock—and $100 is to be placed to capital, $12 to surplus and $8 to undivided profits. The institution was organized in 1903 and has since paid annual dividends of 8%. On April 30 1907 it reported deposits of $365,123. The company's officers are A. C. Jones, President; D. H. Holder, Cashier; W. C. Allen, Assistant Cashier, and J. R. McDowell, Trust Officer.

—A resolution adopted at the annual convention of the Texas Bankers' Association, held at Corpus Christi May 28, 29 and 30, provides for the appointment of a committee to cooperate with other interested bodies to deliberate as to the feasibility of erecting a system of cotton warehouses for the holding of the cotton crop until it can be marketed profitably. The newly elected President of the association is Edwin Chamberlain, Vice-President of the Alamo National Bank of San Antonio. An extended trip throughout the country is to be taken by a number of the members of the association. Starting from Fort Worth yesterday (the 7th inst.), the party will visit Kansas City June 8; Chicago, 9-10; Detroit, 11; Montreal, 14; the Adirondacks, 15; Boston, 16-17; New York, 18-19-20; Philadelphia, 21; Washington, 22; the Jamestown Exposition, 23-24; Richmond, 25; and St. Louis, June 26.

—C. J. Wolston, heretofore Cashier of the Galveston National Bank of Galveston, Texas, has replaced Guy M. Bryan as Vice-President; J. H. Strother has become Cashier.

—The Columbia Trust Company of Los Angeles has commenced business at 311 West Third Street. The company was recently organized with an authorized capital of $500,000, of which $100,000 has been paid in; it also has a surplus of $25,000. The par value of the stock is $100 per share, and none has been sold at less than $125. The officers are L. L. Elliott, President; Edward D. Silent and W. R. Hervey, Vice-Presidents; Frederick B. Braden, Secretary and Trust Officer; H. M. Binford, Treasurer, and L. D. Williams, Assistant Treasurer.

—The Union National Bank of Fresno, Cal., capital $150,000, has completed its organization with the election of the following officers: W. O. Miles, President; C. R. Puckhaber, Vice-President, and W. R. Price, Cashier.

—Walter S. Cheesman, a Vice-President and director of the First National Bank of Denver and President of the Denver Union Water Company, died on the 31st ult. Mr. Cheesman was born on Long Island in 1838; in 1860 he removed to Denver, and for more than forty years had been actively identified with many important enterprises affecting the city's growth.

—The name of the Merchants' Investment & Trust Company of Portland, Oregon, was changed in April to the Merchants' Savings & Trust Company. The company was organized in April 1901, but did not begin business until July 2 1906. It has a capital of $150,000, and is under the management of J. Frank Watson, President; R. L. Durham, Vice-President; W. H. Fear, Secretary; S. C. Catching, Assistant Secretary, and O. W. T. Muellhaupt, Cashier. A commercial, savings bank and general trust business is conducted by the institution. The institution is closely allied to the Merchants' National Bank of Portland.

—Invitations to the twelfth annual convention of the Washington Bankers' Association have been sent out by Secretary P. C. Kauffman of Tacoma. The meeting will be held at Spokane on June 20, 21 and 22. The speakers include S. R. Flynn, President of the National Live Stock Bank, Chicago; Joseph Chapman Jr., Cashier of the Northwestern National Bank of Minneapolis; A. L. Mills, President of the First National Bank, Portland, Ore.; Governor A. I. Mead of Washington; A. W. Engle, State Bank Examiner; J. J. Browne, President Columbia Valley Bank, Wenatchee, Wash., and Charles H. Moore, Assistant Cashier National Bank of Commerce, Kansas City, Mo.

—The merger of the People's Bank of New Brunswick, at Fredericton, with the Bank of Montreal, was completed on April 22. The People's Bank had a capital of $180,000. The sale of its business to the Bank of Montreal was approved by the stockholders in January, as noted in the "Chronicle" of February 16.

—The Sterling Bank of Canada (head office, Toronto), which began business on May 1 last year, issued its first annual statement on April 30. The net profits for the twelve months were $27,206, out of which a quarterly dividend of 1¼% ($9,683) on the paid-up capital of $774,725

has been paid, leaving a balance of $17,523 to be placed to profit and loss. The deposits are about $2,000,000—$1,906,402—while the total assets are $3,428,956. The institution has a reserve fund of $171,151.

—At the annual meeting on May 22 of the stockholders of the Imperial Bank of Canada (head office Toronto), a resolution was adopted authorizing an increase of $5,000,000 in the capital, making it $10,000,000. The new stock is to be issued in such amounts and at such times as the directors may determine. The annual report of the bank, presented at the meeting showed net profits for the twelve months ending April 30 1907, after making full provision for all bad and doubtful debts and other usual contributions, of $719,029. Of this $453,217 has been used in the payment of dividends, at the rate of 10% per annum for the first three-quarters of the year and at the rate of 11% for the last quarter; $116,392 has been credited to bank premises and furniture account, and $149,420 has been transferred to the profit and loss account, increasing it from $276,896 to $426,316. The premium of $846,207 on the new stock authorized in May 1906 has been transferred to the "Rest Account," which now amounts to $4,773,948, and is equal to the paid-in capital. The deposits are $35,442,848; the assets, at $45,641,257, compare with $39,779,813 on Apri 30 1906.

Canadian Bank Clearings.—The clearings of the Canadian banks for the month of May 1907 show an increase over the same month of 1906 of 13.9%, and for the five months the gain reaches 10.9%.

Clearings by Telegraph—Sales of Stocks, Bonds, &c.—The subjoined table, covering clearings for the current week, usually appears on the first page of each issue, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from other leading cities. It will be observed that, as compared with the corresponding week of 1906, there is an increase in the aggregate of 2.7%. So far as the individual cities are concerned, New York exhibits a loss of 2.3% and New Orleans 5.6%; Philadelphia, records a gain of 0.7%, Baltimore 8.4%, Boston 16.5%, Chicago 20.1% and St. Louis 12.0%.

a "Chiefly disbursing officers' balances."
d Includes $2,774,565 silver bullion and $1,875,153 minor coin, &c., not included in statement "Stock of Money."

Monetary and Commercial English News

(From our own correspondent.)

London, Saturday, May 25 1907.

Business is, if possible, more stagnant than ever. Members of the Stock Exchange continue to declare that never in their recollection has there been so little business doing. No doubt there is much exaggeration in the assertion, but it is true to this extent that every department of the Stock Exchange is depressed at present. Usually there is at least one department fairly active, however stagnant the others may be, but now there is practically nothing doing in any single department. The impression in the city is that the main cause is the extraordinary situation of the American railroads. The long liquidation at the beginning of the year, the relations of the Government to the railway companies and the fear of short crops all, of course, have their depressing influence. But at the moment the unfavorable influences of all kinds are very numerous. The unrest in India and in Egypt, the fear of short crops over the greater part of Europe, the ticklish state of Morocco, the temper of Germany, the delicate relations between Germany and France, the very grave condition of Russia, the strikes all over the world, the danger that the strike on the Transvaal may stop the gold production for a while and thus cause grave inconvenience to all the money markets of the world, and the apprehension that there may be a great railway strike here at home, all unquestionably are making the investing public cautious.

In Germany the stagnation is quite as great as here at home. Money continues very scarce and dear. Speculation is at a standstill. There are serious fears that the crops may be very bad, and there are lockouts and strikes which threaten to affect business very seriously. In France business also is quiet, though it is not so depressed as either in England or in Germany. Money, however, is dearer in Paris at present than it is in London, and the banks are cautious how they give accommodation to the Bourse. On the other hand, trade everywhere is wonderfully good. Here at home the Board of Trade returns month after month show phenomenal increases. In France trade is better than it has been since the beginning of the Dreyfus case. In Germany, in spite of the long-continued stringency, trade is likewise wonderfully good. The returns of the Prussian State railway system, for example, for the month of April show an increase in goods traffic of about 12% over April 1906, which itself showed a marvelous increase over April 1905. But while trade everywhere is so good, speculation in stocks has completely ceased, and it is alleged that even investment is small.

Money has been this week decidedly dearer, partly because the receipts of taxation by the Government have been unusually large for this season of the year, and partly because considerable sums have been transferred from the open market to the Bank of England. One bank, for example, has paid over a considerable amount to the Bank of England on account of a recent issue. Another bank, for some unknown reason, has been calling in large sums it had previously lent out. Over and above this, the Bank of England is repaying to the Bank of France the gold advanced by the latter institution some months ago, and the repayments will continue till the end of the half-year. The outside market has had to borrow largely from the Bank of England, and it is apprehended that the borrowings will be on a still more considerable scale next week, for the fortnightly settlement at the end of the month will then take place and the banks will call in as usual large sums preparatory to the making up of their returns at the end of the month.

In Paris, likewise, money is comparatively dear. Rates are undoubtedly stiffer than in London. This is due partly to the great activity of trade, partly to the new issues of all kinds in Paris and partly to political apprehensions. It is probable that next week the comparative stiffness will continue in preparation for the monthly liquidation. In Berlin money is very scarce. The subscriptions to the new Imperial and Prussian loans are being completed, and probably therefore large amounts have had to be borrowed. In addition to this, the French banks which had been employing large balances in Berlin have this week been withdrawing a considerable proportion of the same. In all probability the scarcity and dearness of money will be increased next week in consequence of the usual demands at the end of the month. Early in June, however, there ought to be a return of ease unless the strike of the miners on the Randt increases apprehension. The white miners who are on strike receive very high wages, and it is alleged that their hours of work are very moderate. However, their relations with their employers are very strained, and a section of the strikers is putting so much pressure upon the miners who have not yet come out that the Government has found it necessary to send troops to maintain order. It is possible, of course, that the action of the Government may induce the majority of the miners to refuse to strike, and may lead several who have already gone out to return to work. If not, the fear will become intense that the production of gold may be reduced so materially that by and by the international money market may be seriously disturbed.

The India Council offered for tender on Wednesday 40 lacs of its bills, and the applications exceeded 432½ lacs, at prices ranging from 1s. 4d. to 1s. 4 1/8d. per rupee. Applicants for bills at 1s. 4 1-16d. and for telegraphic transfers at 1s. 4 3-32d. per rupee were allotted about 39% of the amounts applied for.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last four years.

Messrs. Pixley & Abell write as follows under date of May 3:

GOLD.—This week's arrivals have been small, amounting to about £400,000. Paris took a small portion, and after the usual Indian demand had been satisfied the Bank secured the balance, about £200,000. The movements at the Bank are as follows: Bought, £287,000, chiefly in bars; sold, £600,000, of which £360,000 is for Paris and £200,000 for Singapore. Next week we expect about £990,000 from the Cape. Arrivals—Cape, £311,000; Bombay, £74,000; Australia, £12,000; Brazil, £5,000; West Africa, £2,000; total, £434,000. Shipments—Bombay, £165,000, Colombo, £13,000; Calcutta, £45,000; total, £223,000.

SILVER.—The market has continued to advance during the past week, and to-day's spot quotation is 30 7/8d. China was a moderate buyer at the end of last week at the rates then ruling, whilst during the whole week the Indian Bazaars have been buying either for shipment to India or to cover the bear position they had open on this market. A special order has also helped to affect the market. Forward has been quoted from the same as spot to ⅛d. higher, closing at 31d. The Indian price is Rs. 78 9-16 per 100 tolahs. Arrivals—New York, £91,000; Brazil, £4,000; total, £95,000. Shipments—Bombay, £60,000; Colombo, £5,000; Calcutta, £11,000; total, £76,000.

MEXICAN DOLLARS.—A few transactions have taken place at their melting value.

The quotations for bullion are reported as follows:

GOLD. London Standard.	May 23. s.	May 23. d.	May 18. s.	May 18. d.	SILVER. London Standard.	May 23. d.	May 18. d.

For full explanation of the above table see the issue of Dec. 14 1901, page 1232, the first item in Financial Situation. The following shows the amount of each class of bonds held against national bank circulation and to secure public moneys in national bank depositories on May 31.

Bonds on Deposit May 31 1907.	U. S. Bonds Held May 31 1907 to Secure		
	Bank Circulation.	Public Deposits in Banks.	Total Held.
2 per cents, Panama Canal	$16,950,580	$12,708,800	$29,659,380
4 per cents, funded, 1907	626,750	710,600	1,337,350
4 per cents, 1895, due 1925	7,859,400	5,474,750	13,334,150
3 per cents, 1908-1918	4,362,420	7,412,000	11,724,420
2 per cents, Consols 1930	527,138,150	66,358,900	593,497,050
3.65s, District of Columbia, 1924	----------	1,113,000	1,113,000
State, city and railroad bonds	----------	89,851,675	89,851,675
Hawaiian Island bonds	----------	1,713,000	1,713,000
Philippine loan	----------	9,761,000	9,761,000
Porto Rico	----------	730,000	730,000
Total on deposit May 31 1907	$556,937,300	$195,833,725	$752,771,025

The foregoing does not include the bonds held in the New York Sub-Treasury against deposits in banks.

The following shows the amount of national bank notes afloat and the amount of the legal-tender deposits May 1 and June 1, and their increase or decrease during the month of May.

National Bank Notes—Total Afloat—		
Amount afloat May 1 1907		$599,913,840
Amount issued during May	$7,423,956	
Amount retired during May	5,397,246	2,026,710
Amount of bank notes afloat June 1 1907		$601,940,550
Legal-Tender Notes—		
Amount on deposit to redeem national bank notes May 1 1907		$49,709,069
Amount deposited during May	$1,800,305	
Amount of bank notes redeemable in May	3,183,398	1,383,093
Amount on deposit to redeem national bank notes June 1 1907		$48,325,976

The portion of legal-tenders deposited (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation and (3) by banks reducing or retiring their circulation, was as follows on the first of each of the last five months:

Legal Tenders.	Feb. 1.	March 1.	April 1.	May 1.	June 1.
Deposits by—	$	$	$	$	$
Insolvent banks	1,236,276	1,172,621	1,119,171	1,096,371	1,028,221
Liquidating banks	15,547,136	15,185,670	15,681,220	15,749,488	15,365,637

White (J. G.) & Co., Inc., prcf. (quar.)	1½	July 1	Holders of rec. May 31

a Transfer books not closed. *d* On account of accumulated dividends and being remainder of such dividends unpaid.

Statement of New York City Clearing-House Banks.—The following statement shows the condition of the New York City Clearing-House banks for the week ending June 1. It should be distinctly understood that as to all items except capital and surplus the figures are the averages of the daily results, not the totals at the end of the week. In other words, in reporting loans and deposits and holdings of specie and legal tenders, the practice is to take the aggregate of the amounts for the several days of the week and divide this aggregate by the number of days.

We omit two ciphers (00) in all cases.

Banks 00s omitted.	Capital.	Surplus.	Loans.	Specie.	Legals.	Deposits. a	Re-s've

a Including for Boston and Philadelphia the item "due to other banks" and also Government deposits. For Boston these Government deposits amounted on June 1 to $4,573,000; on May 25 to $4,568,000.

Imports and Exports for the Week.—The following are the imports at New York for the week ending June 1, also totals since the beginning of the first week in January:

FOREIGN IMPORTS AT NEW YORK.

For week.	1907.	1906.	1905.	1904.
Dry Goods.....	$2,837,792	$2,191,669	$2,022,980	$1,338,546
General Merchandise.....	13,023,987	8,716,686	9,556,375	7,603,913
Total	$15,861,779	$10,908,355	$11,579,355	$8,942,459
Since January 1.				
Dry Goods.....	$83,103,999	$71,182,334	$61,455,970	$51,990,826
General merchandise.....	302,671,161	252,601,389	252,315,353	209,748,055
Total 22 weeks.....	$385,775,160	$323,783,723	$313,771,323	$261,738,881

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending June 1 and from Jan. 1 to date.

EXPORTS FROM NEW YORK FOR THE WEEK.

	1907.	1906.	1905.	1904.
For the week.....	$6,161,338	$9,959,917	$8,613,737	$7,143,432
Previously reported.....	259,077,574	261,311,464	223,853,282	201,615,722
Total 22 weeks.....	$265,238,912	$271,271,381	$232,467,019	$208,759,154

The following table shows the exports and imports of specie at the port of New York for the week ending June 1 and since Jan. 1 1907, and for the corresponding periods in 1906 and 1905:

EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1	Week.	Since Jan. 1
Great Britain	$789,439	$793,039	------	$2,540,353
France	2,023,399	2,023,399	------	331,087
Germany	------	------	------	1,155,297

Wall Street, Friday Night, June 7 1907.

The Money Market and Financial Situation.—The volume of business at the Stock Exchange has diminished day by day throughout the week until it is near the smallest of the season. Liquidation was resumed at the close of last week and continued over Monday, at which time several prominent issues made a new low record for the year. Among the latter are New York Central, Delaware & Hudson, Great Northern and Interboro-Metropolitan. From the low level then reached there has been a tendency to react, and in several cases a fairly substantial recovery has taken place. The market seems to have, however, very little recuperative force, and the recovery noted was largely due to purchases made by traders on the short side of the market.

Crop reports, although generally more favorable, are not wholly so, and the grain and cotton markets have been decidedly irregular. There are indications that the wheat crop has improved of late, and the Government report for June is looked for with interest.

The gold-export movement which commenced last week has continued, shipments amounting to $7,100,000 having been arranged for during this week. This makes the total shipments to date $10,400,000, and prevailing conditions in the foreign exchange and money markets indicate that the movement is not at an end.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1¼ to 2½%. To-day's rates on call were 1¾@2½%. Prime commercial paper quoted at 5% for endorsements and 5½% for best single names.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £462,743, and the percentage of reserve to liabilities was 46.90, against 46.82 last week.

The discount rate remains at 4% as fixed April 25. The Bank of France shows an increase of 38,575,000 francs in gold and 2,000,000 francs in silver.

NEW YORK CITY CLEARING-HOUSE BANKS.

	1907. *June* 1.	*Differences from previous week.*	1906. *June* 2.	1905. *June* 3.
	$	$	$	$

Surplus reserve	12 782,450	Dec. 2,906,425	6,816,025	6,050,275

a $31,613,200 United States deposits included, against $31,688,900 last week and $17,250,000 the corresponding week of 1906. With these United States deposits eliminated, the surplus reserve would be $20,685,750 on June 1 and $23,606,100 on May 25.

Note.—Returns of separate banks appear on the preceding page.

Foreign Exchange.—The market was moderately active though strong this week, and short and cables advanced to the best rates of the year because of a good demand and a small supply of bills. Gold exports and engagements to Paris for the week, $7,100,000.

To-day's (Friday's) nominal rates for sterling exchange were 4 84½@4 85 for sixty day and 4 87½ for sight. To-day's (Friday's) actual rates for sterling exchange were 4 8375@4 8385 for long, 4 87@4 8710 for short and 4 8750@4 8755 for cables. Commercial on banks 4 8345@4 8355 and documents for payment 4 82¾@4 84. Cotton for payment 4 82¾@4 82⅞. Cotton for acceptance 4 8345@4 8355 and grain for payment 4 83¾@4 84.

To-day's (Friday's) actual rates for Paris bankers' francs were 5 18¾*a*@5 18¾ for long and 5 16¼@5 15⅝*h* for short. Germany bankers' marks were 94⅝@94 11-16 for long and 95¼*d*@95¼ for short. Amsterdam bankers' guilders were 40.31@40.38 for short. Exchange at Paris on London to-day 25f. 13c.; week's range 25f. 13½c. high and 25f. 13½c. low.

The week's range for exchange rates follows:

	Long		Short		Cables	
Sterling Actual—						
High	4 8375	@ 4 8385	4 87	@ 4 8710	4 8750	@ 4 8755
Low	4 8350	@ 4 8355	4 8675	@ 4 8680	4 8725	@ 4 8730
Paris Bankers' Francs—						
High	5 18¾	@ 5 18¾	5 16¼	@ 5 15⅝*h*	----------	
Low	5 19⅜	@ 5 18¾	5 16¼	@ 5 15⅝*d*	----------	
Germany Bankers' Marks—						
High	94⅝	@ 94 11-16	95¼*d*	@ 95¼	----------	
Low	94 9-16	@ 94⅝	95⅛	@ 95 3-16	----------	
Amsterdam Bankers' Guilders—						
High	----------	----------	40 31	@ 40 33	----------	
Low	----------	----------	40 1-16	@ 40⅛	----------	

Less: *a* 1-16 of 1%. *d* 1-32 of 1%. *h* 3-32 of 1%.
Plus. *k* 1-16 of 1%. *x* 1-32 of 1%. *y* 3-32 of 1%.

The following were the rates for domestic exchange on New York at the under-mentioned cities to-day. Savannah, buying, 50c. per $1,000 discount; selling, 75c. per $1,000 premium. Charleston, selling, $1 per $1,000 premium. New Orleans bank, 10c. per $1,000 premium; commercial, 20c. per $1,000 discount. Chicago, par. St. Louis, 30c. per $1,000 premium. San Francisco, 10c. per $1,000 premium

State and Railroad Bonds.—Sales of State bonds at the Board are limited to $137,000 Virginia 6s deferred trust receipts at 27½ to 28.

Extreme dulness is again the most prominent characteristic of the market for railway and industrial bonds. Urgent selling at steadily declining prices was the feature on Monday, and resulted in a total almost twice as large as the average for the remainder of the week. Since Monday there has been a gradual recovery, and closing prices are in many cases only fractionally lower than those of last week.

Among the exceptional features are Delaware & Hudson convertible 4s, which fluctuated widely, and close with a net gain of 1 point; Atchison gen. 4s, Distilling Securities Corporation 5s and Burlington & Quincy joint 4s, which are ½ point or more higher.

United States Bonds.—Sales of Government bonds at the Board are limited to $16,000 3s coup., 1908-18, at 102⅛ and $300 same issue, small bonds, at 102. The following are the daily closing quotations; *for yearly range see third page following.*

*This is the price bid at the morning board; no *sale* was made.

Railroad and Miscellaneous Stocks.—Operations in the stock market have, as noted above, diminished to insignificant proportions. As has usually been the case of late, prices declined during the early days of the week and recovered later. Fluctuations have been rather wide in several cases but net changes are generally narrower. Of a list of 25 prominently active stocks 17 close higher than last week, 5 lower and 3 are without net change. As usual, Reading has been by far the most active stock. It has covered a range of 7⅝ points and closes with a net gain of 4½. Union Pacific stands next in point of activity, has covered a range of over 5, and is 2 points higher.

Interboro-Metropolitan has been a weak feature, the preferred selling 6 points below its previous lowest record and the common 3 points. Both have recovered somewhat.

Smelting & Refining, on the other hand, has been strong. It advanced 7 points in anticipation of an increase in its dividend rate from 7 to 8%, declined sharply when the increase was announced but closes near the highest, with a net gain of 2 points.

Steel common shows a net gain of 1 and the preferred ½ point.

For daily volume of business see page 1360.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

Outside Market.—"Curb" trading has been dull this week, the interest centring in a few stocks. The earlier trading was erratic with the tendency to lower prices, but later the market showed a general improvement, though very little activity appeared. United Copper was the feature as the week closed, the stock, after a drop from 58¾ to 57¼, scoring a sharp advance to 69½ to-day, the close being at 69. Davis-Daly Estates, after an early display of weakness, sinking from 13 to 10⅞, was conspicuous for a recovery to 12¾. Boston Consolidated Copper moved down from 26 to 23¾ and up to 25½, closing to-day at 24⅞. Butte Coalition suffered a decline from 25½ to 23¼, subsequently reacting to 24. Douglas Copper advanced steadily from 9 to 10¼. Greene Cananea on good buying rose about a point to 15⅛. Nipissing sank in the beginning of the week from 12¾ to 11½, but on active buying recovered the loss and closes at 12¼. Industrials were exceedingly inactive. American Tel. & Telep. "rights" were in demand at from 25c. to 45c., with an advance to-day to 55c. Chicago Subway, after declining from 18½ to 17¼, displayed considerable strength and rose to 20⅜ and closes to-day at 20. Trading in Manhattan Transit fell off and after an early decline from 6 to 5½ it moved back again to 6. N. Y. & Cuba Mail SS. advanced fractionally to 26 but sank to 24¾, with a reaction to-day to 25. Standard Oil moved up a point to 519, then sank to 515, recovering to 519. Western Ice lost about a point to 33¼, advancing finally to 33⅝. Waterbury Company common was traded in from 40⅛ to 39½ and up to 40.

Outside quotations will be found on page 1360.

Investment and Railroad Intelligence.

RAILROAD GROSS EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from July 1 to and including such latest week or month. We add a supplementary statement to show the fiscal year totals of those roads whose fiscal year does not begin with July, but covers some other period. *The returns of the street railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings.			July 1 to Latest Date	
	Week or Month.	Current Year.	Previous Year.	Current Year.	Previous Year.

Wabash	738,225	703,184	35,041	-----
Western Maryland	178,614	157,863	20,751	-----
Wheeling & Lake Erie	182,824	109,028	73,796	-----
Total (37 roads)	15,297,593	13,399,781	1,939,445	41,633
Net increase (14.09%)	-----	-----	1,897 812	-----

For the month of May the returns of 46 roads show as follows:

Month of May.	1907.	1906.	*Increase.*	%
	$	$	$	
Gross earnings (46 roads)	67,996 877	58,990,604	9,006,273	15.27

It will be seen that there is a gain on the roads reporting in the amount of $9,006,273, or 15.27%.

Net Earnings Monthly to Latest Dates.—The table following shows the gross and net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of May 25 1907. The next will appear in the issue of June 22.

c The heavy increase in expenses in 1907 is ascribed to the continued congestion of traffic caused by storms and washouts; also higher price of fuel and increase in wage schedules.
a Net earnings here given are after deducting taxes.
b Net earnings here given are before deducting taxes.

Interest Charges and Surplus.—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus above or deficit below those charges:

a Figures for the month in both years include operations of the Scranton Ry., acquired Jan. 1 1906. *b* Figures are from Feb. 1. *c* These figures are for consolidated company. *d* These are results for main line. *f* Now includes Rapid Ry. Syst., Sandwich Windsor & Amherstburg Ry. and Detroit Monroe & Toledo Short Line Ry. *h* These are early preliminary returns; decrease due to earthquake, fire and strike among employees, Aug. 26 to Sept 5 1906.

Street Railway Net Earnings.—The following table gives the returns of STREET railway gross and net earnings reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the issue of June 1 1907. The next will appear in the issue of June 29 1907.

Amalgamated Copper Co., New York.

(Report for Fiscal Year ending April 30 1907.)

At a meeting of the Board of Directors, Secretary A. H. Melin was authorized to issue to the stockholders the following statement, together with a condensed balance sheet as of April 30 1907:

End of Litigation.—For the first year since the organization of the company operations in the various properties controlled have been carried on without the intervention of harassing litigation, and consequently a large amount of development work, hitherto retarded by court injunctions, has been accomplished. In the early part of the year experienced engineers, selected by the different companies, which had had conflicting claims against contiguous properties in which the Amalgamated Copper Co was interested, met in Butte, and after a full examination of the local conditions, formulated a plan for the settlement of the boundary rights and also of the complicated questions relating to apex. Their conclusions were submitted to and adopted by the boards of directors of the various companies controlled by the Amalgamated Copper Co.

Development Work.—A large working shaft upon the Tramway claim is now in process of construction, and when completed it will afford an outlet for the ores from the Tramway and Snohomish mines, the title to a portion of which is owned by the Butte & Boston Co. A large and valuable ore territory in the Pennsylvania mine, mentioned in the report of last year, has been developed, and at present is supplying a daily output of high grade ore from the Boston & Montana and the Red Metal Mining Companies.

The development during the past year has, in confirmation of the experience of the preceding year, proved that the ore bodies in the lowest levels of the Anaconda, the Colorado the Boston & Montana and the Butte & Boston mines are of a better grade than those existing on the intermediate upper levels.

The blast furnace, as well as the reverberatory and calcining furnaces in the smelting works of the Washoe Copper Co. at Anaconda, have been enlarged and now upwards of 10 000 tons of ore are treated daily.

The reduction works of the Boston & Montana Co. at Great Falls have been taxed to their utmost in handling the output from its mines and work has just been started whereby the tonnage of ore which can be treated daily by these works will be increased by 1,000 tons. This will require an entire new section in the concentrating department, a general increase of facilities in all of the other departments, and the erection of a smoke stack 500 feet in height and having a diameter of 50 feet. This will be provided with the necessary flues and dust chambers for the successful and economical handling of the ores.

Labor.—A settlement of the labor question, satisfactory to both employer and employee, has been arranged, and a contract in relation thereto has been signed by the officials of all the mining companies and the different labor unions, covering a period of five years.

Copper Market.—The condition of the copper metal market during the past year has been highly satisfactory. The price of the metal rose from 18½ cents in December 1906 to 25¾ cents in March 1907. At the close of the company's fiscal year all the refined copper that can be produced up to the first of July next by the various companies controlled by this company had been sold in advance.

Output.—The companies owned wholly or in part by the Amalgamated Copper Co. produced in the calendar year 1906 from their own and custom ores about 275,000,000 pounds of refined copper, of which amount the Amalgamated Copper Co. received the benefit from about 224,000,000 lbs.

Results for Fiscal Year.

	1907	1906.
Net income for the year	$14,154,400	$9,161,537

United Copper Co.

(Report for Fiscal Year Ending May 31 1907.)

President F. Aug. Heinze, New York, June 5 1907, says:

The past year has been one of extraordinary prosperity for all copper-producing companies and your company has shared in this prosperity to a very remarkable extent, as appears from the fact that the amount added during the year to its surplus almost equals the dividends paid on the common stock during the year, thus showing net earnings of very nearly 14% for the common, after the payment of the regular 6% dividend on the preferred. The surplus now exceeds the amount of the preferred stock and cash and cash assets now more than equal the $5,000,000 of preferred stock.

A part of this prosperity is undoubtedly due to the satisfactory settlement of the long-standing disputes between your company and its subsidiaries and the subsidiary companies of the Amalgamated Copper Co. Harmony has since prevailed in the Butte camp, and all your officers and engineers have been devoting their time to the profitable exploitation of your companies' holdings. The financial results of the change of policy are evident.

The La France Copper Co., one of the properties you are interested in, has made great progress in the exploitation of its mines, creating extensive surface works, draining the lower levels of the water which flowed in from the adjoining Alice Mine opening up large ore reserves and generally getting ready for profitable work besides settling by compromise a vexatious law suit inherited from the previous owners, so that now there are no law suits against any of its properties. I look for substantial profits from these operations during the coming year.

We have also become interested in several very large mining operations in Idaho, Utah, Nevada, California and Mexico, and have bought large coal interests in Pennsylvania and timber interests in British Columbia, all of which have required the investment of large sums of money, not only in the purchase of the securities of the other companies, but also in the way of equipment, as one instance of which I may mention the Ohio Copper Co., where we are at present equipping a 2,000-ton plant at a cost of approximately $1,000,000.

With copper, silver and lead remaining at anything like present prices, your profits during the coming year will undoubtedly be greatly enhanced.

International Mercantile Marine Co.

(Report for Fiscal Year ending Dec. 31 1905.)

The report, signed by Chairman C. A. Griscom and President J. Bruce Ismay, under date of June 3, says in substance:

General Results.—The combined income account of the companies for the year 1906 shows a surplus for the year of $5,028,754, as compared with a surplus of $3,127,491 for the year 1905, after meeting all fixed charges and operating expenses, in which operating expenses are included all charges for repairs, maintenance and overhauls. While there is an increase in the gross earnings of $3,824,891 and an increase in the net earnings of $2,125,887, the increase in operating, administration and general expenses is only $67,744.

The income account does not include the operations of the Leyland and National lines, in which your company has important holdings. These lines have made separate reports to their stockholders, showing profits for the year in working the companies of £136,910 for the Leyland Line and £16,877 for the National Line.

Insurance.—The directors have again much pleasure in stating that the steamers were operated during the year 1906 without any total loss, or even very serious casualty being sustained, and that the insurance fund shows a profit for the year of $791,659.

Balance Sheet.—During the year substantial payments on account of floating debt were made from current earnings, as a result of which the item of "loans, bills payable, and foreign bank overdrafts" has been reduced from $6,326,989 to $768,653. Under the provisions of the sinking fund there were retired during 1906 $279,000 of the first mortgage 5% bonds out of the earnings of American and Red Star Lines for the year 1905, and there will be deposited for the further redemption of bonds the sum of $316,538 out of the earnings of 1906. The debenture bonds of constituent companies held by the public, which at the close of the last financial year amounted to $921,533, have since been reduced to $778,579.

In addition to these material reductions in floating debt, over $5,000,000 has been transferred to credit of depreciation fund, making the total credits in insurance and depreciation funds over $8,000,000.

Company's Fleet.—All the company's steamships, as well as its other property, have been maintained in a high state of efficiency during the year, and the cost thereof, together with depreciation on all property other than steamships, charged to operating expenses.

The steamship Adriatic, referred to in the last report as being under construction, has now been completed, and sailed on her maiden voyage from Liverpool on May 8th, thus inaugurating the new service of the White Star Line between New York and the English Channel. The vessel has in every respect justified expectations.

The steamship St. Paul has been entirely re-boilered and thoroughly overhauled.

The very satisfactory development of the New York-Antwerp trade has warranted the transfer of the steamer Mississippi, built for the Atlantic Transport Line, to the Red Star Line, after having been equipped with every modern improvement and convenience for the carriage of third-class passengers. The vessel has been renamed the Samland. Your directors are anxious to add further tonnage to the Red Star Line, but the limited terminal facilities at Antwerp present serious difficulties to the carrying out of this policy.

As the cost of operating under the American Flag was so great and the steamers were at such a disadvantage in foreign trades, the American-built steamers Maine and Missouri have been sold, and a steamer of suitable type has been ordered for the Atlantic Transport Line, New York-London passenger and cargo service.

In view of the material development in the passenger traffic to and from Canada via the St. Lawrence route, it has been decided to order two steamers of the most approved type to meet the requirements of this business.

The urgent necessity for maintaining the position of the various subsidiary companies is fully realized by your directors, as will be seen from the following list of steamers, the construction of which has been arranged for: (1) An express mail, passenger and cargo steamer for the North Atlantic trade, which, in point of luxury and size, will far surpass anything hitherto attempted. (2) A passenger and cargo steamer also for the North Atlantic trade. (3) A passenger and cargo steamer for the Atlantic Transport Line, New York-London service. (4 and 5) Two mail, passenger and cargo steamers for the Dominion Line, Canadian service. (6) A large passenger and cargo steamer designed for the London-Australian trade. It is expected that all these vessels, with the possible exception of the large fast steamer, and the second steamer for the Canadian trade, will be in commission by the early part of 1909.

The White Star Line has increased its interest in the New Zealand trade by acquiring a half share in the new twin-screw steamer Arawa, which is fully equipped for the carriage of first, second and third-class passengers, as well as general cargo and refrigerated produce. This steamer left Liverpool for New Zealand on her maiden voyage on Feb. 22 last.

The steamers Servian and Scotian, referred to in our last report as being in the course of construction for the Leyland Line, owing to the change in conditions, have been sold on satisfactory terms, and three other steamers have been ordered, thoroughly suited to the trade, the first one of which it is expected will be delivered in November 1907 and the two others early in 1908.

The steamers Coptic, Doric, Rhyniand and Indiana have been disposed of, as they could no longer be employed with advantage.

The number of steamers now in service, including the subsidiary lines, is 123, representing a gross tonnage of 1,015,761 tons, to which will be added when the nine steamers above mentioned are completed 127,530 tons gross, making in all 132 steamers with a total tonnage of your own and subsidiary companies of 1,143,291 tons, classified as follows:

Under 5,000 tons gross 26	Between 15,000 and 20,000 tons gr's 4
Between 5,000 and 10,000 tons gr. 63	Over 20,000 tons gross 5
Between 10,000 and 15,000 tons gr 34	

General Remarks.—In order to meet the continually growing demand by travelers for facilities to avoid the necessity of crossing the English Channel, the British terminus of the White Star Line mail service has been transferred from Liverpool to Southampton, and the steamers Adriatic, Oceanic, Majestic and Teutonic, which carry on this service, now sail from New York and Southampton respectively on Wednesday, calling east-bound at Plymouth and Cherbourg, and west-bound at Cherbourg and Queenstown. The New York-Liverpool service is being maintained by the steamers Baltic, Cedric, Celtic and Arabic, sailing from New York and Liverpool respectively on Thursday instead of Friday as hitherto, and calling at Queenstown in both directions, the sailing day of the Boston-Liverpool steamers having been changed from Thursday to Wednesday from both sides.

The trans-Atlantic passenger traffic both east and west-bound, showed a material increase over previous years, in which your company participated. The earnings from passenger traffic may be considered quite satisfactory, and the booking for 1907 are such that there is every reason to be well satisfied with the outlook. In 1905 the total number of passengers carried by your steamers was 433,228, while in 1906 the total number was 487,934, or an increase of 54,706. Out of the 88,056 first-class, 146,187 second-class and 445,214 third-class passengers carried between British and North American ports (in which trade the majority of your services operate), your steamers carried 46,139 first-class, 53,277 second-class and 182,350 third-class. Out of the 26,419 first-class passengers carried to and from Mediterranean ports, your steamers carried 8,887.

The Mediterranean passenger business, in which your company is largely interested, has justified the employment in this trade of the steamers Cedric and Celtic during the winter months, and the results were sufficiently remunerative to warrant again running them in the service during the season of 1907-08. The popular steamer Arabic has completed another 70-day cruise, with satisfactory results, and a contract has been signed for a repetition of same.

The improvement in freights referred to in the last report as being evident during the first quarter of 1906 was not well maintained during the remainder of the year, and during the last three months of the year the conditions were particularly disappointing and unsatisfactory, largely due to the very congested condition of the railroads, in some instances resulting in an absolute embargo being placed on the movement of all freight except perishable freight. This, unfortunately, was the cause of many of your steamers from North Atlantic ports sailing with a large amount of vacant space, notwithstanding that the crop conditions were such that had this serious congestion on the railroads not existed, there is reason to believe that trans-Atlantic freight conditions would have been quite satisfactory. The cargo trade to and from Great Britain, Australia and New Zealand was not as satisfactory during 1906 as was anticipated, but there has since been a decided improvement, and better results are looked for this year.

The reciprocal agreement with the Hamburg-American Packet and North German Lloyd companies has again resulted advantageously to your company, satisfactory dividends having been declared by those companies for the past year.

Niagara Falls Power Company.

(*Report for Fiscal Year ending Dec.* 31 1906.)

The report, signed by President D. O. Mills and Secretary F. L. Lovelace, under date of New York, May 15, says:

No additional construction work or installation of generating machinery having been authorized, the company's business must be confined for the present to the output of the plants as they now exist. This condition naturally indicates the beginning of annual reports.

By direct ownership and through stock control of the Canadian Niagara Power Co. (only five shares of its capital stock being held by others), this company now has available for power generation (1) on the American side of the Niagara River two complete plants with an aggregate capacity for an output of about 77,000 electrical horse-power, and a considerable reserve in power-generating machinery; (2) an additional capacity of about 8,000 horse-power, of which, under leasehold rights, 7,500 hydraulic horse-power is now being generated in installations of tenant companies; and (3) on the Canadian side of the Niagara River a plant with installation for a continuous output of 40,000 electrical horse-power, one 10,000 horse-power generating unit being held in reserve. The cost of construction of this plant has included interest and park rentals to Jan. 1 1907, from which date it is treated as in commercial operation.

From the combined output of these plants about 95,000 e.h.p. and 7,500 h.p. (leasehold hydraulic rights) now are yielding revenue. Contracts have been negotiated for the sale of additional amounts of electrical power deliverable upon the completion of the installaiton of the necessary apparatus. It is expected that before the close of 1907 substantially all of the combined output of these plants will become revenue producing.

Firm contracts now in force covering long terms will require a considerable part of this power. The remainder, it is believed, will be absorbed quickly by the users of our power steadily increasing in number and requirements.

The financial condition of the company never has appeared to be more satisfactory and promising.

Under the Act of Congress known as the "Burton Bill" the Secretary of War has decided to permit the company to divert and to import the amounts of power by it requested at the hearing (compare V. 84, p. 224); and in Canada the proceedings in the Dominion Parliament justify the expectation of fair treatment.

INCOME ACCOUNT FOR THE YEAR ENDED DEC. 31 1906.

Gross earnings	$1,370,308	Interest on first M. 5% bds.	$500,000
Operating expenses	*x*326,124	Int. on 6% deb. (due 1910)	180,000

Securities, bills and accounts receivable, &c	420,700	6% debentures (Can. coll. series B), due Nov. 1 '14	1,980,000
Material and supplies	135,247	6% original debentures of Canadian Niagara Power Co. matured but not presented	20,000
Prepaid insurance	16,493	Accounts payable	*y*316,191
		Bills payable	503,546
		Unpaid coup. & accr'd int.	392,998
		Accrued taxes and rents	20,979
		Reserve for improvements and depreciation	576,892
		Surplus	399,222
Total assets	24,391,028	Total liabilities	24,391,028

Note.—Since Dec 31 1906, for the purpose of providing for capital expenditures now represented by accounts and bills payable and accruing liabilities under contracts, there have been received from stockholders subscriptions for $1,062,000, part of $1,500,000 6% coupon debentures (Canadian collateral, series C), and payment has been received in full or in part upon such subscriptions. The remaining $438,000 debentures are held for disposition at the discretion of the directors either to stockholders (including themselves) or to others. (V. 84, p. 807.)

Since Dec. 31 1906 the bills payable above shown have been paid with the exception of $11,093.—V. 84, p. 1310, 807.

United States Gypsum Co., Chicago, Ill.

(Report for Fiscal Year ending Dec. 31 1906.)

President S. L. Avery's report to the stockholders, as reported by the "Chicago Inter-Ocean" March 13, following the annual meeting, said in substance:

A review of 1906 brings into consideration many unusual difficulties. Labor advanced in all sections; bags, jute and paper (a large item) jumped from 22 to 40%; in fact, there was a steady advance in price of all the materials used in the manufacture of plaster. These increases, however, have in part been offset by the savings accomplished by improvements at our various mills. The price of plaster during the year remained at about the previous level.

At the close of 1905 the sales department promised to sell 75,000 tons in excess of the 1905 output. At the end of the first six months (July 1) more than half this increase had not only been ordered but actually shipped. On July 2 the Marsh mill at Gypsum, Ohio, one of our largest producers, burned to the ground. One of our idle Michigan mills was started, but this only slightly relieved us. Our sales organization, established to dispose of a larger tonnage, had not the plaster to sell. Labor troubles generally added to our difficulties, and at about this time the car shortage made itself felt and had a serious effect. The last six months of the year fell below the expectation of the management for the foregoing reasons. The tonnage increase over the previous year, however, reached 40,000 tons.

The Marsh mill was fully insured; the loss was adjusted on Aug. 18; the foundation of the new mill was started on July 23, and on Nov. 15, just 106 working days from commencement, we were operating what we believe to be one of the best mills in the country.

Competition.—Competition is growing rapidly, and several new mills are now nearing completion. These naturally have an effect on trade and usually cause disturbances in prices over a considerable territory. The new manufacturers devote themselves largely to the ordinary products, such as calcined plaster and wall plasters, and while these constitute the major portion of our business, they are unfortunately susceptible to cut prices of even new and untried competitive goods.

Aiming to in part avoid these conditions and to build a trade carrying a larger percentage of profit and free from this competition, we have been developing wall finishes, fireproofing plaster, partition tile and dental plaster. We believe we are manufacturing the very best in each of these three lines, but as yet they play a small part in our income.

New Contracts.—During the past year a 20-year contract was made with the Sackett Plaster Board Co., whereby we are to supply plaster at a price that carries a fair margin of profit for all the mills they may erect. We also have a contract under which we are the general selling agent for the board for the United States, excepting five central States, which were contracted for by one of our competitors previous to this company's formation.

The sale of this important product does not add expense, but on account of our control of it brings not only its own liberal profit, but a strong influence toward the trade of the dealer. The sale of Sackett plaster board last year increased over 1905 by 189%. An advertising campaign has been arranged for the year.

INCOME ACCOUNT FOR CALENDAR YEAR 1906.

Net earnings	$430,799	Balance (forward)	$380,799

"No debts."

The following, published last December, is confirmed as revised.

President Forsyth has recently sold practically all of the company's Government and municipal bonds in which the $800,000 rebuilding fund was invested, and re-invested the proceeds in the following non-taxable stocks: Boston & Albany RR., Fitchburg RR. preferred, New York New Haven & Hartford RR., Old Colony RR., West End Street Ry. preferred and Boston Terminal bonds. The company from its investment in Government and municipal bonds, which were taxable, received less than 3% on its $800,000 investment, while the present securities return an income of about 3½%, a difference of about $15,000 per annum, or about 1½% on the stock.—V. 83, p. 1349.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING STREET ROADS.

Alabama & Vicksburg Ry.—*New President for Queen & Crescent Lines.*—D. E. Curran, Vice-President and General Manager, has been elected President of this road and of the New Orleans & Northeastern and the Vicksburg Shreveport & Pacific, succeeding C. C. Harvey, who resigned and is now President of the New Orleans Terminal Co.—V. 81, p. 1607.

Altoona & Logan Valley Electric Ry.—*Stock Pledged.*—See American Railways Co. below.—V. 82, p. 803.

American (Electric) Railways Co., Philadelphia.—*Sale of Bonds.*—Bioren & Co., E. C. Miller & Co. and Newburger, Henderson & Loeb, all of Philadelphia, have jointly purchased a block of the new issue of $2,500,000 5% bonds of 1917 from the American Railways Co. and have formed an underwriting syndicate to underwrite the purchase at an advanced price. A public offering of them will be made during the next sixty days, the price of such offering to be fixed at or about 96 and accrued interest, at which price the bond yields a return of over 5½%.

These bonds are dated April 1 1907 and mature April 1 1917, but are subject to call at 102 at any interest period; coupons payable April 1 and Oct. 1 and with the usual provision for the registration of the principal of the bonds. Denomination $500 and $1,000 each. Authorized total amount, $2,500,000, secured by a deposit with the Equitable Trust Co. of Philadelphia, trustee, of $1,475,000 out of a total of $1,500,000 of the capital stock of the Altoona & Logan Valley Electric Railway Co. and $1,975,000 out of a total of $2,000,000 of the capital stock of the Scranton Street Railway Co.

The American Railways Co. has in the past six years sold three issues of bonds—the American Railways Co. 5s of 1911, the Bridgeton & Millville Traction Co. first mortgage 5s and the Altoona & Logan Valley first mortgage 4½s, both of the latter bonds being guaranteed by the American Railways Co. All of these securities are selling on a basis to yield a return of from 4⅝% to about 5%.—V. 83, p. 1409.

Atlanta Birmingham & Atlantic RR.—*Reports of Proposed Extensions Denied.*—President Atkinson May 29 writes:

There is no truth in the report that the Atlanta Birmingham & Atlantic is surveying a line from Atlanta, Ga., to New Orleans, La., nor is there any truth in the report that a line is being considered from Atlanta to Nashville. —V. 84, p. 270.

Baltimore & Ohio RR.—*Earnings.*—For the 9 months ending March 31:

9 *mos.*	*Gross.*	*Net.*	*Other inc.*	*Charges.*	*Bal., sur.*
1906–07	$60,569,318	$20,025,231	$2,698,899	$9,740,227	$12,983,903
1905–06	57,697,477	20,998,780			

From the balance as above $816,217 was deducted for permanent improvements. Dividends on the preferred stock call for $1,800,000 for the 9 months. The dividend of 3% on the common stock paid March 1 1907 called for $4,564,945, or at the rate of $6,860,000 (4¼ %) for the 9 months. Deducting these would leave a surplus for the 9 months of about $2,510,000. (This method of charging dividends differs from that of the company, but is adopted for simplicity.—Ed.)—V. 84, p. 1113, 569.

Boston & Maine RR.—*Change in Control—Option to Sell for All Stockholders.*—See New York New Haven & Hartford RR. Co. below.—V. 84, p. 1181, 930.

Boston Revere Beach & Lynn RR.—*Dividend Increased.*—The directors yesterday declared a semi-annual dividend of 3% on the $850,000 capital stock, payable July 1 to stockholders of record June 15. This increases the annual rate to 6%, contrasting with—

DIVIDENDS	1888–91	'92.	'93.	'94.	'95.	'96.	1897–1905	1906–Jan.07
Per Cent.	7 yearly	5½	5	4½	4	3	2 yearly	4 yearly.

—V. 83, p. 379.

Buffalo Rochester & Pittsburgh Ry.—*Equipment Bonds.*—The $3,000,000 4½% equipment gold bonds dated April 1 1907, to which reference was made last week, are due April 1 1927, but are subject to call, in whole or in part on any interest date at 102 and interest upon six weeks' notice. A sinking fund is provided to retire the issue. The amount outstanding, we learn, is $1,700,000.—V. 84, p. 1306.

Capital Traction Co., Washington, D. C.—*New Bond Issue.*—A new first mortgage has been made to the Union Trust Co. of Washington, D. C., as trustee, covering all the property of the traction company in the District of Columbia, to secure an issue of $6,000,000 5% gold bonds of $500 each, dated June 1 1907 and due June 1 1947, without option of earlier redemption; interest payable Dec. 1 and June 1 at office of trustee. Only $2,520,000 of said bonds were issued June 1 1907, out of which the $1,080,000 4% bonds dated 1900 were redeemed at $105 and accrued interest to date; $600,000 floating debt paid off; balance of the $2,520,000 to be used in paying for extensions of power plant and additional equipment. The remainder of the first $4,000,000 ($1,480,000) is held in treasury for future needs.—V. 84, p. 1303, 390.

Central Ontario Ry.—*New Securities Authorized.*—At the adjourned annual meeting on May 18 the shareholders authorized a new issue of bonds amounting to $1,200,000, to retire the old bonds now past due and for other purposes, and also the increase of the capital stock from $750,000 to $3,340,000. The directors and officers are:

Directors.—S. J. Ritchie, C. E. Ritchie, Akron, O.; T. M. Kirkwood, Toronto; S. S. Lazier, Belleville; Geo. Collins, W. S. Jaques, J. H. Stewart and R. Fraser, Trenton. Officers—S. J. Ritchie, President; C. E. Ritchie, Vice-President; Geo. Collins, Manager and Secretary; J. D. Rowe, Treasurer.—V. 84, p. 930.

Chesapeake & Ohio.—*Notes Extended.*—The reported sale of notes to J. P. Morgan & Co. represents the extension for one year of an issue of $1,200,000 notes which mature on June 28.—V. 84, p. 1247, 1181.

Chicago & Alton RR.—*Director Forgan Resigns.*—James B. Forgan of Chicago has resigned from the board.

Earnings.—For year end. June 30 1907 (May and June est.):

Year—	*Net Income.*	*1st Charge.*	*Dividends.*	*Balance.*
1906-07 (estimated)	$4,672,981	$2,978,555	$817,732	$876,694
1905-06 (actual)	3,786,336	2,776,356	815,006	194,974

Note.—The above comparison is official. The currently published but unofficial comparison, is erroneous, since including interest on treasury bonds, $240,000, in interest, taxes, &c., but not in "other income." The company's estimate this year excluded this item from both sides of the account; therefore, in order to make comparisons, we have cut it out of the interest, taxes, &c., of last year.—V. 84, p. 803

Chicago City Ry.—*Dividend Reduced.*—The directors on June 3 declared a quarterly dividend of 1½%, payable June 29 to holders of record June 10, being at the rate of 6% per annum, contrasting with the 9% rate which has been in force since 1902. In 1901 10½% was paid, and previous to that for many years 12% per annum.

The present reduction is described as the first step to bring the charges of the city railway within the income which may be expected under the new franchise ordinance, which requires a dividend division of the net income with the city.—V. 84, p. 930, 746.

Chicago & Eastern Illinois RR.—*Called Bonds.*—Indiana Block Coal RR. bonds Nos. 148, 171, 180 and 195, for $500 each, and Nos. 28, 41 and 63, for $1,000 each, will be paid upon presentation at the Farmers' Loan & Trust Co., New York, interest ceasing July 1. There will then remain only

$17,000 of the bonds outstanding, and for these par and interest is offered as authorized by the railroad company.—V. 84, p. 1181.

Chicago Subway Co.—*Deal Off.*—See Chicago Edison Co. under "Industrials" below.

Control—Loan.—It is persistently reported that the enterprise will hereafter be dominated by J. Ogden Armour and E. H. Harriman, who, it is asserted, recently loaned the company $4,000,000 at 6% for three years for extension purposes. Mr. Armour, according to one story, has acquired Kuhn, Loeb & Co.'s interest in the property.—V. 84, p. 220.

Cincinnati Hamilton & Dayton Ry.—*Collateral Trust Notes, &c.*—The "Wall Street Journal" yesterday said:

Offers of 70 flat for any part of their holdings are being made to the holders of the $15,000,000 4½% collateral trust notes. For whom these offers are being made cannot be ascertained. The notes were issued in 1905 at about 97½, but at the present time there is merely a nominal bid for them, and an asked price of 65-72, with no real market. The notes matur. Sept. 1 1908, but are subject to call before that time at 101. The March interest coupon was defaulted. While no confirmation can be officially obtained, it is rumored that arrangements have been made for the payment of 50% of the face value and accrued interest on the notes in cash and the balance in approved securities.

One rumor suggests the possibility of a lease of the property jointly to the Chesapeake & Ohio and the Erie RR. Co.

Agreement as to Pere Marquette RR.—See that company below.—V. 84, p. 804.

Cincinnati Newport & Covington Light & Traction Co.—*Subsidiary Reduces Capital Stock.*—See Union Light & Power Co. of Covington and Cincinnati under "Industrials" below.

Lease Arranged.—On June 3, at a joint meeting of the directors of the Cincinnati Newport & Covington Light & Traction Co., Archibald S. White, President of the Columbia Gas & Electric Co., and attorneys representing both corporations, the lease of the C. N. & C. L. & T. Co., was formally approved. The shareholders of the latter company will meet June 15 to ratify the contract.—V. 84, p. 930.

Connecticut Railway & Lighting Co.—*Stock Offered.*—A block of this company's 4% guaranteed common stock is offered at $75 a share by F. J. Lisman & Co., of New York, Hartford, Philadelphia and Chicago. The property is leased for 999 years from Dec. 19 1903 to the New York New Haven & Hartford RR. for a rental which, with the cash fund on deposit with the Colonial Trust Co., is sufficient to pay 4% on the common shares up to the year 1914 and about 4 1-3% thereafter. This stock is exempt from taxation in New York and Connecticut, as was stated in the copy furnished for the advertisement which we printed last week (p. xvii), although through misunderstanding in this office that statement was perverted into an allusion to savings bank investments. Compare V. 84, p. 1113, 507, 390.

Detroit United Ry.—*Acquisition.*—See Jackson Ann Arbor & Detroit Ry. below.

Arrangement for Through Trains.—See Lake Shore Electric Ry. below.—V. 84, p. 1307, 1052.

Erie & Jersey RR.—*Note Issue.*—See Erie RR. below.—V. 80, p. 2621.

Erie Railroad Co.—*New Mortgage Authorized for Subsidiary.*—See Genesee River RR. below.

Car Trust Syndicate Dissolved.—The syndicate which in December 1905 underwrote $7,000,000 car trusts, series "I," has been dissolved, a considerable portion of the issue being distributed among the underwriters.

Erie & Jersey RR. Notes.—To complete the Erie & Jersey RR. (V. 80, p. 2621), forming a low-grade cut-off from Highland Falls, via Campbell Hall to Guymard, in Orange County, a distance of 40 miles, that company has negotiated a sale of $3,000,000 notes secured by $4,000,000 Erie & Jersey RR. bonds. The notes will bear 6% interest and run for three years from this month. The work has been resumed (V. 84, p. 693) and will be completed within a year. The line will obviate the necessity for helper-freight locomotives and shortens the route for passenger trains on this division of the main line, and it is believed will make a good return on the money invested.—V. 84, p. 1247.

Evansville Electric Ry.—*Strike Settled.*—The strike of the company's employees, which began May 16, was settled on May 25, the company granting an increase in wages from 17 to 19 cents per hour, but without recognizing the union.—V. 84, p. 158.

Fitchburg RR.—*Purchase of Street Railway.*—Governor Guild of Massachusetts on May 16 signed a bill authorizing this company to purchase the property and franchise rights of the Conway Street Ry. Co., a small line running out of the town of Conway in Franklin County.—V. 84, p. 270, 158.

Genesee River RR.—*Mortgage of $6,000,000 for Erie Subsidiary Company.*—The New York State Railroad Commission on May 31 authorized this subsidiary of the Erie Railroad Co. to make a first mortgage for $6,000,000, covering the proposed steam road from Hunts, Livingston County, to Cuba, Allegheny County, a distance of 50 miles. Compare V. 81, p. 777.

Gulf & Inter-State Ry.—*New Officers.*—The following directors and officers have been elected:

Directors—R. Waverly Smith, Dan Ripley, George Sealy, C. H. Moore and L. P. Featherstone, Galveston; B. F. Bonner of Houston; C. F. Walden, J. F. Keith and Samuel Park of Beaumont.

Officers—President, L. P. Featherstone (re-elected); Vice-President, Charles H. Moore; Secretary, Geo. Sealy; Auditor, E. M. Barnes, Galveston; Treasurer, R. Waverly Smith, President of the First Nat. Bank of Galveston, and a director of the Santa Fe; General Manager, F. N. Dever.—V. 81, p. 1665

Havana Central RR.—*Deposits To June 20.*—Speyer & Co., on behalf of J. Henry Schroder & Co. of London, announce that deposits of bonds and stock will be received until 3 p.m. June 20 under offer in V. 84, p. 1052, 1307.

Hocking Valley Ry.—*Dividend on Common Stock Increased.*—The directors on Thursday declared a semi-annual dividend of 2% on the $11,000,000 common stock, increasing the annual rate from 3%, the rate prevailing from the first payment in July 1901 to January last, to 4%. The dividend is payable, along with the usual 2% on preferred, July 15 to holders of record June 22.

Time for Deposits of Stock Under Plan Extended to Oct. 1 1907.—Referring to the plan for the consolidation of the Hocking Valley Railway Co. and the Kanawha & Michigan Railway Co., J. P. Morgan & Co. announces that at the request of the holders of important interests in these companies, the time for deposit of the stocks of said companies under said plan has been further extended to and including Oct. 1 1907. (Compare plan, V. 83, p. 271.)—V. 84, p. 1247.

Hudson Valley (Electric) Ry.—*New President.*—L. F. Loree, President of the Delaware & Hudson Co., has been elected President to succeed the late David Willcox.—V. 84, p. 51.

Interborough Rapid Transit Co.—*Extension of Time to Complete Brooklyn Subway.*—The Board of Rapid Transit Commissioners on June 1 granted the construction company an extension of time until May 1 1908 to complete the subway now building between the Battery, Manhattan and the Long Island RR. station, Brooklyn.

New Subway Authorized.—See Rapid Transit in New York City below.—V. 84, p. 1307, 1182.

Ithaca-Owego Traction Co.—*Incorporated.*—This company was incorporated in Albany on May 29 with $400,000 capital stock to operate a street surface electric road 40 miles long from Ithaca to Owego.

Directors.—George R. Peck, Brooklyn; H. S. Finch, Richfield; S. E. Banks, Ithaca. The sale of the Ithaca Street Railway to A. H. Flint & Co., New York, was announced last week (V. 84, p. 1307.)

Jackson Ann Arbor & Detroit (Electric) Ry.—*Sale.*—While the preliminary contract of sale to Detroit United Ry. has been drawn, the terms of sale have not yet been made public. It is understood, however, that the stockholders will receive part in cash and part in new securities to be issued. Compare V. 84, p. 1307.

Kanawha & Michigan Ry.—*Time Extended.*—See Hocking Valley Ry. above.

Funding Plan Approved.—The shareholders at the annual meeting on June 4 ratified the plan for funding the floating debt incurred for additions and improvements per plan in V. 84, p. 1182, 1114.

Kansas City Southern Ry.—*Extension to New Orleans Contemplated When Times are Propitious.*—We understand that the proposition to extend this road to New Orleans, while seriously contemplated, will not be carried out at present unless market conditions become decidedly more favorable. The "Railway Age" of Chicago for May 31 said:

Following the statement last month by President J. A. Edson that surveys had been completed for an extension to New Orleans, it is now announced that right of way has been nearly all secured for this important work. The New Orleans branch will start from Leesville, La., 118 miles north of Port Arthur, and run southeasterly, through Oberlin and Eunice, to Crowley on the Southern Pacific which will be paralleled as far as New Iberia, 41 miles. From that point the route runs easterly and then southeasterly, between the Texas & Pacific and Southern Pacific, passing through a rich sugar plantation country. The length of the branch from Leesville to New Orleans will be about 250 miles, and the distance from Kansas City to New Orleans about 918 miles.—V. 81, p. 1182, 804.

Lake Shore Electric Ry., Cleveland.—The "Cleveland Finance" says that the company has effected an arrangement with the Detroit United Ry. Co. whereby through limited trains will shortly be put into service between Cleveland and Detroit, a distance of about 180 miles, the running time to be 6 hours. This, it is said, will be the longest limited run in the country. The "Finance" says:

The matter of running through cars has been under consideration for some time. One future which held it up was that the entrance in Detroit was over a shallow grooved rail which the Lake Shore did not care to operate its cars over. This track is now being relaid with heavier rail which removes this difficulty. The Lake Shore is planning to buy 10 new cars, several of which will be equipped with chair seats for this service. For the present, however, the regular limited cars will be used.—V. 84, p. 390, 387, 158.

Lehigh Valley Ry. of New York.—*New Stock.*—This company, whose capital stock was all owned by the Lehigh Valley RR. Co., has been authorized by the New York State Railroad Commission to increase its share capital from $11,200,000 to $13,543,000 to provide for the improvement of its terminal properties at Buffalo and East Buffalo, and improvements of its Manchester and East Waverly yard and other yards along the line, the expenditure ($3,850,000) being estimated to cost:

Improvements at lake front in Buffalo including change of freight house and water front tracks, &c	$150,000
Improvements to ore-handling facilities at Tifft Farm terminal, including three unloading machines and storage bridges with dredge buckets and extension of storage floors and frontage	400,000
Additional freight houses ($250,000) and trackage ($250,000)	500,000
Outlet channel to lake, drawbridges for turnpike and dredging channels, &c	350,000
Bulkheads and facilities along lake front	750,000
Extension of East Buffalo yard to Checktowaga	200,000
Interchange tracks in connection with the New York Central Gardenville yards for Nickel Plate and Lake Shore interchange at Cheektowaga	250,000
Cost of yard at Depew, including filling, trackage, &c	250,000
Coaling station at Wende	100,000
Terminal classification yards at Manchester and East Waverly, N.Y.	750,000
Additional tracks, buildings and sundry facilities at local stations and yards and along main line	250,000

—V. 83, p. 38.

Lehigh Valley RR.—*New Stock for Subsidiary.*—See Lehigh Valley Ry. below.—V. 84, p. 1248, 158.

Louisville & Nashville RR.—*Syndicate Dissolved.*—The syndicate headed by J. P. Morgan & Co., which last July underwrote $10,000,000 4% Atlanta Knoxville & Cincinnati division 4% bonds at a price said to be 98½, has been dissolved. Current reports say that only about 15% of the $4,000,000 bonds was sold.

Application to List.—The New York Stock Exchange has been requested to list the aforesaid $10,000,000 Atlanta Knoxville & Cincinnati Division 4% bonds of 1955.—V. 84, p. 749, 508.

Louisville (Ky.) Ry.—*Issue of Notes—Further Facts.*—The "Louisville Courier-Journal" of May 30 said:

It was officially announced to day that the company has created $500,000 of short-term (three-year) notes, of which $300,000 have been disposed of at par to local institutions. The notes are secured by $600,000 of the company's 4½% bonds, are in denominations of $1,000, bear interest at the rate of 6%, payable semi annually, dating from June 1, and may be redeemed in part or in whole at the expiration of one year or on any interest date thereafter. The remaining $200,000 will not be sold for some months, the $300,000 being sufficient to take up immediate obligations. The proceeds of the issue will be used to pay for new equipment, for power house improvements and for extensions. The company several weeks ago authorized an increase in the common stock from $12,000,000 to $15,000,000, but the stagnant condition of the security market precluded the sale of new stock at par.—V. 84, p. 1307, 567.

Low Fare Ry.—*Franchises.*—The "Cleveland Leader" of June 15 contained as advertisements certain franchises granted by the city council and approved by the Mayor on June 4. Compare V. 84, p. 1307.

Michigan Central RR.—*Sale of New Bonds.*—Moffat & White and Clark, Dodge & Co., both of New York, have purchased, and, it is understood, have largely placed a block of $1,500,000 Michigan Central RR. Co., Joliet & Northern Indiana RR. Co. 50-year first mortgage 4% gold bonds, dated July 10 1907 due July 10 1957, interest payable Jan. 10 and July 10. This amount is part of an authorized issue of $3,000,000. The proceeds of the $1,500,000 now sold will be used to refund $800,000 Joliet & Northern Indiana 7s maturing July 10 next, as well as to provide funds for track elevation in Joliet, Ill., and for betterments and improvements of the present line.

These bonds are a direct obligation and are issued by the Michigan Central RR. Co., being secured also by a first mortgage on all of the property of the Joliet & Northern Indiana RR. Co. The latter company is controlled through stock ownership by the Michigan Central, which has a perpetual lease of all its property. The Joliet & Northern Indiana has been a part of the Michigan Central system since it was leased in 1854, and forms its principal route for Western traffic in connection with the Illinois Central, Chicago Rock Island & Pacific and the Chicago & Alton railroads. The line extends from Lake, Ind., to Joliet, Ill., a distance of about 45 miles.—V. 84, p. 874, 864.

Milwaukee Northern (Electric) RR.—*Mortgage.*—A mortgage dated April 15 1907 has been filed to the Fidelity Trust Co. of Milwaukee, as trustee, to secure an issue of $4,000,000 of 30-year bonds. The company was incorporated in November 1905 with $100,000 authorized stock, which on April 30 1907 was increased to $1,000,000. Its line, as projected, will extend from Sheboygan, Wis., to Milwaukee, 60 miles.

Of the bonds (denomination $1,000 each), $2,500,000 are issuable at once and the remaining $1,500,000 when the road is completed to Fond du Lac. The officers are: President, W. H. Comstock; Secretary, F. W. Walker, and Treasurer, Henry A. Haigh. Company incorporated in Wisconsin in Nov. 1905.

Mississippi Central RR.—*Called Bonds.*—The company will redeem $12,000 first mortgage bonds of 1905, Nos. 43 to 84 inclusive, at the office of Harvey Fisk & Sons, No. 62 Cedar St., New York City.—V. 83, p. 1229.

Missouri & North Arkansas RR.—*Construction by Reorganized Company.*—The "Railway and Engineering Review" of Chicago recently said:

The Missouri & North Arkansas, we are officially advised, has at the moment 30½ miles between Woodruff and Neosho, Missouri, under construction; the grading should be completed in July. The road also has under contract 90 miles of grading and bridging from Leslie, Searcy County, southeast to Searcy, White County, the grading to be completed Jan. 1 next. Within the last few days contract has been let for about 40 miles of work from Helena northwest through the flats of eastern Arkansas, the work to be completed this year. There will probably be an additional 10 miles or thereabouts to let this fall, joining the work recently let from Helena northwest with the section from Leslie to Searcy.—V. 83, p. 492.

New Orleans Great Northern RR.—*New President.*—Charles W. Goodyear has been elected President to fill the vacancy caused by the death of his brother, Frank P. Goodyear. General Counsel M. E. Olmstead of Harrisburg, Pa., has also been elected Vice-President.—V. 82, p. 987, 869.

New York New Haven & Hartford RR.—*Purchase of Boston & Maine RR.*—President Mellen on Thursday, in a letter addressed to Gov. Guild of Massachusetts, announced the purchase in the company's interest of a large stock holding in the Boston & Maine RR. which it is proposed to exchange, share for share, for stock of the New York New Haven & Hartford RR., with the option to the holders of the remaining shares of that company to exchange their holdings on the same terms. President Mellen's letter says in substance:

In answer to your favor of even date, let me say: Interests identified with my company have acquired a large stock interest in the Boston & Maine RR. and have entered into an agreement to acquire such additional stock as may desire to avail of the terms within a reasonable time in the future. The basis of such acquisition made and proposed has been the exchange of shares of the two companies share for share, with a commission to be paid by Boston & Maine shareholders of 75 cents per share, a similar commission being paid by the purchasers.

While no shares of Boston & Maine stock are held by my company and it has not been proposed any shall be, still it is unquestionably true the purchases are made and held for its account in the hope and belief that an ultimate union of the two properties will be permitted. No stock has been or will be issued in connection with this purchase against which a charge of stock watering or inflation can lie, for every share of New Haven stock issued will represent a share of Boston & Maine retired, and no capital will be outstanding on which dividends must be paid more than at the present.

It is our confident belief an increased service without transfer through the Connecticut Valley through the union of these properties under a common control and ultimately by consolidation will result in the development o a largely increased revenue through the greater convenience available. Similarly a through service by way of Worcester and Nashville through the Merrimac Valley cannot fail to benefit materially the public, with resulting advantage to the revenue of the railroad. A through service to and from the State of Maine offers possibilities for revenue not to be lightly considered—possibilities so large, with such a field for exploitation so near at hand, it seems little doubt should be expressed of the result.

The "Boston News Bureau" of Tuesday had the following:

During the past few days, banking interests acting for the New Haven people have received nearly 71,000 shares of Boston & Maine stock, and it is understood that during the next day or two sufficient shares will have been received to place the New Haven's Boston & Maine holdings in excess of 100,000 shares. This gives the New Haven people a direct ownership of about 34% of the combined common and preferred shares of capital stock of the Boston & Maine, including the new stock recently issued. The bankers acting in this matter are understood to be Lee, Higginson & Co. of Boston. The stock of the Boston & Maine secured was formerly owned largely by Lewis Cass Ledyard and the American Express Co. and others of the leading stockholders of the Boston & Maine.

As many of these stockholders were closely associated with the Vanderbilt interests, and, in fact, the American Express Co., hitherto the largest stockholder in the Boston & Maine, is closely affiliated with the Vanderbilts, it is understood that the New York Central has an option to buy the New Haven's holdings in the New York Ontario & Western at the same price paid for them by the New Haven a few years ago. This would call for nearly $15,000,000 cash, and in some quarters it is considered doubtful if the New York Central will avail itself of this option.

Listing of New Stock.—The New York Stock Exchange has authorized that the "$91,878,100 of stock of the present merged New York New Haven & Hartford RR. Co. be substituted for the same amount of stock of the old New York New Haven & Hartford RR. Co. now on the list," and that the committee be empowered to add to the list from time to time, but prior to Jan. 1 1908, $30,000,000 additional of said stock, on official notice that it has been issued in accordance with the terms of this application. The application says: "This additional stock will be used mainly for the purpose of acquiring in this company's interest shares of the Boston & Maine RR., which when acquired will be a treasury asset." The company further reports:

Prior to the date hereof, there have been authorized to be listed before July 1 1907 $99,069,000 capital stock of the New York New Haven & Hartford RR. The actually issued and listed stock on May 31 1907 was $91,878,100. The balance of the capital stock authorized to be listed as aforesaid, amounting to 71,909 shares, will not be issued under or in accordance with said authorizations.—Compare V. 84, p. 1308, 1242.

Earnings, Investments, &c.—President Mellen, at the stockholders' meeting on May 31, is quoted as saying:

Earnings.—We have completed approximately ten months of the present fiscal year, and I think a fair estimate of the results for the year ending June 30 1907 can be made. I approximate the surplus over and above all fixed charges, including dividends this year, to be between $2,750,000 and $3,000,000 in excess of the dividend requirements.

Improvements, Additions and Investments Since July 1 1903.—The amount of money that has been expended has been large, and approximates from July 1 1903 to May 21 1907 $157,000,000. Out of this sum $97,750,000 have gone for investments in securities of other companies, which are paying the interest upon the cost of their investment. Out of the balance $37,000,000 has been spent for real estate, new equipment, second, third and fourth tracks and the electrification of the New York Division; and there was no possible way that I can conceive of by which any administration could have avoided these expenditures.

I can conceive of nothing that has been done or contemplated that can in any way impair the ability of the company to earn and pay its dividends, and, with a good surplus, to reinforce those dividends as against a recession in business; and I am unable to account, except that the company has been engaged in a great many transactions, for any apprehensions or uncertainty or doubt regarding the stability of any investment in any class of the company's securities.

So far as my information goes there are none of the investments that have been made by the company but that could be disposed of at very handsome advances, even in these times of tight money, in excess of the cost price. Indeed, with some of the investments of the company it has been with great difficulty that we have fenced off parties who were desirous of acquiring them at our hands, and at prices that seemed very, very attractive to the directors, and but for the desirability of keeping the system intact knowing what it could do as it is constituted, and having in mind the doubt and uncertainty that might come about from its dismemberment, like parting with its steamboats, its trolleys, its Poughkeepsie Bridge line, and other lines, I think the prices offered us would have tempted us almost beyond the power of resistance.

Increase in Wages and Car Demurrage.—The only uncertain, unhappy elements with which the management has to contend are the demands of organized labor, which are tremendous, and which will cost us this coming year in the vicinity of $800,000 for increases in wages, and the unfortunate situation we are in with regard to the freight-car demurrage, which will make another $800,000 increase in our expenses. Therefore I have to look in the face from July 1 1907 an increase in the expenses of this company of $1,600,000 from these two items alone. I regret to say, so far as the organized labor item is concerned, that I am meeting a constantly decreased efficiency with every increase granted in wages.

The earnings are exceedingly good at the present time. They run from $400,000 to $500,000 a month in excess of last year, but very little of this is net, and very little of it will be net and I think the company will be fortunate if it can maintain itself, making the necessary reductions on its rates from time to time that are required, making also the necessary increases in wages that are required, continuing a reasonable scale of improvement expenditures, if it shall maintain a handsome surplus while protecting its 8% dividend. Nothing that I shall ever consent to will in my judgment impair the ability of the company to continue its present rate of dividends.

Merger.—The merger adds $30,000,000 of capital to the New York New Haven & Hartford RR., of which $20,000,000 is that of the New England Navigation Company's earlier merger, with the $10,000,000 of the Consolidated Railway Company, the greater company to retain the corporate name of the New York New Haven & Hartford R.R. Co. Compare V. 84, p. 1308, 1242, 1114.

Norfolk & Western Ry.—*Syndicate Dissolved.*—The syndicate headed by Brown Bros. & Co., which last year underwrote $5,000,000 "divisional first lien general mortgage 4% bonds of 1944," has been dissolved, the unsold portion of the issue being distributed among the subscribers.—V. 84, p. 1248, 1053.

Ohio River Passenger Railway.—*New Enterprise.*—This company, apparently an ally of the Steubenville & East Liverpool Railway & Light Co. (V. 84, p. 1249), is reported to have filed at Harrisburg, Pa., a certificate of increase of capital stock from $70,000 to $1,000,000, and a certificate of increase of indebtedness to $1,000,000, consisting of first mortgage bonds of $1,000 each. Van Horn Ely is President.

Pennsylvania Railroad Co.—*Withdrawal of All Commutation Rates in Pennsylvania.*—This notice was issued on June 3

The company is quite confident that the litigation it has instituted in the city of Philadelphia to test the validity and constitutionality of the maximum passenger rate bill, recently enacted in the State of Pennsylvania, will result in a decision holding the said Act to be unconstitutional and non-enforceable. It is hoped and expected that such final decision will be reached before October 1 1907, when the law becomes effective. Nevertheless, it is possible that a decision may not be reached by that time.

Therefore, in view of the rapidly increasing cost of operation to which the company is subjected, and the loss of earnings which would necessarily result if the said Act should be enforced, it manifestly becomes necessary and proper that the management should immediately consider measures for preserving its passenger revenues as far as it lawfully and properly may.

The President of this company in a letter to the Governor of Pennsylvania, under date of April 3 1907 (compare V. 84, p. 868), stated, after quoting detailed statistics:

"I would draw your attention to the fact, shown by these figures: (1) that in 1906 the lines east of Pittsburgh failed to earn 6% on the capital invested in doing a passenger business by $600,000; (2) that if the rates had been on the 2-cent basis the receipts would have been less by $2,600,000, making the deficiency (without any consideration of a surplus), $3,260,000.

"It will be recalled that on Nov. 1 1906 the company voluntarily reduced its maximum passenger rates to 2½ cents a mile. In order, therefore, that it may be in a position to protect its earnings, the company is compelled to announce that it may be necessary on or before Oct. 1 1907 to materially readjust such of its fares as are now less than 2 cents a miles."—V. 84, p. 1183.

Pere Marquette RR.—*Plan.*—Negotiations were completed this week between J. P. Morgan & Co. and the Pere Marquette stockholders' protective committee by which a plan was agreed upon that will be submitted to the stockholders for approval. The plan provides, it is reported, for the stockholders' raising $5,000,000 to discharge the company's indebtedness, for the cancellation of the lease to the Cincinnati Hamilton & Dayton RR. and the restoration of the company to the control of the stockholders. Formal announcement of the plan will be made in a few days.—V. 84, p. 868, 804.

Philadelphia Baltimore & Washington RR.—*Proposed Increase of Indebtedness.*—Notice is given by advertisement that the shareholders will meet July 31 to vote on "the question of an increase in the indebtedness of the company, as proposed by resolution duly adopted by the board of directors on the 31st day of May 1907 a certified copy whereof will be submitted to the meeting."

Earnings.—For year ending March 31.

Gross earnings	$16,167,687	First charges	$1,545,862
Net earnings	3,295,399	Dividends (4%)	939,742
Other income	793,128	Extraord. expenditures	1,562,389
Net income	4,088,527	Balance, surplus	40,534

—V. 84, p. 992, 749.

Philadelphia & Easton Ry.—*Foreclosure Sale.*—This company's property was bid in at foreclosure sale at Doylestown, Pa., on May 31 for $100,000 by Carroll R. Williams of Philadelphia, representing the bondholders' committee. See page 37 of "Street Railway" section.—V. 81, p. 1044.

Philadelphia & Western Railway.—*Successor Company.*—This company was organized at Philadelphia on Thursday as successor of the Philadelphia & Western Railroad, recently foreclosed. The present capitalization, it is said, will be $4,000,000 bonds out of a total authorized issue of $20,000,000 (the remaining $16,000,000 being held for extensions and permanent improvements) and $600,000 preferred stock and $3,400,000 common stock. Officers and directors:

Officers.—President, George R. Sheldon; Vice-President, Thomas Newhall; Secretary and Treasurer, Davies Murdoch.

Directors.—George R. Sheldon, Randolph Rodman, James H. Brewster Jr., Thomas Newhall, William H. Simms, W. Robinson Molinard and Joseph S. Clark.—V. 84, p. 1248.

Providence & Burrillville Street Ry.—See Rhode Island Co. below.—V. 80, p. 2345.

Qu'Appelle Long Lake & Saskatchewan Railroad & Steamboat Co.—*Proposed Change in Trust Deed.*—The holders of debenture stock secured by trust deed dated Oct. 17 1906 will meet in London on June 25 to vote on making certain modifications of the provisions contained in the said trust deed.—V. 83, p. 1099.

Rapid Transit in New York City.—*New Brooklyn Subway.*—The Board of Estimate on June 5 granted the application of the Board of Rapid Transit Commissioners for authority to advertise for bids for construction alone, instead of both construction and operation, of the proposed Fourth Avenue Subway in Brooklyn, forming part of the proposed tri-Borough route, extending as follows:

From Chrystie Street, Manhattan, over the new Manhattan Bridge and through the extension of Flatbush Avenue and Fourth Avenue to Coney Island, with a spur to Fort Hamilton. The estimated cost is about $21,000,000.

It is expected that the Rapid Transit Commissioners, or their successors, the Public Utilities Commission, who take office on July 1, will take prompt measures to prepare the form of contract and advertise for bids.

Loop Contract.—The Rapid Transit Commission last week awarded the contract for the construction of a section of the subway loop on Centre Street, between Canal and Broome streets, to the Cranford Company, the lowest bidder, for $2,210,000. Compare V. 84, p. 869.

New Law as to Issuance of City Bonds.—See "New York City" in "State and City" Department, on a subsequent page.—V. 84, p. 1248, 1053.

Reading Company.—*Equipment Trust Certificates "E" Not Sold.*—We are authoritatively informed that the equipment trust certificates, series E, have not yet been sold.—V. 84, p. 1308.

Rhode Island Company.—*Merger or Amalgamation.*—It was announced in Providence on May 31 that this company, controlled by the New York New Haven & Hartford RR. (compare Rhode Island Securities Co. V. 84, p. 1114), had arranged to take over the Providence & Burrillville (V. 80, p. 2345) and the Columbian & Woonsocket Street Railway companies.—V. 76, p. 543.

Rio Grande Sierra Madre & Pacific.—*New President.*—H. R. Nickerson, formerly Vice-President of the Mexican Central has been elected President to succeed Col. W. C. Greene, and also a member of the executive committee and the board of directors. G. D. Cook, of George D. Cook & Co., bankers, of New York, was also elected a member of the reorganized board.

Extension.—The road, which is in operation from Ciudad Juarez to Terrazas, Mexico, 162 miles, will be extended on the South about 160 miles to Temosachic, to be completed in about a year. The line will reach a timber and mineral section of some 2,500,000 acres, owned by the interests identified with the railroad. The road is projected to Guaymas on the coast.

The Sierra Madre & Pacific RR. was incorporated early in the year, capitalized at $6,000,000 gold, to extend the line from Guzman easterly to a connection with the Cananea Yaqui River & Pacific now being built, a distance of about 400 miles.—V. 80, p. 1112.

St. Louis Iron Mountain & Southern Ry.—*Offering of Equipment Bonds.*—Townsend Whelen & Co., Henry & West and Bioren & Co., all of Philadelphia, are offering at prices to net the investor 5¼% interest the unsold portion of the $3,660,000 5% equipment gold bonds dated June 1 1907 which were described in our issue of May 4, page 1053. Interest payable June quarterly at the office of Townsend Whelen & Co., Philadelphia, or the Mercantile Trust Co., New York. Denomination $1,000 each—coupon or registered.—V. 84, p. 1053, 627.

Scranton (Pa.) Street Ry.—*Capital Stock Pledged.*—See American Railways Co. above.—V. 81, p. 1850.

Steubenville & East Liverpool Railway & Light Co.—*Ally.*—See Ohio River Passenger Ry. above.—V. 84, p. 1249.

Trenton Lakewood & Atlantic Ry.—*Receivership.*—At Trenton, N. J., on June 5, Vice-Chancellor Bergen appointed John M. Dickinson of Trenton as receiver for the company in the suit brought by Peter Schlicher of Trenton on the ground of insolvency.

The "Trenton American" of May 15 said:

The company was capitalized at $1,000,000, and deposited with the State Treasurer $80,000 under the law requiring a deposit of $2,000 a mile. The only portion of the road ever really constructed was 6 miles from Lakewood to Point Pleasant. In December, 1905, the capital was increased to $2,500,000, but the bill filed states that none of this stock was ever issued. The deposit with the State Treasurer was afterwards withdrawn. Mr Schlicher avers that the money deposited with the State Treasurer and that used to acquire the right of way and in construction was largely raised on promissory notes, endorsed by the directors, including the complainant; that the company owns no property, other than that acquired for the right of way, and is insolvent.—V. 82, p. 282.

Union Pacific RR.—*Statement by President Harriman.*—President E. H. Harriman is quoted as saying:

Any report that the Harriman lines need more money than will be raised under the recent financial plan has no basis of foundation in fact. There have been no recent attempts by the Harriman lines to raise funds abroad. Six months ago negotiations were carried on for placing $50,000,000 4% bonds of the Union Pacific in Europe through Paris. The issue would have been a success except for the attack on railroad corporations in this country early in the year. Otherwise $50,000,000 would have been brought here from Europe at a time our markets urgently needed it. A different plan of financing was followed, as recently announced. There is no truth in the statement that a policy of sweeping retrenchment has been inaugurated on the Union Pacific and Southern Pacific on account of fear of the future. The management of the Harriman lines is taking all the steps necessary to keep its plant and equipment in a foremost position amongst the Western roads and in a position properly to cope with their tremendous growth of business. No extensions into new fields, however, are being planned.—V. 84, p. 1183, 1115.

United Railways & Electric Co., Baltimore.—*No Interest on Incomes—Scrip for June Coupon of Deposited Incomes.*—The directors on May 31, in view of the report of earnings, decided not to pay the half-yearly interest on the income bonds and the preferred stock. Holders of income bonds who have deposited these with the Maryland Trust Co. will receive scrip for the June coupon in the funding 5% bonds on presentation to that company under the plan.—V. 84, p. 1115, 993.

United Traction Co., Albany.—*New President.*—L. F. Loree, President of the Delaware & Hudson Co., has been elected President to succeed the late David Willcox.—V. 84, p. 932, 52.

Virginian Railway.—*Mortgage.*—The mortgage filed last week to the Central Trust Co. of New York, as trustee, provides for the issue of 5% gold bonds to an amount not exceeding $33,500,000 on the present main line now under construction, from Deepwater, W. Va., on the Kanawha River, to Sewall's Point, near Norfolk, Va., a distance of 442 miles.

The bonds are dated May 1 1907 and will mature May 1 1957, but are subject to call at company's option at 110 on any interest day. Denomination $1,000. Interest payable Nov. 1 and May 1 at office of trustee. Of the aforesaid $33,500,000 bonds $20,000,000 are issuable forthwith to pay debts of acquisition and construction, and the remaining $13 500 000 may be used for the completion of the aforesaid 442 miles of single-track main line. Further bonds may be issued under the mortgage for new construction in the future as follows: For each mile of single track extension of main line, $75,000; for each mile of single track on any branch line $50,000; for each mile of second track on main line, $50,000.—V. 84, p. 1308, 1249.

Washington (D. C.) Terminal Co.—*Bonds Listed.*—The New York Stock Exchange has listed the $10,000,000 outstanding first mortgage 3½% 50-year gold bonds (total issue limited to $12,000,000).

Guaranty Endorsed on Each Bond.

For value received, the Baltimore & Ohio RR. Co. and the Philadelphia Baltimore & Washington RR. Co. hereby jointly and severally guarantee to the holder of the within bond the due and punctual payment by the Washington Terminal Co. of the interest upon the said bond in gold coin of the United States of America, of or equal to the present standard of weight and fineness as the same shall from time to time become due, and also the payment of the principal of the within bond in like gold coin when the same shall be or become due. In witness whereof, the Baltimore & Ohio RR. Co. and the Philadelphia Baltimore & Washington RR. Co. have caused this guaranty to be signed by their respective Presidents, or other person duly authorized thereto, and their corporate seals to be hereunto affixed, duly attested this first day of February 1905.

Engineers' Estimate of Total Cost of Work and Real Estate.

Real estate	$2,993,007	Additional mail facilities	$82,000
Tunnel and south approach	2,002,852	Other expenditures	1,313,924
Term. bldgs. & north ap'ch	9,113,049	Total of all	$15,504,832

"There has been expended in this work to March 31 1907 $11,117,608."

—V. 84, p. 869.

West End Street Ry., Boston.—*New Stock at Auction.*—The Mass. Railroad Commission has authorized the sale at auction of 1,130 shares of common stock unsubscribed for under an order of the board of March 30.—V. 84, p. 932, 805.

Whatcom County (Wash.) Railway & Light Co.—*Reduction of Capital Stock.*—This New Jersey corporation gives notice of a reduction of its capital stock from $1,050,000, consisting of $750,000 common and $300,000 6% non-cumulative preferred, to $750,000, by the retirement and cancellation of the entire authorized issue of preferred stock, of which $220,000 was really outstanding.—V. 82, p. 1042.

Wheeling (W. Va.) Traction Co.—*Franchise Ordinance Adopted.*—Shortly after midnight on May 29 the ordinance amending this company's franchise was passed by the City Council of Wheeling by a vote of 9 to 5 in the first branch and by a unanimous vote in the second.—V. 83, p. 753.

Whitehall & Granville (Electric) RR.—*Increase of Stock—Bonds*—The company obtained from the State Board of Railroad Commissioners permission to increase the authorized capital stock from $400,000 to $700,000 or $790,000 and to make a mortgage to secure $700,000 bonds on cancellation of the earlier mortgage for $400,000.

The company was incorporated Sept. 11 1900 to build a road from Whitehall, N. Y., to West Pawlet, Vt., about 22 miles, and authorized bond issue of $400,000 of 30-year 5% bonds, of which at last accounts none had been issued. President, Emmett J. Gray, Whitehall, N. Y.; Vice-President, Eugene R. Norton, Granville; Secretary, Chas. I. Baker, Troy, N. Y.; Treasurer, Daniel D. Woodward, Granville, N. Y.

York County Traction Co.—*Bonds Called.*—This company, having arranged to acquire $1,087,000 5% bonds of 1950 out of a total of $1,213,000, will pay off the remaining $126,000 bonds on July 1 1907 at the Real Estate Trust Co. of Philadelphia, trustee, at 110 and interest.

The control of the company was acquired by Brown Bros. & Co. of Philadelphia and associates in April 1906 (compare V. 82, p. 989, 871), and the payment of the aforesaid bond issue, it is understood, is preparatory to the organization of a new holding company and the making of a new first mortgage.—V. 82, p. 989.

INDUSTRIAL, GAS AND MISCELLANEOUS.

Acushnet Mill Corporation, New Bedford, Mass.—*Extra Dividend.*—The company on May 2 was paying an extra dividend of $50 per share out of the accumulations of years past. A press report says:

This corporation has paid an average of 16% per annum since 1893, when its capital stock was reduced from $1,000,000 to $500,000. The dividend now being paid is the first extra in fourteen years, the dividend of $20 in 1900 simply averaging up because of the reduction to $12 in 1898. The mill was incorporated in 1881 and its stock sold at 80, its lowest, in 1882, and at 378, its highest, in 1903.

American Car & Foundry Co.—*Dividend on Common Stock Increased.*—The directors on June 3 declared a quarterly dividend (No. 19) on the $30,000,000 common stock, the amount being 1%, payable July 1 to stockholders of record June 6. The usual quarterly dividend of 1¾% was declared also on the $30,000,000 preferred stock. Dividends were resumed last January on the common stock, after an interval of three years, at the rate of ½ of 1% quarterly.

—V. 84, p. 933.

American De Forest Wireless Telegraph Co.—*Property Transferred.*—See United Wireless Telegraph Co. below.—V. 84, p. 104.

American Dock & Trust Co., New York.—*Bond Issue.*—Secretary A. B. Pouch announced a meeting of the stockholders to be held at the office of the company, Arrietta St., Tompkinsville, Richmond Borough, N. Y., on May 22, to vote upon issuing $1,000,000 first mort. bonds of $1,000 each.

The company is a New York State corporation. Authorized capital stock, $1,000,000; outstanding at last accounts, $500,000; par $100. No bonds heretofore. Owns docks, &c., at Tompkinsville, Staten Island, N. Y. President, Frederick H. Pouch. New York office, 68 Broad St. (room 72).

American Smelting & Refining Co.—*Increase in Dividend on Common Stock.*—The directors on Tuesday declared a quarterly dividend of 2% on the $50,000,000 common stock, placing this stock on an 8% basis, contrasting with 5% yearly from 1904 to July 1905 and 7% yearly from October 1905 to April 1907. The dividend is payable July 15 to holders of record June 28.—V. 84, p. 392, 222.

American (Bell) Telephone & Telegraph Co.—*Option to Subscribe to New Stock.*—Shareholders of record June 15 are offered the right to subscribe at par, $100 a share, on or before June 25 for $21,925,200 new stock, to the extent of one share for every six shares of their respective holdings. Subscriptions are payable 50% July 25 and the remainder Oct. 25. The new certificates will be delivered as soon as possible after Oct. 25. Interest at the rate of 5% per annum, being 1¼%, will be allowed for the three months ending Oct. 25 on the first installment of the subscriptions, payable July 25. The proceeds of the issue will be used for extensions and additions.

President Vail, in a circular dated June 6, says:

The great demand for telephone service of the past few years created more of a call on the various companies for new construction than was anticipated, and made great demands on the ability of the companies in every sense. The present demand is for a class of service much higher than the average of the past few years, and is utilizing in a profitable way the already existing facilities of the various sub-companies.

The needs for new construction for the current year will be very much less than those of last year, and no new construction will be entered upon except such as is made necessary by the absolute demands of the business.

The company has ample resources (not including the proceeds of the new stock) to meet all anticipated needs for the current year, without in any way increasing the already existing commitments. The directors, however think it wise to act in anticipation of requirements rather than let requirements force action upon them, and think that ample financial resources should be provided in advance. So far as the general outlook is concerned, it is most favorable, returns from every class of our business showing continual improvement. The first five months of this year show an increase of about $600,000 over the same months last year, as the net of your company; while the surplus over and above all requirements for the same first five months is about sufficient to meet the full dividend for a whole year on the new issue of stock.

Conversion Price.—The issuance of the aforesaid additional stock will reduce the price at which the $100,000,000 convertible bonds may be converted into stock from 140 to 134 2-7. (See basis of calculation in V. 82, p. 570).—V. 84, p. 1250, 1054.

Ash Meadows Water Co., Nevada.—*New Enterprise.*—This company, backed by Scranton, Pa., capital, was incorporated under the laws of Maine in August 1906 with $5,000,000 capital stock to supply a number of mining towns in Nevada, and has begun the installation of a water system which will supply the Greenwater and other mining districts in southern Nevada with water. A Scranton paper recently said:

The company has secured the only practical water supply in the Omargosa desert, in Nevada. The supply consists of three enormous springs from which flow about 12,000,000 gallons of water of sparkling purity each day. This enormous flow disappears again in the desert without leaving the company's property. There is no water-shed to take care of and protect and no riparian rights to look after. The water will be conducted at once to Greenwater, which is one of the richest mining developments in the country, and later to other near-by districts. Water at the present time is selling at Greenwater at from $7 50 to $12 per barrel. The ores from Tonopah, Goldfield and Rhyolite will be brought to a point which will be supplied by the company for treatment. Water which sells here (at Scranton) at 6 cents per 1,000 gallons is selling at the latter places at from $5 to $10 per 1,000 gallons. The officers are: President, C. D. Simpson; Vice-President, L. A. Watres; General Manager, George B. Poore; Secretary and Treasurer, Edwin W. Gearheart (all of Scranton). Others interested are Judge L. O. Ray of Ryolite, Nev., and H. M. Brady of Scranton.

Baltimore Electric Co. of Baltimore City.—*New Stock.*—The shareholders will vote June 28 on increasing the capital stock from $3,400,000 to $3,750,000, divided into 75,000 shares of the par value of $50 each, whereof 50,000 shares ($2,500,000) shall be common stock and 25,000 shares ($1,250,000) shall be 5% cumulative preferred stock.

Mortgage Filed.—The company has filed a mortgage for $7,500,000 to the Northern Trust Co. of Philadelphia as trustee (compare V. 80, p. 1060).

Officers.—The following officers are announced:

President, David E. Evans; First Vice-President, Sydney L. Wright; 2d Vice-Pres. and General Mgr. B. S. Josselyn; Sec., W. T. Spring; Treas., B. F. Bonsal. Among the directors are: David E. Evans, John Waters, Sydney L. Wright, Frank H. Callaway, F. A. Furst, Wm. Redwood Wright, and Frank Battles.—V. 84, p. 1116.

Baltimore Suburban Gas Works.—*Sold.*—This property, including a plant at Baltimore and 7th streets, Highlandtown, Md., with "an annual output of 40,000,000 cubic feet" of gas, has been purchased by H. G. Runkle and associaties of New York. Joseph Schreiber, who sold out, says:

I received a franchise from the County Commissioners of Baltimore County in 1903, with the idea of furnishing gas at the price of 90 cents per 1,000 feet, which I did for a period of about nine months, thus helping to develop the rapidly growing section in Highlandtown and its vicinity. Not being sufficiently patronized, I was forced to reduce the price to 75 cents per 1,000 feet in 1904, and I have struggled ever since to make a living at that price, without success.

Butte Central & Boston Copper Corp.—*Reduction of Capital Stock.*—The shareholders at the meeting in Portland, Me., on May 22 voted to reduce the authorized capital stock from $15,000,000, consisting of $5,000,000 preferred and $10,000,000 common stock, to $6,000,000, of which $2,000,000 will be 7% cumulative participating preferred and $4,000,000 common stock. Compare V. 84, p. 1116.

Butte Coalition Mining Co.—*Report.*—For cal. year 1906:

Dividends received	$880,000	Expenses	$24,121
Interest	144,713	Quar. divs. (1 & 2), 5 1-3%	800,000
Total Income	$1,024,713	Balance, surplus	$200,592

Dividend No. 1, paid Sept. 17 1906, was 2 2-3%; No. 2, paid Dec. 17 1906, 2 2-3%; No. 3, paid March 19 1907, 3 1-3%; No. 4, payable June 26, 3 1-3%.—V. 84, p. 451, 392.

Butte (Mont.) Water Co.—*Acquisition—Balance Sheet.*—This company, it is said, recently purchased a small rival concern, the Moulton Water Co., for $300,000.

BALANCE SHEET OF BUTTE WATER CO. JAN. 31 1907.

Assets ($3,826,909).		*Liabilities* ($3,826,909).	
Real estate	$3,000,000	Capital stock	$1,000,000
Cash and debts receivable	826,909	Accounts payable	36,338
		Funded debt	2,000,000
		Surplus and profit and loss	790,571

The capitalization of the Butte Water Co. was at last accounts: Stock authorized, $1,000,000; par, $25; first mortgage gold 5s, denomination $500 and $1,000, dated July 1 1901, secured by mortgage to Mercantile Trust Co., Boston, trustee—authorized $2,500,000, outstanding $2,000,000.—V. 78, p. 2336.

Canada North-West Land Co. (Limited), Toronto.—*Return of Common Capital Stock.*—This company, whose capital stock is said to be owned "almost entirely by Canadian Pacific Railway interests," retired last year its remaining preferred shares. A pari passu return of 50% of the capital of the common shares, being $12 50 per share, was re-paid on March 15 1907 to the holders of record Jan. 31 1907, and further amounts up to $21 in all, it is said, will be distributed as and when assets are realized from time to time, leaving only $1 per share to pay dividends on. Compare V. 82, p. 394; V. 79, p. 2644.

Chicago Edison Co.—*Deal Off.*—"Chicago Tribune" says:

It is officially announced that the Chicago Subway-Edison deal is off. The plan provided that Chicago Subway interests take over the control of the Edison company at a price in securities of $200 a share. The deal worked so slowly that the Chicago Edison management finally decided to issue $5,000,000 of short-term notes in order to finance its needs. (V. 84, p. 1054, 695.) The Subway proposition involved the latter furnishing the money necessary for maintaining and extending the Edison Company's business. Since the mayoralty election the Edison people have felt they were in a much better position. It is possible the deal may be revived later on.—V. 84, p. 1304.

Chicago Securities Co.—*New Byllesby Auxiliary.*—This company was recently incorporated under the laws of New Jersey with an authorized capital of $1,200,000, of which $300,000 is to be preferred stock with 6% cumulative dividends, as a holding company in the interest of the Chicago engineers, H. M. Byllesby & Co., who are engaged in the work of renovating and operating gas and electric plants. Among the plants managed by them are the Oklahoma Gas & Electric Co. (V. 81, p. 1178, 215), San Diego Gas & Electric Co. (V. 83, p. 822; V. 81, p. 1496), &c.

Cleveland & Buffalo Transit Co.—*Listed in Cleveland.*—The $1,000,000 stock has been listed on the Cleveland Stock Exchange. Cleveland papers say.

The company owns five boats and has excellent dock facilities in Cleveland and Buffalo. The authorized bond issue is (?) $596,000; outstanding $77,000. Dividends have been paid quarterly at the rate of 5% per annum, February, May, August and November. An extra dividend of 1% was paid Jan. 1 1907, making the dividends paid for 1906 6%. M. A. Bradley is President; George W. Gardner, Vice President; T. F. Newman General Mgr and Secretary, and R. C. Moody, Treasurer. V. 79, p. 2644.

Columbus (O.) Gas & Fuel Co.—*New President, Etc.*—Vice-President and Treasurer H. D. Turney has been elected President to succeed the late J. O. Johnston.

Press reports state that the gross earnings for the year were $882,995, an increase of $134,861; net earnings an increase of $52,252; surplus earned for common stock ($2,759,000), $116,220, or 4.2%.—V. 82, p. 631, 572.

Columbus & Hocking Coal & Iron Co.—*Report.*—The results for the year ending March 31 were:

Fiscal Year.	*Total Income.*	*Operating Expenses.*	*Net Earnings.*	*Interest, Taxes, &c.*	*Bal., Sur or Def.*
1906–07	$603,820	$464,151	$139,669	$74,699	sur.364,970
1905–06	527,065	423,237	103,828	73,597	sur.30,231
1904–05	341,997	308,675	33,322	72,822	def.39,500

—V. 84, p. 1184.

Consolidated Coal Co., Saginaw, Mich.—*Mortgage.*—The American Trust & Savings Bank of Chicago has recently been made trustee for an issue of $1,500,000 first mortgage serial gold 6% 20-year bonds, dated 3 p. m. Jan. 1, the Consolidated Coal Co. of Saginaw, Mich. $1,000,000 will be issued at this time to fund outstanding indebtedness and to provide working capital. The bonds now sold will be underwritten by the American Trust & Savings Bank and Farson, Sons & Co. of Chicago; the People's State Savings Bank of Detroit, the Old National Bank of Grand Rapids and the Second National Bank of Saginaw, Mich. This company operates the 14 principal coal mines in Saginaw and Bay counties, Mich., having an output of 1,000,000 tons per year, on which they pay a royalty of 10c. per ton each month to the trustee. The net earnings for the past four years have been about $210,000 per annum.

Consolidated Steamship Lines.—*Exchange of Securities.*—The stockholders of the New York & Cuba Mail Steamship Co. (Ward Line) and of the New York & Porto Rico Steamship Co. may, until 3 p. m. June 15, deposit their stock in exchange for an equal amount of Consolidated Steamship Lines Co. stock, together with its par value in 4% collateral trust bonds of the Consolidated Steamship Lines, from which the semi-annual coupon, payable July 1 1907 will be detached and canceled by the company before delivery. A majority of the stock of the New York & Cuba Mail Steamship Co. (compare V. 84, p. 1185) and nearly all the stock of the Porto Rico line (V. 84, p. 152, 871), it is stated, has been exchanged on the aforesaid terms. The shareholders of the Eastern, Mallory, Clyde and Metropolitan companies, it is understood, received the same terms except that the bonds carried the July coupon of 2%.—V. 84, p. 999, 870.

Crow's Nest Pass Coal Co., Toronto.—*New Stock.*—The shareholders at a meeting on May 22 approved the proposition to issue $500,000 additional stock. The new stock, it is said, has been or will be offered to stockholders of record at $250 a share to the extent of one new share for every seven shares held by them, respectively.—V. 84, p. 1245, 1184.

Denver Union Water Co.—*Foreclosure of Predecessor Valid.*—The Supreme Court of Colorado on June 3 handed down a decision affirming that of the lower court, holding valid the foreclosure proceedings against the Denver City Water Co., one of the predecessor companies. Justice Gabbert wrote the opinion, which is lengthy. Compare V. 77, p. 198.—V. 83, p. 1473.

Diamond Rubber Co., Akron, O.—*Increase of Capital Stock.*—This company on Apr. 20 filed a certificate of increase of capital stock from $4,000,000 to $5,000,000. On Mar. 19 1907 there was outstanding $3,500,000 stock all of one class, par of shares $100. No bonds or mortgage. No information is forthcoming as to the purposes, whether additions or stock dividend, for which the new issue is made.—V. 84, p. 696.

Doe Run Lead Co., Missouri.—*Acquisition.*—See Union Lead Co. below.—V. 82, p. 1159.

Equitable Illuminating Gas Light Co. of Philadelphia.—*Facts as to Lease, &c.*—See United Gas Improvement Co. in V. 84, p. 1304.

Fisheries Company.—*Called Bonds.*—First mortgage 6% bonds Nos. 7, 11, 333, 361, 413, 451, 495, will be paid on July 1st 1907 at the Guaranty Trust Co., 28 Nassau St., New York City, at 105.—V. 82, p. 695.

General Electric Co.—*Business for April Quarter.*—Sales billed to and orders received from customers for the quarter ending April 30 in the years 1903 to 1907 compare as follows:

	1907.	1906.	1905.	1904.	1903.
Orders rec'd.	$18,602,962	$14,639,997	$12,020,715	$9,943,297	$11,460,437
Sales billed.	16,035,060	10,339,164	8,672,691	8,966,966	8,245,822

—V. 84, p. 1251, 1184.

Hanover Canal Co., Worland, Wyo.—*Bonds Offered.*—The Trowbridge & Niver Co., Chicago & Boston, some time since offered at par and interest the unsold portion of a block of $250,000 first mortgage 6% bonds.

Dated Jan. 1 1907. Interest payable Jan. 1 and July 1 at State Bank of Chicago. Denominations $1,000, $500 and $100. Principal due serially on Jan. 1 as follows: 1909, $10,000; 1910, $15,000; 1911, $20,000; 1912-15 $25,000 yearly; 1916, $30,000; 1917, $35,000; 1918, $40,000. Bonds outstanding after 1912 are optional at 103 and interest. This issue is a first mortgage upon all the property of the company, consisting of valuable water rights on the Big Horn River and 40 miles of canal now in operation, the water being taken direct from the river and distributed by gravity; also for every $1,000 bond the trustee holds $1,500 in 8% mortgages upon farm and served by the canal estimated to be worth $3,000. The canal tract consists of 20,000 acres located in Big Horn County, Wyo., about 170 miles south of Billings, Mont. The soil is very fertile and adapted for general farming. About 2,500 acres were under cultivation in 1906.

Harrison (O.) Water & Light Co.—*Foreclosure Sale.*—On May 11 this company's property, appraised at $32,775, was offered at foreclosure sale by receiver Victor T. Chambers under order of Court and was bid in for the bondholders' committee by Charles A. Hinsch, trustee, for $21,800.—V. 82, p. 1382.

Haverhill (Mass.) Gas Light Co.—*Injunction.*—Judge Colt in the United States Circuit Court at Boston on May 20 issued an injunction against Attorney-General Malone and the Gas Commissioners restraining them, pending termination of the litigation, from enforcing an order of the Gas Commissioners made in 1900 reducing the price of gas from $1.00 to 80 cents per 1,000 cubic foot. The proceedings recently brought by the Attorney-General in the State courts to enforce the order are also enjoined.

The gas company claims the order is unconstitutional, the reduction being unreasonable and virtually amounting to a confiscation of its property. It has filed a bond for $25,000 to secure consumers in the event of the Court determining the order to be valid.—V. 70, p. 178.

Hecker-Jones-Jewell Milling Co.—*New Jersey Corporation Reduces Capital Stock.*—The New Jersey corporation of this name has filed a certificate stating:

The amount of the authorized and actual capital stock of the said corporation has been duly decreased from $5,000,000 to $2,000, to consist of 10 shares of cumulative preferred stock and 10 shares of common stock of the par value of $100 each. (The Standard Milling Co. on Aug. 31 1905 owned $4,894,700 stock, including $2,909,500 pref. and $1,985,200 com.—Ed.)

A New York corporation with the same name was organized on March 8 1905 with $1,000,000 authorized stock, to take over the business. See V. 84, p. 696, 751.

Home Telephone Co., San Francisco.—*Bond Issue.*—An issue of $10,000,000 40-year 5% bonds of $1,000 was authorized on May 28. The Union Trust Co. of San Francisco, it is understood, will be mortgage trustee. Compare V. 82, p. 1443.

Independent Telephone Co. of Omaha, Neb.—*Bonds Offered.*—This company, incorporated in Nebraska on April 21 1907 with $5,000,000 of authorized capital stock in shares of $100 each ($1,500,000 being common and $3,500,000 4% preferred, all the common and $1,500,000 preferred having been issued), has made a mortgage to the Title Insurance & Trust Co. of Los Angeles as trustee to secure an issue of $3,330,000 first mortgage sinking fund 5% gold bonds, dated April 15 1907, and due in 30 years, but subject to call on or after April 15 1912 at 105. Denomination $1,000, $500 and $100. Interest payable Oct. 15 and April 15 at First National Bank, New York City, First National Bank, Los Angeles, and at office of company in Omaha.

Louis J. Wilde, Portland, Ore., is offering a block of the $1,500,000 bonds now to be issued. A circular says:

Work will be commenced in Omaha about April 1 1907, where this company has the exclusive right to install the automatic telephone. The initial construction contract will provide for a plant having 6,000 telephones in operation and an ultimate exchange, conduit and pole line capacity of 20,000 telephones

The following estimate is based on the income from 6,000 subscribers only: Receipts, $243,900—2,950 business telephones at $54 per annum, $159,300; 3,050 residence telephones at $24 per annum, $73,200; exchange and toll line receipts, $11,400 Deduct: Interest at 5% on $1,500,000 bonds, $75,000; Dividends at 4% on $1,500,000 preferred stock, $60,000; operation, maintenance, reconstruction, &c., $46,500; sinking fund to retire all bonds (30 years), $25,874; total deductions, $207,374; net profit (carried to surplus), $36,526.

[President, U. S. Grant, Jr.; Secretary, F. F. Graves; Treasurer Geo. E. Bitlinger. Mr. Wilde represents Pacific Coast Bankers' Syndicate of Underwriters, Home Automatic Telephone Co. of Colorado, The Independent Telephone Co. of Omaha, National Securities Co. of Los Angeles, Northwestern Long Distance Telephone Co., Home Telephone Co. of Puget Sound, Portland (Ore.) Home Telephone Co., Home Telephone Co. of Spokane, Home Telephone Co. of San Diego.—Ed.]—V. 83, p. 1474.

International Mercantile Marine Co.—*Right to Call.*—In last week's issue there were given various extracts of interest from the statement made to the New York Stock Exchange in connection with the recent listing of the company's stock trust certificates and outstanding bonds. The 4½% bonds due Oct. 1 1922 ($52,744,000 now listed) were described in the original listing circular as subject to call after Feb. 1 1909. As stated last week, this date applied to the underlying issue, the International Navigation Company's 5s due Feb. 1 1929. The Mercantile Marine 4½s, dated Oct. 1 1902, and due Oct. 1 1922, are subject to call upon any interest day after Oct. 1 1907 at 105.

Report.—See "Annual Reports" on a preceding page.

Extension of Voting Trust.—The voting trust agreement (described in V. 84, p. 1309) expires by limitation on Oct. 1 1907, but will be extended until Oct. 1 1912, provided a sufficient number of the holders signify their desire for such extension to J. P. Morgan & Co., No. 23 Wall St., New York or to J. S. Morgan & Co., No. 22 Old Broad St., London, prior to Sept. 1 1907 A circular says in part:

Holders of large amounts of the voting trust certificates, believing it of great importance to the stockholders that the policy of the present management should be continued until the plans now under way for improving

the company's fleet and permanently establishing its strength are completed, have urgently requested the undersigned to propose an extension of the voting trust for a further period of five years.—V. 84, p. 1309, 999.

International Paper Co.—*New Director.*—General Manager Whitcomb has been elected a director, to succeed Victor Morawetz, who resigned several weeks ago. While there has been some informal discussion among the directors regarding the advisability of resuming dividends on the common stock, the reports of friction in the management are denied. Ogden Mills has been elected to the executive committee, to succeed Albrecht Pagenstecher, who recently resigned as a director.

Called.—$23,000 first mort. 6% bonds, issued in 1896 by the Otis Falls Pulp Co., were payable on June 1 at the Old Colony Trust Co., Boston, at 105 and interest.—V. 84, p. 696.

Kansas City (Mo.) Gas Co.—*Terms of Lease.*—The report of the United Gas Improvement Co., cited in our issue of May 11 (p. 1112), tells of the lease of this company's property to a syndicate in which the Improvement Company is interested, on a sliding dividend scale by which the $5,000,000 stock of the Kansas City (Mo.) Gas Co. will eventually receive dividends of 5% per annum. The lease is dated Nov. 16 1906 and runs as long as the lessee shall furnish natural gas in Kansas City under present ordinance (which runs 30 years from Sept. 27 1906), or any future ordinance obtained by lessee. Under the terms of the lease the Kansas City Gas is to receive each year a sum sufficient to pay the interest and sinking fund on its outstanding bonds, its taxes and all assessments imposed by law, and to pay dividends on the capital stock at the rate of 2% for the first year, 2½% for the second year, 3% for the third year, 4% for the fourth year, 5% for the fifth year and each year thereafter, the dividend payments to be made as follows:

1% on execution of lease, Nov. 16 1906; ½% June 1 and Sept. 1 1907; ⅝% Dec. 1 1907, March 1, June 1 and Sept. 1 1908; ¾% Dec. 1 1908, March 1, June 1 and Sept. 1 1909; 1% Dec. 1 1909, March 1, June 1 and Sept. 1 1910; 1¼% quarterly thereafter.

The lease, it is understood, was made in accordance with a contract dated Nov. 10 1904 providing for the amalgamation of the interests of the Kansas City, Missouri, Gas Co., the People's Natural Gas & Fuel Co. and the United Gas & Fuel Co., the particulars as to which, gathered at a public hearing in Kansas City, were reported at the time by the local papers substantially as follows:

This contract is signed by W. S. Woods, Randal Morgan, W. S. Dickey, Hugh McGowan and Joseph Halpin. Messrs. Woods, Dickey and Halpin represented the People's Natural Gas & Fuel Co. and the United Gas & Fuel Co. as the party of the first part and Morgan and McGowan represented the Kansas City, Missouri, Gas Co. as party of the second part.

The capitalization (including the bonded debt) of the new corporation (not yet organized—Ed.) shall provide for the payment of that part of the bonded debt of the Kansas City, Missouri, Gas Co., under mortgage of 1901, not retired by the sinking fund. The new corporation shall take over the natural gas interests of the associated parties at a value to be fixed by experts. The funds needed to carry out the initial requirements of the ordinance for laying pipe and supplying gas shall be furnished as follows: The party of the first part to supply 30%; the party of the second part to supply 70%. In consideration of this payment the parties are to receive the same per cent of securities, whether in bonds, preferred or common stock, or any or all securities, that may be issued.

The terms on which the lease of the property of the Kansas City, Missouri, Gas. Co. is to be obtained are as follows: The Kansas City, Missouri, Gas Co. shall receive each year a sum sufficient to pay the interest and sinking fund on its outstanding bonds, its taxes and all assessments imposed by law; also dividends on a capital stock of $5,000,000 at the rate of 2% for the first year, 2½% for the second year, 3% for the third year, 4% for the fourth year, 5% for the fifth year and each year thereafter. Until natural gas is supplied the property and business of the Kansas City, Missouri, Gas Co. shall be operated in the name of the Kansas City, Missouri, Gas Co. or the new corporation, as may be determined, for the benefit of the new corporation, subject to the payment by the new company of the obligations under the lease.

The parties of the first part (the People's and the United Gas & Fuel companies) shall have the right to purchase all or part of 13,000 shares of the capital stock of the Kansas City, Missouri, Gas Co. at their cost, which shall be the original cost of said shares to the parties of the second part, who shall receive the same from the Kansas City, Missouri, Gas Co. plus their share of the undivided profits of the Kansas City, Missouri, Gas Co. to Nov. 1 1904 which might have been distributed as dividends to stockholders, expended for betterments or held in the treasury, no dividend having ever in fact been paid to its stockholders (V. 80, p. 2456.) The parties of the first part may purchase any or all of the 13,000 shares aforesaid at $40 a share of $100 each at par value, even though it is ascertained that the cost of the same to the parties of the second part is in excess of that price.

The parties of the second part, McGowan and Morgan, agree that they own more than a majority of the stock of the Kansas City, Missouri, Gas Co., and that they will use and vote the same to carry out this memorandum. Cash to carry out the terms of the franchise may be obtained from the first sale of bonds of the new corporation. Provision is made for an increase of $750,000 bonds to be used in extensions. (Compare V. 83, p. 821.)—V. 84, p. 1117.

Laclede Power Co., St. Louis.—*Sold.*—E. W. Clark & Co. of Philadelphia (who control the East St. Louis & Suburban Co.—see p. 38 of "Street Railway Section") have completed the purchase of all or nearly all of the capital stock of this St. Louis company for a sum commonly reported as $3,000,000. No further facts are available at present. The authorized issue of capital stock is said to be $1,000,000; outstanding $840,000, on which dividends of 5% per annum are stated to have been paid. See V. 83, p. 275.

Magnetic Iron Ore Co., of New York City.—*Stock.*—This company recently filed at Albany a certificate of increase of capital from $1,000,000 to $2,100,000, by means of which the entire outstanding bonded debt will be retired. Robert D. Benson is President, No. 11 Broadway.

Lease.—Benson Mines Co. (N. Y.), organized with $200,000 stock by A. W. Thompson of the Inland Steel Co. (V. 84, p. 105) and associates, has purchased the personal property of the Magnetic Iron Co. and taken a 50-year lease of its ore properties, which include 2,826 acres owned in fee at Cranberry Lake, on the Carthage branch of the New York Central, and the mineral rights on about 260,000 acres in St. Lawrence and adjoining counties.—V. 83, p. 1232.

Michigan City Gas & Electric Company.—*Consolidation and Reorganization.*—The C. H. Geist Company of Chicago and Philadelphia has recently purchased the properties of the Michigan City & Northern Indiana Gas Co. (V. 81, p. 1046) and the Michigan City Light & Power Co. (V. 83, p. 216) and consolidated them under the title of the Michigan City Gas & Electric Co. The capital stock has been increased from $350,000 to $700,000, all common, and $750,000 5% 30-year bonds issued, dated Jan. 1 1907, interest and principal payable at Central Trust Co. of Illinois, Chicago. President, C. H. Geist; Vice-President, C. B. Kelsey; Secretary and Treasurer, C. W. Fox. Main office, 600 Commercial National Bank Building, Chicago.

Michigan City Light & Power Co.—*Consolidation.*—See Michigan City Gas & Electric Co. above.—V. 83, p. 216.

Michigan City & Northern Indiana Gas Co.—*Merger.*—See Michigan City Light & Power Co. above.—V. 81, p. 1046.

Montreal Light, Heat & Power Co.—*Company Declines City Council's Offer of a Twenty-Year Contract.*—The company has declined, as too burdensome, the City Council's offer of a contract for supplying the city with gas and electricity for 20 years from May 1910, when the present contract expires. Compare V. 84, p. 394.

Report.—The results for the year ending April 30 were:

Year.	Gross.	Net.	Interest.	Dividends.	Bal., sur.
1906–07	$3,453,490	$1,924,220	$483,638	(5%) $850,000	$590,582
1905–06	3,186,103	1,754,905	476,419	(4%) 680,000	598,486
1904–05	2,901,265	1,599,142	470,353	(4%) 680,000	448,789

—V. 84, p. 394.

New York Air Brake Co.—*No Consolidation Plan Entertained by Management.*—The "New York Times" quotes President Starbuck as saying:

No options have been given on any large block of New York Air Brake stock and no such options could be given without my consent or knowledge. People have come in with plans for a merger that they wanted to work out and I may have told them that I would entertain a proposition, but nothing ever came of these suggestions. A good while ago John W. Gates, presumably with the idea of bringing about an amalgamation with the Westinghouse Air Brake Co., obtained options on a majority of our stock at 220, but that was done with my approval and with my help. That option was not exercised and none has been given since.

It has been suggested that the recent decline in the price of the stock, which has fallen from 141½ Jan. 7 to 106 June 8, has been due in part to the failure to exercise the options which were taken on blocks of the stock.—V. 81, p. 671.

New York & Cuba Mail Steamship Co.—*Exchange of Stock.*—See Consolidated Steamship Lines above.—V. 84, p. 1185, 576.

New York & Porto Rico Steamship Co.—*Exchange of Stock.*—See Consolidated Steamship Lines above.—V. 84, p. 452, 871.

New York State Steel Co.—*In Partial Operation.*—The "Iron Trade Review" of Cleveland in its issue of April 25 had a statement from Buffalo under date of April 23 saying:

The New York State Steel Co. is now operating one of its two large Talbot open-hearth furnaces with fine success and in three weeks it is expected the other furnace will be ready to pour its first heat. Foundations for the blast furnace are building and this is scheduled to be blown in Jan. 1 1908. Monday evening the 100th ingot was rolled. At present the output of the plant will be confined to billets, blooms and slabs, for which it has a capacity of 800 tons a day by working two shifts. There are a number of large buildings yet to be built. One of these will probably be a rail mill. Plans have been prepared for extensive dock facilities along the frontage on Buffalo River so that ore carriers may have access to the proprty. When completed the plant will be a $7,000,000 proposition.

Meadows, Williams & Co., Dana & Robinson and George R. Teller, all of Buffalo, in December last (V. 83, p. 1595) offered a block of the company's first mortgage 5% gold bonds at 93½ and interest. These bonds are dated Oct. 1 1906 and are due Oct. 1 1936, but subject to redemption on any interest day after Oct. 1 1911 at 107½ and interest. Denomination $1,000; interest payable in New York or Buffalo April and October. Commonwealth Trust Co. of Buffalo, N. Y., trustee. The circular then issued says:

The capital stock authorized is $2,500,000; issued, $1,500,000. First mortgage bonds authorized, $3,000,000. Under the tax law of 1906 this company has paid a recording tax, which makes these bonds tax exempt for their life. The remaining $2,000,000 bonds cannot be issued unless the additional $1,000,000 of stock has been paid for in cash at par. The mortgage covers 57 acres of land situated on the Abbott Road, with a frontage on Buffalo River of 2,775 feet, having direct rail connections with the Delaware Lackawanna & Western RR., Buffalo Rochester & Pittsburgh Ry. and the South Buffalo Ry. The Buffalo Creek RR. has also secured a right of way to the plant. That part of the plant which is rapidly approaching completion consists of two 200-ton Talbot open hearth furnaces and a 36 inch blooming mill. There is also an installation of 4,000 h.p. boilers and a well equipped power plant.

The company was incorporated Sept. 13 1905. Work on a blast furnace was commenced in Nov. 1906 which will have a daily capacity of 450 tons of pig iron. The transportation facilities are unexcelled. Steel can be shipped to New York via canal for $1 to $1 20 per ton, while the same from Pittsburgh cost $2 60 per ton. When the new barge canal is completed, the rate will be about $0 60, making a saving of $2 00 per ton in favor of Buffalo. The company's stock represents cash, dollar for dollar, and its land cost it $2,000 per acre; neighboring property is held at $5,000 per acre.

This company has under lease three iron ore properties on the Mesaba Range, all of very high grade; one of these has not as yet been fully explored, only five drill holes having been sunk, covering about one third of the 10-acre tract under lease, but already at least 2,250,000 tons of ore have been shown up. The company has also made long time contracts for a large tonnage of Old Range and Mesaba ore, made at a flat price before the recent advance in ore values. The ore reserve available at present insures the company a continuous supply.

Directors: Spencer Kellogg (President), Howard Kellogg (Secretary), Seymour H. Knox, John D. Larkin, Whitney G. Case, Arthur G. Yates, Spencer Kellogg Jr. and Stuart R. Mann. [The Kelloggs are also the controlling interests in the Spencer Kellogg Co., an extensive crusher of linseed, described in our issue of April 20, p. 936.—Ed.]—V. 83, p. 1595.

North Platte Canal & Colonization Co.—*Offering of Joint Bonds.*—The Bellam-Price Investment Co., Denver, Colo., are offering for sale $120,000 joint and several first mortgage sinking fund serial gold coupon 6% irrigation bonds of the North Platte Canal & Colonization Co. and the Wyoming & Nebraska Land & Cattle Co. Total issue $300,000. Dated Nov. 1 1906 and due in annual installments on Jan. 1, $30,000 yearly from 1910 to 1917 and $60,000 on Jan. 1 1918. Interest (January and July) payable at Continental

Trust Co., trustee, Denver, or at Bankers' Trust Co., New York. Denomination $1,000. A circular says:

The property of the joint companies is located in the valley of the North Platte River, in Laramie County, Wyoming, and consists of valuable water appropriations, canals, etc., and rich agricultural lands. The average elevation of this land is about 3,800 feet and it produces, through irrigation, everything, to a superabundant degree, that can be raised in the temperate zone. None of it is over five miles from a Chicago Burlington & Quincy railway station. At the time that the United States Reclamation Service selected for development under the National Irrigation Act about 300,000 acres of land in the North Platte Valley, the joint companies had already secured from the State Land Board of Wyoming, under the Carey Act, over 20,000 acres, and had constructed the "Whalen Falls Canal" for a distance of over 30 miles. The United States Government entered into a contract with the joint companies whereby if they would permit the Reclamation Service to construct the Government canal over their right of way, it (the Government) would enlarge the Whalen Falls Canal, continue the construction of the same for a distance of 150 miles, agreeing to maintain the same, and to carry along with its own water that which had been granted by the State of Wyoming to the joint companies, at the same time these companies to retain actual ownership and title to the canal for a distance of 46 miles.

The Government has carried out its contract for enlarging the canal to 74 feet wide on top, 34 feet on the bottom, and 13 feet deep, and has been delivering water to the companies' land since July 1 1906. The first 46 miles of the canal (owned by the joint companies) has cost about $750,000, and the diverting dam at the headgate about $125,000, all paid for by the United States Government. The Government is erecting above the head of the Whalen Falls Canal one of the largest dams in the world, known as the "Pathfinder" project, costing about $1,000,000, which will impound water from the North Platte and Sweetwater Rivers amounting to a million acre feet, or sufficient water to irrigate nearly twice as much irrigable land as there is in the entire North Platte Valley.

These bonds are equally secured by an absolute first mortgage upon all the property, real and personal, and franchises, respectively, of the two companies, and by a deposit with the trustee of water contracts of the North Platte Canal & Colonization Co., which constitutes a first and prior lien upon all land irrigated thereunder. The water for the irrigation of the land must be purchased by the settlers from the joint companies at a price fixed by the State of Wyoming, which is in this case $30 per acre, payable in 10 yearly installments with interest at 6%. The joint companies have already sold over $300,000 worth of water contracts, the payments on which, together with all other income from the joint properties, must be deposited with the trustee to provide for the payment of interest and retirement of the principal of the bonds as they mature.

Ohio Fuel Supply Co., Columbus., O., and Pittsburgh, Pa.—*Not to Authorize New Stock—Contracts.*—We are informed that there is not a word of truth in the report that the shareholders would vote to-day on increasing the capital stock from $8,000,000 (of which $7,000,000, it is understood, has been issued) to $10,000,000. The construction of the new pipe line to Cincinnati, it is understood, will also be deferred until next year or later, the supply of natural gas being sufficient for the present.

The 15-year contract entered into this month with the Union Gas & Electric Co., controlled by the Columbia Gas & Electric Co., provides that the Ohio Fuel Supply Co. shall supply up to but not exceeding 20,000,000 cubic feet of natural gas per day (in the coldest weather) for distribution by the Columbia Co. among its customers in Cincinnati. The Ohio Fuel Supply Co. abandons its plan to furnish gas in Cincinnati and Southwestern Ohio, leaving open, it is understood, the territory from Dayton on the north, and a point about 100 miles east of the city, which region will be developed by the local company. The gas is be to sold in Cincinnati at thirty cents per 1,000 cubic feet. Of the gross proceeds, 65%, it is understood, will go to the Ohio Fuel Supply Co. and the remainder will belong to the local company.

In December last a contract was reported as having been made to supply natural gas to the Springfield (O.) Gas Co., a company with $420,000 capital stock and $400,000 outstanding 6% bonds, supplying artificial gas through some 4,000 metres at $1 net per 1,000 cubic feet, and natural gas to some 4,300 customers at 25c.—V. 84, p. 1185.

Omaha Water Co.—*Unfavorable Decision.*—Judge Munger in the United States Circuit Court on June 4 handed down a decision denying the application of the company to compel the city to purchase the plant at the appraised valuation of $6,263,295. Compare V. 83, p. 216. An appeal will be taken. The Court says:

The board appointed an auditor to examine and audit the books. I think it would have been perfectly competent and proper for the board to have employed an auditor to examine the books and papers which were properly before the board as evidence, but I am clearly of the opinion that the taking and receiving of evidence consisting of these books on the part of the board of appraisers, without permitting the same to be examined by the defendant city was such an irregularity as vitiates the award.

The Court does not pass upon any of the other questions raised, stating that "the case will doubtless be appealed." The city urged that the fact that the appraisement was signed by only two of the three appraisers invalidated it, but this point was apparently not ruled on.—V. 83, p. 216.

Paxtang Consolidated Water Co., Harrisburg, Pa.—*Bonds.*—This company, heretofore unbonded, has made a first mortgage to the Commonwealth Trust Co. of Harrisburg, as trustee, to secure an issue of $300,000 5% gold bonds, of which $60,000 are outstanding.

Bonds dated Dec. 1 1906, due Dec. 1 1926, but subject to call after Dec. 1 1911 at par. Denominations $100 and $500. The unissued bonds ($240,000) are reserved for improvements and additions. Capital stock authorized, $300,000. Company incorporated June 19 1895. President, D. Gring; Secretary, E. D. Bistline; Treasurer, C. K. Miller.

Public Utilities Legislation.—*New York Bill Now a Law.*—Gov. Hughes at Albany on June 6 signed the Public Utilities Bill, which was passed without modification over the veto of Mayor McClellan. The Act will be found in full in the "Railroad Gazette" of this city for May 31. Compare article in our editorial columns. V. 84, p. 1211.

Sheridan (Wyo.) Coal Co.—*Called Bonds.*—Twenty-four ($24,000) mortgage bonds of 1903 have been called and will be paid at par and interest at the Union Trust Co., Chicago, trustee, on June 30 1907. Compare V. 80, p. 2463.—V. 83, p. 42.

Sioux Falls Light & Power Company of Sioux Falls, S. D.—*Consolidation—Bond Issue.*—This company has recently been organized to consolidate the water powers of the Big Sioux River and the electric-lighting business in Sioux Falls, S. D. The capital authorized is $750,000; first mortgage 6% serial bonds, $750,000. $400,000 bonds will be sold at this time to supply funds to pay for part purchase price and new construction. The bonds will be dated June 1 1907 and the mortgage is made to the American Trust & Savings Bank of Chicago as trustee. E. W. Coughran, Sioux Falls, S. D., is President; W. G. Haley, Vice-President; F. H. Reed, Secretary; Geo. B. Caldwell of Chicago, Treasurer. The new company has already contracted for lighting the city.

South Baltimore Steel Car & Foundry Co.—*Dividend—Earnings, Etc.*—Referring to the recent annual meeting and the offering of new stock to shareholders of record May 30, we have been favored with the following:

The dividend of 3% on the common stock payable June 28 to holders of record April 30 is not dividend No. 1; it is simply a resumption, dividends on the common shares for several periods prior to that having been passed. The dividend on preferred stock is cumulative 6%. Par value of single shares $100. There is no funded debt. The gross receipts for the year ending April 30 1907 were about $9,000,000; net profits over $500,000. See V. 84, p. 1311.

Springfield (O.) Gas Co.—*Natural Gas Contract.*—See Ohio Fuel Supply Co. above.

Standard Milling Co., New York.—*Reduction of Stock by Subsidiary.*—See Hecker-Jones-Jewell Milling Co. above.—V. 84, p. 752, 697.

Standard Motor Construction Co.—*New Plant—Mortgage.*—This company (a New Jersey corporation with a total capital stock of $1,800,000, divided into shares of the par value of $100 each, and a factory at 172 Whiton St., Jersey City) has acquired a tract of land consisting of over ten acres on the water front at Tottenville, Staten Island, and has filed a first mortgage covering all its property to secure an issue of $400,000 6% 20-year bonds, with a sinking fund provision. These bonds are being underwritten at $475 for each $500 bond, with $250 stock as bonus, by W. A. Williamson, 53 William St., New York, and others, the subscriptions being payable at the Colonial Trust Co., N. Y., the mortgage trustee. A circular says:

The proceeds of the bonds are to be used: (1) For a new factory, 400 feet by 110 feet, of modern one-story style, completely equipped. (2) A wharf to utilize the advantage of freight steamers daily direct from Pier 19, East River, New York. (3) Storehouses, forge shop, paint shop, railroad switches and power plant. (4) Developing the enlarged business offered. The company has on its books $600,000 of orders and has been obliged to turn down within the last six months over $500,000 of additional business. *Produce*—Marine gas engines, reversible, double and single acting; railroad motors; lighting plants; pumping plants. During the past two years the company has furnished engines for the U. S. Navy and life saving service, engines for the Austrian Navy, 20 engines for Russian torpedo boats, &c. The Riotte patent on the "Standard" reversible engine gives this company the lead in large marine engines and its new double-acting reversible tpye enables it to build gas engines larger than any other afloat.

The factory being built at Tottenville it is expected will be completed in 90 days. The capacity for output will be $2,000,000 per annum, with a net profit of at least $600,000. The orders already entered will show a profit over the cost of manufacturing of $200,000. The really successful railway motors, those used on the Union Pacific cars, were "Standard" motors. The company built the engines of the Gregory, the first motor boat to cross the ocean; it built the Standard, which holds the world's record for speed; it built the 500-horse-power double-acting motors of the schooner Northland of Maine, which carries 3,000 tons dead weight.

Directors.—Lewis Nixon, President; Carl C. Riotte, Vice-President; Eugene A. Riotte, Secretary; Louis Spinks, Treasurer; W. H. Jackson, Attorney; W. W. Nixon, Washington, D. C.; Edward S. Cramp, Philadelphia, Pa.; Frank B. Robinson and W. A. Williamson, New York. New York office, 26 Cortlandt St.

Stillwater (Minn.) Gas & Electric Light Co.—*Default—Receiver Appointed.*—At St. Paul, Minn., on May 29, Judge Lochren of the United States Court appointed Ernest L. Hospes receiver of the property on application of the American Trust & Savings Bank of Chicago and Frank H. Jones, trustees under the consolidated mortgage, the interest due Jan. 1 1907 on at least a part of the bonds being in default. Compare V. 81, p. 1379.

Susquehanna Iron & Steel Co.—*Sold.*—At the receiver's sale in Columbia, Pa., on May 31, the company's properties were bid in by Michael Blake of New York for $41,100, subject to a mortgage of $300,000. Mr. Blake also purchased personal property for $150,000.

Mr. Blake is a member of the firm of John Leonard & Co. of New York, dealers in iron and steel, who were large creditors of the defunct company. It is thought by some that the firm will permit the present stock and bondholders to participate in the new company, but in the absence of the principals this could not be confirmed in New York this week.—V. 84, p. 1057.

Thompson-Starrett Co., New York City.—*New President.*—Director Albert B. Boardman has been elected President to succeed Theodore Starrett, who resigned to attend to private business but will act as Chairman of the Board.—V. 83, p. 1475.

Toledo (O.) Coal & Clay Co.—*Reduction of Capital Stock.*—This company on May 21 filed a certificate of decrease of capital stock from $500,000 to $140,000. Compare V. 79, p. 632; V. 80, p. 1183.

Union Lead Co., Missouri.—*Sale—Reduction of Capital Stock.*—This company, having sold most of its property, including mines located near Flat River and Doe Run, Mo., to the Doe Run Lead Co. (V. 82, p. 1159), has filed a certificate of decrease of capital stock from $700,000 to $18,414. The remaining assets stated as $20,000; liabilities $250. Compare V. 84, p. 453.

Union Light, Heat & Power Co. of Covington and Cincinnati.—*Reduction of Capital Stock.*—This company, controlled by the Cincinnati Newport & Covington Light & Traction Co., filed at Frankfort, Ky. on May 29 amended articles of incorporation reducing its capital stock from $1,500,000 to $500,000, and also an amendment providing that the indebtedness shall never exceed four times the amount of its capital stock.—V. 73, p. 394.

United Copper Co.—*Report.*—See "Annual Reports" on a preceding page.

New Director.—Chester Glass has been elected to succeed G. Reusens as a director.—V. 84, p. 1057, 1001.

United Shoe Machinery Corporation.—*Legislation.*—Governor Guild of Massachusetts on June 1 signed a bill, which hereby became a law to go into effect July 1 next, entitled

"An Act to regulate the lease and sale of machinery, tools, implements and appliances." While no names are mentioned in the Act, it is admitted that it is intended to affect the Machinery Corporation, which opposed its enactment.

The law provides that no person or corporation shall insert in nor make it a condition or provision, of any sale or lease of any tool, implement, appliance, or machinery that the purchaser or lessee thereof shall not buy, lease or use machinery, tools, implements or appliances or material or merchandise of any person, firm, corporation or association other than such vendor or lessee. The vendor or lessee of any tool, implement, appliance or machinery protected by patent right may, however, require the vendee or lessee to purchase or lease from such vendor or lessor such component and constituent parts of said tool, implement, appliance or machine as the vendee or lessee may thereafter require during the continuance of such patent right. All transactions *hereafter* made in violation of the law are declared void, the fine for each offence being not exceeding $5,000.

The Supreme Court of Massachusetts, by a divided vote on May 31 rendered an opinion to the State Senate at its request holding that the (then) proposed law would not be unconstitutional in affecting rights vested in a patentee under the Federal statutes.

A committee of the House of Commons, England, on June 1 reported favorably a bill patterned after the Massachusetts law. The company, through its British branch, supplies English boot and shoe makers with a large part of the machinery in their factories. A cable dispatch to the New York "Sun" dated June 1 states that "manufacturers assert that the arbitrary, onerous terms that this company imposes upon all lessees of its machinery puts its customers under far greater tribute than the mere patent rights justify. These demands, they declare, include forbidding the use of other machinery, insisting on leases for longer terms than the patents run, and compelling the lessees to buy certain materials used in manufacture from the lessors."—V. 83, p. 1040.

United States Rubber Co.—*Application to List.*—The New York Stock Exchange has been requested to list $800,000 additional first preferred stock, making the total first preferred on the list $36,263,000. Compare V. 84, p. 1244, 1252.

United Gas Improvement Co., Philadelphia.—*Kansas City Gas Co. Lease, &c.*—See that company above.—V. 84, p. 1311, 1253.

Unlted States Cast Iron Pipe & Foundry Co.—*Listed.*—The New York Stock Exchange has listed $12,106,300 non-cumulative 7% preferred stock and $12,106,300 common stock.

Earnings.—For the eleven months ended April 30 last as follows:

Receipts from manufac'g.	$1,716,132	Interest on bonds	$82,500
Other receipts	130,993	Reserves, Impts., working capital, &c	344,458
Total receipts	$1 847,125	Dividends	1,375,000
Balance, surplus			$45,167
Previous surplus			506,208
Total surplus			$551,375

—V. 82, p. 1494.

United States Independent Telephone Co., Rochester, Pa.—*New Proposition to Sell.*—The committee of twenty-five, of which James G. Cutler is chairman and J. Foster Warner Secretary, makes the following announcement:

At a meeting of your committee of twenty-five, held May 25 1907, it was resolved that the securityholders be requested to authorize Hiram W. Sibley, James S. Watson, George Eastman and Walter B. Duffy of Rochester and Herman Stiefel of St. Louis to give an option for a period of 30 days for the purchase of said securities, at a price of not less than 40% of the face value of the bonds, 5% of the face value for the common stock and 1% of the face value for the deferred common stock, and to extend said option for a further period of 60 days, if a satisfactory payment is made therefore and if such sale cannot be consummated, then to use said securities in carrying out such plan for the reorganization of said company as may be adopted by the committee of twenty-five and approved by the above-named committee.

We are advised that an opportunity to sell on terms somewhat better than here indicated can be secured if the committee is authorized to act for a sufficiently large proportion of the securityholders. We, therefore, ask that the securityholders immediately surrender their present receipts at the Security Trust Co. (Rochester) and take in place thereof new receipts, and sign the letter of authority.

The option is sought by a syndicate of independent telephone men, including St. Louis, Detroit and other capitalists, and the net aggregate price is said to be $6,000,000, or $1,000,000 more than the offer of the Bell interests, which was withdrawn because of the disapproval of the court. The "Rochester Herald" understands that the exact amount to be given for each $1,000 bonds under the present offer is $422. Compare V. 84, p. 936, 630.

United States Steel Corporation.—*Called Bonds.*—On July 1 there will be paid at the Fidelity Title & Trust Co. in Pittsburgh $100,000 bonds of the H. C. Frick Coke Co., drawn for redemption at 105 and interest.—V. 84, p. 1050, 936.

United Water & Light Co.—*Incorporated.*—This company was incorporated under the laws of Delaware on April 30 with $500,000 authorized capital stock. Incorporators: Alfred Tait, Wm. L. Missimer, Harry W. Davis.

United Wireless Telegraph Co.—*Transfer of Property.*—The "Jersey City Journal" of April 22 said:

There was recorded in the Register's office at the Court House on Saturday a bill of sale whereby the American De Forest Wireless Telegraph Co. transfers to the United Wireless Telegraph Co., a corporation of the State of Maine, all its machinery, fixtures and instruments now in the building on the southeast corner of Hudson and Essex streets, Jersey City. The consideration mentioned was $1. The bill of sale was signed by Abraham White as President of the De Forest Company. Compare V. 84, p. 512, 107.

Waters-Pierce Oil Co.—*Ousted from Texas.*—A jury before Judge Victor L. Brooks at Austin, Tex., on June 1 found the company guilty of violating the State anti-trust laws by entering into an arrangement with the Standard Oil Co. of New Jersey to regulate the price of oil in Texas and prevent or lessen competition therein. It further found that the permit to do business in Texas should be canceled.

The company was incorporated in Missouri, and on May 31 1900 received a permit to do business in Texas after a previous judgment of ouster. Penalties amounting to $1,623,000 were assessed by the jury, viz.: $1,500 daily between May 31 1900 and March 31 1903 (when the present anti-trust law became effective), or 1 033 days, aggregating $1 549,500, and $50 for each of the days between April 1 1903 and April 29 1907, or $74,400 in all. Application will be made for a receiver to collect the fine, but the appeal to be taken to the Court of Appeals for the Third District and thence to the State Supreme Court will, it is stated, act as a stay in the endeavor to enforce collection. Newspaper accounts state that a stipulation was entered into in the litigation admitting that the Standard Oil Co of New Jersey owned 60% of the stock, notwithstanding which the defendant denied the State's charge of violating the law. Compare V. 83, p. 1294.

Westinghouse Electric & Manufacturing Co.—*Volume of Business.*—The company has furnished the following statement of orders, shipments and collections for the six years ending Mar. 1 1907, not including the subsidiary companies:

	Orders.	*Shipments.*	*Collections.*
1901-2	$17,927,340	$17,804,182	$16,947,774
1902-3	19,522,144	21,490,709	20,445,443
1903-4	18,509,054	21,122,647	21,872,220
1904-5	16,570,617	18,069,863	20,546,479
1905-6	24,938,631	21,059,249	21,649,185
1906-7	34,170,648	29,189,844	30,549,894

The deductions from the above-given shipments by reason of bad debts for the six years were about one tenth of 1%. It has been the policy of the company not to involve itself directly or indirectly during these years in any underwritings or in the taking of securities as part payment for apparatus supplied, except only when such securities could be promptly disposed of and the proceeds turned into cash collections.

Subscriptions to Stock.—The stockholders, it is announced, have subscribed for $1,650,000 of the $5,000,000 new stock, recently offered, the time to subscribe for which expired June 3. The proceeds of the stock sold, together with other income, will, it is stated, be sufficient to meet present needs.

Earnings.—A preliminary statement of income, including auxiliary companies, for April 1907 has been given out, viz.:

Manufacturing profit	$570,990	Deduct Int. on bonds and	
Miscellaneous Income	112,920	debs., misc. Int., dep., &c.	$256,989
Total Income	$683,910	Net credit to surplus	$426,921

The figures for April show a manufacturing profit slightly above 20% on the shipments, or nearly 7% better than the average for the year ending March 31 1907.

Preliminary figures for May 1907 show the shipments to have been $3,880,000, the largest in the history of the company. The new orders received for the month of May exceed $4,225,000, nearly $500,000 more than the shipments for April.—V. 84 p. 1253, 1001.

Wyoming & Nebraska Land & Cattle Co.—*Joint Bonds.*—See North Platte Canal & Colonization Co. above.

—In a special circular issued on the 7th inst., John H. Davis & Co. of this city argue in favor of the purchase of some of the older issues of bonds at present prices, and point out the advantages which such issues possess over newer securities. They state that on account of the pressure of the new obligations upon the market, the old and tried standard issues have declined to even lower figures than those which prevailed early in the year. Some of these old established bonds with good mortgage security, ranging from the "gilt-edged" class to what are graded as "good" bonds, and with longer periods to run, can now be obtained they say at prices to net from 4⅛ to 6%.

—The partnership lately existing between F. W. Mason and G. W. Field under the name of F. W. Mason & Co. expired on May 25. Frank W. Mason will continue the business at the present location, 53 State St., Boston, Mass., under the old firm name, and will have associated with him as co-partner Arthur A. Potter, who has been with the firm the past four years. The firm deal in unlisted inactive stocks and bonds.

—The Stock Exchange firm of Dann & Robinson, with offices at 111 Broadway and in the Ellicott Building, Buffalo, has been dissolved. The New York offices have been taken over by the new firm of Arthur Robinson & Co., while Jesse C. Dann has formed a new co-partnership under the title of J. C. Dann & Co., and will conduct the Buffalo business as heretofore, making a specialty of high-grade investment bonds.

—The Scranton Trust Co. and Brooks & Co. of Scranton are offering at par and interest $200,000 of the present issue of $1,000,000 first mortgage 5% gold bonds of the Kanawha & West Virginia RR. Co., unconditionally guaranteed, as to principal and interest by the Blue Creek Coal & Land Co., as stated in our issue of Feb. 9 1907, p. 339.

—The banking house of Richter & Co. of Hartford, Conn., members of the New York Stock Exchange, has admitted to partnership in its firm Henry L. Wilkinson, former Connecticut representative of Harvey Fisk & Sons. Mr. Wilkinson will give entire attention to the firm's bond department.

—A record of the capitalization and earning power for a series of years of the active Canadian securities has been issued in tabular form by Baillie, Ward & Croft, 42 King St., West, Toronto. The highest and lowest prices for 1903, 1904, 1905, 1906 and to May 15 1907 are also appended.

—W. J. B. Mills and Berkley R. Merwin announce the formation of a partnership on June 1, under the style of W. J. B. Mills & Co., for the transaction of a general banking and Stock Exchange business, located at 36 Wall Street.

—The co-partnership heretofore existing between Robt. M. Janney and Nathaniel E. Janney, trading as Robert M. Janney & Co., of Philadelphia, expired by limitation on the 1st inst. Each partner will sign in liquidation.

—The business cards of a large number of representative cotton commission and brokerage houses of New York and other cities will be found on subsequent pages of this issue of the "Chronicle."

—Peabody, Houghteling & Co., 181 La Salle St., Chicago, will send on request their June circular containing descriptions of twelve serial bond issues to net the investor from 5% to 6%.

—Cards of Woodward, Baldwin & Co., mill selling agents, and of H. J. Farber, Drewry & Co., Catlin & Co. and James Talcott, dry goods commission merchants, will be found in this issue.

The Commercial Times.

COMMERCIAL EPITOME.

Friday Night, June 7th, 1907.

Though the weather continues rather unseasonable, trade is still good, prices steady and the feeling mostly cheerful. Grain and cotton speculation has decreased somewhat.

Stocks of Merchandise.	*June 1 1907.*	*May 1 1907.*	*June 1 1906.*
Lard ..... tierces	7,250	6,540	7,131
Cocoa ..... bags	12,170	14,875	10,714
Coffee, Brazil ..... bags	3,071,014	3,519,000	3,204,587
Coffee, Java ..... mats	275,000	252,811	125,500
Coffee, other ..... bags	284,059	236,500	410,345
Sugar ..... hogsheads	25,000	4,859	3,000
Sugar ..... bags, &c.	200,000	198,059	769,765
Hides ..... No.	3,244	3,500	2,000
Cotton ..... bales	178,710	167,156	166,359
Rosin ..... barrels	12,000	10,500	17,682
Spirits turpentine ..... barrels	3,500	1,246	622
Tar ..... barrels	2,200	2,160	750
Saltpetre ..... bags	750	825	805
Manila hemp ..... bales	32,423	40,220	41,635
Sisal hemp ..... bales	6,700	5,635	5,875
Flour ..... barrels and sacks	34,100	41,200	124,500

LARD on the spot has been easy with trade stagnant. City 9c. and Western 9@9¼c. Refined lard has been steady. Trade has been dull and confined to small jobbing transactions. No export business has been reported of late. Refined Continent 9.55c., South America 10.50c. and Brazil in kegs 11.50c. The speculation in lard futures at the West has been active. Prices have declined, owing to the dulness of the spot trade and long liquidation. There has been undoing of spreads through purchases of ribs and sales of lard, causing weakness in lard at times. The reactionary tendency of the grain markets has also been depressing.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	*Mon.*	*Tues.*	*Wed.*	*Thurs.*	*Fri.*
July delivery	9.17½	9.10	9.12½	9.05	9.02½	9.02½
September delivery	9.35	9.27½	9.27½	9.22½	9.20	9.17½
October delivery	9.32½	9.25	9.25	9.20	9.20	9.17½

PORK on the spot has been in light request at unchanged quotations. Mess $17 50@$18 50, clear $17 25@$18 25, and family $19@$19 50. Tallow has been dull and steady at 6⅜@6½c. for city. Stearines have been dull and easier with larger offerings. Oleo 9@9½c. and lard 10@10¼c. Cut meats have been dull but firm on light offerings. Pickled hams 12½c., pickled shoulders 10c. and pickled bellies 10¾@11½c. Butter has been active and easy with increasing stocks; Creamery extras 24¼@25c. Cheese has been quiet and easier with receipts liberal; State, small or large, colored or white, best 12¼c. Eggs have been easier on large receipts; Western firsts 16c.

OIL.—Cottonseed has been irregular with trade quiet. Prime summer yellow 61@62c.; winter 65@66c. Linseed has advanced on the strength of seed and an increased demand. City, raw, American seed, 45@46c.; boiled 46@47c.; raw, Calcutta seed, 70c. Lard has been easy with small jobbing sales. Prime 77@80c. and No. 1 extra 51@52c. Cocoanut has been quiet and easier; Cochin 10¼@10½c., and Ceylon 9⅛@9¼c. Peanut has been quiet and steady; yellow 50@60c. Olive has been quiet and steady; yellow 85@90c. Cod has been fairly active and steady; domestic 38@40c. and Newfoundland 40@42c.

COFFEE on the spot has been steady with a small jobbing trade. Rio No. 7, 6½c. West India growths have been fairly active and steady; fair to good Cucuta 8⅛@9¼c. Speculation in future contracts has continued on a very small scale. Fluctuations in prices have been trifling. Receipts liberal and the visible supply in the world showed a large increase during the past month. Some tired holders have sold out. Leading local operators, however, have absorbed the offerings. The closing prices were as follows:

June	5.55c.	October	5.35c.	February	5.40c.
July	5.40c.	November	5.35c.	March	5.45c.
August	5.35c.	December	5.40c.	April	5.45c.
September	5.30c.	January	5.40c.	May	5.50c.

SUGAR.—Raw has declined slightly, with trade dull and offerings larger. Centrifugal 96-degrees test 3.84c.; muscovado 89-degrees test 3.34c. Refined has been withdrawn freely on old contracts but new business has been dull. Granulated 4.90c. Teas and spices have been moderately active and generally steady. Hops dull and steady.

PETROLEUM.—Refined has been active and strong. Export quotations have been advanced; domestic unchanged. Refined barrels 8.45c., bulk 5c. and cases 10.90c. Naphtha has been in good demand and firm; 73@76 degrees 18c. in 100-gallon drums. Gasoline active and firm; 86 deg. 21c. in 100-gallon drums. Spirits of turpentine weak at 61c. Rosin easier at $4 50@$4 65 for common to good strained.

TOBACCO.—There has been an absence of noteworthy developments. Trade in domestic leaf has continued quiet. Crop reports have been conflicting. The weather has continued unfavorable in some sections and planting, it is stated, has not been completed. Crop reports from Havana have been favorable. Sumatra in good demandand firm.

COPPER has been quieter and easier; lake 24½@24¾c. and electrolytic 23¼@23⅜c. Lead has been dull and easier at 5.85c. Spelter has been firmer at 6.52½@6.55c. Tin has been quieter at 41.40c. for Straits. Iron has been firm; No. 1 Northern $24 20@$25 20; No. 2 Southern $24@$25.

COTTON.

Friday Night, June 7 1907.

THE MOVEMENT OF THE CROP as indicated by our telegrams from the South to-night is given below. For the week ending this evening the total receipts have reached 30,299 bales, against 47,513 bales last week and 51,882 bales the previous week, making the total receipts since the 1st of September 1906, 9,520,813 bales, against 7,483,260 bales for the same period of 1905-06, showing an increase since Sept. 1 1906 of 2,037,553 bales.

Speculation in cotton for future delivery has at times been very active and early in the week prices advanced sharply in anticipation of a very bullish Bureau report. But they declined quickly when the report was announced on Tuesday, as it was not quite so bad as many had expected. It gave the condition on May 25 at 70.5%, against 84.6 last year, 77.2 the year before and 74.1 four years ago, the previous low record for June. That the announcement of this report was the signal for a marked reaction was due both to the fact that many had looked for a lower condition and also to better weather at the South. Previous reports from private sources had put the condition in some cases as low as 63 to 66 and the guesses on the Government report on the Cotton Exchange had ranged from 60 to 78 in the case of 100 members, with the average 68.94%. As the Government condition was above this, heavy liquidation set in and the market has not since shown quite the same elasticity and strength which were recently such striking characteristics. Nevertheless trading on the short side has been cautious for the reason that although the Government report was not so bad as had been expected, it still showed a condition for June the lowest for some 35 years. The report issued by this newspaper early in the week was also regarded as the in main very unfavorable. Other published reports of a similar tenor and voluminous private correspondence by mail and wire confirmatory of the Government and Chronicle reports have latterly had a tendency to check any downward drift of prices, which otherwise might have become more marked as a result of the distinctly better weather conditions in not a few sections of the belt during the past week. In the main they have been warmer and clearer. The crop complaints are due to a previous and rather prolonged period of adverse conditions. Much replanting has had to be done, stands are reported poor, some of the fields are grassy and from Texas there are beginning to be some complaints of boll-weevil. The recent advance, however, had been very marked, amounting to something over $10 a bale, and it was felt that with the Government report out of the way, much of the bullish news had been sufficiently discounted for the time being. A big long interest had been built up, partly consisting of "pyramids", as usual when the outside public engages in the speculation. When prices started on the decline on Tuesday it was greatly accelerated by the liquidation of weak long accounts. But there is a widespread conviction in the trade both at home and abroad that exceptionally good weather conditions are now necessary if an adequate crop is to be raised with which to meet the demands of what looks like an unparalleled consumption. It is therefore felt that the future of prices hinges very largely on the weather conditions during June. To-day July suddenly advanced 45 points owing to heavy buying by local, New Orleans and Liverpool shorts, some buying by spot interests and manipulation attributed to the leading "bull" on July. Bad crop accounts were a feature. One report put the condition at 69 and the increase in acreage at only 1.2%. Spot cotton has been quiet and firm. Middling closed at 13.25c., showing an advance for the week of 35 points.

The rates on and off middling, as established Nov. 21 1906 by the Revision Committee, at which grades other than middling may be delivered on contract are as follows:

Fair ----------c. 2.00 on	Strict low mid..c. 0.14 off	Middl ng tinged..c. 0.12 off

Continental imports past week have been 67,000 bales.

The above figures for 1907 show a decrease from last week of 124,130 bales, a gain of 451,439 bales over 1906, an excess of 282,429 bales over 1905 and a gain of 1,685,390 bales over 1904.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week and since Sept. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period for the previous year—is set out in detail below.

Towns.	Movement to June 7 1907.				Movement to June 8 1906.

WEATHER REPORTS BY TELEGRAPH.—Telegraphic reports received by us this evening from the South indicate that the weather has been more favorable as a rule during the week. The temperature has been somewhat higher in the main and although rain has fallen in most localities the precipitation has quite generally been light or very moderate. Under the better weather field work has made fair progress and some of our correspondents report an improvement in the crop.

Galveston, Texas.—Crops are very foul over much of the State and are needing continued sunshine and dry weather. Replanting is not yet finished. Rain has fallen on one day of the week, the precipitation being two hundredths of an inch. The thermometer has ranged from 64 to 83, averaging 74.

Abilene, Texas.—Rainfall for the week one hundredth of an inch on one day. Average thermometer 75, highest 98, lowest 52.

Brenham, Texas.—There has been rain on one day of the week, the rainfall being sixteen hundredths of an inch. The thermometer has averaged 74, the highest being 88 and the lowest 59.

Corpus Christi, Texas.—We have had rain on one day the past week, the rainfall being fifty-six hundredths of an inch. Thermometer has averaged 76, ranging from 64 to 88.

Cuero, Texas.—There has been rain one day during the week, the precipitation being eight hundredths of an inch. Thermometer has ranged from 59 to 94, averaging 77.

Dallas, Texas.—It has rained on two days during the week, to the extent of one inch and twenty-two hundredths. Average thermometer 75, highest 96, lowest 53.

Henrietta, Texas.—We have had rain on one day of the week, the rainfall being forty hundredths of an inch. The thermometer has averaged 71, the highest being 89 and the lowest 53.

Huntsville, Texas.—Rain has fallen on one day of the week to an inappreciable extent. The thermometer has averaged 73, ranging from 56 to 90.

Kerrville, Texas.—There has been rain on two days during the week, the precipitation being thirty-two hundredths of an inch. Thermometer has ranged from 64 to 98, averaging 81.

Lampasas, Texas.—Rain has fallen on one day of the week. The rainfall reached nine hundredths of an inch. Average thermometer 73, highest 95 and lowest 51.

Longview, Texas.—Rain has fallen on two days of the week, the precipitation being thirty-eight hundredths of an inch. The thermometer has averaged 73, the highest being 92 and the lowest 54.

Luling, Texas.—We have had rain on two days the past week, the rainfall being thirty-three hundredths of an inch. The thermometer has averaged 74, ranging from 57 to 90.

Nacogdoches, Texas.—Rain has fallen on two days during the week, the precipitation being twenty-nine hundredths of an inch. The thermometer has ranged from 53 to 87, averaging 70.

Palestine, Texas.—Rain has fallen on one day of the week, the rainfall being fourteen hundredths of an inch. Average thermometer 71, highest 86, lowest 56.

Paris, Texas.—There has been rain on three days of the week, the rainfall being one inch and seventy hundredths. The thermometer has averaged 71, the highest being 90 and the lowest 51.

San Antonio, Texas.—It has rained on two days of the week. The precipitation reached fifty-nine hundredths of an inch. The thermometer has averaged 75, ranging from 56 to 94.

Weatherford, Texas.—Rain has fallen on one day of the week, the precipitation being four hundredths of an inch. The thermometer has ranged from 54 to 95, averaging 75.

New Orleans, Louisiana.—There has been rain on one day of the week the rainfall being one inch and eighty hundredths. The thermometer has averaged 76.

Shreveport, Louisiana.—Rain has fallen on three days of the week, the rainfall being thirty-eight hundredths of an inch. The thermometer has averaged 73, ranging from 55 to 90.

Leland, Mississippi.—There has been rain during the week, the precipitation being forty-five hundredths of an inch. Thermometer has ranged from 52 to 88, averaging 66.1.

Vicksburg, Mississippi.—Rainfall for the week eleven hundredths of an inch, on one day. Average thermometer 72, highest 88, lowest 56.

Helena, Arkansas.—Farming is doing better. Weather warmer this morning. There has been rain on one day during the week, the precipitation being thirty-three hundredths of an inch. Thermometer has ranged from 57 to 87, averaging 70.

Little Rock, Arkansas.—The weather has been more seasonable for farm work the past week. Temperature higher and cotton is improving. Rain has fallen on one day of the week, the rainfall being forty-nine hundredths of an inch. Average thermometer 70, highest 85, lowest 55.

Memphis, Tennessee.—Weather conditions have greatly improved and farm work is active. There has been rain on three days during the week, the precipitation being eighty-one hundredths of an inch. The thermometer has averaged 69.7, the highest being 82.9 and the lowest 53.7.

Nashville, Tennessee.—We need warm, dry weather badly. We had rain the past week, the rainfall being eighty-three hundredths of an inch. The thermometer has averaged 68, ranging from 52 to 83.

Mobile, Alabama.—Favorable weather in the interior and crop reports are improving. Planting is about completed and the first bloom this season was reported on May 28 in Clarke County, Ala. Rain has fallen on two days during the week, the precipitation being one inch and forty-two hundredths. The thermometer has ranged from 61 to 87, averaging 73.

Montgomery, Alabama.—Weather greatly improved. Sunshine has helped farmers finely and prospects are brighter. Rain has fallen on one day of the week. The rainfall reached seven hundredths of an inch. Average thermometer 72, highest 86 and lowest 58.

Selma, Alabama.—There has been rain on two days of the week, the rainfall being fifty hundredths of an inch. The thermometer has averaged 69, the highest being 80 and the lowest 57.5.

Madison, Florida.—There has been rain on one day of the past week, the rainfall reaching one inch and fifty hundredths. The thermometer has averaged 76, ranging from 60 to 89.

Augusta, Georgia.—Rain has fallen on four days of the week, the precipitation being sixty-two hundredths of an inch. The thermometer has ranged from 57 to 90, averaging 73.

Savannah, Georgia.—Rain has fallen on four days of the week, the rainfall being ninety-seven hundredths of an inch. Average thermometer 75, highest 90, lowest 62.

Charleston, South Carolina.—We have had rain on three days the past week, the rainfall being forty-two hundredths of an inch. The thermometer has averaged 77, ranging from 61 to 88.

Charlotte, North Carolina.—It has rained during the week. The precipitation reached two inches and eighty-one hundredths. The thermometer has averaged 67, ranging from 55 to 83.

The following statement we have also received by telegraph, showing the height of rivers at the points named at 8 a. m. of the dates given:

		June 7 1907.	*June 8 1906.*
		Feet.	*Feet.*

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO JUNE 1.—Below we present a synopsis of the crop movement for the month of May and the nine months ended May 31 for three years.

	1906-07.	1905-06.	1904-05.
Gross overland for May ---bales	58,450	72,900	106,311
Gross overland for 9 months	1,605,927	1,126,281	1,390,118
Net overland for May	43,758	53,838	79,090
Net overland for 9 months	1,291,549	920,448	1,135,795
Port receipts in May	256,618	343,042	645,452
Port receipts in 9 months	9,490,514	7,414,714	9,054,257
Exports in May	305,985	320,049	658,090
Exports in 9 months	8,051,073	5,941,598	7,642,972
Port stocks on May 31	493,033	511,942	559,645
Northern spinners' takings to June 1	2,499,453	2,200,268	2,071,439
Southern consumption to June 1	1,850,000	1,791,000	1,653,000
Overland to Canada for 9 months (included in net overland)	115,316	112,270	99,012
Burnt North and South in 9 months	500	10,213	22,370
Stock at Northern interior mark'ts June 1	8,279	9,544	9,183
Came in sight during May	400,638	490,880	750,542
Amount of crop in sight June 1	12,807,325	10,267,162	12,091,052
Came in sight balance of season	-------	1,052,698	1,465,789
Total crop	-------	11,319,860	13,556 841
Average *gross* weight of bales	514.67	510.32	513.23
Average *net* weight of bales	492.17	486.82	491.00

AGRICULTURAL DEPARTMENT REPORT ON ACREAGE, &c.—The Agricultural Department at Washington issued on June 4 its report on cotton condition and acreage. The following is what it says on the subject of acreage:

The Crop Reporting Board of Statistics of the Department of Agriculture, after careful consideration of replies to supplementary inquiries, reported from special investigations of the correspondents and agents of the Bureau of Statistics and the report of the Bureau of the Census on cotton production in 1906, finds that the estimate made on June 4 1906 by this Bureau of the acreage planted to cotton in 1906 was too low, and in order to bring the figures as near as possible to the actual facts, the Board, after considering all the evidence on the subject, has made certain adjustments and revision in the report of June 4 1906, which show that the area planted in 1906 was about 32,049,000 acres. From reports of the correspondents and agents of this Bureau, the Crop Reporting Board finds the total area planted and to be planted to cotton in the United States this year to be about the same as the area planted last year; that is, 32,060,000 acres planted or to be planted this year, as compared with 32,049,000 acres which were planted last year.

The average condition of the growing crop on May 25 was 70.5, as compared with 84.6 and 77.2% at the corresponding date in 1906 and 1905 respectively, and a 10-year average of 83.6%.

The following table shows by States and for the United States the revised figures of the area planted in 1906 in acres; the area planted and to be planted in 1907 as compared with that planted in 1906 in per cent; the area planted and to be planted in 1907 in acres and the condition of the crop to May 25 in per cent:

	Revised figures show'g area planted in 1906.	*Area planted and to be planted in 1907, as compared with that planted in 1906.*	*Area plant. and to be planted in 1907.*	*Condit'n May 25, a normal condit. being represented by 100%.*

BREADSTUFFS.

Friday, June 7 1907.

Prices for wheat flour have declined, owing mainly to improved crop reports and the reaction in wheat prices. Then, too, the buying, though somewhat larger than recently at times, has been in the main on a very restricted scale and of a hand-to-mouth character, despite the smallness of supplies held by dealers. Export trade has remained at a standstill. At the large milling centres of the Northwest and the Southwest there have been liberal withdrawals on old orders, but new business has continued dull. Rye flour has been firmer with a somewhat better demand. Corn meal has been quiet and steady.

Wheat declined for a time, principally owing to better weather, not only at the Southwest but also at the West and Northwest. Moreover, the weather has also improved in Russia. This has led to declines in Europe, especially in the Continental markets, notably at Buda-Pesth and Berlin. The Ohio June report, moreover, which had been expected to be rather bad, gave the condition at 77%, or 3% better than that for May. This, although it was 20% lower than that of last year, was a disappointment to bulls and caused selling. Some of the reports in regard to the spring-wheat crop at the American Northwest are much more favorable

than they were recently. Russian offerings of wheat have increased in Liverpool. In this country there has been heavy liquidation by large speculators, especially at Chicago. Latterly there has been new buying for a rise, partly on a theory that the reaction had gone far enough and also because some of the Kansas reports have been distinctly unfavorable. It has been rumored, too, that France will reduce the duty of about 30 cents per bushel on wheat until July 1, owing to the high prices ruling, which, theoretically at least, would increase the chances of export business here with that country. Yet prices up to Thursday night showed some net decline for the week, owing to a better weather and crop outlook in both America and Europe and some consequent falling off in the speculation. The export business here has been small. One Western authority states that the present crop outlook points to a yield of winter and spring wheat amounting to 600,000,000 bushels. This must be compared with 735,260,970 bushels last year, 692,979,489 the year before and 552,399,517 three years ago. It looks as though there would be quite a material shortage therefore, in spite of some improvement in the present outlook. If these indications of a decreased yield are confirmed by later developments, the opinion is that prices must seek a higher level. To-day prices advanced sharply at one time, owing for the most part to rumors that the Kansas State Board will give the condition for June at only 52.3%, which, it is held, would indicate a crop of not over 50,000,000 bushels for that State, against 78,516,000 last year. Reports were favorable from most parts of the West and Northwest. They were again bad, however, from Roumania. The price of bread is said to have been advanced in Paris. The Continental wheat markets were again weak to-day, however, and Liverpool prices suffered because of increased off-coast offerings. Later on it was denied that Kansas had issued a report and prices declined on heavy liquidation.

Dec. delivery in elevator	100¾	100¾	99⅝	99½	100⅝	99¾

Indian corn futures have moved irregularly, influenced largely by the fluctuations in wheat. The weather has been more favorable of late. The arrivals at Chicago, moreover, have shown a noteworthy increase. The stock of contract grade there has increased. But selling has been held in check by unfavorable crop reports from some sections. Considerable replanting has had to be done, and not a few reports go to show that the crop as a whole is making slow progress. Some large commission houses have been buying of late. The cash market, though quiet, has been firm. A sharp decrease in the crop movement is expected by some in the near future. To-day prices were irregular, closing lower on the break in oats and liquidation.

September delivery in elevator	53¾	53¾	54¼	54	53⅞	53⅝
December delivery in elevator	50¾	51⅛	51½	51¼	51¼	51½

Oats for future delivery in the Western market have been easier in the main, owing to improved weather and crop reports. At times rallies have occurred, due partly to unfavorable crop reports from some sections and partly to buying by commission houses and shorts. But there has been more disposition to sell than to buy. The crop situation is considered better and the cash trade has been dull. To-day prices declined sharply. The liquidation at Chicago by prominent interests was heavy. Pit traders hammered.

NEW YORK PRODUCE EXCHANGE.—*Annual Election.*—The annual election of the New York Produce Exchange, held Monday, June 3, resulted as follows: President, William H. Douglas; Vice-President, William H. Smith; Treasurer, Edward C. Rice; Managers (2 years), Lyndon Arnold, James Barber, Charles W. Bowring, Charles F. Coffin, Al. R. Brandly, T. Sloan Young; Inspectors of Election, Frederic Bernsee, Geo. B. Ferris, James Knox, Robert B. Miller, G. H. Martin, A. J. Sergeant.

GOVERNMENT WEEKLY WEATHER REPORT.—Mr. James Berry, Chief of the Climate and Crop Division of the United States Weather Bureau, made public on Tuesday the telegraphic reports on the weather in the various States for the week ending June 3, summarizing them as follows:

The Florida Peninsula, the Pacific Coast States and the western portions of the middle and northern Plateau districts experienced a week of favorable temperatures, the means being generally considerably above the normal; elsewhere the abnormally cold weather that has been so pronounced a feature over most of the country during the past two months has continued throughout the past week, although the deficiency in temperature has been less marked in Minnesota and North Dakota, where the week was the most favorable of the season thus far. The abnormally cold weather was decidedly unfavorable throughout the central valleys and the Atlantic Coast and Gulf districts. Light to heavy frosts were general in the Lake region, Ohio Valley, New England and the Middle Atlantic States, light frosts occurring as far south as western North Carolina northern Alabama and Arkansas. Portions of the lower Ohio Valley, southern Louisiana and a large part of Texas suffered from very heavy rains, which caused destructive freshets. Light snow and sleet occurred in the lower Lake region on the 27th. Unusual cloudiness prevailed in nearly all districts east of the Rocky Mountains; there was, however, somewhat less cloudiness than in the previous week in the northern districts west of the upper Lake region.

The statement of the movement of breadstuffs to market as indicated below are prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending last Saturday and since Aug. 1 for each of the last three years, have been:

THE DRY GOODS TRADE.

New York, Friday Night, June 7 1907.

The publication of the "Chronicle's" acreage report and the acreage and condition reports of the Government Department and the "Journal of Commerce," the various views based thereon, and the wide fluctuations in the speculative division of the cotton market have been but little reflected in the market for cotton goods. In the latter the situation is practically unchanged from a week ago. At the close of last week buyers of brown and gray goods were bidding more freely for forward contracts, while manufacturers were showing greater conservatism in committing themselves. This week it has again been the manufacturer, or his agent, who has determined the volume of business to be accomplished. Yet the demand has not been actually extensive; it is the condition of the primary market, bare of ready supplies and most mills well sold ahead, which makes it look so. In most descriptions the tendency of prices is still upwards, but in some of the lighter finished fabrics hesitation may be noticed. For this the weather up to date and its effect upon retail trade are directly responsible. It is noticeable that the jobbing trade in such lines has of late been quite indifferent, and in some quarters complaints are heard of retailers canceling orders on which deliveries have not yet been made. Warm weather in the immediate future might do much to correct this tendency, and developments are awaited with interest. There has been considerable development of business in the new lines of woolen and worsted goods shown for men's wear for next spring, without, however, changing price indications, as noted last week.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending June 1 were 1,017 packages, valued at $69,647, their destination being to the points specified in the table below:

	1907		1906	
New York to June 1—	*Week.*	*Since Jan. 1.*	*Week.*	*Since Jan. 1.*
Great Britain	8	965	119	653
Other European	2	534	16	685
China	----	10,043	----	57,331
India	1	4,540	----	3,758
Arabia	----	18,753	----	17,512
Africa	----	3,597	6	4,333
West Indies	54	9,821	424	9,812
Mexico	80	1,085	47	923
Central America	145	6,627	322	6,992
South America	370	19,598	538	23,614
Other countries	357	14,303	442	7,200
Total	1,017	89,866	1,914	132,815

The value of these New York exports since Jan. 1 has been $5,717,369 in 1907, against $7,524,039 in 1906.

The quotation for regular 64 square print cloths is nominally 4 13-16c. to 4⅞c., but it is said that buyers would pay 5c. for immediate delivery. There are, however, so few of these now being made that the quotations figure little as a market indication. It is more to the point to note that 28-inch 64 by 60 print cloths are being bid for at 4¾c. with no sellers thereat, and that 38½-inch 64 squares are difficult to buy at 7c. for prompt and near delivery, the whole tone of the gray goods market being exceedingly strong. Business in brown sheetings and drills is still almost entirely on home account, exporters being evidently unable to pay prevailing prices. Sales have been moderate in volume from first hands, but the tendency of prices is still upwards. Advances in a number of tickets of bleached cottons are noted, bringing them into line with others already quoted; and even on the higher lever sellers are indisposed to accept orders with any degree of freedom, and part of the business noted during the week has been done "at value" only. Coarse, colored cottons and napped fabrics are, with hardly an exception, in a strong position, any unsold supplies coming upon the market being readily absorbed. Printed calicoes and the heavier printed fabrics are in steady request and decidedly firm, but thin sheer goods are beginning to reflect the poor distribution from the hands of retailers up to date. In like manner, some of the finest descriptions of woven patterned goods are quieter, but the regular run of ginghams show a good movement, mainly on orders previously placed. The linings market in all grades continues against buyers.

WOOLEN GOODS.—The week has been marked by a considerable expansion in the demand coming forward for men's wear woolens and worsteds in light-weights for next spring. The volume of business done is reflected in the fact that several lines of staple, standard makes have been withdrawn from sale, for the time being at least. Earlier indications hardly justified expectations of buyers operating so freely this week, and the development has afforded material encouragement in quarters which so far have not participated fully in the demand coming forward. The price situation, as previously indicated, has not been materially affected by this week's operations, and it has still to be determined what shape the market will take when the higher grades of men's wear goods are finally placed upon it. There has been a fair amount of interest shown in manipulated fabrics for spring, but it is noticeable that the majority of orders come from cloth jobbers and not from manufacturing clothiers. Up to the present time the spring business has been devoted very largely to clay worsteds, serges and unfinished worsteds. Re-orders on heavy weights for quick delivery have been quite moderate in extent, and in these all-wool fabrics have been most prominent. Business in overcoatings shows a slight improvement, but has again been of different dimensions in the aggregate. For woolen and worsted dress goods the orders coming forward show buyers taking more interest in the situation, although it is still evident that the volume of trade is affected by weather conditions; reports coming to hand indicate that retailers are still carrying larger stocks than desirable of spring and summer dress goods, and this naturally affects their operations for forward business.

FOREIGN DRY GOODS.—About an average amount of business has been reported in foreign woolen and worsted dress goods without marked development in any direction. Piece silks and ribbons have ruled generally quiet. The linen market shows undiminished strength in face of a moderate current business. Burlaps are steady and incoming supplies are easily taken care of.

Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending June 1 1907 and since Jan. 1 19e7, and for the corresponding periods of last year, are as follows:

MUNICIPAL BOND SALES IN MAY.

The aggregate of municipal bonds placed during the month of May was $15,724,381, which is about equal to the average for that month in recent years. These figures do not include $304,200 Canadian loans and $8,485,111 temporary loans. New York City made no public offering during the month.

The more important of the large disposals were $1,000,000 by Chattanooga, Tenn., $1,000,000 by the City of Chicago, $1,600,000 by Cleveland, Ohio; $916,000 by Pittsburgh, Pa.; $552,500 by Buffalo, N. Y.; $548,000 by New York City (sinking fund takings), and $500,000 by Chicago, Ill.—Lincoln Park District.

The number of municipalities emitting bonds and the number of separate issues made during May 1907 were 207 and 287 respectively. This contrasts with 218 and 353 for April 1907 and with 216 and 312 for May 1906.

For comparative purposes we add the following table showing the aggregates for May and the five months for a series of years:

	Month of May.	For the Five Months.		Month of May.	For the Five Months.
1907	$15,724,381	$94,190,782	1899	$7,897,642	$33,996,634
1906	14,895,937	80,651,623	1898	7,036,926	34,373,622
1905	16,569,066	92,706,300	1897	8,258,927	56,890,312
1904	55,110,016	113,443,246	1896	10,712,538	30,384,656
1903	14,846,227	62,649,815	1895	11,587,766	41,084,172
1902	20,956,404	59,211,223	1894	14,349,410	50,067,615
1901	14,562,340	47,754,962	1893	4,093,969	30,774,180
1900	9,623,264	58,273,539	1892	7,856,860	36,844,291

In the following table we give a list of May loans to the amount of $15,724,381 issued by 207 municipalities. In the case of each loan reference is made to the page in the "Chronicle" where an account of the sale is given.

All the above sales (except as indicated) are for April.

These additional April issues will make the total sales (not including temporary loans) for that month $19,951,203.

News Items.

Florida.—*Legislature Adjourns.*—The Legislature of this State adjourned May 31.

New York City.—*Greater New York Charter Amended Regarding Interest Rate on Future Bond Issues.*—The Governor on June 7 signed the amendment to the city charter removing the 4% limit on the interest payable on New York City bonds, and conferring on the Sinking Fund Commissioners the power to fix the rate of interest payable upon all corporate stock and bonds issued hereafter by the city.

Chapter Four of Rapid Transit Railway's Law Amended.—The Governor also signed on June 7 the amendment to Chapter 4 of the Laws of 1891 in relation to the powers of the Board of Commissioners of the Sinking Fund to prescribe the rate of interest on bonds issued for the construction of rapid transit railways, subways, tunnels, &c.

The substance of the text of these bills will be found in V. 84, p. 1260, of the "Chronicle."

New York State.—*Law Providing for the Improvement of Public Highways Amended.*—The Assembly on May 13 passed an amendment to Chapter 469 of the Laws of 1906 fixing the interest rate on issues of State highway improvement bonds at 3, 3½ or 4% instead of at a rate not to exceed 3½%. The bill also makes changes in the apportionment of the cost of the construction of highways as between the State and counties and towns and also in the rate of taxation imposed to provide for interest and sinking funds. The bill, at last accounts, was in the hands of the Senate Committee.

Omaha, Neb.—*City Not Compelled to Purchase Water Plant.*—By a decision of the United States Circuit Court, handed down on June 4, the application of the Omaha Water Co. to compel the city to purchase the plant of that company was denied. As stated in V. 83, p. 225, the value of the plant fixed by the Board of Appraisers on July 7 1906 was $6,263,-295. See item under the head of Omaha Water Co. in our "Investment News" Department elsewhere.

Virginia-West Virginia.—*Demurrer Overruled in Debt Settlement Suit.*—On May 27 Chief Justice Fuller in the United States Supreme Court handed down the opinion and decision of the Court overruling the demurrer interposed by the State of West Virginia to the suit in equity instituted by the State of Virginia against West Virginia to compel the latter State to assume a portion of the indebtedness contracted by Virginia before the creation of West Virginia. As stated in V. 84, p. 644, argument on the demurrer was completed on March 12. The State of West Virginia must file answer to the bill by the first Monday of the October term. See editorial remarks in our article on "The Financial Situation" to-day.

Bond Proposals and Negotiations this week have been as follows:

Allegheny, Allegheny County, Pa.—*Price Paid for Bonds.*—We are informed that the price paid for the $250,000 4% 30-year coupon street-improvement funding bonds awarded to Lawrence Barnum & Co. of Pittsburgh on May 30 was 100.07 and not 100.007 as stated in last week's issue. As already stated in V. 84, p. 1261, these securities are part of an issue of $400,000 bonds,of which $150,000 will be taken by the Sinking Fund at par.

Alpine County (P. O. Markleeville), Cal.—*Bond Offering.*—Proposals will be received up to June 20 for an issue of $8,000 5% bonds.

Ames Township (P. O. Amesville), Athens County, Ohio.—*Bond Sale.*—On June 1 the $1,000 4% coupon road-improvement bonds described in V. 84, p. 1318, were awarded to the First National Bank of Amesville at par. This was the only bid received.

Amherst Union School District (P. O. North Amherst), Lorain County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. June 17 by J. B. Avery, Clerk of the Board of Education, for $30,000 4% coupon school-house bonds. Authority, Sections 3991, 3992 and 3993 of the Revised Statutes of Ohio and election held May 11 1907. Denomination $500. Date June 17 1907. Interest March and September at the North Amherst Bank Co. of North Amherst. Bonds are exempt from taxation. Bids must be made on blank forms furnished by the Board of Education and accompanied by a certified check for $1,000, drawn on a bank in Amherst and made payable to the Treasurer of the Board of Education. Purchaser to pay accrued interest. Bonded debt at present $10,000. Assessed valuation 1907 $657,000.

Arthur, Wellington County, Ont.—*Debentures Not Sold.*—No award was made on May 25 of the three issues of 4% and 4½% debentures, aggregating $13,700, described in V. 84, p. 1194.

Ashland, Ashland County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. July 1 by A. P. Black Village Clerk, for the following bonds:

$26,000 5% Union Street improvement bonds. Denomination $650. Maturity $1,300 each six months from March 1 1908 to Sept. 1 1927 inclusive.

8,400 5% West Washington Street improvement bonds. Denomination $600. Maturity $600 each six months from March 1 1908 to Sept. 1 1914 inclusive.

Authority, Section 2835, Revised Statutes. Date July 1 1907. Interest semi-annual. Certified check for 5% of bonds bid for, payable to the Village Treasurer, is required.

Athens, McMinn County, Tenn.—*Bonds Voted.*—An election held May 25 resulted in favor of a proposition to issue $15,000 school-building bonds.

Bakersfield, Kern County, Cal.—*Bond Sale.*—On June 3 the $120,000 4½% 1-40-year (serial) gold main and outfall-sewer-system-construction bonds described in V. 84, p. 1261, were awarded to the Bank of Bakersfield at 103.75—a basis of about 4.226%.

Binghamton, Broome County, N. Y.—*Bond Sale.*—On June 3 the $55,000 4% registered Robinson Street school-

house bonds described in V. 84, p. 1261, were awarded, it is stated, to the Binghamton Savings Bank of Binghamton at 100.025.

Boston, Mass.—*Bond Sales.*—The following bonds were sold at par during the month of May to trust funds:

$14,000 4% Boston Tunnel and Subway bonds. Maturity April 1 1947.
14,400 4% school-building and land bonds. Maturity April 1 1937.

The above bonds are dated May 1 1907.

Bucyrus School District (P. O. Bucyrus), Crawford County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. July 18 by J. S. McCarrell, Clerk of the Board of Education, for the $17,500 4% school-building bonds voted on May 15 (V. 84, p. 1318). Authority, Sections 3991 and 3992 of the Revised Statues. Denomination $1,250. Date Sept. 1 1907. Interest semi-annually at the office of the Treasurer of the Board of Education in Bucyrus. Maturity $2,500 yearly on March 1 from 1915 to 1921 inclusive. Certified check for $100, payable to the Treasurer of the Board of Education, is required. Delivery of bonds Sept. 1 1907.

Buffalo, Erie County, N. Y.—*Bond Offering.*—Proposals will be received until 12 m. June 12 by George M. Zimmerman, City Comptroller, for the $200,000 4% registered city and county-hall refunding bonds mentioned in V. 84, p. 1195. Authority, Section 7 of the General Municipal Law, Chapter 685 of the Laws of 1892; as amended by Chapter 466 of the Laws of 1893, as amended by Chapter 54 of the Laws of 1897 and Chapter 333 of the Laws of 1901. Date July 1 1907. Interest semi-annually at the office of the City Comptroller or at the Gallatin National Bank in New York City. Maturity $10,000 yearly on July 1 from 1908 to 1927 inclusive. Bonds are exempt from taxation. An unconditional certified check for 2% of bonds bid for, payable to the City Comptroller, is required.

Bond Issues.—The issuance of $89,044 56 4% 20-year judgment-funding bonds has been authorized. Securities will be dated July 1 1907 and will be taken at par as follows: $37,044 56 by the Hertel Avenue Outlet Sewer Sinking Fund and $52,000 by the Erie Railroad Grade Crossing Bond Sinking Fund.

Pursuant to Section 105 of the City Charter, the Mayor and Comptroller are authorized to issue $11,247 82 4% Department of Public Works bonds to be dated June 1 1907 and mature July 1 1908. Under the ordinance providing for these bonds, they are to be taken at par by the following sinking funds: $7,000 by the Perry Street Grade Crossing Sinking Fund, $2,647 82 by the Park Bond Redemption Sinking Fund and $1,600 by the Erie RR. Grade Crossing Bond Sinking Fund.

Burbank School District, Santa Clara County, Cal.—*Bond Offering.*—Proposals will be received until 11 a. m. June 17 by F. E. Mitchell, Chairman Board of Supervisors (P. O. Santa Clara County), for $7,000 5% gold coupon school bonds. Denomination $1,000. Date June 1 1907. Interest semi-annually at the County Treasurer's office. Maturity $1,000 yearly on June 1 from 1911 to 1917 inclusive. Certified check for 10% of bonds bid for, payable to Henry A. Pfister, ex-officio Clerk of Board of Supervisors, is required.

Camrose, Alta.—*Debenture Offering.*—Proposals will be received until July 1 for $10,000 6% fire-protection debentures. Maturity part yearly for twenty years.

Canaan Township (P. O. Canaanville), Athens County, Ohio.—*Bond Sale.*—On June 1 the $1,000 5% coupon road-improvement bonds described in V. 81, p. 1319, were awarded to Mrs. F. C. Webster at 101.25.

Canton Independent School District (P. O. Canton), Van Zandt County, Tex.—*Bonds Registered.*—An issue of $5,000 5% school-house bonds was registered by the State Comptroller on May 31. Maturity May 1 1947, subject to call after ten years.

Carterville, Jasper County, Mo.—*Bond Offering.*—Proposals will be received until 12 m. June 20 by H. E. Moody, City Clerk, for $19,000 4% public-sewer bonds. Denomination $1,000. Maturity 20 years, subject to call after 10 years. Certified check for $500 is required.

Casey Township School District (P. O. Casey), Clark County, Ill.—*Bonds Voted.*—An election held May 25 resulted in favor of a proposition to issue high-school-building bonds.

Cedarville School District (P. O. Cedarville), Greene County, Ohio.—*Bond Election.*—An election will be held to-day (June 8) to vote on the question of issuing $30,000 school-building bonds. An election was held May 17 to vote on this proposition, but we are informed that the result was a tie vote.

Celina, Mercer County, Ohio.—*Bond Offering.*—Proposals will be received until 12 m. June 15 by J. M. Winter, Village Clerk, for $3,000 4½% water-works-extension bonds. Denomination $1,000. Date March 1 1907. Interest semi-annual. Maturity $1,000 yearly on March 1 from 1908 to 1910 inclusive. Certified check for $300, payable to the Village Treasurer, is required. Successful bidder to furnish blank bonds at his expense.

Chelan County School District No. 49, Wash.—*Bond Sale.*—We have just been advised that this district on March 2 awarded an issue of $18,000 5½% 5-15-year (optional) funding and school-building bonds to the Seattle Trust & Title Co. of Seattle at a price above par. Denomination $1,000. Date April 15 1907. Interest annual.

Chelan County School District No. 46, Wash.—*Bond Sale.*—On May 27 the $10,000 15-20-year (optional) gold coupon building bonds described in V. 84, p. 1195, were awarded to Morris Bros. of Portland at 100.47 and accrued interest for 4¾s. Following are the bids:

Morris Bros., Portland (for 4¾s)	$10,047 00
MacDonald, McCoy & Co., Chicago (for 5s)	10,157 00

Clements, Township Clerk, for $18,000 4½% public-hall bonds. Authority Section 2835, Revised Statutes, as amended March 28 1906. Denomination $500. Date June 1 1907. Interest March 1 and Sept. 1. Maturity $500 on March 1 1908, $1,000 each six months from Sept. 1 1908 to March 1 1916 inclusive and $1,500 on Sept. 1 1916. Certified check for 2% of bonds bid for, payable to the Township Treasurer, is required. Accrued interest to be paid by purchaser. Total debt, this issue.

West New York, Hudson County, N. J.—*Bond Offering.*—Proposals will be received until 8 p. m. June 18 by the Town Council, for the following bonds:

$200,000 5% registered or coupon funding bonds. Authority, an Act of the State Legislature passed March 23 1899, as amended by Chapter 101, Laws 1907. Date June 1 1907. Maturity June 1 1937. Certified check (or cash) for $3,000 is required.
10,000 5% registered or coupon street-opening bonds. Authority, Section 73, Chapter 113, Laws of 1895. Date July 1 1907. Maturity July 1 1917. Certified check (or cash) for $500 is required.

Denomination $1,000. Interest semi-annual. Bids must be unconditional, with certified checks made payable to the Town Treasurer. The $200,000 funding bonds mentioned above were offered as 4½s on April 2 1907 (V. 84, p. 888) but no bids were received. James L. Wolf is Town Clerk.

West Palm Beach Special School District No. 1, Dade County, Fla.—*Bond Offering.*—Proposals will be received until 12 m. to-day (June 8), by Z. T. Merritt, Clerk of Board of County Commissioners (Dade County, P. O. Miami) for $40,000 5% coupon school-building bonds. Authority, Chapter 4682, Acts of 1899. Denomination $500. Date about July 1 1907. Interest May and November at the County Treasurer's office. Maturity $1,000 yearly on May 1, from 1908 to 1911, inclusive; $1,500 yearly on May 1 from 1912 to 1915 inclusive; $2,000 yearly on May 1 from 1916 to 1919 inclusive; $2,500 yearly on May 1 from 1920 to 1923 inclusive, and $3,000 yearly on May 1 from 1924 to 1927 inclusive. Certified check for $1,000, payable to the Board of County Commissioners, is required. Bonded debt, this issue. Assessed valuation 1906, $1,563,917. The legality of these bonds will be approved by J. H. Caldwell of New York City.

White County (P. O. Sparta), Tenn.—*Bond Sale.*—It is stated that this county has awarded $60,000 5% pike bonds to John Nuveen & Co. of Chicago.

NEW LOANS.

CITY OF ST. LOUIS

ISSUE OF

3.65 Per Cent 20-Year Gold Renewal Bonds

MAYORS' OFFICE

Saint Louis, June 1st, 1907.

By virtue of Ordinance No. 22,865, authorizing the issue, sale and delivery of renewal bonds of the City of St. Louis, sealed proposals for the purchase of two million dollars ($2,000,000) in said bonds, hereinafter described, or any portion thereof, will be received at the Mayor's office, in the City of St. Louis, until 12:00 o'clock noon, of the 11TH DAY OF JUNE, 1907, and publicly opened by the undersigned at said place and hour.

Said bonds will be dated June 25th, 1907, and will each be of the denomination of $1,000 United States Gold Coin, payable twenty (20) years after their date, and will bear interest from their date at the rate of three 65-100 (3.65) per cent per annum. Semi-annual interest coupons, payable on the 25th day of June and December, respectively, will be attached to each bond, and both bonds and coupons will be payable to bearer, as he may elect, either at the National Bank of Commerce in New York, in United States Gold Coin, or at the National Bank of Scotland, Limited, 37 Nicholas Lane, London, England, in pounds sterling, at the rate of four dollars, eighty-six cents, six and one-half mills ($4 8665) per pound Sterling. The bonds will contain the condition that in payments of principal and interest the United States Gold Dollar and the Pound Sterling will be calculated at the present standard weight and fineness. The bonds may be exchanged for registered bonds at any time.

Bidders are requested to state in their proposals the price offered per bond, the par and premium to be stated as one amount.

Proposals must be accompanied by a deposit of cash or certified check, payable to the order of the Comptroller (and subject to his approval), equal to five (5) per cent of the nominal amount of the bonds bid for; said deposit to be returned if the proposal is not accepted, otherwise to be held subject to forfeiture to the City in event of failure on the part of the bidder to comply with his proposal, or in case of compliance, to be retained as part of the purchase money. A deposit in the required amount to the credit of the City of St. Louis, in the National Bank of Commerce, in New York, or in the National Bank of Scotland, Limited, London, will be accepted as full compliance with the requirements relating to deposits. No interest will be allowed on earnest money deposited by the successful bidder.

Proposals will be subject to all the conditions and reservations of this advertisement, and must refer to same as a portion of the agreement on the part of the bidder.

Proposals should be enclosed and addressed to the undersigned and endorsed "Proposal for Purchase of St. Louis City Bonds."

The undersigned reserve the right to reject any or all bids.

The Bonds will be delivered against payment therefor in current funds, at the office of the Comptroller in the City of St. Louis, on the 25th day of June, 1907, or, if the bidder so elects in his proposal, at the National Bank of Commerce, in New York, on the 25th day of June, 1907.

The opinion of Messrs. Dillon & Hubbard, Attorneys and Counselors at Law, New York City, as to the validity of the bonds, will be furnished the successful bidders by the City.

A sample bond can be seen and further information obtained at the office of the Comptroller.

ROLLA WELLS, Mayor.
JAMES Y. PLAYER, Comptroller.

$591,000.00

City of Minneapolis

BONDS

Sealed bids will be received by the Committee on Ways and Means of the City Council of the City of Minneapolis, Minnesota at the office of the undersigned, WEDNESDAY, JUNE 26, 1907, at 2'oclock p. m. for the whole or any part of $441,000 00 School Bonds and for the whole or any part of $150,000 00 Park Bonds.

Said bonds bear interest at the rate of four per cent (4%) per annum, payable semi-annually, dated July 1, 1907, and payable July 1, 1937.

The right to reject any or all bids is reserved.

A certified check for two per cent (2%) of the par value of the bonds bid for, made to C. S. Hulbert, City Treasurer, must accompany each bid.

Circular containing full particulars will be mailed on application.

DAN. C BROWN,
City Comptroller.

$666,000

CITY OF ITHACA, N. Y.

WATER BONDS

Sealed proposals for the purchase of the whole or any part of, approximately, $666,000 00 of water bonds of the City of Ithaca, N. Y., pursuant to Chapter 181 of the Laws of the State of New York for 1903, as amended by the Laws of 1907, will be received by the undersigned at any time previous to the evening of June 24, 1907. Such proposals to be upon the basis of long-term bonds at 4%, and bonds payable at the option of the City at the expiration of five years at 4½%.

Any information desired will be furnished upon application. The City reserves the right to reject any and all bids.

RANDOLPH HORTON,
Attorney for Ithaca Water Board.
Savings Bank Building,
Ithaca, N. Y.

NEW LOANS.

$255,000

JERSEY CITY, N. J.

GOLD BONDS

INTEREST, 4½% PER ANNUM

BONDS EXEMPT FROM TAXATION

Sealed proposals will be received by the Board of Finance of Jersey City at its meeting to be held in the City Hall on the

12TH DAY OF JUNE, 1907,

at three o'clock p. m., when they will be publicly opened, for the whole or any part of

$255,000 00 REFUNDED WATER BONDS
(COUPON BONDS.)

Said bonds are issued in accordance with the provisions of an Act known as Chapter 16 of the Laws of 1905, and entitled "An Act to authorize Cities in this State to issue and dispose of Bonds to take up and pay off other bonds about to mature to pay which no funds have been otherwise provided," approved March 8, 1905.

The principal of said bonds is payable July 1, 1937, in gold coin of the United States of America of the present standard of weight and fineness, and the interest, at the rate of 4½% per annum, is payable in gold coin semi-annually on the first days of January and July of each year.

Proposals should be enclosed in a sealed envelope and endorsed, "Proposals for Refunded Water Bonds of Jersey City," and handed to the Clerk of the Board of Finance in open meeting when called for at said meeting to be held Wednesday, June 12, 1907, at three o'clock p. m., in the City Hall.

Each bid must be accompanied by a certified check to the order of the City Treasurer of Jersey City for 2% of the par value of the bonds bid for, the amount of said check to be credited upon said bid if accepted, and to be returned forthwith if not accepted.

Said Bonds will bear date of July 1, 1907, and shall be delivered on July 1, 1907, the purchaser paying any accrued interest on the Bonds to the day of delivery.

By resolution passed by the Board of Finance, May 22, 1907, authorizing the issue of these Bonds, a Sinking Fund was also created for the purpose of paying the principal of said Bonds when due. The Board reserves the right to reject any or all bids if deemed for the best interest of Jersey City.

By order of the Board of Finance.
WM. GEO. NELSON,
City Comptroller.

Perry, Coffin & Burr,

INVESTMENT BONDS.

60 State Street,

BOSTON.

White Plains, Westchester County, N. Y.—*Bond Sale Postponed.*—The sale of the $23,000 4½% 30-year funding, $20,000 4% 32-35-year (serial) water and $3,000 4% 30-year sewer bonds, which was to have taken place June 3 (V. 84 p. 1202), has been postponed until June 10.

$186,600

City of Richmond, Va.,

FOUR PER CENT REFUNDING BONDS.

To provide for the redemption of $186,600 of bonds maturing July 1, 1907.

The Committee on Finance of the City of Richmond, by virtue of an ordinance of the City Council, approved April 29, 1907, is instructed to advertise and receive bids for the purchase of all or any portion of Registered or Coupon Convertible Four Per Cent Bonds, having thirty-four years to run, dated July 1, 1907, and bearing interest from that date, required to meet the above at maturity.

The Coupon Convertible Bonds will be issued in multiples of $1,000. Bids for the above will be received at the office of the City Auditor till NOON OF JUNE 10, 1907. A certified check for an amount equal to 2 per cent on bids of $100,000 or less, or 1½ per cent on all bids in excess of that amount, payable to order of the Auditor of the City of Richmond, must accompany each bid.

The right to reject any and all bids is expressly reserved. For further information apply to Edward J. Warren, Auditor.

CLEARING HOUSE RETURNS.

The following table, made up by telegraph, &c., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day have been $2,614,288,956, against $2,834,637,838 last week and $2,795,624,409 the corresponding week last year.

Clearings—Returns by Telegraph. Week ending June 15.	1907.	1906.	*Per Cent.*
New York	$1,235,423,659	$1,347,708,587	—8.3
Boston	133,473,736	124,540,667	+7.2
Philadelphia	113,216,702	117,665,827	—3.8
Baltimore	25,418,082	21,529,357	+18.1
Chicago	212,208,861	173,706,922	+22.2
St. Louis	54,184,017	48,441,121	+11.9
New Orleans	14,174,111	13,204,540	+7.3
Seven cities, 5 days	$1,788,099,168	$1,846,797,021	—3.2
Other cities, 5 days	401,002,037	355,986,487	+12.7
Total all cities, 5 days	$2,189,101,265	$2,202,783,508	—0.6
All cities, 1 day	425,187,691	592,840,901	—28.3
Total all cities for week	$2,614,288,956	$2,795,624,409	—6.6

The full details for the week covered by the above will be given next Saturday. We cannot furnish them to-day, clearings being made up by the clearing houses at noon on Saturday, and hence in the above the last day of the week has to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, June 8, and the results for the corresponding week in 1906, 1905 and 1904 are also given. Contrasted with the week of 1906 the total for the whole country shows a gain of 2.0%. Outside of New York the increase over 1906 is 14.8%.

Clearings at—	*Week ending June 8.*

THE FINANCIAL SITUATION.

Those who have a socialistic turn but are apparently beginning to feel that in the end socialism may not be the winning card, and yet do not precisely like to take to the woods, are finding comfort in consort with the old and dusty idea that all our commercial and financial troubles, including the check our progressive era has received, come from a rise in the price of capital and are straining themselves almost beyond endurance to prove their musty point. They have forgotten that the price of an article is the figure at which the demand for the article is equal to the supply. A rise in price, whether the subject considered is capital or a commodity, means either that it (that is, capital or commodity) has reached a condition at which the demand is in excess of the supply. In that state of affairs the situation would be expressed in a rise in the market value of capital (the rate of interest) or in the lower price of the commodity. On other occasions a different solvent might prevail. As the prices of commodities are to-day, and have been in good part during the term of prosperity we have been enjoying, higher than normal, and as rates of interest are now, and have in the average during the major part of the same period, (barring Sub-Treasury interferences) ruled lower than normal, what becomes of the theory that there has been a rise in the price of capital?

Again, turn to our annual statistical report showing the world's yield of gold in all producing countries (the latest one for 1906 and previous years found on pages 247-250) and study the immensely increased quantity of the metal which has been poured into the world's supply during late years, and then consider whether those figures give any support to the theory of scarcity and consequent rising value to capital. We would not cite this widening inflow of a precious metal as full evidence of the growing abundance of the public holdings and the unlikelihood of demand on capital in progress being too rapid for available supply. We note it merely as a prominent tell-tale of current events along those lines. Perhaps a more striking incident is the increasing percentage of men to total population possessed of great wealth in the civilized world and the increasing average of their individual holdings. This condition in the general situation has proved such an intolerable factor to our worthy President and to the whole body of "me too" Governors in all parts of the United States, imitators of their chief, that each, according to his capacity, is pushing the inquiry started by their leader of how to limit the average of these holdings.

But we will not weary our readers with multiplying these bits of evidence that the world's capital has not been on the decrease and therefore growing dearer and hence more valuable. We may, however, be permitted one other citation. Reference is had to the very large—yes, strikingly enlarged—totals of capital our banks, bankers, trust companies, manufacturing concerns and industrial corporations of every kind and sort are using to-day in swinging their extremely extended businesses and ventures. Certainly every financial and industrial department is advertising bounteous additions to their old-time assets. Does not this suggest progress in the country's accumulation of mobile wealth, overflowing treasuries of capital instead of exhausted supplies? Fix thought on the single circumstance of relative loanable funds on the market seeking employment compared with, say, seven years ago. Does it bear any sort of comparison with the same class of funds now in like situation?

A writer discussing, a week ago, in the columns of an esteemed contemporary—a Wall Street financial authority—this question of change in the price of capital and aching apparently to make obvious the idea that such a change has taken place, states that so many people are obscure in mind as to the meaning of the term "that it is very desirable that it should be clearly explained." . . . "What then", he asks "is meant by rise in the price of capital." He answers: "It is exactly what is meant by rise in anything else on the market." That would seem to make the meaning clear. But the writer goes on to say that "the main reason for the prevalent confusion about change in price in capital is that such change is not ordinarily measured in the terms which mark rise or fall in prices of other things." That looks somewhat like a direct contradiction to the conclusion stated in the previous sentence. But such a construction is not, we think, what is meant. The writer continues in the development of his thought by asserting that no investor says to-day to his broker, "I want to get $500 instead of $400 for my $10,000 capital invested in securities. He puts the matter in another way; he states that he was satisfied with a 4% security last year, but that he wants a 5% security to-day. And even this does not mean that he insists on a stock paying 5% dividend or a bond paying 5% interest. The result would be equally attained if, for instance, a given security with a 5% interest rate for which bids were made at 125 a year ago were now to get no higher bid than par. So far as that security is concerned the price of capital would obviously have risen from a 4% to a 5% basis."

We have long been surprised at finding so many of the individuals we meet from day to day who are well-stored with knowledge and possessed with more than the average capability in solving knotty points, professing themselves as having an "obscure mind" on the very point this writer proposed to enlighten his readers. His proposal was consequently peculiarly attractive. He does not however seem to have been at all successful in attaining his object or at all happy in his explanation. Moreover, inasmuch as the investor he refers to would have first to convert into cash his holdings of securities which he is supposed to offer to his broker at the ruling price of to-day before he could make the new investment, it would puzzle a Solomon to discover what advantage would accrue by the operation to the investor. Had he merely said in the recent words of M. Leroy-Beaulieu "that the development of industrial enterprises has been too fast for available capital," he would have at least stated a proposition intelligible to every one, though not bearing on his proposal.

It should be added, with respect to M. Leroy Beaulieu's utterance, that he probably had in mind the European condition chiefly. Had he confined his study to the United States, no doubt a more faithful representation of the situation here would have been given. Beyond a doubt our disgruntled condition should be charged to an utter loss of confidence in security values. In other words, the superstructure

of credit has been undermined, and no value is low enough to induce investors to make purchases.'

Somewhat unexpectedly—and consequently evoking criticism because the necessity therefor was not apparent—the Secretary of the Treasury on Wednesday announced the recall, for surrender by July 10, of the 30 million public deposits which had been placed in certain depositories by Mr. Shaw on September 27 1906. Mr. Cortelyou explained his recall of these deposits by stating that it was to provide for the redemption of about 36 millions of 4s of 1907 that will be payable on July 1. It seems, though, that his available cash balance on that date will be amply sufficient for the whole of such redemptions without requiring the surrender of public deposits. Inasmuch as his recall thereof may possibly inject a disturbing factor into the monetary situation if offerings of the 4% bonds shall be tardy, his action, as stated above, evoked some criticism. The 30 millions of deposits were placed largely in banks located at the chief centres and also in several other institutions in cities in the West and South. It is calculated that while about 10 millions will be withdrawn from New York and near-by points, the banks in this city will be required to surrender not only that amount—that is, not only their own individual deposits—but to provide the requisitions from their country correspondents for the surrender for these correspondents of their deposits, such requisitions being met out of the balances of these correspondents in banks in this city. In this way it seems probable that the greater part of the 30 millions may be directly or indirectly withdrawn from New York banks. The local institutions are now carrying low cash reserves; for the remainder of the month such reserves will be burdened with requirements for greatly increased deposits incident to preparations for the disbursement, on and after July 1, of interest and dividends. Moreover, it seems scarcely probable that the payments for the 4% bonds, which will then begin, will—because of the fact that holders thereof are widely scattered throughout the country—be of such volume as to offset the surrenders of public deposits that must be completed by July 10. Consequently, it appears likely that as the result of this recall of public deposits, the money market at this centre will be more or less tense, at least for the next thirty days.

If on account of such tension gold exports should be checked in volume, through a fall in rates for sterling exchange on London, the money market might experience some relief. But were the requirements of French bankers, or of the Bank of France, for gold to be so urgent as to lead the Bank to continue to offer the inducement of advances of credits to gold exporters, the time-cost of such exports would be eliminated, regardless of our rates for money, through the employment of cable transfers on London for the reimbursement of the shippers. The coincident movement of gold to Paris, when the monetary situation here was tense, would therefore doubtless contribute to much stress. It may be, though, that the higher rates for money here would encourage the negotiation of finance bills—bankers drawing ninety-day drafts against their foreign credits, and loaning the proceeds on our market, expecting that, when such drafts were about maturing, they could be profitably covered through bills against credits established by exports of commodities. In this way the cotton and grain movement to Europe could be financed with foreign capital. Possibly, however, expectations of profit resulting from such operations might not be realized, for it is now impossible to forecast European conditions, owing to the existing state of unrest prevailing and to the prospects for its continuance.

Considering all the circumstances, it would seem that it would have been better if Secretary Cortelyou, instead of precipitating into the situation, the deranging factor of the withdrawals of deposits from the banks, had permitted such deposits to remain unwithdrawn.

President Roosevelt is unquestionably sincere in his desire to allay public anxiety with reference to the effects of his policies, but unfortunately whenever he makes a speech he says something that tends further to unsettle confidence and thus acts in exactly the opposite way from that intended. The two addresses he made this week at the Jamestown Exposition are of this character. No one likes to criticise the President of the United States, and we regret exceedingly that we should be obliged to differ with him on so many occasions; but it seems to us that his views and policies are simply revolutionary, and cannot be allowed to go unchallenged. In this week's speeches he elaborated his ideas regarding a graded income tax and a progressive inheritance tax. He strongly advocates both and lays particular emphasis on the desirability of the progressive inheritance tax. He says the progressive principle is peculiarly adapted to the working out of the theory of using the inheritance tax for the purpose of limiting the size of inheritable fortunes, since the progressive increase in the rates—we are using his own words—"may be carried to its logical conclusion in a maximum rate of nearly 100% for the amount in excess of a specified sum without being confiscatory of the inheritance." For ourselves, we are unable to see how a proposition which would appropriate the whole of a man's fortune above a certain sum for the benefit of the State differs in any essential respect from State Socialism, though Mr. Roosevelt takes great pains to let it be known that he is opposed to Socialism—in one part of his address speaking earnestly of the "superbly self-reliant individualism" existing in this country, and expressing the hope "that it will never be exchanged for a deadening Socialism." In arguing in favor of the progressive tax on fortunes, Mr. Roosevelt throws out the suggestion that "the tax could be made to bear more heavily upon persons residing out of the country than upon those residing within it." With capital so hard to obtain at present in the United States, owing to the existing lack of confidence, it would obviously be a great advantage to have large supplies of foreign capital to carry on our extensive improvement work, but we hardly think that the suggestion here made will help us get it.

The most disturbing part of this week's speeches, however, is the President's proposal that employers shall always be held liable in money damages to employees for accidents, even where the accident is the result of the employees' own carelessness. It should be understood, too, that the President's intention in this respect is very broad. He does not mean to limit the application of the idea to railroad accidents,

but to apply it to accidents anywhere and everywhere—in industrial undertakings of all kinds—so the matter concerns every employer. He says: The great increase in mechanical and manufacturing operations means a corresponding increase in the number of accidents to the wage-workers employed therein, these including both preventable and inevitable accidents. As the work is done for the employer, and therefore ultimately for the public, it is a bitter injustice (he argues) that it should be the wage-worker himself and his wife and children who bear the whole penalty." He declares emphatically that "legislation should be had, alike from the nation and from the States, not only to guard against the needless multiplication of these accidents, but to relieve the financial suffering due to them." He makes bold to say that "there is no sound economic reason for distinction between accidents caused by negligence and those which are unavoidable," and he thinks "the law should be such that the payment of these accidents will become automatic instead of being a matter for a lawsuit. Workmen should receive a certain definite and limited compensation for all accidents in industry, irrespective of negligence." He adds that "when the employer, the agent of the public, on his own responsibility and for his own profit, in the business of serving the public, starts in motion agencies which create risks for others, he should take all the ordinary and extraordinary risks involved." Lest the employer should fail to see any advantage in such an arrangement, Mr. Roosevelt at once proceeds to show him what he would gain—the employer would "gain a desirable certainty of obligation and get rid of litigation to determine it."

The President then excoriates the railroads for their effort to have the Employers' Liability Act passed by Congress last year declared invalid. He speaks of "the extreme unwisdom of the railway companies in fighting the constitutionality" of that Act. He says "no law is more emphatically needed, and it must be kept on the statute books in drastic and thorough-going form." In order that there may be no misunderstanding of the President's position in that regard, we quote the following paragraph in full.

"If it is proper for the Federal Courts to issue injunctions in behalf of railroads, it is proper that railroads should be held to a strict liability for accidents occurring to their employees. There should be the plainest and most unequivocal additional statement, by enactment of Congress, to the effect that railroad employees are entitled to receive damages for any accident that comes to them as an incident of the performance of their duties, and the law should be such that it will be impossible for the railroads successfully to fight it without thereby forfeiting all right to the protection of the Federal Government under any circumstances."

We shall not attempt to combat these ideas further than to quote what Chairman James J. Hill of the Great Northern Railway said with reference to the matter in an interview this week. Mr. Hill, after expressing the opinion that the Government will ultimately be forced to lend its credit to finance the needs of the railroads, since their credit has been ruined, was asked what he thought about the proposition to compel the railroads to compensate all men injured in their employ, whether through their own fault or not. Here is what Mr. Hill had to say, and it appears to us that his argument is unanswerable. "The employee question with the railroads is hard enough as it is. I fail to see what good could come of such a law. A railroad employee told a confidant that he was going to sell his forefinger for $20,000. He was a switchman. It was not long before the railroad nipped off his forefinger. The switchman offered to compromise for $2,000. The matter is still in the courts. The law in question would probably broaden the market for fingers and toes, but that it would do any one good is inconceivable." The reader will not fail to perceive the point of this remark. A law such as that advocated by the President would be placing a premium on accidents. Employees would have a direct interest in having accidents occur, since they would afford the basis for the recovery of damages for injuries, however trifling.

———

The iron and steel markets appear to be rather quiet just now, though there are no visible indications of a reaction. It is not thought that the Milliken failure will have any adverse effect on the trade. Iron production is being maintained at high figures, and the statistics collected by the "Iron Age" of this city show that a new record in that respect was made in May. Our contemporary says that the coke and anthracite furnaces produced 2,294,005 tons of pig iron in May, which compares with 2,219,242 tons in April, and is the very largest monthly output ever reached. It appears, however, that the *rate* of production in May scarcely increased at all. Total output for the month was larger simply because May contained 31 days and April only 30 days. The daily product in May was 74,001 tons, in April 73,975 tons, showing very little difference. It is pointed out that the excessive rainfall throughout the country in May affected output so that the performance of many furnaces was less than in April, the increased number active saving the situation from an actual decline in the rate of output. The "Age" says that Illinois, Wisconsin and Colorado made gains in output and Alabama for the first time in months took a real stride forward. It appears that on June 1 the capacity of the furnaces in blast was not quite equal to that for May 1, being only 522,520 tons per week against 523,912 tons. It seems unlikely therefore that June will record much if any further expansion in production.

———

All that Governor Hughes says in criticism of the two-cent bill, in vetoing it, is unassailably true. It may be that some road can live upon such a maximum rate, and it is possible that some could even do so without raising commutation rates, which are lower. The probable effect upon the roads is not the worst feature; the headlong impulse to follow a bad example which has produced enactment of such a law in some eighteen States in this present year, all of them without any precedent inquiry whatever, is in the highest degree blameworthy. Such lawmaking is worse than unbusinesslike; it must be deemed a remissness in duty and an evidence of insensibility to the obligations of delegated power, while the public indisposition to watch legislatures and hold them to a strict accountability is an unfavorable symptom in affairs. We are becoming too much governed by our feelings and too little held in check by deliberate judgment. Impulse is a bad counsellor in business. The point that any amount of mishandling of railroads by individual managers does not justify reprisals upon the roads so

mishandled might have been brought out somewhat more distinctly, yet Governor Hughes does say that arbitrary reprisals are not warranted and that "in dealing with these questions democracy must demonstrate its capacity to act upon deliberation and to deal justly." The following is well said, however, and cannot be too strongly urged:

"It is of the greatest importance that not only railroad corporations should be compelled to respect their public obligations but also that they should be permitted to operate under conditions which will give a fair return for their service. Upon this depends not simply the security of investors but the security of their employees and the protection of every form of industry and commerce *through the maintenance and extension of necessary transportation facilities. Nothing could be more opposed to the interests of the community as a whole than to cripple transportation corporations by arbitrary reductions of earnings.*"

It is a surprise to us that, notwithstanding the foregoing, the prime reason stated for the veto is that the bill would anticipate and get in the way of Governor Hughes's pet plan, the Utilities Commission scheme, to which the business interests of the State must now submit, unless the courts find cause for intervention. "There is a better way," he says. It is impracticable for the Legislature to investigate; the obvious course is therefore to provide a body which can investigate and can act with wisdom and full power, &c. The argument is already familiar. But we have no guaranty, nor is there any good reason to expect, that this body will be either wiser or more honest than lies in men to be, or that they will be able to determine satisfactorily problems to which no single body of referees can ever be equal. The impossibility of a good result of such an over-comprehensive attempt will become evident in course of time, when we shall remember once more the private ownership of railroads, which is now forgotten in an exaggerated idea of their public duty; and when we discover that transportation is too large a subject to be brought into party politics. Meanwhile, it is some satisfaction to note that the veto seems to be at least one break in the rush to force down fares.

A correspondent of the "Sun" raises an interesting question as to the bearing of the unconstitutionality of the present apportionment law of this State upon the validity of Acts passed by the present Legislature. Chief Judge Cullen of the Court of Appeals cited approvingly a Connecticut decision in what seems to be the leading case on the effect of acts of de facto officers and bodies. In that case it was said:

"The de facto doctrine was introduced into the law as a matter of policy and necessity, to protect the interests of the public and of individuals where those interests were involved in the official acts of persons exercising the duties of an office without being lawful officers. . . . When, therefore, in civil cases the public or third persons had knowledge that the officer was not an officer de jure, the reason for validating the acts to which they submitted, or which they invoked, failed, and the law no longer protected them."

The situation is that the apportionment law under which the present Senate was chosen has been pronounced unconstitutional. The Senate exists therefore de facto and not de jure. As a matter of necessity and to avoid confusion, it has power, as a de facto body, to enact a constitutional apportionment, and if it fails to do this the next election must be according to an older apportionment. How far the acts of a de facto Senate in the line of general legislation are valid is a question. The "Sun's" correspondent seems to go too far in suggesting that the Senate has no power to enact an apportionment law, for this would produce the confusion which the Court of Appeals wished to avoid. An examination of the decision of the Court and of the Connecticut decision cited therein shows no distinct treatment of this question, but the inference is plain that a de facto body can do valid acts only within the limits of necessity. No layman can venture an opinion as to what the Court of Appeals may do when the question comes before that tribunal, yet the view which it might take as to the Utilities law, for example, is an interesting one. Viewing that law, the Court may perhaps say that here is a piece, not of ordinary and necessary, but of very extraordinary and radical legislation; that it is something as to which no demand for immediate action existed; hence that a body unconstitutionally elected and thus capable of exercising only de facto powers is not competent to commit the State in such a manner to a wholly new exercise of legal functions. It would be rash to say that the Court will take such a view; but we suggest it as a possibility, since the decision already given clearly implies that things not strictly lawful may be submitted to, per necessity, up to the line where such necessity ceases.

The death of John T. Morgan, one of the two venerable Senators from Alabama, is a distinct loss to the Senate and country. He was a man old-fashioned in his conservatism, in his conception of public duty, in an unshakable integrity which no temptation could even approach, and in his strong view of the original balance of powers and of the importance of preserving the rights of the States. This latter view is, unfortunately, rapidly becoming dim in the present continual straining to centralize and produce the "strong government" that seems to be just now the popular ideal. Mr. Morgan was also distinguished—and in a Senate of higher average quality than the country now possesses he would have been distinguished—for strong personal convictions and force, as well as great industry and range of knowledge. When he knew a thing, he knew it somewhat too surely and unchangeably, as men of marked individuality are apt to feel that they know. He showed this in a marked degree in his course on the canal. Having decided—presumably because he thought the commercial interests of the Gulf States would be better advanced thereby—that the Nicaraguan route was the proper one, he was impenetrable on that subject, and he fought for that route to the last with unflagging zeal and force. There can be no reasonable doubt that he was mistaken, but he was honest about it, and it is rather a sad comment on the present time to have to say that an honest conviction and an unbending adherence to honest convictions are some title to distinction. We have too few really able men in public life now, and although statesmanship is not a lost possession, the country will be fortunate if it calls to the front new men who shall reproduce the virtues and fame of the elders who have gone.

The report of the Department of Agriculture on the condition of cereal crops June 1, issued on Monday, has served to materially modify or remove the exag-

gerated ideas recently held of the damage done to wheat by adverse weather. But that the tendency toward exaggeration should be more marked than usual this year is not surprising when the lateness of all vegetation is considered. Cold and rainy weather during April and most of May having seriously checked development of all plant life, crops are naturally well behind an average season in development, and therefore to the unskilled observer present an unfavorable appearance. Thus, too, pessimistic reports are unintentionally circulated. But backwardness is given too much weight as an unfavorable element in determining condition. It is not unreasonable to suppose it has been a too important influence in the recent Department report, even though that report was more favorable than generally expected. That a crop is late is not in itself an unfavorable feature, but such a condition is a serious drawback unless future weather be propitious.

Principal interest in this June 1 report naturally centres in wheat, and, as intimated above, the situation appears more favorable than private advices have indicated. The general condition of winter wheat at 77.4 records a deterioration of 5.5 during the month of May, and compares with 82.7 on June 1 1906 and a ten-year average of 81.1. Some of the more important producing States make a very unfavorable comparison with a year ago, damage by insects as well as by the weather being responsible therefor. For instance, Texas condition is put at the extremely low point of 44 against 87 on June 1 a year ago, Oklahoma 60 against 90, and Kansas 60 against 74. On the other hand, however, Indiana, Michigan, Missouri, Illinois and Pennsylvania have maintained or improved upon the condition reported May 1, and the last three named show higher percentages this date the current year than last year. The lower general average condition of winter wheat this year is, however, a less important feature of the situation than the extensive abandonment of area referred to in the May 1 report. The original planting last fall embraced 31,655,000 acres, or nearly 7% more than the area harvested the previous season. The abandoned territory comprised over 3½ million acres, all States sharing therein more or less, in Texas over two-thirds of the wheat area being thrown out, and in Oklahoma about one-third. The land from which a crop will be gathered exhibits, therefore, a decrease of 5% from a year ago.

According to the Department returns the spring-wheat area of the country has been reduced on the average about 7%, making the amount of land under that crop about 16,464,000 acres this year against 17,706,000 acres in 1906. As in the case of winter wheat, the average condition of the crop June 1 was lower than at the same time in 1906, being stated at 88.7 against 93.4 and a 10-year average of 93.3. The acreage under oats is reported to have been increased 1.7%, and the average condition is given at 81.6 against 85.9 June 1 1906.

In its report on cotton acreage and condition, issued on June 4, the Department practically admitted the serious error it had been drawn into in the spring of 1906, in the matter of area planted, by adding about 3¼ million acres to the total as then reported. But it is a question whether it will not be necessary for it to also correct its figures of the 1907 planting. In our own investigations of the subject of cotton area the only influence we could find working against a largely increased planting was the weather, and that, in hindering preparation of some land, served to cause a modification of original intentions. At the same time the stimulus of high prices was potent enough to cause some addition to area in about every State. But the Department reports decreases ranging from 4 to 6% in such important producing States as Alabama, Mississippi, Louisiana and Arkansas, and a total increase for the whole country of only 11,000 acres, or three hundredths of one per cent. Its figure of condition, however, was quite generally accepted as correctly defining the situation on May 25.

While weather conditions on the whole are not yet normal, it is gratifying to note that they have in the main been favorable since the first of June, and already advices covering improvement in condition of all crops are current. It is remarked, however, that the weather is yet rather cool for corn. Advices from abroad speak of improvement in crop conditions but indicate that although good crops of wheat are expected in France, Spain and Italy, the out-turn from most other European countries will be much below the average in quantity.

There was no change in official rates of discount by any of the European banks this week; compared with last week, unofficial or open market rates were ⅛ of 1% higher at London and at Berlin and Frankfort and steady at Paris. The European securities markets were irregular at the close of the week. The London bi-monthly settlement was concluded with but two small failures, and these had only a slight influence; foreign stocks were heavy in sympathy with Paris, which was depressed because of selling of internationals. A report which was current at Paris during the week that Russia contemplated the issue of a foreign loan for 50 million dollars was authoritatively denied; it was also officially stated that the Russian Government does not intend to raise any foreign loan this year, having decided to make up any deficiency by an interior loan, which deficiency is estimated at 140 million dollars, though, if the revenues continue satisfactory, this will probably be reduced by about one-half.

The striking feature of the statement of the New York Associated Banks last week was the reduction in the surplus reserve by $6,801,925, to $5,980,525. This was the result chiefly of a loss of $9,065,200 cash through gold exports and large customs receipts, which loss was only partially offset by the net movement of money from the interior. Loans were expanded $1,514,300 and deposits were reduced by $9,053,100. The bank statement of this week is expected to reflect, among other items, a loss of cash due to the bringing over from last week of the then unaccounted, for averages, representing gold withdrawn for export in the closing days of that week, and also receipts in excess of disbursements by the Sub-Treasury. The 2 millions withdrawn on Friday of this week for shipment to Paris to-day (Saturday) will count in the bank statement for only one-sixth of the amount, owing to the bank average system.

The market for money was only slightly affected this week by the unfavorable bank statement of the previous week, and, until Wednesday, there were comparatively low rates for money on call. Then indica-

tions of a considerable loss of cash that would result from Sub-Treasury operations and from last week's late withdrawals of gold for export to Paris caused an advance in the call loan rate to 3%. The announcement that was made public on Thursday of a call by Secretary Cortelyou for the surrender by July 10 of 30 millions public deposits, that were placed in depositories by his predecessor last September, did not seem to have any affect upon the market for day-to-day money, for the average on Thursday was only 2½%. On Friday, however, the engagement of 2 millions gold for export caused an advance in call money to 3½%. There was a firmer tone for all fixed-date loans, owing to a good demand and moderate offerings.

Money on call, representing bankers' balances, loaned at the Stock Exchange during the week at 3½% and at 1¾%, averaging about 2½%; banks and trust companies loaned at 2% as the minimum. On Monday and on Tuesday loans were at 2½% and at 2% with the bulk of the business at 2¼%. On Wednesday transactions were at 3% and at 2% with the majority at 2¾%. On Thursday loans were at 2½% and at 1¾% with the bulk of the business at 2½%. On Friday transactions were at 3½% and at 2¼% with the majority at 2½%. Time loans on good mixed Stock Exchange collateral were firm, and for the shorter dates especially, because of expectations that the requirements for the July settlements, amounting to 175 millions, for payments on account of New York City borrowing, and also the recalls of public deposits, would contribute to some tension within the next thirty days. Quotations for this period of maturity were 3¾%; for sixty days 3½@4%; for ninety days 4@4¼%; four months 4½%; five months 4¾%, and for six to seven months 5½@5¾%. There were liberal offerings of commercial paper, but the demand was light because of disquieting rumors affecting the standing of mercantile and manufacturing houses, which most likely were based upon the failure this week of a construction concern. Rates were 5½@6% for sixty to ninety day endorsed bills receivable, 5½@6% for prime and 6½% for good four to six months single names.

The Bank of England rate of discount remains unchanged at 4%. The cable reports discounts of sixty to ninety day bank bills in London 3¾@3⅞%. The open market rate at Paris is 3⅜% and at Berlin and Frankfort it is 4¾@4⅞%. According to our special cable from London, the Bank of England gained £229,364 bullion during the week and held £35,003,731 at the close of the week. Our correspondent further advises us that the gain was due to heavy imports from India and purchases in the open market. The details of the movement into and out of the Bank were as follows: Imports, £545,000 (of which £250,000 from India, £5,000 from Australia and £290,000 bought in the open market); exports, £335,000 (of which £200,000 to Egypt, £30,000 to Malta and £105,000 to South America), and receipts of £19,000 *net* from the interior of Great Britain.

The market for foreign exchange has been quiet though generally firm this week, influenced by a good demand for remittance and by a scarcity of bankers' bills. Mail service has been limited, which will in great part account for the inactivity in the market, and the inquiry in the middle of the week was chiefly for Saturday's steamer. The pendency of the London Stock Exchange settlement had no particular influence on cables, owing to the comparatively light trading during the fortnight in Americans. One feature was the negotiation of finance bills in anticipation of an opportunity for procuring cover for them in September with the proceeds of discounted commodity drafts against cotton and wheat. Another feature was the drawing of a round amount of francs, supposed to be against a matured installment of a corporation loan. One remarkable circumstance was the absence until Friday of engagements of gold for export to Paris, and this was the more noticeable because in the previous week there had been an urgent inquiry for the metal for this purpose. The reason for this absence of a demand for gold for export was the very narrow margin of profit on the operation, owing to the rise in the rate for exchange at Paris on London of two centimes, compared with last week, and the fall on Monday of 10 points in sterling at New York on the British capital; these changes in the factors governing gold exports prevented the engagement of the metal for shipment on Tuesday. The rise in Paris checks was probably due to purchases to cover gold in transit from New York and the fall in sterling was attributed to a temporary relaxation in the demand. While there were on Tuesday some tentative inquiries for gold by two bankers, who apparently contemplated the shipment of $500,000 each, none was secured, though then conditions were more favorable for the movement because of a fall of half a centime in exchange at Paris on London and a recovery in sterling at New York on the British capital. The fact that no effort was made to procure gold for shipment by Thursday's steamer suggested the possibility that the Bank of France had withdrawn its offer of inducements for gold shipments hence. It was thought probable that such might be the case for the reason that French bankers had refrained from competition for the Cape gold which was offered in the London market on Monday; this seemed to indicate that the French bankers had obtained a sufficient amount for their own or the Bank's present needs. It appeared, however, upon inquiry, that no change had been made by the Bank in its policy of assisting gold imports from New York, and it was expected that when conditions became more favorable, the export movement would be resumed. Such conditions were favorable on Friday by reason of an advance in sterling at New York on London to the highest rates of the week, and 2 millions gold were then engaged for export to-day (Saturday). Some of our bankers expressed the opinion that if, because of an advance in the rates for money, exchange should be actually or sentimentally affected, gold exports might be temporarily checked. Others thought likely that if the Bank of France still needed gold its offer of assistance to American shippers would attract the metal, through the elimination of the time-cost, or interest on the gold while it was in transit, even though money should advance, provided, however, exchange at New York on London were not greatly depressed by reason of the higher money rate.

Nominal quotations for sterling exchange are 4 84½ for sixty-day and 4 87½@4 88 for sight. On Saturday of last week the market was irregular and, com-

pared with the previous day, long fell 10 points to 4 8365@4 8375, short rose 5 points to 4 8705@4 8710 and cables 5 points to 4 8755@4 8760. On Monday the tone was heavy and long declined 10 points to 4 8360@4 8365, short 10 points to 4 8695@4 87 and cables 15 points to 4 8740@4 8745. On Tuesday long recovered 10 points to 4 8370@4 8375, short 10 points to 4 87@4 8710 and cables 10 points to 4 8750@4 8755. On Wednesday the market was dull and unchanged for long and for cables; short was 5 points lower at 4 87@4 8705. On Thursday long was 5 points higher at 4 8370@4 8380; short and cables were unaltered. The tone was strong on Friday at an advance of 10 points for short and for cables.

The following shows daily posted rates for sterling exchange by some of the leading drawers.

		Fri., June 7	*Mon., June 10*	*Tues., June 11*	*Wed., June 12*	*Thurs., June 13*	*Fri., June 14*
Brown Brothers & Co	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 88	88	88	88	88	88
Baring & Co	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 87½	87½	87½	88	88	88
Bank British North America	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 87½	87½	87½	87½	87½	88
Bank of Montreal	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 87½	87½	87½	87½	87½	87½
Canadian Bank of Commerce	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 87½	87½	87½	87½	87½	87½
Heidelbach, Ickelheimer, & Co	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 88	88	88	88	88	88
Lazard Freres	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 88	88	88	88	88	88
Merchants' Bank of Canada	60 days	4 84½	84½	84½	84½	84½	84½
	Sight	4 87½	87½	87½	87½	87½	87½

The market closed on Friday at 4 8370@4 8380 for long, 4 8710@4 8715 for short and 4 8755@4 8765 for cables. Commercial on banks 4 8345@4 8355 and documents for payment 4 82¾@4 8410. Cotton for payment 4 82¾@4 83. Cotton for acceptance 4 8345 @4 8355 and grain for payment 4 84@4 8410.

The following gives the week's movement of money to and from the interior by the New York banks.

Week ending June 14 1907.	*Received by N. Y. Banks.*	*Shipped by N. Y. Banks.*	*Net Interior Movement.*
Currency	$7,403,000	$5,194,000	Gain $2,209,000
Gold	1,647,000	1,146,000	Gain 501,000
Total gold and legal tenders	$9,050,000	$6,340,000	Gain $2,710,000

With Sub-Treasury operations and gold exports the result is as follows.

Week ending June 14 1907.	*Into Banks.*	*Out of Banks.*	*Net Change in Bank Holdings.*
Banks' interior movem't as above	$9,050,000	$6,340,000	Gain $2,710,000
Sub-Treas. oper. and gold exports	$23,200,000	30,100,000	Loss 6,900,000
Total gold and legal tenders	$32,250,000	$36,440,000	Loss $4,190,000

The following table indicates the amount of bullion in the principal European banks.

Bank of	*June 13 1907.*			*June 14 1906.*		
	Gold.	*Silver.*	*Total.*	*Gold.*	*Silver.*	*Total*
	£	£	£	£	£	£
England	35,003,731	--------	35,003,731	34,767,926	--------	34,767,926

Sweden	4,144,000	--------	4,144,000	3,878,000	--------	3,878,000
Tot. week	401,993,614	108,593,834	510,587,448	393,316,577	109,572,885	502,889,462
Tot. prev.	400,088,239	108,368,930	508,457,169	386,976,544	109,128,454	496,104,998

a The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as those banks make no distinction in their weekly returns, merely reporting the total gold and silver; but we believe the division we make is a close approximation.

b The Austro-Hungarian bank statement is now issued in Kronen and Heller instead of Gulden and Kreutzer. The reduction of the former currency to sterling Pounds was by considering the Gulden to have the value of 50 cents. As the Kronen has really no greater value than 20 cents, our cable correspondent in London, in order to reduce Kronen to Pounds, has altered the basis of conversion by dividing the amount of Kronen by 24 instead of 20.

d The total of gold in the Bank of Russia includes the balance held abroad—that is, the amount held for Russian account in other Continental banks. The proportion so held and consequently duplicated in the above statement is about one-quarter of the total.

THE PRICE OF CONSOLS.

The further decline in British consols, to the lowest actual price reached in sixty years, has naturally attracted world-wide attention. The price of 83 9-16 quoted last week compares with the low price of 84¼ at the time of Wall Street's "March panic" three months ago; with the low mark of 89⅞ for the year 1903, when the reduction in the consols interest rate and the Boer War expenses had their full effect; with 84⅝ reached in the Overend-Gurney panic of 1866, and with 80 in 1848, a year of severe financial depression in England. Not since the last-named date has the price of consols touched so low a figure as this month's. Comparisons of this sort, however, manifestly ignore the fact that consols to-day pay but 2½% interest, as against 2¾% between 1888 and 1903, and 3% prior to that date. In other words, the actual price may be lower to-day than on given occasions in the past, and yet the standing of consols, measured by the net yield to investors, may be considerably higher. For example, the yield on the 3% consols in 1848 would have required, for a 2½% security, a price, not 80, but 66¾.

There are other qualifications in the deductions to be drawn from this year's low price, to which we shall refer. Nevertheless, the fact of the continuous decline in price of this "premier security," and the further fact that its present net yield of 3% compares with a net yield of only 2⅜% when it touched the high price of 113⅞ in 1897, are phenomena of interest and significance. In general, the causes underlying this decline are plain enough. Heavy issues of new war loans by the British Government during the Transvaal contest; suspension at the same time of purchases for the sinking fund; profusion of other issues of high-grade investment securities, and, more recently, the great demand and high bids for capital to use for other purposes, would be sufficient to explain even a more serious decline than this has been. The resultant situation is not, as we take it, that holders of consols are selling because the investment dissatisfies them, but that new buyers are not attracted into the market on anything like the old basis, and that therefore every closing out of an estate comprising large consols investments serves to cause a renewed break in the market. Possibly we might add to this adverse cause the fact that the British Government—very unscientifically and unjustly, in our opinion—charges up the income tax against all consols interest payments, and deducts that tax from the remittances, whether the holders are Englishmen or foreigners. The effect of such a policy, at a time when England has been relying as never before on outside markets for its investment capital, and when the British income tax is confessedly at an abnormal figure for a time of peace, should be manifest.

But granting all these facts, some interesting considerations remain in the matter of British consols to which we wish to call attention. In the first place, not only is comparison of the price of consols with their price in other years misleading, but it is equally misleading to assume that consols are suffering more than other high-grade securities from the general rise in the rate paid for capital. With our own United States bonds, where a 2% issue, redeemable in 30 years, sells above 104, the British security obviously

makes poor comparison. Most people are, however, familiar with the peculiar circumstances which regulate and support on a virtually artificial basis the price of our national securities. Such an instance as the fall in price of New York City bonds is much more to the point; or, if comparison is desired with bonds of other high-grade governments, the London "Economist" lately published the following very interesting table, showing the net yield to-day and ten years ago of a selected list of such securities.

	End of March 1907.				End of March 1897.			
	Rate	Price.	Equiv. at 2½%.	Yield. £ s. d.	Rate.	Price.	Equiv. at 2½%.	Yield. £ s. d.
British consols	2½	85 3-16	85 3-16	2. 18. 9	2¾	112	110½	2. 5. 3
French rentes	3	95	78⅞	3. 3. 8	3	102½	85½	2. 18. 6
German consols	3	83½	68¼	3. 13. 2	3	97	79⅝	3. 3. 0
Prussian consols	3½	94	63⅛	3. 19. 3	4	103	64	3. 18. 3
Hung'n gold rente	4	94	58¾	4. 6. 0	4	102½	63¼	3. 19. 0
Italian rente	5	102	63¾	3. 19. 3	5	88⅞	55¼	4. 10. 6

It should be plain from these comparisons that, on the whole, British consols have not been suffering worse than the general run of public securities.

One further consideration arises, however, to which in our judgment even the English financial critics have given scant attention. As is generally known, British consols up to 1888 were virtually irredeemable: that is to say, though they were purchased annually in large quantities for the sinking fund, no fixed date was assigned at which the Government was required to pay off the entire debt. In April of that year Mr. Goschen, then Chancellor of the Exchequer, put through his important conversion scheme. Confronted, as he believed the British Government to be, with a permanent fall in the general interest rate and with a permanent rise in the national surplus revenue, Mr. Goschen had announced that on that date the 3% consols then outstanding should be paid off, with, however, the option to holders, of conversion into 2¾ per cents.

This latter interest rate was to continue until April 1903 when it was to fall again to 2½%. As a further step towards keeping the interest on British public debt in line with what Mr. Goschen expected of the market, it was further provided that in 1923 the new consols issue should mature. What has happened since is familiar to every one. Mr. Goschen judged the immediate future correctly; so much so, that the whole outstanding list of consols was converted willingly into 2¾ per cents. But he made the mistake, not at all uncommon among the most brilliant financiers, of assuming too much for the longer future. How seriously the second reduction of interest, provided in his plan for 1903, complicated British finances at that time will hardly have been forgotten. The point to notice now, however, is that under the stipulations with which the 1888 conversion plan was carried out, the present 2½ per cents may be redeemed, at the pleasure of the Government, in 1923. Whether this option will then be exercised depends no doubt on the state of the market at that time. If consols were to be called in for redemption at that date—whether to reduce the public debt or for refunding at a lower rate—buyers at the present price of 84 or thereabouts will, sixteen years hence, be able, under this proviso, to recover par. The difference between this present price and the redemption figure is 16%; in other words, investors in consols at this month's quotation, who hold the security until the day of its redemption, will, in case of such redemption by the Exchequer, have added 1% per annum to the 2½% (less income tax) paid annually by the Government. We do not imagine that this fact will very greatly impress markets imbued, as the present markets are, with an idea of getting abnormally high return on perfectly sound securities. But the time may come when such calculations will assume the first place in the London market's plans.

ONE TRUST THAT SURVIVES.

It is rather singular that in the apparent public aversion and antipathy to trusts in trade, the doings of another trust, which has been much in evidence of late, should be completely overlooked. In speaking of "trusts" we are using the word in the sense it is ordinarily employed, as something reprehensible and unscrupulous. In common parlance a trust is a body or organization which rides roughshod over everything in its path—crushes out and stifles all opposition, knows no will except its own, has no purpose save to promote its own interests, is concerned only to maintain its own supremacy, and stops at nothing to attain its ends.

We confess that we know of no trusts in the mercantile or financial world that measure up to this standard, though trade combinations are everywhere represented as being of an evil type. But the description fits accurately the new trust that has recently risen into prominence. We mean the political trust—the party caucus. Caucus rule was supposed to have been relegated to limbo a generation ago. Its activities then had become so pernicious that it was left absolutely without friends. Nothing bad enough or strong enough could be said about it or against it. The man who yielded to its dictates was everywhere regarded as having forfeited all claim to decency, independence and impartiality; he was treated by the independent class as being nothing more than a tool in the hands of party leaders, and his course held up to public obloquy. So general was the feeling of public disapprobation that even the machine leaders were forced to bow to the popular will, and by degrees the caucus dropped out of existence, at least as far as legislation was concerned. The politicians could not afford to rest under the charge that legislation was being enacted, not on its merits, but at the behest of the party leaders. Hence, for a time, caucus rule disappeared. Criticism, deserved and unmitigated, had shamed it out of existence.

But we are living in a new era. Old principles, old rules and precepts, codes of ethics that formerly found universal acceptance, apparently no longer bind men. By some legerdemain which it is difficult to explain, except on the theory that blind infatuation for the social will-o'-the-wisps that are being dangled enticingly before the public eye have dulled the moral sense, we have lost our perception of right and wrong. So we no longer speak with contempt of the thing that yesterday we denounced as vicious and indefensible. In this state of affairs, the party leaders have seen their opportunity, the caucus has been revamped and revived. It is again being made to do duty in the old way.

Quite notably, too, caucus rule is finding most marked exemplification in the enlightened State of New York. The caucus has a great amount of achievement to its credit at Albany this season. Consider what a deal of legislation has been accomplished

through and by it during the last few weeks. All the important measures of the session have been forced through by it and by it alone. This means that these pieces of legislation do not represent the untrammeled will of our legislators. If they had been allowed to act in accordance with the dictates of their judgment, these new laws, nearly all of a revolutionary type, could not have been enacted. A caucus, or trust, has told these legislators what to do, and has compelled them to yield obedience to its mandate as relentlessly and as mercilessly as the tyrants we read about in history.

What the result would be when each legislator was free to express his own will was clearly shown in the vote on the Kelsey removal proposition. The proposition failed, as everyone knows. In the public excitement of last year a lot of insurance legislation had been put on the statute books. These laws proved unworkable, as was shown by the fact that the counting of the vote cast at the election of insurance company officials last December extended over a period of several months, and in the case of one of the companies is not even yet finished. It became necessary, in the estimation of those who wield the caucus, to do something more to demonstrate how our legislators and high officials are ever the servants of the people. The Insurance Superintendent, with a record of some errors against him, though of a blameless character, was ready to hand and could serve as a vicarious sacrifice. But the Senate, with each member free to act in accordance with his volition, refused to do the part of executioner.

It then became necessary to resort to heroic measures. There was the Public Utilities Bill. If the recalcitrant senators were not brought in line, this measure might fail; likewise the Recount Bill and several other measures which the political powers planned should be the record of legislative achievement for the session. It was of no use to attempt to reason or to argue with the bolting Senators, for it was as plain as anything could be that the bills could not stand on their merits; they were full of objectionable features and must needs be extensively revised if not dropped altogether. But it had been determined by these political powers that the bills should go through just as they were, without any change. So the campaign managers, the "organization" men, put in an appearance at Albany, conferred with the Executive and with those Senators and Assemblymen high in the party councils, and all agreed that the caucus should do the work which the Legislature in and by itself could not do. The caucus was held. The rebellious legislators were told that the interests of the party demanded that the measures desired should be rushed through with unanimity, that no opposition would be tolerated, that desertion at such a time meant traitorism to the party, and furthermore that if the rebels persisted in asserting their individual rights, they would be read out of the party and could not again hope to get a re-nomination. These means proved effective. The will of the political managers was carried out. The Utilities Bill went through both Houses without a show of opposition; so did the Recount Bill, and likewise the other measures planned.

The most surprising part of the whole performance was that not a protest came from any one against such methods of procedure. The very people who years ago were most bitter in their criticism of caucus rule were now silent—people generally independent in politics and who usually espouse high aims and causes. The reason was that they, too, had become benighted. They see, or affect to see, in the measures referred to legislation to promote the public good and they are blind to the means pursued for giving them effect. There were even intimations that it would not be wrong to avail of some other weapons that were conveniently to hand. The Court of Appeals had just declared the last reapportionment invalid. Why not, then, these advocates urged, give the legislative rebels to understand that if they persisted in their course, a reapportionment measure damaging to their political prospects would be forced through over their heads. Their districts would be wiped out or gerrymandered in such a way that they could not ever again hope to be returned to Albany. At this very moment we find the two Houses of the State Legislature engaged in a wrangle which has for its basis not a desire to secure a just apportionment, but a fear lest one set of political leaders may gain advantage over another set. In the end King Caucus will be asked to step in and decide the matter, and then there will be harmony—the harmony that speaks of the extinction of the individual but the triumph of the political trust. The expedient has already been invoked in one House, and will, we may be sure, be employed sooner or later to bring both Houses to the required frame of mind. If it proves abortive on this occasion, it will only be because legislators who yield ready acquiescence when asked to deal a blow at business interests balk when the blow is aimed at their own heads—when they are calmly requested to vote for their own extinction.

Governor Hughes, in his speech before the Columbia Law School on Wednesday, argued that "it is the duty of an Executive to state his opinion to the legislative bodies, and when such opinions are endorsed by these bodies and made law, after endorsement by the people, then we have legislation, not by Executive usurpation, but by public opinion followed by discussion." This may be admitted, but there has been no legislation of that kind the present session. The caucus has usurped the rights and powers of the legislator. It, and it alone, has determined the course of legislation.

Is it not about time that we regained our senses and declined to tolerate any longer such abuses of political powers and such disregard of the principles upon which Republic Government is founded? If a legislator cannot be left free to exercise his own will in accordance with the dictates of his conscience, if he is to be hounded by the press and a clique of his political associates for daring to oppose them when they seek to commit him to a course which he does not approve; if legislators are only to vote collectively in accordance with the desires of the leaders instead of singly to voice their own sentiments, are we not in danger of abolishing representative government? The corner-stone of republican institutions is the fact that freedom of action and expression is accorded the minority. The minority yields ready acquiescence to the majority because of the latter's superiority in numbers. But caucus rule stifles the voice of the minority and records majority and minority alike in favor of a pre-conceived plan of action. When this

is allowed, legislation no longer represents the will of the majority but more often the will of an insignificant minority.

The danger from such a step cannot be overestimated. Just now, when so many are being carried away by the crusade against corporations and against capital and wealth, and when, therefore, a spirit of complacency is displayed towards things having that end in view, this fact may not be recognized. But unless we are greatly mistaken, tolerance of the caucus now will come back to plague the good people who see nothing wrong in its present course. An instrument that can be employed to grind out so-called good laws can with equal facility be employed as an instrument of oppression, for it is the power which the caucus possesses that enables it to do its work and not any command of righteousness. The caucus is founded, not on reason, but on brute force, and by brute force alone can it ever exercise its sway. To-day it may be employed for a purpose that suits the popular fancy. To-morrow those arrogating to themselves its powers may bid defiance to the public will even when it rests on sane grounds. It behooves us, therefore, to be careful how we countenance its continuance.

RIGHT OF A STATE COMMISSION TO REGULATE THE TRAIN SERVICE OF A RAILROAD.

At the present time, when the tendency is to extend the functions of State Commissions over the affairs of carriers, not only in the matter of regulating rates but in fixing all the details of railroad service, it is important to know just how far such a body may go in the exercise of its powers and prerogatives. An interesting case involving this question was decided in the U. S. Supreme Court somewhat over a month ago. As the case embraces features that are likely to occur in other instances, the doctrine laid down in this decision must be regarded as quite important. The Court upholds the right of a State Commission to require a carrier to run a train in order to promote public convenience, even if the running of this particular train involves a loss to the road. However, we are not permitted to make our generalization or deductions too broad. Every case depends upon its own state of facts, and the judgment reached in the present instance is controlling only where an exactly similar state of facts exists. The Court in effect balances the loss from obedience to the order of the Commission against the profitable results of the operation of the road as a whole, and declares that the act cannot on that ground alone be classed as arbitrary and unreasonable.

The circumstances were rather more favorable to the Commission than they ordinarily are in an action where a Government body is concerned. The Southern Railway made a change in its time schedule for a certain train and this change broke the connection at Selma, Ala., which had previously existed with a train run over the Atlantic Coast Line system. The Southern found it incumbent to make this change, as it had become absolutely dangerous to operate the train at the speed required by the previous schedule. The connection between the Atlantic Coast Line train and the Southern Railway train at Selma had existed for many years, and naturally there was complaint when it was broken. The Atlantic Coast Line management was appealed to by the North Carolina Corporation Commission to make a corresponding change in their train in order that the old connection might be maintained, and they expressed a willingness to do this provided they could get a change in the train run by the roads between New York and Richmond. But these other roads found it impossible to alter the hour of departure from New York, and the Atlantic Coast Line people thereupon were obliged to notify the North Carolina Commission that they saw no feasible way of continuing the old connection at Selma. After hearing, the Commission peremptorily ordered the Atlantic Coast Line Railroad to arrange its schedule so that the train which previously had been scheduled to arrive at 2:50 p. m. should thereafter arrive at 2:25 p. m., thereby restoring the old connection with the Southern Railway train.

The Atlantic Coast Line Company protested against the order, requesting its withdrawal and asking for a further hearing. The Commission complied with the request for a new hearing and suspended its order. At this second hearing the Atlantic Coast Line people were able to show that for the previous five months it had been impossible for them to bring No. 39 (the number of the train in question) to Selma by schedule time, to wit., 2:50 p. m., more than twice, and that this train was more than ten minutes late every day except twenty-four. Yielding to the force of this situation, the Corporation Commission concluded that it was impracticable to require a faster schedule and place this train at 2:25 p. m. instead of 2:50 p. m. Therefore this part of the former order was revoked and annulled. But the Commission was of the opinion that it was practicable, and that the convenience of the traveling public required, that the Atlantic Coast Line Railroad furnish transportation for passengers from a point called Rocky Mount to Selma after 12:50 p. m. and by or before 2:25 p. m. each day. It accordingly made an order to that effect.

Before the date of the taking effect of the second order, the Atlantic Coast Line filed exceptions to the validity of the order and prayed for another hearing. The Commission again acceded and took further testimony, but this time adhered to its order. The railroad was able to show that the operation of an extra train from Rocky Mount to Selma or the extension of the run of one of the branch line trains meant a direct money loss for every day the train was run. The Commission treated this objection as immaterial, finding, as a matter of fact, that the total receipts of the Coast Line in North Carolina, taken from business in that State, were sufficiently remunerative and therefore that even if the train was operated at a loss, that circumstance was not of very great importance. The company hence appealed to the courts for redress. In the lower court it received a verdict in its favor, but the Supreme Court of North Carolina reversed the judgment. The case then went to the U. S. Supreme Court, with the result that this judgment of the North Carolina Supreme Court stands affirmed.

The opinion in the United States Supreme Court was by Justice White. He points out that as the public power to regulate railways and the private right of ownership of such property co-exist and do not the one destroy the other, it has been settled that the right of ownership of railway property, like other property rights, finds protection in constitutional guaranties, and therefore wherever the power of regulation is exerted in such an arbitrary and un-

reasonable way as to cause it to be in effect not a regulation but an infringement upon the right of ownership, such an exertion of power is void because repugnant to the due process and equal protection clauses of the Fourteenth Amendment. But was the order of the North Carolina Commission arbitrary and unreasonable within this view? Justice White thinks not. He says that in considering the question it must be borne in mind that a Court may not, under the guise of protecting private property, extend its authority to a subject of regulation not within its competency, but is confined to ascertaining whether the particular assertion of the legislative power to regulate has been exercised to so unwarranted a degree as, in substance and effect, to exceed regulation, and to be equivalent to a taking of property without due process of law or a denial of the equal protection of the laws. Considering all the circumstances of the case, he thinks that from the point of view of the requirements of the public interest the order of the Commission was one coming clearly within the scope of the power to enforce just and reasonable regulations.

Counsel for the Atlantic Coast Line Railroad had in their argument before the Court relied greatly upon the case of Smyth vs. Ames (169 U. S. 526) where Justice Harlan said: "A State enactment, or regulations made under the authority of a State enactment, establishing rates for the transportation of persons or property by railroad that will not admit of the carrier earning such compensation as, under all the circumstances, is just to it and to the public, would deprive such carrier of its property without due process of law," &c. But the present case Justice White points out, does not involve the enforcement by a State of a general scheme of maximum rates, but only whether an exercise of State authority to compel a carrier to perform a particular and specified duty is so inherently unjust and unreasonable as to amount to the deprivation of property without due process of law. In a case involving the validity of an order enforcing a scheme of maximum rates, of course the finding that the enforcement of such scheme will not produce an adequate return for the operation of the railroad in and of itself demonstrates the unreasonableness of the order. Such, however, is not the case when the question is as to the validity of an order to do a particular act, the doing of which does not involve the question of the profitableness of the operation of the railroad as an entirety.

He said that the question raised in this instance concerned solely an order directing a carrier to furnish a facility which it is a part of its general duty to furnish for the public convenience. As the primal duty of a carrier is to furnish adequate facilities to the public, that duty may well be compelled, although by doing so as an incident some pecuniary loss from such service may result. Of course the fact that the furnishing of a necessary facility ordered may occasion an incidental pecuniary loss is an important criterion to be taken into view in determing the reasonableness of the order, but it is not the only one. As the duty to furnish necessary facilities is co-terminous with the powers of the corporation, the obligation to discharge that duty must be considered in connection with the nature and productiveness of the corporate business as a whole, the character of the services required, and the public need for its performance.

It is evident from reading the opinion that the Court was favorably impressed with the apparent thoroughness of the Commission's investigations and the care seemingly taken to get at the facts and to act with caution and deliberation. Given a different set of conditions, the Court might not have been so prone to accept the Commission's findings even as to the facts. And yet, the Court's conclusions are quite sweeping.

RAILROAD GROSS EARNINGS FOR MAY.

It is encouraging to find that returns of railroad earnings are again very satisfactory, at least as far as the gross are concerned. The fact is gratifying both on its own account and because large gains are so essential to counterbalance the tremendous increases which are taking place in the operating expenses of the roads. Our statement for April had shown quite large improvement in the gross revenues over the corresponding month of last year, and the statement we present to-day for the month of May is almost equally good. Briefly, the 67 roads which have contributed returns to this compilation (which is an early one, and, being made so soon after the close of the month, necessarily embraces only the roads that are unusually prompt in giving out the figures) show a gain in the aggregate in the sum of $10,889,344, or 14.97%.

Of course, special circumstances are in large measure responsible for the favorable character of the exhibit. And yet the increase is none the less welcome on that account. Chiefly it has to be borne in mind that, as was the case in April, comparison is with the period of suspension of coal mining in 1906. Mining in the anthracite regions last year was not resumed until the 10th of May, while in the case of bituminous coal fields the strikes were continued all through May, except of course in those instances where the operators had granted the 1903 scale of wages at the beginning of April, and where, therefore, no stoppage of work had occurred even in April. These coal strikes, it is proper to say, extended to many different States, and numerous roads in widely-separated sections sustained a decrease in tonnage on that account, though quite generally the loss in that way was made up by gain in other classes of traffic arising from the activity and prosperity of general trade. This year of course there was no disturbance of that kind and the large gains in earnings are in great part explained, therefore, byt he fact that coal traffic and coal revenues have been of normal proportions, where in 1906 they had been abnormally small.

On the other hand, Southern roads were without the advantage of a larger cotton movement, such as existed in the earlier months of 1907. Instead, the cotton movement fell off. Western roads on their part appeared to have had a smaller live-stock movement, and a number of them also had a diminished grain tonnage, though the advance in the price of wheat to above the dollar mark proved a great stimulus in enlarging the movement of wheat. Except in the case of individual roads, it must not be supposed that comparison is with diminished earnings last year. As already pointed out, business in 1906 was extremely prosperous, and, save as regards the distinctively coal-carrying roads, the loss in the coal earnings was more than offset by gains in other classes of traffic. In the aggregate our early statement for May 1906 showed

$9,323,116 increase, or 13.37%. The increase the present year of $10,889,344, or 14.97%, is additional to this previous gain. As a matter of fact, it is additional to a long series of gains, extending back a great many years, as may be seen from the following summary giving the totals for ten years. It will be observed that 1904 is the only year in the whole series marked by a loss. All the others have gains, and generally for quite large amounts.

		Mileage.			Gross Earnings.		Increase (+) or Decrease (—).	
		Year Given.	Yr. preceding.	Inc'se.	Year Given.	Year Preceding.		
May.	Roads	Miles.	Miles.	%	$	$	$	%

Note.—We do not include the Mexican roads in any of the years.

The wheat receipts at the Western primary markets, under the stimulus of the high prices prevailing, reached 18,665,912 bushels for the five weeks ending June 1 1907, against only 9,012,962 bushels for the corresponding five weeks for 1906; and the deliveries of oats, barley and rye were also larger, but the corn movement was about 2,000,000 bushels smaller. For the five cereals combined, the receipts were 56,534,603 bushels, against only 45,856,104 bushels in the five weeks of 1906. The details of the grain movement in our usual form appear in the table we now present.

We have already stated that the cotton movement in the South was smaller. The shipments overland for the month were only 58,450 bales in 1907, against 72,900 bales in 1906 and 106,311 bales in 1905. The receipts at the Southern ports were 250,876 bales, against 337,200 bales in 1906 and 626,431 bales in 1905, as will appear by the table we now subjoin.

RECEIPTS OF COTTON AT SOUTHERN PORTS IN MAY, AND FROM JAN. 1 TO MAY 31 1907, 1906 AND 1905.

With the roads as a whole making such a satisfactory showing, it necessarily follows that the separate roads have done equally well. The gains are large and come from all sections of the country, whereas the losses are few and unimportant. In truth, there is only one loss for a sum in excess of $30,000, this being furnished by the Yazoo & Mississippi Valley, which evidently suffered a falling off in its cotton traffic. Below we show all changes, whether increases or decreases, for amounts over $30,000.

PRINCIPAL CHANGES IN GROSS EARNINGS IN MAY.

ITEMS ABOUT BANKS, BANKERS AND TRUST CO.'S.

—No bank stocks were offered at the auction sale this week and none were sold at the Stock Exchange. The only transaction in trust company stock was a sale at auction of 40 shares of Carnegie Trust Co. at 250.

Shares. TRUST CO—New York.	Low.	High.	Close.	Last previous sale.
40 Carnegie Trust Co.....	250	270	250	May 1907— 225

—Governor Stuart of Pennsylvania has signed a bill which will tend to increase the deposits of national banks and trust companies, and for that reason it was favored with the support of the managers of those institutions. The new law provides that every person, firm or unincorporated association in Pennsylvania who shall hereafter engage in the banking business within the Commonwealth, and who shall hold themselves open to the public for the purpose of receiving money on deposit or otherwise, shall report to and be subject to the supervision of the Commissioner of Banking and to the laws governing his office at all times. The new law is aimed particularly at bankers in the Italian colony, but it is so broad that it includes all brokers who receive deposits and such important banking houses as Drexel & Co. and Brown Bros. & Co. A number of brokers have already taken steps to have all depositors close their accounts. The larger banking houses, some of which carry a very heavy line of deposits, will of course not give up this feature of their business, and will therefore be subject to investigation by the examiners of the Commissioner of Banking.

—A test case has been brought in this city to decide the validity of the law giving the State Comptroller or his representative the right to inspect the books of brokerage houses recording the transactions of stock transfers. On a summons taken out at the instance of Assistant District Attorney Keogh, who is co-operating with State Comptroller Glynn,

F. E. Kahn, a member of the Stock Exchange house of Herzfeld & Stern, appeared before Magistrate Moss this week, charged with violating Section 321, Chapter 324 of the Laws of 1907, in refusing to allow a representative of the Comptroller to examine the firm's books. By agreement Mr. Kahn was paroled in the custody of his counsel until the 27th inst

—An adjustment of the relations between the banks and the trust companies has been reached in Baltimore. At a meeting of the Baltimore Clearing-House Association on Tuesday, a resolution was adopted permitting members of the association to clear for non-members. This practice was formerly prohibited under Section 14 of the Clearing-House, now repealed. The new rule becomes effective at once. There has also been adopted an amendment providing that after July 1 Clearing-House banks shall charge current rates of exchange on out-of-town collections to all non-member banking institutions. Most of these non-members, the Baltimore "Sun" states, now pay this charge to their depository banks, and as the others have expressed a willingness to do so if the rule is uniform, it is not thought any difficulty will be experienced in carrying the arrangement into effect.

—Governor Chester Guild Jr. of Massachusetts has signed the bill which reduces the necessary capital of trust companies from $500,000 to $200,000 in cities with a population of over 100,000 and from $200,000 to $100,000 in municipalities with a lesser population. The bill was published in this department last week.

—A Clearing House Association has been organized by the financial institutions of York, Pa. Its officers are: President, John J. Frick, Cashier of the York National Bank; Treasurer, Ellis S. Lewis, Treasurer of this York Trust Company; Secretary, William R. Horner, Cashier of the York County National Bank. It is expected that the clearing-house will be in operation within a month.

—Archibald G. King has been appointed an additional Assistant Treasurer of the Knickerbocker Trust Company of this city.

—The new statement of the Farmers' Loan & Trust Company, of which Edwin S. Marston is President, shows quite a noteworthy increase for the past five months. Deposits on June 4 last are reported at $84,916,638 as against $78,445,775 on Jan. 1 1907, and aggregate resources show 4,336,602 as against $88,096,786.

—Henry M. Post, the Exchange member of the firm of Post Bros. & Co. of this city, was reinstated on Thursday, the Governors having remitted part of the six months' sentence imposed last February for an unintentional infraction of the rules.

—The directors of the Mercantile Trust Company and the Equitable Trust Company of this city this week approved the plans agreed upon for the consolidation of the institutions. The consolidated company, which will continue under the name of the Mercantile, will begin business about July 1 with a capital of $3,000,000 and a surplus of about $15,000,000. Alvin W. Krech, President of the Equitable, is to be at the head of the united institution. Under the agreement adopted by the boards of directors, the stockholders of the Equitable (capital $3,000,000) may elect to take $435 a share in liquidation of their stock, or one share of stock of the enlarged company for two shares of Equitable stock. The stock of the Mercantile Trust Company (capital $2,000,000) has recently been quoted at $850 asked and that of the Equitable at $435 asked. The Mercantile has deposits of over $40,000,000, while those of the Equitable exceed $18,000,000. The action of the directors will be ratified by the stockholders on July 2. The proposed merger was approved yesterday by State Superintendent of Banking Charles H. Keep.

—An interesting record of growth is displayed by the Lincoln Trust Company of this city in its deposits and in the number of its depositors, in a recent advertisement, as may be seen from the figures given herewith: Dec. 31 1902, $2,707,116 46; depositors, 349; Dec. 31 1903, $7,382,107 29; depositors, 2,219; Dec. 31 1904, $13,150,280; depositors, 3,807; Dec. 31 1905, $17,081,246 13; depositors, 5,214; Dec. 31 1906, $21,384,112 39; depositors, 6,951, and June 8 1907, $25,022,914 98; depositors, 8,127. The directors this week declared the quarterly dividend of 3% on the $1,000,000 capital. Frederick Phillips, Secretary of the company, who is known to a large number of bankers and merchants throughout the country, is interested in a movement looking to uniform trust company laws and Federal supervision of trust companies, provided they be legalized as national depositories.

—The Mercantile National Bank of this city has declared an extra dividend of 1% in addition to the semi-annual distribution of 5%, both payable July 2. The institution paid 5% on Jan. 2 last, previous to which the rate had been 4% each semi-annual period.

—The German Exchange Bank of this city has made a further increase in the semi-annual dividend, declaring 10% payable July 1, as against 8% paid Jan. 2. This last represented an increase of 1% in the semi-annual distribution, 7% having been paid each half-yearly period previously.

—John B. Jones has replaced S. H. Vandergrift as Vice-President of the Beaver National Bank of this city.

—Henry S. Kerr, formerly of the firm of Redmond, Kerr & Co. of this city, which was dissolved three years ago, died on the 8th inst. He was forty-two years of age.

—A a meeting of the directors of the Nassau Bank of this city on Wednesday John Munro was elected a Vice-President.

—During the past week some of the directors of the Bronx Borough Bank, of which C. Adelbert Becker is President, purchased control of the Cosmopolitan Bank, located near the corner of Westchester and Prospect avenues, Borough of the Bronx. We are informed that no consolidation will take place at present; the two banks will, however, be closely allied, Mr. Becker being at the head of both institutions. The Bronx Borough Bank, which is located at 702-704 Tremont Avenue, has been rapidly increasing its business and its deposits are now over $1,500,000. The bank has a capital of $100,000 and a surplus of the same amount.

—Another consolidation of banking institutions in Providence has been effected. On Monday of this week the business of the Fourth National Bank was transferred to the United National Bank of that city. The Fourth National was chartered as the Continental Bank in 1853, becoming a national institution in 1864. It has a capital of $500,000, surplus and profits of $204,559 and deposits of about $500,000. The stockholders will meet on July 17 to authorize its liquidation. The United National Bank, by which it is taken over, is controlled, it is understood, by the Industrial Trust Company of Providence. John D. Lewis, President of the Fourth National, has been elected a Vice-President and director of the United National.

—A. J. Foster has been elected to succeed the late Samuel B. Hopkins as President of the People's National Bank of Roxbury (Boston), Mass.

—Arthur E. Appleyard, a broker, was suspended from the Philadelphia Stock Exchange on Thursday. The action, it is understood, is due to the fact that Mr. Appleyard, who had recently been a heavy trader in United Gas Improvement securities, had failed to make a deposit of the stock or to put up the necessary margin in the required time. Previous to this, Mr. Appleyard had not been active in business affair since the failure of the German Bank of Buffalo, due in great measure because of loans made to him. In a settlement arrived at several weeks ago, Receiver Wheeler was authorized to accept an offer of $40,000 made by Mr. Appleyard, and this money was to have been paid this week.

—A useful little manual for European travelers has been issued by the Trust Company of North America of Philadelphia. The booklet covers the subject of "Foreign Money," and while it does not pretend to be a comprehensive work, being designed primarily to assist the traveler in Europe to understand English, French and German currency, it gives nevertheless, much information likely to be serviceable to him. The kind of money to be taken by the tourist is the first question answered in the booklet. Not a few experienced travelers, it is stated, carry as a reserve fund a sum of money in United States notes; but if this is done they should be gold notes. On the Continent these gold notes are often taken by bankers at a favorable rate of exchange. "On the whole, however, it is probable that Bank of England notes are more generally acceptable all over the world than any other paper currency. If it is found expedient to carry

any considerable amount of money in currency the tourist cannot well do better than supply himself with this form of money. The reason for this is that London, being the great banking centre, London exchange is always in demand all over the world." The traveler is cautioned against repudiated and short-weight sovereigns, and made acquainted with facts concerning the "origin of the guinea," the Bank of England, "mismatched notes," the Bank of France, the Imperial Bank of Germany, the Latin Union, "French gold" and British money, all of which make interesting reading. Tables are given showing the value in United States money of English, French and German paper money, gold, silver and minor coins, and the values of the various coinages of the world as fixed by the Director of the United States Mint.

—Since April of last year the total assets of the combined banking institutions of Lancaster County, Pa., have grown from $36,626,248 to $37,030,974. The greater part of the latter amount is held by the national banks, these reporting on May 20 1907 a total of $20,324,565; the trust companies show $15,516,153 and the savings banks $1,190,256.

—Checks for the full amount of the claims of the depositors and creditors of the Columbia Savings & Trust Company of Pittsburgh have, according to Pittsburgh "Money," been distributed by Receiver George H. Calvert. The institution closed its doors on May 9 1906. On the savings accounts and creditors' claims interest to the date of closing was added, but on the checking accounts, it is stated, no interest was allowed. The receiver also has on hand some $40,000 which will go toward paying the stockholders, besides some assets still outstanding.

—Reese G. Brooks, President of the Dime Deposit & Discount Bank of Scranton, Pa., and Vice-President of the West Side Bank of that city, died on the 12th inst. He was sixty-one years of age.

—The stockholders of the Woodland Avenue Savings & Trust Company of Cleveland, Ohio, have ratified a proposition to increase the capital from $250,000 to $350,000. The selling price of the new stock—$160 per share of $100—will enlarge the bank's surplus also, making it $250,000. The increased capital will become effective on July 1.

—E. H. Flinn, heretofore Second Vice-President of the Old Detroit National Bank of Detroit, has been chosen to succeed the late Theodore D. Buhl as First Vice-President of the institution. H. P. Baldwin has been elected Second Vice-President.

—The German-American Bank of Detroit, Mich., will, it is reported, increase its capital from $100,000 to $250,000. The Detroit "Capital" states that the present stockholders are to receive a dividend of 70%, payable in cash or in the new stock at $120 per share.

—The Illinois Bankers' Association will hold its annual meeting on Oct. 9 and 10 at Moline, Ill. Frank P. Judson, Cashier of the Bankers' National Bank of Chicago, is Secretary of the association.

—At a directors' meeting of the State Bank of Chicago on the 11th inst. a quarterly dividend of 2½% payable July 1 was declared; also an extra dividend of ½%, to be added to the 2% declared in April, thus raising the dividend basis from 8% to 10% per annum. For the past few years the State Bank has enjoyed an unusual degree of prosperity, having earned for the last three years 30% on its capital stock of $1,000,000. Its present deposits exceed $18,000,000. $200,000 has just been transferred from undivided profits to surplus, making the latter item $1,000,000, and still leaving about $70,000 in the profit account

—An article on "Why the Small Investor Loses," written by Charles G. Dawes, President of the Central Trust Company of Illinois, Chicago, for the purpose of warning prospective small investors against "get-rich-quick" plans, has been distributed in pamphlet form. This article was published in the "Saturday Evening Post" of April 20 1907.

—S. M. Felton, President of the Chicago & Alton Railroad Company, has been elected a director of the Central Trust Company of Illinois(Chicago)to succeed Frank O. Lowden, resigned.

—The residuary legatees and managers of the Jennings Real Estate Loan & Trust Bank, Chicago, have dropped the title under which business was formerly done, and under State authority, have adopted the name of the United States Trust Company.

—The Tennessee Bankers' Association will meet in annual session on Tuesday and Wednesday of next week at Lookout Mountain, Chattanooga. The address of welcome is to be delivered by Senator Frazier, and the response made by W. H. Gass, President of the Knoxville Banking Company of Knoxville. Among the subjects to be discussed at the meetings are the following: "Government and the Banks," by J. H. Watkins, Vice-President of the Bank of Commerce & Trust Company, Memphis; "Industrial Progress and the Future of the South," by ex-Senator E. W. Carmack; "Overdrafts, Excessive Loans and Past-Due Paper," by W. G. Dillon, Cashier of the First National Bank of Tracy City; "Relationship Between Railroads and other Business Enterprises," by W. W. Finley, President of the Southern Ry., and "Personality in Banking," by Rutledge Smith of Cookeville, Tenn.

—Under the leadership of Bird M. Robinson, of the Mobile Jackson & Kansas City RR., the city of Knoxville, Tenn., may soon have a new trust company. A charter has been applied for under the name of the Tennessee Trust & Banking Company, the present plans providing for $500,000 capital and a surplus of $250,000, the shares selling at $150. Mr. Robinson has interested in the proposed formation of this new company several Knoxville bankers, all directors of the Mechanics' National Bank of that city, with which the new company will be closely associated: W. J. Oliver, whose Government bid for building the Panama Canal is of recent occurrence; Henry Fonde, General Agent Southern Ry. Co.; James Maynard, President Brookside Cotton Mills; J. C. Luttrell; S. B. Luttrell, of S. B. Luttrell & Co., wholesale hardware dealers, and E. G. Oates. Very strong financial interests in the East will also be connected with the company. It is expected that Mr. Robinson will be the President and that S. B. Luttrell, President of the Mechanics' National, will be Chairman of its board of directors.

—The Knoxville Banking Co. of Knoxville, Tenn., which was established in 1888, will enter upon a new era of its history July 1, when the institution increases its directorate and commences the construction of a new modern ten-story bank building in the center of the business district. It is the intention of the directors to convert the institution into a trust company, changing its name to the Knoxville Banking & Trust Company. The first and second floors of the new building, on Gay and Clinch streets, are to be occupied by the bank and trust departments, the rest being rented out for offices. In January last the stockholders approved a proposition to increase the capital from $50,000 to $100,000, and another addition will be made July 1 raising it to $250,000; during the construction of the new building it is the purpose to increase the amount to $500,000. The officers of this enterprising Tennessee company are: President, W. H. Gass; Vice-President, J. W. Hope, and Cashier, W. W. Willis.

—The Georgia Bankers' Association, at its annual session held at Macon, Ga., on the 5th and 6th inst., recommended for adoption in that State the Torren's system of registering land titles. The association also adopted a resolution urging the Congressional representatives of the State to endeavor to secure the repeal of the National Bankruptcy Law. The officers of the association for the ensuing year are President Joseph S. Davis, Cashier of the First National Bank of Albany, Ga.; First Vice-President Oscar E. Dooly, Assistant Cashier of the American National Bank of Macon; Secretary (re-elected) L. P. Hillyer, Vice-President and Cashier of the American National Bank of Macon; Treasurer (re-elected) E. C. Smith, Cashier of the Griffin Banking Company of Griffin, Ga.

—The directors of the American National Bank of Vicksburg, Miss., have elected Mrs. B. B. Willis President to succeed the late Gen. Edward S. Butts.

—The Commonwealth National Bank of Dallas, Tex., which commenced business on May 1, reported deposits of $899,013 in its first statement under the call of the Comptroller of the Currency, made twenty days after the bank's opening, or on May 20. The statement also showed capital stock paid in of $500,000, undivided profits of $9,861 and total resources of $1,408,873. The officers of the institution are: E. M. Turner, President; I. H. Kempner, C. J. Sorrells

and John H. Gaston, Vice-Presidents; R. C. Ayres, Cashier; Manton W. Jones, H. L. Tenison and J. R. Bower, Assistant Cashiers.

—The Bankers' Investment Company is the name of a projected institution in Dallas, Tex., which is to have a capital of $200,000. W. H. Gaston, of the Gaston National Bank of Dallas, is one of the directors of the new concern, with Rhodes S. Baker, C. H. Munger, J. W. Ogburn, Hugh Halsell, D. E. Waggoner of Dallas; W. R. Brents, President of the Commercial National Bank of Sherman, Texas; S. B. Norwood, of the National Bank of Cleburne; S. J. McFarland, Vice-President of the First National Bank of Ladonia, and J. W. Haden of Bonham. It is stated to be the aim of the projectors to acquire or establish a chain of banks in Texas.

—An application to organize the Exchange National Bank of Waco, Texas, was approved by the Comptroller of the Currency on June 7. The capital is to be $200,000. A. P. Duncan, F. E. McLarty, W. Herrick, G. Smith, Horace M. Minix and C. M. Hubby are interested.

—The Citizens' National Bank of San Francisco was placed in voluntary liquidation on the 1st inst., having been succeeded by the Bank of San Francisco. The latter has a capital of $200,000 and is affiliated with the Crocker National Bank. Its directors are William H. Crocker, A. H. Giannini, Hugo D. Keil, George D. Cooper, Thomas W. Huntington, W. Frank Pierce, E. E. Johnson, James J. Fagan, John E. Quinn, Henry T. Scott and Albert Sutton.

—At the annual meeting on the 11th inst. of the Sovereign Bank of Canada (head office, Toronto) the new administration announced that a re-valuation of the bank's assets had been made, necessitating the writing off of some $2,240,000. Of the total it was recommended that $700,656 be written off for bad debts, $150,608 for depreciation in securities and $48,109 for reduction in bank premises and furniture; that $541,494 should be set aside in Contingent Fund for accounts which are in liquidation or in which there is a large element of doubt, and that a further Contingent Fund of $800,000 should be provided in respect of certain unsatisfactory advances the outcome of which is uncertain. To provide for all these it has been necessary to appropriate the entire reserve fund (amounting April 30 1907 to $1,255,950) and to reduce the capital from $4,000,000 to $3,000,000. It is expected that a considerable portion of the amount written off, especially that due to the depreciation of securities, will subsequently be recovered. The bank has deposits of over $14,000,000. J. C. Jemmett, who resigned as Secretary of the Canadian Bank of Commerce last month, to become Joint General Manager of the Sovereign Bank, has since been appointed General Manager to succeed Duncan M. Stewart. It has been decided to alter the date of the annual meeting of the bank from June to July, and the dates of dividend payments will accordingly be changed.

IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

The Collector of Customs at San Francisco has furnished us this week the details of imports and exports of gold and silver through that port for the month of April, and we give them below in conjunction with the figures for preceding months, thus completing the results for the ten months of the fiscal year 1906-07. The imports of gold were of moderate volume, reaching $379,594, mainly bullion. Of silver there came in $315,046, also mainly bullion. During the ten months there was received a total of $11,120,410 gold and $2,877,825 silver, which compares with $2,285,986 gold and $2,162,211 silver in 1905-06. The shipments of gold during April were *nil*, and the exports of silver were $3,718 coin. For the ten months the exports of gold coin reached only $16,735, against $5,362,339 in 1905-06, and $1,648,321 silver was sent out against $8,931,173 in 1905-06. The exhibit for April and for the ten months is as follows:
